PROCEEDINGS AND DEBATES OF THE 101st CONGRESS, SECOND SESSION

HOUSE OF REPRESENTATIVES—*Friday, August 3, 1990*

The House met at 10 a.m.

The Chaplain, Rev. James David Ford, D.D., offered the following prayer:

May our vision of the purpose of life, O God, be broad enough to span the needs of all people and also the concerns of those nearest to us. May our work for justice be for people in all the places of the world so that our actions will better reflect the nature and the breadth of the bond You have given at creation. May our desire for the living waters of life find fulfillment in Your way and in Your peace.

We specially pray, O God, for those to whom great responsibility is given in the life of our own Nation. May wisdom be the standard of our thought, word, and deed, and justice be our goal that people will share together in Your blessings and the abundance of Your gifts to us. In Your name, we pray. Amen.

THE JOURNAL

The SPEAKER. The Chair has examined the Journal of the last day's proceedings and announces to the House his approval thereof.

Pursuant to clause 1, rule I, the Journal stands approved.

Mr. KYL. Mr. Speaker, pursuant to clause 1, rule I, I demand a vote on agreeing to the Speaker's approval of the Journal.

The SPEAKER. The question is on the Chair's approval of the Journal.

The question was taken; and the Speaker announced that the noes appeared to have it.

Mr. KYL. Mr. Speaker, I object to the vote on the ground that a quorum is not present and make the point of order that a quorum is not present.

The SPEAKER. Evidently a quorum is not present.

The Sergeant at Arms will notify absent Members.

The vote was taken by electronic device, and there were—yeas 270, nays 126, not voting 36, as follows:

[Roll No. 308]

NOTICE

An interim issue of the daily Congressional Record will be published during the August adjournment in order to permit Members to revise and extend their remarks.

All material for insertion must be signed by the Member and delivered to the respective offices of the Official Reporters of Debates (Room HT-60 or S-220 of the Capitol), Monday through Friday, between the hours of 10:00 a.m. and 3:00 p.m., through August 15. The interim issue will be dated August 15, 1990 and will be delivered on August 16.

None of the material printed in the interim issue of the Congressional Record may contain subject matter, or relate to any event, that occurred after the adjournment date.

Members of Congress desiring to purchase reprints of material submitted for inclusion in the Congressional Record during the adjournment may do so by contacting the Congressional Printing Management Division, at the Government Printing Office, on 275-2226, between the hours of 8:00 a.m. and 4:30 p.m. daily.

By order of the Joint Committee on Printing.

WENDELL H. FORD, *Chairman.*

□ 1027

So the Journal was approved.

The result of the vote was announced as above recorded.

PLEDGE OF ALLEGIANCE

The SPEAKER pro tempore (Mr. MCNULTY). Will the gentleman from Oregon [Mr. WYDEN] please come forward and lead the House in the Pledge of Allegiance?

Mr. WYDEN led the Pledge of Allegiance as follows:

I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

MESSAGE FROM THE SENATE

A message from the Senate by Mr. Hallen, one of its clerks, announced that the Senate had passed with amendments in which the concurrence of the House is requested, bills of the House of the following titles:

H.R. 1199. An act to amend title 38, United States Code, to improve recruitment and retention of nurses in the Department of Veterans Affairs by providing greater flexibility in the pay system for those nurses and to authorize the Secretary of Veterans Affairs to provide certain procreative services for married veterans with service-connected disabilities which impair their ability to procrate;

H.R. 2372. An act to provide jurisdiction and procedures for claims for compassionate payments for injuries due to exposure to radiation from nuclear testing; and

H.R. 5019. An act making appropriations for energy and water development for the fiscal year ending September 30, 1991, and for other purposes.

The message also announced that the Senate insists upon are amendments to the bill (H.R. 5019) "An Act making appropriations for energy and water development for the fiscal year ending September 30, 1991, and for other purposes," requests a conference with the House on the disagreeing votes of the two Houses thereon, and appoints Mr. JOHNSON, Mr. BYRD, Mr. HOLLINGS, Mr. BURDICK, Mr. SASSER, Mr. DECONCINI, Mr. REID, Mr. HATFIELD, Mr. MCCLURE, Mr. GARN, Mr. COCHRAN, Mr. DOMENICI, and Mr. SPECTER to be the conferees on the part of the Senate.

The message also announced that the Senate agrees to the report of the committee of conference on the disagreeing votes of the two Houses on the amendment of the Senate to the bill (H.R. 1465) "An Act to establish limitations on liability for damages resulting from oil pollution, to establish a fund for the payment of compensation for such damages, and for other purposes."

The message also announced that the Senate agrees to the report of the committee of conference on the disagreeing votes of the two Houses on the amendment of the Senate to the bill (H.R. 7) "An Act to amend the Carl D. Perkins Vocational Education Act to improve the provision of services under such Act and to extend the authorities contained in such Act through the fiscal year 1995, and for other purposes."

The message also announced that the Senate had passed bills, joint resolution, and concurrent resolution of the following titles, in which the concurrence of the House is requested:

S. 137. An act to amend the Federal Election Campaign Act of 1971 to provide for a voluntary system of spending limits and partial public financing of Senate general election campaigns, to limit contributions by multicandidate political committees, and for other purposes;

S. 1731. An act to provide for the creation, restoration, protection, enhancement, and conservation of coastal wetlands, and to conserve North American wetland ecosystems and waterfowl and the other migratory birds and fish and wildlife that depend upon such habitats, and for other purposes;

S. 1770. An act to assess the suitability and feasibility of including certain Shenandoah Valley Civil War sites in the National Park System, and for other purposes;

S. 2597. An act to amend the act of June 20, 1910, to clarify in the State of New Mexico authority to exchange lands granted by the United States in trust, and to validate prior land exchanges;

S. 2740. An act to provide for the conservation and development of water and related resources, to authorize the U.S. Army Corps of Engineers civil works program to construct various projects for improvements to the Nation's infrastructure, and for other purposes;

S.J. Res. 309. Joint resolution designating the month of October 1990 as "Crime Prevention Month;" and

S. Con. Res. 122. Concurrent resolution to establish an Albert Einstein Congressional Fellowship Program.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore. At the request of the Speaker, the Chair announces to the House that there will be 10 1-minute speeches allowed on each side in the House at this particular point in time, and there may be other 1-minute speeches allowed later in the day.

APOLOGY DEMANDED ON MEMBER'S ATTACK ON SECRETARY SULLIVAN

(Mr. MICHEL asked and was given permission to address the House for 1 minute.)

Mr. MICHEL. Mr. Speaker, I was appalled to read in this morning's newspaper, way back on page 8, not on the front page, a report of a racially insulting attack by a member of the majority on Secretary of Health and Human Services Louis Sullivan.

Now, assuming that the news report is correct, I find this attack as bizarre as it is deplorable, and coming as it does in the midst of a debate on civil rights, as the majority is telling us of its undoubted sensitivity on racial matters, this attack must sadden the majority as much as it does the rest of us. To gratuitously drag in Secretary

Sullivan's race in a dispute over policy brings discredit upon this institution.

No matter how much we may disagree on policy and no matter how heated our debates may be, no one has the right to bring into question a man's race, religion, or national origin. I believe this attack is serious enough to demand a full apology from the Member involved, not only to Secretary Sullivan and his family, but all Members of this House.

MEMBER'S REPLY TO CHARGES OF RACIAL ATTACK ON SECRETARY SULLIVAN

(Mr. STARK asked and was given permission to address the House for 1 minute, and to revise and extend his remarks.)

Mr. STARK. Mr. Speaker, the distinguished minority leader is absolutely right: To bring race or religion and personal attributes into a policy debate is wrong, and to the Secretary I have to say I blew it; I should not have brought into the discussion his race, because it obscures the fact that he is carrying a bankrupt policy for an administration which has been impacting the poor and the minorities of this country by denying them decent medical care, by turning away from jobs programs that would help those who are mostly minorities, by discharging people from the military and refusing to provide them the extended benefits they need for unemployment, by denying poor women abortions, and by turning around a man who otherwise, in his own personal philosophy, would have supported abortions in Roe versus Wade. And to be led by the likes of John Sununu and Mr. Darman down the paths of darkness is wrong, and I apologize for obscuring that.

SEQUESTER LOOMS, ECONOMIC PROBLEMS REMAIN

(Mr. CONTE asked and was given permission to address the House for 1 minute.)

Mr. CONTE. Mr. Speaker, the sequester is now just 84 days away, and we are about to race to the airport for summer vacation, to tell the people back home how much we have done for them.

But with a stalled summit, an empty plate, and the sequester of Gramm-Rudman looming over the horizon, we have done nothing for our people. And we are poised to give the bad guys just what they want. Because you see, Mr. Speaker, believe it or not, some people out there want to see Gramm-Rudman take its whack.

Tax evaders are overjoyed with the sequester. IRS audits will be reduced and investigations curtailed.

Drug smugglers will be dancing in the street of Bogotá. Customs cargo inspections will be reduced by 36 percent.

White collar criminals will be laughing all the way to the bank. The FBI will have 1,000 plus fewer convictions.

And illegal aliens are waiting for the signal to go. INS operations will be crippled, and the flow of illegals will begin.

Mr. Speaker, it is a shame. No, a crime that we are leaving for vacation when our work for the people is unfinished. We have nothing to show for 12 weeks of summitry—only an empty plate and scraps on the table. Let us stop talking and get moving.

Mr. Speaker, I say, "No vacation. Let's stay here; turn off the air conditioners. Let's stay here and clean it up."

PRICES FOR INFANT FORMULA ESCALATE

(Mr. WYDEN asked and was given permission to address the House for 1 minute, and to revise and extend his remarks.)

Mr. WYDEN. Mr. Speaker, the Women, Infants, and Children [WIC] Program is, dollar for dollar, one of the best programs run by the Government, but too many of those dollars are being used to line the pockets of the infant formula companies rather than to feed needy kids.

The retail price of this can of infant formula is $2.30, and over the last decade infant formula prices have risen more than 150 percent, far more than groceries, dairy products, or other essentials.

Mr. Speaker, more than 140 Members of Congress are joining me in asking the infant formula companies to lower the price of this can 30 percent, and I hope that in the name of good corporate citizenship the companies do that by fall when the WIC contracts come up.

CALLING FOR AN APOLOGY FOR REMARKS CONCERNING DR. SULLIVAN

(Mr. WEBER asked and was given permission to address the House for 1 minute, and to revise and extend his remarks.)

Mr. WEBER. Mr. Speaker, yesterday the Secretary of Health and Human Services was subjected to vicious racist assault on his character by a Member of this body. According to the press, one of our colleagues referred to Dr. Sullivan as "a disgrace to his race."

Mr. Speaker, Dr. Sullivan is an outstanding physician, educator, and public servant. He is also a friend of mine. He has sacrificed greatly financially to serve the public. He has never attacked any Member of Congress to my knowledge, even in the mildest of terms.

The attack on Dr. Sullivan is one of the most despicable actions I have seen in my 10 years in this body. To suggest that a person is a "disgrace to his race" is itself a nakedly racist comment. The true disgrace in this incident is the disgrace these remarks have brought to this body. Dr. Sullivan is a decent human being and a fine public servant who has been maligned by a Member of this body.

Mr. Speaker, he deserved an apology this morning. He did not get an apology. Instead, the assault on him was renewed, to the continuing disgrace of this body.

FURTHER CONSIDERATION OF CIVIL RIGHTS BILL UPCOMING

(Mr. WASHINGTON asked and was given permission to address the House for 1 minute, and to revise and extend his remarks.)

Mr. WASHINGTON. Mr. Speaker, very shortly we will take up consideration to completion of the civil rights bill. I call upon my colleagues who are going to offer the substitute to venture from the usual procedure of addressing the cameras and the people in the gallery. I will ask someone to yield to me, because if in your heart you believe that your substitute is right, you ought to be able to defend it before a man who has tried civil rights cases for 20 years.

I regret the remark that was made regarding Mr. Sullivan, and I am sure those who are clapping every time a vitriolic attack is made upon this man who has apologized will join the rest of us in passing the Civil Rights Act, because if you truly do believe in civil rights, then, as one of my campaign opponents said, "What you do speaks so loudly I can't hear what you say."

REMARKS ABOUT SECRETARY SULLIVAN SEEN AS RACIST

(Mr. KOLBE asked and was given permission to address the House 1 minute, and to revise and extend his remarks.)

Mr. KOLBE. Mr. Speaker, yesterday the distinguished Secretary of Health and Human Services, Dr. Louis Sullivan, was subjected to a disgraceful attack by a Member of this body.

In my brief tenure in this House I have never heard a member of the President's Cabinet described in such blatant, racist terms.

I know Dr. Sullivan, and I know him to be a distinguished physician, an outstanding medical educator, and a good administrator. More to the point, he is one of the most decent human beings I have ever had the honor of knowing.

Mr. Speaker, we may disagree on policy issues with one another and with others inside and outside the

Government about national health insurance or on issues of tobacco smoking and who should pay its costs to society, but, Mr. Speaker, no person should be subjected to remarks degrading them or suggesting they disgrace their race. Such remarks do nothing to the honor or integrity of Dr. Louis Sullivan, but they do demean this House and every Member of it.

Mr. Speaker, Secretary Sullivan deserves an apology. Instead, he got another slap in the face this morning.

□ 1040

CAMPAIGN REFORM—WE CAN LIVE WITH IT

(Mr. ANTHONY asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. ANTHONY. Mr. Speaker, later today we will be voting on the rule on H.R. 5400, campaign finance reform. Hopefully, the rule will pass, and then we will be debating the bill.

Mr. Speaker, I served on a task force for over 18 months as the chairman of the Democratic Congressional Campaign Committee. I have also traveled this country for 3½ years asking for money.

Mr. Speaker, I can tell my colleagues that this campaign system is bankrupt. There is too much money chasing after candidates. We got some State races that this last election cycle went over $1 million.

Each year, to get into this body, the cost creeps up. We must put a campaign cap on it. This bill caps very generously at $550,000. Anybody in this body can live with that. We also limit the amount of money which can be received from political action committees at $275,000.

Mr. Speaker, there are other good reforms in this bill. I encourage my colleagues to vote for the rule and vote for the campaign reform bill.

A SAD DAY FOR THIS HOUSE

(Mr. GRADISON asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. GRADISON. Mr. Speaker, I, too, rise to express my outrage at the intemperate and outrageous personal attacks on Secretary of Health and Human Sevices, Lewis Sullivan. Dr. Sullivan is an outstanding physician and scientist, an able and prudent administrator and a compassionate man. Under his leadership the administration is working as we meet to develop legislative proposals to deal with our serious national health care problems, problems of access, quality and cost.

It is a sad day, Mr. Speaker, for this House when a Member resorts to continued criticism of one of our Nation's finest public servants.

VOTE TO STOP THE CAMPAIGN SPENDING SPREE

(Mr. WISE asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. WISE. Mr. Speaker, if people are concerned about reforming the election process, the time is here today. Limit political action committees, limit soft money, encourage small contributors and, most importantly, limit campaign spending overall.

Mr. Speaker, the biggest complaint by constituents is how much money is being spent in campaigns. "Stop the money race," they plead.

Mr. Speaker, this bill today does just that, by putting a cap on total campaign spending.

On the other side, they will say that our bill is the reform bill because it reduces PAC contributions. Let me tell my colleagues what their bill will not do.

Mr. Speaker, it does not put a cap on campaign spending, so it says, "Raise all you can, spend all you can. Let the good times roll."

Mr. Speaker, the American people are tired of this. Voting turnout has been dropping in past elections. I believe this is because voters are growing cynical.

Today, Mr. Speaker, this House can send a message that is saying, "All voters are welcome, not the fat cats, not just big money." Lower the contribution level. Put a fixed cap on total spending. Talking about reform will not do it. Voting to stop the campaign spending spree will.

NO NEW TAXES

(Mr. BURTON of Indiana asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. BURTON of Indiana. Mr. Speaker, today we will adjourn for the month of August without a budget agreement. Democrats have pushed again and again for a tax increase and have said that, if taxes are not a part of the package, they will not sign on. Mr. Speaker, we do not need a tax increase.

Mr. Speaker, we have a budget proposal right here that will reach our targets with no new taxes. It does exist, and here it is.

With Saddam Hussein forcing the price of oil up by invading Kuwait, thus endangering our economy and the world, we sure do not need a tax increase right now that precipitates a recession.

Here is the budget, and it includes, "Read my lips. No new taxes."

THE ROLE OF MONEY IN THE POLITICAL PROCESS

(Ms. PELOSI asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. PELOSI. Mr. Speaker, over and over again we have bemoaned the fact that there is such low voter turnout in our country. One of the reasons for this is an obstacle that the public sees, and it is the role of money in the political process.

Mr. Speaker, the role of money has caused alienation, which has served as an obstacle to participation. Today in this body we will have the opportunity to pass legislation that removes that obstacle.

Mr. Speaker, the Campaign Reform Act that we will be debating and the amendment to it, the Obey-Synar amendment, will limit spending in campaigns, limit the participation of PAC's, and, with the amendment, call for voluntary; I repeat, voluntary, public financing. The amendment rewards small donor contributions.

Mr. Speaker, the passage of this bill will go a long way to increase citizen participation in the political process. I urge my colleagues to support this important legislation.

THE PRESIDENT HAS NOT RULED OUT USE OF MILITARY FORCE IN THE MIDDLE EAST

(Mr. GEKAS asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. GEKAS. Mr. Speaker, Members of the House, the President of the United States has said that he has not ruled out the use of military force in the very serious situation that now obtains in the Middle East. I want him to know that whatever option he exercises, even if it should include a military or a paramilitary action, that this Member of Congress, and many others, would support him wholeheartedly. The American people represented by this Congress will also support such an action.

Mr. Speaker, what is happening now in the Middle East affects the standard of living of the American people, the national security of our country and the stable situation that now exists in the Western World.

So, Mr. Speaker, I say, "Mr. President, we are with you, whatever decision you make in this very volatile situation."

SEND IN THE CAPITOL POLICE

(Mr. TRAFICANT asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. TRAFICANT. Mr. Speaker, the world is being threatened by a madman attempting to take all the oil, and yesterday Admiral Crowe, former Chief of the Joint Chiefs of Staff, said, "Look here," he says, "America does not have the capability to do anything in the gulf."

Now I want my colleagues to think about that. After spending trillions of dollars on star wars and war games, Congress may be forced to send in the Capitol Police, my colleagues, and they are underpaid.

This is no joke. Think about it. Trillions of dollars. We have B-1's, B-2's, F-14's, F-15's, F-16's.

I say to my colleagues, "Let's face it. Maybe we can hire generals a hell of a lot cheaper from Korea that will do a better job. This isn't Grenada. Let's start using that trillion dollar budget before we have to drive to Iraq to buy a gallon of gas."

HAVE A FUN MONTH

(Mr. DORNAN of California asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. DORNAN. Mr. Speaker, I would love to be up here and talk about Saddam Hussein. But I will save that for a 60-minute later today.

I would love to talk about the so-called unanimous report of the Ethics Committee, which was not unanimous, and all the jobs that would be denied to us on the outside because our standards here are the lowest common denominator.

I would love to talk about the insult to Doc Sullivan, a decent, caring man who I consider a friend of mine now. But I think I know the root cause of the problem of the gentleman from California [Mr. STARK].

My colleagues, in Ashqelon, just within the last week, they found the golden calf, the idol that the heretics worshipped. What we are worshipping in this country today, unfortunately, is the god Baal. They fed him children. They threw them into the fire.

Mr. Speaker, I say to my colleagues that I want to help you guys. I want to give you a heads-up. I am going to be walking precincts this month. Here is the current Life magazine. It is going to be out there on coffee tables across America. When people bring it to his door and ask PETE about it, PETE STARK, if this is a human being with an immortal soul, as JOE KENNEDY'S mother and grandmother thinks, he better have some answers.

Mr. Speaker, do my colleagues know what I am carrying and will be for the rest of my time here? An anthropomorphically correct model of a 12-week-old fetus. Call it Michelle, call it Michael. The heart has been beating since day 18. There have been brain waves since day 40.

I say to my colleagues, "That's a baby, PETE, with an immortal soul. So, come up and ask me about it. I will let you touch it and handle it."

My colleagues are going to have a fun month.

POLITICAL HAY

(Mr. DYMALLY asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. DYMALLY. Mr. Speaker, the gentleman from California [Mr. STARK], my friend and colleague, had the courage and intellectual honesty to come here and apologize.

Let me remind my friends on this side of the aisle who are trying to make political hay of this issue: "When a member of your party made some derogatory remarks about blacks, I was chairman of the Congressional Black Caucus, and the Caucus took a conciliatory position. We did not come here on the floor and beat up on him. Rather, we accepted his apology in private."

Mr. Speaker, the gentleman from California [Mr. STARK] made his apology in public, and I say to my colleagues, "If you really believe in civil rights, if you really want to make some political hay, vote for this civil rights bill today."

In addition, Mr. Speaker, let me remind my Republican friends to check with the Republican candidates for the Senate in Louisiana, Georgia, and North Carolina, just to name a few States.

□ 1050

They will tell you what the African-Americans did to them. Change the Senate back to Democratic. Do not take chances with this bill.

PULL HUSSEIN'S THUMB OUT OF OUR EYE AND BREAK HIS ARM

(Mr. BROOMFIELD asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. BROOMFIELD. Mr. Speaker, in 1936, a power-mad tyrant invaded the Rhineland. He knew the world's democracies did not have the courage to stand up to him, and he was right.

Two days ago, another power-mad tyrant invaded Kuwait. Hussein thinks we will appease him. I say let us prove him wrong.

Hussein's lust for domination could bring a major war in the Middle East and worldwide economic troubles. The stakes are too high to dilly-dally around. He has stuck his thumb in our eye. I say we should break his arm.

The United Nations can take all the votes it wants, our allies can undertake all the consultations they want, but there is still only one leader of the free nations of the world. President Bush has a fistful of hard-hitting options, and I am confident he will move quickly to stop this madman.

REQUEST FOR RECOGNITION ON POINT OF PERSONAL PRIVILEGE

Mr. JACOBS. Mr. Speaker, I rise to a point of personal privilege.

The SPEAKER pro tempore (Mr. MCNULTY). The gentleman will state his point of personal privilege.

Mr. JACOBS. Mr. Speaker, the oldest complaint in politics is to be misquoted. The cartoons have Senator Snort writing a book entitled "I Was Misquoted" for his entire career.

I just want to take a second, a little more than a second, to maybe advise the House how to do an interview with the local newspaper, the Washington Post.

The SPEAKER pro tempore. The gentleman must first convince the Chair that he has a point of personal privilege.

Mr. JACOBS. Mr. Speaker, I have been, as I say, wronged. I have been presented wrongly by the paper.

The SPEAKER pro tempore. The gentleman must indicate a point of personal privilege to the Chair first, before he is recognized.

ON BEING MISQUOTED IN THE WASHINGTON POST

(Mr. JACOBS asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. JACOBS. Mr. Speaker, if you give an interview to a reporter, like Spencer Rich at the Washington Post, you can relax. You can assume that what you say is what they print. If you give an interview to maybe somebody else at the Washington Post, you cannot always rely on that.

I have a generic objection to the personal use of campaign funds. It is not partisan, and the people who know me well here know that is not my record here in the House; yet I was pictured as being partisan this morning in the newspaper. I was even quoted as saying, "A guy taking a salary from his campaign committee has got to be cleared up." Does anybody here believe I speak in such nonsequiturs?

So if anybody takes any offense from what is printed here, that I criticized the party rather than what is right, please do not take offense. Any relationship between what I said and what is printed is not just coincidental. I believe it was an accident.

CONGRESS SHOULD NOT ADJOURN WITH SO MUCH IMPORTANT BUSINESS HANGING FIRE

(Mrs. BENTLEY asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Mrs. BENTLEY. Mr. Speaker, I believe that we should reconsider adjourning the Congress this weekend with so much important business still hanging fire. There is no agreement on the budget as we face sequester for a $104 billion shortfall. Every committee and Member of the House should be working on the least harmful cuts to the country in their area of responsibility. At the same time the Middle East is in turmoil as Iraq marches around Kuwait and threatens the major oil supply of much of the world.

If we walk out on this to take a "vacation," can any one of us wonder why the country is outraged at incumbency? The appearance we give is that it is more important for us to get away for a break than it is to do the urgent business of the country—to do what we were elected to do.

The appearance is of irresponsibility at a time of great crisis, not only in the country, but in the world. How can we ask the American people to sacrifice—to possibly have to pay larger taxes in many areas—if we are not willing to sacrifice our break until we take care of the business of the country.

Mr. KASICH. Mr. Speaker, will the gentlewoman yield?

Mrs. BENTLEY. I yield to the gentleman from Ohio.

A TIME TO STAY CALM

Mr. KASICH. Mr. Speaker, I am disappointed that some of my colleagues have seized on the situation in Iraq to justify a new generation of weapons.

I remind my friends that we spent $1 trillion on the defense buildup during the Reagan years to meet this and many other threats.

I hope my friends will stay calm and realize that the many strategic and conventional systems that were built under Ronald Reagan could serve as an effective deterrent against Saddam Hussein and other threats in the world.

Our new challenge is to fashion a defense that meets the threats in a changing world. World War II weapons have their place, but we must fashion our systems to be capable of stand-off action with pinpoint accuracy so as not to risk the pilots or the system.

Sealift and airlift are critical in a changing world, along with forced mobility.

To my friends, stay calm and let us adopt a rational policy that allows us to meet the serious threats to freedom in a changing world and effectively spend our resources.

CAMPAIGN FINANCE REFORM

(Mr. LEVIN of Michigan asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. LEVIN of Michigan. Mr. Speaker, I speak today as a participant in the political process for almost three decades, from precinct delegate to State chair.

The present system of financing campaigns diminishes all who touch it in equal measure, those who give and those who receive. The issue is more than that of PAC's. It is whether we move away from the large private contributor.

I have never understood the minority party's opposition to public finance. They would rather that we scurry about looking for large contributions from those individuals or groups whose cases we judge than from the public whose interest we are elected to serve.

We should change a system that diminishes all of government and do it today by adopting the Swift and the Obey-Synar amendment.

Mr. MAZZOLI. Mr. Speaker, will the gentleman yield?

Mr. LEVIN of Michigan. I am glad to yield to the gentleman from Kentucky.

THE 25TH ANNIVERSARY OF SIGNING OF 1965 VOTING RIGHTS ACT

Mr. MAZZOLI. Mr. Speaker, I thank my friend for yielding to me.

Mr. Speaker, today, August 3, 1990, is an historic day. We come to Congress to both witness history and to participate in making history and today we have that opportunity because we can, and hopefully will, pass both a major Civil Rights Act, as well as a Campaign Reform Act.

I intend to vote for both, but I would briefly for a few seconds speak to the civil rights bill.

In Statutory Hall yesterday there was a celebration for the 25th anniversary of the signing of the 1965 Voting Rights Act. How proud were the 31 Members of Congress still in Congress who voted for that Civil Rights Act. No doubt some Members who voted for it then did so with some concerns and reservations because they did not understand all the words or all the concepts in the Act.

Some today will vote for the Civil Rights Act with those same reservations. I think they will be as happy 25 years hence, in the year 2015, as were our 31 colleagues yesterday in having voted for the civil rights bill of 1990.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore (Mr. MCNULTY). That will conclude the 1-minute speeches at this point in the day. We have had 10 on each side. The Speaker may entertain additional 1-minute speeches later in the day.

WITHDRAWAL OF NAME OF MEMBER AS COSPONSOR OF H.R. 2584

Mr. HAYES of Louisiana. Mr. Speaker, I ask unanimous consent that my name be withdrawn as a cosponsor of H.R. 2584.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Louisiana?

There was no objection.

DEPARTMENT OF VETERANS AFFAIRS NURSE PAY ACT OF 1990

Mr. MONTGOMERY. Mr. Speaker, I ask unanimous consent to take from the Speaker's table the bill (H.R. 1199) to amend title 38, United States Code, to improve recruitment and retention of nurses in the Department of Veterans Affairs by providing greater flexibility in the pay system for those nurses and to authorize the Secretary of Veterans Affairs to provide certain procreative services for married veterans with service-connected disabilities which impair their ability to procreate, with Senate amendments thereto, and concur in the Senate amendments.

The Clerk read the title of the bill.

The Clerk read the Senate amendments, as follows:

Strike out all after the enacting clause and insert:

SECTION 1. SHORT TITLE.

This Act may be cited as the "Department of Veterans Affairs Nurse Pay Act of 1990".

TITLE I—PAY FOR NURSES AND OTHER HEALTH-CARE PERSONNEL

SEC. 101. RESTRUCTURING OF NURSE GRADE LEVELS AND PAY.

(a) NEW GRADES ESTABLISHED.—The Secretary of Veterans Affairs shall provide four grade levels for nurses employed by the Department of Veterans Affairs under section 4104(1) of title 38, United States Code, with relation to current nurse grades, as follows:

New grades	Current nurse grades
1. Entry grade	Junior and associate grades.
2. Intermediate grade	Full and intermediate grades.
3. Senior grade	Senior and chief grades.
4. Director grade	Assistant director and director grades.

(b) CURRENT NURSE GRADES DEFINED.—For purposes of subsection (a), the term "current nurse grades" means the grades in effect on the day before the effective date of this Act for nurses employed by the Department of Veterans Affairs under section 4104(1) of title 38, United States Code.

(c) CONFORMING AMENDMENT.—Section 4107(b) of title 38, United States Code, is amended by striking out the items under

the heading "NURSE SCHEDULE" and inserting in lieu thereof the following:

"Entry grade.
"Intermediate grade.
"Senior grade.
"Director grade.".

SEC. 102. RATES OF PAY AND ADMINISTRATION OF PAY FOR NEW NURSE GRADES AND CERTAIN OTHER HEALTH-CARE PERSONNEL.

(a) CLARIFICATION.—Section 4104(1) of title 38, United States Code, is amended by inserting "registered" before "nurses".

(b) PAY ADMINISTRATION.—Chapter 73 of such title is amended by inserting after subchapter III the following new subchapter:

"SUBCHAPTER IV—PAY FOR NURSES AND OTHER HEALTH-CARE PERSONNEL

"§ 4141. Nurses and other health-care personnel: competitive pay

"(a)(1) It is the purpose of this section to ensure, by a means providing increased responsibility and authority to directors of Department health-care facilities, that the rates of basic pay for health-care personnel positions described in paragraph (2) in each Department health-care facility (including the rates of basic pay of personnel employed in such positions on a part-time basis) are sufficient for that facility to be competitive, on the basis of pay and other employee benefits, with non-Department health-care facilities in the same labor-market area in the recruitment and retention of qualified personnel for those positions.

"(2) The health-care personnel positions referred to in paragraph (1) (hereinafter in this section referred to as 'covered positions') are the following:

"(A) Registered nurse.

"(B) Such positions referred to in clauses (1) and (3) of section 4104 of this title (other than the positions of physician, dentist, and registered nurse) as the Secretary may determine upon the recommendation of the Chief Medical Director.

"(3) The rates of basic pay for covered positions in the Department shall be established and adjusted in accordance with this section instead of subsection (b)(1) of section 4107 of this title.

"(4) The Secretary, after receiving the recommendation of the Chief Medical Director, shall prescribe regulations setting forth criteria and procedures to carry out this section and section 4142 of this title. Requirements in such regulations for directors to provide and maintain documentation of actions taken under this section shall require no more documentation than the minimum essential for responsible administration.

"(b) The Secretary shall maintain the four grade levels for nurses employed by the Department under section 4104(1) of this title as specified in the Nurse Schedule in section 4107(b) of this title. The Secretary shall, pursuant to regulations prescribed to carry out this subchapter, establish grades for other covered positions as the Secretary considers appropriate.

"(c)(1) For each grade in a covered position, there shall be a range of basic pay. The maximum rate of basic pay for a grade shall be 133 percent of the minimum rate of basic pay for the grade, except that, if the Secretary determines that a higher maximum rate is necessary with respect to any such grade in order to recruit and retain a sufficient number of high-quality health-care personnel, the Secretary may raise the maximum rate of basic pay for that grade to a rate not in excess of 175 percent of the minimum rate of basic pay for the grade. Whenever the Secretary exercises the authority under the preceding sentence to establish the maximum rate of basic pay at a rate in excess of 133 percent of the minimum rate for that grade, the Secretary shall, in the next annual report required by subsection (g), provide justification for doing so to the Committees on Veterans' Affairs of the Senate and House of Representatives.

"(2) The maximum rate of basic pay for any grade for a covered position may not exceed the maximum rate of basic pay established for positions in level V of the Executive Schedule under section 5316 of title 5.

"(3) The range of basic pay for each such grade shall be divided into equal increments, known as 'steps'. The Secretary shall prescribe the number of steps. Each grade in a covered position shall have the same number of steps. Rates of pay within a grade may not be established at rates other than whole steps. Any increase (other than an adjustment under subsection (d)) within a grade in the rate of basic pay payable to an employee in a covered position shall be by one or more of such step increments.

"(d)(1) The rates of basic pay for each grade in a covered position shall be adjusted periodically in accordance with this subsection in order to achieve the purposes of this section. Such adjustments shall be made—

"(A) whenever there is an adjustment under section 5305 of title 5 in the rates of pay under the General Schedule, with the adjustment under this subsection to have the same effective date as the adjustment in the rates of basic pay under the General Schedule; and

"(B) at such additional times as the director of a Department health-care facility, with respect to employees in that grade at that facility, determines.

"(2) An adjustment in rates of basic pay under this subsection for a grade shall be carried out by adjusting the amount of the minimum rate of basic pay for that grade in accordance with paragraph (3) and then adjusting the other rates for that grade to conform to the requirements of subsection (c). Such an adjustment in the minimum rate of basic pay for a grade shall be made by the director of a Department health-care facility so as to achieve consistency with the beginning rate of compensation for corresponding health-care professionals in the Bureau of Labor Statistics (BLS) labor-market area of that facility.

"(3)(A) In the case of a Department health-care facility located in an area for which there is current information, based upon an industry-wage survey by the Bureau of Labor Statistics for that labor market, on beginning rates of compensation for corresponding health-care professionals for the BLS labor-market area of that facility, the director of the facility concerned shall use that information as the basis for making adjustments in rates of pay under this subsection. Whenever the Bureau of Labor Statistics releases the results of a new industry-wage survey for that labor market that includes information on beginning rates of compensation for corresponding health-care professionals, the director of that facility shall determine, not later than 30 days after the results of the survey are released, whether an adjustment in rates of pay for employees at that facility for any covered position is necessary in order to meet the purposes of this section. If the director determines that such an adjustment is necessary, the adjustment, based upon the information determined in the survey, shall take effect on the first day of the first pay period beginning after that determination.

"(B) In the case of a Department health-care facility located in an area for which the Bureau of Labor Statistics does not have current information on beginning rates of compensation for corresponding health-care professionals for the labor-market area of that facility for any covered position, the director of that facility shall conduct a survey in accordance with this subparagraph and shall adjust the amount of the minimum rate of basic pay for grades in that covered position at that facility based upon that survey. Any such survey shall be conducted in accordance with regulations prescribed by the Secretary. Those regulations shall be developed in consultation with the Secretary of Labor in order to ensure that the director of a facility collects information that is valid and reliable and is consistent with standards of the Bureau. The survey should be conducted using methodology comparable to that used by the Bureau in making industry-wage surveys except to the extent determined infeasible by the Secretary. Upon conducting a survey under this subparagraph, the director concerned shall determine, not later than 30 days after the date on which the collection of information through the survey is completed, whether an adjustment in rates of pay for employees at that facility for any covered position is necessary in order to meet the purposes of this section. If the director determines that such an adjustment is necessary, the adjustment, based upon the information determined in the survey, shall take effect on the first day of the first pay period beginning after that determination.

"(C) The director of a facility may not adjust rates of basic pay under this subsection for any pay grade so that the minimum rate of basic pay for that grade is greater than the beginning rates of compensation for corresponding positions at non-Department health-care facilities.

"(4) If the director of a Department health-care facility determines, after any survey under paragraph (3)(B) or at any other time that an adjustment in rates of pay is scheduled to take place under this subsection, that it is not necessary to adjust the rates of basic pay for employees in a grade of a covered position at that facility in order to carry out the purpose of this section, such an adjustment for employees at that facility in that grade shall not be made. Whenever a director makes such a determination, the director shall within 10 days notify the Chief Medical Director of the decision and the reasons for the decision.

"(5) Information collected by the Department in surveys conducted under this subsection is not subject to disclosure under section 552 of title 5.

"(6) In this subsection—

"(A) The term 'beginning rate of compensation', with respect to health-care personnel positions in non-Department health-care facilities corresponding to a grade of a covered position, means the sum of—

"(i) the minimum rate of pay established for personnel in such positions who have education, training, and experience equivalent or similar to the education, training, and experience required for health-care personnel employed in the same category of Department covered positions; and

"(ii) other employee benefits for those positions to the extent that those benefits are reasonably quantifiable.

"(B) The term 'corresponding', with respect to health-care personnel positions in non-Department health-care facilities, means those positions for which the education, training, and experience requirements are equivalent or similar to the education, training, and experience requirements for health-care personnel positions in Department health-care facilities.

"(e) Adjustments in rates of basic pay under subsection (d) may increase or reduce the rates of basic pay applicable to any grade of a covered position. In the case of such an adjustment that reduces the rates of pay for a grade, an employee serving at a Department health-care facility on the day before the effective date of that adjustment in a position affected by the adjustment may not (by reason of that adjustment) incur a reduction in the rate of basic pay applicable to that employee so long as the employee continues to serve in that covered position at that facility. If such an employee is subsequently promoted to a higher grade, or advanced to a higher step within the employee's grade, for which the rate of pay as so adjusted is lower than the employee's rate of basic pay on the day before the effective date of the promotion, the employee shall continue to be paid at a rate of basic pay not less than the rate of basic pay applicable to the employee before the promotion so long as the employee continues to serve in that covered position at that facility.

"(f) Not later than February 1 of 1991, 1992, and 1993, the Secretary shall submit to the Committees on Veterans' Affairs of the Senate and House of Representatives a report regarding any pay adjustments under the authority of subsection (d)(1)(A) effective during the 12 months preceding the submission of the report. Each such report shall set forth, by health-care facility, the percentage of such increases and, in any case in which no increase was made, the basis for not providing an increase.

"(g) Not later than December 1 of 1991, 1992, and 1993, the Secretary shall submit to the Committees on Veterans' Affairs of the Senate and House of Representatives a report regarding the exercise of the authorities provided in this section for the preceding fiscal year. Each such report shall include the following:

"(1) A review of the use of the authorities provided in this section (including the Secretary's and Chief Medical Director's actions, findings, recommendations, and other activities under this section) during the preceding fiscal year, including an assessment of the effects of the exercise of such authorities on the ability of the Department to recruit and retain qualified health-care professionals for covered positions.

"(2) The plans for the use of the authorities provided in this subchapter for the next fiscal year.

"(3) A description of the rates of basic pay in effect during the preceding fiscal year, with a comparison to the rates in effect during the previous fiscal year, shown by facility and by covered position.

"(4) The numbers of employees in covered positions (shown separately for registered nurses and for each other covered position) who during the preceding fiscal year (A) left employment with the Department, (B) left employment at one Department medical facility for employment at another Department medical facility, or (C) changed from full-time status to part-time status (and from part-time status to full-time status), and a summary of the reasons therefor.

"(5) The number of vacancies in covered positions in the Administration and a summary of the reasons that those positions are vacant.

"(6) The number of employees who during the preceding fiscal year left employment at a health-care facility in one Bureau of Labor Statistics labor-market area for employment at a health-care facility in another such labor-market area, without changing residence.

"(7) Justification for setting the maximum rate of basic pay for any grade at a rate in excess of 133 percent of the minimum rate of basic pay for that grade.

"(8) The discussion required by section 4142(b)(2) of this title.

"(h) For the purposes of this section, the term 'health-care facility' means a medical center, an independent outpatient clinic, or an independent domiciliary facility.

"§ 4142. Nurses and other health-care personnel: administration of pay

"(a)(1) Regulations prescribed under section 4141(a) of this title shall provide that whenever an employee in a covered position is given a new duty assignment which is a promotion, the rate of basic pay of that employee shall be increased at least one step increment in that employee's grade.

"(2) A nurse serving in a head nurse position shall while so serving receive basic pay at a rate two step increments above the rate that would otherwise be applicable to the nurse. If such a nurse is in the highest or next-to-highest step for that nurse's grade, the preceding sentence shall be applied by extrapolation to create additional steps only for the purposes of this paragraph. The limitation in section 4141(c)(1) of this title shall not apply with respect to increased basic pay under this paragraph.

"(3) An employee in a covered position who is promoted to the next higher grade shall be appointed in that grade at a step having a rate of basic pay that is greater than the rate of basic pay applicable to the employee in a covered position on the day before the effective date of the promotion.

"(b)(1) Under regulations which the Secretary prescribes for the administration of this section, the director of a Department health-care facility (A) shall pay a cash bonus (in an amount to be determined by the director not to exceed $2,000) to an employee in a covered position at that facility who becomes certified in a specialty recognized by the Department, and (B) may provide such a bonus to an employee in such a position who has demonstrated both exemplary job performance and exemplary job achievement. The authority of the Secretary under this subsection is in addition to any other authority of the Secretary to provide job performance incentives.

"(2) The Secretary shall include in the annual report under section 4141(g) of this title a discussion of the use during the period covered by the report of the payment of bonuses under this subsection and other job performance incentives available to the Secretary.

"(c)(1) The Secretary shall provide (in regulations prescribed for the administration of this section) that the director of a Department health-care facility, in making a new appointment of a person under section 4104(1) of this title as an employee in a covered position for employment at that facility, may make that appointment at a rate of pay described in paragraph (3) without being subject to a requirement for prior approval at any higher level of authority within the Department in any case in which the director determines that it is necessary to do so in order to obtain the services of employees in covered positions in cases in which vacancies exist at that health-care facility.

"(2) Such a determination may be made by the director of a health-care facility only in order to recruit employees in covered positions with specialized skills, especially employees with skills which are especially difficult or demanding.

"(3) A rate of pay referred to in paragraph (1) is a rate of basic pay in excess of the minimum rate of basic pay applicable to the grade in which the appointment is made (but not in excess of the maximum rate of basic pay for that grade).

"(4) Whenever the director of a health-care facility makes an appointment described in paragraph (1) without prior approval at a higher level of authority within the Department, the director shall—

"(A) state in a document the reasons for employing the employee in a covered position at a rate of pay in excess of the minimum rate of basic pay applicable to the grade in which the employee is appointed (and retain that document on file); and

"(B) in the first budget documents submitted to the Secretary by the director after the employee is employed, include documentation for the need for such increased rates of basic pay described in clause (A).

"(5) Whenever the director of a health-care facility makes an appointment described in paragraph (1) on the basis of a determination described in paragraph (2), the covered employee appointed may continue to receive pay at a rate higher than that which would otherwise be applicable to that employee only so long as the employee continues to serve in a position requiring the specialized skills with respect to which the determination was made.

"(d) Whenever the director of a health-care facility makes an appointment described in subsection (c)(1), the director may (without a regard to any requirement for prior approval at any higher level of authority within the Department) increase the rate of pay of other employees in the same covered position at that facility who are in the grade in which the appointment is made and are serving in a position requiring the specialized skills with respect to which the determination under subsection (c)(2) concerning the appointment was made. Any such increase shall continue in effect with respect to any employee only so long as the employee continues to serve in such a position.

"(e) An employee in a covered position employed under section 4104(1) of this title who (without a break in employment) transfers from one Department health-care facility to another may not be reduced in grade or step within grade (except pursuant to a disciplinary action otherwise authorized by law) if the duties of the position to which the employee transfers are similar to the duties of the position from which the employee transferred. The rate of basic pay of such employee shall be established at the new health-care facility in a manner consistent with the practices at that facility for an employee of that grade and step.

"(f) In this section, the term 'covered position' has the meaning given that term in section 4141 of this title.".

(c) CONFORMING AMENDMENTS.—Section 4107(e)(1) of such title is amended by striking out "in subsection (b)(1) of this section".

(d) CLERICAL AMENDMENT.—The table of sections at the beginning of chapter 73 of such title is amended by inserting after the item relating to section 4134 the following:

"SUBCHAPTER IV—PAY FOR NURSES AND OTHER HEALTH-CARE PERSONNEL

"4141. Nurses and other health-care personnel: competitive pay.

"4142. Nurses and other health-care personnel: administration of pay.".

SEC. 103. REPEAL OF LIMITATION ON HOURLY RATE OF OVERTIME PAY.

Section 4107(e)(5) of title 38, United States Code, is amended by striking out ", not to exceed" in the first sentence and all that follows through "Nurse Schedule".

SEC. 104. EFFECTIVE DATE.

(a) IN GENERAL.—(1) Except as provided in subsection (b), section 101 and the amendments made by section 102 shall take effect on the date of enactment.

(2) The amendment made by section 103 shall take effect on April 1, 1991.

(b) New Pay Rates.—The rates of basic pay established pursuant to section 4141 of title 38, United States Code, as added by section 102, shall take effect for covered positions (as defined in that section) with respect to the first pay period beginning on or after April 1, 1991.

TITLE II—MISCELLANEOUS

SEC. 201. PILOT PROGRAM ON PROVISION OF NONINSTITUTIONAL ALTERNATIVES TO NURSING HOME CARE.

(a) AUTHORITY TO PROVIDE FOR NONINSTITUTIONAL CARE.—(1) Subchapter II of chapter 17 of title 38, United States Code, is amended by adding at the end the following new section:

"§ 620C. Noninstitutional alternatives to nursing home care: pilot program

"(a) During the four-year period beginning on October 1, 1990, the Secretary may conduct a pilot program for the furnishing of medical, rehabilitative, and health-related services in noninstitutional settings for veterans who are eligible under this chapter for, and are in need of, nursing home care and who—

"(1) are in receipt of, or are in need of, nursing home care primarily for the treatment of a service-connected disability; or

"(2) have a service-connected disability rated at 50 percent or more.

"(b)(1) Under the pilot program conducted pursuant to subsection (a), the Secretary shall (A) furnish appropriate health-related services solely through contracts with appropriate public and private agencies that provide such services, and (B) designate Department health-care employees to furnish case management services to veteran furnished services under the program.

"(2) For the purposes of paragraph (1), the term 'case management services' includes the coordination and facilitation of all services furnished to a veteran by the Department of Veterans Affairs, either directly or through contract, including assessment of needs, planning, referral (including referral for services to be furnished by the Department, either directly or through a contract, or by an entity other than the Department), monitoring, reassessment, and followup.

"(c) The Secretary may provide in-kind assistance (through the services of Department of Veterans Affairs employees and the sharing of other Department resources) to a facility furnishing services to veterans under subsection (b)(1)(A). Any such in-kind assistance shall be provided under a contract between the Department and the facility concerned. The Secretary may provide such assistance only for use solely in the furnishing of appropriate services under this section and only if, under such contract, the Department receives reimbursement for the full cost of such assistance (including the cost of services and supplies and normal depreciation and amortization of equipment). Such reimbursement may be made by reduction in the charges to the United States or by payment to the United States. Any funds received through such reimbursement shall be credited to funds allotted to the Department facility that provided the assistance.

"(d) The total cost of providing services or in-kind assistance in the case of any veteran for any fiscal year under the pilot program may not exceed 65 percent of the cost that would have been incurred by the Department during that fiscal year if the veteran had been furnished, instead, nursing home care under section 610 of this title during that fiscal year.

"(e) The authority of the Secretary to enter into contracts under this section shall be effective for any fiscal year only to the extent that appropriations are available.".

(2) The table of sections at the beginning of chapter 17 of such title is amended by inserting after the item relating to section 620B the following new item:

"620C. Noninstitutional alternatives to nursing home care: pilot program.".

(b) Report.—Not later than February 1, 1994, the Secretary of Veterans Affairs shall submit to the Committees on Veterans' Affairs of the Senate and House of Representatives a report setting forth the Secretary's evaluation, findings, and conclusions regarding the conduct, through September 30, 1993, of the pilot program required by section 620C of title 38, United States Code (as added by subsection (a)), and the results of the furnishing of care under such pilot program for the participating veterans. The report shall include a description of the conduct of the pilot program (including a description of the veterans furnished services and of the services furnished under the pilot program), and any plans for administrative action, and any recommendations for legislation, that the Secretary considers appropriate to include in the report.

SEC. 202. SHARING OF SPECIALIZED MEDICAL RESOURCES.

(a) EXPANSION OF PURPOSE.—Section 5051 of title 38, United States Code, is amended by striking out "hospitals" both places it appears in the first sentence and inserting in lieu thereof "health-care facilities".

(b) EXPANSION OF AUTHORITY.—Section 5053 of such title is amended—

(1) in subsection (a)—

(A) by striking out "hospitals" the first place it appears and all that follows through "community" and inserting in lieu thereof "health-care facilities and other health-care facilities (including organ banks, blood banks, or similar institutions), research centers, or medical schools"; and

(B) by striking out the last sentence; and

(2) in subsection (b)—

(A) in the first sentence, by striking out "a charge" and all that follows and inserting in lieu thereof "a methodology that provides appropriate flexibility to the heads of the facilities concerned to establish an appropriate reimbursement rate after taking into account local conditions and needs and the actual costs to the providing facility of the resource involved."; and

(B) in the second sentence, by inserting before the period "and to funds that have been allotted to the facility that furnished the resource involved".

SEC. 203. TEMPORARY APPOINTMENTS OF HEALTH-CARE PERSONNEL.

Section 4114(a)(3) of title 38, United States Code, is amended—

(1) in subparagraph (A), by striking out the penultimate sentence and inserting in lieu thereof the following: "Temporary full-time appointments of persons who have successfully completed a full course of nursing in a recognized school of nursing approved by the Secretary, or who have successfully completed a full course of training for any category of personnel described in paragraph (3) of section 4104 of this title in a recognized education or training institution approved by the Secretary, and who are pending registration or licensure in a State, or certification by a national board recognized by the Secretary, shall not exceed two years."; and

(2) by striking out subparagraph (C) and inserting in lieu thereof the following:

"(C) A student who has a temporary appointment under this paragraph and who is pursuing a full course of nursing in a recognized school of nursing approved by the Secretary, or who is pursuing a full course of training for any category of personnel described in paragraph (3) of section 4104 of this title in a recognized education or training institution approved by the Secretary, may be reappointed for a period not to exceed the duration of the student's academic program.".

SEC. 204. REPORT ON POST-TRAUMATIC STRESS DISORDER.

Section 201(e)(1) of the Veterans' Benefits Amendments of 1989 (Public Law 101-237; 103 Stat. 2066) is amended by inserting "and not later than February 1, 1991," after "Not later than February 1, 1990,".

SEC. 205. HEALTH PROFESSIONALS EDUCATIONAL ASSISTANCE PROGRAMS.

(a) COORDINATION WITH DEPARTMENT OF DEFENSE PROGRAMS.—(1) Chapter 76 of title 38, United States Code, is amended by adding at the end the following new subchapter:

"SUBCHAPTER V—STIPEND PROGRAM FOR MEMBERS OF THE SELECTED RESERVE

"§ 4351. Authority for program

"(a) As part of the Educational Assistance Program, the Secretary of Veterans Affairs may select qualified individuals to receive assistance under this subchapter.

"(b) To be eligible to receive assistance under this subchapter, an individual must be accepted for enrollment or be enrolled as a full-time student at a qualifying educational institution in a course of education or training that is approved by the Secretary and that leads toward completion of a degree in a health profession involving direct patient care or care incident to direct patient care.

"§ 4352. Eligibility: individuals entitled to benefits under the GI Bill program for members of the Selected Reserve

"The Secretary of Veterans Affairs may not approve an application under section 4303 of this title of an individual applying to receive assistance under this subchapter unless—

"(1) the individual is entitled to benefits under chapter 106 of title 10; and

"(2) the score of the individual on the Armed Forces Qualification Test was above the 50th percentile.

"§ 4353. Amount of assistance

"The Secretary may pay to a person selected to receive assistance under this subchapter the amount of $400 (adjusted in accordance with section 4331 of this title) for each month of the person's enrollment in a program of education or training covered by the agreement of the person entered into under section 4303 of this title. Payment of such benefits for any period shall be coordinated with any payment of benefits for the same period under chapter 106 of title 10.

"§ 4354. Obligated service

"A person receiving assistance under this subchapter shall provide service in the full-time clinical practice of the person's profession as a full-time employee of the Department for the period of obligated service provided in the agreement of such person entered into under section 4303 of this title.

"§ 4355. Breach of agreement; liability

"(a)(1) Subject to paragraph (2), an individual who is receiving or has received a reserve member stipend under this subchapter and who fails to perform the service for which the individual is obligated under section 4354 of this title shall be liable to the United States in an amount determined in accordance with section 4317(c)(1) of this title.

"(2) An individual who, as a result of performing active duty (including active duty for training), is unable to perform the service for which the individual is obligated under section 4354 of this title shall be permitted to perform that service upon completion of the active duty service (or active duty for training). The Secretary may, by regulation, waive the requirement for the performance of the service for which the individual is obligated under section 4354 of this title in any case in which the Secretary determines that the individual is unable to perform the service for reasons beyond the control of the individual or in any case in which the waiver would be in the best interest of the individual and the United States.

"(b) Any amount owed the United States under subsection (a) of this section shall be paid to the United States during the one-year period beginning on the date of the breach of the agreement.".

(2) The table of sections at the beginning of such chapter is amended by adding at the end the following new items:

"SUBCHAPTER V—STIPEND PROGRAM FOR MEMBERS OF THE SELECTED RESERVE

"4351. Authority for program.
"4352. Eligibility: individuals entitled to benefits under the GI Bill program for members of the Selected Reserve.
"4353. Amount of assistance.
"4354. Obligated service.
"4355. Breach of agreement; liability.".

(b) PERIODIC ADJUSTMENTS IN AMOUNT OF ASSISTANCE.—Section 4331 of such title is amended—

(1) in the first sentence of subsection (a)(1)—

(A) by striking out "amount and" and inserting in lieu thereof "amount,"; and

(B) by striking out "amount." and inserting in lieu thereof "amount, and the maximum Selected Reserve member stipend amount.";

(2) in subsection (b)—

(A) by redesignating paragraph (3) as paragraph (4); and

(B) by inserting after paragraph (2) the following new paragraph (3):

"(3) The term 'maximum Selected Reserve member stipend amount' means the maximum amount of assistance provided to a person receiving assistance under subchapter V of this chapter, as specified in section 4353 of this title and as previously adjusted (if at all) in accordance with this subsection.".

(c) CONFORMING AMENDMENTS.—(1) Section 4301(a) of such title is amended—

(1) by striking out "and" at the end of paragraph (1);

(2) by striking out the period at the end of paragraph (2) and inserting in lieu thereof "; and"; and

(3) by adding at the end the following:

"(3) the Selected Reserve member stipend program provided for under subchapter V of this chapter.".

(2) Section 4302 of such title is amended by inserting "under subchapter I or II of this chapter" in subsections (a) and (b) after "Educational Assistance Program".

(3) Section 4304 of such title is amended by striking out "subchapter II or III" in paragraphs (1)(A), (2)(D), and (5) and inserting in lieu thereof "subchapters II, III, or V".

SEC. 206. ADMINISTRATION.

(a) IN GENERAL.—Chapter 36 of title 38, United States Code, is amended by inserting after section 1784 the following new section:

"§ 1784A. Procedures relating to computer matching program

"(a)(1) Notwithstanding section 552a(p) of title 5 and subject to paragraph (2) of this subsection, the Secretary may suspend, terminate, reduce, or make a final denial of any financial assistance or payment under an educational assistance program provided for in chapter 30 or 32 of this title or in chapter 106 of title 10 in the case of any individual, or take other adverse action against such individual, based on information produced by a matching program with the Department of Defense.

"(2) The Secretary may not take any action referred to in paragraph (1) of this subsection until—

"(A) the individual concerned has been provided a written notice containing a statement of the findings of the Secretary based on the matching program, a description of the proposed action, and notice of the individual's right to contest such findings within 10 days after the date of the notice; and

"(B) the 10-day period referred to in subparagraph (A) of this paragraph has expired.

"(3) In computing the 10-day period referred to in paragraph (2) of this subsection, Saturdays, Sundays, and Federal holidays shall be excluded.

"(b) For the purposes of subsection (q) of section 552a of title 5, compliance with the provisions of subsection (a) of this section shall be considered compliance with the provisions of subsection (p) of such section 552a.

"(c) For purposes of this section, the term 'matching program' has the same meaning provided in section 552a(a)(8) of title 5.".

(b) RATIFICATION.—Any use by the Department of Veterans Affairs, during the period beginning on July 2, 1990, and ending on the date of the enactment of this Act, of any category of information provided by the Department of Defense or the Department of Transportation for making determinations described in section 413(b) of the Veterans' Benefits Amendments of 1989 (Public Law 101-237) is hereby ratified.

(c) CLERICAL AMENDMENT.—The table of sections at the beginning of such chapter is amended by inserting after the item relating to section 1784 the following new item:

"1784A. Procedures relating to computer matching programs.".

(d) EFFECTIVE DATE DELAYED FOR CERTAIN EDUCATION BENEFITS COMPUTER MATCHING PROGRAMS.—(1) In the case of computer matching programs between the Department of Veterans Affairs and the Department of Defense in the administration of education benefits programs under chapters 30 and 32 of title 38 and chapter 106 of title 10, United States Code, the amendments made to section 552a of title 5, United States Code, by the Computer Matching and Privacy Protection Act of 1988 (other than the amendments made by section 10(b) of that Act) shall take effect on October 1, 1990.

(2) For purposes of this subsection, the term "matching program" has the same meaning provided in section 552a(a)(8) of title 5, United States Code.

SEC. 207. REFUNDS FOR CERTAIN SERVICE ACADEMY GRADUATES.

(a) IN GENERAL.—Upon receipt before January 1, 1992, of an application from an individual described in subsection (b)(3), the Secretary of Veterans Affairs shall—

(1) not later than 60 days after receiving such application, refund to the individual concerned the amount, if any, of the individual's unused contributions to the VEAP Account;

(2)(A) if the individual has received educational assistance under chapter 32 of title 38, United States Code, for the pursuit of a program of education, pay to the individual (out of funds appropriated to the readjustment benefits account) a sum equal to the amount by which the amount of the educational assistance that the individual would have received under chapter 34 of such title for the pursuit of such program exceeds the amount of the educational assistance that the individual did receive under such chapter 32 for the pursuit of such program; or

(B) if the individual has not received educational assistance under such chapter 32, pay to the individual (out of funds appropriated to the Department of Veterans Affairs Readjustment Benefits Account) a sum equal to the amount of educational assistance that the individual would have received under chapter 34 of such title for the pursuit of a program of education if the individual had been entitled to assistance under such program during the period ending on December 31, 1989; and

(3) refund to the Secretary of Defense the unused contributions by such Secretary to the VEAP Account on behalf of such individual.

(b) DEFINITIONS.—For purposes of this section—

(1) the term "VEAP Account" means the Post-Vietnam Era Veterans Education Account established pursuant to section 1622(a) of title 38, United States Code;

(2) the term "active duty" has the same meaning given such term by section 101(21) of such title 38;

(3) the term "individual described in subsection (b)(3)" means an individual who—

(A) before January 1, 1977, commenced the third academic year as a cadet or midshipman at one of the service academies or the third academic year as a member of the Senior Reserve Officers' Training Corps in a program of educational assistance under section 2104 or 2107 of title 10, United States Code;

(B) served on active duty for a period of more than 180 days pursuant to an appointment as a commissioned officer received upon graduation from one of the service academies or upon satisfactory completion of advanced training (as defined in section 2101 such title 10) as a member of the Senior Reserve Officers' Training Corps;

(C) after such period of active duty, was discharged or released therefrom under conditions other than dishonorable or continued to serve on active duty without a break in service; and

(D) if enrolled under the program of educational assistance provided under chapter 32 of title 38, United States Code, submits to the Secretary of Veterans Affairs, as part of the application made by the individual under subsection (a) in such form and manner as such Secretary shall prescribe by January 1, 1991, an irrevocable election to be disenrolled from such program at that time; and

(4) the term "service academies" means the United States Military Academy, the United States Naval Academy, the United States Air Force Academy, and the United States Coast Guard Academy.

SEC. 208. LIMITATIONS ON CHANGES OF PROGRAMS OF EDUCATION.

(a) IN GENERAL.—Section 1791(b) of title 38, United States Code, is amended by striking out "The" through "additional change" and inserting in lieu thereof "The Secretary, in accordance with procedures that the Secretary may establish, may approve a change other than a change under subsection (a) of this section".

(b) EFFECTIVE DATE.—The amendment made by subsection (a) shall take effect on June 1, 1991.

SEC. 209. NAMING OF DEPARTMENT OF VETERANS AFFAIRS MEDICAL CENTER IN SAGINAW, MICHIGAN.

The Department of Veterans Affairs medical center in Saginaw, Michigan, shall after the date of the enactment of this Act be known and designated as the "Aleda E. Lutz Department of Veterans Affairs Medical Center". Any reference to such medical center in any law, regulation, map, document, record, or other paper of the United States shall after such date be deemed to be a reference to the Aleda E. Lutz Department of Veterans Affairs Medical Center.

Amend the title so as to read: "An Act to amend title 38, United States Code, to establish a system of competitive pay for nurses employed by the Department of Veterans Affairs, to authorize the Secretary of Veterans Affairs to make such system applicable to certain other health-care personnel, to make certain improvements in veterans' health and education programs, and for other purposes.".

Mr. MONTGOMERY (during the reading). Mr. Speaker, I ask unanimous consent that the Senate amendments be considered as read and printed in the RECORD.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Mississippi?

There was no objection.

□ 1100

The SPEAKER pro tempore (Mr. MCNULTY). Is there objection to the request of the gentleman from Mississippi?

Mr. STUMP. Mr. Speaker, reserving the right to object, I would ask my good friend and the distinguished chairman of the Veterans' Affairs Committee, the gentleman from Mississippi [Mr. MONTGOMERY] for a brief explanation of the bill.

Mr. MONTGOMERY. Mr. Speaker, will the gentleman yield?

Mr. STUMP. Further reserving the right to object, I am happy to yield to the gentleman from Mississippi.

Mr. MONTGOMERY. Mr. Speaker, I rise in support of H.R. 1199, the proposed Department of Veterans Affairs Nurse Pay Act of 1990, with the Senate amendments thereto. This bill was introduced by my distinguished colleague from Massachusetts, JOE KENNEDY, and passed by the House on June 27, 1989. I commend the gentleman for his hard work and the work of the other members of the committee for bringing this important bill to agreement with the Senate. I also want to thank the gentleman from Arizona [Mr. STUMP], the gentleman from Arkansas [Mr. HAMMERSCHMIDT], and the gentleman from New Jersey [Mr. SMITH] for their work in the bill as amended.

The primary purpose of H.R. 1199, as originally passed by the House and as amended by the Senate, is to restructure the way that the Department of Veterans Affairs currently pays nurses. The new structure proposed in H.R. 1199 would provide the VA the flexibility it needs at the local hospital level to be more competitive in its efforts to recruit and retain needed nursing personnel. Our Subcommittee on Hospitals and Health Care has held a number of hearings concerning the national shortage of nurses and has found that the VA is at a disadvantage.

Mr. Speaker, it has become increasingly obvious that the Congress must take rapid action to improve the ability of the VA to attract and retain the high quality nurses that have been the strength of the VA over the years. Through testimony at our hearings, it is clear that the shortages of nurses have resulted in a reduction of veterans' access to needed medical services as well as to delays in the activations of new and remodeled facilities.

Let me briefly explain what the bill as amended would do:

First, the proposed compromise would require a change in the way nurses are paid and would allow the Secretary to apply the same procedures for other health-care professionals except physicians and dentists.

There would be four grades of nurses, the entry salaries of which would be set using as a guide the Bureau of Labor Statistics surveys of private sector health care wages. This would allow local level information that is collected uniformly across our Nation to be used to adjust nurse pay. For VA facilities where the Bureau does not routinely collect such information, the VA would be required to use the same methods to collect the information.

Some people have expressed the fear that the private sector would not provide the information necessary to conduct the survey. We believe that the history of the Bureau of Labor Statistics in conducting such wage surveys across the Nation is sufficient indication that the approach suggested in H.R. 1199 will work. In areas where there are few or no private sector employers, the bill allows the director of the local facility to develop a method that is comparable to the BLS survey data. A key element in this bill is the authority the VA medical facility director will have to adjust nurse salaries in order to be competitive with the local market area.

Mr. Speaker, I want to note specifically that no nurse or covered employee currently employed by the VA would lose any pay; in fact, it is likely that most would gain.

The maximums of the ranges of pay for the four grades would be 133 percent of the entry pay level. In situations where the local director finds that the maximum is too low to be competitive, the director would be able to go to 175 percent of the entry level upon approval of the Secretary. The bill would allow cash merit awards to be given to reward the VA's particularly exemplary nurse employees.

The bill would recognize with additional pay the extra duties and responsibilities of being a head nurse. The bill would repeal the cap on overtime pay so that employees could receive the value of their work. It would allow the so-called within-grade increase in the rate of basic pay as exists in current law and would require a step increase no less often than every 2 years.

The bill would require the VA to award cash bonuses of up to $2,000 to nurses upon certification in a recognized nursing specialty and would grant VA the authority to award cash bonuses of up to $2,000 to covered employees on the basis of achievement and exemplary job performance. Such achievements might include: Service with relevant professional committees or groups; service in a responsible office in a relevant professional group; educational attainment; publication of articles in a professional journal; and other appropriate evidence of professional achievement.

The bill would require that a facility director notify the Chief Medical Director of the director's decision with regard to a cost-of-living increase that may be available to all Federal employees.

It is important to note, Mr. Speaker, that the bill would require a report to the Congress in order to assess the effectiveness of this new pay structure.

The bill includes a few other provisions that were left over from the previous session. It includes the authority to set up a pilot program of noninstitutional alternatives to nursing home care in the hope that less expensive options of medical care might allow veterans to remain in their homes rather than in long-term care institutions. The bill would expand the current authority to share scarce medical resources with a variety of community medical facilities instead of just with hospitals. It would extend the reporting requirements of the VA's Special Committee on Posttraumatic Stress Disorder, often referred to as PTSD.

H.R. 1199, as amended, also includes provisions which affect veterans education programs. First, the bill contains a provision identical to section 4 of H.R. 4089, which was approved by the House on July 10, 1990. This provision would require the Department of Veterans Affairs [DVA] to notify an individual whose education benefit is being reduced or terminated, based on information received from the Department of Defense. The veteran/student would then be given 10 days to dispute the reduction if he or she believes it to be based on erroneous information. Additionally, the bill would provide increased flexibility regarding change-of-program procedures. The compromise agreement would also establish eligibility under the Vietnam era GI bill for 1977 and 1978 service academy graduates. We are very pleased that the other body agreed to accept the House-passed provision regarding this issue.

H.R. 1199, as amended, also contains the provision of H.R. 3199, a bill introduced by my colleague on the committee, Mr. SMITH of New Jersey, which would institute a scholarship program for certain members of the selected reserve under the Montgomery GI bill. This program would greatly enhance the ability of the Department of Veterans Affairs to recruit and retain nurses and other health care personnel, and we are grateful to the gentleman from New Jersey for his leadership in drafting this provision.

Finally, Mr. Speaker, H.R. 1199, as amended, also contains the provision of H.R. 2569. On June 27, 1989, the House unanimously passed H.R. 2569, a bill to name the Saginaw, MI, VA Medical Center as the "Aleda E. Lutz Department of Veterans Affairs Medical Center."

Mr. Speaker, Lt. Aleda E. Lutz was a member of the Army Nurse Corps during World War II who was devoted to serving her wounded patients. She distinguished herself through superior professional skill and courage.

Lieutenant Lutz was killed when her C-47 hospital plane crashed in a raging storm. She was awarded the Distinguished Flying Cross, the Air Medal with four oak-leaf clusters, and the European-African theater ribbon with six stars.

Mr. Speaker, the Congressional Budget Office has estimated the total cost of this bill at $17 million for the first year, but has said that the actual additional cost of the new nurse pay bill cannot be estimated with currently available data. We know, from the estimates of the physician pay bill that this body recently passed, that putting the responsibility at the local level substantially reduces the total cost.

There follows a joint explanatory statement which explains the major provisions of the proposed compromise in more detail:

EXPLANATORY STATEMENT ON THE COMPROMISE AGREEMENT ON H.R. 1199 AS AMENDED, THE DEPARTMENT OF VETERANS AFFAIRS NURSE PAY ACT OF 1990

This document contains explanations of certain provisions of the measures (listed below) which have been passed by the Senate and House of Representatives and on which the Senate and House Committees on Veterans' Affairs have reached agreement. These agreed-upon provisions will be offered as a proposed Senate substitute amendment to H.R. 1199.

Certain provisions in the measures listed below involve various issues which remain outstanding and which the Committees plan to resolve later in this Session of this Congress; these provisions are not described in this document.

Differences between the provisions contained in the compromise agreement and the related provisions as passed by the Senate and House of Representatives are noted in this document except for clerical corrections, conforming changes made necessary by the compromise agreement, and minor drafting, technical, and clarifying changes.

The measures referred to above are as follows:

H.R. 1199, a bill to revise the system of pay for nurses serving in Department of Veterans' Affairs health-care facilities as passed by the House of Representatives on June 27, 1989.

H.R. 2569, a bill to name the Saginaw, Michigan, VA Medical Center after Aleda E. Lutz, as passed by the House on June 27, 1989.

H.R. 901, the proposed "Veterans' Health-Care Programs Amendments of 1989", as passed by the House of Representatives on July 11, 1989.

H.R. 1358, a bill to amend Department of Veterans Affairs educational assistance programs, as passed by the House on October 2, 1989.

H.R. 3199, the proposed "Veterans Health Professionals Educational Amendments of 1989", as passed by the House on October 30, 1989.

H.R. 4089, the proposed "Veterans Educational and Vocational Counseling Amendments of 1990", as passed by the House on July 10, 1990.

S. 13, the proposed "Veterans Benefits and Health Care Act of 1989", the text of which was passed by the Senate as a substitute for the text of H.R. 901 on October 4, 1989.

The foregoing House-passed bills are referred to by bill number and the text of S. 13 as passed in H.R. 901 is referred to as the "Senate bill".

TITLE I—NURSE PAY

Current law: Salaries for Department of Veterans Affairs' nurses are determined pursuant to section 4107 of title 38, United States Code. Section 4107(b) mandates 8 grades for registered nurses (RNs)—Junior, Associate, Full, Intermediate, Senior, Chief, Assistant Director, and Director. The rates of pay for these grades, which are applied uniformly on a nationwide basis, are generally comparable to those established for grades GS-6 through GS-15 of the General Schedule. Specific qualifications for entry into the 8 nurse grades are described in Veterans Heatlh Services and Research Administration Supplement MPH-5, Part II, Chapter 2. Section 4107(g), enacted in 1980 in Public Law 96-330, authorizes VA to provide increased rates of pay (known as "special-pay" rates) for RNs, among others. Under this authority, VA may increase pay for title 38 employees in order to provide for an amount of pay "competitive with, but not exceeding, the amount of the same type of pay paid to the same category of personnel at non-Federal facilities in the same labor market." However, current law does not mandate implementation of such pay throughout the VA system, nor does it provide specific mechanisms to ensure that the administration of nurse pay will be carried out in accordance with uniform standards. In addition, the special pay authority in section 4107(g), which was originally viewed as an extraordinary authority to be used in limited situations, has become the norm in recent years as VA has faced significant difficulties in recruiting and retaining RNs. As of June 30, 1990, special rates for RNs were in effect in 142 VA medical centers and for registered nurse anesthetists (RNAs) and certified registered nurse anesthetists (CRNAs) in 60 VAMCs. Despite the use of special rates, as of December 1989, the vacancy rate for full-time RNS was 14.4 percent.

Other non-physician and non-denitst health-care personnel listed in clauses (1) and (3) of section 4104 of title 38 may also receive special pay under the authority set forth in section 4107(g). These occupations are podiatrists, optometrists, physician assistants, expanded-function dental auxiliaries, clinical, or counseling psychologists, certified respiratory therapists, registered respiratory therapists, licensed physical therapists, licensed practical or vocational nurses, pharmacists, and occupational therapists. Vacancy rates for these occupations are lower than they are for nurses, indicating that the existing special pay authority may be sufficient to meet VA's staffing needs in these occupations.

Bill passed: Both House and Senate bills propose remedies for VA's ongoing recruitment and retention difficulties for nurses and the Senate bill also would authorize extending the remedy for other non-physician or non-dentist title 38 employees and persons employed under VA's "hybrid" title 5/title 38 employment authority.

Section 1 of H.R. 1199 would, effective October 1, 1990, have revised, as described below, the manner in which basic pay is determined for RNs.

Section 251 of the Senate bill would, effective July 1, 1990, have required the Secretary of Veterans Affairs to ensure that basic pay is established for RNs, RNAs, and CRNAs in a manner described below, and authorize such a change for other health-care professional positions paid under title 38 as the Secretary determines upon the

recommendation of VA's Chief Medical Director (CMD).

Positions covered

House bill: Section 1 of H.R. 1199 would require VA to implement a new special pay authority for RNs.

Senate bill: Section 251 would require VA to implement a new special pay authority for RNs, RNAs, and CRNAs and would also authorize the Secretary, upon the recommendation of the CMD, to implement these provisions for positions referred to in clauses (1) and (3) of section 4104 of title 38 other than physicians, dentists, nurses.

Compromise agreement: Section 102 would establish a new subchapter IV in chapter 73 of title 38, requiring VA to establish a program for setting competitive pay (described below) for RNs (including RNAs and CRNAs) and would allow VA also to implement such a program for any of the positions referred to in clauses (1) and (3) of section 4104 of title 38 other than physicians, dentists, and nurses, if the Secretary determines, upon the recommendation of the CMD, that it is necessary to do so in order to overcome recruitment and retention problems with regard to such positions (together with RN positions referred to as "covered positions").

Purpose

House bill: The title of H.R. 1199 would provide that the purpose of the nurse-pay provisions set forth in the bill is to improve recruitment and retention of nurses in the Department of Veterans Affairs by providing greater flexibility to the medical center director in the pay system for those nurses.

Senate bill: Section 251 would provide that the purpose of this provision is to ensure that the rates of basic pay for personnel employed in covered positions are sufficient for Department health-care facilities to be competitive, on the basis of pay and other employee benefits, with non-Department health-care facilities in the recruitment and retention of qualified personnel for such positions.

Compromise agreement: Section 102 would provide that the purpose of the provisions establishing the competitive pay system is to ensure, by a means providing increased responsibility and authority to VA health-care facility directors, that the rates of basic pay for personnel in covered positions (including basic pay for part-time personnel in such positions) are sufficient to enable a Department to be competitive, on the basis of pay and other employee benefits, with non-VA health-care facilities in the same labor-market area in the recruitment and retention of qualified health-care personnel in covered positions.

Pay structure

House bill: Section 1 of H.R. 1199 would require the Secretary to restructure the current nurse grades so as to provide four grades for RNs, rather than the current eight grades.

Senate bill: Section 251 would (1) require the CMD to prescribe three or more grades for RNs that would be competitive—on the basis of pay and other benefits—with pay in comparable non-Department health-care facilities, and (2) allow the CMD to prescribe a number of grades that would be competitive for any other covered position.

Compromise agreement: Section 101 would require the Secretary to establish four grades—Entry, Intermediate, Senior, and Director—for RNs. For other covered positions, the compromise agreement would allow the Secretary to establish such number of grades as the Secretary considers appropriate, after receiving the recommendation of the CMD.

Mechanism for setting pay

House bill: Section 1 of H.R. 1199 would establish four grades for registered nurses which would have the following relationship to the title 5 General Schedule:

New Grades:	*GS Grades*
Entry	6–10
Intermediate	9–12
Senior	12–14
Director	14–16

Section 1 of H.R. 1199 would further require that a range of basic pay for each grade be established and divided into 20 equal increments (steps), with each step representing the minimum increase in pay allowed, and with the lowest minimum rate of basic pay for each grade being the lowest step in that grade and the highest maximum rate of basic pay for each grade being the highest step in that grade with an exception for certain head nurse situations.

Senate bill: Section 251 would require that rates of basic pay be established and adjusted after a survey (described below) of the labor-market area was completed. The minimum rate of basic pay of the appropriate entry pay grade would be required to be sufficient for pay and other benefits to be competitive with, but not exceed, the highest entry-level rate paid in the labor-market area surveyed for that occupation. Additional steps within each grade and other, related grades would be increased or decreased accordingly, so as to maintain the same proportional relationship between steps and grades as existed prior to the adjustment.

The Senate bill would require the director of the VA facility concerned, whenever a grade is added to the schedule of grades or a step within a grade is added, to establish the rate of basic pay in the same manner as rates of pay would otherwise be established or adjusted under the Senate bill provisions.

The Senate bill would also require that the rates of basic pay for an additional grade bear the same relationship to the minimum rate of basic pay specified for each grade and to each other as the rates of basic pay within each other grade in the schedule bear to each other. In addition, the Senate bill would require that the rate of pay for an additional step within a grade bear the same relationship to other rates of basic pay within a grade as such other rates bear to each other.

Compromise agreement: Section 102 would establish four grades for RNs bearing the same initial relationship to the title 5 General Schedule as would the House bill. The compromise agreement would mandate that (1) a range of basic pay be established for each grade in a covered position; (2) the salary level of the initial step of each of the four grades be based upon local labor-market area survey data as described under the next heading (*i.e.*, the survey would be used as a basis for setting the salary paid entry-level employees in each of the four nurse grades established by the compromise agreement (or as to other covered positions for any number of grades determined by the Secretary after receiving the recommendations of the CMD); (3) the maximum rate of basic pay for each grade be not more than 133 percent of the minimum rate of basic pay for the grade except when the Secretary determines that a higher cap is necessary in order to recruit and retain a sufficient number of high-quality health-care personnel, in which case the Secretary may raise the cap up to 175 percent of the minimum rate of basic pay for the grade and must, in the already required annual report, provide the Committees with justification for doing so; (4) within each grade, the range of basic pay be divided into equal increments, known as 'steps'. The Secretary would prescribe the number of steps, and all grades in a covered position would be required to contain the same number of steps except as described for head nurse pay when necessary and where the maximum rate for a grade exceeds 133 percent of the minimum rate for that grade.

Determination of entry rates

House bill: Section 1 of H.R. 1199 would require the Secretary to provide in regulations that a local facility director may appoint a nurse at a rate of basic pay in excess of the minimum, but not in excess of the maximum, rate applicable to that nurse's grade (see the discussion of the House bill under the heading "Mechanism for Setting Pay", above) if the director determines that it is necessary to do so in order to obtain the services of nurses at that facility. The facility director could make that determination only in order to (1) provide pay in an amount competitive with the amount of the same type of pay paid to nurses at non-Federal facilities in the same labor market: (2) achieve adequate staffing at the facility concerned; or (3) recruit nurses with specialized skills. If a local facility director were to hire a nurse at a pay rate above the minimum entry-level step without prior approval at any higher level of authority within the Department, the director would be required to justify in writing the reasons for employing that nurse in the higher step and include the written justification in the first facility budget submission after that nurse was employed.

Senate bill: Section 251 would require entry rates to be based on a survey which would take place in the following manner:

(1) Not later than June 1, 1990 (thereafter December 1 of each year), each local facility director would be required to conduct a survey of entry-level compensation in each category of covered positions in a number—to be determined by the Secretary in regulations—of comparable health-care facilities in each facility's labor-market area to determine whether it was necessary to adjust entry-level compensation. Comparable health-care facilities would be those determined by the facility director, in accordance with regulations prescribed by the Secretary, to have been in direct competition with the VA for the recruitment and retention of qualified personnel and to have other characteristics comparable to the VA facility.

(2) If the number of comparable facilities in a labor-market area is less than that specified in criteria or less than a local facility director considers necessary in order to produce a valid comparison, the facility director would be required to survey corresponding positions in both comparable and other health-care facilities within the labor-market area.

(3) If a survey were insufficient to yield meaningful results, 90 days before the date by which the facility director would be required to establish or adjust rates the facility director would be required to (A) indentify a similar labor-market area having a VA medical facility; (B) notify the CMD of the area selected; and (C) unless the choice of area is disapproved by the CMD, establish the same rates of basic pay for covered posi-

tions as were established for the VA facility in the labor-market area selected. Not later than 60 days after the facility director's selection of the labor-market area, the CMD would be required to approve or disapprove the director's choice. If the CMD disapproved the choice of labor-market area, the CMD would be required to designate any labor-market area that the CMD determined was similar and the facility director would be required to establish the same rates of basic pay as were established by the Department facility in that labor-market area. A labor market would be determined to be similar if it was of similar size, demographic characteristics, and labor-market characteristics.

Compromise agreement: Section 102 would require that, when a VA health-care facility is located in a labor market for which the Bureau of Labor Statistics (BLS) of the Department of Labor has carried out a current—in terms of position description as well as timeliness—industry wage survey, the diretor of that facility would be required to use the survey data and results as the basis for determining whether and to what extent salary adjustments for covered positions would be appropriate in order for VA to establish or maintain competitive compensation as necessary for the recruitment and retention of sufficient numbers of high-quality health-care personnel.

For VA health-care facilities that are not covered by appropriate BLS survey data, the facility director would be required to conduct a survey in accordance with regulations prescribed by the Secretary in consultation with the Secretary of Labor. These regulations would be required to ensure that the director collects information that is valid and reliable and consistent with BLS standards. The survey would utilize methodology comparable to that which BLS uses in conducting its industry-wage surveys, except to the extent determined infeasible by the Secretary. After completing such a survey, the director would have 30 days in which to determine whether adjustments to pay are necessary in order to provide VA health personnel in covered positions with competitive salaries sufficient to meet recruitment and retention goals. If a facility director determines that adjustments are needed, the adjustments must take effect on the first day of the first pay period beginning after that determination is made.

If, on the basis of a facility-specific survey, or at any other time an adjustment is scheduled to take place, a facility director determines that no adjustment is needed, the director would be required to notify the CMD of the decision and the reasons for it within 10 days of reaching the decision.

Section 102 would prohibit a facility director from increasing the minimum rate of basic pay for a grade to an amount in excess of the beginning rate of compensation for corresponding positions at non-VA health-care facilities within the labor market in which the facility is located. The compromise agreement would permit a facility director, in calculating the beginning rate of compensation at non-Department facilities, to take into account non-monetary benefits to the extent they are reasonably quantifiable.

Thus, the Committees note, the compromise agreement is predicated on use of the survey as a guide to setting competitive pay. The Committees also note that the compromise agreement does not require a VA health-care facility director to increase pay rates.

Maximum limit on rates of pay

House bill: Section 1 of H.R. 1199 would provide that the maximum rates of basic pay for each nurse grade shall be the highest maximum rate of pay for the General Schedule corresponding to that nurse grade, as indicated above under the heading "Mechanism for Setting Pay."

Senate bill: Section 251 would require that, for any grade in the VA salary scale designated by the Secretary, upon the recommendation of the CMD, as an entry-level grade other than an entry-level grade for supervisors or managers, the entry salary not be increased to a level in excess of the maximum rate of grade 13 of the General Schedule under section 5332 of title 5. For those grades which are not entry level, including those which are entry-level grades for managers and supervisors, the entry salary could not exceed the statutory cap for Level V of the Executive Schedule under section 5316 of title 5.

Compromise agreement: Section 102 would prohibit the establishment of a maximum rate of basic pay for any grade of a covered position greater than the maximum rate of basic pay established for positions in Level V of the Executive Schedule.

Protection of current pay

House bill: No provision.

Senate bill: Section 251 would provide that, when the rate of basic pay for a covered position at a facility is reduced under that section, the basic pay of an employee serving in such a position on the day before the reduction would not be reduced so long as the employee continues to serve in that position at that facility.

Compromise agreement: Section 102 would provide that, in the case of an adjustment that locally reduces the rates of pay for a grade, an existing employee's pay could not be decreased so long as the employee continues to serve in that covered position with the same responsibilities at that facility. If an existing employee is subsequently advanced to a higher step within the same grade or promoted to a higher grade, the employee would be paid at a rate of basic pay not less than the rate applicable to the employee prior to the promotion so long as the employee continues to serve in that covered position at that facility.

Effect of transferring to another facility

House bill: Section 1 of H.R. 1199 would provide that a nurse who transfers from one medical center to another may not be reduced in grade, but his or her rate of basic pay would be established at the new medical center in a manner consistent with the practices of that medical center for a nurse of that grade.

Senate bill: Section 251 would provide that when transferring, voluntarily or otherwise, from one VA medical center to another, a covered employee who continues to hold a position with the same responsibilities, as determined by the CMD, would maintain the step and grade held immediately prior to the transfer, but would be subject to the pay rate attributed to that step and grade in the medical center to which the employee transferred.

Compromise agreement: Section 102 contains such a provision which is applicable to all employees in covered positions.

Within-grade increases

House bill: Section 1 of H.R. 1199 would provide facility directors with the authority to determine the standards and criteria for within-grade increases, provide that any within-grade increase in the rate of basic pay payable to a nurse would be required to be by one or more step increments.

Senate bill: No provision.

Compromise agreement: Section 102 follows the House bill.

Automatic step increases

House bill: Section 1 of H.R. 1199 would require regulations to provide at least a one-step increase within the nurse's grade not less often than every 2 years that the nurse holds that grade and performs satisfactorily.

Senate bill: No provision.

Compromise agreement: No provision.

Promotions

House bill: Section 1 of H.R. 1199 would require (1) at least a one-step within-grade increase for a nurse for a new assignment which is considered a promotion; and (2) that a nurse promoted to a next higher nurse grade receive a basic pay rate greater than the basic pay rate applicable before the promotion.

Senate bill: No provision.

Compromise agreement: Section 102 would follow the House bill and would also apply to all employees in covered positions.

Merit awards

House bill: Section 1 of H.R. 1199 would provide facility directors with the authority, under regulations prescribed by the Secretary, to give within-grade step increases or pay cash awards to nurses who have qualifications, experience, or achievement which the director determines exceed the standards for the nurse's grade. In making these determinations, a facility director would be required to take into consideration: (1) service with relevant professional committees or groups; (2) service in a responsible office in a professional nursing society; (3) educational attainment including certification; (4) publication of articles in a professional journal; (5) exemplary job performance; and (6) other appropriate evidence of professional stature.

Senate bill: Section 259 would require each nurse, upon recertification in the specialty in which the nurse was working, to be given a lump-sum payment equal to one percent of the nurse's annual salary unless that nurse's last performance rating was less than satisfactory.

In addition, section 264 would (1) require that cash awards analogous to those required by section 5406 of title 5 be paid to title 38 supervisors and managers (including head nurses) who received the highest proficiency rating possible, as determined under criteria promulgated by the Secretary, and would authorize such awards for other title 38 employees; (2) require that such awards range from 2-10 percent of the employee's base annual salary but allow the awards to be increased up to 20 percent of such salary if the employee's performance was unusually outstanding; (3) prescribe the aggregate amount paid for such awards in a manner identical to that prescribed in section 5406(c)(1) of title 5, which establishes the maximum total amount of cash awards as not more than 1.5 percent multiplied by the aggregate amount of basic pay payable to the covered employees in the covered department or agency and the minimum amount as not less than 1.15 percent multiplied by the aggregate amount of basic pay payable to such covered employees; and (4) require the Secretary to establish a cash award program identical to the program under section 5407 of title 5 (which provides for amounts up to $10,000, or, for outstand-

ing performance, up to $25,000) for title 38 supervisors and managers in grades comparable to General Schedule grades 13-15 who, by their suggestion, invention, superior accomplishment, or other personal effort, contribute significantly to the Federal government.

Compromise agreement: Section 102 would require VA to award cash bonuses of up to $2,000 to nurses upon certification in a recognized nursing specialty and would grant VA the authority to award cash bonuses of up to $2,000 to covered employees on the basis of achievement and exemplary job performance.

The Committees intend that the Secretary, when awarding bonuses on the basis of achievement, generally utilize the following criteria (derived from those set forth in the House bill): (1) service with relevant professional committees or groups; (2) service in a responsible office in a relevant professional group; (3) educational attainment; (4) publication of articles in a professional journal; and (5) other appropriate evidence of professional achievement.

The compromise agreement would not alter VA's existing authority to provide merit, incentive, or performance step increases.

Head nurse pay increase

House bill: Section 1 of H.R. 1199 would require that any nurse serving in a head nurse position receive, while so serving, a 2-step increase above the step that nurse would otherwise hold, which would have been counted as basic pay for pay and benefit purposes.

Senate bill: Section 255 would require that nurses assigned to the head nurse position for more than 30 days receive a 6-percent differential, the amount of which would be counted as basic pay for pay and benefit purposes.

Compromise agreement: Section 102 follows the House bill. In addition, the compromise agreement would provide that, if the nurse is being paid at the highest or next-to-highest step in a grade at the time the nurse commences service as a head nurse, additional equivalent pay steps would be created in that grade in order to implement the provisions of this section of the bill. Such additional equivalent pay steps may exceed the maximum rate of pay for that grade.

Cost-of-living adjustments

House bill: No provision.

Senate bill: Section 251 would require individual facility directors to ensure that appropriate cost-of-living adjustments (COLA) in rates of pay are provided for years following 1990 unless a director waives, in whole or in part, any adjustment for any year in which such director finds that a COLA is not necessary in order to pay a competitive basic rate of pay.

Compromise agreement: Section 102 would (1) require a facility director to notify the CMD of his or her decisions concerning whether to provide a COLA otherwise available to all Federal employees within 10 days of reaching that decision, and (2) require the Secertary to include in a report required to be submitted to the House and Senate Commitees on Veterans' Affairs in February 1992, 1993, and 1944 a description of the provision of COLAs in facilities, explaining, by facility, the percentage of such increases and, in any case in which no increase was made, the basis for not providing an increase.

Overtime rates of pay

House bill: Section 1 of H.R. 1199 would repeal the cap on nurse's overtime earnings so as to provide that a nurse would earn overtime pay at the rate of one-and-one-half times the individual's hourly rate of basic pay.

Senate bill: Section 254 contains an identical provision.

Compromise agreement: Section 103 contains this provision.

Reports

House bill: No provision.

Senate bill: Section 251 would require the Secretary, not later than March 1, 1991, and each year thereafter, to submit an annual report to the Committees containing (1) an assessment of the implementation of the new pay authority and the effect of market-rate adjustments on the ability of VA to recruit and retain health-care professionals; (2) a description of any other legislative actions recommended to assist in recruitment and retention efforts; and (3) if the authority had been used only to adjust nurses' salaries, the reason for not adjusting the salaries of other covered health-care professionals and any plans for doing so in the future.

Compromise agreement: Section 102 would require the Secretary, not later than December 1 of 1991, 1992, and 1993, to submit to both Committees annual reports describing (1) the implementation of the provisions of the compromise agreement and the effect of market-rate adjustments on the Department's ability to recruit and retain health-care personnel; (2) plans for the use of the authorities provided in the compromise agreement during the next fiscal year; (3) rates of basic pay in effect during the immediately preceding fiscal year as well as a comparison with rates in effect during the prior year; (4) the numbers of employees in covered positions who left such positions with the Department during the preceding year, the numbers who left employment at one Department medical facility for employment at another Department facility, and the numbers who changed from full-time to part-time status (and vice versa), and a summary of the reasons therefor; (5) the numbers of vacancies in covered positions and a summary of the reasons for the vacancies; (6) the number of employees who left employment at a Department facility in one BLS labor-market area for employment at a facility in another such area, without changing residence; (7) the justification for any increase in the maximum rate for a grade above 133 percent of the minimum; and (8) the use of the cash bonus authority as created in the provision described above, under the heading "Merit Awards", as well as other authorized performance awards.

As noted above under the heading "Cost-of-Living Adjustments", the compromise agreement would also require the Secretary to submit a second report each year, on February 1 of 1992, 1993, and 1994, describing, by facility, the extent to which pay adjustments are granted at the time of Federal pay adjustments under section 5305 of title 5.

Issuance and content of regulations

House bill: Section 1 of H.R. 1199 would require the Secretary to promulgate regulations which would provide each facility director the authority, without a requirement for prior approval from a higher Department authority, to appoint a nurse at a rate of pay higher than the minimum of the applicable grade but not in excess of the maximum of that grade if the director determines that such action was necessary to (1) provide pay competitive with non-Federal facilities in the same labor market, (2) achieve adequate staffing, or (3) recruit nurses with specialized skills which are especially difficult or demanding.

Senate bill: Section 251 would require the Secretary, upon the recommendation of the Chief Medical Director, to promulgate regulations providing facility directors maximum flexibility, with minimal documentation requirements, to establish rates of pay which do not exceed the maximum rate of pay paid by the highest paying surveyed non-Department health-care facility, taking into consideration non-Department health-care facilities' pay and related benefits.

Compromise agreement: Section 102 would require the Secretary, after receiving the recommendations of the Chief Medical Director, to prescribe regulations to carry out the new subchapter that would enable facility directors to exercise the authority accorded to them with regard to pay rates subject to minimal documentation requirements consistent with good administration.

Date for promulgation of regulations and effective dates

House bill: Section 3 of H.R. 1199 would establish an effective date of October 1, 1989.

Senate bill: Section 251 would require (1) the Secretary to prescribe interim final regulations on April 1, 1990, if final regulations were not prescribed by that date; and (2) each facility director to make determinations and establish and adjust rates of basic pay according to section 251 in the event that interim final regulations were not prescribed before April 1, 1990.

Compromise agreement: Section 104 would provide that the foregoing provisions would take effect on the date of enactment except that pay pursuant to those provisions would take effect with respect to the first pay period beginning after April 1, 1991.

Involvement of labor organizations

House bill: No provision.

Senate bill: Section 251 would require (1) the Secretary, when developing the criteria for the conduct of the local compensation surveys, to consult with a representative of each labor organization accorded exclusive recognition under chapter 71 of title 5 for a unit that includes covered employees whose pay is to be established according to such surveys; and (2) the facility director to consult with such representatives on (A) the criteria developed for the conduct of surveys, (B) the director's plans for the collection of data in conducting surveys, and (C) the determinations regarding specific basic-pay rates.

Compromise agreement: No provision.

Freedom of Information Act

House bill: No provision.

Senate bill: Section 251 would provide that survey information be protected under the Freedom of Information Act (5 USC 552).

Compromise agreement: Section 102 follows the Senate provision.

TITLE II—MISCELLANEOUS

Noninstitutional alternatives to nursing home care

House bill: No provision.

Senate bill: Section 213 would require that (1) VA conduct a 4-year pilot program (with a report due after 3 years) for the purposes

of furnishing health, rehabilitative, and (by contract with non-VA entities) health-related services in noninstitutional settings; (2) participation in the program be limited to veterans who are eligible for and otherwise in need of nursing home care and either (A) are receiving or need that care primarily for the treatment of a service-connected disability, or (B) have service-connected disabilities rated at 50 percent or more; (3) VA case managers be used to coordinate and facilitate services contracted for with public and private agencies; and (4) the total cost of the program during each fiscal year be limited to not more than 65 percent of the total cost that would have been incurred had the veterans involved been furnished with nursing home care instead.

Compromise agreement: Section 201 follows the Senate bill except that the provision would be discretionary.

Sharing of specialized medical resources

Current law: Section 5053(a) of title 38 permits the Secretary to make arrangements, by contract or other form of agreement, between VA hospitals and other hospitals (or other medical installations having hospital facilities or organ banks, blood banks, or similar institutions), medical schools, or clinics in the medical community for the mutual use, or exchange of use, of specialized medical resources when such an agreement will obviate the need for a VA health-care facility to provide a similar resource, or when specialized VA medical resources, while justified on the basis of veterans' care, are not utilized by VA to their maximum effective capacity. Section 5053(b) provides for reciprocal reimbursement based on a charge which covers the full cost of services rendered, and supplies used, and includes normal depreciation and amortization costs of equipment. Any proceeds received therefrom must be credited to the applicable VA medical appropriation.

House bill: No provision.

Senate bill: Section 223 would revise VA's authority to enter into agreements for sharing scarce medical resources so as to (1) expand the categories of facilities with which VA may enter into sharing agreements to include all health-care facilities; (2) delete the requirement that reimbursement rates cover full costs and substitute a standard providing for flexibility in determining reimbursement rates, taking costs into account; and (3) provide that payments for the use of VA resources be returned to the VA facility involved.

Compromise agreement: Section 202 follows the Senate bill.

Temporary full-time and temporary student appointments

Current law: Section 4114 of title 38 provides authority for the appointment of various health-care personnel on a temporary full-time, part-time, or without-compensation basis. Under this authority, VA may employ students who are pursuing academic programs in various health-care occupations and individuals who have completed such programs and are pending registration or licensure. Appointments of students may not exceed one year, except that a student nurse may be reappointed for a second year. Appointments of individuals pending registration or licensure may not exceed one year except that an individual pending registration as a graduate nurse may be appointed for up to two years.

House bill: No provision.

Senate bill: Section 263 would authorize (1) extending, for a period not to exceed the length of an academic program, the temporary full-time appointment of a student who is pursuing an academic degree in respiratory therapy, physical therapy, occupational therapy, pharmacy, or practical or vocational nursing, and (2) extending for a period not exceeding two years the temporary full-time appointment of individuals who have completed a course of training in respiratory therapy, physical therapy, practical or vocational nursing, pharmacy, or occupational therapy, while such individuals are pending registration or licensure in a State or certification by a national board.

Compromise agreement: Section 203 follows the Senate bill.

Report on post-traumatic stress disorder

Current law: Under section 110(b) of the Veterans Health Care Act of 1984 (Public Law 98-528), the Secretary is required to submit to the Committees on Veterans' Affairs of the Senate and the House of Representatives annual reports regarding the Department's efforts regarding PTSD and to include in such reports the views of the Department's Special Committee on PTSD. The annual reports were required to be submitted no later than February 1 of 1986, 1987, 1988, and 1989. Section 201(e) of the Veterans' Benefits Amendments of 1989 (Public Law 101-237) required the Special Committee on PTSD to submit concurrently to the Department and the Committees on Veterans' Affairs by February 1, 1990, a report updating the earlier reports.

House bill: Section 201(e) of H.R. 901 would extend for three years (beyond 1989) the reporting requirement of the Secretary.

Senate bill: Section 205 of S. 13 would extend the reporting requirements for three years (beyond 1989) and require that the reports be made directly by the Special Committee on PTSD and that the reports be submitted concurrently to the Department and the Committees on Veterans' Affairs.

Compromise agreement: Section 204 would require the Special Committee to submit a report concurrently to the Department and the Committees on Veterans' Affairs by February 1, 1991.

Educational assistance for health profession students under reserve GI bill

House bill: H.R. 3199 would amend chapter 76 of title 38 to add a new subchapter V which would (1) authorize the Secretary to identify staffing shortages in health professions within the VA and establish a discretionary post-secondary educational assistance program for Montgomery GI Bill-Select Reserve (chapter 106 of title 10, United States Code) participants who major in such health-care professions and agree to work for VA for one year for each year of assistance received; (2) provide that to be eligible for this program the individual must be entitled to benefits under chapter 106 of title 10 and score above the 50th percentile on the Armed Forces Qualification Test; (3) authorize VA to pay a $400-per-month stipend during the time the student is taking his or her health-related courses to such program participants; and (4) require a participant who does not fulfill his or her obligation with VA to repay the benefit amount, plus interest and penalty, directly to VA beginning on the date of the breach of contract.

Senate bill: No provision. However, section 242 of S. 2100 as reported to the Senate on July 19, 1990 (S. Rept. No. 101-379) is substantively identical except that it would (1) would require that to be eligible for participation in the program the individual must be receiving benefits under chapter 106 of title 10; (2) require (rather than just authorize) the Secretary to pay a participant a monthly stipend of $400; (3) require that, if an individual could not complete obligated service as a result of performing active duty, the individual would be permitted to complete obligated service upon completion of active-duty service; and (4) authorize the Secretary to prescribe regulations under which the Secretary could waive the obligated service requirement in cases in which the Secretary determines that the individual cannot perform the service for reasons beyond the individual's control or that waiver would be in the best interest of the government.

Compromise agreement: Section 205 follows the House bill except that it contains the provisions described in items (3) and (4) of the description of the Senate bill.

Procedures relating to computer matching programs in certain educational assistance programs under titles 38 and 10 of the United States Code.

Current law: The continuing eligibility of participants in the Montgomery GI Bill—including both Selected Reserve and Active-Duty components under chapter 106 of title 10, United States Code, and chapter 30 of title 38, respectively—and the Post-Vietnam Era Educational Assistance Program under chapter 32 of title 38 who are using education benefits while still serving in the Reserves or on active duty is periodically verified through the use of a computer match of Defense Department personnel data with VA beneficiary data for these programs. If DoD data reflect changes rendering an individual ineligible, such as termination of Reserve status or a disqualifying discharge from active duty, VA terminates benefit payments.

The Computer Matching and Privacy Protection Act (CMPPA) (Public Law 100-503), generally effective January 1, 1990, requires that Federal beneficiary ineligibility data resulting from computer-data-matching programs be independently verified before benefits may be suspended, terminated, reduced, or denied or other adverse action may be taken against the beneficiary. Section 413(b) of Public Law 101-237 delayed the effective date of Public Law 100-503 until July 1, 1990, with respect to the abovementioned VA-administered educational assistance programs.

House bill: Section 4 of H.R. 4089 would (a) provide that VA, in lieu of complying with CMPPA requirements, may suspend, terminate, reduce, or make a final denial of an individual's educational assistance under chapter 30 or 32 of title 38 or chapter 106 of title 10, or take other adverse action against the individual, based upon information produced by a computer-data-matching program with DoD, if (1) VA has provided the individual with a written notice containing a statement of the findings based on the matching program, a description of the proposed action, and notice of the individual's right to contest such findings within 10 days (excluding Saturdays, Sundays, and Federal holidays) after the date of the notice, and (2) the 10-day period has expired; and (b) further postpone, until October 1, 1990, the effective date of the CMPPA with respect to those chapters.

Senate bill: No provision.

Compromise agreement: Section 206 contains the House provision with an amendment ratifying actions taken by the Secretary utilizing DoD data during the period

beginning July 1, 1990, and ending on the date of enactment.

Vietnam-Era GI bill eligibility for certain service academy graduates and Senior Reserve Officer Training Corps members

Current law: Public Law 94-502 established the Post-Vietnam Era Veterans Educational Assistance Program (VEAP) (chapter 32 of title 38) for those who entered on active duty after December 31, 1976, and generally closed off the Vietnam-era GI Bill (chapter 34) to those who entered active duty after December 31, 1976, unless they had previously contracted with the Armed Forces to enter on active duty and were enlisted in or assigned to a reserve component before January 1, 1977, and entered on active duty within 12 months after that date.

House bill: Section 4 of H.R. 1358, effective as of January 1, 1977, would (a) extend chapter 34 eligibility to 1977 and 1978 service academy graduates and 1978 Senior Reserve Officer Training Corps graduates who met the chapter 34 180-day and active-duty character-of-service requirements and, before January 1, 1990, filed an irrevocable election of chapter 34 benefits; (b) make those graduates eligible for refunds of any amounts of their unused contributions to the VEAP account; and (c) make those who received educational assistance under chapter 32 eligible for payment of an amount equal to the amount by which chapter 34 benefits for the program pursued exceeded the assistance received under chapter 32 for that program.

Senate bill: No provision. (However, section 336 of S. 2011 (100th Congress) as reported and as passed by the Senate in H.R. 4741 on October 18, 1988, was substantially similar to the House provision, with the additional requirement that, to be eligible for chapter 34, the individual must have enrolled in the chapter 32 program while on active duty.)

Compromise agreement: Section 207 follows the House bill with a modification (1) postponing until January 1, 1992, the deadline for filing an election, and (2) providing for equivalent payments by way of free-standing provisions rather than amendments to title 38.

Limitations on changes of programs of education

Current law: Under section 1791 of title 38, a veteran or other eligible person pursuing education with VA-administered assistance is generally permitted not more than one change of program of education. The Secretary may approve an additional change of program if the Secretary finds—pursuant to the requirements of section 1791(b) (1) and (2)—that (1) the program of education which the individual proposes to pursue is suitable in terms of the individual's aptitudes, interests, and abilities, and (2) in the case of an individual who interrupted or failed to make progress in the pursuit of the prior program, there is a reasonable likelihood that there will not be a recurrence of the interruption or failure to progress. Additional changes of program may not be approved unless the Secretary finds that the change is necessitated by circumstances beyond the individual's control.

Senate bill: Section 319 of S. 13 would amend section 1791 of title 38 so as to (a) repeal the general prohibition against more than two changes of educational program, and (b) in the case of second and subsequent changes of program, permit approval only if (1) the individual accepts educational or vocational counseling services referred to in section 1663 of title 38, and (2) the Secretary determines, on the basis of the results of the educational or vocational counseling, that the change is suited to the individual's aptitudes, interests, and abilities.

House bill: No provision.

Compromise agreement: Section 208 would not amend the law regarding a first change of program but, with respect to second and subsequent changes, would authorize the Secretary to establish a procedure to approve changes of program in cases in which the requirements of current section 1791(b) (1) and (2) are satisfied.

The Committees note that, in designating such a procedure, the Secretary would have a wide range of options, including (a) requiring counseling or making it voluntary; (b) whether counseling is mandatory or voluntary, providing it through the authority in section 1663 of title 38 for contract counseling, possibly through the schools; and (c) requiring counseling in specific situations and making it voluntary in others.

Also, the Committees urge that VA follow through with the oral commitment provided at an August 2, 1989, hearing of the House Committee to find a better definition of the term "change of program" in section 21.4234 of title 38, Code of Federal Regulations.

Naming of Department of Veterans Affairs Medical Center in Saginaw, Michigan

House bill: H.R. 2569 would designate the Department of Veterans Affairs Medical Center in Saginaw, Michigan, as the "Aleda E. Lutz Department of Veterans Affairs Medical Center".

Senate bill: No provision. (However, S. 2145, introduced by Senators Riegle and Levin on February 20, 1990, contains identical language.)

Compromise agreement: Section 209 contains the House provision.

Certain limitations on outside employment for certain employees

Current law: Section 4106(g) of title 38 authorizes VA to apply to certain title 5 employees, i.e., clinical or counseling psychologists, certified or registered respiratory therapists, licensed physical therapists, licensed practical or vocational nurses, pharmacists, and occupational therapists, the provisions authorizing VA to set rates of pay and qualification standards for title 38 employees. The Congress emphasized, in the report language accompanying the legislation which created these "hybrid" occupational groups, that it was its intent not to diminish or impair in any way the rights and protections guaranteed the employees under the express provisions of title 5. These rights and protections include the right to seek employment outside VA.

House bill: Section 102 of H.R. 901 would add a new subsection to section 4108 of title 38 which would clarify that any provision of title 38 limiting employment outside of the Department by an employee of the Department would not apply to a person employed in a title 5/title 38 hybrid position.

Senate bill: No provision.

Compromise agreement: The compromise agreement does not contain this provision.

The Committees note that the limitations on outside employment set forth in section 4108 of title 38 apply only to employees appointed under title 38 and that title 5/title 38 hybrid employees are not covered by these regulations. The Committees urge VA to promulgate personnel policies making clear the status of the hybrid employees in this record.

Mr. Speaker, I urge my colleagues to support the proposed compromise we have reached with the other body.

Mr. STUMP. Mr. Speaker, further reserving the right to object, I yield to the gentleman from Massachusetts [Mr. KENNEDY].

Mr. KENNEDY. Mr. Speaker, first I want to thank the distinguished chairman of the Veterans' Affairs Committee, SONNY MONTGOMERY, the ranking minority member, BOB STUMP, and the ranking minority member on the Hospitals Subcommittee, JOHN PAUL HAMMERSCHMIDT, for their support and leadership on this legislation. It has been a privilege to serve with these men on the Veterans' Affairs Committee. They are men of the utmost integrity and there is no doubt that our Nation's veterans have been well served by them. I look forward to working with them on many more veterans issues in the years to come.

Today the House will have the opportunity to vote on legislation that will go a long way in improving the medical care that our veterans receive. H.R. 1199 will enable hospital directors to seriously address the nursing shortage which has resulted in over 2,400 vacancies nationwide. By addressing the serious inequities in pay between nurses who work in the private sector and those who work in the VA, H.R. 1199 will enable hospital directors to hire the nurses to reopen closed patient wards, readmit deserving veterans and restore patient services back to the levels mandated by law.

H.R. 1199 will give the local hospital directors the flexibility to establish nurses' salaries within a range based on current Bureau of Labor Statistics data. Minimum salaries for VA nurses will be based on the local labor-market area survey data. Maximum salaries for more seasoned nurses can be set at 133 percent of the minimum salaries or up to 175 percent for exceptional cases. No longer will nurses salaries be tied to the obsolete General Schedule.

This legislation also provides nurses with the incentive to excel in their practice by rewarding them for assuming head nurse positions, publishing professional articles and attaining clinical certification. I think this bill represents a good compromise between the House and the Senate.

Mr. Speaker, let us face it, with the terrible budget crises, the VA has suffered more than most other Federal agencies. For the past several years, the VA medical care system has been robbing Peter to pay Paul in order to keep their head up above water. It is our Nation's sick and disabled veterans who have ultimately suffered from these cuts. But today, we will have the chance to turn this around by passing H.R. 1199. We should ensure that the nurses who provide our veterans with

health care, are the best and the brightest in the country. H.R. 1199 will give the VA back that competitive edge.

Again let me thank the chairman of the Veterans' Affairs Committee, Congressman SONNY MONTGOMERY. Without his support and dedication, H.R. 1199 would never have come to this point. We have had a long, bumpy road trying to get this nurse pay legislation through. Chairman MONTGOMERY has stuck with it the entire time and the VA nurses of this country owe him a thank you. Today is a big victory for the Nation's VA nurses.

I urge my colleagues to vote for H.R. 1199 and I thank the gentleman for yielding.

Mr. STUMP. Mr. Speaker, further reserving the right to object, I yield to the gentleman from Arkansas [Mr. HAMMERSCHMIDT).

Mr. HAMMERSCHMIDT. Mr. Speaker, I join my colleagues today in strong support of H.R. 1199, as amended, the Department of Veterans Nurse Pay Act. This bill lends much needed improvements to the ability of the Department to recruit in order to provide care for our Nation's veterans. This legislation is necessary in light of the country's national nursing shortage.

The need for congressional action to improve the DVA's ability to compete with the private sector in hiring registered professional nurses has become increasingly apparent. Committee surveys have shown a direct correlation between the nursing shortage and decreased veteran services. According to the DVA, up to 30 percent of DVA operating beds have been closed due to funding and staff shortages.

H.R. 1199, as amended, establishes pay grades and benefits which allow VA health facilities to compete on a higher level with non-VA facilities. This measure provides a flexible pay system which is based upon the unique labor market conditions which exist at the medical center. The legislation also provides for merit awards at the discretion of the facility director and eliminates a cap on nurses' overtime pay. Finally, this measure extends authority to provide a recruitment incentive to hire other health care employees within the same department. An increase in the number of all health professionals will greatly improve veterans access to quality health care services.

I urge my colleagues to support H.R. 1199, as amended, which allows the DVA to improve veteran's access to medical services which has been curtailed by the shortage of qualified professional nurses and other direct health care providers. Our Nation's veterans deserve the best possible care we can provide. Attracting and maintaining the highest quality medical personnel is an important step in this direction.

Mr. STUMP. Mr. Speaker, further reserving the right to object, I rise in strong support of H.R. 1199, as amended. This bill contains an amalgamation of solutions to the critical problems being experienced by the Department of Veterans Affairs in the recruitment and retention of registered nurses. This legislation contains a compromise between the House and Senate Committees on Veterans' Affairs on the best way to address acute personnel shortages in the VA.

The bill establishes a flexible system of pay which will be based on a survey of the labor market done by the Bureau of Labor Statistics. More responsibility and flexibility will be given to the medical center director to provide a more rapid response to changes in the specific labor market surrounding the medical center. The bill also contains provisions to allow the Secretary to extend this authority to other health care professionals as well.

The Committees on Veterans' Affairs have worked on this legislation for nearly 4 years. It is time that we put the Department of Veterans Affairs in a better position to compete for scarce health care professionals. Up to now, the VA has not been a very competitive employer. The ultimate intent of this legislation is that adequate numbers of dedicated, highly competent health care professionals will result in high quality health care services to our Nation's veterans.

I want to extend my appreciation to the chairman of this committee, Mr. MONTGOMERY. He is without a doubt the hardest working advocate our Nation's veterans have. Also, I extend my congratulations to our counterparts in the other body who worked diligently with us to get the work done.

I urge the support of my colleagues on H.R. 1199, as amended.

Mr. SMITH of New Jersey. Mr. Speaker, as the vice chairman of the Veterans Affairs Subcommittee on Education, Training and Employment, I rise in strong support of H.R. 1199, as amended.

Mr. Speaker, during conference with the Senate, legislation I authored, H.R. 3199, the Veterans Health Professionals Educational Amendments of 1989 which passed the House of Representatives on October 30, 1989, was incorporated into H.R. 1199, as amended. The provisions from H.R. 3199 will establish a new program to help the VA recruit health care professionals to fill vacancies in VA medical facilities.

Mr. Speaker, my legislation gives the VA the authority to award a selected guard or reservist who is participating in the Montgomery GI bill an additional $400 per month toward pursuit of a health-related career. Because the Montgomery GI bill participant is already receiving an education payment of $140 monthly from the Department of Defense, the VA is able to award less money than it currently does in its other scholarship programs and still provide a substantial benefit for the participant. In return, the guard or reservist receiving the benefit will serve 1 year in a VA medical facility for every year of benefits received.

H.R. 3199 is supported by the VA, veterans organizations, and military groups, and the House unanimously approved H.R. 3199 last year. In addition to the provisions from H.R. 3199, H.R. 1199, as amended, contains various useful and important provisions to aid the VA in staffing its medical facilities and providing an environment conducive to the delivery of quality health care.

Mr. Speaker, I strongly support H.R. 1199, as amended, and urge my colleagues to join in my support.

Mr. Speaker, I withdraw my reservation of objection.

GENERAL LEAVE

Mr. MONTGOMERY. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks on H.R. 1199, the bill now under consideration.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Mississippi?

There was no objection.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Mississippi?

There was no objection.

The SPEAKER pro tempore. Is there objection to the initial request of the gentleman from Mississippi.

There was no objection.

A motion to reconsider was laid on the table.

CIVIL RIGHTS ACT OF 1990

The SPEAKER pro tempore. Pursuant to House Resolution 449 and rule XXIII, the Chair declares the House in the Committee of the Whole House on the State of the Union for the further consideration of the bill, H.R. 4000.

□ 1102

Accordingly the House resolved itself into the Committee of the Whole House on the State of the Union for the further consideration of the bill (H.R. 4000) to amend the Civil Rights Act of 1964 to restore and strengthen civil rights laws that ban discrimination in employment, and for other purposes, with Mr. MFUME in the chair.

The Clerk read the title of the bill.

The CHAIRMAN. When the Committee of the Whole rose on Thursday, August 2, 1990, the amendment offered by the gentleman from Texas [Mr. BROOKS] had been disposed of.

AMENDMENT IN THE NATURE OF A SUBSTITUTE OFFERED BY MR. MICHEL

Mr. MICHEL. Mr. Chairman, I offer an amendment in the nature of a substitute made in order by the rule.

The CHAIRMAN. The Clerk will designate the amendment in the nature of a substitute.

The text of the amendment in the nature of a substitute is as follows:

Amendment in the nature of a substitute offered by Mr. MICHEL: Strike all after the enacting clause and insert the following:

SECTION 1. SHORT TITLE.

This Act may be cited as the "Civil Rights Act of 1990".

SEC. 2. FINDING AND PURPOSE.

(a) FINDING.—Congress finds that additional protections and remedies under Federal law are needed to deter unlawful discrimination.

(b) PURPOSE.—The purpose of this Act is to strengthen existing protections and remedies available under Federal civil rights laws to provide more effective deterrence.

SEC. 3. DEFINITIONS.

Section 701 of the Civil Rights Act of 1964 (42 U.S.C. 2000e) is amended by adding at the end the following:

"(l) The term 'complaining party' means the Commission, the Attorney General, or a person who may bring an action or proceeding under this title.

"(m) The term 'demonstrates' means meets the burden of production and persuasion.

"(n) The term 'required by business necessity' means that the challenged practice has a manifest relationship to the employment in question or that the respondent's legitimate employment goals are significantly served by, even if they do not require, the challenged practice or group of practices.

"(o) The term 'respondent' means an employer, employment agency labor organization, joint labor-management committee, controlling apprenticeship or other training or retraining programs, including on-the-job training programs, or those Federal entities subject to the provisions of section 717 (or the heads thereof).".

SEC. 4. DISPARATE IMPACT CASES.

Section 703 of the Civil Rights Act of 1964 (42 U.S.C. 2000e-2) is amended by adding at the end the following:

"(k) PROOF OF UNLAWFUL EMPLOYMENT PRACTICES IN DISPARATE IMPACT CASES.—(1) An unlawful employment practice based on disparate impact is established only when—

"(A) a complaining party identifies a particular employment practice and demonstrates that such practice causes a disparate impact on the basis of race, color, religion, sex, or national origin; and the respondent fails to demonstrate that such practice is required by business necessity; or

"(B) a complaining party identifies a combination of two or more employment practices and demonstrates that such combination causes a disparate impact on the basis of race, color, religion, sex, or national origin, and that each employment practice in such combination has contributed to the exclusion; and the respondent fails to demonstrate that such combination would not cause a disparate impact but for employment practices required by business necessity.

"(2) Notwithstanding any other provision of this title (other than subsection (i)), a rule barring the employment of an individual who currently and knowingly uses or possesses an illegal drug as defined in Schedules I and II of section 102(6) of the Controlled Substances Act (21 U.S.C. 802(6)), other than the use or possession of a drug taken under the supervision of a licensed health care professional, or any other use or possession authorized by the Controlled Substances Act or any other provision under Federal law, shall be considered an unlawful employment practice under this title only if such rule is adopted or applied with an intent to discriminate because of the race, color, religion, sex, or national origin.

"(3) The mere existence of a statistical imbalance in an employer's workforce on account of race, color, religion, sex, or national origin is not alone sufficient to establish a prima facie case of disparate impact violation.".

SEC. 5. CLARIFYING PROHIBITION AGAINST IMPERMISSIBLE CONSIDERATION OF RACE, COLOR, RELIGION, SEX OR NATIONAL ORIGIN IN EMPLOYMENT PRACTICES.

"(a) IN GENERAL.—Section 703 of the Civil Rights Act of 1964 (42 U.S.C. 2000e-2), as amended by section 4, is amended by adding at the end of the following:

"(1) DISCRIMINATORY PRACTICE NEED NOT BE SOLE CONTRIBUTING FACTOR.—Except as otherwise provided in this title, an unlawful employment practice is established when the complaining party demonstrates that race, color, religion, sex, or national origin was a major contributing factor for any employment practice, even though other factors also contributed to such practice.".

"(b) ENFORCEMENT PROVISIONS.—Section 706(g) of the Civil Rights Act of 1964 (42 U.S.C. 2000e-5(g)) is amended by inserting before the period in the last sentence the following: "or, in the case where a violation is established under section 703(1), if the respondent establishes that it would have taken the same action in the absence of discrimination.".

SEC. 6. FACILITATING PROMPT AND ORDERLY RESOLUTION OF CHALLENGES TO EMPLOYMENT PRACTICES IMPLEMENTING LITIGATED OR CONSENT JUDGMENTS OR ORDERS.

Section 703 of the Civil Rights Act of 1964 (42 U.S.C. 2000e-2), as amended by sections 4 and 5, is amended by adding at the end the following:

"(m) FINALITY OF LITIGATED OR CONSENT JUDGMENTS OR ORDERS.—(1) Notwithstanding any other provision of law, and except as provided in paragraph (2), an employment practice specifically required by a litigated or consent judgment or order resolving a claim of employment discrimination under this title may not be challenged in a claim under the United States Constitution or Federal civil rights laws by a person who, at the time of the entry of such judgment or order, was an applicant for employment with or an employee of the entity covered by such decree, whose interests would likely be affected by the consent decree, and who had—

"(A) actual notice that such judgment or order would likely affect the interests of such person and that later challenge by such person would be barred; and

"(B) a reasonable opportunity to challenge such judgment or order.

"(2) Nothing in this subsection shall be construed—

"(A) to alter the standards for intervention under rule 24 of the Federal Rules of Civil Procedure;

"(B) to apply to the rights of parties to the action in which the litigated or consent judgment or order was entered, or of members of a class represented or sought to be represented in such action, or of members of a group on whose behalf relief was sought in such action by the Federal government; or

"(C) to prevent challenges to a litigated or consent judgment or order on the ground that such judgment or order was obtained through collusion or fraud, is transparently invalid, or was entered by a court lacking subject matter jurisdiction.".

SEC. 7 EXPANSION OF RIGHT TO CHALLENGE DISCRIMINATORY SENIORITY SYSTEMS.

Section 706(e) of the Civil Rights Act of 1964 (42 U.S.C. 2000e-5(e)) is amended by adding at the end the following: "For purposes of this section, an alleged unlawful employment practice occurs when a seniority system is adopted, when an individual becomes subject to a seniority system, or when a person aggrieved is injured by the application of a seniority system, or provision thereof, that is alleged to have been adopted by an intentionally discriminatory purpose, in violation of this title, whether or not that discriminatory purpose is apparent on the face of the seniority provision.".

SEC. 8 PROVIDING FOR ADDITIONAL EQUITABLE RELIEF IN CERTAIN CASES OF INTENTIONAL DISCRIMINATION.

Section 706 of the Civil Rights Act of 1964 (42 U.S.C. 2000e-5) is amended—

(1) in subsection (g)—

(A) by inserting "(1)" after "(g)"; and

(B) by adding at the end the following:

"(2) In fashioning equitable remedies for an unlawful employment practice or group of unlawful employment practices (other than an unlawful employment practice established in accordance with section 703(k) and other than an unlawful employment practice for which back pay may be awarded under this title), the court may require the respondent to pay the complaining party an amount not to exceed $100,000 if the court finds that—

"(A) an additional equitable remedy beyond those otherwise available is needed to deter the respondent from future violations of this title; and

"(B) such an award is otherwise justified by the equities.

In no event shall the complaining party recover in excess of $100,000 for either an unlawful employment practice or a group of unlawful employment practices to which this paragraph applies.

"(3) Notwithstanding any other provision of this section, if a person is aggrieved by an unlawful employment practice to which paragraph (2) applies, then such a person may commence a civil action in an appropriate district court of the United States for temporary or preliminary injunctive relief, without regard to any waiting period that would otherwise prevent the commencement of a civil action under this title.

"(4) All issues in cases arising under this title shall be heard and determined by a judge, as specified in subsection (f).".

SEC. 9. ALLOWING THE AWARD OF EXPERT FEES.

Section 706(k) of the Civil Rights Act of 1964 (42 U.S.C. 2000e-5(k)) is amended by inserting "(including expert fees)" after "attorney's fee".

SEC. (10) EXPANSION OF PROTECTIONS AGAINST ALL RACIAL DISCRIMINATION IN THE PERFORMANCE OF CONTRACTS.

Section 1977 of the Revised Statutes of the United States (42 U.S.C. 1981) is amended—

(1) by inserting "(a)" before "All persons within"; and

(1) by inserting "(a)" before "All persons within"; and

(2) by adding at the end the following:

"(b) The rights protected by this section are protected against impairment by nongovernmental discrimination as well as against impairment under color of State law. This section affords the same protection against discrimination in the perform-

ance, breach, modification or termination of a contract and in the enjoyment of all benefits, privileges, terms, and conditions of the contractual relationship, as it does in the making or enforcement of that contract.".

SEC. 11. PROVIDING CIVIL RIGHTS PROTECTIONS TO CONGRESSIONAL EMPLOYEES.

Title VII of the Civil Rights Act of 1964 (42 U.S.C. 2000e et seq.) is amended by adding at the end the following:

"SEC. 719. CONGRESSIONAL COVERAGE.

"Notwithstanding any other provision of this title, this title shall apply to the Congress of the United States. The means for enforcing this title as this title applies to each House of Congress shall be as determined by the House of Congress.".

SEC. 12. SEVERABILITY.

If any provision of this Act, or an amendment made by this Act, or the application of such provision to any person or circumstances is held to be invalid, the remainder of this or circumstances is held to be invalid, the remainder of this Act and the amendments made by this Act, and the application of such provision to other persons and circumstances, shall not be affected thereby.

SEC. 13. EFFECTIVE DATE; APPLICATION OF AMENDMENTS.

(a) EFFECTIVE DATE.—This Act and the amendments made by this Act shall take effect on the date of the enactment of this Act.

(b) APPLICATION OF AMENDMENTS.—The amendments made by this Act shall not apply with respect to claims arising before the date of the enactment of this Act.

The CHAIRMAN. Pursuant to the rule, the gentleman from Illinois [Mr. MICHEL] will be recognized for 1 hour. A Member opposed will be recognized for 1 hour, and that Member will be the gentleman from Texas [Mr. BROOKS].

Mr. BROOKS. Mr. Chairman, I am opposed.

The CHAIRMAN. The Chair recognizes the gentleman from Illinois [Mr. MICHEL].

Mr. MICHEL. Mr. Chairman, I yield myself such time as I may consume.

Mr. Chairman, very briefly, yesterday we did celebrate the 25th anniversary of the enactment of the 1965 voting rights bill. I happened to be one of those 31 or 32 Members who currently are serving in the House who was privileged to vote for that legislation at the time.

One year earlier we had several days of extended debate on the Civil Rights Act of 1964. As a matter of fact, I think it stretched nearly a week. It was indeed a rather extensive debate. Over in the other body my late departed mentor, the late Senator Everett McKinley Dirksen, was very visible in that debate, on the other side, as was Hubert Humphrey, the distinguished Senator from Minnesota. Here in the House I recall Mannie Celler from New York on that side of the aisle, and Bill McCulloch from Ohio on this side of the aisle during the deliberations of that momentous civil rights legislation. I was proud to vote for it.

As a matter of fact, my first vote for civil rights in this House was to establish the Civil Rights Commission back in 1957, and then a significant civil rights bill, I believe, in 1960.

In all of these cases there was a truly bipartisan effort to reach consensus. We worked together on both sides of the aisle to get a good bill, and Members will recall particularly on the majority side where there was marked division back in those days whenever we got to talking about civil rights legislation. It was absolutely necessary, fundamental, to have both parties and both sides of the aisle working together to get a good bill, and I mention all of this because we should be doing the same here today.

But a restricted rule and a reluctance on the part of the majority to permit one of your own to lend his good name as a coauthor of a bipartisan substitute is an impediment to our coming together as we have always done in the past on civil rights legislation.

The rule does make in order a substitute to be offered by me or my designee, and since the gentleman from New York [Mr. LAFALCE] had done so much missionary work in crafting an alternative to the base bill, we thought it only appropriate to give him the honor and recognition to be the lead sponsor of the substitute, and while the gentleman from New York has begged off being accorded that recognition we are still prepared to give him for his language, I shall exercise the privilege, Mr. Chairman, of designating the gentleman from Pennsylvania [Mr. GOODLING] to formally cosponsor the substitute with me and handle the allocation of time on this side of the aisle.

But before doing so, Mr. Chairman, I should like to read a letter into the RECORD that I received from the President last night setting forth quite clearly his position on this legislation. It is dated August 2, 1990, the White House.

THE WHITE HOUSE,
Washington, August 2, 1990.

Hon. ROBERT H. MICHEL,
Republican Leader, House of Representatives, Washington, DC.

DEAR BOB: I have consistently expressed my desire to sign into law a civil rights bill. I have also consistently worked with both the Senate and the House to forge a bipartisan consensus to address these issues in a constructive manner.

The bipartisan amendment to be offered by you and John LaFalce represents a sound, practical compromise that my Administration can and will support.

Unfortunately, Kennedy-Hawkins, the bill you are seeking to amend is neither sound nor practical. I am convinced it will have the effect of forcing businesses to adopt quotas in hiring and promotion. It will also foster divisiveness and litigation rather than conciliation and do more to promote legal fees than civil rights.

The other two amendments to the original bill, which I understand will be offered on the floor today, in fact, do nothing to cure the bill's defects. I hope the House will reject these superficial attempts to create the illusion of fixing the problems in the bill. I want to make it clear that the adoption of these two amendments would not result in a bill I can sign.

Again, I could sign the bipartisan compromise represented by your amendment. I commend you and others for your painstaking efforts to produce sound civil rights legislation.

Sincerely,

GEORGE BUSH.

At this juncture, Mr. Chairman, as I indicated I would, I ask unanimous consent that the balance of the time on this side of the aisle be under the control of the distinguished gentleman from Pennsylvania [Mr. GOODLING], who is so well versed in all of the intricacies of the proposed legislation.

The CHAIRMAN. Is there objection to the request of the gentleman from Illinois?

There was no objection.

The CHAIRMAN. The distinguished minority leader, the gentleman from Illinois [Mr. MICHEL] has yielded the control of his time to the gentleman from Pennsylvania [Mr. GOODLING]. The gentleman from Pennsylvania [Mr. GOODLING] reserved, under the rule, the balance of his time.

Mr. BROOKS. Mr. Chairman, I ask unanimous consent that I be allowed to yield one-half of the time in opposition to the amendment to the gentleman from California [Mr. HAWKINS], and that he be permitted to yield blocks of time to other Members.

The CHAIRMAN. Is there objection to the request of the gentleman from Texas?

There was no objection.

Mr. BROOKS. Mr. Chairman, I yield myself such time as I may consume.

Mr. Chairman, I want to tell the gentleman from Illinois [Mr. MICHEL], that I, too, was here and voted for the 1964 and 1965 acts, and I remember the legislation creating the Civil Rights Commission. I also remember an event that many Members probably do not remember—the circulation of the Southern Manifesto, which was an earlier effort to limit civil rights. I did not sign the Southern Manifesto. I was one of a handful who did not from Texas or Louisiana, Mississippi, or Alabama or Georgia. It was sort of a shaky vote, but we survived.

Mr. Chairman, there is one additional change that should be made to the Republican amendment in the nature of a substitute in order to show what its true intent is. The short title should be changed to read as follows: "This act may be cited as the Civil Wrongs Act of 1990."

Very simply put, this Republican substitute rips the heart out of H.R. 4000. The Civil Rights Act of 1990 was intended to overturn five Supreme Court decisions that have hamstrung

the vigorous enforcement of this Nation's civil rights employment laws.

Mr. Chairman, there is one additional change that should be made to the Republican amendment in the nature of a substitute in order to show what its true intent is. Its short title should be changed to read as follows: "This act may be cited as the 'Civil Wrongs Act of 1990.'"

Very simply put, the Republican substitute rips the heart out of H.R. 4000. The Civil Rights Act of 1990 was intended to overturn five Supreme Court decisions that have hamstrung the vigorous enforcement of this Nation's civil rights employment laws. Far from overturning those decisions, in key respects the substitute would write them into the statute books permanently.

Every page of this amendment is filled with artfully worded phrases that would effectively decimate enforcement of employment discrimination cases. The amendment purports to reverse last year's Ward Cove decision regarding the burden of persuasion in so-called disparate impact cases. But then, when it gets to the crucial point of defining the expression "business necessity," the amendment lifts the definition directly out of the Ward's Cove case.

The Republican substitute claims to offer the chance for a victim of discrimination to be awarded up to $100,000 in damages as an equitable remedy. But then it cleverly writes in a requirement that "all issues * * * shall be heard and determined by a judge"—a requirement that flies in the face of the constitutional right to a jury trial under the seventh amendment. Go down a little bit further in the substitute, to the severability section, and you will discover that if that damages award provision is held unconstitutional, as it probably will be, that whole section—and the right to recover damages—will just disappear off the books. So I hope no victims of discrimination make too many plans on how to spend their damage awards, because the damages provision in this amendment is designed to self-destruct.

The Republican amendment claims to overrule last year's Price Waterhouse decision—but in making the victim of discrimination prove that race, color, religion, sex, or national origin was a major contributing factor for any employment practice, it would write into the law a standard that is even worse and harder to prove than the one in Price Waterhouse.

Mr. Chairman, we need some truth in labeling around here. You can't just slap the title "Civil Rights Act of 1990" on this amendment and make it a civil rights bill, any more than you can make a silk purse out of a sow's ear. I urge a no vote on this amendment, the "Civil Wrongs Act of 1990."

I would hope, having listened to the letter from the President to the gentleman from Illinois [Mr. MICHEL], it would be noted that the President did not say in that letter that he would specifically, positively veto this bill if we pass it after we defeat this substitute. I believe that when the President thinks about it, looks at it, when it comes out of conference that he will in good faith sign the bill, and we can harmoniously have a little signing ceremony at the White House, and everybody can come and smile and be happy.

Mr. Chairman, I reserve the balance of my time.

□ 1110

Mr. GOODLING. Mr. Chairman, I yield myself 3 minutes.

Mr. Chairman, as I indicated yesterday, my actions, not my words, would indicate that no one wants a true procivil-rights bill any more than I do. And I would like to have a bill that would reflect the conditions of the 1990's and the year 2000. I am afraid from much of the discussion yesterday we were not doing that or were not even thinking about that.

I want a bill that the President will sign. I want a bill that discourages quotas. I want a bill that helps the aggrieved, not the attorneys.

I am saddened that when we discuss legislation such as this that intolerance seems to be the No. 1 word or the No. 1 effort in this House. It appears that if you are not 100 percent behind the legislation which we have before us, the Kennedy-Hawkins bill, you are somehow not as procivil rights as someone else. It seems to me tolerance should be the name of the game when we are discussing civil rights legislation.

I want to very quickly review what is in the substitute, because I have a fear from listening to the discussion yesterday that many people have not read the legislation, either the substitute or the bill, or have not read either very carefully. So I want to very quickly talk about the compromise.

It reverses words Cove in that it puts the burden of proof on the defendant in demonstrating business necessity. It also reverses the case in that it would allow the grouping of practices where the plaintiff could show each practice contributed to the impact.

It reverses Patterson. It reverses Lorance, the statute of limitations applicable to challenges to seniority systems.

It reverses Martin versus Wilks in that it would preclude challenges to consent decrees by applicants or employees who had actual notice of the proceedings and that the proceedings would likely affect their interest.

It reverses Price Waterhouse and allows a plaintiff to prove unlawful discrimination when race or sex was a major motivating factor, even if the employer could prove that he or she would have made the same decision, for example, where the plaintiff was clearly unqualified for the job.

It provides for recovery of expert witness fees. It provides for equitable relief of up to $100,000 for intentional discrimination where back pay relief is not available, the equities justify an award and additional relief is needed to deter further discrimination.

Others will describe the legislation in more detail.

Mr. Chairman, I reserve the balance of my time.

Mr. HAWKINS. Mr. Chairman, I yield myself 4 minutes.

Mr. Chairman, finally we have someone who claims the substitute. And I think the issue before the House is what do we send to the Senate and what do we send down to the White House.

The idea of sending the substitute to the Senate is useless, because that has already been considered and the actual substitute was withdrawn. So we are not likely to get very much support on the other side. If we send it down to the White House, it is also useless because it merely liberalizes and supports the Supreme Court decision. So if we want the Supreme Court decisions to prevail, we can do that by doing nothing. So that will be a useless gesture, even if the President signs it.

What do we seek to do in terms of H.R. 4000 and how does it compare with the substitute?

In H.R. 4000 we seek to return the law to its prior 1989 status. The opposition wants to uphold the 1989 decisions decided by a split Court of 4 to 5. The decisions and the substitution of the Supreme Court by the substitute would simply be useless.

The Pattreson decision, one of those which we seek to overrule, ruled that discrimination is prohibited in only the formation of a contract, not after that, which simply means that on-the-job discrimination will be continued. That is what the substitute does. H.R. 4000, in contrast, says that it is prohibited and in all the aspects of employment. For example, on the job discrimination in promotions, firings and so forth.

The Court knocked out relief, for example, for sex harassment. The substitute would continue that decision. We seek to overrule it so that a woman has relief to sex harassment. That is just one of the cases.

Wards Cove changed the Griggs standard which was put on the statute books by a unanimous Supreme Court decision back in 1971. Wards Cove, by a 5-to-4 split, would change it. Griggs provided that qualified women and minorities cannot be excluded unless for job-related performance on the basis

of qualifications. Wards Cove placed on the victims, in contrast, the burden of proving business necessity, a sophisticated process that the average victim of discrimination cannot even define, knows nothing about, has not even the information to prove their case.

Without H.R. 4000 women will be unable to sue for compensation and punitive damages even in gross sexual assault cases. It is not available under title VII, although black women can use section 1981 which covers race, not gender. So they can use section 1981, but a white woman cannot, making a distinction among women even.

□ 1120

Such action, however, assumes the ability of the victims to pay for private suits, and that they cannot usually do.

Now, we believe in conciliation mediation. In the earlier act of 1964, we were the ones who proposed and had it adopted. But today, mediation conciliation is useless.

EEOC and the other law enforcement agencies of the Administration are not effective. They are led by individuals who do not even believe their own law. That is the testimony before the committee.

Clearly, if we pass H.R. 4000, we will do something different and, we think, a vast improvement. If we pass the substitute, we may as well do nothing because the law would still prevail even if we did not pass it.

Mr. Chairman, I reserve the balance of my time.

Mr. GOODLING. Mr. Chairman, I yield 7 minutes to the distinguished gentleman from Illinois [Mr. HYDE].

(Mr. HYDE asked and was given permission to revise and extend his remarks.)

Mr. HYDE. Mr. Chairman, I would like to say that, in response to the remarks of the distinguished chairman of the committee and the gentleman from California, that there is not an awful lot of difficulty finding people who want to claim the substitute.

I could read you a list of distinguished Democrats, some from Texas: let us say, PETER GEREN, JIM CHAPMAN, BERYL ANTHONY, JR., one of the leaders of the Democratic Party, ALBERT BUSTAMANTE, RICHARD RAY, SONNY MONTGOMERY, CARROL HUBBARD, JR., GREG LAUGHLIN, BILL SARPALIUS, LINDSAY THOMAS, DOUGLAS BARNARD, JR. There are all kinds of Democrats who support the substitute. So do not worry, we will find some more.

Mr. WASHINGTON. Mr. Chairman, will the gentleman yield?

Mr. HYDE. Mr. Chairman, the gentleman from Texas [Mr. WASHINGTON], would like some time.

I appeal to you, Mr. BROOKS, to give your fellow Texan some of your time. Would you do that?

Mr. BROOKS. Would you yield to me?

Mr. HYDE. I knew you would because you are a believer in free and open and honest debate.

Yes, I yield to my friend.

Mr. BROOKS. Watch how they vote.

Mr. HYDE. I will, and I will tell you why: That makes me so happy to be a Republican. You cannot take my chairmanship away, because I have not got one; you cannot take my committee away, you cannot get me in a room and intimidate me, you cannot even deny me bathroom privileges. So I will watch how they vote, and then we will do a study as to how many shoulders are dislocated from your activity.

Mr. WASHINGTON. Mr. Chairman, will the gentleman yield?

Mr. HYDE. Would you get your time from your fellow Texan, would you do that? He is a generous man.

Mr. WASHINGTON. You will not yield to discuss the merits?

Mr. HYDE. Oh, sure, I will yield, I will yield, never mind my statement, just go ahead and interrupt me.

Mr. WASHINGTON. When you finish your statement, would you kindly yield to discuss the merits?

Mr. HYDE. I will, and if I am out of time, would you get me some of Mr. BROOKS' time?

Mr. WASHINGTON. I surely will.

Mr. HYDE. Thank you.

Now, the 5th amendment, and I need not tell you scholars that, and the 14th amendment, I need not tell you that, guarantees to every person equal protection of the laws. Now, I know everyone is equal, some are just more equal than others. And this bill moves in that direction.

But I would just like to recall to your mind the ideal as set forth in our Constitution: equal protection of the law.

Now, in the context of employment, it means equal opportunity in hiring, in promotion, and in benefits. Quotas are the antithesis of equal protection; they are selective, they are preferential, they are discriminatory.

And remember, good friends, quotas are a ceiling as well as a floor. Quotas force employers to think in terms of race, of sex, of religion, of national origin, rather than individual merit.

Now, we do not want to, contrary to the words of the distinguished chairman, the gentleman from California, we do not want to uphold Ward's Cove. And I would dare to suggest you read the LaFalce substitute or call it what you will, the substitute, because in Ward's Cove, need I remind you—and you have staff to help you—that the plaintiff employee had to show a statistical disparity between the community of labor available and the workforce, the employee had to allege a specific employment practice or group of practices that resulted in the discrimination, and the employee had to show that the employment practice was not required by business necessity.

The LaFalce substitute shifts the burden of proof to the employer to prove business necessity.

Do you understand the difference? The burden of proof is shifted from the employee to the employer. That is not revitalizing Ward's Cove, that is reversing Ward's Cove.

Now, the LaFalce substitute does something else. It defines business necessity in the words of the Griggs decision.

Oh, you say you use the Griggs language. But you use if from a statement of the problem early on; when it gets to the decision, LaFalce uses the language of the decision of Griggs and the same language that has been used in 10 subsequent Supreme Court cases.

The business necessity defined in the LaFalce substitute as the employment practice "has a manifest relationship to the employment in question." Oh, you provide the employer with a burden of proof. That must bear a significant relationship to successful performance of the job. That is going to be an onerrous burden of proof to sustain.

The remedies under present law that Mr. HAWKINS said are presently ineffective, conciliation, you are going to substitute a tort system for a system providing equitable relief.

You are going to have your people wait years to get their jury trial heard, you are going to give the lawyers a carnival, a feast—and the lawyers get their money before the client gets his or her money. You are going to have the jury cases backed up and backed up and backed up. And that is what drives quotas.

You say there are no quotas, but there are quotas. You say there is a cap on damages, but there is no cap. This is a magic show, it is not an honest debate of a civil rights issue.

I simply say to you you are destroying relationships of employee and employer; you are substituting 7 years of waiting to get your case heard rather than immediate injunctive relief, which is what LaFalce promises, and you are leading us up the wrong path.

Mr. Chairman, I yield to the gentleman from Texas [Mr. WASHINGTON].

Mr. WASHINGTON. Mr. Chairman, I thank the gentleman for yielding.

Now, you and I do not have to get into a diatribe. I respect you, and I think you respect me.

Mr. HYDE. I do not know why you suggest that. I would not diatribe.

Mr. WASHINGTON. Griggs versus Duke Power was a good case, and would you agree it was at least modified and limited in some respects by the decision of our Supreme Court in the Ward's Cove case?

Mr. HYDE. Yes.

Mr. WASHINGTON. Would you agree that insofar as the position of a person aggrieved is concerned, they are better off with the Griggs standard than the Ward's Cove?

Mr. HYDE. Oh, yes that is why we used the Griggs language.

Mr. WASHINGTON. You repeatedly say you use the Griggs language, but you have used the burden of proof from Ward's Cove, have you not?

Mr. HYDE. No.

Mr. WASHINGTON. In other words, you did change it back to the requirement that the employer prove business necessity, but you use the business necessity definition from Ward's Cove rather than from——

Go ahead and put the chart up.

Mr. HYDE. Well, here is the decision, Mr. WASHINGTON, right here. I am sure you are familiar with it. Would you like to read the words that we used?

Mr. WASHINGTON. I do not need to read it, sir, I have it embedded in my heart. It is only 13 pages long, sir.

Mr. HYDE. Then why are you confused about us not using the words of Griggs? It is right here.

Mr. WASHINGTON. I am not confused; you are.

Mr. HAMMERSCHMIDT. Mr. Chairman, will the gentleman yield?

Mr. HYDE. I yield to the gentleman from Arkansas.

Mr. HAMMERSCHMIDT. I thank the gentleman for yielding.

Mr. Chairman, I rise in support of the Michel-Goodling substitute.

I rise to express serious concerns with the civil rights bill we have before us today. While I applaud the intention of the sponsors of this legislation in promoting civil rights, I do believe that this bill is seriously flawed. Despite what proponents of the legislation may say, the simple fact is if this bill is permitted to pass unamended, it will result in employers setting quotas. It will also result in a Presidential veto.

H.R. 4000 does far more than overturn recent Supreme Court decisions. Instead of guaranteeing equality of opportunity, the bill would arbitrarily require equality of result.

In order to be on the safe side and avoid the threat of lawsuits, employers will be forced to adopt quotas. Those employers who do not adopt quotas may find themselves in litigation proceedings for years on end. Additionally, the bill as written would be retroactive for years on end. Additionally, the bill as written would be retroactive to the dates the various Supreme Courts cases were overturned. This is completely contrary to our system of justice. Is this really the type of civil rights bill we want to enact? I don't believe it is.

That is why I am supporting the LaFalce substitute now being considered as the Michel-Goodling substitute, while this admendment is not perfect, it is a compromise, covering the concerns of both the business and civil rights communities.

It would restore the original Griggs versus Duke Power and Beazer tests of business necessity. The complainant would have to establish a "disparate impact" of an employment practice, and show a causal connection between an employment practice and such impact. The burden of proof would then shift to the employer to show that such a practice is a business necessity.

The substitute would also overturn the Supreme Court ruling in the Wards Cove decision. While the Supreme Court ruled that the complainant must identify the specific practice which caused the disparate impact, the LaFalce substitute would allow the complainant to identify "a combination of two or more employment practices" that caused a disparate impact if the complainant can show "that each employment practice in such combinations has contributed to the exclusion."

Additionally, the substitute would also allow the Court to award up to $100,000 in equitable relief for cases where back pay is not available and intentional discrimination has been established.

Mr. Chairman, the President has indicated that he could support this bill as amended by the LaFalce—now the Michel-Goodling—substitute. I would encourage my colleagues to adopt what was formerly known as the LaFalce amendment.

Mr. GUNDERSON. Mr. Chairman, will the gentleman yield?

Mr. HYDE. I yield to the gentleman from Wisconsin.

The CHAIRMAN. The time of the gentleman from Illinois [Mr. HYDE] has expired.

Mr. BROOKS. Mr. Chairman, I yield 4 minutes to the gentleman from California [Mr. EDWARDS], chairman of the subcommittee.

Mr. EDWARDS of California. Mr. Chairman, I rise in opposition to the Michel-LaFalce Republican substitute.

Let me say how surprised I was to learn that this substitute was being held out as a compromise. I met on a number of occasions with officials from the White House, who indicated they had some problems with the bill, and wanted to discuss the matter further. Well, I never heard back from them with any proposals. Nor did I ever hear from the gentleman from New York [Mr. LAFALCE], regarding any concerns he had about the bill.

And then, earlier this week, I heard about the Republican substitute. While I have no problems with the substitute being offered, it is no compromise. It would, in fact, codify the very cases H.R. 4000 seeks to overturn. The Republican substitute is worse than the administration's bill, H.R. 4081, which sought only to overturn two of the five major Supreme Court cases, and not to codify the other three cases.

The Michel-LaFalce Republican substitute codifies the definition of "business necessity," the "legitimate employment goals" definition, used in the Wards Cove case. Wards Cove is, of course, the key case H.R. 4000 seeks to overturn.

The Michel-LaFalce Republican substitute permits the employer to engage in intentional discrimination, as long as it was not a major contributing factor to the employment decision. This principle that some proven intentional discrimination is acceptable was expressed in the Price Waterhouse case and is overturned by H.R. 4000.

The Michel-LaFalce Republican substitute would allow continual, duplicative, and repeated challenges to long settled cases, even if the person's interests were adequately represented in the case. This would codify the Martin versus Wilks case, another case H.R. 4000 overturns.

The Michel-LaFalce Republican substitute deletes the damages provision for victims of intentional discrimination. Instead, it would allow an equitable remedy payment to the victim of up to $100,000 only if back pay is not available and in the judge's view additional relief is necessary to deter the employer from future illegal conduct.

The committee has already adopted an amendment to cap punitive damages for cases of egregious discrimination. Although I opposed this provision, this cap should provide more than adequate protection for the rights of business.

Although the Michel-LaFalce provision on damages may sound attractive, there are serious problems with this provision:

If a victim of sexual harassment got any backpay, she could not get additional monetary relief. For example, if she suffered medical expenses, and received some backpay, there could be no reimbursement for those medical expenses.

Consider the cases of two victims of sexual harassment who testified at our subcommittee hearings.

Carol Zabkowicz was a warehouse worker for the West Bend Co. I described her story in my statement yesterday.

Mrs. Zabkowicz put up with terrible sexual harassment for 4 years. She continually complained to her company but without results. She needed the job and also believed that she should not be forced out of the job because of the wrongdoing of others.

But finally it became too much for her. Besides severe emotional trauma, she also suffered vomiting, severe nausea, diarrhea, and cramping. While pregnant, her doctor advised her to take a medical leave of absence from her job, and she did.

She sued the company, and won. But she was awarded $2,700—backpay to make up for her medical leave of absence. She could not recover for her medical bills or emotional distress, or to punish the perpetrators. And in her words: "If I had never taken that medical leave, I guess I wouldn't have gotten anything for winning."

Under the Michel-LaFalce Republican substitute, because she was awarded backpay, she could not receive any

further monetary award. Mrs. Zabkowicz would have to settle form $2,700.

Helen Brooms worked as a nurse at Regal Tool Co.

She also was subjected to horrible and outrageous harassment, and suffered medical problems and expenses as a result.

Ms. Brooms was awarded backpay, just like Ms. Zabkowicz. If the Michel-LaFalce Republican substitute is adopted, she, too, would not be entitled to any additional monetary relief.

Even if there was no backpay available, the provision would only allow payment if an additional remedy was needed to deter the employer from future unlawful conduct. Thus, if the employer can promise that he will stop future discriminatory actions, then a payment is not available.

Even if a victim could get a payment, this provision would not allow for proven expenses beyond $100,000. For example, if a victim of sexual harassment had medical bills of $200,000, she could get a maximum of only $100,000.

This provision will not avoid the need for a jury trial. The Seventh Amendment of the Constitution guarantees a right to a jury trial when monetary damages are awarded. Calling these monetary damages an equitable remedy will not fool the courts. Courts will either require that a jury trial be held or declare this provision unconstitutional.

The Michel-LaFalce Republican substitute turns the Civil Rights Act of 1990 on its head. This amendment would gut the bill; it is a killer amendment. I strongly urge my colleagues to vote "no" on this substitute.

□ 1130

Mr. GOODLING. Mr. Chairman, I yield 3 minutes to the gentlewoman from New York [Ms. MOLINARI].

Ms. MOLINARI. Mr. Chairman, I rise today in support of the Michel-Goodling substitute to the Civil Rights Act of 1990. Now let me state the painfully obvious, while acknowledging the obviously painful. Discrimination does exist. It has personally harmful and professional impeding effects. It has forced many people to double our efforts over our competitors for the same outcome of recognition and respect. Discrimination will leave most people at many times in our lives short of our goals and far short of our rights.

Yes, we must include in our national agenda a recognition of this problem and an advancement toward a solution. Each and every employer who discriminates must do so aware of the legal and financial implications of their act. However, an employer must not determine the makeup of his or her staff based on numerical mandates.

Freedom and justice are not achieved by statistical balance of employees. Civil rights are upheld, when opportunity is guaranteed, and we must strive to provide that guarantee to the Michel-Goodling substitute.

Now clearly, I am a woman who strives for women's rights, and women's equality in the workplace, in our homes, in our House right here. I want a significant position in society because I am qualified, not because I am a woman. This substitute bill more closely adheres to this practice than H.R. 4000, by establishing that causal link for discrimination allegations. The substitute forces my hire only if I am qualified. No matter how many times I read H.R. 4000, no matter how many times I read that language to the contrary, I cannot see how my colleagues cannot conclude that this bill, H.R. 4000, will force quotas.

A year does not go by in the city of New York without lawsuits restructuring our police and firefighter exams. Hence, the makeup of our force. Members see it, and it has affected performance in the city, it decimates morale. We cannot afford to duplicate this mistake throughout this country in every business, public and private.

I am here today in the spirit of fairness, in the spirit of equality, to tell my colleagues and urge my colleagues that this female person is very much for the Michel-Goodling substitute.

Mr. HAWKINS. Mr. Chairman, I yield 2 minutes to the gentleman from Indiana [Mr. JACOBS].

Mr. JACOBS. Mr. Chairman, I only want to speak to a point that was debated yesterday that relates to the substitute, however, That is, whether the cap on punitive damages is, indeed, a cap on punitive damages. I think that we need a little bit of primer about punitive damages are and compensatory damages are. More to the point, what compensatory damages are.

Compensatory damages are actual damages. That is another way to discribe it. It is that if the punitive damages are limited to the compensatory damages, there is no limit at all. However, that is not true because compensatory damages are limited by the facts. They are limited by the ascertainable facts in terms of dollar and cents.

To illustrate, if someone throws me off of my job, I have the right to be on a job, and I am reinstated, and I am gone for 1 day and I would have made $40 in that day, that the precise damage that has been done to me.

Mr. HYDE. Mr. Chairman, will the gentleman yield?

Mr. JACOBS. I certainly yield to the gentleman from Illinois.

Mr. HYDE. I think the gentleman is confusing compensatory damages with back pay. Compensatory damages can include humiliation, suffering, pain, going home and facing the kids and saying, "I didn't get the job." All of those will make a part of compensatory damages. I refer the gentleman to Black's Law Dictionary.

Mr. JACOBS. I thank the gentleman for his edification. I did not say it was limited to loss of wages. I only used the loss of wages as an example. The point is, it is ascertained by the facts, not by punishment. Consequently, it is limited to the facts.

Mr. GOODLING. Mr. Chairman, I yield 2 minutes to the gentleman from Illinois [Mr. FAWELL].

Mr. FAWELL. Mr. Chairman, I support the LaFalce substitute. I think it is the LaFalce substitute, because this gentleman rather heroically did a great deal of work on it. It is too bad that he has lost some of his civil rights and is not able to speak out in regard to his own substitute.

I want to pursue just a bit further the question I asked yesterday: Why do we have the metamorphosis, the tremendous change that has taken place, out with the old, gut the EEOC, come in with a brand-new tort remedy, and all of that which we have talked about? Why is this so? Nobody, nobody has denied the fact that that has worked the present system has worked very, very well. Yet we are going to make a change.

I would suggest that several witnesses, at least in the Committee on Education and Labor, did give Members an answer. One person said, "Our aim is to make employers quake in their boots." That is called employer intimidation. Slam, bang, and crunch every bit of discrimination which may exist in the working place, out. Well, that is quite a change, but the question is, why?

I want to say that we all can understand that emotion when we have suffered discrimination; when we may be punished for something, and it is discriminatory. For instance, as people have been discriminated, I think on that side of the aisle in regard to having their freedom, in regard to how they want to vote here today, for instance.

□ 1140

There are hundreds of forms of discrimination—poverty, not being able to go to the best of schools, being too black or too white, too fat or too short, disabled, handicapped, ad infinitum. There are all kinds of discrimination, and we all understand the emotion. The first emotion is to "sue the son-of-a-guns," to create an adversarial situation. But the question we have to ask ourselves is this: Is that the attitude we want to have in the workplace? In the narrow sphere of the workplace, is that the kind of attitude we want to be able to engender?

Mr. GRAY. Mr. Chairman, will the gentleman yield for a question?

The CHAIRMAN. The time of the gentleman from Illinois [Mr. FAWELL] has expired.

Mr. FAWELL. I have no more time.

Mr. GRAY. Mr. Chairman, I would ask the Chairman to extend 30 seconds on this side so I could ask the gentleman a question.

Mr. FAWELL. I would want to have time to answer.

Mr. GRAY. It will only take me that long. The only thing I want to ask the gentleman is this: He made a comment about a Member losing his civil rights.

Mr. FAWELL. I do not want to yield——

The CHAIRMAN. Does the gentleman from California yield 30 seconds?

Mr. HAWKINS. I am trying to find out to whom to yield the time right now. If the majority whip wants the 30 seconds, I will be happy to yield him 30 seconds.

The CHAIRMAN. The gentleman from Pennsylvania [Mr. GRAY] is recognized for 30 seconds.

Mr. GRAY. Mr. Chairman, a statement was made by the gentleman in the beginning of his debate about someone on this side of the aisle losing his civil rights with regard to the offering of the amendment. Could the gentleman explain exactly what he means, because I do not know of anyone losing his civil rights with the offering of any amendment?

Mr. LAFALCE. Mr. Chairman, will the gentleman yield?

Mr. GRAY. I am glad to yield to the gentleman from New York.

Mr. LAFALCE. Mr. Chairman, I intend to speak on this amendment. I intend to speak for 5 minutes. I am not exactly sure what time my turn is coming up but there is no denial of civil rights as far as speaking on the amendment is concerned. The gentleman may have had something else in mind. I really wish we could simply discuss the merits of the several proposals, and let us get on with it.

Mr. GRAY. Mr. Chairman, the fact is that that is a very serious charge to make against the leadership on this side, and I would like to know what he meant. But if he does not want to explain, I understand.

The CHAIRMAN. The time of the gentleman from Pennsylvania [Mr. GRAY] has expired.

Mr. FAWELL. Mr. Chairman, may I have time to respond?

The CHAIRMAN. The Chair recognizes at this point in the debate the gentleman from Texas [Mr. BROOKS].

Mr. WASHINGTON. Mr. Chairman, I ask unanimous consent that the gentleman be given an opportunity to explain.

The CHAIRMAN. The time at this point is controlled by the gentleman from California [Mr. HAWKINS], the gentleman from Texas [Mr. BROOKS], and the gentleman from Pennsylvania [Mr. GOODLING]. Only they can yield time in the debate.

The Chair recognizes the gentleman from Texas [Mr. BROOKS].

Mr. BROOKS. Mr. Chairman, I yield 2 minutes to the gentleman from Kansas [Mr. GLICKMAN], a distinguished member of the subcommittee.

Mr. GLICKMAN. Mr. Chairman, we are talking about the exclusion as well as the participation of millions of minorities in American society. These are citizens and taxpayers. They deserve access, not exclusion. That is why we must reject the Michel substitute.

The Michel bill would require a two-part test in impact cases. My friend, the gentleman from Illinois [Mr. HYDE], talked about half the test, but he failed to tell us about the other half of the test, which is just as important.

The Michel bill would require the plaintiff to identify the discriminatory effect of each practice and then allow the employer to justify the discriminatory practice if it has a manifest relationship to the employment in question or that the employer's legitimate employment goals are significantly served by, even if they do not require, the challenged practice.

Mr. HYDE. Mr. Chairman, will the gentleman yield?

Mr. GLICKMAN. I will yield to the gentleman when I have finished.

Mr. HYDE. Mr. Chairman, the gentleman mentioned my name.

Mr. GLICKMAN. I will yield to the gentleman when I have finished.

Mr. Chairman, I would not quarrel with the first half of that test, but the second half allows the "built-in headwinds" against minorities that the 1971 Griggs decision sought to prohibit. This misses the intent that tests or practices measure the person for the job and not the person in the abstract. That is the Griggs case. This is a bad standard. It gets us nowhere.

The base bill would require the employer to show that a test has a significant relationship to successful performance on the job. We should demand a tough standard to explain why you exclude people of a certain race, sex, or religion from full participation in American society.

The base bill has that tougher test. We are talking about discrimination here. We require that tougher test, a fair but tough test. The Michel substitute misses the boat on that. It makes it too easy. In my judgment, it weakens civil rights enforcement in this country, and I urge its rejection.

Mr. Chairman, I yield to my colleague, the gentleman from Illinois [Mr. HYDE].

The CHAIRMAN. The time of the gentleman from Kansas [Mr. GLICKMAN] has expired.

Mr. GOODLING. Mr. Chairman, I yield 30 seconds to the gentleman from Illinois [Mr. HYDE].

Mr HYDE. Mr. Chairman, in the first place, I would say to my dear friend, the gentleman from Kansas [Mr. GLICKMAN], that it is in the disjunctive. It is the Griggs test we use, and then the next one is from the Beazer case, with which the gentleman is very familiar, I believe. But it says, "or." So if you do not like the Beazer formula, use the Griggs formula.

Second, I would tell the gentleman that the standard he uses in his bill is from the first paragraph of the statement of the problem in Griggs. Our phrase, "a manifest relationship," is from the decision in Griggs, and it has been cited verbatim in 10 subsequent Supreme Court cases.

End of lesson.

The CHAIRMAN. As a point of information, the Chair would like to inform the Members controlling the debate that the gentleman from Pennsylvania [Mr. GOODLING] has 31½ minutes remaining, the gentleman from California [Mr. HAWKINS] has 23½ minutes remaining, and the gentleman from Texas [Mr. BROOKS] has 20 minutes remaining.

The Chair recognizes the gentleman from Pennsylvania [Mr. GOODLING].

Mr. GOODLING. Mr. Chairman, I yield 5 minutes to the gentleman from Oklahoma [Mr. EDWARDS].

Mr. EDWARDS of Oklahoma. Mr. Chairman, I am for civil rights, you are for civil rights, we all are. But frankly, when I began to look closely at what was really in the Kennedy-Hawkins bill, what I found thoroughly disgusted me.

Let me make one think as clear as possible: No human being has ever accused MICKEY EDWARDS of being soft on civil rights. The first time I ever received the attention of the national press, as a young man just out of school, was a direct result of my actions to broaden the base of the Republican Party and to open our party specifically to black Americans—and Mr. Chairman, that was nearly 30 years ago. On the Foreign Operations Subcommittee, as the subcommittee's vice chairman and as a leader in the fight to provide aid to our allies in El Salvador, I was one of the leaders as well in the fight to impose conditions on that aid, making it dependent on a respect for human rights. Fourteen years ago, Mr. Chairman, I voted to censure South Africa, and have voted for sanctions against South Africa almost every time they have been considered by this Congress. No man in this Chamber, black or white, and no woman in this Chamber, has a stronger commitment to civil rights than MICKEY EDWARDS has, and the people in my district, including my black and

Hispanic constituents, are very much aware of that.

And so, Mr. Chairman, I am offended, I am insulted, I am furious, that the chairman of this committee would bring this fraud to the floor of the House of Representatives, this lawyers-get-rich-bill, this quota bill, which will not stop discrimination, but create it, and pretend that it is a civil rights bill. By definition, the protection of one's civil rights consists of ensuring that every individual gets a full, fair, and equal opportunity to compete. Creating a system like the one in Kennedy-Hawkins, which literally forces employers to set up quota systems, does the exact opposite. If you are black, and 35 percent of the people in your geographic area are black, and the employer to whom you apply for a job has a work force that is 35 percent black, he's not going to hire you, because if he does, he will not have enough Hispanics, or enough Asians, and if he gets out of statistical balance, he gets hauled into court. During the debate last night, one of the speakers, in an off-hand remark that was supposed to somehow be pointed and telling, quipped that the size of the damages should not really be a problem because after all, you don't pay the damages unless you're guilty, and the supporters of this bill all cheered and laughed as though they had just made an amazingly clever point.

The problem is, whoever said it obviously hadn't read the bill. If this bill merely said that we're going to throw the kitchen sink at anybody who intentionally and willfully discriminates in his hiring practices, I'd shove Mr. KENNEDY and Mr. HAWKINS aside to be the first name on the bill. Don't fine them, put them in jail and close down their businesses. If you want to devise any punishment at all for those jerks, those low-lifes who would deny a man or woman a job because of their sex, or their handicap, or their color, or their religion, if you want to put them in jail, I'll join you.

But that's not what this bill does. Under this ridiculous piece of legislation, a man without a single racial, religious, or gender prejudice in his body, who makes a sincere and serious and concerted effort to reach out and provide equal employment opportunity, who never decides against hiring somebody except on the basis of merit and competence, can get dragged into court if the percentage of skill and competence in the area he is hiring for does not exactly mirror the birth rate.

And let me make one thing very, very clear. We're not talking here about so-called reverse discrimination. We're not talking about protecting whites against job opportunities for blacks or Hispanics or orientals or white women or pink Martians. This is not about the Bakke case. A black, a woman, a Hispanic, a man in a wheelchair, any of these people can be the victims of discrimination which is caused by this bill, and the only people who will come out ahead are the lawyers.

Now last night another speaker, whom I respect very highly, made the point that history does not prove that attorneys have, in fact, had a windfall from civil rights cases. Well, maybe, maybe not. But they haven't had this bill, which prohibits—prohibits—the settlement of the case unless the lawyers fees are protected. Not: unless the plaintiff has received justice; not: unless the wrongs have been righted. What it does is keep the conflict going and running up the legal fees, no matter what the defendant and plaintiff agree to, unless we first have taken care of the lawyers. Mr. Chairman, I'm a lawyer, I taught law, and I find that provision intolerable, outrageous, and disgusting.

Mr. Chairman, I'm for civil rights. Everybody in this Chamber is for civil rights. The American people are for civil rights protections. One of the most respected Members of the House, one of the leading Democrats in Congress, one of the strongest supporters of civil rights, JOHN LAFALCE, has presented an amendment which protects civil rights, and I intend to vote for it. You can gag Mr. LAFALCE, you can threaten him, you can even prevent a Democratic committee chairman from offering an amendment in an area over which he legitimately has concern and jurisdiction, but you can't stifle, you can't choke off, you can't bury simple equity and justice. The LaFalce amendment is a good, strong, fair civil rights bill, and everybody who truly believes in preventing discrimination and oppression in the workplace ought to vote for it.

□ 1150

Mr. BROOKS. Mr. Chairman, I yield 1½ minutes to the distinguished gentleman form North Carolina [Mr. HEFNER], a member of the Committee on Appropriations.

Mr. HEFNER. Mr. Chairman, I was the gentleman that said last night, "If you break the law, you should pay; if you don't break the law, you don't pay."

I remember back when we were talking about the Grove City decision here on this floor. I came to this well and spoke on behalf of overturning the Grove City decision.

I know what discrimination is about. Nobody can fault me for fighting for small business. We have passed a textile bill three times in this House to protect people, and most of them, minorities. It has been vetoed three times, so do not talk about what we are trying to do to business.

I have two daughters, and I would hope that they would not have to suffer discrimination in the workplace, as well as minorities.

Mr. Chairman, my record is excellent in fighting for civil rights.

I remember the same arguments were made, and, if my colleagues could close their eyes, they would hear the same arguments on the Grove City decision, such as, "if you vote for this, you are going to be forcing the hiring of homosexual AIDS patients to be youth pastors." It did not happen.

As I said, "If you are breaking the law, you shouldn't do that."

Mr. Chairman, that is what we are all about, and there is so much misinformation that has been floating around this place, and into our offices, on the telephones from the different organizations, the same information that flowed into here on the Grove City, on the minimum wage, the ADA bill, you name it. It is the same misinformation that has been flowing in every time we talk about civil rights.

Mr. GOODLING. Mr. Chairman, I yield 3 minutes to the gentleman from Texas [Mr. GEREN].

Mr. GEREN of Texas. Mr. Chairman, the decision before us now is now whether we will or will not pass a progressive civil rights bill. Kennedy-Hawkins and LaFalce are both progressive civil rights bills. There are important differences, and I wish we had the time to work them out. If we were going to consider this in September, perhaps we would have, but that is a moot question at this point.

Mr. Chairman, I share the frustration of the gentleman from Texas [Mr. WASHINGTON], my friend and colleague, that the merits have been lost in this debate. It is frustrating to me to try to discuss the merits of the two proposals and be told over and over we are well beyond the merits, perception is all that matters at this time. It was frustrating to me yesterday to hear the two amendments discussed, not on their merits, which they have and have considerably, but whether or not they serve as sufficient cover; once again, perception, and not the merits. Early in the week, when merits were still on the table, LaFalce had a comfortable majority in this House, a majority that included some of the most progressive Democrats in this body. That may or may not be the case today.

Mr. Chairman, it is not our job to vote on perception. The last 10 years have taught us that we cannot afford Government by perception. For the last 10 years we have governed under the perception of fiscal responsibility and tripled our debt. We have governed under the perception of putting America first and sent 10,000 jobs a quarter overseas. We govern under the perception of strong family values, but more children live in poverty today

than at any time in our Nation's history.

In my home State we have a crazy and expensive workers' compensation system sold under the perception of being good for workers, yet we have the highest premiums, and we rank among the lowest in the country in benefits paid to injured and deserving workers.

Which brings me to my concern about Kennedy-Hawkins.

Mr. Chairman, my greatest concern about it is that it is sold under the perception of being a great civil rights bill, and certainly it is. It does much to advance the cause of civil rights, but I am afraid that its greatest impact may not be in the field of civil rights, but it could be in creating a legislative quagmire, that its greatest impact will be the enrichment of lawyers and a disservice to those it is perceived to serve.

LaFalce is not perfect, but it will help us avoid the litigation nightmare offered by Kennedy-Hawkins.

Mr. Chairman, the Washington Post has leveled the very same criticism at Kennedy-Hawkins that I do today. Certainly no one can question its commitment to civil rights, and I offer this article for the RECORD.

Mr. Chairman, I urge my colleagues to pass LaFalce, send a message to the conference committee that we want a strong and progressive civil rights bill, but one that includes a remedy section that advances the cause of civil rights and does not stand in the way of it.

[From the Washington Post, June 25, 1990]

THE CIVIL RIGHTS BILL

The Civil rights bill pending in the Senate is described by defenders as mainly an effort to restore important technical changes made in equal employment law by a new Supreme Court majority last year. The legislation does indeed seek to undo those court decisions, which together appreciably weakened the law as it had been previously understood. But that is not all it does; it would extend prior law as well as repair it. The leading example has to do with the price of a finding of discrimination—what plaintiffs can sue for and get if they win.

Under old law, the most that the typical winning plaintiff could get was to be made whole in the limited sense of being awarded the job or promotion and back pay found to have been wrongly denied. That was all that a judge was empowered to order, and the law did not provide for jury trials. Only in one class of cases could plaintiffs seek more. Under a post-Civil War statute plaintiffs charging intentional racial discrimination were entitled to ask for jury trials and seek not just lost rank and pay but compensatory and punitive damages.

The Supreme Court last year narrowed the application of this Reconstruction Era statute, called Section 1981; the pending legislation would restore its prior scope. Then it would take the important further step of giving all other persons charging intentional discrimination the same access to jury trials and damages. That's new. The arguments in favor are 1) that discrimination on the forbidden bases of religion or sex or disability are as wrong as racial discrimination, and victims should have the same recourse, and 2) that reinstatement and back pay do nothing for a victim of harassment or other such on-the-job mistreatment that stops short of loss of job or pay; only damages can help.

The point is also made that the threat of damages would act as a deterrent and that the damages would only be available for odious conduct: for compensatory damages the discrimination would have to be shown to have been intentional, and for punitive it would have to be found to have been malicious and to have been carried out with "reckless and callous indifference to . . . federally protected rights" as well.

But this is a larger shift in the law than in some of their rhetoric the proponents acknowledge, and we think it goes too far. We have grave reservations about the system of punitive damages generally. It is erratic and abused. If legislatures want to punish behavior they should criminalize it and set clear penalties, not leave that to the uneven results produced by contingency fees and the jury process. If a system of punitive damages has to be retained, the proceeds should go to the state, not the victims. That would help take the roll of the dice out of such litigation. If indeed they are punishment and not compensation, such damages should be treated in the same way as fines.

Nor is it a problem for us if racial and the other prohibited forms of discrimination are differently treated; they *are* different. Racial discrimination occupies a place in our history and the law that discrimination on such bases as sex or handicap simply do not. Its victims have a special status, exercise a special claim. If the law now strands victims of such other forms of discrimination as sexual harassment, Congress should fashion a particular remedy for them, not broaden the present remedies for all. Most of this bill—the restorative part—deserves to be passed. The damages section needs to be cut back.

Mr. HAWKINS. Mr. Chairman, I yield 2 minutes to the gentleman from Texas [Mr. DE LA GARZA].

Mr. DE LA GARZA. Mr. Chairman and my colleagues, there is an old saying: "You shouldn't criticize an Indian until you walk in his moccasins for a day," or some sort of semblance to what I have just said.

Mr. Chairman, the indignity of discrimination has been suffered by some who served in this Chamber. There are some of us who have walked in the moccasins of that Indian. When that happens, if the hurt runs deep and the scar is permanent, our very soul cries out for vengeance and for justice.

That is what we are about today, justice and equity.

We hear so often the words that our Founding Fathers left with us, that there are certain unalienable rights bestowed upon us by the Creator of the human beings. This is but another step in the never-ending process of trying to achieve the ultimate in that vow, and that promise and that challenge of the Founding Fathers.

I would say, and I have heard all of the arguments, that there is not that much difference. But should there be difference, justice demands that the doubt be given in the favor of those who suffered.

So, that is the only difference, and I will cast my vote, even though there may be doubt, but on the side of those who walked in the moccasin of that Indian for that one day.

Then, hopefully, one day we will arrive at a point where there should not be any discussion, or any emotion, because we truly will follow the mandate from above and that desire that somehow, some day, protected by law and respected by our neighbors, those words would have full meaning.

□ 1200

Mr. BROOKS. Mr. Chairman, I yield 3½ minutes to the gentleman from Oklahoma [Mr. MCCURDY].

Mr. MCCURDY. Mr. Chairman, I am a lawyer, not a great one but a good one and one who has some experience in the area of civil rights law. As an assistant attorney general in the late seventies, I represented agencies that were respondents in EEOC cases. The standard then under title VII of the Civil Rights Act was that of employment practices with a disparate impact—those which appear to exclude minorities—existed, then the employer had the burden to prove the practices were required by business necessity. Griggs versus Duke Power Co., 1971.

That principle was reversed in the 1989 case, Wards Cove Packing versus Atonio and placed the burden on employees to prove that practices are not significantly related to a legitimate business objective.

This bill is designed to restore civil rights laws that banned discrimination in employment before the Ward's Cove decision.

Mr. Chairman, I have read this bill and compared the substitute. I have reviewed the case law, dissected the sections, diagrammed the clauses and gone to the dictionary for definitions and clarifications.

I believe you have to want to find differences to come up with the hair-splitting going on over this bill's language.

For example: The business necessity language has evolved from essential—which opponents found excessive—to substantial and demonstrable and finally to significant. Now, the fight is over the difference between significant and manifestly.

Opponents admit that nothing in this bill specifically requires quotas, which I am opposed to. But, they argue that businesses will have to adopt quotas out of self-defense.

Mr. Chairman, I do not believe this bill requires quotas, but it perhaps will require some self-examination of practices, actions and intent of employment policy.

It is not enough to make discrimination socially unacceptable or to ignore it or to walk away from it.

Discrimination in any form—race, religion, national origin, or sex—is wrong. It is morally wrong. It is evil.

Mr. Chairman, I can support this bill as a lawyer and as a legislator on its merits. I can support it intellectually. But, more importantly, I can support it in my heart because it is the right thing to do.

As a young boy growing up in southwest Oklahoma during the 1950's and 1960's, I was aware of racism both open and subtle. I was bothered by it, but accustomed to hearing the word "nigger", or "wetback". I heard Jews and Catholics referred to in derogatory terms.

I regret that for a while, such terms were even used in my own family until I fought against it.

The only time I ever ran away from home was at the age of 11 or 12. It was after a whipping I endured for starting a fist fight with my older brother over the use of the word "nigger." It was not a mean, intentional racism, but ignorance and bias.

It soon stopped, however, and over time, the use of racist slurs became socially unacceptable in the community where I lived.

However, I still saw it on the truck docks where I loaded sacks of flour for shipping. I still saw it in the locker rooms at my high school and in college. I have even seen it in this Chamber.

Enactment of this bill does not assure an end to the use of racist terminology in our society. But, it does indicate a willingness on our part, as America's elected leaders, to demonstrate our disgust over discrimination in any form.

I will support the bill and I will vote against the weakening substitute.

Mr. GOODLING. Mr. Chairman, I yield 6 minutes to the gentleman from Texas [Mr. STENHOLM].

Mr. STENHOLM. Mr. Chairman, I come today to support very strongly the bipartisan substitute. It is true that the words we hear from the lawyers of this body are very confusing, they certainly are to me, but the facts are that litigation is running rampant in this country today and I believe that the Kennedy-Hawkins bill will increase it.

Mr. Chairman, I want to commend the gentleman from New York [Mr. LAFALCE], the distinguished chairman of the Small Business Committee. He has shown a great deal of courage in recent days. That in itself is not surprising. What is surprising is that courage was required in order for one of our colleagues to do what we are all supposed to do, be a serious legislator, exercise independent judgment, thoughtfully examine the law and the legislation and seek a compromise.

The gentleman from New York [Mr. LAFALCE] fought for his substitute to Kennedy-Hawkins today. He looked to the left and to the right and came up with a serious civil rights bill that staked out a reasonable middle ground, from my perspective a little too far to the left, but I support it because it was a sincere effort and it would have brought us a civil rights bill that would have had 300-plus votes in this body, but sadly some of us around here do not think this is the way it is supposed to work.

I do not think it serves this institution well when any one of us questions the motives of our colleagues. I do not question the sincerity or the wisdom of the authors and supporters of Kennedy-Hawkins. I am saddened by the intolerance shown to those of us who differ.

In turn, I want to attest to his sincerity as a member of the Democratic Party and as Member of the people's House, the gentleman from New York, in authoring, and he is the author of the substitute today.

Why is it that when 12 Republicans vote for a liberal bill, there is a broad partisan coalition; but when 25 or 50 on our side vote for a moderate alternative, it is characterized as the Republican bill with a few Democratic defectors.

The gentleman from New York deserves much credit for his leadership and his indepth study of these issues and for the truly bipartisan substitute he fashioned. I was there when Members of both sides tried to get him to make changes. I tried to get the gentleman to make changes in the remedies language in his bill. We may have a better substitute because I did not prevail.

The gentleman from New York should not have to apologize, as he felt necessary yesterday for the stance that he has taken.

The question was asked, Why is it tough for a Democrat to be the chairman of the Small Business Committee? That is a good question my colleagues. Why is it so tough?

The rule of law has been talked about many times, and that is what we are talking about today, the rule of law. All of us agree that it must be fair.

Kennedy-Hawkins is not fair, folks. That is why I oppose it. It is not fair.

I, too, believe in civil rights. I, too, believe that it is wrong to discriminate and I would challenge anyone to say otherwise; but what we overlook today when we talk about discrimination in race, on religion, on color, on sex, we forget that there are minorities, there are women, there are blacks, there are Hispanics, there are the disabled, businessmen and women who will be discriminated against if Kennedy-Hawkins passes and should be signed by the President. That is why the chairman of the Small Business Committee felt it important to offer a substitute middle ground between the more extremist views of those who sincerely believe that they are doing what is right for the working men and women of this country, but they overlook the fact that in America today we have tremendous costs of litigation, and we in the body continue to propound it. This bill, Kennedy-Hawkins, if it in fact should become law, I suggest will increase the amount of litigation, and that is why the small businesses of America are pleading with us today, "Don't do it."

In the name of Civil Rights, do not propound a major piece of legislation that in this Member's humble opinion is going to dramatically increase the amount of litigation. It is going to force small businesses, as we have done through the Legal Services Corporation, it is going to force small businesses across this Nation to hire lawyers to defend themselves.

□ 1210

It is going to cause small businesses across this Nation to hire lawyers and, in many cases, to fight against lawyers that have been paid by their own tax dollars.

Keep in mind we have expanded dramatically through the ADA those who will benefit from the perceived benefits of this, and I do not question for a moment that there are benefits to be achieved by the Kennedy-Hawkins bill. My concern and my opposition to it and my support for the bipartisan substitute is that it is a middle ground that does not move us too far too fast at a time when America is being challenged across the world in a competitive war in which it seems this body always looks for ways to put an anchor on the foot of the businessmen and women of all races and creeds. That is why I am here.

I do not quarrel with those who believe the other way. I do not quarrel that there is discrimination. I believe, quite sincerely, that we can pass laws from kingdom come, and we will never make a perfect world. God did not create a perfect world.

Vote for the LaFalce substitute. It is a reasonable bipartisan compromise.

REMEDIES

Among the many reasons I rise in support of the LaFalce-Goodling substitute are its superior positions on remedies and attorneys' fees.

The remedies provisions in the substitute, in every case, go beyond current law. Today, under title VII, a victim of discrimination can obtain back pay, reinstatement, and, after some administrative determinations, injunctive relief.

Under LaFalce-Goodling, $100,000 in equitable relief would, for the first time anywhere, become available for on-the-job, intentional discrimination, such as harassment. In addition, and unlike Kennedy-Hawkins, under the substitute, the victimized employee need not run through the EEOC hurdles before being

allowed into Federal court to obtain immediate injunctive relief.

Kennedy-Hawkins, even with last night's Brooks amendment, allows unlimited compensatory damages—in other words, a sharp plaintiff's lawyer can file a harassing suit for a million dollars' worth of pain, suffering, mental distress, and other intangibles, and then double that amount by adding the same amount in punitive damages.

I know there are legitimate complaints. That's why the bipartisan substitute has $100,000 in equitable, make-whole remedies in it.

However, instead of restitution and conciliation, which have always been the hallmark goals of our civil rights laws and labor laws, Kennedy-Hawkins is a pro-litigation bill.

But we all know how the drill works on the flip side of that coin: The small employer settles, out-of-court, for maybe $30,000 that he or she really does not owe, to avoid spending $60,000 in legal fees to defend against a $1 million suit that is pure harassment.

Now, the House last night already conceded the issue of whether racial harassment, under section 1981, should be treated differently from all other discrimination. The Brooks amendment, adopted overwhelmingly, already made that legal distinction. That issue has been settled by the House.

There are two remedies issues before us here:

(1) What level of monetary remedy is appropriate? I believe $100,000, more than twice the average award under section 1981, is appropriate.

(2) Should we make a fundamental change, for the first time anywhere outside the special case of section 1981, in our longstanding approach to employment law and civil rights law by encouraging lawsuits for practically unlimited compensatory and punitive damages? I believe the answer should be "no."

LAWYERS

Unfortunately and indefensibly, Kennedy-Hawkins also protects plaintiffs' lawyers at the expense of their innocent, already-victimized clients.

Kennedy-Hawkins allows a plaintiff's lawyer to refuse to negotiate an out-of-court settlement that includes negotiation of his or her fees. One of the fundamental characteristics of a settlement is, and ought to be, that everything is on the table.

In another provision, Kennedy-Hawkins allows an indefensible injustice: Let's say the defendant makes an offer to settle out-of-court for $30,000. The plaintiff's lawyer, whose accumulated, hourly fees may be $10,000 by that time, refuses. The final court award is $20,000. Of that, the plaintiff's lawyer takes, let's say, $15,000, in documentable, hourly, accrued fees. The lawyer is $5,000 better off, his or her client is $15,000 worse off. The lawyer goes for broke, and the innocent client is the one who gets broke. That is in Kennedy-Hawkins.

Support LaFalce-Goodling; it is a genuine civil rights bill. Oppose Kennedy-Hawkins, it is a lawyer's lawsuit bill.

The CHAIRMAN. The Chair announces to those Members controlling debate that the gentleman from Pennsylvania [Mr. GOODLING] has 25½ minutes remaining; the gentleman from California [Mr. HAWKINS] has 21 minutes remaining; and the gentleman from Texas [Mr. BROOKS] has 15½ minutes remaining.

The Chair recognizes the gentleman from California [Mr. HAWKINS].

Mr. HAWKINS. Mr. Chairman, I yield 2 minutes to the gentleman from Massachusetts [Mr. KENNEDY].

Mr. KENNEDY. Mr. Chairman, I rise in opposition to the Republican substitute.

For over a quarter of a century Americans have agreed that we ought to move forward, not backward, in the struggle for equality. Untold numbers of Americans have put their time, their money, and yes, their lives on the line for simple justice—for the belief there is no room in America for bigotry and racial hatred.

But today the civil rights consensus is threatened. Not from a backlash by the majority. But by a few white men in black robes who see nothing wrong with an America that is the domain of a privileged few. In an earlier time, the Supreme Court set the moral tone of our Nation's commitment to equality. Now it endeavors to resurrect the barriers that most folks thought were knocked down years ago. The last year and a half have seen a dramatic turnaround from on high:

For decades, the Court said that a 1866—yes, 1866—law prevented discrimination on the job. Now the Court says that the law only prevents prejudice at the door—at the time of hiring.

For nearly 20 years, the Court told us that the employer had to prove that a racially imbalanced work force was not the result of discrimination. Now the Court says that victims must prove that it was—even though discrimination does not usually leave a paper trail.

And for years, Americans assumed that prejudice had no place in employment decisions. Now we are told that discrimination is just fine, so long as the employer can make it legitimate later—after he's had time to make up an excuse.

But, Americans believe there is no room for racial hatred and discrimination, no matter what the protectors of privilege say. We did something about the Grove City case. And now we are going to do something about these latest backward decisions.

Because America will not tolerate racial bias on the job any more than it will tolerate it at the time of hiring.

Because employers should prove why racially imbalanced work forces are required by a significant business objective, rather than merely preferred as the old way of doing business.

Because discrimination is always wrong, even if it is just part of an employment decision.

And finally, because America knows it is time to face the challenges of the 21st century, not again fight the battles of the past.

W.E.B. DuBois said 90 years ago that "the problem of the 20th century is the problem of the color line." History has proven the truth of his prediction. When the full history of this country is written years from now, let today be remembered as the day that that line was put behind us once and for all.

I urge my colleagues to defeat the Michel-LaFalce substitute. I yield back the balance of my time.

Mr. BROOKS. Mr. Chairman, I yield 2 minutes to the distinguished gentleman from Texas [Mr. BUSTAMANTE].

Mr. BUSTAMANTE. Mr. Chairman, I thank the chairman for yielding me this time.

Mr. Chairman, the distinguished gentleman from Texas [Mr. DE LA GARZA], the chairman of the Committee on Agriculture, outlined the merits as to why we should adopt H.R. 4000. I concur with the remarks of the gentleman from Texas [Mr. DE LA GARZA]. I, too, walked in the Indian shoes or moccasins or guaraches.

Before H.R. 4000 reached the floor of this Chamber for consideration, I was concerned about two specific provisions concerning punitive damages and the establishment of racial quotas in the workplace.

The original version of H.R. 4000 contained no limitation on the award of punitive damage claims against an employer who violated the standards established under this bill.

The bill was also confusing on the question of whether it required employers to establish quotas in the workplace.

The Brooks-Hawkins-Tallon and the Andrew-Neal amendments adopted by the House yesterday clarified these issues to my satisfaction, and for these reasons, I am proud to support the passage of the Civil Rights Act of 1990.

Mr. Chairman, my friends, there is no more humiliating experience than to be discriminated against. I come from south Texas. DAVE MCCURDY talked to you about his experiences in Oklahoma. It is no fun to be run out of restaurants, out of barber shops, to be denied employment simply because you are a Mexican or a wetback or a Mescin or whatever other title they used to use for us or to live in segregated housing or to go to segregted schools. It is the most humiliating experience. It tears at your heart. It brings you down as a person.

Mr. Chairman, we should not have that in America.

Mr. GOODLING. Mr. Chairman, I yield 1½ minutes to the gentlewoman from Kansas [Mrs. MEYERS].

Mrs. MEYERS of Kansas. Mr. Chairman, my colleague from California whom I like and admire has said that no female American will vote for the Michel-Goodling substitute. Well, I intend to support it.

I am from Kansas, and in Kansas we have a very strong record of support for civil rights. I believe that we had a fair-housing law on the books before the Federal Government did. We were one of the first to vote to ratify women's right to vote. We were one of the first to ratify ERA.

This substitute was first offered on the Senate side by a fine female American Senator, NANCY LANDON KASSEBAUM. I personally have voted for civil rights restoration, for the ERA, for a number of civil rights issues over the many years that I have served in government, and I intend to vote for the Michel-Goodling substitute. I believe that most of the women on this side of the aisle will vote for it, because we think it is a better bill in many respects or in several respects than H.R. 4000. I believe that there is some support for it also from women on the Democrat side of the aisle.

I know that there has been tremendous pressure on this bill, and I hope that everyone on the Democrat side of the aisle will feel comfortable about voting for the Michel-Goodling substitute. It is a good bill. I urge my colleagues to vote for the Michel-Goodling substitute.

Mr. BROOKS. Mr. Chairman, I yield 1 minute to the gentleman from Kentucky [Mr. MAZZOLI], a distinguished member of the Committee on the Judiciary.

Mr. MAZZOLI. Mr. Chairman, today we have a difficult decision to make, and in my case it is particularly difficult because of my fondness for the gentleman from New York.

However, I rise in opposition to the LaFalce substitute and in support of the underlying bill.

Mr. Chairman, I think we should not oversimplify nor overlook the fact that we have to understand the words of the law. But, I think no matter how many hours we debate we will never reach concurrence on exactly what each phrase of these civil rights proposals means.

So, using the theme of an earlier speaker, occasionally we have to debate the perceptions, and occasionally we have to talk about aspirations and not the jot and tittle. And, reflecting on the fact that just yesterday, we celebrated the 25th anniversary of the signing of the Voting Rights Act in Statuary Hall. Those 31 Members who were in this Chamber and the other Chamber 25 years ago honored for having voted for the Voting Rights Act are justifiably proud of that vote, even though some cast it with probably some reservations about what the words really meant.

I think 25 years hence, those of us who might still be in this Chamber who vote for the civil rights bill today despite their reservations and concerns will be just as proud as those 31 are, because I think it is the right thing to do.

□ 1220

Mr. HAWKINS. Mr. Chairman, I yield 5 minutes to the gentleman from Texas [Mr. WASHINGTON].

Mr. WASHINGTON, Mr. Chairman, I had hoped that we would have been able to spend a good deal of time debating the merits of this legislation, and I had hoped that the gentleman from New York [Mr. LAFALCE], the purported author and I believe the author of the so-called LaFalce substitute, would have had the opportunity to engage in dialog.

Mr. Chairman, I am very new here. One thing that I wish to complain about is the lack of opportunity for a serious debate on serious issues. It seems that Members are afforded the opportunity to make cameo appearances and to spend most of their time attempting to force a word in edgewise. We talk at each other, but we do not talk to each other.

Mr. Chairman, I had hoped that someone would take my challenge and seriously talk to me about the difference between Griggs and Ward's Cove, because I believe that therein is the heart of the problem. If we could solve that, I believe we could work out something in between. Because when you talk about damages, you are talking about money. With money we sometimes split the difference between zero and $1 million and somewhere else.

Mr. Chairman, it has been my pleasure in my life to try over 300 title VII cases. That does not make me an expert, but I have seen the women and the men who have lost their jobs, who have not been hired, and who have come to my offices. Sometimes they hurt.

I do not know how to explain it to Members that have never tried any cases and tried to come up with a substitute without appearing before either committee. I am the only Member of this Congress that has the pleasure of serving on both of the committees with jurisdiction on this bill. I think that God put me in that place for a reason. That does not make me any smarter than the chairman of a committee who offers the substitute, but I have been down in the pits where it matters, and I am tired of hearing lawyers kicked.

Remember the next time you kick a lawyer, that the reason your children do not get run over when a dump truck backs up when that bell goes off is because some lawyer sued somebody to make it go.

Remember the next time that the people that you love are in a situation where they could be harmed by any number of products, including asbestos, that the reason that does not happen is because lawyers took up those causes.

Mr. Chairman, Members decided in 1964 that the Attorney General could not carry out this law by himself or herself, and we needed the private attorneys general to come in. The only way to motivate people, a lawyer in private practice, to do it, is to offer them the opportunity that if they prove their case to a judge, and no one has ever accused the Federal Judiciary in this Nation of being liberal, if you can prove a case, jump through all the hoops that are necessary to jump through this in order to prove discrimination when you know it and when you see it, nobody has to tell you what discrimination is. The problem is, the difficulty with all these legal niceties, is sometimes many people who are discriminated against never have a remedy. Very few of them have a remedy, but of those that do have a remedy, it hurts. It hurts deep down inside.

The reason I know it hurts is because my mother did not bring me up to know the difference between black, white, and Hispanic. I happened to live in a neighborhood where we all lived together. My mother cried the first time I went to a water fountain and I saw the word "white" on one and the word "colored" on the other one. She took me home.

Mr. Chairman, I am not here to talk about the old times. I am here to talk about since 1964, coming up to today.

Griggs was something that we all could live with. In the 18 years we had Griggs there were no racial quotas. I represent downtown Houston and I represent more businesses than most of the rest of the Members of this Congress put together. I represent all of downtown Houston. I have not gotten one telegram or one call from any of them asking me to go along with the LaFalce substitute against what everybody knows to be the law.

Mr. Chairman, if Members are interested in ending discrimination, if they are interested in ending discrimination, and it is a close call, and they haven't tried enough cases to know the difference, to articulate the difference, then give the tie to the runner. Give the tie to the runner.

Mr. Chairman, if you hit a ground ball to the shortstop and you throw the ball over to first base and the umpire is there looking, and the runner's foot touches the base so close to the time that the ball gets into the first baseman's hand, you give the tie to the runner. You give the tie to the people who are going to get a job, to work in this country, to participate in our system. You give the benefit of the doubt to the people who have

never had an opportunity in this society because of the color of their skin or because they are women or for whatever reason. It does not matter what it is, because we are one people.

Mr. Chairman, my problem is I believed in the Constitution. My problem is I believed in the Declaration of Independence. And even today I am sitting here trying to persuade one of my colleagues from Texas that he is doing the wrong thing.

It does not matter what he does. He can vote however he wishes to vote. But you cannot say in one sentence that I am for civil rights, and articulate why you would want to cut back on the opportunity for civil rights for people. You cannot say it in one sentence and look yourself in the face and be genuine.

Mr. Chairman, every Member in this room is for civil rights. We have a difference of opinion on what it takes to get there. Give the benefit of doubt to those who never had the benefit of the doubt in their lives.

ANNOUNCEMENT BY THE CHAIRMAN

The CHAIRMAN. The Chair will remind all persons in the gallery that they are here as the guests of the House, and that any manifestations of approval or disapproval of the proceedings is a violation of the rules of the House.

Mr. BROOKS. Mr. Chairman, I yield 1 minute to the gentlewoman from Connecticut [Mrs. KENNELLY], a distinguished member of the Committee on Ways and Means.

Mrs. KENNELLY. Mr. Chairman, I rise in strong support of the Civil Rights Act of 1990. This is landmark legislation to reverse a number of Supreme Court decisions which have weakened the laws prohibiting employment discrimination, and it is legislation we can all be proud to support.

Frankly, I find it difficult to understand what all the fuss is about on this bill. Congress long ago made basic policy decisions regarding employment discrimination, and Congress said it was not to be tolerated. That policy worked well over the years not only to discourage discrimination but to encourage equality of opportunity for all Americans.

The legislation we have before us only attempts to restore those policies that we, in the Congress, thought were operative until the Supreme Court narrowed the application of the law. If our policies, as defined by the laws we approved in the past, worked well during the 1980's, then they will work well during the 1990's. I think it is critical that we restore the law. I think it is critical that we not back off of our commitment to erasing discrimination in employment and providing equal opportunity to earn a living under the law.

As a consequence, I would urge rejection of the Michel substitute.

Mr. GOODLING. Mr. Chairman, I yield 5 minutes to the gentleman from Wisconsin [Mr. GUNDERSON].

Mr. GUNDERSON. Mr. Chairman, first of all I want to suggest that it is time we do what I said yesterday, to cool the emotions. Let us relax a little bit around here.

Mr. Chairman, we talk about this being a time of 25 years ago you can remember what happened. I will tell Members, you can close your eyes and tell something else. Close your eyes and you would think we are back in the McCarthy era.

It is the first time in the 10 years that I have been in this Congress that I have ever heard the rhetoric that I have heard on the floor over the last 2 days, questioning the motives and questioning the sincerity of colleagues as to how they are going to vote on this issue. That is unfortunate, and it is despicable, that in a civil rights debate we have allowed the decorum in the process, in this House of Representatives, to degenerate to that degree.

Mr. Chairman, let us make something very clear: Every Member in this chamber is for civil rights. You can have a legitimate philosophical debate about whether you help or hurt obtaining the goal of civil rights by putting it into a court system. If one believes litigation in a case like Ward's Cove, that is already 16 years old, is going to somehow achieve quicker equity and equal opportunity, then vote against the substitute. But if one believes conciliation has worked so well for the 25 years, then, my friends, continue the tradition of civil rights that we have.

Second, I want Members to admit one thing, and my good friend, the gentleman from Texas, has done just that.

□ 1230

Both bills are dramatic civil rights legislation. Not just H.R. 4000, but the bipartisan substitute overturns Wards Cove. The bipartisan substitute overturns Price Waterhouse. The bipartisan substitute overturns Martin versus Wilks. The bipartisan substitute overturns Patterson. And the bipartisan substitute overturns Lorance. Five Supreme Court cases are being overturned.

The basic questions here today are twofold.

The substitute before Members at this time, going back to Griggs, does not take the language from the question of the Griggs case, it takes the language from the holding or the ruling. That is the difference, because that is the binding effect of law.

The second question in front of Members is whether they believe in conciliation and mediation or whether they believe in confrontation and they believe in litigation. There were 39,000 cases before the EEOC last year for personal discrimination in the employment sector. Every projection is that is going to increase 25 percent under this bill. In terms of court cases, the projection is there will be a 30-percent increase.

If Members believe justice delayed is justice denied, then go ahead and vote against the substitute. But ladies and gentlemen, I think it is time we reject the McCarthy era. I think it is time we quit questioning the motives and the conscience and the commitment to civil rights of our 434 colleagues. I think it is time we are above that and we vote on this on the merit, nothing else.

Mr. BROOKS. Mr. Chairman, I yield 1 minute to the distinguished gentleman from Texas [Mr. PICKLE], a Member of the Committee on Ways and Means.

Mr. PICKLE. Mr. Chairman, I rise in opposition to the substitute offered by the distinguished minority leader. I also want to commend chairman HAWKINS and chairman BROOKS for their efforts on this important legislation.

I had the privilege of voting for the Civil Rights Act of 1964, the granddaddy of all civil rights legislation. It was a tough vote at the time, because the Nation was very much divided on this issue. One evening after the bill passed, I was visiting with President Johnson and remarked that I was glad I voted for the bill and was glad the vote was behind me.

The President immediately said to me "If you're in Congress another 20 years"—and I have been—"you'll be voting every year for another civil rights bill. It will take years to rid this Nation of discrimination and unfairness."

The President was right. We've made progress on civil rights over the years, but there is more to be done and we must constantly work to improve and protect the civil rights of all people.

President Johnson understood—and I agree with him on this—that civil rights legislation is much more than just a debate over narrow legal issues. Johnson understood that how this country deals with its civil rights problems was, and would be for some time, an important and defining political question, not just for one party, but for this Nation. It's an issue that tells us how fair our society is—and is going to be.

In this debate, much of the controversy centers on how we are going to define "business necessity." As members know, businesses, when confronted with a discrimination suit, can defend themselves by saying that an allegedly discriminatory practice is a business necessity. In the pending substitute, business necessity is defined in a general way; a business could say

that a certain practice is necessary to cut costs. In the committee's bill, business must be very specific about why that practice was necessary. It must show that the practice is "significantly related to successful job performance."

It seems to me that it is only fair that when a business is confronted with questionable hiring practices that it has to meet a very specific burden of proof in order to exonerate itself. As long as we have discrimination in this country—and although we have made strides over 25 years, we still have some distance to travel—this Congress must pass strict standards to ensure that questionable practices are subjected to close scrutiny before they are found harmless.

In 1964, good Americans could disagree on civil rights legislation. In 1990, good Americans can still disagree on a specific approach. But I believe that opposing the substitute being offered will lead to a greater standard of fairness in this country, which is what all civil rights legislation is about.

Mr. GOODLING. Mr. Chairman, what is the time distribution? I think I am getting called on every other time rather than two of them to one of me.

The CHAIRMAN. The Chair announces to Members controlling debate that the gentleman from Pennsylvania [Mr. GOODLING] has 19½ minutes remaining; the gentleman from California [Mr. HAWKINS] has 14 minutes remaining; and the gentleman from Texas [Mr. BROOKS] has 10½ minutes remaining.

Mr. BROOKS. Mr. Chairman, I yield 1 minute to the distinguished gentleman from Maryland [Mr. CARDIN], a former speaker of the House of Maryland.

Mr. CARDIN. Mr. Chairman, supporters of the Michel substitute keep suggesting that we should pass a civil rights bill that will be signed by the President. "Let's See a Civil Rights Bill Enacted Into Law This Year," the letter says in capital letters across the top.

The message of this letter has nothing to do with erasing discrimination. The message is to be able to say we enacted a bill we can call a civil right bill. Really any bill will do. What it accomplishes in terms of eliminating discrimination is not important.

The Civil Rights Act of 1990 has been the subject of debate and discussion for many months. The language in this bill has been dissected like no other piece of legislation to come before this body. We have analyzed to death the nuance of every word, every phrase, and every possible connotation.

The right of people to be free from discrimination is fundamental. Civil rights laws are supposed to provide judicial remedies for those whose rights have been violated. Unfortunately, it took only a few decisions for the Supreme Court to turn back the civil rights clock. This bill is necessary to restore our commitment to judging individuals on the basis of their own skills and qualifications, not on the basis of race, handicap, gender, or religion.

It was only 30 years ago that blacks and whites could not eat at the same counter or drink from the same fountain. It was only 2½ decades ago that landmark civil rights protections were codified in the 1964 Civil Rights Act. Mr. Chairman, despite the progress we have made and the struggle we have participated in and witnessed, racism still exists and racial tension continues to eat away at the fabric of our society. That Bensonhurst is this generation's Selma, we cannot be proud.

The reinstatement of civil rights protections by this bill will enable us to move forward from here. The substitute amendment, worse than relegating us to the status quo, backtracks on the progress we have made thus far. Let us not trade our principles for a Rose Garden signing ceremony.

Mr. HAWKINS. Mr. Chairman, I yield 1 minute to the gentleman from Michigan [Mr. WOLPE].

Mr. BROOKS. Mr. Chariman, I yield 1 minute to the gentleman from Michigan [Mr. WOLPE].

The CHAIRMAN. The gentleman from Michigan [Mr. WOLPE] is recognized for 2 minutes.

Mr. WOLPE. Mr. Chairman, I rise in strong support of H.R. 4000, the Civil Rights Act of 1990, and in opposition to the Michel substitute. I have listened very carefully to the debate the past 2 decades, and I have a distinct sense of déjà vu. I remember vividly the wrenching debate of the 1960's centering on the still unresolved issue of race in America. I remember well all of the rationalizations of those who sought to defend an unjust status quo, all of the righteous denials that we had a problem, all of the efforts to label those who were attempting to advance the cause of civil rights as zealots or extremists.

How similar are the words used by those today who resist simply reaffirming the long-accepted civil rights law that was undermined by the Supreme Court decisions of 1989. Make no mistake about it: all this legislation would do is to restore the ability of persons discriminated against in the workplace—because of their skin color or their gender—to seek effective legal redress. This is hardly a revolutionary or radical agenda. This legislation will impose no burdens or responsibilities or costs on employers that were not in place prior to 1989. If there is any specious argument, it is that this bill seeks to impose quotas. If that was not clear before, surely it is now with the explicit antiquota provision that has been incorporated into this bill. Clearly, the quota issue has been designed by the opponents of this civil rights legislation as a scare tactic, nothing more and nothing less. Let me say that the other arguments that have been advanced in opposition to H.R. 4000 are no more valid. H.R. 4000 does not create new burdens of proof for employers. H.R. 4000 does not break new civil rights ground and H.R. 4000 will not apply retroactively. Those who have fanned the anxieties of employers by such ill-founded charges have ill-served the business community and certainly have done little to advance the cause of social justice in America.

Mr. Chairman, we need to understand that the Michel substitute before this House is hardly the compromise its advocates claim it to be. The purpose of H.R. 4000 is to overturn those 1989 decisions of the Supreme Court that have dramatically eroded the civil rights of America's women and minorities. The effect of the Michel substitute is precisely the opposite: it is to codify these same Supreme Court decisions.

So the issue before us today is really quite simple. Do we wish to continue in the direction charted by the enactment of the landmark 1964 Civil Rights Act or do we wish to retreat from that commitment? Are we going to go forward, or are we going to go backward? Are we going to reaffirm our determination to create a genuinely open society, in which each individual is free to realize his or her full potential, or are we going to succumb to the fears and prejudices that permit discrimination and bias to go unchallenged.

Mr. Chairman, in the final analysis, the legislation is not really about or for racial or ethnic minorities. It is not about or for women. It is really about and for all of us. It is about and for America, because we all suffer from the consequences of irrational prejudice and discrimination. We all are damaged by the artificial walls we erect that divide Americans from one another.

Mr. Speaker, we have heard a lot about the costs of this legislation—the costs to employers who are found to have discriminated against their employees because of their skin color or gender. Let me suggest that if we were to adopt the Michel substitute and failed to pass Hawkins-Kennedy, there would be far greater costs to our society, to our sense of community, to our ideals, and to our values. We must not retreat now. We need H.R. 4000 because it is the only way to undo the damage done by an insensitive Supreme Court. We need this legislation; it is crucial; it contains within it no surprises. I urge its passage without weakening amendments.

Mr. GOODLING. Mr. Chairman, I yield 5 minutes to the gentleman from New York [Mr. LAFALCE], who has shown the strength of his convictions.

□ 1240

Mr. LAFALCE. Mr. Chairman, I rise today in support of the substitute amendment. I said yesterday, I say again today, we need a strong and a fair civil rights law. The recent Supreme Court cases of the last term have created a need for new legislation. And even after reversal of these decisions and restoration of preexisting law, that is not good enough. There is a need for a stronger civil rights law that was passed 26 years ago in a different time in different circumstances.

But let me also express the need for a fair civil rights bill, a bill that equally balances the rigths of a plaintiff and a defendant, an accuser and the accused.

We must not unbalance the scales of justice. That will not advance the cause of civil rights.

Nor will the cause of civil rights be advanced if what we do today leads to a veto. And both of these prospects concern me deeply.

We passed two amendments yesterday; I voted for both of them. But there are countless other legitimate questions that have been raised about disparate-impact cases, especially.

I am troubled by the issue of causation involving a group of employment practices, I am troubled by the definition of business necessity, I am also deeply troubled at converting the reconciliation process under the EEOC into an adversarial process before judge and jury. That is a fundamental change in title VII. It has nothing to do with Supreme Court cases.

Nor am I persuaded that the cap that was approved last night will prevent punitive judgments from being rendered by juries in exorbitant amounts.

There is, for example, no limit on damages for pain and suffering. The line between damages for pain and suffering and punitive damages is impossible or difficult to discern and very, very easy to transgress.

Now, there is a substitute before us today. That substitute is not perfect, either, but it is a good-faith effort to advance the cause. It is a good-faith effort to serve as a bridge between polar differences. It does address the Supreme Court decisions in question, it really does. And it goes further by making major improvements under current law.

It contains new and equitable remedies, immediate injunctive relief and up to $100,000 in equitable relief. That does not exist right now, remedies that can be used to fight harassment, retaliation and other on-the-job discrimination.

Now, I also know, after considerable discussion with civil rights leaders, that they have deep concerns about the substitute that is before us today, as I have deep concerns about Kennedy-Hawkins. Should the substitute pass before a conference report emerges, those concerns must be dealt with. But what do we do today?

I am going to make a suggestion to both sides. I am going to suggest, in order to deal with the differences, in order to deal with the divisions that we have seen, a vote "yes" on the substitute and then, whatever happens, a vote "yes" on final passage, on everybody's part.

Now, if we vote "yes" on the substitute, we go to conference with the Senate with dozens of differences between the House bill and the Senate bill. And we can work, and I know we would work, to come out on a bipartisan or nonpartisan fashion with a bill that the President could sign.

So, if the substitute passes, I urge all of us to vote "yes" on final passage.

If the substitute should fail, I have a concern. There is virtually nothing to go to conference on other than the issue of the cap on punitive damages. It is identical.

The President has said that cap means nothing, both personally and in writing. He has said he could not sign Kennedy-Hawkins.

I am fearful that political gamesmanship could be played, and we would be more interested in just taking the two bills, ironing out the differences on the cap in an hour and sending the bill to the President, and we would not have advanced the cause of civil rights.

But if good faith is shown, it is possible to forget about the fact that there is little to conference about. If good faith is shown, it is possible to still get together with those who have difficulties and with the President and come up with a bill that could receive the signature of the President or, if not, a bill on which there would be such a consensus that it would have to become law.

Because of that good faith for which I would hope, I will vote for the substitute and urge everyone to. If it passes, please vote for final passage, do not vote against it.

If the substitute goes down, please vote for final passage of Kennedy-Hawkins. Do not vote against it.

And both sides, whoever gets to conference, show good faith. Let us have a civil rights bill that an overwhelming, at least a two-thirds, consensus of both bodies can support. I want very much to work in that direction.

The CHAIRMAN. The Chair will announce to those Members controlling the time that the gentleman from Pennsylvania [Mr. GOODLING] has 12 minutes remaining, the gentleman from California [Mr. HAWKINS] has 13 minutes remaining, the gentleman from Texas [Mr. BROOKS] has 8½ minutes remaining, and the gentleman from Texas [Mr. BROOKS] reserves the right to close debate.

Mr. HAWKINS. Mr. Chairman, I yield 4 minutes to the gentleman from Montana [Mr. WILLIAMS] a member of the Committee on Education and Labor.

Mr. WILLIAMS. Mr. Chairman and my colleagues, last night and again this morning I sat through most of the debate. Last evening about 8 o'clock, I went out onto the west portico and watched the sunset for a while. There were people milling around out there, a couple of dozen tourists, I suppose, looking down The Mall at the beautiful scene; down The Mall to those monuments to our freedoms. They seemed unaware that in the people's House behind them, here in this room, another civil rights debate was occuring.

It is not that those tourists were unconcerned, and I do not denigrate the debate; I seek, rather, to define it.

We are all of us involved at a stage in the long march of this Nation toward civil rights. The steps we are taking now are small ones. It was not always so.

In the 1860's and again in the 1960's blood was spilled between brothers and friends, careers were lost, men and women were killed.

But in those two great tests, one the Civil War and the other the Civil Rights Act of a quarter century ago, this Nation took gigantic steps to assure simple freedoms. Is it not odd that the greatest political struggles of the 200-year history of this Nation have been to assure and preserve our simplest of freedoms?

We are not taking a large step this week; but small steps are important too. These small, incremental steps, about which the lawyers understandably argue, are very important in this Nation's long march toward civil rights.

In the 1960's, our colleagues, the Members of the House of Representatives, voted to change America forever, to say that never again would a race of people be relegated to the back of democracy's bus.

□ 1250

People were not milling around unconcerned outside then. The world held its breath to see if this Nation would renew itself.

Today's debate is not about a great step. It is an incremental change, but the sides are the same, the arguments are the same. We can, in a couple of hours here, vote for the private sector, which would be a vote for Michel-LaFalce, or we can vote for the private citizen which would be a vote "no." It is the same vote we took a quarter of a

century ago. We can vote to protect profit, or we can vote to protect people. It is a small incremental step, but it is an intregal part in continuing the gains of the 1860's and in the 1960's.

Mr. GOODLING. Mr. Chairman, I yield 4 minutes to the gentleman from California [Mr. CAMPBELL].

Mr. CAMPBELL of California. Mr. Chairman, in this debate there are several points of the two bills that have not received much attention. They deserve attention. Let me get right to them.

First of all, the substitute by the gentleman from New York [Mr. LAFALCE] includes a provision for injunctions, which is really quite essential. It says that if a person is the victim of harassment, and here particularly I would like to emphasize sexual harassment, she can go to the head of the line in Federal court. They can get an injunction faster than any other person who is in court. In other words, it is an improvement over the status quo, and in this regard, an improvement over H.R. 4000, a major improvement for those who are victims of harassment.

Second, the LaFalce substitute strikes from the bill two provisions on attorney fees that have no place in this bill. Let me explain briefly what they are. The first is a provision that says even though the parties may have settled the charge among themselves, the plaintiff's attorney may insist on a veto of that settlement, if the plaintiff's attorney tells the court that his or her fees were waived as a condition of the settlement. The purpose of this legislation, whether we speak of H.R. 4000 or the LaFalce substitute, is to settle, to conciliate, to end discrimination. Here we have a provision that gives to the attorney the right to veto a settlement, even though the parties themselves may be in agreement.

The second provision on attorney's fees which is very troublesome in H.R. 4000 says that if a person is a defendant against whom a decree has been entered, then that person is forever liable to the possibility of being held for attorney's fees, whenever that decree is challenged. Even if that decree is challenged because it was unconstitutional, even if that decree was unconstitutional. Not only is that unfair, but it will also yield fewer settlements because a respondent, knowing that he or she may forever be liable for attorney's fees, will be less likely to enter into settlement.

Third, the LaFalce substitute is preferable in that it removes a provision which bars those people who may challenge decrees on the basis of conditions that they cannot change. I believe that people who challenge decrees once they have been entered are entitled to be heard. They may not be heard for long, and the case may not be meritorious; but for heaven's sake, they are entitled to get into court.

In H.R. 4000 we have a provision that even if a person did not receive notice of a decree, even if a person could not have received notice of a decree because they were too young, they were in another part of the country, or they were not in that area, they nevertheless may be stopped from challenging that decree if the court determines that somebody else whom they did not know, with whom they have had no relationship, represented your interests adequately. This is unprecedented. People are kept from the courthouse.

I say people should be allowed into the courthouse, perhaps dealt with summarily, perhaps given only half an hour of argument, but at least get to the court to say that they have been unfairly treated. That is an advantage of LaFalce over H.R. 4000.

Much is made of the difference between the two bills concerning damages, and let me address that. Because of last night's amendment, we now have a cap on H.R. 4000. That cap, under certain circumstances, is $150,000. LaFalce has a cap of $100,000. LaFalce does not have a jury trial. H.R. 4000 does have a jury trial. Members, we are no longer debating principles. We are debating the size of the cap.

Lastly, Wards Cove is corrected by LaFalce. Under LaFalce the burden of proof is located where it should be.

I ask my Members' indulgence of this one point, as the Member who introduced the first bill in this body to reverse Wards Cove. I was alone. I took a fair amount of criticism. But I knew what Wards Cover was. I wanted to reverse it. LaFalce reverses it. And LaFalce allocates the burden of proof where it belongs.

In conclusion, had the LaFalce substitute arisen alone, it would have been perceived as a major civil rights victory. It should be so preceived today.

Mr. BROOKS. Mr. Chairman, I yield 2 minutes to the distinguished chairman of the Committee on Government Operations, the gentleman from Michigan [Mr. CONYERS].

Mr. CONYERS. Mr. Chairman, if Members have examined the substitute, it was called the LaFalce substitute. He told me he took his name off of it. Now he is defending it. But whatever it is, there is something very clear. Now, withholding our independence, can all of the civil rights organizations in America who have led members through the civil rights renewal legislation since 1964, somehow be wrong on a point as elementary as this?

I have heard law professors and lawyers explain how we are not doing anything much but modifying this Kennedy-Hawkins substitute. LaFalce is a killer amendment. LaFalce is a killer substitute amendment. The civil rights leadership in America is not wrong for the first time since 1964.

Use your head, Members. This is not a compromise. When the gentleman from Wisconsin tells me that it does not codify Wards Cove, it does. The LaFalce substitute codified the definition of business necessity. It does codify Price Waterhouse. It does codify Martin versus Wilks. It does remove damages for international discrimination. What I am saying to the Members is that there is not one civil rights organization which the gentleman from New York has even thought courteous enough to discuss his so-called improvement with. The NAACP has never heard of the LaFalce substitute, and we should turn it down.

Mr. BROOKS. Mr. Chairman, I yield 1 minute to the gentleman from Maryland [Mr. MCMILLEN].

Mr. MCMILLEN of Maryland. Mr. Chairman, the essence of this legislation is we tried to overturn the weaker standards of the Wards Cove decision, restore the tougher standards of the Griggs' decision, but when we look at the Michel-LaFalce substitute and the definition of "business necessity," it clearly does not do that.

What it says is, business necessity is either the Griggs standard or the Wards Cove standard. It is that two-letter word "or," that creates a giant loophole in this bill, that guts this legislation and opens up a judicial back door to the Wards Cove decision. We are saying to the courts, either enforce the tougher Griggs standard, or enforce the weaker Wards Cove standard.

In today's courts, we know that that means weaker civil rights protection. I urge the Members to vote for civil rights, to end discrimination, and to vote against the substitute.

□ 1300

Mr. BROOKS. Mr. Chairman, I yield 1 minute to the gentleman from Illinois [Mr. DURBIN].

Mr. DURBIN. Mr. Chairman, I rise in opposition to the Michel-Goodling-LaFalce Republican substitute.

I am afraid that this substitute language throws the cause of civil rights in America back into the hopeless tangle created by the Supreme Court. Several Members stood earlier and recounted with pride their support of the 1965 Voting Rights Act. There is good cause for their pride. For many of those Members, Democrats and Republicans, a vote for civil rights was a vote for the defining social issue of their time. Twenty-five years ago they ignored the plaintive cries of those who argued that extending civil rights to America was somehow too costly, too threatening, too litigious.

Members of Congress have few chances in their public careers to stand and be counted for civil rights and freedom in America. Today each of us will have that chance.

Mr. Chairman, I ask the Members to vote no on the Michel-Goodling substitute and vote yes on the Kennedy-Hawkins bill, the landmark civil rights bill of our legislative generation.

Mr. THOMAS of Wyoming. Mr. Chairman, Lyndon B. Johnson, 26 years ago, signed into law the Civil Rights Act of 1964, established to protect individuals from being discriminated against in the workforce on the basis of race, sex, color, religion, or national origin. The goal of title VII was to ensure that victims of employment discrimination receive a speedy resolution through a conciliation process, allowing individuals remedies such as job reinstatement and backpay. As a result of the passage of the Civil Rights Act of 1964, the United States has been able to greatly reduce the number of employment discrimination practices and other artificial barriers to employment. At the same time, we have been able to protect the employer's right to make reasonable and nondiscriminatory employment decisions.

Passage of the Civil Rights Act of 1990 would dramatically change the traditional scope of civil rights protection. In reaction to five recent Supreme Court decisions many feel drastically restricts protection, the Civil Rights Act of 1990 was introduced. However, H.R. 4000 does not simply reverse these Supreme Court decisions, it goes far beyond established protection under the civil rights law, changing its scope and intent. Granted, a number of the Supreme Court decisions should be overturned, yet in doing so, we should simply restore the rights and protection under the law, not expand them.

Consequently, if passed, H.R. 4000 would alter the balance between the goal of eliminating discrimination in employment and the goal of preserving a vital and efficient business environment capable of competing in an increasingly international economy. Because the Civil Rights Act of 1990 provides for expansion of remedies under title VII and for other employee/employer protection changes it will force employers to resort to quota hiring practices. Expanding the remedies available under title VII will not hasten settlements of discrimination cases nor will it keep many claims, some of them frivolous, from going to court. Rather, the extension of title VII remedies will open the floodgates to endless litigation, jamming up our court system and causing cases that otherwise could have been quickly resolved to drag on for unforeseen amounts of time and cost tremendous sums of money. Ultimately, the only people who will truly benefit from the changes in title VII will be the lawyers who reap vast monetary rewards from the expanded incentives for litigation the bill provides.

With the possibility of being found guilty of engaging in discriminatory employment practices and being faced with the potential of having to pay compensatory and punitive damages in amounts that could bankrupt their company, employers will attempt to protect themselves from possible lawsuits by resorting to quota hiring practices. And this is exactly what we want to prevent because the quota system completely undermines the intent of civil rights law. Rather than the most talented and most qualified being hired, employers will be forced to fill quotas, oftentimes with people who do not meet the qualifying standards set by employers for certain positions.

We cannot allow employers to live in fear of lawsuits because an employment practice might be construed as discriminatory. However, I fully believe we cannot condone discrimination in the workplace. A balance must be kept. One has been since 1964 with the passage of the Civil Rights Act. We do not need a new civil rights bill that goes far beyond traditional employment practice and civil rights protection. We do need to restore those protections limited by a number of the recent Supreme Court decisions; however, passage of H.R. 4000 is not the answer. A more moderate and limited remedy is necessary. I believe this is found in the LaFalce substitute to H.R. 4000. I urge my colleagues to restrain from opening pandora's box on civil rights and vote against H.R. 4000, the Civil Rights Act of 1990.

Mr. MARTINEZ. Mr. Chairman, I rise in opposition to the Michel amendment and in support of the committee bill.

Mr. Chairman, when Francis Scott Key penned the words that later became our national anthem, he ended the first chorus with, "over the land of the free and the home of the brave."

Mr. Chairman, as individuals or as a country, we are neither brave when we oppress nor are we free when we are oppressed.

Mr. Chairman, our democracy is based on the principles of freedom and individual rights. The Constitution and the Bill of Rights guarantees it. Our three branches of government with their balancing act invoke it.

Mr. Chairman, our revolution for self-determination was fought against a king from abroad, and now a segment of our population must fight for the same rights with this legislation against a different kind of tyranny, a tyranny from within. This tyranny takes on different forms. It can be some short-sighted, narrow-minded employer or it can be an unreasonable Congress. It can be a reluctant administration or it can be an intellectually blind Supreme Court, but Americans who are discriminated against will continue to fight for the right to equal opportunity. And H.R. 4000 gives them a greater chance for success.

Mr. NEAL of North Carolina. Mr. Chairman, last night our distinguished colleague from Connecticut, Mrs. JOHNSON, made some rather disparaging remarks about the Andrews-Neal amendment to H.R. 4000. I feel compelled to refute her erroneous and unjustified claim that this amendment is a charade and does nothing of substance to address the quota issue.

Mr. Chairman, it is absolutely essential that we set the record straight on quotas. Supporters of H.R. 4000 know that it is not about quotas, that it is not intended to cause quotas, that it does nothing to prompt employers to implement quotas. We must resolve this question once and for all. We must put to rest any lingering fears about the quota issue and that is why we introduced our amendment.

And that is why, Mr. Speaker, that it was necessary for the Andrews-Neal amendment to be debated on the floor. That is why we needed a recorded vote on adding our language to the bill. Mr. Speaker, last night 397 Members went on record in support of language explicitly providing that "the mere existence of a statistical imbalance in an employer's workplace on account of race, color, religion, sex, or national origin is not alone sufficient to establish a prima facie case of disparate impact violation." Under H.R. 4000, statistics alone are not grounds for a discrimination case. Under H.R. 4000, hiring quotas are not required or necessary. Our amendment should absolutely dispel any lingering doubt.

Mr. Speaker, it's true that this important anti-quota language was included in the version of H.R. 4000 approved by the Judiciary Committee. However, it was not in the Education and Labor Committee's versions of the bill. It was not in the bill which recently passed the Senate. It was absolutely essential to bring this issue to the floor and provide legislative history which clearly records Congress' intent. By approving the Andrews-Neal amendment, on a recorded vote, we have sent a clear message of intent to the courts, employers and the American public. Our intent is clearly to proscribe hiring quotas. Our language is to make it absolutely clear that quotas are in no way encouraged by this legislation.

Mr. Chairman, H.R. 4000 returns the status of the law in so-called disparate impact cases precisely to where it was before 1989 when the Reagan Court voted severe limitations on civil rights. The language in the Andrews-Neal amendment was actually part of the 1971 Griggs decision which set the precedent in disparate impact cases. By approving this amendment, we have ensured that H.R. 400 codifies the rights of both employers and employees as they existed for almost 20 years under Griggs.

Mr. Chairman, employers did not resort to hiring quotas when Griggs was in effect. They will not resort to them when the Griggs standard is restored under H.R. 4000. The Andrews-Neal amendment has made this absolutely clear.

Mr. HUGHES. Mr. Chairman, I rise today to express my support of the Civil Rights Act of 1990.

I believe the amendments we adopted last night improved this legislation and I would like to thank the chairman of the Judiciary Committee, Mr. BROOKS, and the other members who helped draft these amendments. Nevertheless, I believe that there is room for further improvement. And hope that we do so in conference with the Senate.

The amendments we approved address the two most serious criticisms of the bill. One explicitly states that the Civil Rights Act of 1990 does not require quotas and that employers cannot be charged with discrimination simply because of the statistical composition of their workforce. With this amendment, we have eliminated any grounds for calling this legislation a "quota bill."

The other amendment limits the punitive damages that can be awarded.

Title VII's limits on damages to restitution of lost income and reinstatement did not permit fair compensation to some victims of discrimination, especially victims of sexual harassment, it is not clear to me that we need to make available unlimited damages.

Mr. Chairman, on the whole, the Civil Rights Act is an important piece of legislation. Some of its provisions will restore civil rights standards that served us well for many years, while others will deal fairly with forms of discrimination that were not addressed by our earlier civil rights laws.

I am concerned, however, that the damages that are still permitted under the bill may undermine the current system of settling discrimination claims through conciliation, negotiation and arbitration.

The bill is honestly intended to restore the business necessity standard of the landmark Griggs versus Duke Power decision, and the Judiciary Committee adopted an amendment that specifically states that this is the intention of the legislation. However, I regret that the section restoring this standard does not use the exact language from the Griggs case to do so. I hope that these issues will be considered and addressed in conference.

Having stated those reservations, the Michel substitute is clearly not a satisfactory alternative. In mixed-motive cases it would permit discriminatory considerations as long as they are not major considerations. I do not believe that we should tolerate a little discrimination and thereby make our country a land of "partially equal opportunity."

In addition, the substitute's limits on damages are inconsistent and arbitrary. Because it allows compensatory damages only when back pay is not available, an employer who was discriminating could simply fire the employee, thus making back pay an option and cutting off any chance of compensatory damages. This provision is also simply unacceptable.

Discrimination was once legally embraced by our country, and that fact is one of the greatest tragedies in our Nation's history. Discrimination divides us and erodes the very principles that have made the United States the great country that it is today. The rights to "life, liberty, and the pursuit of happiness," were secured for us with the blood of our ancestors. Those rights should not depend on your race, sex, or religion. I urge my colleagues to oppose the substitute amendment and vote for the Civil Rights Act of 1990.

Mr. STOKES. Mr. Chairman, I rise today in opposition to the amendment offered by the gentleman from Illinois [Mr. MICHEL].

Mr. MICHEL obviously believes that the Civil Rights Act goes too far in providing equal opportunity in employment to minorities, women, and the disabled. This simply is not true. H.R. 4000 only does what ought to be done. It states that under no circumstances will discrimination in the workplace be tolerated. The amendment offered by Mr. MICHEL would gut the substance of this bill, and would make it easier for employers to discriminate and get away with it.

For instance, the Michel amendment proposes to delete the provisions which permit jury trials and damages for intentional discrimination. First, let me say that punitive damages have been available in cases of intentional racial discrimination for 20 years, and the right to a jury trial is as old as the Constitution itself. H.R. 4000 simply extends these protections to women and victims of ethnic and religious discrimination. Moreover, I find it reprehensible for the administration to object to extending these protections to these disadvantaged groups, simply because it has never been done before. The fact that it has never been done before is a pitiful excuse for not doing it now.

The Michel amendment also would provide for a different definition of "business necessity" than that provided in H.R. 4000. His measure states that the challenged practice should have a manifest relationship to the employment practice. This is essentially the definition in Wards Cove. This is a weak standard that enables employers to escape liability when they have engaged in discriminatory conduct.

Unlike Mr. MICHEL's language, the standard enunciated in the civil rights bill recognizes a fair distribution of legal responsibility in cases of employment discrimination by providing that, if a plaintiff links an employment practice with a discriminatory or disparate impact, the employer than must prove the business necessity of that practice. The initial burden on the plaintiff is significant. The bill does not permit an aggrieved worker to attack an employment practice merely because a racial imbalance exists. The plaintiff must be specific about which employment practice or practices result in a disparate impact.

Finally, for those who fear that H.R. 4000 will force employers to adopt quotas to avoid liability, Chairman HAWKINS has made it clear that he is willing to clarify this issue and include language which instructs employers not to resort to quotas.

For these reasons, Mr. Chairman, I ask my colleagues to join me in defeating the Michel amendment, so our Nation can get on with the business of providing equality and justice for all of its citizens.

Mr. RAY. Mr. Chairman, I rise in support of the substitute amendment which is more acceptable to the small business community.

The substitute does not address many of the concerns to small business which have been generated by H.R. 4000, the Civil Rights Act of 1990. It does, however, provide enough balance to encourage my vote and the vote of many conservatives. It is generous and adequate civil rights legislation which in my opinion adequately protects the rights of minorities.

I will support the substitute because: It would discourage a Presidential veto, and it would significantly strengthen Federal employment discrimination law without picking sides and polarizing the work force.

It would deal positively with two controversial provisions in H.R. 4000, the civil rights bill, which are: The threat of quotas, despite the fact that some will say they are excluded, and also punitive damages which are threatening and intimidating to small business.

For example, a family-owned business with up to 100 employees could suffer up to $150,000 in lawsuits for punitive damages and up to $1 million if pain and suffering is charged and awarded.

These provisions and others are intimidating and seriously threaten the largest employer of people in the Nation—the small business community.

I might add that corporations and large businesses are threatened more harshly.

The substitute will: Establish equitable relief remedies; eliminate the possibility of punitive damages and jury trials, overrules the controversial Wards Grove decision, overules the Patterson decision, applies Federal employment discrimination law to Congress, and makes it clear that any changes made to existing law are effective upon enactment.

I urge the support of the substitute.

Mr. FALEOMAVAEGA. Mr. Chairman, I rise today in support of the Civil Rights Act of 1990, H.R. 4000.

This legislation is designed to expand the ability of workers to sue employers on the basis of discrimination. This bill also authorizes compensatory and punitive damages for employment discrimination. Furthermore, this bill reverses or modifies recent Supreme Court decisions affecting the application of laws prohibiting employment discrimination.

Mr. Speaker, passage of this major legislation will help vindicate the civil rights of the thousands of Americans in our work force who have unjustly suffered discrimination by their employers. I urge my colleagues to support the passage of H.R. 4000.

Mr. MATSUI. Mr. Chairman, before us today is a substitute to the Civil Rights Act of 1990 that does not do justice to the minorities and women it purports to protect. The Michel-LaFalce substitute merely reinforces the Supreme Court's rulings that limit job protection for women and minorities. This amendment is no substitute for putting into place real protections against discrimination and harassment in the workplace.

Civil rights are basic rights for American workers. No American should be denied a job or advancement based on their sex, race, religion, or national origin. These principles, which until last year were reaffirmed for years by the Supreme Court, are the strength of our Nation. These principles are what makes America great.

The Civil Rights Act of 1990 restores to women and minorities in the work force the guarantee that their rights will not be abridged simply because of their sex or the color of their skin. This is not so much to ask for.

We should not endorse the Court's rulings that limit the rights of minorities and women. This is precisely what the Michel-LaFalce substitute does. The substitute offered by our colleagues today is a step backwards for civil rights.

The authors of the Civil Rights Act of 1990 do not seek to break any new ground with regard to civil rights protections in the workplace. This legislation is an attempt to level the playing field once again for women and minorities. H.R. 4000 simply replaces the rights enjoyed prior to the Court's rampage through civil rights laws last year.

The Michel-LaFalce substitute is not the way to go about bolstering civil rights. The right way to protect minorities and women against discrimination and harassment in the

work force is to defeat the Michel-LaFalce substitute and to approve H.R. 4000.

We must reaffirm our commitment to civil rights by passing H.R. 4000. Voting for this bill is the right thing to do. The Civil Rights Act of 1990 provides minorities and women with the protections they deserve to participate equally and productively in the Nation's workplace.

Mr. DOWNEY. Mr. Chairman, I rise today in strong support of the Kennedy-Hawkins civil rights bill. In a country that has been the prototype of democracy for over 200 years, our history of civil rights has been less than spectacular. While we have taken steps in the past to address this issue, for the most part they have not been giant steps, but baby steps. Although major civil rights legislation was passed into law in 1866 and 1964, more needs to be done. Today in 1990, we have an opportunity to solidify civil rights protections to the broadest sectors of our society. We need do this now. We cannot wait 98 years again, before the Government tries to broadly address this crucial issue. We need to act aggressively to end abuses based on gender, on religion, or race.

This is America. It is looked upon from overseas as the great melting pot of world society. Where different cultures have come together to form the greatest country on Earth. Let us not forget that. Let us not forget the words of Thomas Jefferson, "we hold these truths to be self evident, that all men are created equal." Fortunately, the days of segregated lunch counters and segregated water fountains are over. However, we must still do more to address the civil rights abuses that are less blatant, but no less important. Discrimination in the workplace has gone on for far too long. We in this Chamber have been entrusted with writing laws that are fair, just, and equitable. There is no question that we are all here to do that. There is also no question in my mind that enhancing freedoms for all workers by giving them recourse if they have been wronged is fair, is just, is equitable. The issue of discrimination has been a serious challenge to our diverse community for years. We cannot allow civil rights to be set back. We must learn from the past and look to the future.

Our past record of civil rights has been scarred with inequity, unfairness, and bigotry. Our future must be filled with justness, freedom, and equality for all of all our citizens. We cannot alter 200 years of societal evolution with one piece of legislation, but we must continue to ground breaking civil rights work done in the past. I urge my colleagues to support this important piece of legislation, and continue the progress of this great Nation.

Mr. CHANDLER. Mr. Chairman, the President wants, and I want, a good piece of civil rights legislation. Recent Supreme Court decisions have made it clear that statute in this area of law needs to be changed.

That is why I support the Michel-LaFalce substitute to H.R. 4000, the Civil Rights Act of 1990.

Unfortunately, in this election year, changes to civil rights law have become embroiled in politics. I suspect that Democrats would love nothing more than to see President Bush veto a bill with the title of "Civil Rights Act."

Let me assure my colleagues, without the changes embodied in the Michel-LaFalce substitute, the President will do just that.

The major difficulty is obvious and fairly simple. Under the law, prior to the Wards Cove case, a plaintiff alleging job discrimination had to only prove that a disparate impact—by statistical application—existed among those chosen from a field of qualified candidates for employment. The burden was then on the employer—defendant—to first, identify the practice which led to the disparity and second, prove that a business necessity existed for such a practice.

After the Wards Cove decision, the plaintiff not only must prove the disparity but also identify the discriminatory practice. The plaintiff also must prove that there was no business necessity for the hiring practice which led to the statistical disparity.

In other words, even obvious discrimination could exist under current law, but plaintiffs have found, and could continue to, find it impossible to prove.

Both measure before us—the Kennedy-Hawkins bill and the Michel-LaFalce substitute—make a significant adjustment in the law. In both cases, the plaintiff would still have to prove that a disparity exists. But after disparity is proven, under both provisions, the burden of proof for identifying the employment practice which led to the statistical disparity and the burden for proving the business necessity becomes the responsibility of the employer—the defendant, much as it was prior to the Wards Cove case.

Under provisions of the Michel-LaFalce proposal, however, there is a much more careful balance between the rights of a plaintiff and an accused employer. The employer is still forced to prove his/her innocence when accused of discrimination. But, unlike the Kennedy-Hawkins bill, the substitute does not risk finding an employer guilty, when in fact, that employer is innocent.

If, in the future, we find that further adjustment to the law is necessary, changes can be made—just as we are doing today. But why risk creating an error when correcting another?

For example, the Kennedy-Hawkins bill allows for jury trials in job discrimination cases. This feature alone could lead to lengthy and expensive litigation, which by itself could jeopardize the economic health of a business or actually put some employers out of business. We ought to be able to protect the rights of plaintiffs without placing small and medium sized employers at risk.

We must bear in mind that employers are not always wrong and those who sue them are not always right. The law must protect both parties. I believe the Michel/LaFalce substitute does that.

Mr. Chairman, I want to point out that if the Michel/LaFalce substitute fails, I plan to vote against the civil rights bill. I do so with the greatest reluctance.

However, as the President has pointed out, if Kennedy/Hawkins becomes law, many employers will protect themselves from lawsuits by simply avoiding any semblance of disparity. In other words, they will hire to satisfy a minimum quota and try to avoid ever being sued in the first place.

I am committed to see that every American has an equal opportunity for employment. But I do not favor a law that will result in any form of bias in the workplace. I am convinced that the Kennedy/Hawkins bill will bring about just such a result.

Let us adopt the Michel/LaFalce substitute and send the President a bill he will be pleased to sign.

Mr. SERRANO. Mr. Chairman, I rise in strong support of the Civil Rights Act, H.R. 4000. The purpose of the Civil Rights Act of 1990 is to restore and restrengthen civil rights laws that ban discrimination in employment. This comprehensive piece of legislation is urgently needed to ensure the ethical, moral, and economic well-being of this Nation. Discrimination must not be allowed.

I am ashamed that as we approach the year 2000 and head into the 21st century that employment discrimination on the basis of race, color, religion, sex, or national origin remains a critical national issue. Last year, in a series of rulings, the Supreme Court subverted 25 years of civil rights laws, decreasing employment access and mobility opportunities in the workplace for minorities and women. These rulings tore apart 25 years of settled judicial doctrine that protected minorities and women. These decisions reinforced the effects of the longstanding status quo of racial and gender exclusion in the higher reaches of employment in universities and colleges, in business, and in every sector of our society.

Mr. Chairman, as a result of those rulings, American lives have been dramatically and negatively affected by the weakening of laws which also undermine the work ethic which is crucial to the existence of our society. When members of our society are adversely affected, our society itself stands weakened. How do we call this great Nation America, when it is so divided along racial lines? Opponents assert that the Civil Rights Act of 1990 will induce employers to adopt hiring quotas. This act does not mandate quotas, nor does it encourage or authorize the institution of quotas as one of the remedies available to victims of discrimination.

Opponents further assert that this legislation would lead to endless litigation and costs. Again, no data exists to support the claim. The struggle to pass the Civil Rights Act should not be retarded by scare tactics over nonexistent issues. What is important is what the Civil Rights Act would accomplish; that this country, "a beautiful mosaic," will neither tolerate nor support employment discrimination.

I wholeheartedly support the Civil Rights Act of 1990, and I urge my colleagues to send the important signal across this Nation that discrimination in any form will no longer be tolerated.

Mr. ROYBAL. Mr. Chairman, I rise today in strong support of H.R. 4000, the Civil Rights Act of 1990.

I would first like to take the time to congratulate Chairman HAWKINS for his commendable job of organizing and coordinating this truly bipartisan effort. I would also like to thank all the distinguished members of this committee for their hard work and unrelenting dedication. I feel privileged to be part of such

a cooperative effort and I am more than certain that this bill will bring an end to the discrimination suffered by millions of Americans in this Nation that has surfaced once again since the passage of the Civil Rights Act of 1964.

In this regard, I would like to mention the necessity for such legislation. This Nation still has a long way to go in opening of opportunities for members of minority groups, women, and the disabled in the workplace; not to mention the opportunities these groups need in obtaining services in the health and education fields. Nonetheless, H.R. 4000 would be a step further in the effort to end discrimination by restoring statutory protections against discrimination in the workplace. Action such as this is long overdue if a colorblind society is to be achieved in this Nation.

The Civil Rights Act which we are considering today will go a long way to eliminate most employment discrimination. We are all very well aware that discrimination did not end with the Civil Rights Act of 1964, although it was a big step against discrimination. For many years, we could rely on the U.S. Supreme Court to protect the civil rights of minorities. However, the Supreme Court decisions, in cases such as Wards Cove, evidence that the Court can no longer be counted on as protectors of American civil rights. That is why it is of extreme importance to reaffirm the civil rights by passing the Civil Rights Act of 1990.

In addition, our support for the Civil Rights Act of 1990 will not only benefit the people of today but those who fought strong and hard in the past to end discrimination. We owe it to people like Martin Luther King, Jr., who devoted their lives in the struggle for justice. This bill will ensure that America remains one of the most successful democracies in history continuing policies that promote opportunities for members of all races and gender.

And so, I wish to express my deepest gratitude to Chairman HAWKINS and the members of this committee for a job well done. The act's passage is critical and essential to our country's progress. Thus, in closing, I want to urge all my colleagues to vote in favor of this indispensable and invaluable legislation.

Ms. LONG. Mr. Chairman, I rise to urge passage of H.R. 4000, the Civil Rights Act of 1990, with the amendments adopted by the House. As a society, we must not allow discrimination based on religion, gender, or national origin. H.R. 4000, with the amendments we have adopted, is a reasonable and thoughtful attempt to realize an end to discrimination in employment in America.

H.R. 4000 would reverse several recent Supreme Court decisions that narrowed civil rights for working Americans and would extend the protections under the law that exist for racial minorities to women and religious minorities. At the same time, this legislation preserves the legitimate interests of employers. H.R. 4000 will neither cause employers to institute quotas nor will it encourage excessive litigation in the courts.

In reversing recent Supreme Court decisions, H.R. 4000 would return us to the status quo that existed before standing law was overturned. Employers were not subject to quotas nor were they the target of unreasonable litigation before the Supreme Court's actions and the enactment of this legislation will not make employers face those circumstances now.

By providing the same remedies to discrimination available to racial minorities to women and religious minorities, H.R. 4000 makes it clear that discrimination against women and religious minorities is just as serious an offense as racial discrimination. These remedies have not been unreasonable in addressing discrimination against racial minorities and there is no reason to expect that they would be unreasonable in addressing discrimination against women and religious minorities.

Further, I believe that the House has adopted two important amendments to H.R. 4000. The first clarifies that nothing in H.R. 4000 shall be construed to require that employers adopt quotas in hiring or promotion and stipulates that the mere existence of a statistical imbalance in the employer's work force on account of race, color, religion, gender, or national origin is insufficient to establish discrimination by the employer.

The second amendment would cap the amount of damages that could be awarded against a small business employer in the case of intentional discrimination. No damage awards are allowed in cases of unintentional discrimination.

Finally, Mr. Chairman, I wish to express my concern regarding the widespread dissemination of misinformation regarding H.R. 4000. Civil rights are of fundamental importance to this country and its future. The false depictions of this legislation are simply reprehensible and have no place in our deliberations as this country moves forward.

Mr. Chairman, H.R. 4000, the Civil Rights Act of 1990, is fair and equitable legislation that is critically needed to fight discrimination in our country. I urge adoption of the bill.

Mr. HAWKINS. Mr. Chairman, I yield 3 minutes to the Democratic whip, the gentleman from Pennsylvania [Mr. GRAY].

Mr. BROOKS. Mr. Chairman, I yield 1 additional minute to the gentleman from Pennsylvania [Mr. GRAY].

The CHAIRMAN. The gentleman from Pennsylvania [Mr. GRAY] is recognized for 4 minutes.

Mr. GRAY. Mr. Chairman, I ask, What has America been, not what it could be or what it should be? One thing is true about our history, and that there always has been an ever-continuing struggle, a struggle for freedom and justice and equality.

The early immigrant groups faced that struggle; the women of this society faced that struggle; the minorities of this country, blacks, Hispanics, Asians, and Native Americans, faced that struggle. And by the 1960's we reached a consensus, a consensus that we would move in a direction that would allow the doors to be opened and allow remedies to be put in place and say that discrimination was wrong.

For 25 years that process worked. Then in 1988 and 1989 a series of court decisions came about that changed that fundamental process and those definitions.

The choice today is one of whether or not we will keep moving forward. The bill offered by the distinguished gentleman from Texas [Mr. BROOKS] and the gentleman from California [Mr. HAWKINS] is a bill that moves in the direction that our country has moved throughout its history, maybe not perfectly, maybe haltingly, but it moves in that direction.

The bill that is being offered as a substitute, the Michel-LaFalce bill, moves in exactly the opposite direction. That is the choice. We cannot say that we want to maintain the civil rights traditions of this country and vote against the bill offered by the gentleman from Texas, for if we vote for the Michel-LaFalce bill, we are voting for a new direction, one that goes in a different way.

Second, many of us are confusing the issue. We are talking about jobs, we are talking about business, we are talking about the impact. Well, that is exactly what they said when people talked about the rights of women in this country: What is the effect going to be on business? That is exactly what they said when they talked about the 1964 bills and the legislation of the 1970's: What is going to be the impact?

What we decided was that America's business will be strengthened if we allow everyone to participate fairly in the marketplace and in the labor pool, and surely today America is a better place. Many of those areas of this country that suffered because of segregation are economically stronger today than those areas of the country that used to proclaim their virtue because they did not have segregation.

I live in Pennsylvania where we sometimes talk with pride about our civil rights posture. But where do we see the strongest economic growth? We see that economic growth in many of those areas where the problem was the greatest, in the South. Why? Because we learned to work together and we pooled our resources, and we are stronger.

So if we want a jobs bill and we want to be concerned about the rights of business, then maybe we ought to vote for Michel-LaFalce, but if we want to vote for civil rights, we vote no.

There are those who have talked about a veto. Well, I have not heard the President yet say he would veto this bill at all, and whether he says it or not or implies it, we have never made civil rights law based upon that; we have made it based on what we feel as Americans.

Mr. Chairman, let me conclude by simply saying to the Members that I urge them to vote "no" on Michel-LaFalce because it is not a civil rights bill. I feel so seriously and so strongly

about that, as one who knows it from the point of view of the victims, if Michel-LaFalce is passed by this body—and I do not believe we will do that today; I do not believe we will go backward—if it is passed, I will vote "no" on final passage because I will not vote for a bill that is patently not a civil rights bill, one that does not expand freedom but takes us back the other way.

The CHAIRMAN. The Chair recognizes the gentleman from Pennsylvania [Mr. GOODLING].

Mr. GOODLING. Mr. Chairman, I reserve the balance of my time.

The CHAIRMAN. The Chair recognizes the gentleman from Texas [Mr. BROOKS].

Mr. BROOKS. Mr. Chairman, I yield 1 minute to the distinguished gentleman from California [Mr. MATSUI], a member of the Committee on Ways and Means.

Mr. MATSUI. Mr. Chairman, I thank the gentleman very much for yielding me this time. I will be very, very brief.

When I was on the Sacramento City Council back in 1971, we talked about affirmative action. We talked about that because we wanted to increase minority participation in the city of Sacramento. We talked about goals and time-tables, and, of course, those who were opposed to our ordinance immediately talked about quotas. It is very ironic that 20 years later we are talking about the same subject in this debate and we are hearing from a President who is also talking now about quotas.

What we want in the United States is diversity. We want that in employment, we want that in social activities, we want that throughout the fabric of our society, and the Michel-LaFalce amendment will reverse that.

The Michel-LaFalce amendment, whether one believes it or not, really codifies the Wards Cove case. If one reads the Wards Cove decision, he finds that they talk about the fact that discriminatory practices may be used if they serve in a significant way the legitimate employment goals of the employer. It says, "If they serve in a significant way * * *" the Michel substitute also uses those same words. It says they may use discriminatory practices if they significantly serve the respondent's legitimate employment goals.

There is no question that the Michel-LaFalce substitute is essentially a codification of this legislation that would take us all the way back to the 1940's.

Mr. HAWKINS. Mr. Chairman, I yield 3 minutes to the distinguished Democratic majority leader, the gentleman from Missouri [Mr. GEPHARDT].

Mr. GEPHARDT. Mr. Chairman, I urge rejection of the Michel amendment by the Members.

Yesterday morning a number of us gathered in Statuary Hall to commemorate the 25th anniversary of the Voting Rights Act. We saw a film of Lyndon Johnson giving his speech to the Congress warning the Members of the Congress and the people of the United States to come together to insure for the first time in our history that every American would have an equal right to vote.

I was thrilled to see a President, our former President, leading the American people, leading the Congress, and asking the Congress to do something difficult, to stand up for the values and the Constitution and the beliefs of the American society.

□ 1310

Then, Mr. Chairman, the gentleman from Mississippi [Mr. ESPY], our colleague, got up and told how in the last 25 years, how the passage of that law, has resulted in the increase in the election of black and minority public officials in the United States. He told how, at the time the law was passed, 500 public officials were minorities, and today 7,200 public officials are minorities.

Then, as the videotape came back on and we saw Lyndon Johnson handing out the pens to the House and Senate leaders who had helped pass the legislation, a choir of young black children came out and sang the "Battle Hymn of the Republic."

Then, Mr. Chairman, it struck me as hard as anything can, that this is what we are here for. We can make a difference. We can pass laws as members of a democratic process that change the country and give the words of our Constitution a meaning.

The Civil Rights Act that we meet on today, passed in 1964, changed America. The scholars say that 25 percent of the minorities in America have better jobs today because of the passage of that law and because that law changed the conditions in America.

So, what we meet about today is whether or not we meant it in 1964, or, or if we want to join an effort to erode the meaning of that law.

Mr. Chairman, I say to my colleagues, "Make no mistake about it. If you vote for the Michel amendment, you vote to codify the erosion of that law."

Let me sum up by simply saying this. What is at stake today is whether we are as big as we were in 1964. That is what is at stake.

I saw the tape of the history, and it moved me yesterday, and I hope and I pray that we are as big as those people were in 1964, that we stand up for what we know is right.

Mr. Chairman, I say to my colleagues, "Stand up for what you believe in. Stand up for the values of this country and our Constitution, and, if you will, reaffirm the acts of courage of 1964."

Mr. GOODLING. Mr. Chairman, I yield myself such time as I may consume.

Mr. Chairman, I would like to say that it is not whether we are as big as we were in 1964. It is whether we are bigger than we were in 1964, and, if we are bigger than we were in 1964, we will consider the changes that have taken place, and we will vote for the bipartisan substitute.

Mr. Chairman, I yield the balance of our time to the gentlewoman from Connecticut [Mrs. JOHNSON] to close debate.

Mrs. JOHNSON of Connecticut. Mr. Chairman, the vision of equality and opportunity that drove our Founding Fathers is a vision that deeply animates each one of us here today. We have been, and are, that beacon of hope that is changing the world today, as it has throughout our history. As we move toward this vote, let me summarize the substance of the choices that face us.

Both bills overturn five Supreme Court decisions. Both bills increase the penalties for discrimination and harassment. Both bills proudly strengthen our civil rights laws.

I urge support for the LaFalce-Michel substitute because in fact and in function, in practice, it is fairer and stronger law. It is fairer because it is not retroactive. This Nation has never supported changing the rules of the game midstream. The LaFalce-Michel substitute is not retroactive. It is fairer. Furthermore, it allows people, whose rights have been abridged arbitrarily and significantly by a consent decree, to challenge that decree if he or she has been wronged by it. Fairer. Fairer. And it assures access to justice.

The committee's bill would throw all civil rights cases, and remember, by reference, all the new cases under that marvelous ADA [Americans With Disabilities Act] bill we passed into the court system, our overcrowded, costly court system. My colleagues, trial lawyers do not take cases unless there are significant awards to be won, and most discrimination cases, most harassment cases, are a matter of small awards. Throwing them into our overcrowded court system reduces access to justice for the man and woman on the street. It does not enhance fairness and access to justice. Finally, as to the issue of quotas, the substitute is fairer because it reduces the likelihood of quotas.

Mr. Chairman, the issue of quotas is not a matter of detail in the law. It certainly is not a matter of the amendment we passed last night. The matter of quotas is a human matter. Quotas will be the consequence of the interaction of the committee law and human nature.

Mr. Chairman, I say to my colleagues, if you are a small employer, and mere statistics plus the enumeration of hiring practices without a causal link, can be used to bring you to court, and if the burden of proof has been raised, if the cost of defending yourself is increased as it has been by requiring jury cases, and if the chances of a settlement that could bankrupt you is as real as it is under H.R. 4000, then prudence; that is, human nature prudence, will lead you to mind your statistics to avoid that first cause of suit.

Mr. Chairman, the fact is that human nature plus H.R. 4000 will surely result in statistics influencing hiring more tomorrow than they do today. Sometimes that will help women and minorities. More often, that will hurt them, particularly since H.R. 4000 requires that the statistics be reflected across every category of employee.

So, Mr. Chairman, the LaFalce-Michel substitute is fairer on all those counts, but it is also stronger. Not only does it reverse the five Supreme Court decisions and retain a system that assures speedy access to justice, but it has new penalties, new monetary penalties, for all forms of harassment, and, my colleagues, as the gentleman from California made very clear, a new and powerful weapon of accelerated injunctive relief.

Mr. Chairman, that means: I am harassed, sexually harassed. I can go to the courts, to the top of the line, and I can get it stopped. There is nothing equivalent in today's law; there is nothing equivalent in H.R. 4000; there is nothing that says, "You've got to stop it now!" Then we will talk about compensation.

I like the injunctive relief provision. I know it will provide protection. I know it is a powerful and unique weapon in the LaFalce-Michel substitute.

□ 1320

Mr. Chairman, we must continue to press toward the vision of freedom and equality that has ennobled and enabled us individually and as a Nation.

My father fought against the American Bar Association and a lot of other organizations for the right to provide night school legal education. Why? Because it was the only avenue of opportunity for minorities and immigrants in Chicago. It was a tough battle, and influenced my life. As a woman, I have felt the closed door, the conversation silence upon my approach. I have faced the raw bold assumption that I could not do the job. I know as do many throughout America the sting of the millions of acts, small and large, that we call discrimination and harassment. I have felt that sting myself and I consider myself a strong advocate of a strong civil rights law.

Mr. Chairman, I rise this afternoon in support of the LaFalce amendment because I believe it is all of that, fairer and stronger.

I know this has been a struggle for each of us. The pressures have been enormous. The intimidation has belied the vision and hope of civil rights, but in the end it is my face in that mirror, not just as a Member of this body, but as a grandmother, I hope, in the many decades ahead, to which I must be accountable.

It is to each of us that we must be accountable, not to the leadership of our party, not to the groups listed.

If my father had been accountable to the American Bar Association, opportunity would have been lost. We are accountable to our own best sense of how we as a Nation provide those strong laws that guarantee equal opportunity, equal justice, protection from discrimination and harassment for all.

Mr. Chairman, I urge support for the LaFalce-Michel amendment. If there are concerns, there is yet another step in the process. Our goal must be fairness, balance, and a victory for the people today.

Mr. HAWKINS. Mr. Chairman, I yield such time as he may consume to the gentleman from Illinois [Mr. HAYES].

Mr. HAYES of Illinois. Mr. Chairman, I rise today to speak in support of H.R. 4000, the Civil Rights Act of 1990 and in opposition to the Michel-Goodling substitute. I would first like to thank the chairman of the Education and Labor Committee, Congressman GUS HAWKINS, for introducing this bill and taking the necessary leadership role to realize today's floor consideration of this measure.

The civil rights accomplishments, that I and many others fought so hard to achieve, are far too important for us to sit back and allow the Supreme Court to undermine. The citizens of this Nation are counting on us to take a bold step in the right direction and passing this bill would do just that. Just a little more than a quarter of a century ago, Congress proudly passed the Civil Rights Act of 1964 which outlawed discrimination in employment, public accommodation, and federally funded programs. But, after 25 years of generally steady progress in the fight against discrimination, the Supreme Court's recent civil rights decisions have resulted in a sudden and substantial erosion of the legal protection Congress afforded minorities and women in the workplace.

Now it seems that many of my colleagues are worried that this is a quota bill. Nothing could be further from the truth. This legislation does not mandate quotas, nor does it even encourage or authorize the institution of quotas as one of the remedies available to victims of intentional discrimination. This legislation would help those people whose lives will be, and already have been, dramatically and negatively affected by the Supreme Court's weakening of laws against employment discrimination.

Women and minorities are now being represented in greater numbers in the U.S. work force. This trend promises to intensify with women and people of color making up the majority of the labor pool by the year 2000. As we approach a new century, 9 out of 10 new work force entrants will be minorities and women. We must enable these worker to tap their full potential without hindrance of discrimination to develop a work force that can compete on the world market.

This bill would create such competition and remove those substantial barriers that face women and minorities, barriers that have resulted from several recent Supreme Court decisions that overturned established law. We must restore and strengthen basic civil rights to wipe out prejudice on the job. We cannot allow the clock to be turned back. All Americans deserve the right to equal employment opportunity.

I support this legislation because it would send an important signal that justice must not be denied; that this country will neither tolerate nor support employment discrimination; and that for the ethical, moral, and economic well-being of this Nation, such discrimination must not be allowed. We must afford the same basic support to our American brothers and sisters that we provide for people all over the world struggling for democracy. The wind of change is blowing in America, and we will not tolerate the return of apartheid to this country. Support H.R. 4000 and restore basic civil rights for all Americans.

Mr. FRENZEL. Mr. Chairman, I rise in support of strengthening the Civil Rights Act through the passage of the LaFalce substitute amendment to H.R. 4000, the Civil Rights Act of 1990. I believe that the substitute amendment will offer plaintiffs seeking remedies for discriminatory conduct and employment practices, quick conciliation and fair compensation.

The purpose of Civil Rights legislation is to "make whole" remedies for employees and employers in an efficient manner, stopping employment practices which have been found discriminatory and allowing the plaintiff to receive due compensation. I believe that H.R. 4000, as passed by the Judiciary Committee, distributes unequal responsibility in the charging and defending of employment practices in court. If an individual charges that an employment policy is discriminatory then the charge should be supported with more than statistics. Further, with the changes made in the substitute amendment, an employer will be able to defend the employment policy with the improved "business necessity" language and without relying on quotas. The substitute amendment, I believe, places a more equitable burden of proof on both parties to be responsible in stating their cases in court.

The compensation offered in the remedies section of the substitute amendment will, I believe, equitably compensate plaintiffs for intentional discrimination. The substitute amendment discourages expensive drawn out litigation for those seeking huge awards by cappng damages at $100,000 and not providing for jury trials. In addition, this measure adds to civil rights statues a new provision which will provide monetary compensation to individuals

who have suffered harassment on the job or who are not eligible for back pay.

A vote for the LaFalce amendment is the first real step in improving and strengthening civil rights statutes. The substitute amendment places equal responsibility on plaintiffs and defendants for quick conciliation and equitable resolution of discrimination legislation, and represents a measure which the administration and Members on both sides of the aisle can support.

CIVIL RIGHTS ACT OF 1990

Mr. SMITH of New Jersey. Mr. Chairman, I rise in strong support of the civil rights bill of 1990 as offered by Mr. MICHEL and Mr. LAFALCE.

As Members know, today, the House of Representatives will be considering two civil rights measures designed, in part, to reverse several recent U.S. Supreme Court decisions. I am persuaded that enhancing and expanding the 1964 Civil Rights Act is urgently needed. However, one bill—H.R. 4000—is extremely likely to produce a system of quotas that I find offensive and antithetical to equality in general and equal opportunity in the workplace in particular.

Throughout my tenure in Congress when considering questions of employment discrimination, I have advocated the principal of "equality of opportunity" rather than "equality of results." Thus, I rise in support of the bipartisan civil rights legislation offered by Mr. MICHEL and Mr. LAFALCE. I believe that Michel-LaFalce treats all parties in a fair manner and will avert the particularly disturbing probability that employers will resort to quotas to avoid costly lawsuits which could arise from enactment of Kennedy-Hawkins.

Mr. Chairman, I agree with the conclusion of U.S. Attorney General Dick Thornburgh that enactment of the Kennedy-Hawkins bill will inevitably lead to an odious system of quotas and racial preferences. In a letter dated April 4, 1990, Mr. Thornburgh said:

It would be difficult for the employer not to adopt a silent practice of quota hiring and promotion in an effort to protect the business from the probability of litigation wherever a statistical imbalance exists.

In another letter dated August 2, 1990, the Attorney General further states:

It is my view that H.R. 4000 will result in quotas, not requiring them directly, but by inducing employers to adopt surreptitious quotas in order to avoid the cost and trouble of disparate impact lawsuits—which H.R. 4000 makes extremely difficult for employers to win.

I also agree, Mr. Chairman, with the Washington Post editorial on March 16, 1990, which acknowledged that quotas are likely to result if H.R. 4000 becomes law:

The risk that numbers can turn into quotas is real . . . that issue—quotas—should be taken seriously. It is not just a false fear or a red herring that civil rights groups too readily dismiss it as being. When numbers are used at first merely to measure or identify the problem of discrimination, they can all too easily become the terms of its solution as well—and racial, religious and other such quotas are wrong; in the long run their use can only come back to haunt the groups and principles in whose behalf they are sometimes advanced.

Mr. Chairman, the Post is correct—the risk of quotas is real. We ignore these warnings at the risk of imposing a grave injustice on society.

While nothing in H.R. 4000 directly mandates quotas, this bill will force employers to adopt statistical formulas for hiring and promotions in order to avoid being saddled with costly discrimination suits. The language in H.R. 4000 clearly suggests that statistical imbalances in employment practices are likely to be construed to be discriminatory regardless of the circumstances. I believe it is a sad departure from common decency and fundamental norms of justice to permit a finding of bias against an employer merely owing to racial or ethnic imbalances. In other words, if your numbers don't add up on paper—watch out, you're heading for court. Under these unfair requirements, an employer would be presumed guilty and the burden would be on the employer to prove his or her innocence.

A column by Pulitzer prize-winning writer George F. Will entitled "Mocking Civil Rights" provides further insights into this brave new world of quotas and double standards. As published on May 20, 1990, by the Washington Post, Mr. Will says of H.R. 4000:

It will, by traducing the principle that defendants are presumed innocent, drive America deeper into the quagmire of racial quotas.

He further states that:

Supporters of H.R. 4000 want to make employers' situations so threatening that they will engage in reverse discrimination as insurance against ruinous litigation. The 1990 bill will do so by placing on employers the burden of demonstrating that a "disparate impact" of a hiring practice is demonstrably and substantially related to "effective job performance."

George Will also contends in his column that:

Legal challenges will proliferate, because by joining a cry of "discrimination!" with a claim of "disparate impact," plaintiffs can enter a potentially lucrative lottery. The bill will entitle them to jury trials rather than merely mediation procedures, and it will empower juries to impose punitive damages and damages for pain and suffering. Hence the bill is a machine for coercing employers to adopt preemptive quotas.

Additionally, George Will points out that:

The closed reasoning of many civil rights organizations is: all standards (hiring, academic, etc.) are socially conditioned. American society is permeated by racism. Therefore, all standards are at best suspect and at worst illegal. Such reasoning dovetails with the assumption that employers, who are part of "the system," should be presumed, on the basis of statistical disparities resulting from their practices, to be guilty of racial discrimination until they prove themselves innocent.

Likewise, Mr. Chairman, on July 2, 1990, the New Republic expressed similar concerns about quotas:

The bill, cosponsored by Representative Gus Hawkins of California (H.R. 4000), doesn't mandate quotas in hiring. But it gives employers a strong incentive to adopt them—or else face lawsuits alleging discrimination that would be costly to defend and difficult to win.

In his column in the Wall Street Journal, Paul Gigot likewise pointed to the inevitability of quotas if we adopt H.R. 4000. He said:

Just how much has all of this strayed from the original civil rights vision is clear enough from a letter Mr. Bush received last month from Morris Abram. Mr. Abram is a hero of the original civil rights days who argued the one-man, one-vote case before the Supreme Court * * * Mr. Abram wrote that Kennedy-Hawkins is not a civil rights bill but a quota bill because it will achieve precisely what the landmark 1964 Civil Rights Act stood foresquare against.

In a May 29, 1990 editorial in the Wall Street Journal, further questions were raised about the spectre of quotas if H.R. 400 is approved:

The litigation this bill has in mind is different from the important and necessary court opinions of the 1960's that ensured desegregation, voting rights and equal opportunity. Instead, the current bill will use litigation to effectively mandate quotas. Its sponsors are too politically sensitive to use the word "quota," but the bill's mechanics would drive the system toward that end. Setting aside due process, it creates a presumption of an employer's guilt. An employer who is sued will be guilty of "discrimination" unless he can explain the existence of any "disparate impact" in hiring by race and sex. The explanation must prove that employment practices such as requirements and tests must have what the current compromise language calls a "substantial and demonstrable relationship to effective job performance." No one knows what that means.

Thomas Sowell, a black economist and a senior fellow at the Hoover Institution, also warns of an explosion of quotas and the disasterous impact on improving race relations in the 1990's. Sowell asked the question, in the May 29, 1990 Washington Times:

Who will gain and who will lose form the so-called "Civil Rights Act of 1990" now being debated in the Congress? Lawyers will be the biggest gainers because the bill makes it possible to sue an employer for "discrimination" even if there is not a living soul with any evidence that he or she was discriminated against. Group statistics alone will be enough to bring the accused employee into court.

Sowell further said:

Supporters of the (Kennedy-Hawkins bill) want statistics alone to be enough to drag employers into long, costly legal processes. If they suceed, that will mean quota hiring, no matter how much they deny it.

Finally, Sowell concluded that:

For the whole society, the biggest problem is that racial quotas mean racial polarization.

In his May 25, 1990, column in the Washington Post, Edwin M. Yoder, Jr. simply stated that:

H.R. 4000 would almost certainly encourage the adoption of de facto quotas in many situations.

In the Washington Times on May 24, 1990, Warren Brookes came to the identical conclusion:

The bottom line is that if this act allows numerical disparities alone to be used as evidence in hiring, companies will have no choice but to adhere as closely as possible to the actual racial mix of their local populations.

Mr. Chairman, I care deeply about civil rights for all—regardless of race, color, creed, age, sex, or condition of dependency. In the past, for example, I have supported the enactment of the Civil Rights Restoration Act of 1987 and I was a cosponsor of the Americans With Disabilities Act which the President signed in late July. In addition, I have worked against racism in this country and in other countries such as South Africa through my support for economic sanctions. But, I refuse to add my voice or my vote for legislation that will impose hiring and promotion quotas on the working men and women of this country. It's unfair and anything but civil rights.

Today, however, I will support the Michel-LaFalce civil rights bill. This landmark civil rights legislation, which President Bush has indicated he would sign into law if presented to him, contains several vital changes in current law and it does so without in any way instituting a system of quotas. The Michel-LaFalce bill would:

First, establish new equitable relief remedies to deter intentional discriminatory practices, when back pay cannot be awarded, including equitable damages of up to $100,000 per violation and immediate injunctive relieve in the courts.

Second, overrules the controversial Wards Cove versus Atonio decision, shifting the burden of proof to the employer once a prima facie case of discrimination has been made out in the a disparate impact case. Employers would then have to demonstrate that a challenged employment practice is justified under the standard established in the landmark Griggs case—for example, the practice has a "manifest relationship to the employment in question."

Third, overrules the much criticized Patterson versus McClean Employment Union case making it clear that section 1981 applies to racial harassment on the job.

Fourth, eliminates the possibility of punitive damages and jury trials in employment discrimination cases and, instead, continues to utilize the EEOC administrative settlement process.

Fifth, applies Federal employment discrimination law—Title VII—to the Congress, with the enforcement mechanism to be determined by each House.

Sixth, makes it clear that any changes made to existing law are effective upon enactment, so that no unfair retroactivity could result.

I urge my colleagues to pass this important civil rights legislation.

Mr. HAWKINS. Mr. Chairman, I yield the remaining 4 minutes of my time to close debate to the distinguished and esteemed Speaker of the House, the gentleman from Washington [Mr. FOLEY].

Mr. BROOKS. Mr. Chairman, I yield the balance of my time to close debate to the distinguished Speaker, the gentleman from Washington [Mr. FOLEY].

The **CHAIRMAN.** The gentleman from Washington is recognized for 5½ minutes.

(Mr. FOLEY asked and was given permission to revise and extend his remarks.)

Mr. FOLEY. Mr. Chairman, when the majority leader took the floor a few moments ago in his eloquent statement to the House, he mentioned that some of us had a vivid memory of Lyndon Johnson, the President of the United States in 1965, coming into this Chamber and making a plea for expanding the voting rights of all Americans. There are about 30 Members of this House, from both parties, that were present then who are still Members now, including the distinguished chairmen managing this bill, the gentleman from Texas [Mr. BROOKS] and the gentleman from California [Mr. HAWKINS], and distinguished Members on the Republican side of the House, the gentleman from Tennessee [Mr. QUILLEN], the gentleman from Alabama [Mr. DICKINSON], and the gentleman from New York [Mr. HORTON].

For my part, it was the highest moment of the Johnson Presidency. I remember it as if it were yesterday. He spoke from the heart. He spoke more effectively than I had ever heard him speak before, to a Congress that felt that we were on the verge of a great and significant decision, not only in our political and public lives, but in the life of our country.

W are now a few days away from the anniversary of the signing of that bill by President Johnson, the Voting Rights Act of 1965, in the Rotunda of the Capitol on August 6, 1965. When the President signed the bill, he said, among other things:

Today is a triumph for freedom as huge as any victory that has ever been won on any battlefield. And every family across this great entire surging land will live stronger in liberty, will live more splendid in expectation and will be prouder to be Americans because of the Act that you have passed that I will sign today.

We are now not 25 years, but a few moments away from a decision that we will make in our own time and generation, to decide whether we will guarantee for all Americans—for women, for minorities, but basically for all Americans—the right not only to participate fully in our political life, but to participate fully in our economic life.

This is a Nation whose values and traditions now excite the world, as we all know. I think we all have deep pride in American views, American ideals, American Government, American principle, which excite hundreds of millions of people around the world who struggle for freedom.

But those principles and values are not perfect in our own society. We know that. When our country was founded, the idea of self-governance was a revoluntionary idea. And when it was achieved, it was achieved basically for the political and economic preference of citizens of European descent, Caucasian by race, English speaking by tradition, European by origin.

It was not a promise that was given to black slaves or Native Americans. Nor were there Americans of other national origins in great numbers, as followed in the 19th century and the 20th century.

So we have had a struggle through our history to perfect those values for all who bear our name and common citizenship. The Congress in different circumstances and different eras has worked gradually toward that concept of expanded justice and opportunity. Indeed, we have fought bitter national wars, divided the country over the issue of whether there will be a union of common citizenship and opportunity.

Now in this Congress, we have an opportunity that we will look back on, I believe, with great pride, because I think today we will take a major step forward in guaranteeing those values and opportunities for justice for all Americans: The realization, the continued expanding, unfolding realization, of the American dream.

In a few moments we will vote, I hope, to reject this substitute. I have the greatest admiration for its sponsors, but I strongly believe that it must be rejected. I hope we will then accept the terms and conditions of H.R. 4000 as another testament to our determination that opportunity, equality and freedom, should adhere to every citizen of our land. This then will truly be a day of triumph as great as any victory won on any battlefield. And 25 years from now we will look back on this day with pride and satisfaction.

□ 1330

The **CHAIRMAN.** The question is on the amendment in the nature of a substitute offered by the gentleman from Illinois [Mr. MICHEL].

The question was taken; and the Chairman announced that the noes appeared to have it.

RECORDED VOTE

Mr. GOODLING. Mr. Chairman, I demand a recorded vote.

A recorded vote was ordered.

The vote was taken by electronic device, and there were—ayes 188, noes 238, not voting 6, as follows:

NOT VOTING—6

Bilirakis	Hall (TX)	Nelson
Ford (MI)	Leath (TX)	Robinson

□ 1348

The Clerk announced the following pair:

On this vote:

Mr. Robinson for, with Mr. Ford of Michigan against.

Mr. FRENZEL changed his vote from "no" to "aye."

So the amendment in the nature of a substitute was rejected.

The result of the vote was announced as above recorded.

The CHAIRMAN. The question is on the amendment in the nature of a substitute made in order as original text, as amended.

The amendment in the nature of a substitute, made in order as original text, as amended, was agreed to.

The CHAIRMAN. Under the rule, the Committee rises.

Accordingly, the Committee rose; and the Speaker pro tempore [Mr. HOYER] having assumed the chair, Mr. MFUME, Chairman of the Committee of the Whole House on the State of the Union, reported that that Committee, having had under consideration the bill (H.R. 4000) to amend the Civil Rights Act of 1964 to restore and strengthen civil rights laws that ban discrimination in employment, and for other purposes, pursuant to House Resolution 449, he reported the bill back to the House with an amendment adopted by the Committee of the Whole.

□ 1350

The SPEAKER pro tempore. Under the rule, the previous question is ordered.

Is a separate vote demanded on any amendment to the amendment in the nature of a substitute made in order as original text adopted by the Committee of the Whole? If not, the question is on the amendment.

The amendment was agreed to.

The SPEAKER pro tempore. The question is on the engrossment and third reading of the bill.

The bill was ordered to be engrossed and read a third time, and was read the third time.

MOTION TO RECOMMIT OFFERED BY MR. SENSENBRENNER

Mr. SENSENBRENNER. Mr. Speaker, I offer a motion to recommit.

The SPEAKER pro tempore. Is the gentleman opposed to the bill?

Mr. SENSENBRENNER. In its present form, I am, Mr. Speaker.

The SPEAKER pro tempore. The Clerk will report the motion to recommit.

The Clerk read as follows:

Mr. SENSENBRENNER moves to recommit the bill, H.R. 4000, jointly to the Committees on the Judiciary and Education and Labor.

The SPEAKER pro tempore. Without objection, the previous question is ordered on the motion to recommit.

There was no objection.

The SPEAKER pro tempore. The question is on the motion to recommit.

The motion to recommit was rejected.

The SPEAKER pro tempore. The question is on the passage of the bill.

The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

Mr. BROOKS. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The vote was taken by electronic device, and there were—yeas 272, nays 154, not voting 6, as follows:

[Roll No. 310]

NOT VOTING—6

Bilirakis	Hall (TX)	Nelson
Ford (MI)	Leath (TX)	Robinson

□ 1410

The Clerk announced the following pairs;

On this vote:

Mr. Ford of Michigan for, with Mr. Robinson against.

So the bill was passed.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

GENERAL LEAVE

Mr. BROOKS. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks, and include therein extraneous material, on H.R. 4000, the bill just passed.

The SPEAKER pro tempore (Mr. HOYER). Is there objection to the request of the gentleman from Texas?

There was no objection.

AUTHORIZING THE CLERK TO MAKE CORRECTIONS IN ENGROSSMENT OF H.R. 4000, CIVIL RIGHTS ACT OF 1990

Mr. HAWKINS. Mr. Speaker, I ask unanimous consent that, in the engrossment of the bill, H.R. 4000, the Clerk be authorized to make corrections in section numbers, punctuation, citations, and cross-references and to make such other technical and conforming changes as may be necessary to reflect the actions of the House in amending the bill.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from California?

There was no objection.

Mr. HAWKINS. Mr. Speaker, pursuant to the provisions of House Resolution 449, I call up from the Speaker's table the Senate bill (S. 2104) to amend the Civil Rights Act of 1964 to restore and strengthen civil rights laws that ban discrimination in employment, and for other purposes, and ask for its immediate consideration.

The Clerk read the title of the Senate bill.

MOTION OFFERED BY MR. HAWKINS

Mr. HAWKINS. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. HAWKINS moves to strike all after the enacting clause and insert in lieu thereof the text of H.R. 4000, as passed by the House, as follows:

SECTION 1. SHORT TITLE.

This Act may be cited as the "Civil Rights Act of 1990".

SEC. 2. FINDINGS AND PURPOSES.

(a) FINDINGS.—Congress finds that—

(1) in a series of recent decisions addressing employment discrimination claims under Federal law, the Supreme Court cut back dramatically on the scope and effectiveness of civil rights protections; and

(2) existing protections and remedies under Federal law are not adequate to deter unlawful discrimination or to compensate victims of such discrimination.

(b) PURPOSES.—The purposes of this Act are to—

(1) respond to the Supreme Court's recent decisions by restoring the civil rights protections that were dramatically limited by those decisions; and

(2) strengthen existing protections and remedies available under Federal civil rights laws to provide more effective deterrence and adequate compensation for victims of discrimination.

SEC. 3. DEFINITIONS.

Section 701 of the Civil Rights Act of 1964 (42 U.S.C. 2000e) is amended by adding at the end thereof the following new subsections:

"(l) The term 'complaining party' means the Commission, the Attorney General, or a person who may bring an action or proceeding under this title.

"(m) The term 'demonstrates' means meets the burdens of production and persuasion.

"(n) The term 'group of employment practices' means a combination of employment practices that produces one or more decisions with respect to employment, employment referral, or admission to a labor organization, apprenticeship or other training or retraining program.

"(o)(1) The term 'required by business necessity' means—

"(A) in the case of employment practices involving selection (such as hiring, assignment, transfer, promotion, training, apprenticeship, referral, retention, or membership in a labor organization), the practice or group of practices must bear a significant relationship to successful performance of the job; or

"(B) in the case of employment practices that do not involve selection, the practice or group of practices must bear a significant relationship to a significant business objective of the employer.

"(2) In deciding whether the standards in paragraph (1) for business necessity have been met, unsubstantiated opinion and hearsay are not sufficient; demonstrable evidence is required. The defendant may offer as evidence statistical reports, validation

studies, expert testimony, prior successful experience and other evidence as permitted by the Federal Rules of Evidence, and the court shall give such weight, if any, to such evidence as is appropriate.

"(3) This subsection is meant to codify the meaning of 'business necessity' as used in *Griggs v. Duke Power Co.* (401 U.S. 424 (1971)) and to overrule the treatment of business necessity as a defense in *Wards Cove Packing Co., Inc. v. Atonio* (109 S. Ct. 2115 (1989)).

"(p) The term 'respondent' means an employer, employment agency, labor organization, joint labor-management committee controlling apprenticeship or other training or retraining programs, including on-the-job training programs, or those Federal entities subject to the provisions of section 717 (or the heads thereof).".

SEC. 4. RESTORING THE BURDEN OF PROOF IN DISPARATE IMPACT CASES.

Section 703 of the Civil Rights Act of 1964 (42 U.S.C. 2000e-2) is amended by adding at the end thereof the following new subsection:

"(k) PROOF OF UNLAWFUL EMPLOYMENT PRACTICES IN DISPARATE IMPACT CASES.—(1) An unlawful employment practice based on disparate impact is established under this section when—

"(A) a complaining party demonstrates that an employment practice results in a disparate impact on the basis of race, color, religion, sex, or national origin, and the respondent fails to demonstrate that such practice is required by business necessity; or

"(B) a complaining party demonstrates that a group of employment practices results in a disparate impact on the basis of race, color, religion, sex, or national origin, and the respondent fails to demonstrate that such group of employment practices is required by business necessity, except that—

"(i) except as provided in clause (iii), if a complaining party demonstrates that a group of employment practices results in a disparate impact, such party shall not be required to demonstrate which specific practice or practices within the group results in such disparate impact;

"(ii) if the respondent demonstrates that a specific employment practice within such group of employment practices does not contribute to the disparate impact, the respondent shall not be required to demonstrate that such practice is required by business necessity; and

"(iii) if the court finds that the complaining party can identify, from records or other information of the respondent reasonably available (through discovery or otherwise), which specific practice or practices contributed to the disparate impact—

"(I) the complaining party shall be required to demonstrate which specific practice or practices contributed to the disparate impact; and

"(II) the respondent shall be required to demonstrate business necessity only as to the specific practice or practices demonstrated by the complaining party to have contributed to the disparate impact;

except that an employment practice or group of employment practices demonstrated to be required by business necessity shall be unlawful where a complaining party demonstrates that a different employment practice or group of employment practices with less disparate impact would serve the respondent as well.

"(2) A demonstration that an employment practice is required by business necessity may be used as a defense only against a claim under this subsection.

"(3) Notwithstanding any other provision of this title, a rule barring the employment of an individual who currently and knowingly uses or possesses an illegal drug as defined in Schedules I and II of section 102(6) of the Controlled Substances Act (21 U.S.C. 802(6)), other than the use or possession of a drug taken under the supervision of a licensed health care professional, or any other use or possession authorized by the Controlled Substances Act or any other provision of Federal law, shall be considered an unlawful employment practice under this title only if such rule is adopted or applied with an intent to discriminate because of the race, color, religion, sex, or national origin.

"(4) The mere existence of a statistical imbalance in an employer's workforce on account of race, color, religion, sex, or national origin is not alone sufficient to establish a prima facie case of disparate impact violation.".

SEC. 5. CLARIFYING PROHIBITION AGAINST IMPERMISSIBLE CONSIDERATION OF RACE, COLOR, RELIGION, SEX OR NATIONAL ORIGIN IN EMPLOYMENT PRACTICES.

(a) IN GENERAL.—Section 703 of the Civil Rights Act of 1964 (42 U.S.C. 2000e-2) (as amended by section 4) is further amended by adding at the end thereof the following new subsection:

"(l) DISCRIMINATORY PRACTICE NEED NOT BE SOLE CONTRIBUTING FACTOR.—Except as otherwise provided in this title, an unlawful employment practice is established when the complaining party demonstrates that race, color, religion, sex, or national origin was a contributing factor for any employment practice, even though other factors also contributed to such practice.".

(b) ENFORCEMENT PROVISIONS.—Section 706(g) of such Act (42 U.S.C. 2000e-5(g)) is amended by inserting before the period in the last sentence the following: "or, in a case where a violation is established under section 703(l), if the respondent establishes that it would have taken the same action in the absence of any discrimination. In any case in which a violation is established under section 703(l), damages may be awarded only for injury that is attributable to the unlawful employment practice".

SEC. 6. FACILITATING PROMPT AND ORDERLY RESOLUTION OF CHALLENGES TO EMPLOYMENT PRACTICES IMPLEMENTING LITIGATED OR CONSENT JUDGMENTS OR ORDERS.

Section 703 of the Civil Rights Act of 1964 (42 U.S.C. 2000e-2) (as amended by sections 4 and 5) is further amended by adding at the end thereof the following new subsection:

"(m) FINALITY OF LITIGATED OR CONSENT JUDGMENTS OR ORDERS.—(1) Notwithstanding any other provision of law, and except as provided in paragraph (2), an employment practice that implements and is within the scope of a litigated or consent judgment or order resolving a claim of employment discrimination under the United States Constitution or Federal civil rights laws may not be challenged in a claim under the United States Constitution or Federal civil rights laws—

"(A) by a person who, prior to the entry of such judgment or order, had—

"(i) actual notice from any source of the proposed judgment or order sufficient to apprise such person that such judgment or order might affect the interests of such person and that an opportunity was available to present objections to such judgment or order; and

"(ii) a reasonable opportunity to present objections to such judgment or order;

"(B) by a person with respect to whom the requirements of subparagraph (A) are not satisfied, if the court determines that the interests of such person were adequately represented by another person who challenged such judgment or order prior to or after the entry of such judgment or order; or

"(C) if the court that entered the judgment or order determines that reasonable efforts were made to provide notice to interested persons.

A determination under subparagraph (C) shall be made prior to the entry of the judgment or order, except that if the judgment or order was entered prior to the date of the enactment of this subsection, the determination may be made at any reasonable time.

"(2) Nothing in this subsection shall be construed to—

"(A) alter the standards for intervention under rule 24 of the Federal Rules of Civil Procedure or apply to the rights of parties who have successfully intervened pursuant to such rule in the proceeding in which they intervened;

"(B) apply to the rights of parties to the action in which the litigated or consent judgment or order was entered, or of members of a class represented or sought to be represented in such action, or of members of a group on whose behalf relief was sought in such action by the Federal government;

"(C) prevent challenges to a litigated or consent judgment or order on the ground that such judgment or order was obtained through collusion or fraud, or is transparently invalid or was entered by a court lacking subject matter jurisdiction; or

"(D) authorize or permit the denial to any person of the due process of law required by the United States Constitution.

"(3) Any action, not precluded under this subsection, that challenges an employment practice that implements and is within the scope of a litigated or consent judgment or order of the type referred to in paragraph (1) shall be brought in the court, and if possible before the judge, that entered such judgment or order. Nothing in this subsection shall preclude a transfer of such action pursuant to section 1404 of title 28, United States Code.".

SEC. 7. STATUTE OF LIMITATIONS; APPLICATION TO CHALLENGES TO SENIORITY SYSTEMS.

(a) STATUTE OF LIMITATIONS.—Section 706(e) of the Civil Rights Act of 1964 (42 U.S.C. 2000e-5(e)) is amended—

(1) by striking out "one hundred and eighty days" and inserting in lieu thereof "2 years";

(2) by inserting after "occurred" the first time it appears "or has been applied to affect adversely the person aggrieved, whichever is later,";

(3) by striking out ", except that in" and inserting in lieu thereof ". In"; and

(4) by striking out "such charge shall be filed" and all that follows through "whichever is earlier, and".

(b) APPLICATION TO CHALLENGES TO SENIORITY SYSTEMS.—Section 703(h) of such Act (42 U.S.C. 2000e-2) is amended by inserting after the first sentence the following new sentence: "Where a seniority system or seniority practice is part of a collective bargaining agreement and such system or prac-

tice was included in such agreement with the intent to discriminate on the basis of race, color, religion, sex, or national origin, the application of such system or practice during the period that such collective bargaining agreement is in effect shall be an unlawful employment practice.".

SEC. 8. PROVIDING FOR DAMAGES IN CASES OF INTENTIONAL DISCRIMINATION.

(a) DAMAGES.—Section 706(g) of the Civil Rights Act of 1964 (42 U.S.C. 2000e-5(g)) is amended by inserting before the last sentence the following new sentences: "With respect to an unlawful employment practice (other than an unlawful employment practice established in accordance with section 703(k)) or in the case of an unlawful employment practice under the Americans with Disabilities Act of 1990 (other than an unlawful employment practice established in accordance with paragraph (3)(A) or paragraph (6) of section 102 of that Act) as it relates to standards and criteria that tend to screen out individuals with disabilities)—

"(A) compensatory damages may be awarded; and

"(B) if the respondent (other than a government, government agency, or a political subdivision) engaged in the unlawful employment practice with malice, or with reckless or callous indifference to the federally protected rights of others, punitive damages may be awarded against such respondent;

in addition to the relief authorized by the preceding sentences of this subsection, except that compensatory damages shall not include backpay or any interest thereon. Compensatory and punitive damages and jury trials shall be available only for claims of intentional discrimination. If compensatory or punitive damages are sought with respect to a claim of intentional discrimination arising under this title, any party may demand a trial by jury.".

(b) LIMITATION ON PUNITIVE DAMAGES.—Section 706(g) of the Civil Rights Act of 1964 (42 U.S.C. 2000e-5(g)) is amended—

(1) by inserting "(1)" after "(g)"; and

(2) by adding at the end the following'

"(2) If the respondent has fewer than 100 employees for each working day in each of twenty or more calendar weeks in the current or preceding calendar year, then the amount of punitive damages that may be awarded under paragraph (1)(B) to an individual against the respondent shall not exceed—

"(A) $150,000; or

"(B) an amount equal to the sum of compensatory damages awarded under paragraph (1)(A) and equitable monetary relief awarded under paragraph (1);

whichever is greater.".

SEC. 9. CLARIFYING ATTORNEY'S FEES PROVISION.

Section 706(k) of the Civil Rights Act of 1964 (42 U.S.C. 2000e-5(k)) is amended—

(1) by inserting "(1)" after "(k)";

(2) by inserting "(including expert fees and other litigation expenses) and" after "attorney's fee,";

(3) by striking out "as part of the"; and

(4) by adding at the end thereof the following new paragraphs:

"(2) No consent order or judgment settling a claim under this title shall be entered, and no stipulation of dismissal of a claim under this title shall be effective, unless the parties or their counsel attest to the court that a waiver of all or substantially all attorney's fees was not compelled as a condition of the settlement.

"(3) In any action or proceeding in which any judgment or order granting relief under this title is challenged, the court, in its discretion, may allow the prevailing party in the original action (other than the Commission or the United States) to recover from the party against whom relief was granted in the original action a reasonable attorney's fee (including expert fees and other litigation expenses) and costs reasonably incurred in defending (as a party, intervenor or otherwise) such judgment or order.".

SEC. 10. PROVIDING FOR INTEREST, AND EXTENDING THE STATUTE OF LIMITATIONS, IN ACTIONS AGAINST THE FEDERAL GOVERNMENT.

Section 717 of the Civil Rights Act of 1964 (42 U.S.C. 2000e-16) is amended—

(1) in subsection (c), by striking out "thirty days" and inserting in lieu thereof "ninety days"; and

(2) in subsection (d), by inserting before the period ", and the same interest to compensate for delay in payment shall be available as in cases involving non-public parties, except that prejudgment interest may not be awarded on compensatory damages".

SEC. 11. CONSTRUCTION.

Title XI of the Civil Rights Act of 1964 (42 U.S.C. 2000h et seq.) is amended by adding at the end thereof the following new section:

"SEC. 1107. RULES OF CONSTRUCTION FOR CIVIL RIGHTS LAWS.

"(a) EFFECTUATION OF PURPOSE.—All Federal laws protecting the civil rights of persons shall be interpreted consistent with the intent of such laws, and shall be broadly construed to effectuate the purpose of such laws to provide equal opportunity and provide effective remedies.

"(b) NONLIMITATION.—Except as expressly provided, no Federal law protecting the civil rights of persons shall be construed to repeal or amend by implication any other Federal law protecting such civil rights.

"(c) INTERPRETATION.—In interpreting Federal civil rights laws, including laws protecting against discrimination on the basis of race, color, national origin, sex, religion, age, and disability, courts and administrative agencies shall not rely on the amendments made by the Civil Rights Act of 1990 as a basis for limiting the theories of liability, rights, and remedies available under civil rights laws not expressly amended by such Act.".

SEC. 12. RESTORING PROHIBITION AGAINST ALL RACIAL DISCRIMINATION IN THE MAKING AND ENFORCEMENT OF CONTRACTS.

Section 1977 of the Revised Statutes of the United States (42 U.S.C. 1981) is amended—

(1) by inserting "(a)" before "All persons within"; and

(2) by adding at the end thereof the following new subsections:

"(b) For purposes of this section, the right to 'make and enforce contracts' shall include the making, performance, modification and termination of contracts, and the enjoyment of all benefits, privileges, terms and conditions of the contractual relationship.

"(c) The rights protected by this section are protected against impairment by nongovernmental discrimination as well as against impairment under color of State law.".

SEC. 13. LAWFUL COURT-ORDERED REMEDIES, AFFIRMATIVE ACTION AND CONCILIATION AGREEMENTS NOT AFFECTED.

Nothing in the amendments made by this Act shall be construed to affect court-ordered remedies, affirmative action, or conciliation agreements that are otherwise in accordance with the law.

SEC. 14. SEVERABILITY.

If any provision of this Act, or an amendment made by this Act, or the application of such provision to any person or circumstances is held to be invalid, the remainder of this Act and the amendments made by this Act, and the application of such provision to other persons and circumstances, shall not be affected thereby.

SEC. 15. APPLICATION OF AMENDMENTS AND TRANSITION RULES.

(a) APPLICATION OF AMENDMENTS.—The amendments made by—

(1) section 4 shall apply to all proceedings pending on or commenced after June 5, 1989;

(2) section 5 shall apply to all proceedings pending on or commenced after May 1, 1989;

(3) section 6 shall apply to all proceedings pending on or commenced after June 12, 1989;

(4) sections 7(a)(1), 7(a)(3) and 7(a)(4), 7(b), 8, 9, 10, and 11 shall apply to all proceedings pending on or commenced after the date of enactment of this Act;

(5) section 7(a)(2) shall apply to all proceedings pending on or commenced after June 12, 1989; and

(6) section 12 shall apply to all proceedings pending on or commenced after June 15, 1989.

(b) TRANSITION RULES.—

(1) IN GENERAL.—Any orders entered by a court between the effective dates described in subsection (a) and the date of enactment of this Act that are inconsistent with the amendments made by sections 4, 5, 7(a)(2), or 12, shall be vacated if, not later than 1 year after such date of enactment, a request for such relief is made.

(2) SECTION 6.—Any orders entered between June 12, 1989 and the date of enactment of this Act, that permit a challenge to an employment practice that implements a litigated or consent judgment or order and that is inconsistent with the amendment made by section 6, shall be vacated if, not later than 6 months after the date of enactment of this Act, a request for such relief is made. For the 1-year period beginning on the date of enactment of this Act, an individual whose challenge to an employment practice that implements a litigated or consent judgment or order is denied under the amendment made by section 6, or whose order or relief obtained under such challenge is vacated under such section, shall have the same right of intervention in the case in which the challenged litigated or consent judgment or order was entered as that individual had on June 12, 1989.

(3) FINAL JUDGMENTS.—Pursuant to paragraphs (1) and (2), any final judgment entered prior to the date of the enactment of this Act as to which the rights of any of the parties thereto have become fixed and vested, where the time for seeking further judicial review of such judgment has otherwise expired pursuant to title 28 of the United States Code, the Federal Rules of Civil Procedure, and the Federal Rules of Appellate Procedure, shall be vacated in whole or in part if justice requires pursuant to rule 60(b)(6) of the Federal Rules of Civil Procedure or other appropriate authority, and consistent with the constitutional requirements of due process of law.

(c) PERIOD OF LIMITATIONS.—The period of limitations for the filing of a claim or charge shall be tolled from the applicable effective date described in subsection (a)

until the date of enactment of this Act, on a showing that the claim or charge was not filed because of a rule or decision altered by the amendments made by sections 4, 5, 7(a)(2), or 12.

SEC. 16. COVERAGE OF THE HOUSE OF REPRESENTATIVES.

(a) IN GENERAL.—Notwithstanding any provision of title VII of the Civil Rights Act of 1964 (42 U.S.C. 2000e et seq.) or of other law, the purposes of such title shall, subject to subsections (b) and (c), apply in their entirety to the House of Representatives.

(b) EMPLOYMENT IN THE HOUSE.—

(1) APPLICATION.—The rights and protections under title VII of the Civil Rights Act of 1964 (42 U.S.C. 2000e et seq.) shall, subject to paragraph (2), apply with respect to any employee in an employment position in the House of Representatives and any employing authority of the House of Representatives.

(2) ADMINISTRATION.—

(A) IN GENERAL.—In the administration of this subsection, the remedies and procedures made applicable pursuant to the resolution described in subparagraph (B) shall apply exclusively.

(B) RESOLUTION.—The resolution referred to in subparagraph (A) is House Resolution 15 of the One Hundred First Congress, as agreed to January 3, 1989, or any other provision that continues in effect the provisions of, or is a successor to, the Fair Employment Practices Resolution (House Resolution 558 of the One Hundredth Congress, as agreed to October 4, 1988).

(3) EXERCISE OF RULEMAKING POWER.—The provisions of paragraph (2) are enacted by the House of Representatives as an exercise of the rulemaking power of the House of Representatives, with full recognition of the right of the House to change its rules, in the same manner, and to the same extent as in the case of any other rule of the House.

SEC. 17. OTHER STATUTE OF LIMITATIONS; NOTICE OF RIGHT TO SUE.

(a) STATUTE OF LIMITATIONS.—Section 7(d) of the Age Discrimination in Employment Act of 1967 (29 U.S.C. 626(d)) is amended—

(1) in paragraph (1)—

(A) by striking out "180 days" and inserting in lieu thereof "2 years"; and

(B) by inserting "or has been applied to affect adversely the person aggrieved, whichever is later" after "occurred"; and

(2) in paragraph (2), by striking out "within 300 days" and all that follows through "whichever is earlier" and inserting in lieu thereof "a copy of such charge shall be filed by the Commission with the State agency".

(b) NOTICE OF RIGHT TO SUE.—Section 7(e) of such Act (29 U.S.C. 626(e)) is amended—

(1) by striking out paragraph (2);

(2) by striking out the paragraph designation in paragraph (1);

(3) by striking out "Sections 6 and" and inserting "Section"; and

(4) by adding at the end thereof the following: "If a charge filed with the Commission is dismissed by the Commission, the Commission shall so notify the person aggrieved and within 90 days after the giving of such notice a civil action may be brought against the respondent named in the charge by a person defined in section 11 (29 U.S.C 630).".

SEC. 18. ALTERNATIVE MEANS OF DISPUTE RESOLUTION.

Where appropriate and to the extent authorized by law, the use of alternative means of dispute resolution, including settlement negotiations, conciliation, facilitation, mediation, factfinding, minitrials, and arbitration, is encouraged to resolve disputes arising under the Acts amended by this Act.

The motion was agreed to.

The Senate bill was read a third time, and passed, and a motion to reconsider was laid upon the table.

A similar House bill (H.R. 4000) was laid on the table.

PERMISSION FOR THE COMMITTEE ON EDUCATION AND LABOR TO HAVE UNTIL WEDNESDAY, AUGUST 15, 1990, TO FILE REPORT ON H.R. 4330, THE NATIONAL SERVICE ACT OF 1990

Mr. HAWKINS. Mr. Speaker, I ask unanimous consent that the Committee on Education and Labor may have until 5 p.m. on Wednesday, August 15, to file its committee report on H.R. 4330, the National Service Act of 1990.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from California?

There was no objection.

ADDITION OF NAMES OF MEMBERS AS COSPONSORS OF H.R. 1047

Mr. FAZIO. Mr. Speaker, I ask unanimous consent to add additional names as cosponsors to H.R. 1047.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from California?

There was no objection.

Mr. FAZIO. Mr. Speaker, the names of those Members added as cosponsors are as follows:

Messrs. ACKERMAN, ANDERSON, and BALLENGER, Mrs. BENTLEY, Messrs. BILIRAKIS, BOSCO, BOUCHER, BROWDER, BROWN of Colorado, BUECHNER, BURTON of Indiana, CARPER, CARR, CLARKE, CLEMENT, CLINGER, and COLEMAN of Missouri, Mrs. COLLINS, Messrs. CONTE, CRAIG, CROCKETT, DARDEN, DAVIS, DEFAZIO, DELLUMS, DEWINE, DICKS, DIXON, DORGAN of North Dakota, DUNCAN, FAWELL, FLIPPO, FORD of Tennessee, FRENZEL, GALLO, GEKAS, GEREN of Texas, GILLMOR, GONZALEZ, GORDON.

Messrs. GOSS, GRAY, GUARINI, HAYES of Illinois, HEFNER, HENRY, HILER, HUTTO, AND HYDE, Mrs. JOHNSON of Connecticut, Messrs. JOHNSON of North Dakota, JONES of North Carolina, and KASICH, Mrs. KENNELLY, Messrs. KLECKZA, KOSTMAYER, LAFALCE, LANTOS, LEHMAN of Florida, LEVINE of California, LEWIS of California, LOWERY of California, DONALD E. "BUZ" LUKENS, and MACHTLEY, Mrs. MARTIN of Illinois, Messrs. MARTINEZ, MCCULLUM, MCDADE, MCEWEN, MCHUGH, and MILLER of Washington, Mrs. MORELLA, Messrs. MRAZEK, MURPHY, NAGLE, NEAL of Massachusetts, NEAL of North Carolina, NEILSON of Utah, and NOWAK, and Ms. OAKAR.

Messrs. OWENS of Utah, PACKARD, and PARKER, Mrs. PATTERSON, Messrs. PAYNE of Virginia, PICKETT, PICKLE, PORTER, POSHARD, RAHALL, RAVENEL, RHODES, RINALDO, ROSE, ROWLAND of Georgia, ROWLAND of Connecticut, and SABO, Mrs. SAIKI, Messrs. SARPALIUS, SCHAEFER, SCHEUER, and SCHIFF, Ms. SCHNEIDER, Mr. SHAYS, Ms. SLAUGHTER of New York, Messrs. SMITH of New Hampshire, SMITH of New Jersey, DENNY SMITH, SMITH of Florida, and SMITH of Iowa, Ms. SNOWE, Messrs. SPRATT, STAGGERS, STENHOLM, STUDDS, STUMP, TAUZIN, THOMAS of Wyoming, TOWNS, TRAFICANT, and UDALL, Mrs. UNSOELD, Mr. VENTO, Mrs. VUCANOVICH, and Messrs. WALGREN, WHITTAKER, WILSON, WISE, WOLF, WOLPE, WYLIE, and YOUNG of Alaska.

TEMPORARY INCREASE IN THE PUBLIC DEBT LIMIT

Mr. GORDON. Mr. Speaker, by direction of the Committee on Rules, I call up House Resolution 448 and ask for its immediate consideration.

The Clerk read the resolution, as follows:

H. RES. 448

Resolved, That upon adoption of this resolution it shall be in order to consider in the House the bill (H.R. 5350) to provide for a temporary increase in the public debt limit. Debate on the bill shall continue not to exceed one hour, equally divided and controlled by the chairman and ranking minority member of the Committee on Ways and Means. It shall be in order to consider an amendment offered by Representative Rostenkowski of Illinois and the previous question shall be considered as ordered on the bill and amendment to final passage without intervening motion except one motion to recommit. All points of order against the bill and amendment for failure to comply with the provisions of clause 5(a) of rule XXI are hereby waived.

The SPEAKER pro tempore. The gentleman from Tennessee [Mr. GORDON] is recognized for 1 hour.

Mr. GORDON. Mr. Speaker, I yield the customary 30 minutes for purposes of debate only to the gentleman from California [Mr. PASHAYAN], and pending that I yield myself such time as I may consume.

Mr. Speaker, House Resolution 448 provides for the consideration in the House of the bill, H.R. 5350, which provides for a temporary increase in the public debt limit.

The rule provides for 1 hour of debate to be equally divided and controlled by the chairman and ranking minority member of the Committee on Ways and Means.

The rule makes in order an amendment by Representative ROSTENKOWSKI and waives clause 5(a) of rule 21 against the bill and the amendment. Finally, the rule provides one motion to recommit.

Mr. Speaker, House Resolution 440 is a rule designed to give the House

flexibility as we await the deliberation of the other body on H.R. 5355, the long-term debt limit extension.

H.R. 5350 extends the public debt limit to $3.195 trillion only through October 15. After October 15 the public debt reverts to its current limit of $3.122 trillion.

The rule also allows Chairman ROSTENKOWSKI to offer an amendment which would change the reversion date and make a conforming change in the debt limit amount to reflect any agreement reached with the administration or the other body.

Mr. Speaker, we must act on the debt limit before we recess to avoid the U.S. Government defaulting on its debt for the first time in its history.

I urge my colleagues to join me in adopting House Resolution 448 so we may proceed with consideration of H.R. 5350.

Mr. PASHAYAN. Mr. Speaker, House Resolution 448 is a modified closed rule under which the House shall consider legislation that temporarily increases the public debt by $72.3 billion through October 15, 1990. The bill made in order by this rule, H.R. 5350, is the short-term increase in the statutory limit on the public debt, which the Committee on Ways and Means reported 1 week ago.

□ 1420

The minority leader, the gentleman from Illinois [Mr. MICHEL] asked me to announce to the Members that he supports adoption of this rule and passage of a bill with a date of October 2.

Mr. Speaker, the gentleman from Tennessee [Mr. GORDON] has covered the basic items in this rule, and he has done an admirable job. There are, however, a few additional things that should be mentioned about the procedure being employed here.

Mr. Speaker, the rule makes in order an amendment to be offered by the chairman of the Committee on Ways and Means, the gentleman from Illinois [Mr. ROSTENKOWSKI]. The text of the amendment was not available in the Committee on Rules when it considered the gentleman's request, and we accorded him the opportunity to delay filling in the blanks until this rule shall be called up for consideration.

Mr. Speaker, the gentleman from Illinois [Mr. MICHEL] asked me to announce to the Members that the Republican leadership's position on the final passage of the bill depends on the language of the amendment of the gentleman from Illinois [Mr. ROSTENKOWSKI].

Mr. Speaker, the rule provides for one motion to recommit, which will be offered by the ranking Republican Member of the Committee on Ways and Means, the gentleman from Texas [Mr. ARCHER]. Since the text of the Rostenkowski amendment was not available when the Committee on Rules considered this rule, the text of the amendment of the gentleman from Texas [Mr. ARCHER] was also not available. In this regard, the Archer motion to recommit, if it indeed shall be offered, will be the Republican position on the issue of the dollar amount and expiration date of the temporary increase in the public debt.

I must say again, Mr. Speaker, that the rule treats the gentleman from Illinois [Mr. ROSTENKOWSKI] and the gentleman from Texas [Mr. ARCHER] equally. They asked for time to negotiate the dollar amount of the debt-limit increase, and they asked for time to negotiate the expiration date. The Committee on Rules places no impediments on either gentleman in the rule.

Mr. Speaker, before I conclude my remarks on the rule, I should like briefly to mention a few items about the legislation itself and the need for its eventual passage before the House adjourns for the August district work period and vacation. I point out the side of the argument of the administration which estimates that, unless the permanent debt limit of $3.122 trillion shall be increased, the Treasury will run out of cash and borrowing authority in mid-August.

Mr. Speaker, the American people are rightly concerned about the Government's ever-rising tide of debt. Indeed, many Members in the Chamber today oppose the idea of allowing the Federal Government to continue to borrow, because when the Government shall borrow, the debt will rise and eventually will reach the legal ceiling.

The periodic need to extend the debt ceiling arises from the cumulative deficits of the Federal Government. Raising revenues and selling Government bonds to the public, the Federal reserve system and foreign investors are the chief ways the Government finances the debt and fulfills the commitments of its fiscal policy. As the Government continues to borrow, however, the debt rises and eventually reaches the congressionally imposed ceiling.

Mr. Speaker, this is what I shall call a boy scout's rule. The chairman of the Committee on Ways and Means, the gentleman from Illinois [Mr. ROSTENKOWSKI], asked us to be prepared. The ranking member of the Committee on Ways and Means, the gentleman from Texas [Mr. ARCHER], asked us to be prepared. The Republican leader, the gentleman from Illinois [Mr. MICHEL], asked us to be prepared. Well, Mr. Speaker, the Committee on Rules is answering the call to be prepared in this rule.

Mr. Speaker, I yield 2 minutes to the gentleman from Minnesota [Mr. FRENZEL].

Mr. FRENZEL. Mr. Speaker, this is the normal rule used in handling debt ceiling bills. As most Members know, the long-term debt ceiling has gone forward to an uncertain future. It is now necessary to pass the short-term debt ceiling.

Mr. Speaker, I urge passage of the rule.

Mr. PASHAYAN. Mr. Speaker, having no further requests for time, I yield back the balance of my time.

Mr. GORDON. Mr. Speaker, I have no further requests for time, and I move the previous question on the resolution.

The SPEAKER pro tempore (Mr. HOYER). The question is on ordering the previous question.

The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

Mr. WALKER. Mr. Speaker, I object to the vote on the ground that a quorum is not present and make the point of order that a quorum is not present.

The SPEAKER pro tempore. Evidently a quorum is not present.

The Sergeant at Arms will notify absent Members.

The vote was taken by electronic device, and there were—yeas 284, nays 131, not voting 17, as follows:

So the resolution was agreed to.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

Mr. ROSTENKOWSKI. Mr. Speaker, pursuant to the provisions of House Resolution 448, I call up the bill (H.R. 5350) to provide for a temporary increase in the public debt limit, and ask for its immediate consideration.

The Clerk read the bill, as follows:

H.R. 5350

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. TEMPORARY INCREASE IN PUBLIC DEBT LIMIT.

During the period beginning on the date of the enactment of this Act and ending on October 15, 1990, the public debt limit set forth in subsection (b) of section 3101 of title 31, United States Code, shall be temporarily increased to $3,195,000,000,000.

The SPEAKER pro tempore (Mr. HOYER). Under the rule, the gentleman from Illinois [Mr. ROSTENKOWSKI] will be recognized for 30 minutes, and the gentleman from Texas [Mr. ARCHER] will be recognized for 30 minutes.

The Chair recognizes the gentleman from Illinois [Mr. ROSTENKOWSKI].

Mr. ROSTENKOWSKI. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, on Tuesday, the House passed H.R. 5355, a long-term extension of the public debt ceiling. The bipartisan leadership and the administration have requested that the House pass a short-term extension of the debt limit in the event that the Senate is unable to pass H.R. 5355.

At the bipartisan leadership's request, the Committee on Ways and Means has favorably reported H.R. 5350, which provides a short-term extension of the debt ceiling through October 15. Specifically, this bill would temporarily increase the public debt limit by $72 billion dollars to $3.195 trillion. On October 16, the limit would revert back to the present law limit of $3.123 trillion. At the close of general debate, I intend to offer an amendment to change the date to October 2.

The short-term debt ceiling extension is an essential bill that must be enacted before Congress can adjourn for the August recess. Failure to enact the bill would result in disastrous economic, political, and financial consequences. Thus, it is in the best interest of the country to pass this bill quickly and to pass it cleanly.

Mr. Speaker, I urge support for the amendment and for passage of the bill.

Mr. Speaker, I reserve the balance of my time.

Mr. ARCHER. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I do not think any of us are surprised that we have come to the point of considering a short-term extension of the debt limit before the Congress goes into the August recess.

When the House passed its amended long-term version on Tuesday, it did so with the expectation—and perhaps even the hope—that the Senate would follow suit and use it as the vehicle for nongermane amendments in that body.

It appears that we are about to send them another vehicle—and somehow I just have to believe that they're going to want to load it down instead.

I sympathize with those Members of both parties who have been critical of this annual ritual of festooning emergency legislation with major policy changes. It is indeed a terrible way to conduct the affairs of the Nation—but it is also as predictable as the sunrise.

As a result of the committee's amendment moving the expiration of the debt limit to October 2—the short-term provision before us at least is a significant improvement over the October 15 expiration date.

My own strong preference remains a clean, uncluttered long-term limit. It is with great reluctance that I intend to support this clean short-term extension to October 2.

I will not, however, I repeat, will not support any debt limit bill returning from the Senate, short-term or long-term, which is anything other than a clean extension.

The prospects for a budget agreement are at best in doubt. Years of congressional refusal to reduce our dependency on imported oil have allowed the outrageous action by Iraq to pose a clear threat to the fragile energy base of our economy.

The last thing we need is the injection of uncertainly and instability into the core issue of extending the ability of our Government to borrow the funds it needs to meet its obligations.

The financial markets are jittery enough already. We must send a strong message to the Senate that we will not engage in an irresponsible game of legislative ping pong with this legislation today.

Enacting a clean debt limit extention will not eliminate the fears that pervade the marketplace today, but it may lower the stakes a bit by showing that we can act responsibly when pressed to do so.

With any luck, that in turn can serve as a catalyst for us to get deficit reduction back on track, and avoid the potentially disastrous consequences of failing to come to agreement.

Mr. Speaker, I reserve the balance of my time.

AMENDMENT OFFERED BY MR. ROSTENKOWSKI

Mr. ROSTENKOWSKI. Mr. Speaker, I offer an amendment.

The Clerk read as follows:

Amendment offered by Mr. ROSTENKOWSKI: On the first page, line 5, strike "October 15, 1990" and insert "October 2, 1990".

Mr. ROSTENKOWSKI. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, this amendment to H.R. 5350 is very simple. It changes the date from October 15 to October 2. Consequently, the public debt limit will revert back to $3.123 trillion on Wednesday, October 3.

This date was chosen after consulting with the bipartisan leadership and the administration. I believe this date offers the best chance of Congress adjourning for the August recess.

I urge support for this amendment.

Mr. ARCHER. Mr. Speaker, I support the amendment, as I mentioned in my previous statement.

Mr. Speaker, I yield 3 minutes to the gentleman from Minnesota [Mr. FRENZEL] a highly regarded member of the Committee on Ways and Means.

Mr. FRENZEL. Mr. Speaker, as our distinguished ranking member, the gentleman from Texas [Mr. ARCHER] has said, this bill before us is not desirable, but it is necessary.

The long-term debt limit which we sent to the Senate earlier in the week is not coming back. We need to have a short-term debt limit bill to keep the country going while the Congress stands in recess.

Debt ceilings are a pain in the neck to all of us. They serve no purpose, save to offer an opportunity for mischief to the other body. I am afraid this one may be the same kind of opportunity, but we must send it over.

The amendment of the gentleman from Illinois [Mr. ROSTENKOWSKI] needs to be adopted. It was by request of both parties. I hope this bill will be swiftly passed in spite of our natural aversion to working on this kind of legislation.

Mr. ARCHER. Mr. Speaker, I yield such time as he may consume to the gentleman from Illinois [Mr. MICHEL] the minority leader of the House.

Mr. MICHEL. Mr. Speaker, of course I certainly support this short-term debt limit increase, and particularly to the date now, as amended, to October 2.

I had hoped that earlier this week the House would have passed an unamended long-term extension of the debt, as had been the wish of the administration. That, however, was not the case, and the House instead passed a long-term debt limit with an amendment to take the Social Security trust fund out of Gramm-Rudman deficit calculations.

Now we have to wait for the other body to work its will, and work out the differences between the two bodies. It does not seem possible, obviously, that this can be accomplished in the short time before Congress plans to adjourn for our August recess. Therefore, we are now faced with a temporary extension of that limit.

□ 1510

As I stated earlier last week, Secretary Brady, in a letter to me, said that we are going to run out of cash and

borrowing authority on August 15. Then the Federal Government would be obliged to default on its obligations if Congress does not act before it leaves for our break.

So, to make absolutely sure that this does not occur and with all our other attendant problems, we certainly do not need one of this dimension, were we not to pass this temporary debt ceiling. So I would urge Members to close ranks and support this temporary extension. By October 1, let us see where we are. Hopefully, the submitters will have gotten together, and reached an accord to an agreement so that by October 1, we can put everything to bed before we face what could very well be an unconscionable sequester.

Mr. ARCHER. Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore (Mr. HOYER). Under the rule, the previous question is ordered on the bill and the amendment.

The question is on the amendment offered by the gentleman from Illinois [Mr. ROSTENKOWSKI].

The amendment was agreed to.

PARLIAMENTARY INQUIRY

Mr. WALKER. Mr. President, the question was on the amendment and not on the bill?

The SPEAKER pro tempore. The gentleman is correct, the question was on the amendment.

The question is on the engrossment and third reading of the bill.

The bill was ordered to be engrossed and read a third time, and was read the third time.

The SPEAKER pro tempore. The question is on passage of the bill.

The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

Mr. WALKER. Mr. Speaker, I object to the vote on the ground a quorum is not present and make the point of order a quorum is not present.

The SPEAKER pro tempore. Evidently, a quorum is not present.

The Sergeant at Arms will notify absent Members.

The vote was taken by electronic device, and there were—yeas 247, nays 172, not voting 13, as follows:

□ 1530

The Clerk announced the following pair:

On this vote:

Mr. Nelson of Florida, for, with Mr. Pursell against.

Mr. BATES changed his vote from "yea" to "nay."

Mr. TORRES changed his vote from "nay" to "yea."

So the bill, as amended, was passed.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

PERSONAL EXPLANTION

HON. WILLIAM LEHMAN

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Friday, August 3, 1990

Mr. LEHMAN of Florida. Mr. Speaker, although I was present and voted during rollcall No. 313, for some reason my vote was not recorded electronically. I want the RECORD to show that I was indeed present and voted "yes."

GENERAL LEAVE

Mr. GIBBONS. Mr. Speaker, I ask unanimous consent that all Members have 5 legislative days in which to revise and extend their remarks on the bill just passed.

The SPEAKER pro tempore (Mr. HOYER). Is there objection to the request of the gentleman from Florida?

There was no objection.

GET OUT OF THE HALLWAYS AND LET US VOTE

Mr. ROBERTS. Mr. Speaker, I ask for this 1-minute because I think it is time to restore some dignity to this House and make it possible for Members of this body to come to the floor and vote without going through what has become a virtual gauntlet of noisy, determined, grabbing, partisan, hot and bothered, and, sometimes, rude crowd that is clogging the entrance of this Chamber on this side and that side.

Mr. Speaker, 3 years ago for security reasons we emptied the entranceways to this Chamber. We were worried about the safety of Members. We asked the Sergeant at Arms to clear the hallway, and he did.

Mr. Speaker, this is the people's House. I have no quarrel with anyone who wants to visit with me or any Member in my office, on the grounds, in the Halls, in the Speaker's Reception Room, in the trees, behind the bushes, wherever. I do not care. However, Mr. Speaker, the way it has been today and on previous occasions, we cannot even get through the hallway to vote without endangering life, limb, cufflinks, earrings, and going through a tackle drill like the Washington Redskins.

Get out of the hallways, and let us vote.

PROVIDING FOR ADJOURNMENT OF THE HOUSE FROM FRIDAY, AUGUST 3, 1990, TO WEDNESDAY, SEPTEMBER 5, 1990, AND ADJOURNMENT OR RECESS OF THE SENATE FROM ANY DAY BETWEEN AUGUST 3 AND AUGUST 10, 1990, TO SEPTEMBER 10, 1990

Mr. GRAY. Mr. Speaker, I offer a privileged concurrent resolution (H. Con. Res. 360) and ask for its immediate consideration.

The Clerk read the concurrent resolution, as follows:

H. CON. RES. 360

Resolved by the House of Representatives (the Senate concurring), That when the House adjourns on the legislative day of Friday, August 3, 1990, it stand adjourned until 12 o'clock meridian on Wednesday, September 5, 1990, or until 12 o'clock meridian on the second day after Members are notified to reassemble pursuant to section 2 of this concurrent resolution, whichever occurs first; and that when the Senate recesses or adjourns on any day from Friday, August 3, 1990, to Friday, August 10, 1990, pursuant to a motion made by the Majority Leader, or his designee, it stand in recess or stand adjourned until 10 o'clock ante meridiem on Monday, Septemter 10, 1990, or until 12 o'clock meridian on the second day after Members are notified to reassemble pursuant to section 2 of this concurrent resolution, whichever occurs first.

SEC. 2. The Speaker of the House and the Majority Leader of the Senate, acting jointly after consultation with the Minority Leader of the House and the Minority Leader of the Senate, shall notify the Members of the House and the Senate, respectively, to reassemble whenever, in their opinion, the public interest shall warrant it.

The concurrent resolution was agreed to.

A motion to reconsider was laid on the table.

PROVIDING FOR CONSIDERATION OF H.R. 5400, CAMPAIGN COST REDUCTION AND REFORM ACT OF 1990

Mr. BONIOR. Mr. Speaker, by direction of the Committee on Rules, I call up House Resolution 453 and ask for its immediate consideration.

The Clerk read the resolution, as follows:

H. RES. 453

Resolved, That at any time after the adoption of this resolution the Speaker may, pursuant to clause 1(b) of rule XXIII, declare the House resolved into the Committee of the Whole House on the State of the Union for the consideration of the bill (H.R. 5400) to amend the Federal Election Campaign Act of 1971 and certain related laws to clarify such provisions with respect to Federal elections, to reduce costs in House of Representatives elections, and for other purposes, and the first reading of the bill shall be dispensed with. All points of order against consideration of the bill are hereby waived. After general debate, which shall be confined to the bill and the amendments made in order by this resolution and which shall not exceed two hours, to be equally divided and controlled by the majority leader and the minority leader, or their designees, the bill shall be considered for amendment under the five-minute rule. It shall be in order to consider an amendment in the nature of a substitute consisting of the text printed in part one of the report of the Committee on Rules accompanying this resolution as an original bill for the purpose of amendment under the five-minute rule, said substitute shall be considered as having been read, and all points of order against said substitute are hereby waived. No amendment to said substitute shall be in order except (1) the amendments printed in part two of the report of the Committee on Rules which shall be considered en bloc and (2) an amendment in the nature of a substitute submitted to the Congressional Record of August 2, 1990, by Representative Michel of Illinois. The amendments shall be considered in that order and shall be debatable for one hour each, equally divided and controlled by the proponent and a Member opposed thereto. The amendments shall not be subject to amendment and all points of order against the amendments are hereby waived except those under clause 7 of rule XVI. The amendments en bloc printed in the report of the Committee on Rules shall not be subject to a demand for a division of the question in the House or in the Committee of the Whole. At the conclusion of the consideration of the bill for amendment, the Committee shall rise and report the bill to the House with such amendments as may have been adopted, and any Members may demand a separate vote in the House or any amendment adopted in the Committee of the Whole to the bill or the amendment in the nature of a substitute made in order as original text by this resolution. The previous question shall be considered as ordered on the bill and amendments thereto to final passage without intervening motion except one motion to recommit.

□ 1540

The SPEAKER pro tempore (Mr. HOYER). The gentleman from Michigan [Mr. BONIOR] is recognized for 1 hour.

Mr. BONIOR. Mr. Speaker, for the purpose of debate only, I yield the customary 30 minutes to the gentleman from Tennessee [Mr. QUILLEN], pending which I yield myself such time as I may consume.

Mr. Speaker, campaigns cost too much. Spending on elections is out of control for both incumbents and challengers.

We are forced to spend too much time raising money under our current system of electoral financing.

In 1988, there were 20 House races which cost at least $1 million. Today, the average Senate campaign costs $4 million.

It is time for a change.

In the last decade, the cost of television advertising has tripled. The average campaign now spends half its funds on advertising.

It is time for a change.

The American people will no longer tolerate business as usual.

It is time for a change.

Today we have a chance to consider legislation, H.R. 5400, which will restructure the business of electing Congress.

Changing the rules of the game is uncomfortable. It leads to uncertainty.

But there can be no doubt. Strong campaign finance reform legislation is a must.

H.R. 5400 is a good bill.

It establishes a $550,000 spending limit for each election cycle. Of that total, no candidate could accept more than half of their funds from PAC's.

It closes the soft money loophole by prohibiting presidential candidates from soliciting or receiving any soft money, and requires full disclosure of soft money spending in federal elections.

It would allow small-donor PAC's to contribute up to $5,000 per election, but limit high-donor PAC's to $1,000.

And finally, H.R. 5400 would tighten the regulations on independent expenditures, and discourage negative campaign advertising.

Under the rule we will consider today, we will also make in order the Synar-Obey amendment. It would further restrict PAC contributions to only 40 percent of the half-million-dollar limit, and cut individual contributions to $500.

Perhaps most importantly, it would provide a match of up to $100,000 in public financing for contributions of $50 or less.

We will never break the addiction to electoral fundraising until we have public financing.

The rules of the game must be made fair, even as we allow for maximum participation in our democratic system.

H.R. 5400 will help us end the money chase that threatens our political process.

It is good government, good politics, and common sense.

Mr. Speaker, House Resolution 453 is a modified closed rule that waives all points of order against consideration of the bill.

Debate time is divided between the majority leader and the minority leader or their designees.

The rule makes in order the amendment in the nature of a substitute now printed in the report accompanying this resolution as original text. General debate is limited to 2 hours.

No amendment to the substitute is in order except: First, the Synar-Obey amendments en bloc, and second, the Michel amendment in the nature of a substitute. Each amendment is debatable for an hour.

The amendments are not subject to amendment, and all points of order against their consideration are waived except for clause 7 of rule 16, pertaining to germaneness.

The rule provides for one motion to recommit.

House Resolution 453 permits immediate consideration of one of the most important pieces of legislation we will consider in this Congress.

I urge my colleagues to support it.

Mr. QUILLEN. Mr. Speaker, I yield myself as much time as I may use.

Mr. Speaker, the rule has been ably explained, but I think here at this late hour of the day when we are supposed to adjourn for a district work period, bringing such mammoth legislation to the floor is really asinine.

We all want campaign reform, but why cram it down our throats with no opportunity to amend? It should be brought to the floor of the House under an open rule.

I pleaded with the Rules Committee to grant an open rule and made a motion for an open rule, but it was defeated.

Mr. Speaker, I also made a motion that we postpone action in reporting the rule, and that was defeated.

Haste makes waste. I personally want campaign reform, but why not hammer out a nonpartisan campaign reform where Republicans and the Democrats can all get together? Why fight about it?

I recommend that we defeat this rule so that we can come back after our August work period and get down to the business of passing a meaningful campaign reform bill.

Mr. Speaker, I have several requests for time, but I want to stress to the membership that it is folly, folly, folly to bring this measure up today under this rule. I voted against this rule in the Rules Committee and I will vote against this rule on the floor of the House.

Mr. Speaker, I yield 4 minutes to the gentleman from New York [Mr. SOLOMON].

Mr. SOLOMON. Mr. Speaker, I thank the ranking Republican leader for yielding me this time.

Mr. Speaker, I would join with the ranking Republican on the Rules Committee to denounce this travesty here on the floor today. This rule should be defeated soundly. If the rule does manage to get approved, then the bill itself, H.R. 5400, ought to be defeated, too.

The distinguished Republican whip, the gentleman from Georgia [Mr. GINGRICH], said it very well yesterday in his testimony at the Rules Committee:

To consider a so-called reform bill at the 11th hour under this kind of a closed rule suggests that the need for reform goes far beyond the issue of campaign financing.

And he was so right.

Mr. Speaker, this bill was introduced on Wednesday evening. It was not considered by any committee of original jurisdiction. As a matter of fact, prior to its introduction on Wednesday, it had not even been seen by any Members except those who are privy to the inner sanctum of the Democrat Party leadership.

Mr. Speaker, it goes without saying that the prospects of such a partisan document actually getting enacted into law are very slim indeed.

Do you really want campaign reform? But that is not the issue right now. What is the issue is the continued abuse and the trivialization of the rules and procedures of this House. How long is this going to go on? Here we are, confronted again with yet another closed rule, a rule that denies the minority its instructions, a right to offer a motion to recommit with instructions, a right that we have had since 1913; and those rules have not been changed in this House.

I noted yesterday during the debate on the rule for the civil rights bill that the precedent which permits the minority to offer a motion to recommit with instructions in all rules, open or closed, goes back to 1913. I said further that it has only been recently that this precedent has been regularly reversed.

Let me cite some statistics, and believe me, you gentleman on that side of the aisle who really should be fair, must listen. In the 95th Congress, the 96th Congress, the 97th Congress, and the 98th Congress, between 1977 and 1985, this House considered a total of 696 rules. Only one of those rules, just one rule in a period of 8 years, restricted the right of the minority to offer a motion to recommit with instructions. Just one, in 8 years.

Mr. Speaker, how times have changed. Since the beginning of the 99th Congress in 1985, the House has passed 41 rules which restrict this traditional minority right. The rule today is the 12th such rule this Congress, and Mr. Speaker, it has handcuffed this minority by depriving us of this right.

Mr. Speaker, I will close by citing a personal illustration of why what we are doing here today is so wrong. I have not told our colleague, the gentleman from Florida [Mr. BENNETT], who is sitting in the front row here, that I am going to do this, but with the gentleman's indulgence I would like to tell the House something about him.

The gentleman from Florida [Mr. BENNETT] is one of the most senior and respected Members of this House. He has more character and integrity than most of the rest of us put together. Last November, when the Rules Committee considered the congressional ethics reform package, the gentleman from Florida [Mr. BENNETT] requested permission to offer an amendment that would ban—listen to this—Member-controlled PAC's from making contributions to other Members.

□ 1550

He was fluffed off by the Committee on Rules and told to come back when the campaign finance reform bill was going to come up. So he came back yesterday, almost a year later, and he was fluffed off again, this highly respected Member.

That is what is wrong with this whole process here today. This exercise today is a wretched travesty. This rule should be defeated. We should come back on this floor and let Members like me offer an amendment to wipe out all PAC's, from unions, from corporations, from anybody. Let us get some real reform on this floor. And let us debate it out here honestly and openly.

I hope we defeat this rule.

Mr. BONIOR. Mr. Speaker, for purposes of debate only, I yield 5 minutes to the gentleman from Wisconsin [Mr. OBEY].

Mr. OBEY. Mr. Speaker, I thank the gentleman for yielding me this time.

Mr. Speaker, let me simply say that I have been involved in campaign finance reform efforts in this place for the last 15 years. The last campaign reform bill which passed the House bore my name. It was the Obey-Railsback amendment, and I am proud of that.

The fact is that that 15 years of experience on this issue has taught me a lot of things, and it has enabled me to

take with a grain of salt a lot of what I hear on this issue.

I simply would like to strongly support this rule and tell the Members why I think this kind of a rule is essential to move reform forward.

First of all, I want to ask the question: Who is kidding whom? There is literally no one in the House for whom I have more respect than the distinguished minority leader, and I heard him suggest in the Committee on Rules, and I heard others suggest from the minority side of the aisle, that we ought to slow this down, we ought not do this this week, we ought to wait until we get back from the August recess. I would not mind that comment if I had not read in the papers, just Monday of this week, stories indicating that the Republican leadership was fully prepared to make an attack on the Democratic Party in this House if we did leave without passing campaign reform.

It seems to me that in the eyes of the minority we are damned if we do and damned it we don't, so as long as that is the case, we might as well do. We might as well move forward and pass this bill while we have a chance.

The second point I want to make is simply this. The argument is made, "Oh, gee whillakers, we have got to have an open rule so that we can really scrub up these alternatives and improve them." I have been around here long enough to know that the best way you guarantee that reform is killed is to have an open rule, because campaign finance systems are very much like ecosystems. They are very complicated. One piece of the environment depends upon another, just as one piece of campaign finance legislation depends upon how it fits in with another piece. And the surest way to kill any meaningful reform is to let Democrats pull out by a vote a key piece in a Republican package, or to let Republicans pull a key piece out of a Democratic package. That is the way you destroy the cohesion and the intelligent rationale which has gone into building both the Republican and the Democratic approaches.

The other point I would simply like to make is this: We are here trying to change the existing law, because the Supreme Court did not operate under a closed rule. The problem is that the public today seems to think that the Congress designed the existing system. We did not. We designed the reform package, and then what happened is the Court picked a little piece here and it picked a little piece there, it kept these, it threw out those, and it produced a system which makes no intellectual sense.

That is why it is necessary, if you are going to have a system which makes sense to the taxpayer and gives middle class people an even break in influencing events on this floor, it is essential that you keep these alternatives together as packages. That is why this rule makes sense. It protects the intellectual integrity of the Republican package. It protects the intellectual integrity of the Democratic package, or of the Swift package, I should say, the original bill off which we are both working, and it protects the integrity of the Democratic alternative to the Swift package.

We will be able to choose between three packages. The debate will determine who wins the debate, who persuades enough Members to win votes on this floor. But the idea that we should somehow proceed under an open rule is ludicrous if you have followed the history of reform as long as I have.

Every major reform in this House, whether it be campaign finance legislation or changes in the way we run this House itself, every major step forward in improving the rules of the House or the rules under which we campaign has come under structured rules so that we cannot play the game of pulling out this piece there and this piece there and destroying the integrity of the process in the first place.

So I congratulate the Committee on Rules for coming up with this rule. I think it is essential that we do this, if we are really going to move reform forward.

I urge the Members to vote yes on the rule.

Mr. BONIOR. Mr. Speaker, I yield such time as she may consume to the gentlewoman from New York [Ms. SLAUGHTER].

Ms. SLAUGHTER of New York. Mr. Speaker, I rise in strong support of this rule. I urge its adoption for the improvement of the political process.

Mr. Speaker, today I am proud to introduce with Representative BARBARA BOXER the Violence Against Women Act. Through this legislation we are taking a tough stand against this heinous but all-too-common type of violent crime.

In the United States today, a woman is beaten every 18 seconds; raped or attempted to be raped every 3½ minutes; and murdered by a husband or boyfriend every 6 hours. In 1989 alone, the Rochester police in my own district reported 3,886 domestic violence offenses. Rape is the fastest growing crime in our country, and it's estimated that 50 to 90 percent of all rapes are never reported to the police. In Rochester, calls to a rape crisis hotline have increased an average of 15.3 percent each year from 1980 to 1989, and 47 percent of the callers do not report the attack to the police. These shocking statistics demand that our judicial system enact legislation on the Federal and State level to break this cycle of violence against women.

The Violence Against Women Act increased Federal penalties and sentences for those convicted of sex offenses. It doubles sentences for repeat offenders. This is critical because rape is the crime with the highest rate of recidivism, according to Linda Fairstein, the head of the Manhattan district attorney's sex crimes unit.

The bill requires attackers to make financial compensation to their victims, and for the first time would make victims of violence based on their gender eligible for the compensatory and punitive damages available to others whose civil rights have been violated. The bill provides grants to governments in areas of high intensity crime to develop effective law enforcement and prosecution strategies to combat violent crimes against women and creates a commission to study violent crime against women.

These and the other provisions of this bill will be effective only if they are copied and adopted by every State. They certainly will make a difference to the victims in my congressional district if New York adopts similar legislation.

This year, Arthur Shawcross was arrested and indicted for murdering 10 women in the Rochester area. Outrage mounted when it became known that in 1972, Shawcross had been convicted of raping and murdering a little girl, sent to prison, and paroled after only 15 years. He was on parole for other crimes when he committed the 1972 murder. Had New York State enacted legislation like the bill we are introducing today, sentencing guidelines would have required that Shawcross have served at least 18 years for the rape and murder. He would still be in prison now, and the 10 women he is accused of murdering might still be alive today.

This July, the Rochester Democrat and Chronicle ran a superb, thought-provoking five-part series on violence against women. For six months, reporters Susan McNamara and Deborah Fineblum Raub researched these articles, interviewing experts on law, counselors, victims, and violent men who have attacked women. I commend these reporters, the newspaper, and photographer Karen Mitchell for devoting so much time and space in the paper to promoting public awareness of this critical issue.

The series highlights the extent of the problem, the many effects of violence against women, and the avenues available for help. It sympathetically and concisely discusses the facts and feelings of victims such as Kathy Corey, who was brave enough to come forward and prosecute the man who raped her in 1977, and who now volunteers to counsel other rape victims on how to recover from this terrible crime. The series echoes the reasons why last year and again this year I introduced legislation designating October as National Domestic Violence Awareness Month. If we can begin talking about the dimensions of the problem we can begin pursuing a solution.

I recommend the Democrat and Chronicle series to anyone interested in learning about the extent and horror of violence against women. Because this issue is so important, and because this series so eloquently examines violence against women, I am including in the RECORD excerpts from this extraordinary series.

I hope that Congress will set an example to States by toughening Federal law setting the consequences for those who attack women and by working with local police to stop the

problem. We can do that by passing the Violence Against Women Act.

[From the Rochester Democrat and Chronicle, July 11, 1990]

MANY SHARE A CYCLE OF PAIN

(By Deborah Fineblum Raub)

This was absolutely the last time she would let her husband beat her, Gloria said, eyes puffy and red from a night of crying.

But, she admitted, she has said that before.

In fact, after every beating she swears she'll never let it happen again. Then, in the morning, thinking about her children's need for their father, her own financial helplessness, and the fervor of her husband's apologies, she forgives him . . . again.

And the cycle of domestic violence begins again in the night of Gloria's suburban Rochester home.

"Everything will be fine for a while, then it starts all over," she said.

The accusations: "I'm a lousy mother, I'm a lousy housekeeper and cook, I'm being unfaithful * * * I am a nothing." And then come the beatings.

Cheryl and Jill are seated near Gloria (not their real names) in the living room of the Alternatives for Battered Women shelter. "'You're just a nothing,' that's exactly what my boyfriend says to me before he slaps me around," said Cheryl.

These women are not alone. Domestic violence—committed by a husband or boyfriend, ex-husband or ex-boyfriend—is the most common violent crime against women.

Consider the following:

Domestic violence is the most frequent cause of injury to women, more prevalent than auto accidents, rapes and muggings combined, according to former U.S. surgeon general C. Everett Koop.

Men commit 91 percent of all assaults on their spouses or ex-spouses.

Twenty percent of visits by women to emergency medical services are caused by battering.

DOMESTIC ABUSE IS ALL TOO COMMON

Forty percent of divorce cases in the New York State cite physical violence as the reason for termination of marriage.

Four women die each day in the United States from domestic abuse.

In the 10 months of 1989 for which figures were compiled the Rochester Police Department reported 3,886 domestic violence offenses, up from 2,071 in 1988. "And these number are just a fraction of all the women who get abused; most of them don't ever report to authorities," said Diana Compos, project director for the state-side Spanish-language domestic violence hotline.

Experts say that even those episodes of domestic violence that are reported are just beginning to be perceived as crimes. "For many years our judicial system did not put an end to it. They called it a family feud and looked away," said University of Rochester anthropology professor Ayala Gabriel. "Now it's against the law but the attitude remains. We've only just begun to take the laws seriously."

The lag in societal attitudes has frustrated Phyllis Korn every day of the last 10 years that she's worked as executive director of Alternatives for Battered Women in Rochester. "Traditionally domestic violence has been viewed by society as just a domestic squabble, something that's OK as long as it's kept behind closed doors."

It's an attitude that's been absorbed so deeply that it is reflected in the English language, she added; the expression "rule of thumb" derives from an old English law that says a man may beat his wife, as long as the stick is no thicker than his thumb, she said.

"And, even though the law now tries to protect a woman against violence in her home, the same people who will intervene when someone attacks a stranger on the street, will still turn aside if it's a man hitting 'his' woman."

Domestic violence is a crime that tends to victimize a woman over and over again; on the average, a woman returns to an abusive husband or boyfriend five to 10 times, Korn said. "Some women are beaten for months, others for years before they say, 'No more.'"

Why do women caught in this cycle remain? Terry Servis, former Monroe County assistant district attorney, said, "It's tough to explain why some women permit this to go on. But some feel trapped. They have no other visible means of support, they may have children, they may feel there is no alternative."

Alternatives for Battered Women runs one of approximately 1,200 domestic-violence shelters across the United States. The not-for-profit service also provides a 24-hour hotline for abused women, ongoing support groups and individual counseling, and temporary housing for battered women and their children.

"They're more fortunate (in Rochester) than those in rural areas, where there's usually no support at all for abused women, and they're better off than the ones living in big cities where the services they have are overwhelmed," said Korn.

The shelter, which occupies an upper floor of a downtown Rochester office building, houses as many as 26 women and children at a time, serving nearly 500 each year. Security is a primary concern, with dead bolts on all doors, closed-circuit television cameras focused on the foyer.

"The ultimate need here is for safety," Korn said. "This is a place where a woman can relax enough to tackle the critical issues she needs to resolve."

Only at the shelter could Jill escape from her boyfriend's beatings. "I kept going home because I'm not safe on the streets, but I'm not safe at home either."

Jill said that the battering began after she gave birth to their first child. That's not uncommon, Korn said, adding that it's often during pregnancy or after a baby is born that the violence starts.

Battering during pregnancy is the subject of an ongoing study by researcher Judith McFarlane at Texas Women's University in Houston. McFarlane is the recipient of a Centers for Disease Control grant used to track the pregnancies of 1,200 women in two states. Results from preliminary research show that a woman battered during pregnancy has four times the chance of delivering a low birth-weight baby—one at risk for early death or complications—as a woman not battered. She is also more likely to miscarry.

"Ours is the first study to track women through their pregnancies and document the effects of abuse on them and their babies. What we're hoping is that the study will encourage all health professionals to ask questions about abuse of the women they see, pregnant and otherwise," McFarlane said. "Only then can we educate women about the risk of violence in their lives and help them stop the cycle of domestic violence. Knowledge is power, it really is."

Korn said the shelter provides not only "a setting that is indignant that a woman should be subjected to this crime" but counseling support to help her make decisions and an opportunity to be with other women in the same situation.

The National Crime Survey reports about 2.1 million women were beaten in their homes between 1978 and 1982. Deborah White of the National Coalition Against Domestic Violence in Washington, D.C., estimates the current number of abused women nationally between 3 million and 4 million each year.

"For many years our judicial system did not put an end to it. They called it a family feud and looked away. Now it's against the law but the attitude remains." Ayala Gabriel, University of Rochester anthropology professor.

Of this number, the Bureau of Justice Statistics identifies 57 percent of the beatings are done by spouses and ex-spouses. Boyfriends and exboyfriends make up another, uncalculated, percentage of the national total.

The leap in the numbers of reported cases stems largely from increased community pressure on police to make more arrests, better community education, and more shelters and services for abused women, White said. "So, even though it's still a stigma, more are coming forward," she said. "But it's also true that we have just become a more violent society, with the incidence of this kind of crime up."

In her office, Brigitte Abraham of the Monroe County District Attorney's Domestic Violence Bureau sees "a steady rise in felony assaults and murders that are domestic violence."

And she's glad that women are reporting more than in the past. "The difficulty is that these are very isolating crimes. It's humiliating because it says that you were stupid enough to pick somebody who beats the poop out of you."

On an average day, Rochester police receive 10 calls reporting domestic violence, said Sgt. Steve Di Gennaro, who is in charge of the family victim service section there.

More than a year ago, the department adopted a pro-arrest policy, one that gives a police officer on a domestic violence call the right to arrest the abuser, even if the victim is reluctant to press charges. This is within the officer's power if he or she sees physical evidence of abuse. Previously, abusers were arrested only when the victim agreed.

"So the officer's hands were tied," said Di Gennaro. Now, under the pro-arrest policy, the abuser can be removed from the home, defusing—at least temporarily—a violent situation.

"Pro-arrest policies mean that police are looking at these cases in a different way," said Abraham. The change is responsible in part for the increase in the number of domestic violence calls to police, she added. "More women are calling now as society doesn't condone it as much as it used to."

Becky McCorry heads Family Crisis Intervention Team (FACIT), a program of the Rochester Police Department that sends mental health professionals into homes torn by domestic violence. "Pro-arrest provides the support an abused woman needs, because the dynamics of control in domestic violence means that most women are too paralyzed to make the decision to have the batterer arrested."

But McCorry said that pro-arrest is only the first step. "Sometimes people think that the arrest stops a problem. It doesn't. Long-

term counseling—separately for batterer and victim—is what's needed."

Korn said judges "are a key link."

"I think many of our judges are heads-and-shoulders above those in other areas, but we still need to establish a greater understanding of the domestic violence cycle with them."

Sheer volume is the primary challenge facing those courts that deal with domestic violence, said Judge Leonard Maas, who has been a Monroe County Family Court judge for nine years. "The number of our cases has mushroomed completely."

Maas said his court regularly issues temporary orders of protection to keep the abuser out of the home. "And matters are brought back to court in a relatively short time." But there is room for improvement in the way the courts deal with battered women, he said, adding that he's looking forward to reading recommendations forthcoming from the New York State Commission on Domestic Violence.

Despite a legal system and community agencies working to be responsive to battered women, many women remain in their violent homes.

"It's a cycle; by the time a relationship has escalated to violence, a women's self-esteem is very low," Korn said. "She thinks it's her fault. She's heard, "If you hadn't been a whore, if you weren't ugly, if dinner was ready on time, if the house was straightened, I wouldn't have to do this for so long; she feels she's worth nothing."

Jill, however, talking about her life in the shelter's living room, wiped her eyes, blew her nose and made a quiet resolution to fight back.

"I'm not going to stand there and take it anymore," she said. "Each time he's tried to make up, I've fallen for it. The message we get from the legal sysem is that beating your woman is a little bit acceptable, but I'm realizing that nobody deserves to be beat."

FEAR SHRINKS A WOMAN'S WORLD

(By Susan McNamara)

Last December at a local shelter for battered women, a woman recalled the indignation her husband felt as he read newspaper accounts of Rochester's serial killer.

"'Geez,' he'd say, 'I can't believe the cops are letting this guy run around killing women.'"

When she asked how that violence differed from the violence he inflicted on her, he replied, "That's different. You're my wife and I can do what I want to you."

Violence against women takes many forms—from a gruesome death at the hands of a serial killer to rape in a woman's own home by her husband.

In the United States, a woman is beaten every 18 seconds. Every 3½ minutes, a woman is a victim of rape or attempted rape. Every four hours a woman is murdered. Every six hours a woman is murdered by a husband or boyfriend, according to the U.S. Bureau of Justice Statistics and the Federal Bureau of Investigation.

And while some crimes can be committed as easily against men—and men, in fact, are crime victims more often than women—few would argue that men feel the same fear as women.

It is this fear that forces women, not men, to live in a smaller world: one that is brightly lit after sundown, one that has deadbolt locks and security alarms, one that encourages travel in groups, not alone.

It is this fear that forces many men to worry about wives, girlfriends and daughters—when they work late, when they jog, when they go shopping in the evening.

It is a fear so ingrained that many women don't even recognize it. Yet it amounts to a denial of women's basic rights to life, liberty and the pursuit of happiness.

"I'm not rich but I have the right to live safely in my own neighborhood, to pick up the paper and not read that someone in my family is dead," said Denise P. Logan, of Rochester, in a speech at the "Take Back the Night" rally and march downtown in February. Logan's cousin, Kimberley Denise Logan, was found murdered last year on Meigs Street. There have been no arrests in the case.

"This is not a look-the-other-way issue," she said. "It's time to get busy."

Violence against women, whether it's murder, rape or domestic violence, doesn't occur in a vacuum. The crime doesn't stop with the victim; it touches everyone, from family and friends to the larger community.

LEGACY OF FEAR CONSTRICTS THE WORLD FOR WOMEN

However, it is hardly a 20th-century phenomenon, psychologists say. The image of the cave man with the club dragging around a woman by a hank of hair may not be far off the mark. The violence is probably as old as relationships between men and women.

"It's a fairly traditional thing for women to be beaten, killed and raped," said Leslie R. Wolfe, executive director of the Center for Women's Policy Studies in Washington, D.C.

"As depressing as that fact is, it's true. The serial killer in Rochester sounded like Jack the Ripper. We're talking about a continuum here."

The issue has become a popular one in some political circles.

It was more than a decade ago—before it was fashionable for male politicians to address the subject—that Rep. George P. Miller, D-Calif., first spoke out on violence against women. He says he was accused by a colleague of "trying to take the fun out of marriage."

Miller is chairman of the Select Committee on Children, Youth and Families of the U.S. House of Representatives. Among the committee's work was the 1987 hearing on "Women, Violence and the Law" in Washington, D.C.

"Violence against women is an everyday occurrence in America," he says. But despite great strides in the last decade or so, "there is still much work to be done."

Last month, congressional hearings were held in Washington on legislation calling for tougher penalties for violence against women.

The proposed bill would make gender-related violence a civil rights violation, entitling the victim to sue for punitive damages. Also, $300 million in grants would be provided to create a commission on violence against women.

Consider these statistics:

More than half of all violent crimes against women are committed by people they know. Yet, according to the Office for Victims of Crime of the U.S. Department of Justice, violent acts against women are the crimes least likely to be reported.

A girl who was 12 years old in 1989 has a 73 percent chance of being a victim of violent crime—rape, robbery or assault—sometime in her life.

In all categories of violent crime, women are victims in numbers disproportionate to the crimes they commit. A woman is more than twice as likely to be murdered as to murder. She is 12 times more likely to be a victim of domestic violence than an abuser.

Ninety-nine percent of serial killers are men; between 80 and 90 percent of victims of serial killers are women.

Between 1977 and 1986, the number of rapes reported to police was up 43 percent, making it the fastest growing type of violent crime in the United States.

Nationally between 1978 and 1982, 2.1 million women were battered at least once. However, it's hard to estimate how many battering incidents occur locally. Four jurisdictions in Monroe County don't keep records of family trouble or domestic disturbance calls. The Rochester Police Department reports as many as 10 arrests a day, with most of the violence directed against women.

Experts say that illegal drugs also may account for some of the violence against women.

"They definitely contribute to the climate of violence," said Phyllis Korn, executive director of Alternatives for Battered Women in Rochester. "I would never say that drugs or alcohol or stress make people violent but for those who need to control others, it makes things much worse."

But American culture should share some of the blame for the climate of violence, too.

"We call ourselves peace-loving but it's a cliche. Look at our heroes," said psychologist Elaine F. Greene, who has a private practice in Brighton. "Over the decades, we have admiration for macho figures—Batman, Superman, Rambo."

Even in romantic films, the depiction of dominant men and submissive women may give mixed messages.

"You've seen the old movies, where a woman is slapped across the face and brought to her senses, or where she's picked up and carried off as she beats her little fists on the man's back," said Ayala H. Gabriel, assistant professor of anthropology at the University of Rochester. "The myth is that women love it. Violence and sexuality get mixed, and a myth is propagated."

The case against pornography is even more dramatic. Research studies haven't always agreed that depicting women in nonviolent ways in pornography causes antisocial behavior. However, most experts agree that pornography portraying sex in combination with violence—sadomasochistic themes, bestiality and portrayals of rape, for example—does contribute to an individual's tendency toward aggression.

Other possible effects include stimulation of rape fantasies, an increased callousness about rape, loss of compassion for women as rape victims, and greater acceptance of so-called rape myths—for example, that women "ask for it."

Another serious concern is that men, women and children of all ages and backgrounds are becoming inured to all kinds of violence, including violence against women. The average 18-year-old, for example, will watch an estimated 16,000 murders on TV in his lifetime. American culture is rife with incidents of violence in favorite pastimes—from sports to rock concerts—and in the language—including vengeful slogans on T-shirts and bumper stickers.

That worries many of those who are touched by the phenomenon—women's advocates, law enforcement officials, mental health practitioners, social workers, shelter

and crisis center workers, as well as the victims and their families.

"We're much too comfortable with violence," said Harry Reis, professor of psychology at the University of Rochester. "There has been a lot of research done on desensitization. Essentially, every time people see or hear of a violent act it makes them that much more used to it. We know that was the case in Rochester with the serial killings. If these were 14-year-old girls from good neighborhoods, imagine the outrage."

The mind also distances itself from fear of crime by blaming the victim.

"The victim gets re-victimized by society, and the scenario gets played out again and again and again," said Kathy Cottrell, assistant director of Rape Crisis Service of Planned Parenthood of Rochester and the Genesee Valley Inc. "The most famous example is the woman jogger (in Central Park) who was brutally raped and very nearly killed. She was blamed for her own sexual assault. I've heard this a million times: 'It would never happen to me. I wouldn't jog there.' Or you'd hear: 'I would never be a victim of a serial killer. I don't walk the streets.' "

Indeed, some women's advocates find disturbing irony in the increase of reported rapes on college campuses.

"Intellectually we try to empower women. We encourage them to make the best of their capabilities. But is it wrong to do that, to encourage them to reach for the brass ring, to give them a false sense of their own capacities, when the world is such a dangerous place? It may come down to a basic, physical kind of danger for which they'll be totally unprepared," said Bonnie Smith, former director of UR's Susan B. Anthony Center for Women's Studies, now with Rutgers University.

"It's also important to acknowledge that this is just another burden that women alone carry. We have to take extra measures to protect ourselves in the world in a way that men don't have to."

Mr. QUILLEN. Mr. Speaker, I yield 3 minutes to the gentleman from Massachusetts [Mr. CONTE].

Mr. CONTE. Mr. Speaker, I rise in opposition to this rule. It denies the House a debate. It denies the Congress, the administration, the public any chance for campaign finance reform. It is unfair. It is a wrong rule, and we ought to reject it.

Mr. Speaker, this is the most important reform bill to come before this Congress, and it is getting jammed down our throats. It has never been through a committee. It is a task force bill. It has never had a hearing. It has been changed even since it came out of the Committee on Rules last night. It is an assault on the whole committee system. It should not be up to the floor at all today, with 24 hours' notice. It should be up when we come back in September. There everyone would have a chance to offer an amendment; and a closed rule is a disaster.

These packages cover spending limits, PAC's, franking reform, public financing, soft money, advertising, local funding, independent spending, tax credits for contributors, and more—every one deserving a full debate on its own right.

I have got opinions on all of them. I have got amendments just like the gentleman from Wisconsin [Mr. OBEY], who got his through. I would like to introduce those amendments. I bet eveyone here has an amendment. None of us had that chance.

My dear friend, the gentleman from Illinois [Mr. MICHEL], introduced 10 separate bills for each point in this package. We should be able to debate and vote on each one of those, but this rule forces us to say yes or no on all of them at one time. The same for the task force bill and the Synar-Obey substitute. It is absurd. It is unfair to the House. It is unfair to the public.

Mr. Speaker, this is a terrible rule. I ask the Members of the House to be fair, vote it down, vote no.

My dear friend, the gentleman from Wisconsin [Mr. OBEY], says you cannot operate on an open rule. I heard that yesterday in the civil rights bill.

Mr. Speaker, I went back and checked the history of the civil rights bill. In 1963, when we debated, I was part of that debate. It was an open rule. Ten hours of debate. Then I checked the 1965 voting rights bill, and I was proud of that. That was an open rule. Ten hours of debate.

What has happened to this House? Have we got to have a gag rule here now?

They are moving toward freedom in Lithuania, Czechoslovakia, the Soviet Union, and we are going the other way.

□ 1600

Mr. QUILLEN. Mr. Speaker, I yield 2 minutes to the gentleman from Virginia [Mr. PARRIS].

Mr. PARRIS. Mr. Speaker, there is an old proverb that ignorance doesn't kill you, but it makes you sweat a lot.

Many of my Democratic colleagues are sweating profusely. There is a strange odor in this Chamber today, and you might ask the question why? They are bringing before this House under a closed rule, crafted by a ruthless exercise of power by the majority, a thing called campaign reform. It increases the opportunity for political action committees from special interest groups to increase the average contribution they now give, three-fourths of which goes to the Democrats, by a 30-percent increase. The majority calls that a great sacrifice.

It provides that a labor union is permitted to contribute 10 times as much money to any given campaign than any one of your individual constituents. That is because the Democrats get 95 percent of the union money.

It throws Federal taxpayer money into partisan political activities for the very first time in the history of this country. And you call that campaign reform?

To expect anybody to believe that is ignorance. The American people are not that stupid. This time you have gone too far, and everybody knows it. Let us vote against this rule.

Mr. QUILLEN. Mr. Speaker, I yield 9 minutes to the gentleman from California [Mr. THOMAS].

Mr. THOMAS of California. Mr. Speaker, the gentleman from Michigan [Mr. BONIOR] started the discussion on the rule saying that campaigns cost too much. In the most comprehensive survey to date on American opinion about the question of money and politics, a study financed by, for example, among others, People for the American Way, and we will not mistake them for the Heritage Foundation; it is a comprehensive poll. And, yes, the American people said that campaigns cost too much.

But do you know what they say bothers them more? The American people are more concerned about candidates ending up obligated to special interests.

Mr. Speaker, what we are doing here today in discussing the rule is process. Oftentimes, people say process is not important. I think it is. I think it affects substance, especially when the process we are talking about allows the bill in front of us under the rule, a bill which never went through the committee system. The bill was constructed from a task force which originated from a bipartisan task force under the former Speaker.

But let me tell Members, the bill in front of us is not the product of a bipartisan operation. Now, I happen to think there are a number of areas of campaign finance reform that lend themselves to bipartisanship.

For example, the area of transfers, the area of bundling, the area of soft money, independent expenditures, and the Federal Election Commission reform area. All of those items had been discussed in the bipartisan task force, and we were moving toward a bipartisan solution. But this bill was crafted on a partisan basis.

Now, do not tell me that one cannot do any work around here on a bipartisan basis. I would refer you to something that we passed, in fact, in this Congress, H.R. 2190, in a very controversial area—voter registration. Who were the cosponsors of this measure? Our Speaker, the gentleman from Washington [Mr. FOLEY], the minority whip, the gentleman from Georgia [Mr. GINGRICH], myself, the gentleman from Washington [Mr. SWIFT], leadership from both sides, on a question that is very, very contentious. It passed this House on a bipartisan vote.

Mr. Speaker, it can be done. If not on the major cutting point issues, cer-

tainly in those areas which we consider secondary.

Let us consider the rule, because let me tell you, the Swift bill from yesterday is not the Swift bill we are considering under the rule.

The Swift bill yesterday we can call Swift I, if you will. Under Swift I, which was just crafted last Wednesday, the maximum amount that you could spend in a campaign primary and general was $550,000.

Guess what? Today under Swift II, if you do not get two-thirds of all the votes cast in the primary you get a limit of $715,000. In one day we have moved from a $550,000 limit to a $715,000 limit if you do not get two-thirds of the primary vote.

What else was in Swift I? Criminal penalties for overspending, given the limit that is in the bill. Guess what Swift II contains? No criminal penalties for overspending.

In Swift I, they banned registered lobbyists from bundling. Guess what happens between yesterday and today? Registered lobbyists are not banned from bundling under Swift II.

In Swift I, they banned slate cards financed by corporations, unions, and millionaires. Guess what happens between yesterday and today? Swift I to Swift II? Pretty good government? No. The same old stuff.

That would not have happened if the bill had gone through the committee process, or in the terms of a bipartisan agreement. It happens when you try to move the bill only through your side.

Even if we could not have agreed, and that is where the gentleman from Wisconsin [Mr. OBEY] creates a straw man, we are not necessarily talking about an open rule, we are talking about a fair rule. We do not have to construct a rule in which we go after a key point in your position and you go after a key point in our position. We can have a rule in which we debate the key issues.

For example, should we have a system where individual candidates running for subcommittee chairman can take money out of their campaign fund and give it to someone else in an attempt to get that person to support them for subcommittee chairmanships, as has been done in the past?

You can do that under your bill. Under the Republican substitute, we ban all transfers. No leadership PAC's, no PAC-to-PAC, no candidate-to-candidate. We ban all transfers.

Mr. Speaker, I think we should debate which position we should have for transfers, yours or ours? That does not require an open rule. That requires a fair rule.

What about soft money? Your position is, you say, as you announced, that you ban soft money. Come on, you do not ban soft money. You have your building fund, you have your slush fund. Read the fine print. You do not ban soft money.

Our position on soft money says any money spent in the system not raised under Federal contribution laws is outlawed. We ban soft money.

We could debate the position of soft money, your position on soft money, our position on soft money. We think the Members of this House ought to be able to choose between those positions. We want, not an open rule, but a fair rule.

Mr. Speaker, it seems to me that what we are going to do is ultimately wind up with two choices. We are going to vote on party lines. We are not going to open up the debate, we are not going to resolve fundamental differences, and we are going to do the same old thing in the same old way.

It seems to me that if leadership wanted good law, we could have gone through a different route. We could have gone through the committee system. We have produced good law from the committee system, bipartisan law, in tough, controversial areas.

If the Democrat leadership wanted agreement and support from Members on an institutional level, they would have given us a fair rule, not an arrogant, unfair rule. If leadership wanted to avoid the obvious cheap partisanship aspects that will develop from this kind of a rule, they should have given us a different rule on a different day.

Mr. Speaker, what this rule demands is a "no" vote. Otherwise we are going to get bad law, we are going to get a Member revolt, and we are going to get partisanship stirred up again, as has been done in the past.

Mr. Speaker, the vote today is "no" on the wrong rule at the wrong time.

The SPEAKER pro tempore (Mr. HOYER). The gentleman yields back 2 minutes.

Mr. BONIOR. Mr. Speaker, I yield 3 minutes to the gentleman from Florida [Mr. BENNETT].

Mr. BENNETT. Mr. Speaker, first of all I want to thank everyone that has worked hard on this matter, all the committees and all the personnel. Certainly I think that both sides have some things to add toward improving our institution.

I do want to say, however, that for over a year I have worked vigorously to try to see if I could end something that was and is, I think, very wrong and likely to get worse. That is that at the present time there is no law that prohibits a Member from giving his own money or giving his PAC money to other people in the caucus or wherever he wishes in order to influence votes for himself for being chairman or subcommittee chairman or what have you in this way of leadership attainment.

In fact, that is a practice in the Congress at the present time, as sad as it may be. And it is easily documented, because it is all there; the PAC money is reported from PAC's lists and where the money goes is reported, and the result of the campaigns are reported.

One man, for instance, never gave any very substantial money to other Members until he ran for a leadership spot, and then he gave over $500,000. And that is big money; it is not small money. That is something that ought to stop.

It used to be 10 years ago that it was against the criminal laws of our country, and then it was changed, and it ought to go back. If you stood outside of a polling place or where people are voting and handed everybody a $10 bill that went through and said, "Have a nice day," you would be in jail the next day. But here you can take hundreds of thousands of dollars, or millions of dollars, whatever you want to take from vested interests, special interests, and that is where the money actually is coming from, you can look it up. It is not a dream, you can look it up, the actual contributions, the PAC money and where the money went, it is all a matter of record.

So this is something I am trying to stop, and I did go before the Rules Committee about a year ago and I asked them under the ethics law proposals if I could offer this amendment. And they told me well, no, come back when we are discussing campaign financing. So I did, and then they turned me down again.

It seems to me that there is some validity in the fact that this country has a less democratic government than it had a while back. I am not bitter about it, but the truth is, for various reasons, things that are institutionalized in our country today are not really very healthy, and this is a very unhealthy situation and it ought to be corrected.

I myself am going to vote against the rule. I do not expect the rule to be defeated on the final passage, and I assume that we will get a vote on the bill, and I will vote for it. But I am disappointed that they have not allowed me to bring up my amendment in a way that would get away from some grave dangers in the future. Right now special interests in the United States, big defense contractors and people like that can give money to the PAC of an individual who runs for Congress, and that person can turn around, whether the defense industry likes it or not, and give money to members of the caucus. This is something that I have experienced myself. I know it is true, and I think it is something that ought to stop. I think it is very dangerous to our country to allow this to continue.

I am sorry that the Rules Committee has kept me back from raising this question in any opportunity I have

had on it. I am sure that there is no malicious intent here. We are all trying to work for a better Government. But this ought to be solved, and I had to express how I felt about the fact that I have been refused twice now from offering this amendment which is a very mild amendment.

My law is less severe than the law was 10 years ago when there was a criminal penalty for what I am trying to get at.

I would like to read to you from the 1976 edition of title 18, United States Code, Crimes and Criminal Procedure. Chapter 602 of title 18 stated that it was illegal to take money from other Members. I am reading from this section when I say:

> Whoever, being a Senator or Representative in . . . Congress . . . directly or indirectly solicits, receives, or is in any manner concerned in soliciting or receiving, any . . . contribution for any political purpose whatever, from any other [Senator or Representative], shall be fined not more than $5,000 or imprisoned not more than three years or both.

This was from 18 U.S.C. 602, 1976 edition. This was repealed in 1980.

The U.S. Supreme Court had an opportunity to consider the language of chapter 602 in *U.S.* v. *Wurzbach*, 50 S. Ct. 167 (1930). Wurzbach was decided on the basis of the Federal Corrupt Practices Act, the predecessor to 18 U.S.C. 602. However, the language of the old Federal Corrupt Practices Act and the language of chapter 602 in the 1976 edition of title 18, are almost identical. In Wurzbach, the Supreme Court held that the language concerning the prohibition of soliciting or receiving money was "perfectly intelligible," and prohibited such practices.

A 1980 amendment to the law (Public Law 96-187) eliminated the language prohibiting the receipt of contributions from other Members. According to the amended law, it is unlawful for a candidate for Congress, or a Member of Congress, to solicit contributions from other Members, (18 U.S.C. 602, 1988), but it is all right to accept the money. In my opinion few Members of Congress are aware that it is illegal to solicit contributions from other Members, and in any event, I believe the ban on solicitation is widely violated. While the law allows receipt of money from other Members, I have a hard time distinguishing receipt of funds from solicitation. If it is unlawful to ask for the money, how can it be proper to take the money? How about the legality of one giving it when one seeks an in-House leadership role? Currently that is improper, and clearly should be made illegal.

My concern about Member-to-Member contributions prompted me to write to the Federal Elections Commission asking them for an advisory opinion on the practice of Members donating money to other Members. I was shocked when the FEC advised me that contributions of excess campaign funds to other candidates are permissible, up to $1,000 per election per candidate.

The advisory opinion by the FEC came as such a surprise that I did some research into this matter myself. My research led me to 18 U.S.C. 602, as mentioned earlier, and to our own Code of Ethics (Public Law 96-303). According to the Code of Ethics for Government Service, which is the law today, Members of Congress are prohibited from accepting ". . . benefits under circumstances which might be construed by reasonable persons as influencing the performance of governmental duties." Can any of us deny that accepting money from a fellow Member, when that Member is running for a leadership position, ". . . might be construed by reasonable persons as influencing performance of governmental duties"? I do not think we can however deny that. It appears that the law has been changed so that Members do not face criminal sanctions for accepting money from other Members, but such acts still violate our Code of Ethics.

For all of our rhetoric about ethics in Congress, and how we live our lives in a fish bowl, we are carrying on practices that should not, and would not, be accepted were we not in Congress. One former Member whom we all greatly admire as a person, donated approximately $20,000 of PAC money from 1981 to 1985 to other Members. When he successfully ran for a leadership post his contributions increased 27 fold by distributing $552,500 to other Members. Under the amended chapter 602, that was legal. But should it be?

If one stood outside the voting booth and gave only $10 to every voter in a general election, he would have been accused of vote buying. In *U.S.* v. *Carmichael*, 685 F.2d 903 (4th Cir. 1982), the Fourth Circuit Court of Appeals had an opportunity to rule on a case involving allegations of vote buying. Carmichael, a former South Carolina State senator, was convicted under 42 U.S.C. 1973i(c), for giving voters as little as $10 in an election for local sheriff. Carmichael contended that the law required proof that any vote buying actually affects an election for Federal office. Id., at 908. The court held that it was not necessary for the government to prove that passing the money actually affected a Federal contest. Rather, a violation is established when the activity:

> * * * exposes the federal aspects of the election to the possibility of corruption, whether or not the actual corruption takes place and whether or not the persons participating in such activity had a specific intent to expose the federal election to such corruption or possibility of corruption.-Id., (quoting *United States* v. *Bowman*, 636 F.2d 1003, 1011, 1011 (5th Cir. 1981).

Admittedly, Carmichael was charged, and convicted, under 42 U.S.C. 1973i(c), and not under 18 U.S.C. 602. However, the legal reasoning would seem to me to be identical under either statute.

One of our able and respected members went so far as to send out a letter requesting "a check for $500 to $1,000 so that I can begin to build the active support within the Democratic Members of Congress to win this key leadership position."

Acting out of a sense of party unity, and goodwill, does not negate the intention to influence another members voting habits. Florida's Third District Court of Appeal recently held that "acting out of a misguided sense of public service and [while receiving] no pecuniary benefit himself are irrelevant," and did not indicate that defendant did not possess the requisite criminal intent. *Trushin* v. *Florida*, 384 So. 2d 668 (3d DCA 1980), at 679. In Trushin, defendant offered free legal services if voters would pledge to vote for two particular candidates, neither of whom was the defendant. Despite not having any direct pecuniary gain in the outcome, defendant's conviction was affirmed.

Nor is it necessary to prove that the money affected the result of the election, according to the U.S. District Court for the Western District of Missouri. "[T]he government is not required either to allege or prove that the alleged "vote-buying" either related to or in any way affected the result of any election . . .". *U.S.* v. *Sayre*, 522 F.Supp. 973 (W.D.Mo. 1981), at 974. Where money is involved in elections,

> The election thus becomes a spending contest with the candidate most willing and able to make such payments having the greatest chance of winning. The fact that the person making the payment did not intend to influence the federal election does not change the reality of the threat; the payment itself, not the purpose for which it is made, is the harm and the gist of the offense—Id at 975-6.

Admittedly, Members of Congress may not be so blatant as to specifically tie the donation directly to a vote. However, I believe the intent is clear—it is no small coincidence that a Member contributes far more generously to other Members when the donor is running for leadership positions. Compare the contributions made by Members running for leadership positions to the contributions made by Members not seeking leadership positions. From that we can clearly see the intent—money, if not directly buying votes, unduly influences votes. This makes a mockery of our code of ethics, our laws, our reputations, and Congress itself.

There is a more sinister aspect of this though. Allowing such donations are bad if they are out of Members funds, as it tends to make winners of

rich Members and losers of Members who are not rich. If the money is coming from outside sources, including PAC's, an alarming possibility occurs, outside money is directly influencing the House leadership. Do we want special interest PAC money influencing internal House races? The answer to that can only be a resounding "no." Data on the details of special interest money can be obtained from the Federal Elections Commission. This data further illustrates how special interests influence internal House races.

I think we all realize that Congress has come to some sort of ethics crisis. Whether it is media-induced or not, the general public thinks there is a problem. In the June 12, 1989 issue of Time magazine, Fred Wertheimer, president of Common Cause, is quoted as saying: "Our Nation faces a crisis in the way we govern ourselves. Our Nation's Capital is addicted to special interest influence money. Members of Congress are living professionally and personally off these funds."

With all of the honorable people in Congress, we ought to be able to come up with meaningful and reasonable ethics rules. This issue of Member-to-Member campaign contributions isn't splashed across the front pages of our hometown newspapers now, but it undoubtedly will be if we continue to let it grow. Simply outlawing Member PACs would not work because Members will then give from their personal campaign funds including PAC donations or their personal funds.

We must enact legislation similar to H.R. 83, a bill that I have introduced. This bill would do the following things:

First, prohibit any Senator or Representative, or candidate for such office, from contributing to other Members, and candidates, for Congress. This would include contributions to or from Members' PACs or personal funds, and cover direct and indirect contributions, including those that are earmarked;

Second, prohibit Members from soliciting or accepting contributions with respect to elections for congressional leadership offices. These offices would include the leadership of both the House and Senate committee and subcommittee chairmanships and any other officer of a political party.

I'm sure there are many Members who would like to see this practice stopped. We are now forced to spend hundreds of thousands of dollars, and now sometimes millions, for our House races. To be faced with the additional specter of spending hundreds of thousands of dollars for internal races in addition is absurd and, more importantly, this allowed practice has onerous threats for the purity of our democracy.

Let's move now and nip this in the bud. This is a grand opportunity for change. We should not miss it.

MESSAGE FROM THE PRESIDENT

A message in writing from the President of the United States was communicated to the House by Mr. Kalbaugh, one of his secretaries, who also informed the House that on the following dates the President approved and signed bills and joint resolutions of the House of the following titles:

On June 6, 1990:

H.R. 644. An act to amend the Wild and Scenic Rivers Act by designating segments of the East Fork of the Jemez and Pecos Rivers in New Mexico as components of the National Wild and scenic Rivers System.

On June 18, 1990:

H.J. Res. 516. Joint resolution to designate the week beginning June 10, 1990, as "National Scleroderma Awareness Week."

On June 25, 1990:

H.R. 4612. An act to amend title 11 of the United States Code regarding swap agreements and forward contracts.

On June 28, 1990:

H.J. Res. 575. Joint resolution to designate June 25, 1990, as "Korean War Remembrance Day."

On July 3, 1990:

H.R. 1622. An act to amend title 17, United States Code, to change the fee schedule of the Copyright Office, and to make certain technical amendments.

H.R. 3046. An act to reduce the number of Commissioners on the Copyright Royalty Tribunal, to change the salary classification rates for members of the Copyright Tribunal and the United States Parole Commission, for the Register and Associate Registers of Copyrights, and for the Deputy and Assistant Commissioners of Patents and Trademarks, and for other purposes.

H.R. 3545. An act to amend the Chesapeake and Ohio Canal Development Act to make certain changes relating to the Chesapeake and Ohio Canal National Historic Park Commission.

H.R. 3834. An act to amend the National Trails System Act to designate the route from Selma to Montgomery for study for potential addition to the national trails system.

On July 6, 1990:

H.J. Res. 555. Joint resolution to commemorate the bicentennial of the enactment of the law which provided civil government for the territory from which the State of Tennessee was formed.

H.R. 5075. An act to amend the Rail Passenger Service Act to authorize appropriations for the National Railroad Passenger Corporation, and for other purposes.

On July 12, 1990:

H.R. 5149. An act to amend the Child Nutrition Act of 1966 to provide that the Secretary of Agriculture may not consider, in allocating amounts to a State agency under the special supplemental food program for women, infants, and children for the fiscal year 1991, any amounts returned by such agency for reallocation during the fiscal year 1990 and to allow amounts allocated to a State for such program for the fiscal year 1991 to be expended for expenses incurred in the fiscal year 1990.

On July 13, 1990:

H.J. Res. 599. Joint resolution to designate July 1, 1990, as "National Ducks and Wetlands Day."

On July 16, 1990:

H.R. 1028. An act to require the Secretary of the Treasury to mint coins in commemoration of the Golden Anniversary of the Mount Rushmore National Memorial.

H.R. 4252. An act to authorize the Secretary of the Air Force to purchase certain property at Pease Air Force Base, New Hampshire.

H.R. 4525. An act to amend the Ethics in Government Act of 1978 to increase the authorization of appropriations for the Office of Government Ethics.

On July 17, 1990:

H.R. 2514. An act amending subchapter III of chapter 84 of title 5, United States Code.

On July 27, 1990:

H.R. 2844. An act to improve the ability of the Secretary of the Interior to properly manage certain resources of the National Park System.

On August 2, 1990:

H.J. Res. 591. Joint resolution designating the third Sunday of August of 1990 as "National Senior Citizens Day."

PROVIDING FOR CONSIDERATION OF H.R. 5400, CAMPAIGN COST REDUCTION AND REFORM ACT OF 1990

Mr. QUILLEN. Mr. Speaker, I yield such time as he may consume to the gentleman from Idaho [Mr. CRAIG].

Mr. CRAIG. Mr. Speaker, I stand in strong opposition to the rule.

Mr. Speaker, one of the most common complaints about Congress today is that it has lost touch with the people. That Congress is arrogant. That Congress manipulates legislation and works not for the benefit of the public, but rather for our reelection campaigns.

There is no better example of this manipulation than the rule being currently proposed for our debate on campaign reform.

This bill is meant to clean up our electoral process and restore integrity in Congress. So what does the leadership do? It uses a rule to lock out any meaningful debate and consideration of this all-important issue.

What we will see today on the floor is not an open debate but rather the establishment of each party's election platforms on campaign reform.

The three proposals we will consider, H.R. 5400, the Obey-Synar amendment, and the Republican substitute including H.R. 5050, H.R. 5052, and H.R. 5053 vary greatly in their proposals. If we are to shape and mold a true campaign reform bill, we should have the chance to debate the merits of these provisions independently. We should have the chance to strengthen various proposals and provide more extensive reforms. Instead, we are being given three proposals that cannot be amended, with the message—take it or leave it.

Our legislative process is supposed to engender and promote an open system of debate and consideration in the belief that through such a process our laws are made stronger. This rule is contrary to that belief. The current rule does not allow for true debate. This rule is the Democrats' election platform on campaign reform—it is a sham.

If the Democrat leadership is truly committed to campaign reform, why doesn't it want a full and open debate on this bill? If the Demo-

crat leadership is so confident of its campaign reform measure, what does it have to fear from an open rule?

We have a chance to restore confidence and integrity to our electoral system. If we are going to take meaningful steps to open up our campaign system, let's start with opening up the very debate that will decide this issue. Mr. Speaker, the voters of this Nation deserve an open rule on campaign reform. I urge my colleagues to oppose this rule.

Mr. BONIOR. Mr. Speaker, for purposes of debate only, I yield 1 minute to the gentleman from Maryland [Mr. McMILLEN].

Mr. McMILLEN of Maryland. Mr. Speaker, I rise in favor of this rule. There has been a lot of discussion on the other side about how it is unfair, how it is too restrictive, and you know, in my former life as an athlete, when games were close and time was waning, our coach would say to us, "Take your best shot."

That is what this rule is all about. It is saying to our colleagues on the other side of the aisle, take your best shot.

The Democrats are presenting two alternatives. The Republicans are offering an alternative which in essence is a layup in their own basket.

The Republican substitute will have ample opportunity to be debated on the floor of this body. If it is the answer to the problems of campaign finance, then let them sway us with their arguments.

The sad fact is, Mr. Speaker, that it is not the answer to the problems with federal campaign finance. Rather than a genuine attempt at reform, the Republican substitute is a partisan proposal to improve their own chances for election. It is a sham of a proposal in the name of reform, no spending limits, no restrictions on individual expenditures, no decent reform of soft money.

Mr. Speaker, this is a fair rule which guides the debate today, and everybody will have a right to be heard, I urge the rule's adoption.

Mr. BONIOR. Mr. Speaker, I yield 3 minutes to the gentleman from Kentucky [Mr. MAZZOLI].

Mr. MAZZOLI. Mr. Speaker, I very much thank my friend from Michigan for yielding time to me.

Mr. Speaker, I rise in support of the rule and in support of campaign finance reform. It is my intention to vote for the Synar-Obey substitue, but failing that, certainly the work of our friend from Washington State, which has been noble and heroic, is worth our vote, and I thank him for that effort.

Let me just address myself to a couple of aspects of this debate tonight. One is I do think that spending limits are very much in order. I just completed a primary election in which I forswore the PAC contribution, and in a sense adopted voluntarily a campaign spending limit. It is an interesting experience for those of my colleagues who have not had that opportunity recently, but I can tell them along with the pain and the difficulty and the longer hours and the harder work of campaign financing, of having to raise the money, I think all of us in the new era of campaign finance will be rewarded. We will be rewarded because we will have a better opportunity to work with our people, our constituents: to really get to the grassroots.

Perhaps with the exception of my race back in 1967, when I was elected to the Kentucky State Senate, I do not think I have had a race before my primary this past May that was more of a grassroots effort, our effort was remarkably effective, and it was also a two-way street. I sustained myself and got energy from the people, and I think my supporters got energy from me.

So while I can understand the concerns we all have about going into a new era, to leave the known for the unknown to take a leap in the dark is frightening and does have certain fearsome aspects. But I think in the long haul of it, by adopting today one or the other of the Democratic proposals I think will catapult us into the new era correctly and responsibly, and I think it will be the best time possible for campaigning in our country.

I said earlier today that we have a chance to be heroic, and that this is really a very historic day, on August 3, 1990, we have a chance to do two things that for those of us who stay on in this Chamber will be looked back on with pride. One is the passage of a civil rights act, which we did earlier today and now the passage of a campaign reform act. We come to Congress, I believe, to be not just witnesses to history, which we are, but to be participants and makers of history, which we can be by voting up the rule and by voting up campaign reform.

Mr. QUILLEN. Mr. Speaker, I yield 2 minutes to the gentleman from Texas [Mr. DELAY].

Mr. DELAY. Mr. Speaker, many of us here in the House would like to see some sort of change in the campaign finance laws in order to work out a level playing field where all candidates would be able to get a fair start in a campaign.

I introduced H.R. 2589, the Workers Political Rights Act, to do just that. Right now, union leaders funnel an estimated $300 million annually of union members' dues into political campaigns without the consent of the members. More than two years ago, the U.S. Supreme Court ruled in the Beck case that this action was wrong and that workers had the right to prevent being forced to contribute their dues for causes they oppose.

In the Beck case, the Supreme Court decided that workers could only be forced to pay dues for collective-bargaining activities—which in the Beck case, amounted to only 21 percent of the dues. The other 79 percent was being misspent.

My legislation would require that unions notify workers that they have the right to know how much of their dues are being spent on legitimate collective-bargaining activities and how much is being spent for the union leader's political purposes and that they have the right not to contribute dues for these other activities.

Unfortunately, the Democrat leadership has done everything possible to prevent campaign reform legislation from being considered in a democratic manner.

The Democrat leadership has refused to allow the House to debate campaign reform under an open rule which would allow Members to offer amendments to H.R. 5400 which they feel would provide for fair elections.

My legislation has 60 Members of Congress as cosponsors. Those Members represent more than 30 million Americans. This closed and undemocratic rule does not allow me to offer my legislation as an amendment.

The standard line from the Democrat leadership to support a closed and undemocratic rule is that the democratic process had worked well in committee where all sides were heard; that everyone had a chance to offer amendments in committee and that there is no need to rehash everything on the House floor.

Mr. Speaker, I find it outrageous that this legislation, H.R. 5400—which some claim was "immaculately conceived"—is being brought to the House floor without a markup in any committee.

In fact, this legislation which claims to make our Federal elections more free and fair has never been the subject of a single public hearing in the House. What's worse is that the Democrat leadership of the House has sought to abuse the American democratic process and prohibited the House from holding any public hearings on any campaign reform legislation.

That's no hearings on this bill.

That's no hearings on my bill, H.R. 2589.

That's no hearings on any campaign reform legislation.

None!

Zip!

Zilch!

Zero!

The Democrat leadership has made a complete mockery of the democratic process demanded by Americans.

That's an outrage.

Democrats have written a bill that does not protect the political rights of

American workers. The Democrat bill only continues to allow their candidates to receive large amounts of unreported aid from labor bosses which is probably why they refuse to hold public hearings.

This Democrat bill was created in a dark backroom far away from public scrutiny or debate. I don't know how anyone could claim that this bill was immaculately conceived. It was far dirtier than that.

This is a bad bill and a bad rule. It does not allow consideration of the Beck bill. Vote no on the rule.

□ 1620

Mr. QUILLEN. Mr. Speaker, I yield 1 minute to the gentleman from Connecticut [Mr. SHAYS].

Mr. SHAYS. Mr. Speaker, when I was elected to Congress in 1987, I expected to like and respect my colleagues and to be concerned about the process by which we do our business. The reality is I like my colleagues far more than I ever imagined. I have tremendous respect for the men and women who serve here. But the process is really hurting.

Mr. Speaker, I am fed up as a rank-and-file Member to be told this is a great rule, and we have to accept what was done in one back room or another back room. It isn't a great rule, and it should be defeated. The rank-and-file Members of Congress should be allowed to deal with each issue on its merits.

Mr. Speaker, contribution and spending limits, soft money, PAC's, leadership PAC's, bundling, franking, and public financing all deserve to be individually addressed on their merits. This Congress and the Members here deserve to deal with each issue on its merits. We deserve an open rule.

The SPEAKER pro tempore (Mr. HOYER). The Chair will state that the gentleman from Michigan [Mr. BONIOR] has 14 minutes remaining, and the gentleman from Tennessee [Mr. QUILLEN] has 9 minutes remaining.

Mr. BONIOR. Mr. Speaker, I yield 4 minutes to the gentlewoman from Ohio [Ms. KAPTUR].

Ms. KAPTUR. Mr. Speaker, I rise in support of this rule and the campaign finance reform bill. I know that those who speak against the rule and bill today, as well as the Obey-Synar amendment, would like to try to nitpick this bill to death. But I think finally we have brought to the floor a bill that is wide-ranging in its reforms, that anyone interested in campaign reform can support.

Frankly, I find the most distasteful part of my job having to raise money to run for office every 2 years.

One of the most wonderful things about this bill is that it asks candidates in any race to accept voluntary limits. From my own experience in my first race, I challenged my opponent then to voluntary spending limits. He refused; I was outspent 3 to 1 in my first race. In my second race—in fact, in my first race my opponent raised over $450,000. We did not have the capability to do that.

In my second race, I challenged my opponent at that time to voluntary spending limits. He refused. We were outspent in that race 2½ to 1.

This bill calls for a $550,000 cap on spending in any election cycle. I think one of the best parts of it is that it does try to be regionally sensitive by offering some flexibility, depending on the various primary elections that could occur, depending on how election laws are structured in different regions of the country. But at the same time, it asks for voluntary limits, it also has enough flexibility to try to meet the different regional needs we face as a Nation.

I find as a candidate so often, why am I raising this money? I am raising it to spend it on television.

In my district in Toledo, OH, it costs me, for 30 seconds on a show like "Golden Girls," $3,000.

Now, that is incredible that Members of Congress should have to go into the broadcasting business to be into marketing for ABC, NBC, and CBS when we want to run for office.

I like the proposal in this bill that gives you one free advertisment for every two purchased, especially for those of use who have to run in these various TV markets.

One of the other good aspects of the legislation is that it encourages small donors, expecially those from inside our own State, where people who contribute $50 or less can get a tax credit for those contributions.

I think we should do more to encourage small donor contributions in campaigns.

It also encourages small donor PAC's. So that those PAC's that are allowed to contribute to campaigns can do so.

This bill limits the influence of the large donor PAC's, which is one of the most important actions that this body can take.

One of the other things this bill does is that it limits the role of wealthy contributors.

In my own races, my opponents have been able within the flash of an evening to raise $40,000 in $1,000 contributions in order to make their word heard over television. We have never had that—I think I had one $1,000 contributor in my entire career, and they were related, and they gave me largely a part of their life savings.

I like the limitation on the role of wealthy contributors.

Finally, because it does offer the opportunity for voluntary limits, no longer will I face in my district the type of end-loading of money after October 15 that has so often been forced into my district. Three different times I have had to face lading of money in the last 2 weeks of an election that did not have to be reported until after the election. This rule and this bill are important to clean up campaigns around the country.

Mr. Speaker, I urge support of the rule.

Mr. QUILLEN. Mr. Speaker, I yield 2 minutes to the gentleman from Ohio [Mr. MILLER].

Mr. MILLER of Ohio. Mr. Speaker, it is ironic that the House just passed legislation that will strengthen minority rights all across our country, but when it comes to protecting minority rights in this body—when we consider important legislation like campaign finance reform—how quickly they forget about such protections. Why are we considering this much-needed campaign reform legislation under a closed rule? Is the leadership frightened that we might improve the bill by making campaigns more competitive, and risking their majority status. It is clear the majority party wrote this bill to protect their power and domination over this body. The political action committee provision of granting higher limits for certain types of PAC's while placing lower limits on others, is coming close to violating the first amendment. This wouldn't have anything to do with the fact that the majority party receives more PAC money from the PAC's they would give this preferential treatment? Don't get me wrong, I am for reducing the increased role political action committee's have played in campaigns in recent years, but I do not favor selective treatment for one PAC over another. I urge my colleagues to vote this rule down, so we can have open debate on this important issue.

Mr. BONIOR. Mr. Speaker, I yield 2 minutes to the gentleman from North Carolina [Mr. HEFNER].

Mr. HEFNER. Mr. Speaker, it was kind of interesting listening to this debate. My good friend from Texas, who is on the subcommittee with me, the gentleman from Texas [Mr. DELAY], some remarks that he made, he had some landmark legislation and he had been working very hard on it for a long, long time.

□ 1630

He had 60 cosponsors, which is about a third of the people on this side. The first time I ran for Congress, I came up here like every other challenger, trying to find some PAC money. Most all of the PAC's that were in existence at that particular time were the business PAC's, who did not have a tendency to contribute to Democrats. They did not particularly know what my philosophy was, but I did not get PAC money. Some of the

candidates running against me and the other folks this year not only are collecting PAC money but they are also using their campaign money to support themselves and pay their car payments. If they run long enough, they perhaps can even pay for their houses out of the campaign contributions.

I think where Republicans are amiss is because they do not wish to negotiate and put a cap on campaign. However, I am going to go back to North Carolina. People do not say to me, "Where are you getting this money? Why does it cost so much to run a campaign?" Why do you spend, like the late Sam Irvin said, why does somebody spend $2,000 for a saddle, for a 40-dollar mule? It does not make any sense why they spend so much money.

Now the other thing, I never heard so much caterwauling in my life. I came over here the other morning. Democrats were having a caucus which was very boring, and I was trying to find some action someplace, so I came to this body. They were lined up on this side over here, and guess what? They were chastizing Members for not coming up with a budget package at the summit. They do not have a package at the summit. They did not have a budget when we passed a budget here. They were lined up over here, and they are saying that we have got to address campaign financing. Where is the Democrats' plan on campaign reform? They were lined up over here.

I made a little speech, not a very good one, but I made a little speech on something else. Another gentleman came in, and we had two Democrats that talked about, where is your summit package, which they do not have? Where was your budget when we passed the budget here? They did not have one then.

Now they say this rule is bad. Now it seems to me with all the brilliant minds that we have on this side here, that we could put together, into their campaign package, and have it ready here to offer for this House to consider. We have been working on this. Incidentally, it was not in a closed dark room where we met all over this. We have had more task forces on this campaign reform than anything that has ever taken place, that we are thinking about setting up a full committee and having a full committee chairman just in charge of task force money.

But Members, it is a sham. It is a sham to say this rule is bad, that they need an open rule, to where we can offer what we want to offer. It seems to me we can put a package together even at this later date, we can offer anything that we want in the package. So it seems to me that that is stretching it just a little bit to complain about the rule that is not going to allow Members to do what they want to do. It seems to me it is just a little bit outrageous. Why do we not go ahead and pass this rule and get along with campaign financing, and get out of here and go home?

Mr. QUILLEN. Mr. Speaker, I yield 1 minute to the gentleman from Minnesota [Mr. FRENZEL].

Mr. FRENZEL. Mr. Speaker, we have heard a lot of revisionist history today on campaign reform. In the three previous contested bills that we passed in 1972, 1974, and 1976, we had extensive hearings by as many as three committees extending over many months. We had amendments within those committees extending over months, and we had a limited closed rule that allowed the House many options to vote on the floor.

To say that we have to work in the dark to pass election reform is the worst kind of hypocrisy in our democracy. I think the people who vote for this rule can truly be ashamed of themselves. It is absolutely ridiculous to give Members one shot and a few minutes of debate on something that all Members admit is complex.

As a matter of fact, in 1979, the two parties working together passed the last election bill that was enacted in this Congress on the suspension calendar and had no trouble getting it enacted. The problem here is that we are afraid to come out in the sunshine. I urge the defeat of the rule.

Mr. Speaker, during my 17 years on the House Administration Committee, I have witnessed some pretty highhanded methods designed to achieve partisan advantage in the drafting of our campaign financing laws. Although we have had many acrimonious struggles over procedures, proposals, and substance, never, even under the most autocratic of chairmen, were the minority denied an opportunity to offer their amendments and participate in the drafting of the legislative proposals.

The drafters of these amendments are correct. Election law is complicated. There are many interactive provisions of the law. Care must be taken so as not to disadvantage one side or the other. I would suggest that no one knows what the consequences of the proposals will be.

Let me set the record straight about the procedures that the House has used to consider amendments to the Federal Election Campaign Act. In 1972, 1974, and 1976, hearings were held by the Committee on House Administration or the Subcommittee on Elections. Lengthy markups were held during which the minority was permitted to offer as many amendments as we could think up. The rules under which the House considered election bills were of the "modified closed" variety, however, the minority was able to offer several amendments.

On several occasions, the rule structuring debate on the Federal Election Commission authorization permitted the House to consider various public financing amendments. In 1979, the Obey-Railsback amendment which is similar to this Obey-Synar amendment was the last one to be considered in this manner.

The last time the House of Representatives considered and passed a bill revising the campaign laws was later in 1979, and that bill was passed under suspension by voice vote. It was eventually signed by President Carter in January 1980.

Mr. Speaker, there are provisions in this bill that involve four committees of the House: House Administration, Energy and Commerce, Post Office and Civil Service, and Ways and Means. I would suggest that many of those Members might like to have a crack at some of these provisions as well.

I would urge the House to reject this rule and put aside this whole process until the committees of jurisdiction have an opportunity to go through the regular process and the minority rights are protected at that level and on the floor. Reforming our election laws is serious business, we should at least give it our careful and thoughtful attention.

Mr. BONIOR. Mr. Speaker, I yield 2 minutes to the gentleman from Illinois [Mr. HAYES].

Mr. HAYES of Illinois. Mr. Speaker, I did what the gentleman suggests, I came out of the sunshine to voice my sentiment in support of this rule. I had debated over whether or not I should be in favor of campaign reform as being suggested, but I made up my mind and I stand before Members probably in the most rarest kind of position.

I would not have been here had it not been for the contributions I got through union PAC funds. I do not want to see a situation develop where we cut off the opportunity for people, little people who are willing to give a Member $2 or $3 because it costs me something in the neighborhood of $350,000 to $400,000 to be elected to Congress. That is a lot of money. Those voluntary contributions from people, begging people for money, that made it possible.

I had 13 different opponents who ran in a Democrat primary against me. I am here. I have not had to spend that much since. That was 7 years ago. But this does not only get little people's money, it helps them to participate in the political process. I think Members know that. We have a government of the people, by the people, for the people. We ought to participate in who their leaders should be. This gets them interested in election campaigns when they contribute their money, be it ever so little.

So I want to close by just saying that I am for this campaign reform. I am for this rule. So let Members get on with the business of adopting the rule and discussing the measure as it should be.

Mr. QUILLEN. Mr. Speaker, I yield 1 minute to the gentleman from Florida [Mr. JAMES].

Mr. JAMES. Mr. Speaker, I am concerned, and I am concerned primarily

because I see a scenario where by the caps we are putting on this, we are setting ourselves up to allow only a multimillionaire to successfully compete with Members. He can do it with the scenario of spending caps, even though if he does not find the $75,000 limit, Members still are limited by PAC contributions. That is significant.

Now, it takes in many districts three-quarters of a million dollars to even make an adequate campaign, and the way it is written, it does not discount the money we spend to collect it. So when we are talking these caps of 550 or the maximum, it does not allow Members to consider the net, so we may only be running with $300,000 or $400,000 against a very bad scenario on the other side as far as a millionaire running. That is what bothers me most about it, though I am for reform and for limitation on PAC contributions. That is a real concern the way it is written, to me.

Mr. QUILLEN. Mr. Speaker, I yield the balance of my time to the minority leader, the gentleman from Illinois [Mr. MICHEL].

Mr. MICHEL. Mr. Speaker, the debate on campaign reform reminds me of the words of the great old song "It's still the same old story" but is "not a fight for love and glory." It is a fight for fair and equitable campaign reform.

At the beginning of this Congress I said I had hoped it would be known as the reform Congress. We worked with the majority to produce exemplary ethics reform legislation, Members on both sides of the aisle. I think it was a bipartisan effort all the way around, and a bipartisan vote when we finished. There was one brief shining moment when it seemed that campaign reform would be dealt with in a similar fashion.

That is why we House Republicans sat down earlier and hammered out differences in our caucus, our 25-point Republican campaign reform proposal, the product of those sessions, came out in September 1989. That is when we had everything completed and ready. That is why, in answer to our distinguished Member, the gentleman from North Carolina, where is your plan? Where is your plan? And then get foisted and pushed aside until the closing days of this session when we are so limited, that is our gripe.

□ 1640

The hope for bipartisan cooperation, I guess, flickered, and it dimmed, and it was rather extinguished by the majority's unwillingness to reform, so we have come to this, a battle for the very soul of this institution.

Mr. Speaker, we believe our package will bring congressional elections back to the people. These proposals will keep elections local. They will keep them competitive and honest, and they also will make us more accountable and, as a result, better legislators.

Reasonable people can disagree, and, when it comes to campaign reform, there is considerable room to disagree, which is why we need an open rule to consider the legislation.

The gentleman from Wisconsin [Mr. OBEY], my dear friend, talks about a package here and a package there. But he is a good legislator, and I like to think I have some area of expertise in it. It does not mean that that is the sacrosanct way of making this body work best.

Yes, we begin from some base, but there ought to be some cross-fertilization from time to time. What is good here may not be good there. We will pick it apart on either side.

Every one of these 10 or 11 points of ours, for example, could not be totally agreed on our side. I had to bang heads on our side to get them to agree. Some of them would just as soon split off on a couple of them. I bet some of their folks would like a couple of them, and they would discard others. That is the way I think this system works so much better, and, of course, that is why I have to be opposed to this rule, because it is so structured and restrictive to those of us who would like to have a full blown debate on each of these specific parts that we have been laboring on for so many months.

So, Mr. Speaker, I would urge Members at this time to vote against this rule. It is not appropriate for this particular occasion. Yes, we will have an opportunity. I understand. The Speaker made a commitment to me because we talked earlier about it before the end of July. Well, Mr. Speaker, we are into August, and the Speaker is a man of his word, and we work well together, and I would always give him that opportunity, if we get a commitment, after we get back again, and we are going to be here after the August recess, but to do it in a more orderly fashion where we can really have an open rule, at least some measure of letting individual Members offer amendments. Then I could feel much more comfortable about the rule.

However, Mr. Speaker, as for now, closed as it is, I would urge Members to vote against this rule with the hope and expectation that, if it is defeated, then we come back at another time with more time at our disposal and do this job up right.

Mr. BONIOR. Mr. Speaker, I yield the balance of my time to the distinguished gentleman from Washington [Mr. SWIFT], who has labored so hard and so well on this piece of legislation.

Mr. SWIFT. Mr. Speaker, I am looking forward to the debate that we will be getting into shortly. We will have an opportunity, for example, to deal with the accusation that our soft money proposal does not do the job, where theirs just shuts it off: Except for the loophole that would let every dollar that is currently being shoveled through State parties to be shoveled through county parties. And utterly no disclosure. The Democratic proposal has disclosure on soft money. The debate is going to be very interesting.

Mr. Speaker, the rule is fair. Campaign finance reform needs to be comprehensive, and it needs to be cohesive, and the rule provides each party with the opportunity to provide a reform package that will do that.

Now, Mr. Speaker, I will accept Swift 1 and Swift 2. I think that is fine. I would make a small suggestion on the numbering. I think it should be Swift 1.0 and Swift 1.1, similar to the way they number computer software programs as they improve them. I think that would be fine.

But let us look at numbers in terms of the Republican proposals. They had the 25 points. Then we had 17 of those points left when they introduced their 10 bills. And out of 10 bills, they have now in their substitute offered eight points. Again they lost nine of the other points. This is the incredible shrinking reform proposal.

What does this rule offer the Republicans? An opportunity to offer everything they want put it in a comprehensive package. That is what we have done. They can offer the House everything they want.

Mr. Speaker, that is not a harsh rule, not when we are looking for a comprehensive, cohesive proposal, and yet we find that, after the ambitious 25 points, which shrunk to 17 points, which have now shrunk to 8 points, that I have a suggestion.

Mr. Speaker, the suggestion is: Pass this rule. Hurry to the debate. Pass this rule now because, if we wait until September, the Republican reform proposal will have disappeared altogether.

Mr. BONIOR. Mr. Speaker, I have no further requests for time, I yield back the balance of my time, and I move the previous question on the resolution.

The previous question was ordered.

The SPEAKER pro tempore (Mr. HOYER). The question is on the resolution.

The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

Mr. FRENZEL. Mr. Speaker, I object to the vote on the ground that a quorum is not present and make the point of order that a quorum is not present.

The SPEAKER pro tempore. Evidently a quorum is not present.

The Sergeant at Arms will notify absent Members.

The vote was taken by electronic device and there were—yeas 232, nays 185, not voting 15 as follows:

□ 1706

The Clerk announced the following pairs:

On this vote:

Mr Nelson of Florida for, with Mr. Pursell against.

Mr. Ford of Michigan for, with Mr. Roukema against.

Mr. BAKER and Mr. BARTLETT changed their votes from "yea" to "nay."

Mr. YATES changed his vote from "nay" to "yea."

So the resolution was agreed to.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

MOTION TO ADJOURN

Mr. WALKER. Mr. Speaker, I offer a privileged motion.

The SPEAKER pro tempore (Mr. TALLON). The Clerk will report the privileged motion.

The Clerk read as follows:

Mr. WALKER moves that the House do now adjourn.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Pennsylvania [Mr. WALKER].

Mr. GEPHARDT. Mr. Speaker, I move to table the motion.

The SPEAKER pro tempore. The Chair will state to the gentleman that the motion is not subject to a motion to table.

The question is on the motion to adjourn.

The question was taken; and the Speaker pro tempore announced that the noes appeared to have it.

Mr. WALKER. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The vote was taken by electronic device, and there were—yeas 129, nays 275, not voting 28, as follows:

□ 1726

Mr. KLECZKA changed his vote from "yea" to "nay."

Mr. PAXON changed his vote from "nay" to "yea."

So the motion to adjourn was rejected.

The result of the vote was announced as above recorded.

CAMPAIGN COST REDUCTION AND REFORM ACT OF 1990

The SPEAKER pro tempore (Mr. OBERSTAR). Pursuant to House Resolution 453 and rule XXIII, the Chair declares the House in the Committee of the Whole House on the State of the Union for the consideration of the bill, H.R. 5400.

□ 1727

IN THE COMMITTEE OF THE WHOLE

Accordingly, the House resolved itself into the Committee of the Whole House on the State of the Union for the consideration of the bill (H.R. 5400) to amend the Federal Election Campaign Act of 1971 and certain related laws to clarify such provisions with respect to Federal elections, to reduce costs in House of Representatives elections, and for other purposes, with Mr. HOYER in the chair.

The Clerk read the title of the bill.

The CHAIRMAN. Pursuant to the rule, the bill is considered as having been read the first time.

Under the rule, the gentleman from Washington [Mr. SWIFT] will be recognized for 1 hour, and the gentleman from California [Mr. THOMAS] will be recognized for 1 hour.

The Chair recognizes the gentleman from Washington [Mr. SWIFT].

□ 1730

Mr. SWIFT. Mr. Chairman, I yield myself such time as I may consume.

Mr. Chairman, the issue of campaign finance reform has been argued and discussed by the media for months, has recently been debated and acted upon in the Senate and is now before the House.

This is a highly personal issue to all of us. We are all experts on this subject. We ran and were elected under a certain set of laws and it is difficult to conceive changing those rules.

But times change, events occur which promote change, and I think it is evident to many of us, indeed perhaps to the overwhelming majority of us, that the laws and procedures under which congressional elections are financed need review and refinement.

The House has gone this route before. We passed the Federal Election Campaign Act in 1971 and have amended it several times over the years. That was a far-reaching act, a major reform. If the provisions of that act were in effect now, we would have many fewer concerns about changing the legislation. Unfortunately, as we all know, the Supreme Court struck the key section of the act—the spending limit section. Thus, the careful balanced reform was thrown out of kilter, leaving us with open-ended spending.

Without a spending limit, the cost of election campaigning has gone wild; the pressure to raise and spend enormous sums accelerates. The average incumbent spent about twice in 1988 what he or she spent in 1980. It's absurd and we all know it.

This great rush of money into the election process has brought on a rash of problems, some real, some potential. The movement toward reform has been growing over the past several years and has obviously peaked in this Congress.

The action by the Senate in passing its version of campaign reform merely underscores the necessity for the House to act, and to act now.

In January 1989, I, along with Chairman ANNUNZIO and others, introduced H.R. 13 and Tony Coelho, MIKE SYNAR, and others introduced H.R. 14, both comprehensive campaign reform packages. So the Democrats immediately went on record as wanting to move ahead on this issue in the 101st Congress.

In February of last year, Speaker Jim Wright and minority leader BOB MICHEL appointed a bipartisan task force, eight Democrats and eight Republicans, to try to work out a comprehensive, bipartisan reform package. I was pleased to cochair this task force with my good friend and very able colleague, GUY VANDER JAGT. The task force held a series of meetings; the atmosphere was positive and constructive.

As the task force meetings progressed, it became obvious that while there was basic conceptual agreement on a number of items within an overall package, Republicans and Democrats had very different views on the definition of campaign finance reform, and that a bipartisan comprehensive bill was not going to be attainable under those circumstances. I had many meetings with Mr. VANDER JAGT and our staffs were in constant touch, but the philosophical gap proved too great.

Rather than let the issue drop, both parties continued to work, independently, on the issue, and the result of that effort is before us today.

H.R. 5400 is major reform; it's comprehensive; it's workable; it's good public policy.

First, and most important, it puts a cap on campaign spending. Because of the Supreme Court decision, this cap must be voluntary, so there are inducements in reduced broadcasting and postage costs to make opting into the program attractive.

We establish a basic spending limit of $550,000 for an election cycle, with a primary election spending limit of $300,000. To compensate for the potential financial disadvantage which might occur in a close, hotly contested

primary race, we introduced a 30-percent general election spending bonus for those primary winners who receive less than two-thirds of the vote. The $550,000 general limit, however, remains in place. The bill has a special provision for runoff elections and places a $75,000 limit on the personal contribution of participating candidates.

Much attention has been focused on political action committees and a massive effort has been made to discredit all PAC's.

Some have conveniently forgotten that political action committees were established as reforms—as part of the effort to provide the fullest possible disclosure. When a candidate receives a PAC contribution it's on the record and everyone knows just where that contribution is coming from. That is not always true with individual contributions. Federal law only requires the minimum amount of identification on individual contributions.

Many political action committees provide an ideal vehicle for constituents of modest means to contribute something and play a role in the political process. Some PAC's have thousands of contributors who can only give a small amount of money, others have very few members who contribute the maximum, so all PAC's are not equal.

H.R. 5400 recognizes this disparity. First, it sets a 50 percent, or $275,000, aggregate limit on PAC contributions which a candidate may accept. Second, it establishes small donor committees, which are political committees which raise their funds exclusively from individual contributors of $240 or less per year. These small donor committees would be able to contribute $5,000 per election. All other PAC's not limiting their fundraising to individual contributions of $240 or less per year would be allowed to contribute only $1,000 per election. H.R. 5400 also puts an end to so-called leadership PAC's.

The outrageous raising and spending of soft money in the 1988 Presidential election, clearly in violation of the intent of the law, has focused attention to that area. H.R. 5400 closes the soft money loophole in current law by prohibiting Presidential candidates who accept public funds from raising or receiving any soft money. The bill goes further, and bans the use of political party soft money for the purpose of influencing Federal elections. Finally, the bill requires full reporting of all soft money receipts and disbursements. The problems related to soft money are dealt with firmly and effectively in H.R. 5400.

The practice of bundling campaign contributions has gotten totally out of hand, and, again, HR. 5400 deals effectively with this problem by prohibiting bundling by political action committees and parties.

Independent expenditures have been a problem for the other body and are a growing concern in House contests. Our bill tightens the regulations on independent expenditures by prohibiting the costs of such expenditures from being underwritten by the treasuries of corporate, union, or trade association PAC's. The bill also requires additional disclaimers to make certain the public knows that these messages are totally unrelated to a candidate.

Some messages need to be more closely related to a candidate, and those have to do with negative advertisements. H.R 5400 requires that all authorized campaign advertisements clearly state that the candidate takes full responsibility for the message.

To encourage those who wish to contribute to a congressional campaign but feel overwhelmed by the flood of money that currently washes through our political system, our bill allows a 100-percent tax credit for in-State contributions of $50 or less to candidates abiding by the spending limits.

There are other important reforms in this legislation which will be discussed as we go along in the debate. In general, the bill contains all the items of conceptual agreement reached by the bipartisan task force. This is a giant step forward. H.R. 5400 is good for the country, is good for the House, and is good for each of us individually. I urge all of my colleagues to vote for H.R. 5400.

Mr. Chairman, I insert with my statement a summary and section-by-section analysis of H.R. 5400.

THE CAMPAIGN COST REDUCTION AND REFORM ACT OF 1990

Amendment in the Nature of a Substitute to H.R. 5400, Made in Order as Original Text

SECTION-BY-SECTION ANALYSIS

Section 1: Short Title.—This Act may be cited as the Campaign Cost Reduction and Reform Act of 1990.

TITLE I—AMENDMENTS TO THE FEDERAL ELECTION CAMPAIGN ACT OF 1971

"Definition of a Qualifying House of Representative Candidate"

Sec. 101 defines the term "qualifying House of Representatives candidate" to mean a candidate for the office of Representative in, or Delegate or Resident Commissioner to, the Congress, whose principal campaign committee includes in its statement of organization a declaration of intention under section 303(b)(7) and, by reason of such declaration, to abide by the expenditure limitations specified in section 315(h) or section 315(i)

"Amendments to Definition of Contribution"

Sec. 102(a)(1) amends the definition of the term "anything of value" to require the value of campaign contributions to be determined by the higher of: (1) cost to the person making the contribution; (2) fair market value on the date of acquisition by the person making the contribution; (3) fair market value on the date of the contribution. This provision prevents the Act's contribution limitations from being circumvented through undervaluation of in-kind contributions.

Secs. 102(a)(2) and 102(a)(3) provide that any gift, subscription, loan, advance, or deposit of money or anything of value is a contribution is made by any person for the purpose of encouraging any specific individual who is not a candidate to become a candidate. This provision subjects committees formed to encourage an individual to run for office to the reporting and contribution strictures under the Act.

Sec. 102(b) clarifies current law by deleting references to the term "direct mail" in certain party-building exclusions to the definition of "contribution" and inserting "mail" in lieu thereof.

Sec. 102(c) excludes from the definition of contribution the value of any advertising rate reduction made available to a qualifying House of Representatives candidate by a newspaper, magazine, broadcasting station, or cable system, if such reduction is made available to any qualifying House of Representatives candidate during the 90-day period before the election involved. Advertising rate reductions provided pursuant to this provision would be exempt from the Act's prohibition of corporate political contributions.

"Amendments to Definition of Expenditures"

Sec. 103(a)(1) amends the definition of the term "anything of value" to require the value of campaign expenditures to be determined by the higher of: (1) cost to the person making the expenditure; (2) fair market value on the date of acquisition by the person making the expenditure; (3) fair market value on the date of the expenditure. This provision prevents the undervaluing of in-kind expenditures.

Secs. 103(a)(2) and 103(a)(3) provide that any purchase, payment, distribution, loan, advance, deposit, or gift of money or anything of value is an expenditure if made by any person for the purpose of encouraging any specific individual who is not a candidate to become a candidate. This provision reinforces Sec. 102(a).

Sec. 103(b) amends the Act by deleting references to the term "direct mail" in certain party-building exclusions to the definition to "expenditure" and inserting "mail" in lieu thereof. The section clarifies current law.

"Registration as Qualifying House of Representatives Candidate"

Sec. 104(a) provides, in the case of a principal campaign committee of a candidate for the office of Representative in, or Delegate or Resident Commissioner to, the Congress, for registration as a qualifying House of Representatives candidate by declaration of intention to receive broadcast time under section 315(c) of the Communications Act of 1934 or to receive reduced postal rates under section 3629 of title 39, United States Code.

Sec. 104(b) allows a candidate for the House of Representatives to amend the statement of organization in order to include such declaration, if the amendment is filed under section 302(g) not later than the day the candidate becomes a candidate for purposes of State law. Declarations of intention to receive broadcast and postal rate benefits, whether in the original filing or by amendment, may not be revoked.

"Restrictions on Control of Certain Types of Political Committees by Candidates for Federal Office"

Sec. 105 prohibits candidates for Federal office from establishing, maintaining, or controlling a political committee other than an authorized campaign committee or a committee of a political party. In addition, the section provides that for one year after the effective date of this Act, any such political committee may continue to make contributions. At the end of that period such political committee shall disburse all funds by one or more of the following means: Making contributions to a entity qualified, under section 501(c)(3) of the Internal Revenue Code of 1986, or making a contribution to the treasury of the United States; or, contributing to the national, State or local committees of a political party, or, making contributions not to exceed $1,000 to any candidate for elective office.

"Amendment to Definition of Independent Expenditure"

Sec. 106 amends the F.E.C.A. of 1971 to clarify that an expenditure is not an independent expenditure if (A) there is any arrangement, coordination, or direction with respect to the expenditure between the candidate and the person making the expenditure; or (B) with respect to the election, the person making the expenditure is authorized to solicit contributions or make expenditures on behalf of the candidate or an authorized committee of the candidate, is an officer of an authorized committee of the candidate, or receives any compensation or reimbursement from the candidate or an authorized committee of the candidate. This section prohibits coordination between persons or committees making independent expenditures and any Federal candidate.

"Amendments Relating to Limitation on Expenditures in a Single State by Candidates for Presidential Nomination Who Accepts Amounts from the Presidential Primary Matching Payment Account"

Sec. 107 eliminates state-by-state expenditure limitations for presidential candidates who accept amounts from the presidential primary matching payment account. This provision in no way changes the overall, national expenditure limitation for presidential candidates who accept public funding.

"Limitations on Expenditures by Qualifying House of Representatives Candidates"

Section 108 provides for limitations on expenditures by qualifying House of Representatives candidates.

Sec. 108(h) prohibits a qualifying House of Representatives candidate from making expenditures derived from personal funds of such candidate in excess of $75,000 with respect to an election for the Office of Representative in, or Delegate or Resident Commissioner to, the Congress.

Sec. 108(i)(1) prohibits, except as provided in paragraph (2), (3), or (4), a qualifying House of Representatives candidate from spending more than $550,000 with respect to a general or special election (and any primary election relating to such general or special election); $300,000 with respect to a primary election for such office, except that, if under State law, a candidate who receives a majority of votes in the primary election is elected to the office involved and there is no general election, in which case the primary election spending ceiling would be $400,000; or $100,000 with respect to a runoff election for such office.

Sec. 108(i)(2) provides that if any candidate in an election referred to in paragraph (1) other than a qualifying House of Representatives candidate receives contributions or makes expenditures aggregating more than $200,000, such candidate shall so notify the Commission within 72 hours and the limitation under that paragraph shall not apply to any candidate in the election.

Sec. 108(i)(3) provides for indexing of the expenditure limitations established by paragraph (1). Such adjustments are to be rounded to the nearest $1,000 and shall be made with respect to each 4-year period beginning after calendar year 1992. The price index average shall be computed for each 4-year period ending before a presidential election, with the applicable base period being the 4-year period ending with calendar year 1992.

Sec. 108(i)(4) provides that if, in a primary election with respect to a general election, a qualifying House of Representatives candidate receives the greatest number of votes and becomes the nominee of the political party involved and receives less than 66.7 percent of the total number of votes cast in the primary election, the limitation applicable to the qualifying House of Representatives candidate under paragraph (1)(A) shall be increased by 30 percent, except that the total of expenditures of the candidate with respect to the general election may not exceed $550,000.

Sec. 108(i)(5) provides that in computing expenditures for purposes of paragraph (1), no amount of legal or accounting fees shall be taken into account.

Sec. 108(i)(6) provides that in computing expenditures for purposes of paragraph (1), expenditures for broadcasting, newspapers, magazines, billboards, mail, and similar types of general public advertising shall be allocated to the election time period during which the advertising appears, and other expenditures shall be allocated to the election period in which the expenditure is made.

Sec. 108(j) requires any qualifying House of Representatives candidate who makes expenditures that exceed a limitation under subsection (h) or subsection (i) by 5 percent or less to pay to the FEC, for deposit in the Treasury as miscellaneous receipts, an amount equal to the amount of the excess expenditures. For overspending by 5 percent and less than 10 percent, the provision requires qualifying candidates to pay the FEC an amount equal to three times the amount of the excess expenditures. For overspending by 10 percent or more, qualifying candidates must pay the FEC an amount equal to three times the amount of the excess expenditures plus a civil penalty in an amount determined by the Commission.

"Limitation on Acceptance of Political Committee Contributions by House of Representative Candidates"

Sec. 109 amends the Federal Election Campaign Act of 1971, as amended by sections 107(b) and 108 of this Act, to prohibit a candidate for the office of Representative in, or Delegate or Resident Commissioner to, the Congress, and the authorized political committees of such candidate, from accepting any contribution from a political committee with respect to a general or special election (and any primary election relating to such) for such office which exceeds 50 percent of the expenditure limitation specified in subsection (i)(1)(A) when added to the total of contributions previously made by political committees to such candidate and the authorized political committees of such candidate with respect to the general or special election (and any relating primary). In addition, the section establishes a cap on political committee contributions of 50% of the limitation specified in subsection (i)(1)(C) for runoff elections.

These limitations on contributions from political committees apply both to qualifying and nonqualifying House of Representatives candidates.

"All Contributions in Elections for Federal Office to Be Subject to the Federal Election Campaign Act of 1971"

Sec. 110 amends the Act to prohibit candidates from accepting any contribution with respect to an election for Federal office if the gift, subscription loan, deposit, thing of value, or payment constituting the contribution is given or made with respect to an election for State office or otherwise is not subject to the Act.

"Intermediary or Conduit Amendments"

Sec. 111 provides for the counting of campaign contributions against the Federal contribution limitations of both original donors and political committees acting as intermediaries for such funds, thereby preventing the Act's strictures from being circumvented.

Sec. 111(B) would limit the bundling of all contributions in the form of a check or other negotiable instrument made payable to a conduit to the amount of the contribution limitation of the individual or committee serving as intermediary. It also specifies that bundled contributions funnelled through a political committee or its officers, employees or agents, or other agents of a connected organization acting in its behalf, shall be counted against the contribution limit of the conduit without regard to whom the contribution is made payable.

Sec. 111(C) provides exemptions for bona fide efforts conducted solely for the purpose of sponsorship of a fundraising reception, dinner, or event by two or more candidates, two or more national, State, or local committees of a political party acting on their own behalf, and fundraising efforts for the benefit of a candidate.

"Encouragement Amounts to be Treated as Contributions"

Sec. 112 amends the Act to require a contribution described in section 301(8)(A)(iii) to be treated, with respect to the individual involved, as a contribution to a candidate, whether or not such individual becomes a candidate. This provides for the treating of amounts donated to prospective candidates for Federal office as contributions.

"Contributions to Candidates from State and Local Committees of Political Parties to be Aggregated"

Sec. 113 further amends section 315(a) of the Federal Election Campaign Act of 1971, as amended by sections 111 and 112, to prohibit a candidate for Federal office from accepting, with respect to an election, any contribution from a State or local committee of a political party (including any subordinate committee of such committee), if such contribution, when added to the total of contributions previously accepted from all such committees of that political party, exceeds a limitation on contributions to a candidate under this section. This section prevents State or local party committees from acting as conduits for the circumvention of contribution limitations and reporting requirements under the Act.

"Application of Limitations and Reporting Requirements to Certain Amounts Not Defined As Contributions or Expenditures Under the Federal Election Campaign Act of 1971"

Sec. 114 amends the Act to provide that any amount received or used by a State or local committee of a political party for an excluded payment shall be subject to limitation and reporting under the Act as if such amount was a contribution or expenditure, as applicable. No part of such amount may be allocated to a non-Federal account or otherwise maintained in, or paid from, an account that is not subject to this Act.

This section ends the practice by which contribution and expenditure limitations for presidential candidates can be circumvented through the use of so-called "soft money", thus ensuring that activities which promote a presidential candidate are paid for with funds in compliance with the Act. It does not prohibit the distribution of sample ballots or printed slate cards listing three or more candidates.

"Provisions Relating to Separate Segregated Funds"

Sec. 115 amends section 316(b)(2) of the Act to permit corporations, labor organizations, membership organizations, cooperatives and corporations without capital stock to defray the costs of administration and solicitation of contributions to separate segregated funds, if amounts disbursed from such funds are used solely for communication or campaign costs under subparagraph (A) or (B), contributions with respect to elections for Federal or State office, or non-election related purposes.

The provision in no way prohibits the establishment of separate segregated funds for other political purposes but put such funds on the same financial footing as other political committees if these funds engage in broader political activities.

"Disclosure in Solicitations by Certain Unauthorized Committees"

Sec. 116 requires communications by political committees not authorized by any candidate (other than political party committees) to include a clear statement that neither the committee nor the communication is authorized by a candidate or under the control of a candidate. This section is designed to prevent misleading solicitation practices by unauthorized organizations.

"Specific Disclosure Requirements for Certain Communications"

Sec. 117 amends 2 U.S.C. 441d to require any authorized political communication broadcast over a television station to include a readily identifiable photographic or similar image of the candidate, shown for at least 4 seconds and of sufficient size to cover at least one-third of the television screen, accompanied by statement that the candidate takes full responsibility for the advertisement's content. The section also requires any unauthorized political communication which is televised to display a continuous statement, of sufficient size to be clearly visible to the viewer, identifying the person paying for the advertisement throughout the communication's duration. Political communications through newspapers, direct mail, radio and other media would be required to include similar identifying information and, in the case of authorized communications, a statement indicating candidate acceptance of full responsibility.

"Prohibition of False Representation to Solicit Contributions"

Sec. 118 prohibits any person from soliciting contributions by falsely representing himself as a candidate or as an agent of a candidate, a political committee, or a political party.

"Contribution Limitations for Small Donor Political Committees; Elimination of Special Contribution Limitations for Multicandidate Political Committees"

Sec. 119 eliminates special contributions limitations for "multicandidate" political committees (commonly referred to as "PACs") and, in lieu thereof, provides for the establishment of "small donor" political committees, meaning broad-based political organizations which restrict their fundraising to individual contributions of $240 or less per year.

Sec. 119(a) provides that a small donor political committee may make contributions to any candidate for Federal office and the authorized political committees of such candidate with respect to an election which, in the aggregate, do not exceed $5,000.

Sec. 119(b) defines the term "small donor political committee" to mean a political committee that has been registered under section 303 for at least 6 months, has received contributions from more than 50 persons, has made contributions to 5 or more candidates for Federal office, accepts contributions only from individuals, and does not accept contributions totaling more than $240 from any single individuals in a calendar year.

Sec. 119(c), a conforming amendment, restricts the ability of a political committee to donate, with respect to an election, more than $1,000 unless the committee qualifies as a "small donor" political committee, in which case the contribution limitations established above in Sec. 119(a) would apply.

"Clarification Relating to Certain Contributions"

Sec. 120 amends the Act to make clear that a gift or other item referred to in 301(8)(A)(i) is considered for the purpose of influencing an election for Federal office if it is given in response to a solicitation that states or implies that it is to be used for that purpose, whether or not the gift or other item is characterized, in a document or otherwise, as being for another purpose. Under this section, candidates and their representatives may not circumvent the Act's limitations by soliciting contributions for one purpose and depositing such funds in an account established for another use.

"Coordinated Expenditures to Be Made Only From Amounts Subject to the Federal Election Campaign Act of 1971"

Sec. 121 amends the F.E.C.A. to require coordinated expenditures under section 315(d) to consist only of amounts that as received by the committee making the expenditure, are subject to limitation and reporting under the Act, and are paid from an account that is subject to the Act's requirements. The section thereby assures that only funds raised in compliance with the Act are used to influence Federal elections.

"Additional Exclusions from the Definitions of Contributions and Expenditures"

Sec. 122 amends the F.E.C.A to exclude the following activities from the definitions of "contributions" and "expenditures": any amount for a candidate for other than Federal office; any amount in connection with a State or local political convention; any campaign activity, including broadcasting, newspaper, magazine, billboard, mass mail, and newsletter communications, and similar kinds of communications or public advertising that is exclusively on behalf of State or local candidates; administrative expenses of a State or local committee of a political party, including expenses for overhead, staff (other than individuals devoting a substantial portion of their activities to elections for Federal office), meetings, and conducting party elections or caucuses; research pertaining solely to State and local candidates and issues; and maintenance of voter files. The section clarifies that state payments not designed to influence Federal elections are not subject to the Act's limitations and reporting requirements.

"Additional Reporting Requirements"

Sec. 123 amends the Act to set additional reporting requirements. The section requires each state committee of a political party to file with the Commission, in addition to any other report required by law, any report of non-Federal receipts and disbursements filed by the committee under State law, and such supplementary material as the Commission may require to assure compliance with the Act. It also requires each national committee of a political party to file, as part of each report to the Commission, a statement of all receipts and disbursements by the committee in the reporting period, including receipts and disbursements for non-Federal purposes. In addition, the section requires any individual who makes contributions that are subject to limitation under section 315(a)(3) to report to the Commission the name of the person making the contributions and the amount and recipient of each such contribution not later than 7 days after making contributions aggregating $20,000 or more, but less than $25,000, in a calendar year. Individuals must also report the above mentioned information not later than 7 days after making contributions aggregating $25,000 in a calendar year with respect to contributions not previously reported.

"Transfers Between Elections"

Sec. 124 provides that notwithstanding any other provision of this Act or any other law, a candidate may transfer any unexpended campaign funds for use with respect to any later election.

TITLE II—AMENDMENTS TO THE COMMUNICATIONS ACT OF 1934 AND TITLE 39, UNITED STATES CODE

"Amendment to Section 312(a) of the Communications Act of 1934, Relating to Discrimination Against Candidates"

Sec. 201 empowers the FCC to revoke any station license or construction permit for willful or repeated discrimination against a candidate in the amount, class, or period of time made available to such candidate on behalf of his candidacy.

"Amendment to Section 315 of the Communications Act of 1934, Relating to Candidate Access"

Sec. 202 requires licensees, in providing access to use of a broadcasting station with respect to a campaign, to give priority to legally qualified candidates for public office over other political users. It thereby ensures that broadcasters faced with a limited inventory supply will make air-time available first to candidates and then to other political users.

The purpose of this subsection is to make it clear that as between a purchase of time by a candidate or his committee on behalf

of his candidacy and by oher political users, the licensee or cable system is to give priority to a purchase by a candidate or his committee on behalf of his candidacy. If other political users have already purchased preemptible time, and a political candidate or his committee desires to purchae the same time at comparable rates, the other political user's purchase shall be preempted by the licensee or cable system in favor of the candidate or candidate committee. It is the intent of this legislation that if the other political user has purchased fixed time desired by the candidate, the other political user's purchase shall be preempted by the licensee or cable system in favor of the candidate or his committee. In any circumstance in which a candidate or his committee and other political users have requested the purchase of time as yet unsold, the licensee or cable system shall sell that time to the candidate or his committee.

"Amendment to Section 315 of the Communications Act of 1934, Relating to Use of Broadcasting Stations by Candidates"

Sec. 203(a) amends the Communications Act of 1934 to exclude debate between candidates from the use of a broadcasting station within the meaning of the subsection.

Sec. 203(b) repeals the lowest unit rate requirement and, in lieu thereof, provides that charges made for the use of any broadcasting station by a legally qualified candidate in connection with his campaign for nomination or election shall not exceed the charges for comparable use of such station by other users. It also provides that in determining charges to legally qualified candidates, a licensee must disregard any charge for special or nontypical commercial use by other users. This section prohibits licensees from establishing rates for candidates that are not normally extended to and used by commercial advertisers.

Sec. 203(c) requires licensees to make available additional time, without extra cost, to a qualifying House of Representatives candidate who purchases at least 2 political advertisements. The additional time provided must be equal in market value to one-half of the total time purchased.

Sec. 203(d) states that licensees, in affording equal opportunities to candidates under this subjection, are not required to make time available to a candidate without cost when additional time is made available free of charge to a House candidate who is qualifying.

It the intent of this legislation that operators of cable systems shall make advertising time available to political candidates or their authorized committees on all cable system channels sold, and on any public access channel on which time would be available to a member of the general public.

"Amendment to Section 315 of the Communications Act of 1934 Relating to Disclosure Requirements for Certain Political Communications"

Sec. 204 amends the Communications Act of 1934 to prohibit licensees from allowing the use of a broadcasting station for a communication that is not in compliance with the disclosure requirements specified in subsections (d), (e), (f), or (g) of section 318 of the Federal Election Campaign Act.

In resolving any disputes regarding decisions made or actions taken by broadcast licensees or cable systems to implement subsections (d), (e), (g), or (h) of Sec. 318 of the Federal Election Campaign Act of 1971, the FCC shall defer to the reasonable good faith judgments of said licensees and cable systems. No broadcast licensee or cable system shall be found to have violated any provision of the Federal Election Campaign Act of 1971 or the Communications Act of 1934, as amended, because of the reasonable good faith decisions it makes and actions it takes to implement the purposes of said subsections.

"Amendments to Title 39, United States Code, Relating to Postal Rates for Certain Election Materials"

Sec. 205 adds to 39 U.S.C. 369, providing postal rates to qualifying House of Representatives candidates for first-class mail matter of one-half of the rates currently in effect, and for third-class bulk mail matter, the same rates as the rates of postage for a qualified political committee. These reduced rates shall be made available only with respect to matter mailed during the 90-day period ending on the day before the date of the election involved. The section also authorizes the reimbursement of the U.S. Postal Service, through the Revenue Forgone appropriation, for any resulting revenue loss.

"Amendments to the Internal Revenue Code of 1986 Relating to the Credit for Contributions to Qualifying House of Representatives Candidates"

Sec. 206 provides for a 100 percent credit, up to a maximum credit for a taxable year of $50 ($100 in the case of a joint return), for in-state contributions to qualifying House of Representatives candidates. The tax credit under this section shall apply to taxable years beginning after December 31, 1990, and would be allowed with respect to any qualified political contributions, only if such contribution is verified in such manner as the Secretary shall prescribe by regulations.

"Amendment to Section 1003 of the Internal Revenue Code of 1986"

Sec. 207 amends the Internal Revenue Code of 1986 to prohibit presidential candidates or their agents, as a condition of eligibility to receive public funding of their campaigns, from soliciting or receiving, directly or indirectly, any funds that are not subject to limitation and reporting under the Federal Election Campaign Act or are allocated to a non-Federal account or otherwise maintained in, or paid from, an account that is not subject to that Act. The section reinforces provisions designed to prevent presidential candidates and their representatives from soliciting or receiving any funds not regulated by the Act.

TITLE III—EFFECTIVE DATE

"Effective Date"

Sec. 301 states that, except as otherwise provided, the amendments made by this Act shall apply with respect to elections for Federal office beginning with the general election of November 3, 1992 (and any primary election relating to such).

SUMMARY OF THE DEMOCRATIC LEADERSHIP CAMPAIGN FINANCE REFORM PACKAGE: THE CAMPAIGN COST REDUCTION AND REFORM ACT OF 1990

PURPOSE OF THE BILL

The purpose of H.R. 5400 is to amend the Federal Election Campaign Act of 1971 and certain related laws to provide for a voluntary system of spending limits for House elections, to reduce campaign costs, to limit aggregate contributions from political committees, to restrict the use of "soft money", to encourage increased participation by small contributors, to provide for greater regulations of independent expenditures, and for other purposes.

EXPENDITURE LIMITATIONS FOR HOUSE CAMPAIGNS

Voluntary Spending Limits (Sec. 108): Because mandatory limitations on campaign expenditures were held unconstitutional in the controversial 1976 Supreme Court case of *Buckley* v. *Valeo*, candidates must agree to limit their spending voluntarily.

Under the proposal, candidates who choose to participate in the system would voluntarily limit their overall spending to $550,000 for the election cycle. No more than $300,000 of that amount could be spent in the primary, except in states where the primary election may be determinative, in which case there would be a primary cap of $400,000. In addition, participating candidates winning primary elections with less than 66.7 percent of the total vote would be allowed a 30% spending bonus in the general election, provided that their total general election expenditures do not exceed $550,000. (The maximum possible spending bonus would thus be $165,000). There would be a separate limit of $100,000 for runoff elections. Each of these spending limits would be adjusted for inflation every four years. The bill provides an exemption from the spending limits for legal or accounting fees. Finally, participating candidates would be prohibited from making expenditures derived from person funds in excess of $75,000 with respect to an election. Candidates must declare whether or not they wish to participate by the time of their state's filing deadline; once a decision is made to opt in, it cannot be revoked.

Benefits for Eligible Candidates: Candidates abiding by spending limits would be entitled to the following comunication benefits:

A. Reduced Broadcasting Costs (Sec. 203): Participating candidates would be entitled to one free TV or radio spot of comparable value for every two paid for. This provision amounts to a one-third discount on broadcast costs for candidates limiting their campaign spending.

B. Reduced Postage Costs (Sec. 205): Participating candidates would be entitled to mail at either (1) one-half the first-class postage rate; or (2) the non-profit, bulk third-class rate. Either option could be selected for any given mailing. The postal rate reduction is available only during the 90 days prior to an election.

C. 100% Tax Credit for Small, In-State Contributions (Sec. 206): Participating candidates would be allowed, in taxable years beginning after December 31, 1990, to solicit contributions eligible for a credit. A 100% tax credit would be provided for in-state contributions to participating House candidates of up to $50 (single return)/ $100 (joint return) per year.

Removal of spending limits for a candidate with non-participaing opponent (Sec. 108): The proposal removes the limits on personal funds and overall spending entirely for a participating candidate when an opponent is not participating and raises or spends more than $200,000. (The opponent must notify the FEC within 72 hours upon such event). Under the program, the participating candidate would still be afforded media and postage benefits, thereby assuring that those candidates who wish to limit their spending can do so without being put at a disadvanage relative to wealthy candidates who are not participating in the system.

Penalties for Overspending (Sec. 108): Participating candidates who spend more than the limit, but less than 5% more, would be required to pay a penalty to the F.E.C., for deposit in the Treasury, equal to the excess amount. For overspending by more than 5%, candidates would have to pay three times the excess expenditure. For overspending by 10% more, the FEC could impose additional penalties, over and above triple payment of the excess expenditure.

The system of spending limits that would be established by this bill serves several important public interests. Such a system would facilitate communication by candidates with the electorate by lowering the cost of broadcast time and postage, thus enhancing public discussion. Second, it would reduce the risk of corruption and the appearance of corruption by diminishing the role of large private contributors. Finally, it would relieve candidates of the burdens of fundraising, thereby affording them more opportunity to address the issues and communicate with the voters.

LIMITATION AND REFORM OF POLITICAL COMMITTEES

Establishment of Small Donor Committees (Sec. 119): The proposal eliminates special contribution limits in the law for "multicandidate" political committees (commonly referred to as "PACs") and, in lieu thereof, provides for the creation of "Small Donor" Committees. Small Donor Committees are defined as political committees that have been registered for at least 6 months, have made contributions to 5 or more Federal candidates and which restrict their fundraising to individual contributions of $240 or less per year.

Contribution Limits for Small Donor Committees (Sec. 119): Small Donor Committees would be allowed to contribute $5,000 per election to authorized candidate committees. (Political committees not qualifying as small donor committees would be allowed to contribute only $1,000 per election).

Aggregate Limitation on PAC Contributions (Sec. 109): House of Representatives candidates would be prohibited from accepting more than 50 percent ($275,000) of the spending limit in contributions from political action committees with respect to an election cycle. This applies to both participating and nonparticipating candidates. Funds carried over from previous campaigns, irrespective of their original contributory source, are not counted against this aggregate limitation.

Congress is concerned with the significant increase in the amount of money contributed by political action committees to candidates, and in the ratio of these contributions to the total contributions received by such candidates. The imposition of a ceiling on aggregate contributions from such committees would preserve the integrity of the election process, preventing corruption and the appearance of corruption.

Leadership PACs (Sec. 105): Federal candidates would be prohibited from establishing, maintaining or controlling a political committee other than an authorized committee or a committee of a political party. For one year after the effective date of this Act, any such political committee may continue to make contributions. At the end of that period such political committee would be required to disburse all funds by one or more of the following means: making contributions to a 501(c)(3) organization; making a contribution to the treasury of the United States; contributing to the national, State or local committees of a political party, or making contributions not to exceed $1,000 to any candidate for elective office.

"SOFT MONEY"

Soft Money Provisions (Secs. 110, 114, 120, 121, 122, 123): The proposal takes a multipronged approach to ensure that only funds raised and spent in compliance with the Act's limitations and restrictions are used to influence elections for Federal office, thereby shutting the so-called "soft money" loophole. First, it bans the use of party funds raised outside the strictures of Federal law for the purpose of influencing a Federal election; any party communication or activity that refers to a Federal candidate must be paid entirely out of hand dollars even if state candidates are mentioned. Second, "coordinated expenditures" must be paid out of funds raised in compliance with the Act. Third, presidential candidates accepting public funds are prohibited, directly or indirectly, from soliciting or receiving any soft money. Fourth, the proposal prohibits other Federal candidates from soliciting funds on behalf of their election campaigns and depositing any such amounts in an account not regulated by the Act. Fifth, the proposal prohibits the conversion of state campaign funds to Federal use. Finally, it requires the full disclosure by state and national party committees of all soft money receipts and disbursements.

INDEPENDENT EXPENDITURES

Independent Expenditures by Connected Political Committees (Sec. 115): The ability of corporate, labor union and trade association PACs to underwrite the administrative and solicitation costs of independent expenditures with treasury funds would be eliminated. The entire cost of these expenditures would have to be paid out of the political committee's own funds. This provision in no way prohibits the establishment of separate segregated funds for other political purposes.

Definition of "Independent Expenditure" (Sec. 106): The definition of "independent expenditure" would be tightened to prevent arrangement or coordination between the person or committee making the expenditure and any candidate.

Disclaimers on Independent Communications (Sec. 117): The proposal requires independent expenditure television ads to include a continuous message, clearly visible to the viewer, that identifies the name of the person or committee responsible for the advertisement and indicates that the broadcast was not authorized by any candidate. Newspaper, radio, billboard, direct mail and other public communications woud also be required to include prominent disclaimers.

PROVISIONS RELATING TO CANDIDATE USE OF BROADCAST TIME

Negative Campaign Advertising (Sec. 117): In order to encourage less negative campaigns, the proposal requires authorized television ads to include (whether the candidate personally appears in the ad or not) a photographic image of the candidate along with a statement indicating that the candidate "takes full responsibility" for the advertisement's content. Candidate communications through other media, such as radio, newspapers and direct mail, must include similar statements of responsibility.

Broadcast Discrimination Against Candidates (Sec. 201): The Federal Communication Commission would be empowered to revoke any station license or permit for willful or repeated discrimination against candidates in the amount, class, or period of time made available with respect to their campaigns.

Allocation of Broadcast Time (Sec. 202): Broadcasters would be required to give priority to legally qualified candidates over other political users in allocating air-time.

BUNDLING OF CONTRIBUTIONS

Prohibition of Bundling (Sec. 111): Contributions would be counted against the limits of both the original donor and any political committee, or agent of a political committee, serving as intermediary. This provision closes the "bundling" loophole that has enable certain individual and committees in effect to finance a favored candidate's campaign above and beyond what their contribution limits allow.

ADDITIONAL REPORTING REQUIREMENTS

Reporting by Party Committees and Large Individual Donors (Sec. 123): State party committees would be required to file with the FEC any report filed by the committee under State law as well as such supplementary material as the Commission may require to assure compliance with the Act. Also, each national party committee must file a statement of all receipts and disbursements, including those for non-Federal purposes. In addition, the measure requires individual making contributions aggregating $20,000 or more, but less than $25,000 in a calendar year to report their names and the amount and recipient of each such contribution within 7 days. Individuals making contributions aggregating $25,000 must report to the Commission the above mentioned information with respect to contributions not previously reported.

OTHER MAJOR PROVISIONS

Elimination of Presidential State-by-State Expenditure Limits (Sec. 107): The proposal eliminates state-by-state spending limits for presidential candidates accepting public funding. National expenditure limits are in no way changed.

Encouragement Amounts To Be Treated as Contributions (Sec. 112): The measure provides for the treating of amounts donated to a prospective candidate as contributions whether or not said individual becomes a candidate.

State Part Contribution Loophole (Sec. 113): The total amount of contributions a candidate for Federal office may accept in an election from a state or local committee (including any subordinate committee) of a political party would be limited to $5,000. This provision prohibits state and local party committees from acting as conduits for the circumvention of contribution limitations.

Disclosure in Solicitations by Unauthorized Committees (Sec. 116): The measure requires communications by political committees not authorized by any candidate (other than political party committees) to include a statement that neither the committee nor the communication is authorized by a candidate or under the control of a candidate. This will prevent misleading solicitation practices by unauthorized organizations.

Prohibition of Fraudulent Solicitations (Sec. 118): The measure prohibits the fraudulent solicitation of campaign contributions; no person may raise funds by falsely representing himself as a candidate or as an agent of a candidate, political party or other political committee.

Effective Date (Sec. 301): Except as otherwise provided, the legislation takes effect with respect to elections for Federal office beginning with the 1992 election cycle.

Mr. Chairman, I reserve the remainder of my time.

□ 1740

Mr. THOMAS of California. Mr. Chairman, I yield such time as he may consume to the gentleman from New Jersey [Mr. RINALDO].

Mr. RINALDO. Mr. Chairman, there is no more important issue now before Congress than campaign reform. For that reason, I regret that the efforts undertaken a year and a half ago have given way to partisan politics instead of a meaningful, bipartisan bill.

Make no mistake: We need reform. We need a good, comprehensive, fair bill. And we need it now.

Probably every Member of this Chamber has been the subject of an editorial about fundraising—about the role of money in politics and in our own campaigns—and we are all familiar with the innuendo and insinuation that it is the special interests with the biggest bank rolls who really call the shots.

That is unfair. It is untrue. And we all know it.

But what do we do about it?

How do we convince your constituents and mine that Congress isn't for sale? How do we prove to them that the system really does work and that it is not driven by money?

The last thing we should do is get bogged down in partisan politics and start pointing fingers across the aisle, blaming each other for blocking reform.

Unfortunately, that is what we are engaged in doing, instead of taking the opportunity and passing a substantive bill.

We all know reform will not be easy. I think the efforts of our colleagues since the beginning of last year have proven that.

What we need is political leadership—from the President and from the Speaker and from the majority and minority leaders in the House and in the other body. That is the kind of leadership that will produce a realistic, fair, effective bill.

But let us not kid anybody: We all know that we are not going to write a meaningful bill here on the House floor. True reform will be the product of bipartisan negotiations, not partisan bickering. And it is going to take concessions from both sides of the aisle.

We all know what happens without it.

We give people a perfect opportunity to continue denigrating the institution and the system and their elected representatives.

We should not allow that to happen.

We are never going to remove all money from politics.

When I first ran for Congress in 1972, my campaign cost about $100,000.

But just 10 years later, I was faced with a tremendous challenge.

I had an opponent who was independently wealthy. He was instrumental in gerrymandering my State. And he went on to spend $2.3 million against me in an effort to win a seat in this Chamber. It is the largest amount of money ever spent by a congressional candidate in the history of our country.

I didn't spend nearly that much—in fact, I was outspent by 3 to 1.

But there is something wrong in a system that allows that to happen. Seats in this Chamber should not be for sale—not to the special interests, not to anyone, not at any time.

We all have different ideas on how we need to reform it. Those ideas deserve legitimate, substantive debate—not partisanship.

I urge my colleagues in the leadership, on both sides of the aisle, to renew their efforts to enact meaningful reform.

We deserve it. Our constituents deserve it. And the institution deserves it.

Mr. THOMAS of California. Mr. Chairman, I yield myself such time as I may consume.

I would have liked to have had a general debate on each of the number of positions that the gentleman from Washington has articulated as part of the Democrat campaign plan. We on our side of the aisle went through a very arduous process trying to determine what we thought would be an appropriate campaign reform position, not just a single item, but a comprehensive package.

As I indicated on the debate on the rule, I think we could have come to an agreement on a number of those areas, as we have done in the past. Unfortunately, we had no opportunity to consider this legislation under the committee structure—a structure in which we have taken testimony in the past—and we have never sat down in what we call a markup and made the tough decisions. Instead, the Democrats got together on their side and decided what they wanted, Republicans got together on their side and decided what we wanted. Now, what normally happens in the usual legislative process is after Members do that, we then come together and discuss the relative merits and pick and choose between the two positions. We are not going to do that here today because the Democrats did not write a rule that would provide Members an opportunity to do that.

Oftentimes, the Democrats tell Members that Republicans are irrelevant. Oftentimes, we decide ourselves we are irrelevant to the process. Frankly, that is not true.

I happen to serve on the Committee on Ways and Means as another one of my assignments, and more often than not, Democrats on that committee have come to me and said, "Thank goodness you were in the room when we decided on the policy because you saved us from ourselves," and that, in fact, better legislation comes out of the process of accommodation and compromise than that legislation that Democrats or even Republicans can write by themselves.

So let Members now revisit, once again, the legislation that we have in front of Members, that the Democrats are so proud of, that they believe is comprehensive campaign finance reform, although it has been altered just as recently as 24 hours ago. If Members recall, and return once again with me to Swift 1—and the gentleman from Washington prefers that the modification be Swift 1.1. I was debating Swift and not-so-Swift, but I will accept his Swift 1 and Swift 1.1.

If Members recall under Swift 1, some group of Democrats decided that there ought to be criminal penalties for overspending in their liberal spending structure. As Members recall, after those Democrat Members who wanted a little freer operation spoke for Swift 1.1, that portion of Swift 1 was struck.

If Members will recall, originally some Democrats wanted to ban registered lobbyists from bundling and delivering money. But at the eleventh hour, those who wanted a little looser structure said, "Strike that."

Originally, some folks wanted to ban slate cards financed by corporations, unions, and millionaires. But guess what? There are some folks who operate with straight cards, and they did not want that hampering the good old way of doing business. So what happened? That was struck from Swift 1. And that is what produced Swift 1.1.

But more important than that, some Members sat down and said, "Look, what you are doing after all is limiting us, and we don't want to be limited quite as much as you indicate we should be limited." So where Swift 1 had $550,000, Swift 1.1, if they get less than 66.7 percent of the vote, limits them to $715,000.

Now, the gentleman from Illinois [Mr. HAYES] said he was concerned about whether or not he should really support this bill because he won his election with a lot of union PAC money. It is perfectly legal to take union PAC money. But one of the things that has been discussed is how much PAC money is in the system. I indicated to Members that one of the most comprehensive recent studies indicated that although the American public is concerned about how much money we spend, they are more concerned about the question of influence. Who controls the amount of PAC money? And the gentleman from Washington is advertising the Democrat plan as the Campaign Cost Reduction Act of 1990.

Well, under current law in the 1988 general election cycle, $99.1 million was collected by Democrat and Republican general election candidates from PAC's. What would happen if the Campaign Cost Reduction Act of 1990 goes into effect? In terms of contributions from PAC's $223.6 million would be available. That is the Campaign Cost Reduction Act of 1990 in regard to PAC receipts.

The gentleman from Illinois should not worry, there is plenty of room for his folk.

In addition to that, we have talked about spending limits, that what this

proposal is going to do is put a cap on outrageous total spending. OK, sounds good. Is it as advertised? Let Members take a look at the Campaign Cost Reduction Act of 1990 and take a look at the current law, 1988. Now, I left out third party candidates, but they really skew the amount. There is a lot of them, but very little money involved. We are dealing with Republicans and Democrats, the major candidates. We took a look at the Republican and Democrat incumbents under the 1988 election law, and found how much was spent: $156 million. Under Swift 1, the first Campaign Cost Reduction Act, $226.5 million would be allowed to be spent. But, hey, wait a minute. Remember in the last 24 hours we went from Swift 1 to Swift 1.1? Under Swift 1.1, if we get less than two-thirds of the primary vote, we will be able to spend more.

So let Members look at the refined Campaign Cost Act of 1990. Under the Swift 1.1, they can now spend $294.6 million, an increase of 89 percent over 1988 expenditures. They want to sell the name, Campaign Cost Reduction Act of 1990, but that is not what it does. The other thing that disturbs me a lot is that in the committee system we do good work. Everyone of the Members spends time in committee; we look at the work product; we go into sessions; we attack it; we call in people to give testimony on it; and guess what? Many times we see portions of the bill in a different light after people have talked to Members about what that particular measure might really do. I cannot believe the Democrats meant to do what they do in their bill. For example, the bill says there is only one kind of a committee. It is a small donor committee, and a small donor committee is defined as anyone who runs a PAC that accepts a contribution no greater than $240. That PAC is able to contribute $5,000. But if any anybody gives $240 or more, they have violated the small donor definition. Therefore, they can only give $1,000.

Guess what is included in the definition "political committee," as the way it is written? The Democratic Party, if it accepts one contribution over $240, can give only $1,000. Now, that is true of the Republican Party as well, but I cannot believe anyone would write a piece of legislation that would treat the national political parties in the same way that they were going to treat political action committees. I would have to think that is a mistake, but remember we still have the Synar-Obey amendment to come. That would limit the political parties, if they accepted a contribution more than $240, to $500 as a contribution from the National Democratic Party to a candidate, or the Republican National Party to a candidate.

Now, we will talk about Swift 1.

□ 1750

Mr. Chairman, the gentleman from Washington [Mr. SWIFT] wanted to talk about soft money. He says the Democrats disclose. He is absolutely correct. The Republican provision does not disclose. I say to my colleagues, "You don't disclose what you ban. The only reason you disclose it is because you allow it."

Now, my colleagues, let us take a look at what the Democrats allow, because they really do not eliminate soft money. They allow administrative expenses of a State or local committee of a political party, including expenses for overhead and staff. They allow maintenance of voter files. They allow any amount in connection with a State or local political convention. They allow any amount in a so-called building fund that allows unlimited corporate, union, and political dollars to pay for party offices and any fixed equipment. That is, anything that can be attached to the floor: computers and all of that. In addition, remember they just added slate cards as part of Swift 1.1.

Mr. Chairman, let us talk about transfers. The gentleman from Florida is very concerned about Member to Member transfers in terms of influence peddling. We have seen more and more of it. It has become a habit. I do not think it is very good. The gentleman from Florida [Mr. BENNETT] does not think it is very good. I have to tell the gentleman from Florida [Mr. BENNETT] that his party's plan allows Members to contribute to other Members. Yes, it bans leadership PAC's but it allows Members to control State and local party committees, and, in fact, take from their own committee and give to other committees. I do not think that really gets to the heart of the problem.

Mr. Chairman, the plan of the gentleman from Illinois [Mr. MICHEL] says, "No transfers, not between Member to Member, not between leadership, not between PAC's. You don't move money sideways."

Mr. Chairman, let us talk about spending limits. My colleagues have seen from Swift 1 to Swift 1.1 that the target moved from $550,000 to $715,000. But, is it not fun sitting around arbitrarily determining how much money someone can spend in a campaign regardless of the fact that the district which one represents is an urban district, a major metropolitan city, or it is a rural district, or it is an entire State, or it is a suburban rural mix, or it covers 20,000 square miles, or it covers 60,000 square miles? Somebody had the arrogance to sit down and say, "This is how much you are going to spend. It's $550,000, unless, of course, you don't get two-thirds of the vote in the primary. Then it's $715,000. You can spend $300,000 in the primary, unless, of course, the primary can get you elected, and it's counted as a general. They you can spend $400,000."

However, Mr. Chairman, when my colleagues put all of this mishmash together, what it says is that in a general election in the very same race it is possible that one person could have $550,000 to spend, and someone else would only have $250,000. That is the bottom end; arbitrariness carried to an extreme.

However, Mr. Chairman, the Democrats do not stop there. Take a look at the media section. If one is going to get the free time, they are going to say to that person, "You've got to run a 4-second spot on one-third of the screen."

Mr. Chairman, I ask, "Why wasn't it 3 seconds? Why wasn't it 2 seconds? Why wasn't it 10 seconds?" These people decided on 4 seconds. That is the way it is going to be. No hearing, no discussion from people, no talk about what may or may not be appropriate. Let us pick a number, and that is what we deal with.

Now let us talk about public financing in the Swift bill because it has got it. Now everybody is focusing on Synar-Obey, and they are talking about the direct Treasury contribution in terms of matching funds, and that is public financing. It reminds me of that Gary Larson cartoon of that mosquito that is swelling up enormously because he struck an artery, and the phrase is, "Pull out, pull out." Yet Synar-Obey hits the artery of the Public Treasury, direct Federal funding for elections.

However, Mr. Chairman, I say to my colleagues, "Don't think Swift 1.1 doesn't deal with it." Take a look at the postage section. Every time you buy a stamp, the Federal Government is going to subsidize the other half of it, if you agree to Swift 1.1. It's called revenue foregone. That means the Treasury shall pay.

In a few minutes we will be looking at the Michel substitute. It offers limits. They are not arbitrary fixed limits. They are not bribed limits using Treasury subsidies. But they are meaningful limits. The limits in the Michel amendment are local. The Michel amendment says a majority of funds must come from the people who are in the area. It says, "You can't take a dime from a PAC. You can't take a dime from Washington until the people back home give you that dime."

Mr. Chairman, that is real change. That is fundamental change. That is enabling change. This is not playing games with limits, or allowing people to continue to do what we have been doing.

My colleagues want fundamental change. Please, my colleagues, we have not had a chance to talk about it, but,

please, let us take a look at the idea of allowing local control of campaign finance.

The gentleman from Washington [Mr. SWIFT] said that the difference between Swift 1 and Swift 1.1 was improvement. Let me tell my colleagues that he must think Frankenstein is an improvement over Adam. Maybe he thinks Roseanne Barr sings the national anthem better than Beverly Sills because, if Swift 1.1 is an improvement, then please deliver me from improvements.

Mr. SWIFT. Mr. Chairman, for purposes of debate only, I yield 4 minutes to the gentleman from Arkansas [Mr. ANTHONY].

Mr. ANTHONY. Mr. Speaker, I thank the gentleman from Washington [Mr. SWIFT] for yielding.

First, Mr. Chairman, I would like to engage the gentleman from Washington [Mr. SWIFT] in a colloquy pertaining to section 105 of his proposal prohibiting the so-called leadership PAC's. It contains a transitional period to permit these committees to spend down the money in their accounts. That 1-year transitional period is triggered by the effective date of the act. Can you, as the author of the bill, tell us what that effective date is?

Mr. SWIFT. Mr. Chairman, will the gentleman yield?

Mr. ANTHONY. I yield to the gentleman from Washington.

Mr. SWIFT. Mr. Chairman, for the purposes of section 105, the effective date will be November 3, 1992, which is the only date certain provided for in the bill. Thus, these committees will have 1 year from that date—or until November 3, 1993, to spend down their funds. During that 1-year period these committees will not be permitted to receive any contributions but will only be allowed to make contributions and expenditures. Further, I expect that this will be clarified by the work of the conference committee.

Mr. ANTHONY. Mr. Chairman, the gentleman from California [Mr. THOMAS], my good friend, was making some points about changes in the Swift proposal, the Democratic leadership campaign finance reform package. If the gentleman would, I have just got a few questons I would like to ask because he showed a chart that had 3 years that were stricken on our side of the aisle after we had internal debate, time to think about it, and we thought that it was best to strike it out. The gentleman's statement on the floor made me think that he thought those provisions should have stayed in the Democratic bill, and I was just curious whether or not they are in the Republican substitute.

Mr. THOMAS of California. Mr. Chairman, I apologize to the gentleman for not yielding at the end of my statement. I had intended to do, and I forgot.

Mr. Chairman, the Republican substitute is not a comprehensive, point-by-point reputation of the Democrat proposal. We would have liked to have had the ability to have each of the major sections set aside in a separate position, had the Democrat position offered and they debate between the two. That has not been available to us under the rule, and so what we have offered, as a substitute, is going to the heart of the contentious areas.

The gentleman is a member of the task force, and he knows that we agreed on a number of areas. The titles of those areas are contained in the Democrat proposal. For example, the bundling area. I think we could have come to an agreement, but, rather than us waiting until the last minute, remember we had only until Midnight to come up with our proposal. The other folks were changing their positions until the last minute. Had we had a month or so to sit down after they set their structure, we set our structure, we would have been willing to confront point by point.

What we have are the heart of the difference between us. It is a question of spending limits, a question of PAC's. We do not have a comprehensive, point by point reputation. We could work out bundling and those other are as if we sit down and work together.

Mr. ANTHONY. Mr. Chairman, reclaiming my time, I take the gentleman's answers to be that, no, those three things that he criticized us for striking are not in the Republican substitute.

Mr. THOMAS of California. Mr. Chairman, will the gentleman continue to yield?

Mr. ANTHONY. I yield to the gentleman from California.

Mr. THOMAS of California. But we have one of those in ours. It is just like our question. We were similar there. When they changed theirs, we became different. They allow it. We do not.

Mr. ANTHONY. The second question: Looking through your substitute, and the gentleman has a chart showing how much money could be collected and spent on our side because we have a cap of $550,000. I find no cap in their bill. I assume that there is no cap in their bill.

Mr. THOMAS of California. Mr. Chairman, will the gentleman yield?

Mr. ANTHONY. I yield to the gentleman from California.

Mr. THOMAS of California. Mr. Chairman, the cap is, I think, the best cap of all. How much local people who can actually vote determine should be spent in a campaign. No, we do not have an arbitrary amount. No, we do not dictate what can be done or cannot be done regardless of the size of the district. We say, "Let the people who actually vote in the campaign determine how much is going to be spent.

I know that is novel and revolutionary.

Mr. ANTHONY. Mr. Chairman, I thank the gentleman from California [Mr. THOMAS] for answering those questions.

□ 1800

Mr. THOMAS of California. Mr. Chairman, I yield 3 minutes to the gentlewoman from Nevada [Mrs. VUCANOVICH], a member of the subcommittee that would have heard this legislation had it been brought to the subcommittee and the full committee.

Mrs. VUCANOVICH. Mr. Chairman, I thank the gentleman for yielding this time to me.

Mr. Chairman, I rise today in strong opposition to the bill H.R. 5400, the Campaign Cost Reduction and Reform Act of 1990. Let me make it perfectly clear that I support campaign reform legislation. However, we have not had a chance to refine this measure in a true bipartisan spirit.

First, this bill takes insufficient steps toward limiting PAC contributions. Members of Congress are already perceived by the general public as marionettes dancing under strings manipulated by the fingers of special interest groups. In order to correct this perception, we need real PAC reform, not just language that contains the letters, "P", "A", and "C". Establishing two types of PAC does nothing more than discriminate against smaller organizations and in favor of large, broadbased, interests. Today, we passed the civil rights bill. Now, we turn around and say its OK to choke one organization's resources but not another's. These groups are not inanimate objects, Mr. Chairman, they are composed of the same people we voted to protect just a few hours ago. Either we cut all PAC contributions or we cut none.

Additionally, I understand that an amendment will be offered by the majority party to match individual contributions through direct public financing. That means the taxpayer again, I remind my colleagues of today's earlier events. We have just voted to raise the short-term debt ceiling and now, not more than a few hours later, we are considering creating yet another Government program funded through the U.S. Treasury. The citizens of this great country are asking for campaign reform, not additional spending programs.

It is time that we got serious about campaign reform. It is time we stop sending mixed messages to the American people. I urge my colleagues to oppose this legislation in its current form.

Mr. SWIFT. Mr. Chairman, for purposes of debate only, I yield 2 minutes

to the gentlewoman from Maryland [Mrs. BYRON].

Mrs. BYRON. Mr. Chairman, let me say first of all that I have watched for the last 20 years on a personal basis the escalation of campaign costs. You know, in 1905 was the first time this Congress addressed campaign financing. I had a relative in this body at that time.

Once again in 1925, we addressed campaign financing, and then in 1971, a major campaign financial reform was voted on by this House.

We as Members of this House understand more than anyone else what campaign costs can be. This legislation, which began as a bipartisan effort in February 1989, today comes before us with an enormous amount of work on both sides of the aisle.

No one cannot say it has not been looked at, because it has.

When we try to put together legislation to address a rural district, an urban district, a metropolitan district, the issues are not always the same; but I think the legislation before us today addresses many of those issues.

What is a voluntary limit, all Members and challengers must agree.

It has PAC reform. What is a PAC? It is nothing but an outgrowth of small individual donors to contribute to the political system.

So today before us, this evening, late in the session, it is once again time to readdress this issue. I think the Swift proposal meets the needs of campaign reform.

It is time, as we did in 1971, to move forward.

Mr. THOMAS of California. Mr. Chairman, for purposes of debate only, I yield 5 minutes to the gentleman from Iowa [Mr. LEACH] one Member who has always been associated with positive, progressive, campaign finance reform.

Mr. LEACH of IOWA. Mr. Chairman, I thank the gentleman for yielding this time to me.

Since first running for Congress 16 years ago in the shadow of Watergate, I have consistently urged bipartisan support for campaign reform.

I am convinced that the role of special interest PAC's must be limited in order that individual citizens may be empowered to the maximum extent possible under our representative democratic system.

Today, after more than a decade of congressional avoidance, after a scandal of unprecedented magnitude—the $20 a month bill this Congress has placed on the average American family for the next 30 years to pay for the S&L bailout—the majority party continues to put its head in the trough of political piggery.

It has brought forth a bill that is a sham and a shame.

It is a sham because it proposes a no-limit limit on political action committees—$275,000 per election cycle or with a pretense of greater discipline $225,000 under the Obey-Synar approach. The party that used to proudly proclaim it was the party of reform in American politics has come forth with the embarrassingly self-centered notion that labor PAC's which it receives by a 40 to 1 rate more than the Republican Party should be less shackled than business PAC's which more evenly divide their largess.

Yet it is self-evident that Democratic self-serving ensconces the status quo and provides an invitation for the continuance of legal, although dubiously ethical, conflicts of interest.

What America needs is a Congress indebted to the individual citizens who click the voting levers, not to the money groups which tilt the levers of power.

Here, let me stress, never in the history of the Congress has there been a greater cause celebre for campaign reform than the S&L debacle. Congress, particularly the committee system, has let America down.

In the 1980's alleged defenders of the little guy in American politics transformed an industry created under Franklin Roosevelt to serve the small saver and average homeowner into a privileged preserve where a moneyed elite could play investment roulette with taxpayer-insured deposits.

Now, today, as the 1990's commence, these same alleged defenders of the little guy are suggesting that the system that produced the biggest scandal in American history be tinkered with rather than reformed, and tilted to favor the same incumbents who let America down so expensively in the last decade.

These same defenders of the little guy are today suggesting that big money should continue to be the mother's milk of American politics, that money folks count more than the silent middle class which places a priority on making mortgage payments and paying school tuition over contributing to candidates.

This body must come to understand that at the root of the S&L problem is weak law and that at the root of weak law was not a collusive attempt of ill-willed legislators to defraud the public, but rather of well-intentioned members operating under the rubric of politics as usual.

It is the system that has perverted judgment, not the individual who has perverted the system. Hence the need for reform of a campaign system that allowed the S&L industry to give $1.8 million to candidates in the last election cycle while losing over 100,000 times that amount in federally insured deposits. Taxpayers who are being asked to pay the congressional piper demand that this kind of return on political investments be stopped, once and for all.

In Chinese history there is a theory of revolution based upon a mandate of heaven. A government may legitimately be overthrown only when the mandate is removed as signaled by natural phenomena like droughts, floods, and hurricanes.

The unanswered question of the 1990's is whether the American people are in the process of concluding that conflicts of interest that cost real people real money are of earthquake proportions; whether the mandate of legitimacy ought to be removed from the current political system.

It is my conviction that the American people want and deserve change. They want and deserve revolution. Instead they are being served up the status quo.

For those who believe politics should be the art of representation, not the art of electoral manipulation, the approach before us should be defeated and a conference established with the Senate that combines the best of the Republican approach to limiting PAC's with the best of the Obey-Synar approach to limiting spending.

True reform must be radical and bipartisan, not marginal and one-sided.

□ 1810

Mr. SWIFT. Mr. Chairman, I yield myself 30 seconds.

If I could have the attention of my friend, the gentleman from California, I would like to ask whether he would be so kind as to let us use his graphics. Would that be permissible for us to have them set up in the well?

Mr. THOMAS of California. If the gentleman will yield, yes, if I can find them.

Mr. SWIFT. We do not need them now, and we would have time with a couple of other speakers, but I just wanted to see if I could get permission to use the gentleman's graphics.

Mr. THOMAS of California. Certainly. We will try to find them and work it out for the gentleman.

Mr. SWIFT. Mr. Chairman, for purposes of debate only, I yield 3½ minutes to the gentleman from North Carolina [Mr. PRICE.]

Mr. PRICE. Mr. Chairman, I think it is important in undertaking this debate to step back a bit from all the confusing detail that is in these competing proposals and ask ourselves what we really are trying to accomplish, what we ought to really be striving for in campaign finance reform.

It seems to me there are four principles, four goals, that we ought to keep before us. The first is to limit spiraling campaign spending. The Swift proposal does that. It establishes a spending limit of $550,000 for House campaigns, and it reduces mail and broadcast costs for those who accept this limit. The proposal thus provides realistic

cost containment, but it still permits full and effective campaigns.

We have made a reasonable adjustment upward in permitted spending for the campaign cycle when a candidate has a contested primary. That is as it should be.

Second, true campaign reform should provide for a healthy diversity of funds. Our proposal, the Swift proposal, does not eliminate any class of donors, but it does provide for a better balance among small contributors, large contributors, parties, and political action committees. This is especially true of the Synar-Obey amendment which limits PAC's, especially large-donor PAC's, further, lessens the role of large individual contributors, and makes up the difference with a modest amount of public funding financed through the tax-checkoff system. It is no solution simply to limit the amount raised or spent, unless we resign ourselves in the age of television to simply not reaching thousands of our voters. No, we must have full and effective campaigns but we must ensure that they are financed from a healthy diversity of sources.

Our third goal ought to be to encourage small contributors, to encourage broad participation. The Swift proposal does this in numerous ways, such as tax credits for individuals giving up to $50 to House candidates in-State, and a preferred position for PAC's that limit contributions from individuals to $240 a year.

Synar-Obey further encourages this by tying the public match to small contributions. In other words, we encourage financial participation by ordinary voters to ensure it will be mainly money from these sources that finances our campaigns.

Finally, true campaign reform should encourage accountability and prevent abuses. Again, the Swift proposal does this in several ways. It tightens up the soft-money loophole while providing exceptions for legitimate State party activity on behalf of the ticket. It discourages unaccountable "independent expenditures" and requires a prominent disclaimer in advertisements financed from these sources. It prohibits bundling. It discourages negative campaign advertising by requiring a disclaimer from the sponsoring candidate.

We limit spending. We provide a healthy diversity of funds and encourage small contributors, and we encourage accountability and prevent abuses. That is true campaign reform. It is a comprehensive bill, a responsible bill. It deserves the strong support of everyone in this House.

Mr. THOMAS of California. Mr. Chairman, for purposes of debate only, I yield 7 minutes to the gentleman from Kansas [Mr. ROBERTS], a member of the subcommittee that would have considered this legislation had it come through the committee system.

Mr. ROBERTS. Mr. Chairman, I thank the gentleman for yielding me this time.

Mr. Chairman, I rise in opposition to the legislation offered by the gentleman from Washington [Mr. SWIFT], who is my chairman and a friend and colleague, and in rather wondrous but very skeptical awe in opposition to the amendment offered by the gentleman from Oklahoma [Mr. SYNAR] and the gentleman from Wisconsin [Mr. OBEY] and in support of the Republican reform package.

Mr. Chairman, we should simply have gone home. I do not think there is any useful purpose that can be served here at this point but, nevertheless, I am going to carry on for about 5½ minutes, and as a member of the Subcommittee on Elections, I had at one time the fervent hope that the gentleman from Washington [Mr. SWIFT], the gentleman from California [Mr. THOMAS], and the rest of my colleagues on the subcommittee would hold hearings and work under very, very difficult circumstances, I know that, to try and hammer out a bipartisan campaign reform package.

I think there are some areas of agreement as has been indicated by the gentleman from California [Mr. THOMAS]. One is to obviously reduce the influence of PAC's; we have the transfer problem and the bundling problem, or challenge, if you want to call it that, and certainly streamlining the FEC; we could do that, and, yes, even spending limits, and, yes, even soft money.

I say to the gentleman from Washington [Mr. SWIFT] that I apologize for referring to him while he is talking to the chairman. I was going to ask if he really thought that this was the proper way to do this in terms of a task force as opposed to the subcommittee and the committee. I worked with the gentleman from Washington [Mr. SWIFT] on something called motor voter registration. I got on the motor voter bus. I think it ended up in the ditch, and I got off the motor voter bus, but we at least made an effort, and I had really hoped that we could do this through the subcommittee and the full committee process rather than the task force.

Having said that, we have, instead, bundled up what I call an incumbent's protection package and called it reform. The No. 1 issue of concern, it seems, for everybody interested in campaign reform is to do something with these evil PAC's. PAC's are a four-letter word. I do not really buy that, but at least the Republican plan is simple and effective. It reduces the PAC contribution from $5,000 down to $1,000.

The plan offered by the majority under the small-is-beautiful banner, divides the PAC's into two groups. Whole multitudes of so-called small giver PAC's are now enfranchised as opposed to PAC's whose membership may give in fewer numbers but larger amounts. One you can give $5,000 and another $1,000.

Mr. Chairman, I suspect it will take the PAC organizations just about 1 week to simply add more folks to their organizations, and that will be that.

We have 12, 12 PAC's that this affects, and we went through how many PAC's do we have—I ask the gentleman from California [Mr. THOMAS]—I think it is in the thousands, about 4,000, and about 2,900 that actually give, and we found 12 that this will affect. Well, so much for reform.

What is the limit for this segregated reform? $275,000. This is a far greater amount than most people receive from PAC's now, and of course, you can roll the PAC contributions over to the next election year, and it does not count on next year's limit. You washed that. It is now clean. This is just in the bank, and if it is PAT ROBERTS, the PAT ROBERTS for Congress Fund, although I do not get that much in PAC's. This is worse than business as usual.

You wanted to end the practice of endless receptions, endless calls, endless special interests, tugs of war? The only thing we are going to do here now is guarantee more memberships to Common Cause, more justified grist for their reform mill and that of others who are in the reform business, and enough righteous indignation to last Fred Wertheimer at least a lifetime.

Throughout this exercise, you have wanted to limit spending and you have a limit of $550,000, unless, of course, you do not get two-thirds of the vote, and then you raise the cap, but very little is said about the tremendous advantage that we, as incumbents, have in this body.

Let us now take one we have all grown to love and to cherish and to protect and use, and that is the franking privilege. It has been estimated that the franking privilege and all that goes with it, the postal patrons and the questionnaires and the newsletters, the columns and the public meeting notices is worth at least $500,000 to any incumbent. I know just a little bit about this, because as a member of the House Administration Committee, I have to approve a virtual army of part-time employees for the Doorkeeper of the House just to move this stuff out during even-numbered years.

□ 1820

And we have a 60-day delay and another 60-day delay, which means all of that vital, important material that

goes out to our constituents, it is only 120 days late. But never mind.

Our bill at least makes a stab at franking reform and quarterly reports that involve public disclosure on a Member-by-Member basis. But you say to the challenger under your plan that you accept a spending limit that simply guarantees my reelection with all of the advantages I have, paid for by the taxpayer. If you do not, then I get more of the taxpayer subsidy, and you really do not have to pass the Synar version or the Obey version to get that. You have a mailing discount as soon as you sign up, and that is a 50-percent discount for what we call the Young Attorney Get Acquainted Act in the various districts all around the country.

I was not going to get into this. There is no righteous fury more indignant than the reformer, but if we look under the banner of reform in regard to the Synar/Obey amendment, let me point out that we have public financing, taxpayer financing for everyone, for everyone if anyone in the race does not adhere to the spending ceiling.

All you have to do is have one person in that race not sign and you do sign and you are guaranteed a 50-percent mailing discount. Now if you file for office and you do sign, you are asking every single issue group, every single issue group to get into the process. It is the death of the two-party system.

There is a qualification, 500 people at $50 a piece, or 1,000 people at $100 a piece. Anybody with a mailing list can get in on this. Hello right-to-life candidates, hello pro-choice candidates, hello gun control, hello Lyndon LaRouche. We have people with that outfit that stand over here and demonstrate between the Longworth Building and the Cannon Building and they are going to be in the race, and that is going to be a marvelous exercise in democracy.

Mr. Chairman, the gentleman from California [Mr. THOMAS] asked me to discuss issues. I have touched three. The truth of it is, however, that this is the silly season. This is filler. We are waiting to go home. We should go home. We should not be doing this. The President is going to veto the bill and we are not going to pass the bill.

True reform comes next year. This is a reform pickup that is stuck in the mud. You are stepping on the gas and asking me to push the pickup. No deal.

Mr. SWIFT. Mr. Chairman, I yield 1 additional minute to the gentleman from Kansas [Mr. ROBERTS] if he would like to have it so that he may yield to the gentleman from Ohio.

Mr. ROBERTS. I thank the gentleman for yielding the time.

Mr. ECKART. Mr. Chairman, will the gentleman yield?

Mr. ROBERTS. I yield to my good friend and neighbor, the gentleman from Ohio, somebody I respect a great deal, and I would love to know what is on his mind under the banner of reform.

Mr. ECKART. Mr. Chairman, with that great introduction, I would then have to not make all of the kind statements I would have made about my colleague and get straight to the point of my question.

The point the gentleman made, I think, is well taken. I think franking reform is something that some of us would also like to see occur.

Perhaps then I could inquire of the gentleman who referenced franking reform as should have been a part of campaign finance reform, why when it was part of the Republican caucus initial package it was not included in the substitute that the Republicans crafted for presentation to the floor tonight?

Mr. ROBERTS. I think it is a part of it.

Mr. THOMAS of California. Mr. Speaker, will the gentleman yield?

Mr. ROBERTS. I yield to the gentleman from California.

Mr. THOMAS of California. Mr. Chairman, in answer to the gentleman, once again, we thought there was going to be franking reform under the Legislative Subcommittee of the Appropriations Committee. It was scheduled this week, Just as the Senate dealt with franking and campaign finance in two separate structures, we were under the impression that we were going to have franking dealt with under the Legislative Appropriations Subcommittee position on campaign reform, but once again the schedule was changed.

Mr. ROBERTS. I am for it; you are for it. Let's get it done.

Mr. SWIFT. Mr. Chairman, for purposes of a colloquy, I yield 1 minute to the gentleman from Indiana [Mr. JACOBS].

Mr. JACOBS. Mr. Chairman, title II, section 439(a) currently prohibits personal use of excess campaign funds by a candidate for Congress. For legislative history purposes, does the gentleman from Washington agree that excess funds means either those funds which are left over after a campaign, or during a campaign those funds converted to personal use if a candidate uses those funds during a campaign for personal expenses, but that that candidate has determined by that act that they are excess funds and not necessary for campaign purposes?

Mr. SWIFT. Mr. Chairman, will the gentleman yield?

Mr. JACOBS. I yield to the gentleman from Washington.

Mr. SWIFT. That is my understanding of current law.

Mr. JACOBS. Fine. I would only add one thing.

Earlier in the debate I heard somebody say that this would be the first example of public financing of political campaigns in the history of the United States. I beg to differ. The first example was the New England town meeting, because the only means of communication then was the town hall, and the taxpayer paid for it.

Mr. SWIFT. Mr. Chairman, I yield 4 minutes to the gentleman from Illinois [Mr. ANNUNZIO], chairman of the Committee on House Administration.

Mr. ANNUNZIO. Mr. Chairman, today, we have the opportunity to pass a meaningful and responsible campaign reform law, a process begun years ago and renewed in January 1989. On January 3, 1989, AL SWIFT, chairman of the Subcommittee on Elections, and I introduced a series of election reform bills including H.R. 11, to control soft money, H.R. 12, to prohibit the practice of bundling, and H.R. 13, the Campaign Cost Reduction Act designed to control the money chase that seems to drive our system off financing congressional campaigns. These bills provided the basis for our current proposal, H.R. 5400.

Mr. Chairman, I cannot let this important moment pass without recognizing the determination, persistence, and negotiating skills of the gentleman from Washington, Chairman AL SWIFT of the Subcommittee on Elections. There has been no Member so patient, so willing to listen to all sides and to accept constructive suggestions. It is AL SWIFT's careful and professional work that brings an acceptable campaign finance reform bill to the floor today. As chair of the task force on campaign finance reform, and as chair of the Election Subcommittee, AL has worked long and hard to craft a comprehensive package that tackles the problems that must be solved if we want to restore the public's confidence in our system of campaign financing. While others have made important contributions to H.R. 5400, it was AL SWIFT who provided the leadership necessary to reconcile the many different viewpoints into a responsible and contructive bill. I am proud of AL SWIFT's work as chairman of the Elections Subcommittee of the Committee on House Administration, and of his work as chairman of the Speaker's task force.

Building on the provision of H.R. 11, which we introduced at the beginning of the 101st Congress, today's bill closes the soft money loophole. Our bill prohibits Presidential candidates who accept public funds from soliciting or receiving any soft money. It also bans the use of soft money to influence Federal elections at any level and perhaps most important, it requires the full disclosure of soft money spending.

Another troubling aspect of our campaign financing system is dealt with in the provision based on H.R. 12,

which we also introduced 2 years ago, prohibiting the practice of bundling. By bundling groups of checks and other contributions; PAC's, other political committees, or individuals can now channel large sums of campaign funds to a Federal office candidate and still avoid current contribution limits.

Under H.R. 5400, contributions would be counted against the limits both of the original donor and of any intermediary through which the funds were funneled. This provision effectively prohibits the practice that enabled some committees and wealthy individuals to finance a favored candidate's campaign above and beyond what their contribution limits allow.

In closing, I urge my colleagues to vote for this comprehensive campaign finance bill. By passing this bill, we tell the American people that we are concerned about the possibility for corruption under current practices, and that we are determined to give them responsible, accountable, fair and open campaign finance legislation.

□ 1830

Mr. SWIFT. Mr. Chairman, may I inquire as to the remaining time on each side?

The CHAIRMAN. The gentleman from Washington [Mr. SWIFT] has 34 minutes remaining, and the gentleman from California [Mr. THOMAS] has 30½ minutes remaining.

Mr. SWIFT. Mr. Chairman, I yield 2 minutes to the gentlewoman from Connecticut [Mrs. KENNELLY].

Mrs. KENNELLY. Mr. Chairman, as a former secretary of state of Connecticut, I have advocated campaign finance reform before, and I am delighted to be here tonight doing the same thing.

We all know reform of the campaign system is not easy. These are difficult and sensitive issues for public officials and for the democracy we cherish.

What we are primarily doing here today is changing how we run for election in 1992, and our opponents and how they run. What we are really doing is trying to eliminate the growing perception in this country that money is such an important consideration in our elections that it influences our daily activities and the decisions that we make.

We know this is not true. But the perception is there, and we have got to combat it. It is a perception that has consequences in the real world, consequences such as reducing the faith of our citizens in the democratic process and the essential fairness of this Government and, most importantly, in their belief in us as politicians.

There are aspects of this bill we might not agree with, but that is not the point. We are here to reform.

I must say with all candor that my constituents are less than enthusiastic about public financing. But Common Cause tells me that is not right, that I am wrong, and I am willing to go along with this once again.

I think the gentleman from Washington [Mr. SWIFT] has done an excellent job of putting this bill together. I think Mr. SYNAR and Mr. OBEY will improve upon these provisions. I thank the leadership for not making us go home tonight not having done campaign finance reform.

I am glad that we will be able to work with the other body to bring about a good piece of legislation.

Mr. Chairman, I hope this bill passes.

Mr. THOMAS of California. Mr. Chairman, for purposes of debate only, I yield 4½ minutes to the gentleman from Wisconsin [Mr. GUNDERSON].

Mr. GUNDERSON. Mr. Chairman and Members, I guess I had the privilege of being on the bipartisan campaign reform task force. It was at least an honor when I was selected. I do not know that we really did a lot. We certainly are not coming here with any kind of bipartisan package, but it was a good experience and I learned a lot about campaign reform in the process.

I went into the task, and I guess this is the frustration I have tonight, because it seems to me if there is one goal in campaign reform, it ought to be to return the elections to the American people.

You know, we talk a lot about election returns in this country. In the last midterm elections, it was 35 percent turnout, the lowest, the lowest of any democracy in the world. We ought to be embarrassed about that national crisis, and we ought to do something about it.

So I think we ought to try to figure out a way in campaign reform not to help Democrats or to help Republicans or help others, but to return the elections to the people so that they get involved.

Now, how do you think you do that? It would seem to me there are a couple of things we ought to do. You have got to reduce the role of PAC's. You got to reduce the role of special-interest groups. You have to level the playing field between incumbent and challenger.

You have got to find a way to deal with negative campaigns. That is a problem with the bill that is in front of us tonight and why I support the Republican substitute.

Take a look very quickly in terms of PAC's: Yes, both bills purport to reduce the role of the PAC's, ours does it across the board for everyone. Theirs conveniently says, "If you are a professional PAC and there is a small number of you but you happen to give more money, we are going to lower the amount that a professional PAC can give to only $1,000 per candidate. But if you have mass numbers, in a labor organization, for example, we are going to let you keep giving $5,000 because, after all, you are giving to our people."

Now you take a look at leadership PAC's. We say, "Hey, no leadership PAC, no transfer of money from one PAC to the other," and we do you guys a favor. I mean, do you not get sick, all of your colleagues and all your candidates running against us coming up here and saying, "Can't you give us $1,000?" I mean, we would cut that out, and everybody would be better off for it if we would do it.

The same with bundling.

The concept of anybody allowing bundling directly or indirectly in this day and age smacks at the issue of campaign reform. Of course, then that gets to the issue of political parties. But if you are going to reduce special interests, you got to raise the role of parties, to return politics to the people.

So we are trying to do that, help the Republican Party, help the Democratic Party. Not you, you are saying that somehow or other, because the Republican Party has more people that donate, we tend to have a party and you tend to have more of a labor organization activism. We are going to say "no" to parties. We are going to say that the most the parties at the State and local levels can do is a maximum of $5,000.

Then we get into this whole issue of protecting the incumbents. If you want to protect an incumbent, it is obvious what you do is you put a spending cap on because if the challenger cannot spend money to get name ID, they cannot get elected.

A funny thing happened: We have a bill in front of us, the so-called Democratic reform bill, that says the most you can spend is $550,000. You know what? I know exactly where that came from, that number, because there is a study by the nonpartisan, nonprofit Center for Responsible Politics of the 1988 elections. You know what they did? They figured out that any challenger who spent over $500,000 got 45.9 percent of the vote. So that they said, "by 1992 we had better get this cap at $550,000 so we can guarantee that challengers cannot win.

"And to make doubly sure that challengers cannot win, we are going to deal with this whole issue of independent expenditures." We are going to say that "if any of those challengers get the money and they have the gall to go on TV or radio and attack us for our voting records, why, then, it is automatically time out because any independent expenditure by any organization, a professional PAC or anybody that gets the money, we ought to have free air time to respond to every attack made in a challenger's cam-

paign against us by an independent expenditure."

So campaign reform, it is a good title and probably some place down the road we will do it, but as for now we do not want to return the elections to the American people. Keep them for the special interests, keep them for the incumbents and at least the 435 that are here, we will be better off even if the country is not.

Mr. SWIFT. Mr. Chairman, I yield 5 minutes to the gentleman from Nebraska [Mr. HOAGLAND].

Mr. HOAGLAND. Let me tell you what a pleasure it is, Mr. Chairman and colleagues, to have an opportunity to come here this evening and speak in favor of the leadership package, the Al Swift package, in favor of the Synar/Obey package, and on the subject of campaign finance reform generally.

There are two very important reform elements in this legislation. No. 1, total PAC contributions that Members can receive and spend are limited in one election cycle in most cases to $275,000.

No. 2, the total amount that a Member can spend in one election cycle is limited in most cases to $550,000.

Now, those limits are very important. I will explain in a moment how costs are simply escalating out of sight and, for the sake of this institution, for the sake of our time, we have to bring these expenditures under control.

But first I would like to address these charts that the gentleman from California [Mr. THOMAS] showed us earlier.

Let me first display the PAC chart and show why this chart really compares apples with oranges. In the left-hand column we have what is called current law. That is the total amount of PAC money that was received and presumably spent by candidates in the 1988 general election. In the right-hand column we have the total amount of PAC money that could be spent if all candidates were to receive the maximum, if the Swift proposal were adopted.

Now, that is clearly comparing apples with oranges, because if we are talking about the maximum amount of money that could be spent under current law, as this infers, it says "current law," that is an infinite amount because current law allows that.

□ 1840

So if this chart were really comparing oranges with oranges and not apples with oranges, the left-hand column would reach to the roof of this Chamber. Indeed, it would reach to the stratosphere. Indeed, it would have no limit because under current law, Members can raise and spend as much PAC money as they want.

Now, the same applies to chart No. 2 where our friend, the gentleman from California [Mr. THOMAS] tried to chart out spending by candidates. Again, we have the same problem. The left-hand column is a total amount of spending by candidates in the last election cycle. The two right-hand columns set out the total amount of spending that candidates could make under various proposals should the maximum spending be undertaken. Now, that is not going to happen. Not all candidates for the House, two candidates or more in each of 435 districts, are going to spend $550,000 each cycle. That will not happen.

In any event, if we compare oranges with oranges, once again, the left-hand column, mislabeled as "current law," would have to go through the roof. Again, it would have to reach all the way up to the stratosphere because under current law there is no limit on the total amount of spending. That is why these reform proposals are so crucial.

Now, in my time that is left let me tell Members about my experience in Omaha, and why it is so important to have spending limits. Last cycle, my opponent and I spent more than all other races except three in the country. My opponent spent over $1,150,000 for a congressional race in Omaha, NE. I spent over $850,000. Now, if we take a look at the escalation of costs from 1980 to 1990 and extrapolate those increases into the future, at that rate of spending, I look at having to raise in 1996 to hold my seat, $1.3 million, and in 1998, $1.65 million. Spending will go up and up and up and up.

One final point: Think of how much time it takes Members away from legislative business, away from doing their job, to have to raise $1.3 million or $1.65 million in a 2-year cycle to get reelected. We need to limit these expenditures, to limit special interest influence, and give Members the time to do our legislative work properly.

Mr. THOMAS of California. Mr. Chairman, I yield myself 1 minute to respond to the gentleman, in his so-called analysis of the chart.

I would remind the gentleman that under Swift 1.1 there is, in fact, no limit on the other column as well, because this is a voluntary system. Someone can opt out of it. So there is no limit on either one.

What I was pointing out with the chart, if the gentlemen would understand the purpose of the chart, is that the current law column is what was spent in the last election, with no ceiling available. That is how much was raised. The Members are purporting this to be the cost reduction act. If that is the case, with no ceiling and that was all that was raised, why is the amount that could be raised under your spending limit so much higher?

If the gentleman would take a look at the chart he referred to, incumbents spent $156 million with no limit whatsoever. That is how they spent with no limit. That is history.

Under your proposal, Swift 1.1, there is almost $300 million available to spend. That is the cost reduction act? No, that is a comfort level for incumbents.

Mr. SWIFT. Mr. Chairman, I yield 2 minutes to the gentleman from Michigan [Mr. LEVIN].

Mr. LEVIN of Michigan. Mr. Chairman, I just want to in my 2 minutes say a few words about what I think is the key issue as someone who came up, so to speak, from the ranks as a precinct delegate, a county chair, a State chairman, a legislator, and now in the Congress.

I want to say a word about money and politics. Perception is a problem, but the problem, also, is that there is some reality underlying the perception. Big money talks too big. Period.

The Republican package is purely cosmetic on this. It says big money is OK as long as half of the big money comes from where they come from. Now, how is that a solution? Well, I have heard it said on this side, something about the "T" word. Well, let Members talk about the "I" word. Integrity. That is what is really at stake on this issue. The Swift package may not be perfect. It is a step in the right direction. It has some public money in it. I hope, proudly, we say so.

Synar-Obey has some more, because we need a shift from campaigns that are financed, whose cases we judge, to a system where it comes from the public whose interests we are supposed to serve. I am here probably to say I support this package as a step in the right direction.

Mr. THOMAS of California. Mr. Chairman, I yield 4 minutes to the gentleman from Missouri [Mr. BUECHNER], a member of the bipartisan task force.

Mr. BUECHNER. Mr. Chairman, I was intrigued by the remarks of the gentleman from Omaha. A $2 million campaign in Omaha? Where did that money come from? Did that come from Nebraska's elderly ladies and gentlemen; from the people that have small businesses, from the laborers of Omaha? Did it come from the neighboring communities? Probably not. That money came from New York, Washington, DC, Beverly Hills. It did not come from Omaha.

That is the problem. The problem is that we are letting people from Beverly Hills and Meridian, CT, and Los Angeles dictate who is going to be the Senators and Members of Congress from North Dakota and South Dakota and Missouri and Louisiana and Georgia. That is what is getting people mad. The Keating 5 is not a result of

somebody from hometown just kind of moving around. It is because the pervasiveness of outside money has gotten out of control, and to stand before this House and say, "Well, we adopt one of these Democratic proposals, that will put an end to it," is ludicrous.

Instead of talking about money from the home area, and I would say to the gentleman, big money, we have disclosure. If the people want to say, "I don't want those people giving $750, or $1,000," and by the way we were prepared to reduce the amount of big money down to $500, let Members have a disclosure on it, but let Members keep it at home instead of the fat cats from around the country doing it. Let us as Members stop what people understand is an abuse of the process. The abuse of the process that ensures that incumbents are reelected.

This is a numbers game, and what these numbers are all about is politics. We are talking about real numbers. The numbers are, "You Deomcrats got us Republicans 2 to 1, and if you keep things exactly the way they are, that is good for you. Oh, of course they can change the exterior, they can put a new paint job on it, they can put new chrome stripping on it, can even put a CD in it, but it is the same old incumbent car and it will keep chugging down that highway, and the special interests will be behind the driver's seat, so if you don't really care about reform keep the caps on right where they know they work, where they do not allow a challenger to come in and really have a reasonable chance. Our Members should tell America the way the PAC community really works in a way that all persons understand. I was a challenger. I lost in 1984. I beat that person in 1986. He was not under indictment. If Members take a look at where people have lost, most of them had a scandal. They have not been outspent, they have killed themselves. But when I went in 1984 to talk to the business PAC's, the supported pro-Republican PAC's, they would say to me, "You know, you can't win, but if you can go out and show to me you can raise a lot of money, maybe we will give you money, because it takes money to win these elections."

So when we put the caps on that are supposedly cost reduction, what we will say to these guys, these special interest cynics, is that they know for sure we cannot win.

Now, the irony of this is quite simple: That we are posturing ourselves, as though we are trying to reform elections. But I believe, and I know in my heart, that the American people are looking at Members saying, "Who are you kidding?" I remember when I was in the State legislature, back in 1975, to show I had a good heart for some of these issues, we had an issue come up in our State, the speaker passed it. He was going to run for Lieutenant Governor, and it fit nicely in his campaign plans, and he sent it to the senate. The senate passed it. On the way back, it had some changes. On the way back the courier got lost, 180 feet away from the house he disappeared only to reappear after the session ended. It did not pass.

□ 1850

Mr. Chairman, a couple of us, a Democrat from the city of St. Louis, Steve Vossmeyer, and myself, put together an initiative campaign. Because we believed that Missourians deserved better. We had the State Republican Party, the State Democratic Party, the leading election official, the secretary of state opposed to us, the AFL-CIO and the chamber of commerce, did likewise and they spent a half a million dollars to defeat it. We spent $32,000.

The people wanted campaign reform, and they enacted it, by 72 percent, despite the odds. So, I say to the gentleman from Washington [Mr. SWIFT], and Mr. Chairman, Mr. Speaker, "You can mislead the people * * * but they're going to find you out." And when they do they are going to be mad.

Mr. SWIFT. Mr. Chairman, did the gentleman say "lie?"

Mr. BUECHNER. Mr. Chairman, will the gentleman yield?

Mr. SWIFT. I yield to the gentleman from Missouri.

Mr. BUECHNER. Mr. Chairman, I retract the word "lie." I would just say "mislead."

Mr. SWIFT. Mr. Chairman, I thank the gentleman from Missouri. I worked with him and have a great deal of admiration for him, and I appreciate the point.

Mr. Chairman, I yield 2 minutes to the gentleman from Colorado [Mr. SKAGGS].

Mr. SKAGGS. Mr. Chairman, this bill is the second of the major steps we must take to begin to restore the trust and confidence of the American people in their Government. We took the first step last fall in purging ourselves finally of the dependence on extra income—euphemistically known as honoraria—from outside special interests. And, with this long overdue reform of campaign financing, we will remove another malignancy on the public trust.

I hear a lot of talk among many colleagues that this just isn't that important—they are not hearing from the people at home about it. That may be true. But, if so, I believe it is symptomatic of the growing disenchantment and mistrust out there; more evidence of a quite cynicism that has given up on even trying to communicate with us, or thinking that it matters. That is the kind of quiet that threatens this democracy.

This is also one of those occasions when the best can easily become the enemy of good. Sure, there are some parts of this bill I don't like—mainly because they do not go far enough. But what is there is a vast improvement over what we have got. We will get nowhere waiting for the perfect bill.

AL SWIFT has my thanks for the extraordinary effort he's made to fashion a bill that will work and will bring real and substantial reform. Likewise, my thanks to DAVE OBEY and MIKE SYNAR for their fine work in putting together a package that improves further a bill that's a great improvement to begin with.

This bill strikes at the heart of what is wrong with politics in this country today: too much money. Too much money being given to campaigns, and too much money being spent by campaigns. The bill finally puts a limit on the amount that can be spent on a House campaign. It provides workable and appropriate inducements for candidates to agree to abide by that spending limit. It reduces significantly the role of political action committees. It cleans the system of the covert, de facto PAC's that are the cause and effect of so-called bundling. It eliminates leadership PAC's—something that hurts the Democrats much more than our Republican colleagues. It encourages a revival of small, individual donations—from the ordinary people of this country to whom we are really beholden. And it provides a start at cracking down on negative advertising and the abuses of independent expenditures.

I am proud to support this bill. I am proud to ask my colleagues to support it. And I will be prouder still to have it become law and to abide by it.

Mr. THOMAS of California. Mr. Chairman, for purposes of debate only, I yield 5 minutes to the gentleman from Indiana [Mr. HILER], a member of the Elections Subcommittee who would have had a chance to examine this legislation had this legislation gone through the committee process.

Mr. HILER. Mr. Chairman, I purposefully tried to get on the Elections Subcommittee after my 1988 election because I felt so strongly and deeply that the issue of campaign reform was an issue whose time had come, and I obviously am very disappointed that the Elections Subcommittee never had an opportunity to deal with any of the proposals being considered today.

However, Mr. Chairman, the reason why I wanted to get on the Elections Subcommittee and the reason why I thought that election reform was an issue whose time had come was because it seemed to me in the area of

campaign finance that we had gotten badly out of balance.

In 1984, only 9 percent of the winning candidates received over 50 percent of their campaign funds from political action committees. By 1988, that figure had raised to nearly 50 percent of the winning candidates received over 50 percent of their funds from political action committees.

Now I have nothing against PAC's per se. I see nothing inherently wrong with groups of individuals pooling their money and deciding to give to candidates who support their point of view. I do not think there is anything wrong with that.

However, Mr. Chairman, I think that when a system begins to be dominated by the 4,263 political action committees that are in existence, then the system has gotten out of balance.

I think the Republican alternative tonight does the best job of restoring that balance. By limiting the amount that any single PAC can give to any single candidate to no more than $1,000, we in effect oppose spending limits because we will dramatically reduce the amount of money that is flowing from the political action committees to the individuals.

Now why is it important to restore a balance to bring that figure down? Because, when political action committees become the dominant source of funds, then the dominant source of politics takes place inside the beltway. No longer are candidates and incumbents required to go back to their home districts to receive their funding. All they have to do is to make one call to one source in town to get $5,000, and to do that back home they might have to contact 50 or 75 or 100 people to get that same $5,000. So, we need to restore that balance, and the Republican alternative ensures that at least 50 percent of the funds come from the individual districts and that the special interest committee did not give any more than $1,000.

Now let us look at the Swift proposal in terms of political action committees. On the surface it would look as though political action committees are restricted to no more than 50 percent of an individual's campaign. But let us look at what the figures actually were.

Last year incumbents; let us take Democrat incumbents, and then I will use Republicans incumbents; Democrat incumbents spent on an average $358,000, far below the $550,000 cap. Plenty of room for growth for incumbents, $358,000.

Mr. Chairman, if they had raised all $257,000 of that from political action committees based out of Washington, DC, they would have been able to raise probably in the neighborhood of 75 to 80 percent of their total funds from the political action committees. That is not right. That is not good balance. That has not restored the voter and the contributor back in the home district to the prominent role that they ought to have.

Let us talk about the spending limit that is in the bill, the Swift bill, the $550,000. As I said, the average for Democrats and Republicans in 1988, incumbents, was $378,000. So, clearly for the great number of incumbents, the spending limit means nothing. Who does it mean something for? It means something for those challengers and those incumbents who are in competitive races.

My opponent in 1988 spent $575,000. I spent something more than that. That $575,000; I do not know whether the right amount for my challenger would have been $650,000, or $700,000 or $400,000, but I do know a challenger has to get a threshold of spending if they are going to be credible, and in the 30, or 40, or 50 races that are competitive in any given election, and my race is one of those in every election, that challenger, if they are not able to hit that threshold, they will not be able to be competitive.

Mr. Chairman, in South Bend, IN, $550,000 may be credible, but in Omaha, NE, it may not be credible. It may not be enough to reach that threshold to run that competitive race.

Let us limit spending by limiting the amount of money that can come from outside special interests and restore the supremacy of the in-district contributor.

Mr. SWIFT. Mr. Chairman, I yield 4 minutes to the gentleman from Minnesota [Mr. SABO], who has been an extraordinarily active member of the task force and, beyond that, has been an absolute stalwart in the development of this legislation.

Mr. SABO. Mr. Chairman, I rise in strong support of the Swift bill and, later, in support of the Obey-Synar amendment. It does several important things that deal with what I think are fundamental issues. It stops the incredible escalation of political campaigns. They doubled in cost from 1980 to 1988. If we do not adopt spending limits, they will double again over the next 8 years.

Major reform is good for all, good for incumbents, good for challengers, a fair system. It also fundamentally begins to reverse what has happened in the funding of campaigns.

Over the last 8 years, funds from small contributors of $200 or less has been virtually level. PAC's have grown, but we rarely talk about the other thing that is growing. Between $200 and $500, those contributions have grown by 100 percent.

□ 1900

Contributions of $500 grew by 146 percent.

Frankly, I support very strongly the Obey-Synar proposal to reduce the individual contributor back to $500.

The Swift bill, however, establishes the $50 tax credit for small contributors, but I think equally or more important, distinguishes among political action committees, because that is how most Americans contribute to political campaigns, and it says for those PAC's that go out and raise less than $240 from each contributor, they can continue to participate at a $5,000 level. In my judgment, that is good.

Frankly, when you look at who is contributing big individual bucks to political campaigns, you get a very distorted picture of this country.

In 1988, a little over 9,400 attorneys contributed $500 or more to House campaigns. There are more policemen, but only four of them did that.

There were 4,500 physicians versus 79 nurses.

There were 2,700 real estate people versus 29 carpenters.

Frankly, in much of what goes on in campaign finance reform, people wanting to limit here and there, the indirect effect would simply be to turn American politics over to the wealthiest 1 percent in our society. To have the campaigns funded at the country club, whether they be far away or local, that is not my idea of political campaign reform. We need to encourage the small contributor. The Swift bill does through its tax credit, through its encouragement to PAC's of giving money in small amounts. It stops the rapid escalation of campaign costs in this country. In my judgment, it is a major step forward and could be also improved by the adoption of the Obey-Synar amendment.

Mr. THOMAS of California. Mr. Speaker, for purposes of debate only, I yield 3 minutes to the gentleman from Washington [Mr. MILLER], a member of the bipartisan task force, and one who, had this legislation been constructed by the bipartisan task force, would have had an ability to influence the bill.

Mr. MILLER of Washington. Mr. Chairman, I come before this body as a membr of the bipartisan task force on campaign finance reform. It is too bad the rule does not allow us this evening to debate all the major issues of campaign finance reform. We need campaign finance reform. The trend has been alarming—a rising percentage of campaign funds has come from political action committees, PAC's, and a declining percentage has come from individuals. Over the last 15 years the proportion of funds coming to candidates for this body from PAC's has risen from 17 percent to 40 percent.

The alternatives before us are clear. The Republican alternative, first, requires candidates to raise over half

their campaign funds from individuals in their home areas. That is returning power to the grass roots from DC.

Second, it reduces the limit on all PAC contributions from $5,000 per election to $1,000 per election.

Third, it prevents PAC bundling of contributions to avoid PAC reporting and contribution limits.

Fourth, it stops Members of Congress from passing on contributions from their own campaign funds to other candidates.

That is real reform. The Democratic leadership alternative does none of these things. Not only that, it increases the proportional power of labor union PAC's.

Unfortunately, Mr. Chairman, it will take a Presidential veto and much more public pressure before this Congress does the job on campaign finance reform.

Mr. SWIFT. Mr. Chairman, I yield 3 minutes to the gentleman from Illinois [Mr. ROSTENKOWSKI].

Mr. ROSTENKOWSKI. Mr. Chairman, I rise in support of the goals of campaign finance reform contained in this legislation, but I must declare in the strongest terms my grave concerns about the procedures used to bring the bill to the floor.

I have debated with myself for days about whether to support or oppose this legislation. after much soul searching, I have decided to reluctantly support it.

My main concern is that the bill bypassed normal House procedures.

In my opinion, measures properly within the jurisdiction of the standing committees of the House must be considered by those committees. This is necessary for the formulation of sound and consistent legislation, and the efficient operation of the House of Representatives.

H.R. 5400, as introduced 4 days ago, was referred to four committees of original jurisdiction: The House Administration Committee, The Energy and Commerce Committee, the Post Office and Civil Service Committee, and the Ways and Means Committee.

Not one of those committees has considered the bill, much less approved it.

This is not a matter of jurisdictional turf. Our committee system was established over 200 years ago for a very important purpose. It was designed to allow Members with particular expertise in specific areas of public policy to assist in the development and crafting of good, sound law. This institutional process allows members of the committees to debate the issues and arrive at rational policy.

This policy creates clear legislative history as expressed in committee reports which explain and clarify legislation.

Without this hard work and long hours spent by Members in committee, and without the committee reports which result from that sweat and toil, laws will be vague, confusing, and potentially misdirected.

Mr. Chairman, H.R. 5400 has not received the benefit of these long hours of careful deliberation by Members representing various viewpoints and constituencies.

I know that the membership of the task force has spent long hours in the development of this bill. I appreciate and respect their efforts. But there is no free lunch, the Members cannot write good legislation without spending sufficient time debating and clarifying its provisions.

Under this legislation, I fear that candidates who are trying to obey the law will not know how, that the executive branch will not know how to implement it, and that the judicial branch will not know how to pass judgment on it.

Let me emphasize that those Federal Election Commission employees who will interpret this bill will have no guidance regarding Congress' intent with respect to the vague language of the legislation, and particularly no experience in the real world of rough and tumble political campaigns.

Although well meaning, without the clear direction of committee reports, these employees will independently determine how this legislation will govern our lives. And make no mistake about it, it is our very lives about which we are debating.

We have built this law so quickly and so rickety, and we are in such a hurry to pass it, that we shouldn't be surprised if it soon falls down around us.

This legislation is far too important for us to abandon our time-honored legislative system. That system would have avoided these problems—problems I believe are inherent in the task force procedure that is developing in this House—a procedure that I believe harms this institution and weakens our legislative product.

As far as I know, no effort was made to move this bill through the committees. Some say that the committee process would have slowed the bill down too much. I don't know, no one asked me to take the tax provisions of this bill through my committee.

If asked, the committee on Ways and Means would have made every effort to work quickly and efficiently to write good law. And I invite any Member of the House leadership who does not believe that the Ways and Means Committee works with the leadership to write good law in an efficient manner, to challenge this statement.

Mr. Chairman, I sincerely hope that in the future, this body will stop relying on single-purpose task forces and start again to write law in a reflective, understandable, and reasoned manner through the committee system.

Our country has been blessed for the last 200 years with a representational democracy, and we have an important duty to all Americans to continue those procedures and take the time to write good law.

□ 1910

Mr. SWIFT. Mr. Chairman, for the purposes of debate only, I yield 2 minutes to the gentleman from Texas [Mr. PICKLE].

Mr. PICKLE. Mr. Chairman, I rise in support of the leadership proposal.

Our present system of financing Federal election compaigns is out of control, and we must seize this opportunity to take action and bring the financing and management of our elections back into balance.

Campaign expenditures have become exhorbitant, and we should take steps to reign them in. The public needs to be reassured that we are representing their interests, and not the views of special interests. It is time to restore a sense of proportion to compaigns for Federal office.

One of the most important features of this proposal is a cap on the total amount of PAC contributions a candidate can accept in an election cycle. This cap, combined with incentives for candidates to focus on the contributions of small contributors within the district, will help restore the power of the individual voter. Under these spending limits, a candidate would essentially have to rely on individual contributions for 50 percent of his funds.

The individual is the heart of any good election, and this measure will help to restore the voice of the individual in the electoral process and make all candidates more accountable to the voters.

The leadership's reform proposal is not perfect. I am sure that each Member of the House can find some aspect of it which he or she would have addressed differently. But this proposal is a reasonable compromise in dealing with some very complex problems. I hope that this House will adopt this measure today, and that conferees on campaign reform will bring back to us a perfected compromise which the President will sign into law.

If we fail to act now to correct the acknowledged flaws in our campaign system, we will reinforce the common perception that the voice of the individual voter no longer reaches these Halls. We will bolster the cynical view that the Members of this House are more concerned with staying in office than with hearing the views of their constituents. We should not permit such perceptions. We must do all we can to assure that our elections are as free and open as possible—and that

our campaigns reflect the influence of our constituents.

I urge my colleagues to support the leadership proposal before us today.

Mr. SWIFT. Mr Chairman, I yield 2 minutes to the gentleman from Kansas [Mr. GLICKMAN], who has worked extremely hard on the development of this legislation.

Mr. GLICKMAN. Mr. Chairman, 25 years ago Lyndon Johnson said that "public confidence in the elective process is the foundation of public confidence in government," and in the last 25 years, confidence in the elective process in this country has fallen precipitously so that now less than half the voters in this country turn out in each election.

The perception that elected officials are on the take, usually from private money interests contributing big money to campaigns, is destroying our ability to do our job, and it is driving a dangerous wedge between the American people and their government that has profound implications for the future strength of this great country of ours. If people do not have confidence that their elected officials are honest, sincere, and independent, then they will not have confidence in the laws that we pass. That leads to real trouble and potential instability particularly in bad economic times. That is a great reason to move ahead on this legislation. The legislation will allow candidates of Congress to reform campaign laws.

Mr. Chairman, I want to say one other thing that has to do not only for this country of ours but for my political party, the Democratic Party. For years we were the party of middle-income people, of working people, of average souls; Democrats have traditionally worked on legislation that affects middle-income people, working people, average people, legislation affecting taxes, health, environment, and education. What has happened in the last 20-25 years is our party has gotten infected with the same fundraising process as have the Republicans, and we are now raising much of the same money that the Republican Party had been recipient of over the years, so now when people ask me what is there different between a Republican and a Democrat, it is sometimes hard to tell them, because we get our money from the same folks, the same people. When you get your money from the same people, you cannot pursue different agendas. In truth, at least on several economic issues, the Democratic Party has not presented a clearly defined agenda separate and apart from much of the Republican agenda over the past 10 years.

We as Democrats should have an agenda for the middle class of this country, for the working people of this country on health care, on tax legislation, or whatever, and, unshackled from the current campaign laws, from the campaign money that we now depend on, we Democrats will be able to do more to help those average people around this country who need help on health care, on financial legislation, and a whole series of things that historically we have been in the forefront of. Our party needs to go back to its roots, and to do that, we need to get away from our dependence on the very same money that goes to the Republicans. There is no way for the Democratic Party to stand for the values of Roosevelt, Truman, and Kennedy and get the bulk of its money from supporters of Reagan and Bush.

This bill can be good for the country. It can also rejuvenate the Democratic Party and our traditional constituency.

Mr. SWIFT. Mr. Chairman, I yield 1 minute to the gentleman from Kentucky [Mr. MAZZOLI].

Mr. MAZZOLI. Mr. Chairman, I thank the gentleman from Washington [Mr. SWIFT], and let me salute him on a job well done.

Aldous Huxley wrote a book called "Brave New World." And after tonight there really will be a new world, and I think we will all have to be a bit braver as candidates to handle it.

Having, as I said earlier this afternoon, gone through a recent primary in May in which I did not take PAC money, in effect, accepting a voluntary limit on spending and also reduced individual contribution limits, I have had a bit of current experience with campaign reform.

It is scary. It is different. It is burdensome. But it is really very, very exciting. It is wonderfully refreshing to go back to the people for campaign support.

Money today has evicted people from the political process. This bill and the Synar-Obey alternative will place the people, put the people back in the center of the process, so I rise, as I did this afternoon in support of the rule, I rise in support of campaign reform.

This is a very historic day. We will pass civil rights legislation and campaign reform.

Mr SWIFT. Mr. Chairman, I yield 2 minutes to the gentleman from Maryland [Mr. CARDIN].

Mr. CARDIN. Mr. Chairman, I thank the gentleman for yielding me this time.

Mr. Chairman, I rise in support of the Swift proposal and the Synar-Obey amendment.

Mr. Chairman, if I were writing this bill for the State of Maryland, I think I could impose upon this House to make some changes in it. I would like to see some changes as all of us would. Personally I think the caps are too high for primaries. I am not happy with the way it has been worked out. In Maryland it would be more useful if we had public funding in primary campaigns, but we are drafting national legislation, and the gentleman from Washington [Mr. SWIFT] has done an excellent job in bringing together a bill that is good for this Nation, that will help all regions of our country.

It does bring out meaningful reform in campaign finance. First, it caps expenses, the costs of elections. As has already been pointed out, campaign costs from 1980 to 1988 have gone up 100 percent. If we do not put caps in, we are going to see this same trend continue. It is too expensive. We are spending too much time in raising money.

The influence of PAC's, as far as the percentage of money that we receive from PAC's, has increased from 28 percent in 1980, to almost 40 percent in 1988. This bill does something about it. It changes that trend. It allows us alternative ways in special interest dollars in order to finance our campaigns through reduced media costs, and reduced postage, and by public funding, by supporting the Synar-Obey amendment.

It expands the importance of smaller contributors to the election process. It reduces the overall costs which means greater participation by our constituents. Grassroots campaigning will be rewarded in this bill, less expensive ways of campaigning. That helps greater participation.

We all agree that the current system needs change. The Swift-Synar-Obey proposal clearly improves our system and helps restore public confidence in the election system.

I congratulate all who were involved.

Mr. THOMAS of California. Mr. Chairman, I yield 7 minutes to the gentleman from Minnesota [Mr. FRENZEL], a gentleman who, as a former ranking member on House Administration over the years, has involved himself in many different ways in campaign finance reform, more recently moving to become the ranking member of the Committee on the Budget, nevertheless remaining actively involved in campaign finance reform as a member of the bipartisan task force on campaign finance reform, and had be been able to participate in a true bipartisan task force on campaign reform, this legislation would have been, as the chairman of the Committee on Ways and Means said, sound and consistent and, in fact, we would have seen legislation developed that was sound and consistent.

□ 1920

Mr. FRENZEL. Mr. Chairman, I thank the distinguished vice chairman of the Committee on House Administration.

Mr. Chairman, this has been a long day. It has been a particularly long day for those of us who believe that this bill should have been handled in the regular order.

Most of us on this side of the aisle believe that we are missing a chance for real election reform, because the Democrat majority has seen fit to drive this bill down our throats, and to impose on us a restrictive rule. This process prevents us the flexibility that we must have to be able to show to the body and to the world what needs to be done in election reform.

The idea of having no committee meetings and having no hearings, and having only one amendment allowed to the minority, is a gag rule of the worst kind. It makes it impossible for us to discuss election reform in the terms that we want to discuss it. We have to discuss concepts or batches of ideas rather than concentrate on each of the important provisions.

I have been involved in this kind of debate for many years. When I first came to Congress, I was assigned to the Committee on House Administration. I served on it for 18 years. Those were my salad days under the leadership of Chairman Hays. I was involved in each one of the election reform bills, 1972, which, although it bears that title, was actually passed in 1973, the act of 1974, the act of 1976, and finally 1979.

Each one of those bills was passed after extensive hearings, after long months of committee debate and amendment, and under rules that presented a large number of choices to this committee as a whole. We are not able to do that today. That is the shame of this rule and the shame of the House.

Mr. Chairman, you have already heard the discussion of the process that broke down, as the two parties tried to get together. The reason we have had no bill since 1979 is because the parties are at a stalemate.

The Democrats believe that we must limit expenditures; Republicans believe that for a minority party, that means that we will never be able to have a challenger beat an incumbent. We abhor limits. They are flat out unacceptable. They preserve incumbents.

The Democrats believe they have to use the taxpayers' money to clean up elections; the Repubicans believe that the taxpayers have very little left to them that is private, and one of those things is the election system. They believe that once we turn elections over to the bureaucracy, we have about given up the least of the privileges left to the taxpayers. Some, like the Supreme Court would even call them rights.

Mr. Chairman, Republicans believe very strongly that we need to have a party building kind of law that will restore some of the responsibilities and some of the authority to the political parties that they knew in days gone by. Since 1974 we have seen a reduction in the responsibility and the capabilities of the political party for a variety of reasons, some of which relate to election law, and relate to the use of taxpayer money in Presidential financing.

What has happened is the parties have become kept parties of the Government. The parties cannot even hold their quadrennial conventions without shaking their tincup in advance at the Government and collecting their $18 million apiece to finance their quadrennial conventions.

So in that kind of a context, we come to the floor with election reform, with the parties going their disparate ways, and with the absolute assurance under this kind of process that no election reform law can be enacted.

The other body has gone through its election reform process. It has made a kind of a mess of the process over there, adding all kinds of amendments with a kind of a whimsical approach, because it knew the law was not going to be enacted.

As to the matter at hand, first of all, I want to talk about the cost of the Swift and the Obey programs, because to me that is the overriding consideration in this situation.

In the Swift bill, there are three different kinds of cost. The first is the free broadcast time, which is laid against the broadcasters, which is eventually laid against the consumers that use the products that are advertised on airways. I do not think it is a good idea to ask the consumers of the United States to pay the costs of our elections.

The second cost is the cost of mail. Incidentally, Mr. Chairman, I do not know how to estimate the cost of these things, but I guess probably $15 to $20 million for broadcast spots, and probably $20 to $25 million for mail under the Swift bill. The mail costs would be paid by the users of the mail, because we simply force the Postal Service to cut its rates. That means that the first-class users and other mail users simply are going to have to make up the difference.

Third, under the Swift bill the tax credit is reinstated. That is $50 million a year, $600 million over the 5-year period.

So you have a huge cost laid partially on the consumers, partially on the mail users, and partially on the taxpayers of the United States, for a total of perhaps something over $90 million.

Then you go to the Obey version, and the Obey version lays the fourth cost on, the quadruple whammy. CBO says the public financing scheme costs a maximum of $87 million an election year, perhaps going down to as low as $25 million.

Add those all up, and what you have is a picture of the Congress. The American people are looking at our deficits, and we are telling them we have enough money left over to spend another wad on ourselves. Congress apparently did not get the word about the red ink and the deficit.

Our constituents will say, "Hey, Congress is spending the peace dividend. Look what they are doing good for the country. What are they doing? They are spending it on themselves, those clever little rascals. Here they are, usurping the peace dividend. Are they giving it to the poor, the lame, the halt? No, they are going to spend it on themselves."

Unfortunately, we missed having legislative appropriations before us this week. We could have seen Congress increasing its spending on itself in the legislative appropriations. Its pending bill has increased the cost of running Congress' operation by about 10 percent. Apparently there is no limit to our greed.

Well, I will tell Members, when the constituents look at this one, Mr. Chairman, they are not going to snicker or chuckle. They are going to say, "We didn't expect the Congress to spend the peace dividend on itself. We expected the Congress to spend it on something useful, or take it down to net."

So I would say, Mr. Chairman, there is only one way that this body can go, and that is to vote for the Michel substitute, to vote against the Swift bill, and to vote against the Obey amendment.

Mr. SWIFT. Mr. Chairman, I yield 2 minutes to the gentleman from Alabama [Mr. BROWDER].

Mr. BROWDER. Mr. Chairman, I rise in support of H.R. 5400. Mr. Chairman, we hear a lot of talk about a popular saying, "Do the right thing." But what is right?

There are two right things that we should look at. First is reducing the role of big money in our elections. I am not talking about just PAC's. They are easily recognizable. I am talking about the hidden money that makes its way into our system.

We have got to have first, spending limits. That is the most important thing. The second thing, we have got to encourage participation by average American citizens.

Now, I have a personal reason for supporting H.R. 5400. I simply am not willing to let campaign money drive my life. It may be risky, but this is more important to me than maintaining a lock on this congressional seat.

The gentleman from Washington [Mr. SWIFT] had the impossibility of trying to please everybody, on the rule, on the process, on every issue, on partisan grounds, in every locality, in every political situation or possibility.

That is impossible. We are simply asking people on both sides to make the commitment in the public interest to turn elections back over to the people of our country.

H.R. 5400 is not perfect, and anybody can find a reason or an excuse to say no. But it is far better than what we have now. It is clearly superior to what lies ahead for our country if we continue to let big money buy elections, and it is clearly superior to what lies ahead for us, in terms of voter ridicule and voter retribution, if we say no to this challenge, if we say no to this opportunity.

□ 1930

Mr SWIFT. Mr. Chairman, I yield 1 minute to the gentleman from Ohio [Mr. PEASE].

Mr. PEASE. Mr. Chairman, I rise in support of the bill drafted so carefully by Mr. SWIFT, also in support of the Synar-Obey amendment.

I take particular pride in one provision which would provide a 100-percent tax credit for in-State contributions of $50 or less. I believe I am accurate in saying that this provision first came to the U.S. Congress in 1977 in a bill that I introduced in my first year in Congress, an idea that I brought with me from the Ohio Legislature, where I first developed it.

I was a voice in the wilderness for 8 years. Then all of a sudden this provision began to become included in mainstream campaign finance reform legislation.

All of us, Mr. Chairman, will be better off if we seek to fund our compaigns with smaller donations from our own constituents. The 100-percent tax credit will give us every incentive to do so and will give our constituents every incentive to help finance our campaigns.

Again, I urge support for the bill and for the Obey-Synar amendment.

Mr. SWIFT. Mr. Chairman, I yield such time as he may consume to the gentleman from Minnesota [Mr. PENNY].

Mr. PENNY. Mr. Chairman, I thank the gentleman for yielding.

I rise in support of campaign finance reform.

Today's campaign finance system is a disgrace. Campaign reform is long overdue.

Unlimited spending in campaigns has created the impression that seats in Congress go to the highest bidder; that incumbents—due to their fundraising advantage—can never be beat; that money is more important than people.

This campaign reform bill will, finally, put an overall lid on spending; will help even the odds for challengers; and will move politics away from expensive, impersonal media campaigns and back to the people.

Excessive contributions from special interest political action committees [PAC's] have given these groups too much influence in the political process. This campaign reform bill restricts PAC contributions to no more than 50 percent of a candidate's total budget. That will reduce the role and influence of special interests and, appropriately, increase a candidate's reliance on support from individuals in their district.

Negative ads by one candidate attacking another are becoming commonplace in recent elections. No campaign reform can stop negative campaigning. But this campaign reform bill requires the mudslingers to show their own faces in the negative ads and publicly accept responsibility for the content of the ads.

In today's campaigns, individual contributors play to small a role, in part, because the 1986 tax reform repealed the political contribution tax credit. This campaign reform bill restores that credit for contributions of $50 or less. Encouraging more voters to support candidates with small donations will serve to democratize our political system.

In America we don't want a system supported by the wealthy and the big-buck PAC's. We need to return the government to the people.

The campaign reforms in this bill will help achieve that objective. I urge support for the bill.

Mr. SWIFT. Mr. Chairman, I yield such time as he may consume to the gentleman from Maryland [Mr. MCMILLEN].

Mr. MCMILLEN of Maryland. Mr. Chairman, I rise in support of the Swift bill.

Mr. Chairman, I rise today in support of the Campaign Cost Reduction and Reform Act of 1990, and also note my support for the Synar-Obey amendment.

Mr. Chairman, for years the cost of Federal election campaigns have spiraled up and up. The high price of television advertising, computers, and polling is forcing candidates to spend increasing amounts of time or raising money, rather focusing on the issues.

Representative SWIFT's proposal is an excellent step forward to reforming a system that is in serious need of change. Most important, it places a cap on campaign financing. The Bill also reduces the influence of so-called fat cat PAC's that do not get most of their funds from the small contributor. The bill treats these PAC's differently, reducing the amount they can give to each campaign. And, it effectively ends the soft money scam that has been a big loophole to our campaign disclosure system.

I also want to express my support for the Synar-Obey amendment which will be offered to the Swift bill. This additional proposal adds even more teeth to the Swift bill by reducing the aggregate PAC limit to 40 percent of the spending limit; cuts in half individual contributions; and increases the reporting requirements to the Federal Election Commission. The measure is also a major improvement to our system by limiting to 10 percent of a candidates spending limit, the amount that can be taken for the fat cat PAC's I must admit that I have severe reservations about the public financing aspect of this measure—but, on the whole, it will improve the overall election system.

Mr. Chairman, the Republican substitute is not a genuine attempt at campaign finance reform, but a partisan proposal to improve their chances for election. They cannot get a majority of voters to support them at the polls, so they want to change the rules in their favor. No spending limits, no restrictions on individual expenditures, no decent reform of soft money.

I urge my colleagues to vote in favor of the Swift proposal, and the Synar-Obey amendment. The American public is clammoring for compaign finance reform, we cannot miss this opportunity today.

Mr. SWIFT. Mr. Chairman, I yield 2 minutes to the gentleman from Pennsylvania [Mr. KOSTMAYER].

Mr. KOSTMAYER. I thank the gentleman for yielding.

Mr. Chairman, many years ago when Jim Farley was Postmaster General under Franklin Roosevelt, he got mad at some liberal, good government type politician out in the State of Washington and made a disparaging remark about the progressive nature of the politics of the State of Washington. He said there are 47 States and the Soviet of Washington.

Well, that was a disparaging remark made in an intemperate moment, but Washington has been a progressive State, rich in the politics of clean government, good government. So it is no surprise that the two men who bring this legislation to us tonight come from the great State of Washington, AL SWIFT and TOM FOLEY.

AL SWIFT deserves credit for writing it, TOM FOLEY deserves credit for making the House vote on it.

Campaign finance is an area in which we are all experts, all 435 of us. All of us got here under this system, all of us are apprehensive, understandably, about seeing it changed.

Some in our own caucus urge us to wait. I ask wait for what? For more money, for more millions of dollars to be spent, for more people in this country to be alienated from the system, for more young Americans to turn away from politics, for lower voter turnout?

This legislation has two important components the American people ought to understand: It limits the amount of money you can spend in a campaign for Congress, and it limits the amount of money you can take from PAC's.

That is what this legislation is all about. We are for it, they are against it; it is as simple as that.

This sets limits. In 1988 I spent $1.1 million to be elected to Congress. If this becomes law, I will not be able to do it again. I do not want to be able to do it again, I should not be able to do it again, none of us should be able to spend that kind of money.

If this legislation passes, it can help to begin to remake the face of politics in our country. It would be embarrassing to us to go home tonight for a monthlong recess and reject campaign finance legislation. I think the time

will come when we will thank, both of the gentlemen from Washington, for compelling us to do this.

Why has it taken so long?

Mr. THOMAS of California. Mr. Chairman, I yield 2 minutes to the gentleman from California [Mr. MOORHEAD].

The CHAIRMAN pro tempo (Mr. MAZZOLI). The Chair would advise the gentleman from California [Mr. THOMAS] has 7 minutes remaining and he has now yielded 2 minutes to the gentleman from California [Mr. MOORHEAD]. The gentleman from Washington [Mr. SWIFT] has 4 minutes remaining.

Mr. MOORHEAD. I thank the gentleman for yielding.

Mr. Chairman, I think we all agree that some kind of campaign reform is necessary. However, I believe that the Republican version is far better than the Democratic version and certainly favors nonincumbents to a much greater extent than the version that we are considering, which I consider primarily incumbent protection legislation

The Republican version reduces PAC contributions from $5,000 to $1,000. The version that we have before us reduces PAC contributions for some PAC's but leaves other PAC's still able to contribute the $5,000.

There is a prohibition in the Republican version against leadership committees, restrictions on contributions between principal campaign committees. This is not handled very well in the bill which is before us and leaves giant loopholes.

The House of Representatives' election limitation on contributions from persons other than individual residents is in the Republican version. Such a limitation is not in the Democratic version.

In fact, one of the items which is advertised the greatest in the Democratic bill is that is cuts down on total expenditures. But there is no reduction below the $275,000 level. Taken along with the money that is received for franking privileges that the incumbents can send out in notices to their constituents, a Member who is in Congress now can spend nearly $700,000, while his opponent, the nonincumbent, is restricted to only a small portion of that amount. I think this particular bill is slanted too much in favor of one political party. If we were going to have true reform, we ought to have reform that is worked out by both sides and that truly gives the individual who is not an incumbent an opportunity, a chance in a race when it enables him to be able to mount a campaign that is equal to his incumbent opponent.

Mr. Chairman, I ask for a "no" vote on this bill.

Mr. SWIFT. Mr. Chairman, I yield 1 minute to the gentlewoman from California [Ms. PELOSI].

Ms. PELOSI. I thank the gentleman for yielding.

I thank the gentleman for this opportunity to speak on this important legislation.

Mr. Chairman, I rise in support of H.R. 5400. This legislation, I think, can be called a political clean air act which draws a breath of clean air through this Chamber and through the political process in our country.

Thank you to Mr. SWIFT for the opportunity to support campaign reform, which is supported by the public. From what I hear from the public, the public wants to reduce the cost of campaigns, the public wants to reduce the role of political action committees in campaigns. The legislation of the gentleman from Washington does that. His legislation is an invitation to the public to join the fight. Important decisions are made every day in this body which affect Americans, decisions as close to them as the water they drink and the air they breathe. Invite the public in, vote for H.R. 5400 and the Synar-Obey amendment.

This legislation will go a long way toward reducing the alienation the public feels because of the role of money in campaigns, and broadens the base of participation in the political process.

Mr. THOMAS of California. Mr. Chairman, I yield myself such time as I may consume.

The CHAIRMAN. The gentleman from California [Mr. THOMAS] is recognized for 5 minutes.

Mr. THOMAS of California. Mr. Chairman, I appreciated the words of the gentleman from Illinois, the chairman of the Committee on Ways and Means. His comments were right on point in terms of the way in which this body usually works to produce sound and consistent—I would underscore consistent—legislation.

The gentleman from Illinois, chairman of the Committee on Ways and Means, indicated that this bill would have gone through his committee, would have gone through House Administration, would have gone through the Committee on Energy and Commerce, and would have gone through the Committee on Post Office and Civil Service.

□ 1940

It seems to me that had the bill, even with all of its present structure, gone to that committee process, it would have at least been more consistent. I do not think it would have necessarily been sounder, but at least it would have been more consistent.

I think there are portions in this bill that are going to need to be adjusted. I think it is also a comment on this institution that the way in which we have dealt with the inconsistencies in the bill have been to say quietly in the halls, "Don't worry, we will clean it up in conference." What used to occur around here is we would hammer out the will of the House, the other body would hammer out its will, and we would come together in conference to contest the two positions. Now, apparently, we do not go through committee. We bring legislation to the floor through what ostensibly was a bipartisan task force which became a partisan task force without a pejorative use of the term "partisan," but it was one-sided, one-hand clap that produced this legislation today. Then we go to conference to clean up the mistakes that we made because we do not have the honest clash of ideas in the process of formulating the legislation in the first place.

I still believe that had we gone through the normal process we would have found an enormous portion of the campaign finance bill that we have in front of Members, would have been bipartisan proposals, I think on bundling, PAC transfers, independent expenditures, and some of the soft money we have not talked about. I would have preferred the debate on the core of the difference between the two parties.

I think it will come out, as we look at alternatives available to Members, we could have reached agreement without too much difficulty. I think the gentleman from Pennsylvania put his finger on it saying he spent $1.2 million in his campaign to get back here. He said, in essence, "stop me or I will ask again."

The problem is, who he is asking. The argument has been made that we are spending too much. The solution is to lower the amount of spending. I will remind Members once again: the American public is concerned about where that money is coming from more than they are the amount that we are getting. Frankly, when we examine this Democrat measure, what we find in it is a little less of the same old game. Is there a limit on where we get the money from? No. They will continue to get it from the Washington PAC's. Do we now have a limit of $275,000? Yes, but where do we get it from? The same old sources.

It seems to me that what I would have liked to have heard from the gentleman from Pennsylvania was, "I would like to spend as much as the people who are going to participate in the election will allow me to spend." That is going to be a fundamental difference on the floor here tonight, not whether we have a bundling, or whether we have a transfer. package, but a fundamental concept of how much money we will get. And more importantly, where is it going to come from?

What we have in the Democratic package is more of the same, only less. What we would really like to see is a revolutionary concept put in its place, and that is, we get to spend as much as the people back home who get to vote on the contest will allow Members to spend. Local control of campaign reform. I would have liked to have seen a clean, honest discussion of that concept in committee with testimony from academicians, practitioners, from people who are simply participating in campaigns. If we look at proposals, yes, they want less spending. But they want is an ability to feel that they are back in the process, that we do not go to Washington, Dallas, L.A., or New York for their money. We come back home.

This bill does nothing to allay the same old process, except we argue it's reform because it is a little bit less. Let me tell Members, if this is clean air reform legislation, do not take too deep a breath. Emphysema is on the way.

Mr. KOSTMAYER. Mr. Chairman, will the gentleman yield?

Mr. THOMAS of California. I am happy to yield to the gentleman from Pennsylvania.

Mr. KOSTMAYER. Mr. Chairman, I think it is terribly important to point out the bill could go forward. It places a limit of $275,000 on the amount we can get from political action committees, and it does place limits.

Mr. THOMAS of California. What the gentleman ought to focus on are the true mechanics. It is $275,000 in and election cycle. Once the general ends, and we tranfer that money into the next election cycle, it get washed, and we have a new $275,000 PAC limit, and we can then run the next campaign totally on PAC money, without one dime from individuals. I think local control is the true answer of the true reform.

Mr. SWIFT. Mr. Chairman, I yield 1 minute to the gentlewoman from South Carolina [Mrs. PATTERSON], a Member who has been extraordinarily helpful on this legislation.

Mrs. PATTERSON. Mr. Chairman, I grew up in politics. As a young girl, I traveled around the State of South Carolina with my father during his campaign for Governor when he served in the other body. We would go from small town to small town to attend what we called stump meetings.

They were called stump meetings because often the candidates would get up on a stump while the community gathered around. Then, he would tell them why they should support him and talk about their hopes for the future.

Today, we have a new version of the stump meeting. It is called TV. But, it is not free. When people ask about the cost of campaigns, there is no greater cost than media. That dusty old stump is now the box in the living room.

But, there are two costs associated with these changes in politics. First, there is the obvious cost of campaigning. Second, there is a cost to our society when campaigning becomes just another TV show.

Mr. Chairman, that is why I support H.R. 5400 brought to us tonight by the gentleman from Washington. It addresses both of these costs. It reduces media costs in return for voluntary spending limits. I have long supported spending limits—everyone agrees that campaigns cost too much.

More importantly, H.R. 5400 returns the focus to small donors. It requires that candidates reach out and involve the voters in the process. Campaigns will not be able to be run from a TV studio.

Mr. Chairman, H.R. 5400 puts us back on the stump. It ensures accountability. It should be passed.

Mr. SWIFT. Mr. Chairman, I yield such time as he may consume to the gentleman from Wisconsin [Mr. MOODY].

Mr. MOODY. Mr. Chairman, I rise in strong support of the bill and the Obey-Synar amendment.

Over the last decade, two disturbing trends have emerged: First, there has been a sharp rise in the proportion of contributions candidates receive from both PAC's and wealthy individuals. Second, American voter turnout is at an all-time low, hovering near 50 percent. It is difficult to conclude that there is no correlation, no cause-and-effect relationship, between these two trends.

In the last 8 months I have received nearly 200 letters from people in Wisconsin supporting campaign finance reform. The people of Wisconsin are probably typical in calling for congressional action on this issue. The American people in numerous polls have indicated that they feel PAC's and wealthy individual contributors have far too much influence in the political process, and that this disproportionate influence stems from the current campaign financing laws.

Today we have a chance to regain the public's trust and restore the influence of small, individual donors while at the same time significantly limiting the influence of PAC's and fat cat contributors.

I strongly support the campaign finance reform package before the House this evening, and also the Synar-Obey amendment which further limits PAC contributions and, most importantly, institutes a voluntary experimental public financing program. For those who argue that public financing and spending limits will not work, I would point to the example of my State of Wisconsin. Since 1976, Wisconsin has enforced limits on total PAC contributions candidates may accept, on individual contributions, and on single PAC contributions. In 1978, Wisconsin began partial public funding of State campaigns. Individual candidates who reach threshold of small, $100 or less, donations are eligible for public financing. The candidates in turn must accept overall spending limits. They must also limit the amount of personal money they can use for their election campaigns. Hence, public funding helps limit the role of the super rich individual candidate.

My colleagues, the success of Wisconsin's contribution limits, spending limits, and public financing grants proves that what we are talking about doing today is hardly radical. A responsible mix of public and private funding can work at the Federal level and work well, just as it does at the State level in Wisconsin.

The Swift and Synar-Obey amendment adds on the basic bill and meaningful reform. Passage of campaign finance reform legislation will restore the ever-waning influence of individuals. Influence of working Americans. The role of big donor PAC's and wealthy individuals in the electoral process would be limited.

My colleagues, we have got to end the money chase. Each Member in this Chamber knows the constant pressure Members face as they run every other year. With expensive television advertising playing a bigger and bigger part in congressional campaigns, the cost of the average House race has gone from $160,000, in 1980 to $312,000 in 1988. Consequently in each election cycle, each candidates for Congress—both incumbents and challengers—have to raise more and spend more in order to compete. These escalating costs are little more than a political arms race and they have got to stop. The Republican substitute has a number of flaws. But the biggest is the total absence of spending limits. It would not stop the money chase, nor the excessive influence of the few.

Total spending limits and public financing grants are the real key to reform. The Democratic bill offers incentives of reduced broadcasting and mail costs for candidates willing to accept voluntary spending limits of $550,000 per election. The Synar-Obey amendment offers matching grants of $50 for each individual $50 contribution, up to a total of $100,000, in return for accepting personal and total spending limits, and total PAC contribution limits. This combination of public-private funding, with the critical spending limits, returns the electoral process to everyday Americans, to working people for whom $50 is a significant contribution. This amendment will limit the influence of wealthy individuals and PAC's for whom $50 is pocket change and who think nothing of sending off a check for $5,000.

I strongly urge passage of true campaign finance reform, adoption of the Synar-Obey amendment, and rejection of the Republican substitute, which avoids the heart of the problem.

The time has come for this reform to revitalize the role of average Americans in the electoral process.

Mr. SWIFT. Mr. Chairman, I yield the remainder of my time to the gentleman from New York [Mr. MCHUGH], a member of the task force who has long been a worker in efforts to gain campaign finance reform and has been a very major figure in the development of this legislation.

Mr. MCHUGH. Mr. Chairman, this year the House has considered a variety of important bills: the Civil Rights

Act, clean air, the budget, the Americans With Disabilities Act, and a number of others. As significant as those bills are, the legislation before us today is at least as important. I say that because this legislation touches most directly on the confidence of the American people in the political process—the process by which the relative rights, benefits and responsibilities of all Americans are determined. If our citizens lose confidence in the integrity of that process, if they conclude that in the give and take of political discourse judgments affecting their interests are made not on the basis of merit but on the strength of special interests, and on the influence of big money in particular, public confidence in our Government will erode. Nothing could be more threatening to the fabric of a democratic society and to the trust a free and diverse people must have in their government.

As practicing politicians we know that public confidence in our political process has been eroding. And it has been eroding, at least in part, because people believe that big money has a disproportionate impact on our political judgments. This may be a harsh and perhaps unwarranted conclusion, but there is no question that is how an increasing number of Americans feel. Today, we have the opportunity to change that perception and to help restore public confidence in our political process.

We have three options to choose from, each one offering the promise of substantial reform: the Swift bill, the Synar-Obey amendment, and the Republican substitute. None of them is perfect. None of them is ideally suited to the conditions present in each of our congressional districts, each with its own unique combination of political and economic characteristics. But underlying all of these bills is a common premise that the current system of financing congressional campaigns is in need of change. And so to meet that need, we now must decide which of these options will best respond to the public's understandable demand for reform.

I do not know about your constituents, but mine believe that candidates for Congress spend too much money on campaigns, and that they are too often dependent on special interests and high rollers in financing those campaigns. Many believe that the average citizen, the one who can't afford to contribute very much, has less and less influence on the political process. If we are to respond to their concerns, and I believe we should, then reform means controlling excessive campaign spending, it means reducing the influence of big money, and it means encouraging the participation of small, individual contributors.

When judged by these standards, the Republican substitute should be rejected out of hand. It places no limits on campaign spending—the sky is the limit. It does nothing to reduce the influence of large individual contributors, the high rollers in campaign financing, and it provides no incentives for the small, individual contributors, those average Americans whose greater participation we need to encourage.

The Republican substitute's main claim to reform is that it reduces the maximum contribution from PAC's—political action committee—from $5,000 per candidate to $1,000. But it places no limit on the aggregate amount a candidate can receive from PAC's, and it makes no distinction between PAC's that represent a large number of small contributors and those PAC's that represent a small number of large contributors.

In short, the Republican substitute would very effectively protect the influence of the big money people in campaigns, the backbone of the National Republican Party, but would do little to address the concerns average Americans have about campaigns.

The Swift bill, H.R. 5400, on the other hand, goes a long way toward meeting those concerns. Swift provides a cap on campaign spending—$550,000 in most campaigns. The Supreme Court has ruled that a spending cap cannot be mandated, but candidates are given real incentives to voluntarily agree to one, including lower broadcasting and postage rates. Swift also imposes an aggregate limit on PAC contributions, equal to 50 percent of the total spending cap. This assures that PAC's will not dominate the financing of political campaigns. Swift goes further in giving preference to PAC's with small contributors only; they could continue to contribute up to $5,000 per candidate, whereas big donor PAC's would be limited to $1,000.

While placing limits on PAC's, particularly those with big contributors, Swift encourages small contributors by providing a 100-percent tax credit for contributions up to $50. Personally, I would like to see the credit available for contributions up to $100. In my judgment that would give candidates a more realistic incentive to raise money from small contributors. But the concept is sound—incentives in campaign financing should favor small individual contributors, with some limits being imposed on special interest groups and big contributors.

The Swift bill represents a significant improvement over current practice and deserves our support. However, the option which would achieve the most meaningful reform is the Synar-Obey amendment—which I coauthored. It improves upon Swift in a number of important respects.

While preserving the same spending cap as Swift, Synar-Obey would cut the aggregate limit on PAC contributions to 40 percent of the total spending cap—as compared with 50 percent in Swift. It would further limit big donor PAC's—those that accept contributions from Members over $240 per year—by imposing a sublimit on their contributions to candidates equal to 10 percent of the total spending cap—$55,000.

The influence of big individual contributors would also be reduced substantially under Synar-Obey, because the maximum individual contribution would be cut in half, from $1,000 to $500. At the same time, there would be genuine incentives for participation by small, individual contributors. As in Swift, there would be a 100-percent tax credit for instate contributions up to $50, but in addition those small contributions would be matched with public funds—up to a maximum of $100,000 in public funds.

The Synar-Obey proposal clearly goes farthest toward meeting the standards of reform that people really expect of us: It puts a cap on total campaign spending; it reduces the influence of large individual givers and special interest groups; and it provides the most incentives to attract small, individual contributors into the political process.

I strongly urge my colleagues to reject the Republican substitute and vote for the Synar-Obey amendment. If Synar-Obey fails, support the Swift proposal on final passage.

Mr. MARKEY. Mr. Chairman, I rise in support of the Campaign Cost Reduction and Reform Act and of the Synar and Obey amendment that will greatly improve this campaign reform legislation.

I hope that this bill and this amendment will succeed in turning the tide of voter discontent that has for too long embittered the American voter to our election process. The most important numbers in the past few elections have not been the tallies of the Democratic or Republican candidates, but rather the voting percentages, which have shrunk lower and lower. More voters chose to stay at home on election day in 1988 than in any Presidential election year since 1924.

The public has very little confidence in the system, and we have only ourselves to blame, for it is largely our actions that have led to this erosion. I believe reducing the PAC limit, limiting the size of individual large donor contributions, and restricting the role of large donor PAC's will go a long way to restoring public trust in our elections, and I therefore support the Synar and Obey amendment.

But the public's misgivings about elections go beyond the issue of campaign financing. They are also troubled by the fact that Federal campaigns are characterized too often by sound bites and negative campaign commercials, rather than by substantive debate on the issues of importance. I am glad that the Swift legislation includes measures that will combat negative advertising and increase accountability in campaign advertising.

To this same end, I have introduced a bill, H.R. 1733, that would mandate that Presidential candidates participate in debates in order to receive Federal campaign funds. Obviously, there is no single solution to our current low ebb in voter participation in elections. However, it is past time when we can afford not to take action on reforms that the public supports. Mandatory Presidential debates, like the reforms we are voting on tonight, is one such improvement, and I hope this body will have the opportunity to consider this proposal before Congress adjourns this fall.

Finally, I commend Representatives SWIFT, SYNAR, and OBEY for their diligent work on this important issue, and let me again express my support for the bill and amendment before us.

Mr. UDALL. Mr. Chairman, a few months ago I visited the University of Arizona library, where the papers of the Udall family are being sorted through and catalogued. I rummaged through a few boxes looking at old photos, letters, and other documents. Among my father Levi's papers was a campaign expenditure report for his successful run for the Arizona Supreme Court. The total cost for the 1946 race was $925.86 for a statewide campaign. If an election were held today, my father would be outspent by at least 100 to 1.

The situation is critical. The high cost of congressional campaigns has forced incumbents to spend too much time in the constant pursuit of campaign funds. At the same time, skyrocketing campaign costs have virtually locked out challengers who are not fortunate enough to have significant personal wealth.

Today, with the adoption of the Campaign Cost Reduction and Reform Act, and preferably the Synar-Obey amendment, we have the opportunity to turn this trend around. The provisions in this legislation get us on the road to equity in the area of campaign finance.

The expenditure of very large sums of money poses a grave threat to the political process. Many American voters are saying that a candidate who can afford to compete in one of these races, and wins, probably does not have their best interests at heart. The voters are beginning to believe that it is not their vote that counts, but rather the money that counts. In other words, special interests matter more than people. I think evidence of this is the declining voter participation at the polls.

While the answer to this dilemma is multifaceted, it has to come primarily from campaign expenditure limitations and PAC reforms. The legislation we have before us today include provisions that address many concerns in the area of campaign finance reform. The primary provisions, however, provide the changes necessary in these primary issue areas. It sets voluntary limits on candidate expenditures in House races, and it significantly reduces House candidates' reliance on PAC's.

The Synar-Obey amendment makes even further strides in this area. It provides for additional PAC contribution limits and reduces the amount an individual may contribute to a Federal candidate. It also calls for public financing as both an incentive for a candidate to collect contributions of less than $50, and an incentive for opponents to stay within the voluntary guidelines.

Mr. Chairman, there is a strong congressional and public awareness that something must be done. The system is not working. Members of the House are spending more time on fundraising and less time on the business of Congress. Special interests are playing a larger role in our elections, while individual givers play a smaller role. Public distrust is rising and voter participation declining. We need more disclosure. And we need to get some control in independent expenditures.

After working on this issue for over 20 years, I realize the opportunity to address these issues does not come often. Today we have that opportunity. The Campaign Cost Reduction and Reform Act and the Synar-Obey amendment are the corrections we need, and I urge my colleagues to join me in supporting them.

Mr. GALLO. Mr. Chairman, the purpose of campaign reform should be to make the American citizen the focus of the democratic process—to return the individual to the center of power.

But, the passage of the legislation before us won't accomplish that. It is not genuine reform and the procedure available makes needed corrections impossible.

We cannot use the excuse that there is no time for an open and honest debate on key issues like spending and contribution limits, PAC's, soft money, public financing and the frank. Legislation has been before the House for more than 6 weeks. That was the time to begin debate; that was the time to let the American people have input into the final bill.

I think that it is a disgrace—the way we bring up and rush through important legislation just before a recess or an adjournment. The American people have waited a long time, too long, for campaign reform. However, I think they would be willing to wait another month to get good legislation enacted.

There are a number of specific items in H.R. 5400 that I cannot support. For example, this is the wrong time to use taxpayers' money to finance elections. We are on the verge of having to make significant cuts in Medicare, food stamps, and other desperately needed programs. And taxpayers themselves are increasingly hesitant to bankroll Federal office seekers. Only 21 percent—down from 30 percent in 1980—check off the box on their tax returns to direct $1 to the Presidential Election Campaign Fund.

In addition, H.R. 5400 does not prohibit bundling. Rich individuals still will be able to package money from friends and special interests and legally exceed the dollar limits.

This bill leaves the building fund soft money loophole intact. The bill purports to set a limit on PAC money, but it allows 20 percent more PAC money than was spent last year when there was no limit.

I support an end to bundling. I believe that a candidate should raise funds from individuals in the district he or she hopes to represent—not from national special interest groups. I support a limit of $1,000 for all PAC contributions. Supporters of this bill, H.R. 5400, limits PAC contributions, but only for some PAC's. Other PAC's can continue to give $5,000.

Supporters of the restrictive rule and H.R. 5400 say we have to act now to get the members of Common Cause off our backs. I believe the American people deserve better. This bill falls short of achieving necessary reforms. Let us not be in such a hurry. Let us wait and do the full job. Let us have a full and fair debate so that our constituents know where we stand. Elections are the cornerstone of our democracy. Let us not undermine that cornerstone in our rush to adjournment.

Ms. SNOWE. Mr. Chairman, I rise in opposition to H.R. 5400—which, if accurately titled, would be called the Democratic incumbent protection plan. The Democrats have been the majority party in the House for 34 years, and if this bill is adopted, they will be the majority for the next 34 years.

Let's get one thing straight: This legislation has nothing to do with reforming congressional campaign laws. It has everything to do with stacking the odds even higher against challengers—most of them, coincidentally, will be Republicans.

Across my district and across the country, the American public has been expressing their frustration and outrage with a system they see as pandering to special interests and the creation of a permanent Congress. The American public is demanding—and deserves—comprehensive reform of our campaign finance system to respond to these concerns. They are not demanding nor do they deserve the dissembling of the Democratic incumbent protection plan.

H.R. 5400 would establish a voluntary spending limit for campaigns. Looks good, but looks can be deceiving. In actuality, the limitation is placed on the ability of a challenger to unseat an incumbent. Common sense tells you that a challenger may need to spend more money to overcome the advantages incumbents hold.

The spending limit allows $300,000 to be spent on the primary and $250,000 on the general election. Now, a challenger with an expensive primary will be left with $250,000 for a general election campaign—$25,000 less than the amounts the bill allows candidates to accept from PAC's. An incumbent with no primary, therefore, could spend more money raised just from special interest PAC's on a race, than a challenger could spend on the entire election. This doesn't sound like reform to me.

Noted congressional scholar Norman Ornstein explained the spending limitation impact on challengers best by comparing the election to the 100-yard dash where currently the incumbent starts at the 50 yard line with the challenger at the starting line. Spending limitations shorten the race to 80 yards, but leave the two candidates where they started.

The Democratic Incumbent Protection Act would also establish limits on the amount of funding candidates can receive from PAC's to $275,000—again, an idea noble in concept but far from it in this bill. PAC's gave an average of $217,000 to Democratic incumbents in the House in 1988 and $11,000 to their challenger.

In 1988, 248 House Democratic incumbents raised $53 million from PAC's; yet under this proposal these same incumbents would be able to raise $63 million—$10 million more. Giving incumbents license to raise more money from special interest PAC's is not

going to help challengers run competitive races.

Further, the way in which the bill's PAC limitations are constructed will have the practical effect of hampering trade association and business PAC's, but not union PAC's. Shall we pause and think of which party receives the overwhelming portion of union PAC contributions?

Mr. Chairman, let me briefly turn to the Synar-Obey amendment, which is founded upon the curious notion that American taxpayers want to give their money to politicians to spend on campaign ads. This amendment would allow up to $90 million to be spent on congressional campaigns; I believe, as do my constituents, that at a time when the budget is being squeezed, there are significantly higher priorities for that money.

In addition, the Synar-Obey amendment cuts the ceiling for individual contributions when most experts believe that individual contributions should be encouraged, not discouraged.

By contrast, the Republican substitute, which is the result of 1½ years of work, unlike H.R. 5400 which appeared from some smoke filled backroom this week, seeks to level the playing field for House elections. The substitute does not set spending limitations, instead it focuses on where the money is raised. The provisions in the substitute place the emphasis on contributions from individuals within one's district. This will slow the inside the beltway fund raising which is a distinct advantage to the incumbent.

It also diminishes the power of the PAC's by decreasing the amount they can give to a candidate from $5,000 to $1,000. This puts their donation on a par with the individual contribution.

Adoption of the Republican substitute, unlike the Democratic bill, will introduce real changes in the way congressional campaigns are waged, and they are changes which make it easier, not harder, for challengers to compete. The question today is whether we are going to do our duty to the American people by reforming the system to produce a level playing field in House elections, or whether we are going to revise and extend the rights of the incumbents.

Mr. KLECZKA. Mr. Chairman, I rise in strong support of H.R. 5400, the Campaign Cost Reduction and Reform Act, and the Synar-Obey amendment to the bill.

I would like to extend my thanks to Chairman AL SWIFT and others who have worked so hard to craft H.R. 5400.

Enactment of major campaign finance reform this year, for the first time since the Watergate period, would be a major accomplishment.

Without some form of public financing in the legislation now being debated, we will treat the symptoms, not the cause, of the money malady.

The Synar-Obey amendment is very similar to H.R. 14, a major piece of campaign finance reform legislation which I was proud to cosponsor.

This amendment would set a spending limit at $550,000, similar to that of H.R. 5400. It would also limit PAC contributions to 40 percent of the allowable spending limit.

But it takes several additional necessary steps to restore public confidence in our campaign finance system.

Specifically, it would provide public financing matching funds for individual contributions of $50 or less, up to a ceiling of $100,000. This is quite similar to the highly successful system we now use at the Presidential level.

I know that some Members have doubts about this approach. The notion of funding someone who might use tax funds to run against you can be unsettling.

I want to assure my colleagues that we have used a similar approach at the State level in Wisconsin since 1977.

If we look back at the electoral results over the last 13 years in my State, it is clear that one party has not benefited at the expense of another due to public financing, nor have challengers received special favors.

The winners under this approach are the voters. They have real confidence in the system of campaign finance.

The losers, of course, are the special interests. Their influence is necessarily limited by every public dollar invested in the electoral process.

This amendment makes several other overdue changes in our electoral laws.

It would reduce in half, for example, the amount that any individual can contribute to a House candidate, from $1,000 to $500. This will affect very few people, since only a tiny sliver of the population can afford to contribute even $500 per candidate. This action will, however, limit the disproportionate influence well-heeled donors now have on the electoral process.

In a similar vein, the amendment would also limit, to 10 percent, the amount of campaign funds a candidate may accept from a PAC which accepts contributions from any source of more than $240 a year, or $20 a month.

Finally, Synar-Obey would require the Federal Elections Commission to computerize all contributions over $200 or more, making it easier for the public and the press to follow the money trail.

Mr. Chairman, I urge the adoption of this amendment.

Mr. WOLPE. Mr. Chairman, I rise in strong support of H.R. 5400, the Campaign Cost Reduction and Reform Act, and also of the Synar-Obey amendment.

The very first bill I agreed to cosponsor when I entered the Congress some 12 years ago was a campaign finance reform bill. Even then it was clear to me that the integrity of our entire political system was being seriously compromised by the huge amounts of money that were pouring into political campaigns, and by the disproportionate influence wealthy individuals and well-financed special interests had come to exercise on our political process. I was convinced then—as I am convinced now—that nothing would go further in restoring public confidence in our political institutions than to clean up the system by which we finance our campaigns.

Whatever feelings I had on this matter 12 years ago have only been intensified by my experience in the Congress. Our present system of campaign finance is demeaning to all candidates. We all spend far too much time pursuing campaign funds when we should be legislating, and too many Members have become far too dependent upon wealthy contributors and special interest funds. Even when Members of Congress are voting their consciences and expressing their best policy judgment, the current system invites the cynical conclusion that their votes are being influenced by those campaign contributions upon which they have come to rely.

The time for fundamental reform of our system of campaign finance is long overdue. There are two keys to true reform. The first key is to put limits on campaign expenditures. In too many instances, elections have become auctions—with offices available to the highest bidder or the most successful fundraiser. This practice must stop. There can be no meaningful reform that does not place effective limits on total campaign expenditures.

The second key to true reform is to decrease the ability of special interests and the wealthy, whether they operate individually or in groups, to exercise disproportionate influence on the political process—influence beyond their numbers or the merits of their arguments.

Mr. Chairman, in my judgment, the Campaign Cost Reduction and Reform Act before us passes both critical tests of true campaign finance reform. It places a spending limit of $550,000 on all House campaigns with incentives for lowered broadcasting and mail costs for candidates who agree to such limits and it provides a system of 100 percent tax for contributions of $50 or less. It would cap the total amount of PAC money a House candidate can receive, and it would lower the amount of money that can be given to each candidate by PAC's that are founded by large donations. This bill would also close a variety of campaign loopholes dealing with independent expenditures and unreported soft money.

The Synar-Obey amendment would strengthen the base bill by further limiting the amount of campaign funds that a candidate may accept from PAC's which accept contributions from any source of more than $240 a year, or $20 a month. It would also cut in half the amount an individual may contribute to any House candidate, from the present $1,000 to $500. And, as a further incentive for candidates to wean themselves off their reliance on wealthy contributors and high donor PAC's, Synar-Obey would provide public financing matching funds for all individual contributions of $50 or less up to a ceiling of $100,000. This would be financed with the existing Federal voluntary tax checkoff system.

Mr. Chairman, I will not take the time here to detail the elements of the Republican substitute that is being offered by Mr. MICHEL. But I do find it remarkable that a campaign finance reform bill would be offered that contains no spending limits whatsoever. Without such limits, there simply is no reform. Without spending caps, the games will continue. The money chase will go on. In the absence of an expenditure ceiling, new limits on PAC's will do little but to invite campaign operatives to find new and different back-door methods to fund their candidates. And the American people will continue to be sacrificed on the altar of the wealthy and the powerful. Our colleague, DAVID OBEY, said it well when he ob-

served that "the major test of any campaign reform legislation in determining whether it serves the public interest should be not whether money is given individually or collectively, but whether the rules of the game allow the well-off and well-connected to have influence on government that far surpasses the influence of average American families." Unfortunately, the Republican substitute before us this evening simply does not pass this test.

Mr. Chairman, it is imperative that we respond to the growing public cynicism about our political institutions. Passage of the Campaign Cost Reduction and Reform Act, and of the Synar-Obey amendment, will be important elements of this response. I urge passage of this critically needed reform legislation.

Mr. STOKES. Mr. Chairman, I rise today in strong support of H.R. 5400, the Campaign Cost Reduction and Reform Act. I also urge my colleagues to go a step further and support the Synar-Obey amendment, which will provide even greater protection against corruption of the political process by wealthy special interests.

The Campaign Cost Reduction and Reform Act calls for voluntary campaign spending limits for House candidates, with the cap set at $550,000 per election cycle. The act provides lower broadcast and postal rates for candidates who accept the spending limits, and establishes a system of heavy fines for exceeding the limit.

This bill also caps the total amount of PAC money a House candidate can receive to 50 percent of allowable spending, and cuts the PAC contribution limits to $1,000 per candidate per election unless the committee is a small-donor committee. Under the bill, small-donor committees, which are committees that take only individual contributions of $240 or less each year, are allowed to contribute up to $5,000 per election to each candidate.

The Synar-Obey amendment builds on this base, and further reduces the amount of PAC contributions which can be received by a candidate to 40 percent of the allowable spending limit, and limiting to 10 percent of the allowable spending limit the amount that can be accepted from any PAC which receives contributions of more than $240 a year from any individual. The Synar-Obey amendment takes additional steps to further reduce the ability of wealthy individuals to influence candidates by cutting in half the amount an individual may contribute to any House candidate.

Mr. Chairman, I believe that the reforms contained in H.R. 5400 and the Synar-Obey amendment will go a long way toward the goal of returning the political process to the people, and removing the taint of wealthy, special interest influence over candidates for Federal office. It is an acknowledged fact that the cost of a congressional campaign has skyrocketed over the last decade. During this same period, the share of campaign funding derived from PAC contributions has grown by an astronomical 175 percent.

I find these trends very disturbing, and urge my colleagues to vote today to restore the American political process to the average American citizen. The public is demanding reforms in the system of campaign financing, and H.R. 5400 addresses the problem in a comprehensive and effective manner. I strongly urge my colleagues to support this important legislation to promote greater participation in the political process.

Mr. BRENNAN. Mr. Chairman, throughout my 25 years of public life, one aspect has always been troublesome—that is campaign financing. And as the costs of political campaigns grow into the heavens, financing of campaigns becomes even more troublesome.

This measure, while not perfect, begins to address the problem plaguing those who run for political office. A key feature of the legislation calls for limits on the size of contributions. I strongly support efforts to promote small donations and to involve more people in the electoral process.

There is growing cynicism across our Nation, that big contributors are getting undue influence. We should not, and cannot, give the appearance of being beholden to special interests.

We can move forward tonight with legislation, designed to tighten controls on independent campaign spending, that encourages voluntary spending limits, that reduces media costs, and curbs growing dependence on PAC's.

I urge my colleagues to join me in support of legislation that will help renew public confidence in their elected officials and once again, make the candidate more accountable to the individual voter, not special interests.

I will support the Swift bill with the Obey-Synar amendment.

Mr. HUGHES. Mr. Chairman, I rise today in support of H.R. 5400, the campaign finance reform bill. I do so with some reluctance, however, because I still do not think this proposal goes far enough in bringing about the significant reforms we need to clean up the campaign process and restore public confidence in the system. I view this legislation not as a panacea, but merely as a first step in what will hopefully be an ongoing process to truly reform our campaign finance system.

It has been more than a decade since the last significant campaign finance reform legislation passed the Congress and became law. The changes that have taken place during that period are almost beyond belief. The average cost of a congressional campaign has virtually doubled from $160,000 to $312,000, and it is not unusual for some races to cost a million dollars or more. These skyrocketing costs have had a chilling effect on the campaign process in a number of ways.

First, they are making it more difficult for the parties to recruit qualified candidates, thereby undercutting the competitiveness which has always been the hallmark of our democratic process. Second, they are taking incumbent Congressmen away from their legislative duties and forcing them to spend more and more time raising money for their reelection. Third, they have vastly increased the influence of PAC's and other special interest organizations which have the financial means to turn out large and frequent donations. Fourth, they have squeezed the average person, who used to contribute $50 or $100 to a campaign, out of the process, since they do not feel their contribution make a difference anymore.

Fifth, and perhaps most important of all, the high cost of campaigns has undercut the confidence of the American people in our system of government. Many people believe their elected officials are beholden to the PAC's and other special interests, and it is hard to blame them when they see hundreds of thousands of dollars pouring in from outside their districts to help elect their Congressman.

I do not mean to point all of the blame at the system. In my own case, I try to limit my PAC contributions to a third or less of my total receipts. Accordingly, I raise the vast majority of my funds in small contributions from my own constituents in southern New Jersey. I think we could go a long way toward restoring voter confidence if all candidates voluntarily adhered to these or similar guidelines.

Unfortunately, that has not been the case, and therefore we have no choice but to to overhaul the entire system. In my judgment, H.R. 5400 is a step in the right direction. Under this bill, a voluntary spending cap of $550,000 will be imposed on House candidates, with flexibility for those candidates whose opponents do not agree to the spending limits.

In addition, the bill limits the amount of PAC contributions which candidates can accept, both in terms of dollar amounts and percentage of their total receipts; encourages contributions from small donors by providing a 100 percent tax credit for small, in-State contributions; closes certain loopholes such as bundling and soft money which make a mockery of current campaign law; and it discourages negative campaigning by holding candidates responsible for the content of all ads on their behalf.

Mr. Speaker, it is not a perfect bill but it is a start. By limiting the overall costs of campaigns, we can reinstill fairness and competition to the process. Just as importantly, we can restore public confidence by shifting the emphasis away from the special interests and back to the average voter. On balance, that is the direction that I believe we need to go.

Mr. VENTO. Mr. Chairman, I rise in strong support of the leadership package on campaign finance reform legislation, as well as the amendment to be offered by our colleagues from Wisconsin and Oklahoma.

The time for action on campaign reform is long overdue. During my first years in Congress in the late seventies, campaign reform was a priority of the House. At that time, the House debated and passed a responsible campaign reform measure, the Obey-Railsback bill, which I supported, and which would have limited PAC contributions to candidates. Unfortunately, that measure was not adopted by the Senate.

Since then, serious campaign reform has died on the vine. At the same time serious campaign spending has flourished. The cost of political elections has skyrocketed so that the average cost of a House campaign is nearly twice the amount that was spent in 1980. In addition, PAC contributions have exploded during that same time, increasing by 175 percent from $40,000 to $110,000.

As these numbers demonstrate, there is an urgent need to curb congressional campaign spending. The House leadership bill and the Synar-Obey bill will best accomplish that goal. Establishing strict limits on PAC contributions and voluntary overall spending limits will reign

in the upward spiral of campaign spending by controlling it at both ends of the process. In addition, the tax credit, the small donor PAC's and the proposed matching proposal will reemphasize the importance of small contributors.

Mr. Chairman, I believe that campaigns should be the competition of ideas not 30 second sound bytes. I recognize the need for adequate funds to convey a candidate's message to the voters but I also believe that that message should be conveyed on a one-on-one contact between the candidate and the constituency. That is why my own personal campaigns have been among the lowest congressional spending races by an incumbent Member from my own State of Minnesota.

This proposed legislation is not a cure-all. While it takes a big step in resolving the current inequities and problems in the political funding process, other action will undoubtedly be needed. An ongoing unaddressed concern is the problem associated with independent expenditures. Under the Supreme Court ruling in Buckley versus Valeo, the Court in essence ruled that the ability to spend money was the equivalent of free speech. I disagree. Until that problem is redressed and the authority to regulate campaign activities is once again a legislative and executive branch of Government policy responsibility, our political process will be unwieldy. This phenomena of unlimited independent expenditures that can be targeted for or against any candidate without rhyme or reason. While the pending bill seeks to equalize the political process, independent expenditures represent an ever present storm threat that can easily destroy any balance to the political election process.

Mr. Chairman, some have criticized the spending limits set in this bill as too large and not reflective of the needs of their State. I would urge those Members to contact their State legislatures to enact more restrictive spending limits as my own State of Minnesota has enacted and then to voluntarily abide by such limitations. I support Minnesota's tighter spending restrictions and intend to easily abide by them in the upcoming election.

Mr. Chairman, in 1979, opponents of campaign finance reform argued against passage claiming that the reform was unnecessary, and protected incumbents. They had their day in court and the resultant 11-year delay has brought yet more money into congressional campaigns, a greater voice for big contributors and less of a role and a voice for many American voters. It is time for a real change and for real congressional campaign spending reform. That is why I am urging the adoption of the leadership package and the Synar-Obey amendment which offer the most significant changes that we have had before the House in many ways.

Mr. PURSELL. Mr. Chairman, for those of you here in Congress who return to your districts as often as I do, it has become all to clear that it's time to put campaign financing back in the hands of those who send us to Washington in the first place: The American people.

Campaign finance reform needs to happen by requiring that a majority of a candidate's funds come from local sources. By doing this, we encourage Members of Congress and candidates to be more responsive to the people who vote for them. It would also place limits on campaign spending because you could only spend what you are able to raise in the district.

The Michel-Republican substitute limits the influence of PAC contributions, it restores local participation in the campaign finance process, and will make congressional elections more competitive: All of this without relying on the Federal Treasury or expanding the Federal bureaucracy.

The Republican proposal is both fair and effective. Neither political party is favored by its provisions and, if enacted, it would help restore the election process to what was intended.

Let's reduce the influence of PAC's, special interests and large out-of-State contributions. Let's return to the days when Members of Congress raised funds at home, from the people who send us here. I urge a "yes" vote on the Michel substitute.

Mr. WEISS. Mr. Chairman, I rise today in strong support of H.R. 5400 and the Synar-Obey amendment. The passage of these measures will reduce the importance of money in elections, enhance opportunities for ordinary citizens to make their voices heard, and make campaigns more accountable to the electorate.

Two central tenets of our political system are that all citizens have an equal say in elections as well as an equal opportunity to seek public office. Yet, due in part to the skyrocketing costs of congressional campaigns, these are not holding true. Soaring campaign costs are posing new threats to our democratic system: wealthy interests and individuals have too much influence and opportunity, while Americans of average and limited means have too little.

Under the present system, candidates also suffer under the pressure of big money. It becomes immediately obvious to any congressional candidate of limited personal means that the campaign is as much for money as it is for votes. Once elected the fundraising begins anew within weeks. Today's Members of Congress spend nearly as much time fundraising as they do representing their constituents.

Many claim that if the political action committees are reigned in, the problem will be solved. It is clearly not that simple—PAC receipts do not tell the whole story. Campaign spending limits must be established to control the spiraling increases in campaign fundraising and spending.

Since 1976, House campaign spending has increased almost fourfold, from $61 million to $223 million in the 1988 elections. The current system discourages challengers from throwing their hats in the ring. Setting reasonable spending limits would enhance fair and competitive electoral races.

The voluntary limit on total campaign spending set by H.R. 5400 goes a long way in addressing these concerns. The measure's aggregate PAC limit also weans candidates off their reliance on PAC's. Furthermore, the bill substantially increases the role of small donors through a 100-percent tax credit for contributions of less than $50.

To balance the problem of high cost campaigns and questions of first amendment infringement, I strongly support the Synar-Obey amendment. Its public financing provisions help quash questionable PAC influence and keep wealthy individuals from controlling the political process. This important amendment also encourages all who are interested in running for elected office to do so regardless of personal means.

I urge my colleagues to support H.R. 5400 and the Synar-Obey amendment.

Mr. SMITH of Texas. Mr. Chairman, many Members have no desire to change campaign finance laws at all. Their seats are secure. They have the advantage of incumbency that leads to easy reelection, seniority, committee chairmanships and power. Money keeps pouring in from the special interests.

But Members want to go home and tell constituents that Congress passed a landmark campaign finance reform package. So today we are considering a bill that has been thrown together in the last few days, has received no hearings, and does not have bipartisan support. Members will not tell constituents that this campaign reform bill has no chance of becoming law.

The American people deserve better than this. Citizens should not tolerate a partisan standoof.

What do citizens have at stake?

Laws that are fair.

Laws that treat them fairly.

Their hard earned dollars.

Each man, woman, and child is now estimated to owe $2,000 to $3,000 for the savings and loan bailout.

How did the savings and loan crisis come about? In part, it came about when a lot of key policymakers creating the laws to control the savings and loan industry were getting a whole lot of money from that industry.

No progress has been made in the deficit reduction talks because Members are unable to make tough decisions. Cutting programs could mean losing valuable PAC contributions.

House Members receive 47 percent of their total receipts from PAC's. PAC contributions to House Members have more than tripled since 1978. So has the deficit. In 1978, the Federal deficit was just over $59 billion. Today it is nearing $200 billion.

The average House committee chairman receives nearly 60 percent of his funds form PAC's. A committee chairman plays a major role in determining which programs will be created or expanded. Special interests have a clear influence over legislation.

In short, there is a basic connection between our campaign financing system and the most critical problems facing our Nation today.

Congress should be ashamed of itself for the political game it is playing with campaign finance reform today. Rather than considering a bipartisan proposal that will affect all candidates equally and eliminate some of our political system's most serious problems, the leadership is throwing out three last minute proposals that have no chance of being enacted into law. But Congress will be able to grab credit for passing a bill before recess.

It is easy to see why citizens believe their elected officials are taking advantage of their public offices for political gain.

Recently I introduced a bill that would significantly improve the campaign finance reform process with one simple step. The bill is the Fairness in Campaign Finance Act. Under the bill, a clear line would be drawn to limit PAC contributions to one-third of a candidate's total contributions.

The purpose is to strike a reasonable balance between PAC receipts and individual contributions. I believe that balance is one-third PAC contributions and two-thirds individual contributions.

A percentage limitation will tell all Americans that individual contributions are the main financial force behind every congressional race. It is a simple, self-enforcing change that the public will recognize as a way to give the campaign field back to the people.

Of the several bills that have been offered to accomplish this goal, only the Fairness in Campaign Finance Act offers a solution that is fair to all parties and avoids future loopholes.

I do not favor spending limits. Spending limits would unfairly help incumbents. They would only make it more difficult for citizens to hold their elected representatives accountable.

Outlawing PAC's is not a feasible solution. Citizens have a right to collectively give to candidates of their choice just as they do to give individually.

The proposal to limit the amount PAC's can contribute would result in PAC's dividing into small units that, together, could continue to contribute at current levels. Nothing would change.

Public financing is not the answer either. Why should the Government be asked to do what only a free people can do for themselves—make representative Government work. Taxpaying citizens want candidates that can command their support. They don't want to shell out $100,000 tax dollars to every person who thinks it might be fun to run for Congress.

Undoubtedly, my proposal would make some incumbents uncomfortable. Some candidates would have to work harder to reestablish that local base of financial support. But it would be well worth the effort to restore confidence in the campaign process and in Congress.

I sincerely hope that when Congress reconvenes in the fall, we can set our own political interests aside and agree on a bipartisan solution to the problems of campaign finance. We must return elections to individual citizens and restore faith in our representative Government.

□ 1950

The CHAIRMAN. The time of the gentleman from Washington [Mr. SWIFT] has expired.

Pursuant to the rule, an amendment in the nature of a substitute printed in part 1 of House Report 101-659 will be considered as an original bill for the purpose of amendment under the 5-minute rule, and is considered as read.

The text of the amendment in the nature of a substitute is as follows:

H.R. 5400

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Campaign Cost Reduction and Reform Act of 1990".

TITLE I—AMENDMENTS TO THE FEDERAL ELECTION CAMPAIGN ACT OF 1971

SEC. 101. DEFINITION OF QUALIFYING HOUSE OF REPRESENTATIVES CANDIDATE.

Section 301(19) of the Federal Election Campaign Act of 1971 (2 U.S.C. 431(19)) is amended to read as follows:

"(19) The term 'qualifying House of Representatives candidate' means a candidate for the office of Representative in, or Delegate or Resident Commissioner to, the Congress, whose principal campaign committee includes in its statement of organization a declaration of intention under section 303(b)(7) and, by reason of such declaration, is subject to the expenditure limitations specified in section 315(h) or section 315(i).".

SEC. 102. AMENDMENTS TO DEFINITION OF CONTRIBUTION.

(a) VALUATION FORMULA AMENDMENT; ENCOURAGEMENT CONTRIBUTION AMENDMENT; CLEARLY IDENTIFIED CANDIDATE AMENDMENT.—Section 301(8)(A) of the Federal Election Campaign Act of 1971 (2 U.S.C. 431(8)(A)) is amended—

(1) in clause (i)—

(A) by inserting after "anything of value" the following: (such value to be determined by the highest of: cost to the person making the contribution, fair market value on the date of acquisition by the person making the contribution, or fair market value on the date of the contribution) and

(B) by striking out "or" after the semicolon;

(2) in clause (ii), by striking out the period and inserting in lieu thereof "; and"; and

(3) by adding at the end the following new clause:

"(iii) any gift, subscription, loan, advance, or deposit of money or anything of value (such value to be determined in the manner described in clause (i)) made by any person for the purpose of encouraging any specific individual who is not a candidate to become a candidate.".

(b) CLARIFICATION OF EXCLUSION OF MAILING COSTS FROM PARTY-BUILDING PROVISIONS.—Section 301(8)(B)(x)(1), section 301(8)(B)((xi), and section 301(8)(B)(xii)(1) of the Federal Election Campaign Act of 1971 (2 U.S.C. 431(8)(B)(x)(1), 2 U.S.C. 431(8)(B)(xi), and 2 U.S.C. 431(8)(B)(xii)(1)) are each amended by striking out "direct mail" and inserting in lieu thereof "mail".

(c) EXCLUSION OF CERTAIN ITEMS FROM DEFINITION.—Section 301(8)(B) of the Federal Election Campaign Act of 1971 (2 U.S.C. 431(8)(B)) is amended—

(1) by striking out "and" after the semicolon in clause (xiii);

(2) by striking out the period at the end of clause (xiv) and inserting in lieu thereof "; and"; and

(3) by adding at the end the following:

"(xv) the value of any advertising rate reduction made available to a qualifying House of Representatives candidate by a newspaper, magazine, broadcasting station (as defined in section 315 of the Communications Act of 1934), or cable system (as defined in section 602 of the Communications Act of 1934), if such reduction is made available to any qualifying House of Representatives candidate and such rate reduction is made available during the 90-day period before the election involved.".

SEC. 103. AMENDMENTS TO DEFINITION OF EXPENDITURE.

(a) VALUATION FORMULA AMENDMENT; ENCOURAGEMENT EXPENDITURE AMENDMENT; CLEARLY IDENTIFIED CANDIDATE AMENDMENT.—Section 301(9)(A) of the Federal Election Campaign Act of 1971 (2 U.S.C. 431(9)(A)) is amended—

(1) in clause (i)—

(A) by inserting after "anything of value" the following: "(such value to be determined by the highest of: cost to the person making the expenditure, fair market value on the date of acquisition by the person making the expenditure, or fair market value on the date of the expenditure) and

(B) by striking out "and" after the semicolon;

(2) in clause (ii), by striking out the period and inserting in lieu thereof "; and"; and

(3) by adding at the end the following new clause:

"(iii) any purchase, payment, distribution, loan, advance, deposit, or gift of money or anything of value (such value to be determined in the manner described in clause (i)) made by any person for the purpose of encouraging any specific individual who is not a candidate to become a candidate.".

(b) CLARIFICATION OF EXCLUSION OF MAILING COSTS FROM PARTY-BUILDING PROVISIONS.—Section 301(9)(B)(viii)(1) and section 301(9)(B)(ix)(1) of the Federal Election Campaign Act of 1971 (2 U.S.C. 431(9)(B)(viii)(1) and 2 U.S.C. 431(9)(B)(ix)(1)) are each amended by striking out "direct mail" and inserting in lieu thereof "mail".

SEC. 104. REGISTRATION AS QUALIFYING HOUSE OF REPRESENTATIVES CANDIDATE.

(a) IN GENERAL.—Section 303(b) of the Federal Election Campaign Act of 1971 (2 U.S.C. 433(b)) is amended—

(1) in paragraph (5), by striking out "and" after the semicolon at the end;

(2) in paragraph (6), by striking out the period at the end and inserting in lieu thereof the following: "and"; and

(3) by adding at the end the following:

"(7) in the case of a principal campaign committee of a candidate for the office of Representative in, or Delegate or Resident Commissioner to, the Congress, who desires to be a qualifying House of Representatives candidate, a declaration of intention of the candidate to use broadcast time under section 315(c) of the Communications Act of 1934 or to receive reduced postal rates under section 3629 of title 39, United States Code.".

(b) AMENDMENT TO STATEMENT OF ORGANIZATION.—Section 303 of the Federal Election Campaign Act of 1971 (2 U.S.C. 433) is amended by adding at the end the following new subsection:

"(e)(1) In the case of a political committee referred to in paragraph (7) of subsection (b), if the statement of organization does not include a declaration referred to in that paragraph, the committee may amend the statement to include such declaration, if such amendment is filed under section 302(g) not later than the day the candidate becomes a candidate for purposes of State law.

"(2) A declaration of intention that is included in a statement of organization under paragraph (7) of subsection (b), whether in the original filing or by amendment, may not be revoked.".

SEC. 105. RESTRICTION ON CONTROL OF CERTAIN TYPES OF POLITICAL COMMITTEES BY CANDIDATES FOR FEDERAL OFFICE.

Section 303 of the Federal Election Campaign Act of 1971 (2 U.S.C. 432) is amended by adding at the end the following:

"(j) A candidate for Federal office may not establish, maintain, or control a political committee, other than an authorized committee of the candidate or a committee of a political party. For one year after the effective date of this Act any such political committee may continue to make contributions. At the end of that period such political committee shall disburse all funds by one or more of the following means: making contributions to an entity qualified, under section 501(c)(3) of the Internal Revenue Code of 1986, or making a contribution to the treasury of the United States; or, contributing to the national, State or local committees of a political party, or, making contributions not to exceed $1,000 to any candidate for elective office.".

SEC. 106. AMENDMENT TO DEFINITION OF INDEPENDENT EXPENDITURE.

Section 301(17) of the Federal Election Campaign Act of 1971 (2 U.S.C. 431(17)) is amended by adding at the end the following: "An expenditure is not an independent expenditure is—

"(A) there is any arrangement, coordination, or direction with respect to the expenditure between the candidate and the person making the expenditure; or

"(B) with respect to the election, the person making the expenditure—

"(i) is authorized to solicit contributions or make expenditures on behalf of the candidate or an authorized committee of the candidate;

"(ii) is an officer of an authorized committee of the candidate; or

"(iii) receives any compensation or reimbursement from the candidate, or an authorized committee of the candidate.".

SEC. 107. AMENDMENTS RELATING TO LIMITATION ON EXPENDITURES IN A SINGLE STATE BY CANDIDATES FOR PRESIDENTIAL NOMINATION WHO ACCEPT AMOUNTS FROM THE PRESIDENTIAL PRIMARY MATCHING PAYMENT ACCOUNT.

(a) REMOVAL OF LIMITATION.—Section 315(b)(1)(A) of the Federal Election Campaign Act of 1971 (2 U.S.C. 441a(b)(1)(A)) is amended by striking out ", except the" and all that follows through "$200,000".

(b) CONFORMING AMENDMENT.—Section 315 of the Federal Election Campaign Act of 1971 (2 U.S.C. 441a) is amended by striking out subsection (g) and by redesignating subsection (h) as subsection (g).

SEC. 108. LIMITATIONS ON EXPENDITURES BY QUALIFYING HOUSE OF REPRESENTATIVES CANDIDATES.

Section 315 of the Federal Election Campaign Act of 1971 (2 U.S.C. 441a), as amended by section 107(b) of this Act, is further amended by adding at the end the following new subsections:

"(h) A qualifying House of Representatives candidate shall not make expenditures derived from personal funds of such candidate in excess of $75,000 with respect to an election for the Office of Representative in, or Delegate or Resident Commissioner to, the Congress.

"(i)(1) Except as provided in paragraph (2), (3), or (4), a qualifying House of Representatives candidate shall not make expenditures in excess of—

"(A) $550,000 with respect to a general or special election (and any primary election relating to such general or special election) for the office of Representative in, or Delegate or Resident Commissioner to, the Congress;

"(B) $300,000 with respect to a primary election for such office, except that, if under State law, a candidate who receives a majority of votes in the primary election is elected to the office involved and in such case there is no general election, the limitation with respect to such primary election shall be $400,000; or

"(C) $100,000 with respect to a runoff election for such office.

"(2) If any candidate in an election referred to in paragraph (1) (other than a qualifying House of Representatives candidate) receives contributions or makes expenditures aggregating more than $200,000—

"(A) such candidate shall so notify the commission within 72 hours; and

"(B) the limitation under that paragraph shall not apply to any candidate in the election.

"(3) Each limitation established by paragraph (1) shall be adjusted in the manner provided in subsection (c), except that—

"(A) such adjustment shall be made with respect to each 4-year period beginning after calendar year 1992;

"(B) such adjustment shall be rounded to the nearest $1,000;

"(C) the price index average shall be computed for each 4-year period ending before a presidential election year; and

"(D) the applicable base period shall be the 4-year period ending with calendar year 1992.

"(4) If, in a primary election with respect to a general election, a qualifying House of Representatives candidate—

"(A) receives the greatest number of votes and becomes the nominee of the political party involved; and

"(B) receives less than 66.7 percent of the total number of votes cast in the primary election;

the limitation applicable to the qualifying House of Representatives candidate under paragraph (1)(A) shall be increased by 30 percent except that the total of expenditures of the candidate with respect to the general election may not exceed $550,000.

"(5) In computing expenditures for purposes of paragraph (1), no amount of legal or accounting fees shall be taken into account.

"(6) In computing expenditures for purposes of paragraph (1)—

"(A) expenditures for broadcasting, newspapers, magazines, billboards, mail, and similar types of general public adverting shall be allocated to the election time period during which the advertising appears; and

"(B) other expenditures shall be allocated to the election period in which the expenditure is made.

"(j)(1) Any qualifying House of Representatives candidate who makes expenditures that exceed a limitation under subsection (h) or subsection (i) by 5 percent or less shall pay to the Commission, for deposit in the Treasury as miscellaneous receipts, an amount equal to the amount of the excess expenditures.

"(2) Any qualifying House of Representatives candidate who makes expenditures that exceed a limitation under subsection (h) or subsection (i) by more than 5 percent and less than 10 percent shall pay to the Commission, for deposit in the Treasury as miscellaneous receipts, an amount equal to three times the amount of the excess expenditures.

"(3) Any qualifying House of Representatives candidate who makes expenditures that exceed a limitation under subsection (h) or subsection (i) by 10 percent or more shall pay to the Commission, for deposit in the Treasury as miscellaneous receipts, an amount equal to three times the amount of the excess expenditures plus a civil penalty in an amount determined by the Commission.".

SEC. 109. LIMITATION ON ACCEPTANCE OF POLITICAL COMMITTEE CONTRIBUTIONS BY HOUSE OF REPRESENTATIVES CANDIDATES.

Section 315 of the Federal Election Campaign Act of 1971 (2 U.S.C. 441a), as amended by sections 107(b) and 108 of this Act, is further amended by adding at the end the following new subsection:

"(k) A candidate for the office of Representative in, or Delegate or Resident Commissioner to, the Congress, and the authorized political committees of such candidate, may not accept any contribution from a political committee with respect to—

"(1) a general or special election (and any primary election relating to such general or special election) for such office which exceeds 50 percent of the limitation specified in subsection (i)(1)(A) when added to the total of contributions previously made by political committees to such candidate and the authorized political committees of such candidate with respect to the general or special election (and any primary election relating to such general or special election); or

"(2) a runoff election for such office which exceeds 50 percent of the limitation specified in subsection (i)(1)(C) when added to the total of contributions previously made by political committees to such candidate and the authorized political committees of such candidate with respect to such election.".

SEC. 110. ALL CONTRIBUTIONS IN ELECTIONS FOR FEDERAL OFFICE TO BE SUBJECT TO THE FEDERAL ELECTION CAMPAIGN ACT OF 1971.

Section 315 of the Federal Election Campaign Act of 1971 (2 U.S.C. 441a), as amended by sections 107(b), 108, and 109 of this Act, is further amended by adding at the end the following new subsection:

"(l) No candidate or authorized political committee of a candidate may accept any contribution with respect to an election for Federal office if the gift, subscription, loan, deposit, thing of value, or payment constituting the contribution is given or made with respect to an election for State office or otherwise is not subject to this Act.".

SEC. 111. INTERMEDIARY OR CONDUIT AMENDMENTS.

Section 315(a)(8) of the Federal Election Campaign Act of 1971 (2 U.S.C. 441a(a)(8)) is amended—

(1) by redesignating paragraph (8) as paragraph (8)(A);

(2) in the first sentence of paragraph (8)(A), as so redesignated by paragraph (1), by striking out "For purposes" and inserting in lieu thereof Except as provided in subparagraphs (B) and (C), for purposes";

(3) in the second sentence of paragraph (8)(A), as so redesignated by paragraph (1), by striking out "The" and inserting in lieu thereof "In addition to any other report required by law, the"; and

(4) by adding at the end the following:

"(B) Except as provided in subparagraph (C), a contribution made by a person through an intermediary or conduit, as de-

scribed in subparagraph (A), shall be treated as a contribution by that person and as a contribution by the intermediary or conduit, if—

"(i) the contribution is in the form of a check or other negotiable instrument made payable to the intermediary or conduit; or

"(ii) the intermediary or conduit is a political committee, an officer, employee, or other agent of such a political committee, or an officer, employee, or other agent of a connected organization acting in its behalf.

"(C) Subparagraph (8) shall not apply to—

"(i) bona fide joint efforts conducted solely for the purpose of sponsorship of a fundraising reception, dinner, or other event by (I) two or more candidates, or (II) two or more national, State, or local committees of a political party acting on their own behalf; or

"(ii) fundraising efforts for the benefit of a candidate which are conducted by another candidate.".

SEC. 112. ENCOURAGEMENT AMOUNTS TO BE TREATED AS CONTRIBUTIONS.

Section 315(a) of the Federal Election Campaign Act of 1971 (2 U.S.C. 441a(a)), as amended by section 111, is further amended by adding at the end of the following:

"(10) For purposes of paragraph (1)(A) and paragraph (2)(A), any contribution described in section 301(8)(A)(iii) shall be treated, with respect to the individual involved, as a contribution to a candidate, whether or not such individual becomes a candidate.".

SEC. 113. CONTRIBUTIONS TO CANDIDATES FROM STATE AND LOCAL COMMITTEES OF POLITICAL PARTIES TO BE AGGREGATED.

Section 315(a) of the Federal Election Campaign Act of 1971 (2 U.S.C. 441a(a)), as amended by sections 111 and 112, is further amended by adding at the end the following new paragraph:

"(11) A candidate for Federal office may not accept, with respect to an election, any contribution from a State or local committee of a political party (including any subordinate committee of such committee), if such contribution, when added to the total of contributions previously accepted from all such committees of that political party, exceeds a limitation on contributions to a candidate under this section.".

SEC. 114. APPLICATION OF LIMITATIONS AND REPORTING REQUIREMENTS TO CERTAIN AMOUNTS NOT DEFINED AS CONTRIBUTIONS OR EXPENDITURES UNDER THE FEDERAL ELECTION CAMPAIGN ACT OF 1971.

Title III of the Federal Election Campaign Act of 1971 (2 U.S.C. 431 et seq.) is amended by adding at the end the following new section:

"APPLICATION OF LIMITATIONS AND REPORTING REQUIREMENTS TO CERTAIN AMOUNTS NOT DEFINED AS CONTRIBUTIONS OR EXPENDITURES

"SEC. 324. (a) Any amount received or used by a State or local committee of a political party for an excluded payment shall be subject to limitation and reporting under this Act as if such amount were a contribution or expenditure, as applicable. No part of such amount may be allocated to a non-Federal account or otherwise maintained in, or paid from, an account that is not subject to this Act.

"(b) As used in this section, the term 'excluded payment' means—

"(1) any payment, including any part of such payment that is for a State or local candidate or political activity, that, under clause (x) or clause (xii) of section 301(8)(8), is excluded from the definition of the term 'contribution' and

"(2) any payment, including any part of such payment that is for a State or local candidate or political activity, that, under clause (viii) or clause (ix) of section 301(9)(8), is excluded from the definition of the term expenditure.".

SEC. 115. PROVISIONS RELATING TO SEPARATE SEGRATED FUNDS.

Section 316(b)(2) of the Federal Election Campaign Act of 1971 (2 U.S.C. 441b(b)(2)) is amended—

(1) in subparagraph (8), by striking out "and" after the semicolon;

(2) by striking out subparagraph (C) and inserting in lieu thereof the following: "(C) the costs of establishment, for political purposes of a separate segregated fund by a corporation, labor organization, membership organization cooperative, or corporation without capital stock; and (D) administration and solicitation costs of such a fund, if amounts disbursed from the fund are used solely for communication or campaign costs under subparagraph (A) or (B), contributions with respect to elections for Federal or State office, or nonelection-related purposes.".

SEC. 116. DISCLOSURE IN SOLICITATIONS BY CERTAIN UNAUTHORIZED COMMITTEES.

Section 318 of the Federal Election Campaign Act of 1971 (2 U.S.C. 441d) is amended by adding at the end the following new subsection;

"(c) Whenever any political committee (other than an authorized committee or a committee of a political party) makes a communication that is a solicitation for contributions with respect to an election for Federal office, such person shall include in the communication a clear statement that neither the committee nor the communication is authorized by a candidate or under the control of a candidate.".

SEC. 117. SPECIFIC DISCLOSURE REQUIREMENTS FOR CERTAIN COMMUNICATIONS.

Section 318 of the Federal Election Campaign Act of 1971 (2 U.S.C. 441d) as amended by adding at the end the following new subsections;

"(d) A communication described in subsection (a)(I) or subsection (a)(2) that is broadcast over a television station shall include a photographic or similar image of the candidate. The image shall be—

"(1) readily identifiable as that of the candidate;

"(2) accompanied by the following statement: 'Paid for by . takes full responsibility for the content of this advertisement.', with the blanks to be filed in with the name of the political committee or other person paying for the communication, and the name of the candidate, respectively;

"(3) shown for a period of at least 4 seconds; and

"(4) of sufficient size to cover at least one-third of the television screen.

"(e) A statement described in subsection (a)(3) that is broadcast over a television station shall be—

"(1) in the following form: 'Paid for by . Not authorized by any candidate.', with the blank to be filled in with the name of the person paying for the communication and the name of any connected organization of that person;

"(2) shown continuously throughout the communication; and

"(3) of sufficient size to be clearly visible to the viewer.

"(f) Any statement described in subsection (a) that is contained in a newspaper, magazine, direct mailing, or other printed communication shall—

"(1) afford a reasonable degree of color contrast between the statement and the background of the communication; and

"(2) be printed in a minimum uniform character height of 0.20 inch.

"(g) A communication described in subsection (a)(I) or subsection (a)(2) that is broadcast over a radio station shall include the following statement: 'Paid for by ————. ———— takes full responsibility for the content of this advertisement.', with the blanks to be filled in with the name of the political committee or other person paying for the communication, and the name of the candidate, respectively.

"(h) A statement described in subsection (a)(3) that is broadcast over a radio station shall be in the following form: 'Paid for by ————. Not authorized by any candidate.', with the blank to be filled in with the name of the person paying for the communication and the name of any connected organization of that person.".

SEC. 118. PROHIBITION OF FALSE REPRESENTATION TO SOLICIT CONTRIBUTIONS.

Section 322 of the Federal Election Campaign Act of 1971 (2 U.S.C. 441h) is amended—

(1) by inserting after "SEC. 322." the following: "(a)"; and

(2) by adding at the end the following:

"(b) No person shall solicit contributions by falsely representing himself as a candidate or as an agent of a candidate, a political committee, or a political party.".

SEC. 119. CONTRIBUTION LIMITATIONS FOR SMALL DONOR POLITICAL COMMITTEES; ELIMINATION OF SPECIAL CONTRIBUTION LIMITATIONS FOR MULTICANDIDATE POLITICAL COMMITTEES.

(a) IN GENERAL.—Section 315(a)(2) of the Federal Election Campaign Act of 1971 (2 U.S.C. 441a(a)(2)) is amended to read as follows:

"(2) A small donor political committee may make contributions to any candidate for Federal office and the authorized political committees of such candidate with respect to an election which, in the aggregate, do not exceed $5,000.".

(b) DEFINITION.—Section 301 of the Federal Election Campaign Act of 1971 (2 U.S.C. 431) is amended by adding at the end the following new paragraph:

"(20) The term small donor political committee means a political committee that has been registered under section 303 for at least 6 months, has received contributions from more than 50 persons, has made contributions to 5 or more candidates for Federal office, accepts contributions only from individuals, and does not accept contributions totaling more than $240 from any single individual in a calendar year.".

(c) CONFORMING AMENDMENTS.—

(1) Section 315(a)(I) of the Federal Election Campaign Act of 1971 (2 U.S.C. 441a(a)(1)) is amended by striking out "No" and inserting in lieu thereof "Except as provided in paragraph (2), no".

(2) Section 315(a)(4) of the Federal Election Campaign Act of 1971 (2 U.S.C. 441a(a)(4)) is amended by striking out the second sentence.

SEC. 120. CLARIFICATION RELATING TO CERTAIN CONTRIBUTIONS.

Section 301(8)(A) of the Federal Election Campaign Act of 1971 (2 U.S.C. 431(8)(A)) is amended by adding at the end the following new sentence:

"For purposes of clause (i), a gift or other item referred to in that clause is for the purpose of influencing an election for Federal office if it is given in response to a solicitation that states or implies that it is to be used for that purpose, whether or not, by document or otherwise, the gift or other item is characterized as being for another purpose.".

SEC. 121. COORDINATED EXPENDITURES TO BE MADE ONLY FROM AMOUNTS SUBJECT TO THE FEDERAL ELECTION CAMPAIGN ACT OF 1971.

Section 315(d) of the Federal Election Campaign Act (2 U.S.C. 441a(d)) is amended by adding at the end the following new paragraphs:

"(4) Any expenditure under this subsection may consist only of amounts that—

"(A) as received by the committee making the expenditure, are subject to limitation and reporting under this Act; and

"(B) are paid from an account that is subject to the requirements of this Act.

"(5) If any part of an expenditure is for a purpose provided for under this subsection, the entire expenditure (including any part for a State election or other purpose) shall be subject to the applicable limitation under this section.".

SEC. 122. ADDITIONAL EXCLUSIONS FROM THE DEFINITIONS OF CONTRIBUTION AND EXPENDITURE.

(a) CONTRIBUTION.—Section 301(8)(B) of the Federal Election Campaign Act of 1971 (2 U.S.C. 431(8)(B)) is amended—

(1) by striking out "and" at the end of clause (xiii);

(2) by striking out the period at the end of clause (xiv); and

(3) by adding at the end the following new clauses:

"(xv) any amount for a candidate for other than Federal office;

"(xvi) any amount in connection with a State or local political convention;

"(xvii) any campaign activity, including broadcasting, newspaper, magazine, billboard, mass mail, and newsletter communications, and similar kinds of communications or public advertising that is exclusively on behalf of State or local candidates;

"(xviii) administrative expenses of a State or local committee of a political party, including expenses for overhead, staff (other than individuals devoting a substantial portion of their activities to elections for Federal office), meetings, and conducting party elections or caucuses;

"(xix) research pertaining solely to State and local candidates and issues; and

"(xx) maintenance of voter files.".

(b) EXPENDITURE.—Section 301(9)(B) of the Federal Election Campaign Act of 1971 (2 U.S.C. 431(9)(B)) is amended—

(1) by striking out "and" at the end of clause (ix);

(2) by striking out the period at the end of clause (x); and

(3) by adding at the end the following new clauses:

"(xi) any amount for a candidate for other than Federal office;

"(xii) any amount in connection with a State or local political convention;

"(xiii) any campaign activity, including broadcasting, newspaper, magazine, billboard, mass mail, and newsletter communications, and similar kinds of communications or public advertising that is exclusively on behalf of State or local candidates;

"(xiv) administrative expenses of a State or local committee of a political party, including expenses for overhead, staff (other than individuals devoting a substantial portion of their activities to elections for Federal office), meetings, and conducting party elections or caucuses;

"(xv) research pertaining solely to State and local candidates and issues; and

"(xvi) maintenance of voter files.".

SEC. 123. ADDITIONAL REPORTING REQUIREMENTS.

Section 304 of the Federal Election Campaign Act of 1971 (2 U.S.C. 434) is amended by adding at the end the following new subsections:

"(d)(1) In addition to any other report required by law, each State committee of a political party shall file with the Commission—

"(A) any report of non-Federal receipts and disbursements filed by the committee under State law; and

"(B) such supplementary material as the Commission may require to assure compliance with this Act.

"(2) Each national committee of a political party shall file, as part of each report to the Commission, a statement of all receipts and disbursements by the committee in the reporting period, including receipts and disbursements for non-Federal purposes.

"(e)(1) Any individual who makes contributions that are subject to limitation under section 315(a) (3) shall report to the Commission in accordance with paragraphs (2) and (3) the information specified in paragraph (4).

"(2) Not later than 7 days after making contributions aggregating $20,000 or more, but less than $25,000, in a calendar year, the individual shall report to the Commission the information specified in paragraph (4).

"(3) Not later than 7 days after making contributions aggregating $25,000 in a calendar year, the individual shall report to the Commission, with respect to contributions not previously reported under paragraph (2), the information specified in paragraph (4).

"(4) The information required to be reported under this subsection is as follows: (A) the name of the person making each contribution, (B) the amount and recipient of each contribution.".

SEC. 124. TRANSFERS BETWEEN ELECTIONS.

Section 315 of the Federal Election Campaign Act of 1971 (2 U.S.C. 441a), as amended by sections 107(b), 108, 109, and 110 of this Act, is further amended by adding at the end the following new subsection:

"(m) Notwithstanding any other provision of this Act or any other law, a candidate may transfer any unexpended campaign funds for use with respect to any later election.".

TITLE II—AMENDMENTS TO THE COMMUNICATIONS ACT OF 1934 AND TITLE 39, UNITED STATES CODE

SEC. 201. AMENDMENT TO SECTION 312(a) OF THE COMMUNICATIONS ACT OF 1934, RELATING TO DISCRIMINATION AGAINST CONDIDATES.

Section 312(a) of the Communications Act of 1934 (47 U.S.C. 312(a)) is amended—

(1) in paragraph (6), by striking out "or" after the semicolon;

(2) in paragraph (7), by striking out the period at the end and inserting in lieu thereof "; or"; and

(3) by adding at the end the following:

"(8) for willful or repeated discrimination against such a candidate in the amount, class, or period of time made available to such candidate on behalf of his candidacy.".

SEC. 202. AMENDMENT TO SECTION 315 OF THE COMMUNICATIONS ACT OF 1934, RELATING TO CANDIDATE ACCESS.

Section 315 of the Communications Act of 1934 (47 U.S.C. 315) is amended by adding at the end the following new subsection:

"(e) In providing access to use of a broadcasting station with respect to a campaign, a licensee shall give priority to legally qualified candidates for public office in connection with their campaigns.".

SEC. 203. AMENDMENTS TO SECTION 315 OF THE COMMUNICATIONS ACT OF 1934, RELATING TO USE OF BROADCASTING STATIONS BY CANDIDATES.

(a) USE OF BROADCASTING STATION.—Section 315(a) of the Communications Act of 1934 (47 U.S.C. 315(a)) is amended—

(1) by striking out "or" after the comma at the end of paragraph (3);

(2) by inserting "or" after the comma at the end of paragraph (4); and

(3) by adding after paragraph (4), the following:

"(5) debate between candidates,".

(b) CHARGES.—Subsection (b) of section 315 of the Communications Act of 1934 (47 U.S.C. 315(b)) is amended by striking out "exceed—" and all that follows through the end of the subsection and inserting in lieu thereof the following: "exceed the charges for comparable use of such station by other users. In determining charges to legally qualified candidates for public office, a licensee may not take into consideration any charge for special or nontypical commercial use by other users.

(c) ADDITIONAL TIME.—Section 315 of the Communications Act of 1934 (47 U.S.C. 315), as amended by section 202, is further amended—

(1) by redesignating subsections (c), (d), and (e) as subsections (d), (e) and (f), respectively; and

(2) by inserting after subsection (b) the following new subsection:

"(c)(1) If, with respect to an election for the office of Representative in, or Delegate or Resident Commissioner to, the Congress, a licensee permits a qualifying House of Representatives candidate to purchase time for at least 2 political advertisements on a broadcasting station or cable system, the licensee shall make additional time for political advertisements on such broadcasting station or cable system available to such candidate in accordance with paragraph (2).

"(2) The time so made available shall be—

"(A) without additional cost to the qualifying House of Representatives candidate; and

"(B) equal in market value to one-half of the market value of the total time purchased.

"(3) As used in this subsection—

"(A) the term 'cable system' has the meaning given that term in section 602;

"(B) the term 'licensee', where used with respect to a cable system, means the operator of such system; and

"(C) the term 'qualifying House of Representatives candidate' has the meaning given that term in section 301 of the Federal Election Campaign Act of 1971.".

(d) EQUAL OPPORTUNITIES PROVISION.—Section 315(a) of the Communications Act of 1934 (47 U.S.C. 315(a)), as amended by subsection (a), is further amended by adding at the end the following new sentence: "In affording equal opportunities to candidates under this subsection, a licensee is not required to make time available to a candidate without cost because additional time is made available to a qualifying House of

Representatives candidate under subsection (c).

SEC. 204. AMENDMENT TO SECTION 315 OF THE COMMUNICATIONS ACT OF 1934 RELATING TO DISCLOSURE REQUIREMENTS FOR CERTAIN POLITICAL COMMUNICATIONS.

Section 315 of the Communications Act of 1934 (47 U.S.C. 315), as amended by sections 202 and 203, is further amended by adding at the end the following new subsection:

"(g) A licensee may not permit any use of a broadcasting station for a communication that is not in compliance with subsections (d), (e), (g), and (h) of section 318 of the Federal Election Campaign Act of 1971.".

SEC. 205. AMENDMENTS TO TITLE 39, UNITED STATES CODE, RELATING TO POSTAL RATES FOR CERTAIN ELECTION MATERIALS.

(a) IN GENERAL.—Subchapter II of chapter 36 of title 39, United States Code, is amended by adding at the end the following new section:

"§ 3629. Reduced rates for certain House of Representatives candidates

"(a) The rates of postage for matter mailed with respect to a campaign by qualifying House of Representatives candidate (as defined in section 301 of the Federal Election Campaign Act of 1971) shall—

"(1) in the case of first-class mail matter, be one-half of the rates otherwise applicable to such matter under this title; and

"(2) in the case of bulk third-class mail matter, be the same as the rates of postage for a qualified political committee under section 3626 of this title.

"(b) The reduced rates provided under subsection (a) of this section shall be available only with respect to matter mailed during the 90-day period ending on the day before the date of the election involved.".

(b) REVENUES FORGONE.—

(1) AUTHORIZATION OF APPROPRIATIONS.—Section 2401(c) of title 39, United States Code, is amended by striking out "and 3626(a)-(h) of this title," and inserting in lieu thereof "3626(a)-(h), and 3629 of this title.

(2) OTHER AUTHORITY.—Section 3627 of title 39, United States Code, is amended by striking out "or 3626 of this title, and inserting in lieu thereof 3626, or 3629 of this title".

(c) AMENDMENT TO DEFINITION OF QUALIFIED POLITICAL COMMITTEE FOR CERTAIN RATE REDUCTIONS.—Section 3626(e)(2) of title 39, United States Code, is amended to read as follows:

"(2) As used in this subsection, the term qualified political committee means the principal campaign committee of a qualifying House of Representatives candidate (as defined in section 301 of the Federal Election Campaign Act of 1971).".

(d) TECHNICAL AMENDMENT.—The table of sections for chapter 36 of title 39, United States Code, is amended by inserting after the item relating to section 3628 the following new item:

"3629. Reduced rates for certain House of Representatives candidates.

SEC. 206. AMENDMENTS TO THE INTERNAL REVENUE CODE OF 1986 RELATING TO THE CREDIT FOR CONTRIBUTIONS TO CERTAIN QUALIFYING HOUSE OF REPRESENTATIVES CANDIDATES.

(a) GENERAL RULE.—Subpart A of part IV of subchapter A of chapter 1 of the Internal Revenue Code of 1986 (relating to nonrefundable personal credits) is amended by inserting after section 23 the following new section:

"SEC. 24. CONTRIBUTIONS TO CERTAIN QUALIFYING HOUSE OF REPRESENTATIVES CANDIDATES.

"(a) GENERAL RULE.—In the case of an individual, there shall be allowed as a credit against the tax imposed by this chapter for the taxable year an amount equal to the total of contributions to qualifying House of Representatives candidates which are made by the taxpayer during the taxable year, with respect to elections in the State of which the taxpayer is a resident.

"(b) LIMITATIONS.—

"(1) MAXIMUM CREDIT.—The credit allowed by subsection (a) for a taxable year shall not exceed $50 ($100 in the case of a joint return under section 6013).

"(2) VERIFICATION.—The credit allowed by subsection (a) shall be allowed, with respect to any qualified political contribution, only if such contribution is verified in such manner as the Secretary shall prescribe by regulations.

"(c) DEFINITIONS.—For purposes of this section, the terms 'contribution' and 'qualifying House of Representatives candidate' have the meanings given those terms in section 301 of the Federal Election Campaign Act of 1971.".

(b) CONFORMING AMENDMENTS.—

(1) Section 642 of such Code (relating to special rules for credits and deductions of estates or trusts) is amended by adding at the end the following new subsection:

"(j) CREDIT FOR POLITICAL CONTRIBUTIONS NOT ALLOWED.—An estate or trust shall not be allowed the credit against tax provided by section 24.".

(2) The table of sections for subpart A of part IV of subchapter A of chapter 1 of such Code is amended by inserting after the item relating to section 23 the following new item:

"Sec. 24. Contributions to certain qualifying House of Representatives candidates.".

(c) EFFECTIVE DATE.—The amendments made by this section shall apply to taxable years beginning after December 31, 1990.

SEC. 207. AMENDMENT TO SECTION 9003 OF THE INTERNAL REVENUE CODE OF 1986.

Section 9003 of the Internal Revenue Code of 1986 is amended by adding at the end the following new subsection:

"(e) SPECIAL CONDITION RELATING TO NONACCEPTANCE OF CERTAIN FUNDS.—An individual who is a candidate referred to in subsection (a) shall not be eligible to receive any payment under section 9006 with respect to a presidential election, if, during any period in which the individual is a candidate (as defined in section 9001 or 9032) with respect to the election—

"(1) the individual directly or indirectly solicits or receives funds in connection with an election for Federal office or other political office; and

"(2) such funds are not subject to limitation and reporting under the Federal Election Campaign Act of 1971 or are allocated to a non-Federal account or otherwise maintained in, or paid from, an account that is not subject to that Act.".

TITLE III—EFFECTIVE DATE

SEC. 301. EFFECTIVE DATE.

Except as otherwise provided in this Act, the amendments made by this Act shall apply with respect to elections for Federal office beginning with the general election of November 3, 1992 (and any primary election relating to such general election).

The CHAIRMAN. Only the following amendments to said substitute are in order and they shall be considered in the following order:

First, the amendments printed in part 2 of House Report 101-659, which shall be considered en bloc and shall not be subject to a demand for a division of the question; and

Second, the amendment in the nature of a substitute printed in the CONGRESSIONAL RECORD of August 2, 1990, submitted by the gentleman from Illinois [Mr. MICHEL].

Said amendments shall be debatable for 1 hour each, equally divided and controlled by the proponent and a Member opposed, and shall not be subject to amendment.

AMENDMENTS EN BLOC OFFERED BY MR. SYNAR

Mr. SYNAR. Mr. Chairman, pursuant to the rule, I offer amendments en bloc.

The Clerk read as follows:

Amendment en bloc offered by Mr. SYNAR:

In section 315(k)(1) of the Federal Election Campaign Act of 1971, as proposed to be added by section 109, strike out "50 percent" and insert in lieu thereof "40 percent".

In section 315(k)(2) of the Federal Election Campaign Act of 1971, as proposed to be added by section 109, strike out "50 percent" and insert in lieu thereof "40 percent".

At the end of title I, add the following new sections:

SEC. 125. LIMITATION ON ACCEPTANCE OF POLITICAL COMMITTEE CONTRIBUTIONS, OTHER THAN SMALL DONOR POLITICAL COMMITTEE CONTRIBUTIONS, BY HOUSE OF REPRESENTATIVES CANDIDATES.

Section 315 of the Federal Election Campaign Act of 1971 (2 U.S.C. 441a), as amended by sections 107(b), 108, 109, and 110 of this Act, is further amended by adding at the end the following new subsection:

"(m) A candidate for the office of Representative in, or Delegate or Resident Commissioner to, the Congress, and the authorized political committees of such candidate, may not, with respect to an election, accept contributions from political committees (other than small donor political committees) in excess of 10 percent of the limitation specified in subsection (i)(1)(A).".

SEC. 126. REDUCTION IN LIMITATION AMOUNT FOR INDIVIDUAL CONTRIBUTIONS TO CANDIDATES.

Section 315(a)(1)(A) of the Federal Election Campaign Act of 1971 (2 U.S.C. 441a(a)(1)(A)) is amended by striking out "$1,000" and inserting in lieu thereof "$500".

SEC. 127. FEDERAL ELECTION COMMISSION TO MAINTAIN CERTAIN REPORT INFORMATION IN COMPUTER FORMAT.

Section 304 of the Federal Election Campaign Act of 1971 (2 U.S.C. 434), as amended by section 125 of this Act, is further amended by adding at the end the following new subsection:

"(f) The Commission shall—

"(1) maintain computer files of the report information referred to in subparagraphs (A) and (B) of paragraph (3) of subsection (b); and

"(2) make such files available to the public by remote access at reasonable cost.".

SEC. 128. NEW TITLE OF THE FEDERAL ELECTION CAMPAIGN ACT OF 1971.

The Federal Election Campaign Act of 1971 (2 U.S.C. 431 et seq.) is amended by adding at the end the following:

"TITLE V—VOLUNTARY EXPENDITURE LIMITATIONS AND PARTIAL PUBLIC FINANCING FOR QUALIFYING HOUSE OF REPRESENTATIVES CANDIDATES IN GENERAL ELECTIONS

"ELIGIBILITY FOR PAYMENTS

"SEC. 501. (a) To be eligible to receive payments under section 504, a qualifying House of Representatives candidate shall, at the time of filing the statement of organization under section 303(b), agree in writing that the candidate and the candidate's authorized committees—

"(1) will deposit all payments received under this section in a separate checking account in a depository institution referred to in section 302(h)(1), which shall contain only amounts so received and from which all expenditures of such amounts shall be made;

"(2) will furnish campaign records, evidence of contributions and other appropriate information to the Commission; and

"(3) will cooperate in any audit and examination conducted by the Commission under section 505;

"(b) To be eligible to receive payments under section 504, a qualifying House of Representatives candidate shall certify to the Commission that—

"(1) the candidate and at least one other candidate have qualified for the general election ballot under State law; and

"(2) subject to subsection (c), the candidate has received $25,000 in contributions with respect to the general election (and any primary election relating to the general election) from individual residents of the State in which the general election is held.

"(c) For purposes of subsection (b), in determining the amount of contributions received by a candidate and the candidate's authorized committees—

"(1) no contribution other than a contribution of money made by a written instrument which identifies the individual making the contribution shall be taken into account;

"(2) no contribution by an intermediary or conduit under section 315(a)(8) shall be taken into account; and

"(3) no contribution shall be taken into account to the extent such contribution exceeds $50 when added to the amount of all other contributions made by the individual with respect to the election.

"ENTITLEMENT OF ELIGIBLE CANDIDATES TO PAYMENTS

"SEC. 502. (a) An eligible candidate shall be entitled to—

"(1) matching payments under section 504 in an amount equal to the amount of contributions received by the candidate and the candidate's authorized committees, except that such payments may not exceed $100,000, and, in determining the amount of such contributions, the provisions set forth in subsection (c) of section 501 shall apply (except that the limitation in paragraph (3) of that section shall apply on a calendar year basis and only contributions from individual residents of the State in which the general election is held shall be taken into account); and

"(2) additional payments under section 504 in the amount of one dollar for each dollar of matching payments which a candidate is eligible to receive under paragraph (1), if any candidate (other than a qualifying House of Representatives candidate) receives aggregate contributions or makes aggregate expenditures in excess of $200,000 with respect to the general election.

"(b) Payments received by a candidate under this section shall be used only to defray expenditures incurred with respect to the general election for such candidate. Such payments shall not be used to make any expenditures other than expenditures to further the election of such candidate.

"CERTIFICATION BY COMMISSION

"SEC. 503. (a) Not later than one week after an eligible candidate files a request with the Commission to receive a payment under section 502, the Commission shall certify to the Secretary of the Treasury the eligibility of the candidate for payment in full of the amount to which the candidate is entitled. The request referred to in the preceding sentence shall contain—

"(1) such information and be made in accordance with the procedures, as the Commission may provide by regulation;

"(2) a verification, signed by the treasurer of the principal campaign committee of the candidate, stating that the information furnished in support of the request is correct and complies with the requirements of this title; and

"(3) a request for a payment for at least $10,000 except for the final payment request which may be for a lesser amount, if such request is filed for a payment under section 502(a)(1).

"(b) The Commission may not delay a certification under this section, unless the Commission determines that the request filed by the candidate is clearly incorrect.

"(c) Certifications by the Commission under subsection (a) and all determinations made by the Commission under this title, shall be final and conclusive, except to the extent that they are subject to examination and audit by the Commission under section 505 and judicial review under section 506.

"ESTABLISHMENT OF ACCOUNT; PAYMENTS TO ELIGIBLE CANDIDATES

"SEC. 504. (a) The Secretary shall maintain in the Presidential Election Campaign Fund established by section 9006(a) of the Internal Revenue Code of 1986, in addition to any other accounts maintained under such section, a separate account to be known as the House of Representatives Election Campaign Account. The Secretary shall deposit in the account, for use by eligible candidates, the amounts available after the Secretary determines that the amounts in the Fund necessary for payments under subtitle H of the Internal Revenue Code of 1986 are adequate. The amounts designated for such account shall remain available without fiscal year limitation.

"(b) Upon receipt of a certification from the Commission under section 503, the Secretary shall promptly pay to the candidate from the account the amount certified by the Commission.

"(c) If at the time of a certification by the Commission under section 503 for payment to an eligible candidate, the Secretary determines that the moneys in the account are not, or may not be, sufficient to satisfy the full entitlement of all eligible candidates, the Secretary shall withhold from such payment the amount necessary to assure that each eligible candidate will receive a pro rata share of the candidate's full entitlement. Amounts so withheld shall be paid when the Secretary determines that there are sufficient moneys in the account to pay such amounts, or portions thereof, to all eligible candidates from whom amounts have been withheld, but, if there are not sufficient moneys in the account to satisfy the full entitlement of an eligible candidate, the amounts so withheld shall be paid in such manner that each eligible candidate receives a pro rata share of the full entitlement.

"EXAMINATION AND AUDITS; REPAYMENTS

"SEC. 505. (a)(1) After each general election, the Commission shall conduct an examination and audit of the campaign accounts of 10 percent of the eligible candidates, as designated by the Commission through the use of an appropriate statistical method of random selection, to determine whether such candidates have complied with the conditions of eligibility and other requirements of this title. In selecting the accounts to be examined and audited, the Commission shall select all candidates in a general election where any eligible candidate is selected for examination and audit.

"(2) After each special election, the Commission shall conduct an examination and audit of the campaign accounts of all candidates in the election if any candidate is an eligible candidate to determine whether the candidates have complied with the conditions of eligibility and other requirements of this title.

"(3) The Commission may conduct an examination and audit of the campaign accounts of any eligible candidate in a general election if the Commission, by an affirmative vote of 4 members, determines that there exists reason to believe that such candidate has violated any provision of this title.

"(b) If the Commission determines that any amount of a payment to a candidate under this title was in excess of the aggregate payments to which such candidate was entitled, the Commission shall so notify the candidate, and the candidate shall pay to the Secretary an amount equal to the excess.

"(c) If the Commission determines that any significant amount of a payment to a candidate under this title was not used as provided for in this title, the Commission shall so notify the candidate and the candidate shall pay to the Secretary an amount equal to 200 percent of the amount involved.

"(d) The Secretary shall deposit all payments received under this section in the House of Representatives Election Campaign Account.

"JUDICIAL REVIEW

"SEC. 506. (a) Any agency action by the Commission made under this title shall be subject to review by the United States District Court for the District of Columbia upon petition filed in such court within 30 days after the agency action by the Commission for which review is sought.

"(b) The provisions of chapter 7 of title 5, United States Code, apply to judicial review of any agency action, as defined in section 551(13) of title 5, United States Code, by the Commission.

"PARTICIPATION BY COMMISSION IN JUDICIAL PROCEEDINGS

"SEC. 507. (a) The Commission is authorized to institute actions in the district courts of the United States to seek recovery of any amounts determined under section 505 to be payable to the Secretary.

"(b) The Commission is authorized to petition the courts of the United States for such

injunctive relief as is appropriate to carry out this title.

"(c) The Commission is authorized on behalf of the United States to appeal from, and to petition the Supreme Court for certiorari to review, judgments or decrees entered with respect to actions in which it appears pursuant to the authority provided in this section.

"REPORTS TO CONGRESS; REGULATIONS

"SEC. 508. The Commission shall, as soon as practicable after each election, submit a full report to the House of Representatives setting forth—

"(1) the amounts certified by the Commission under section 503 for payment to each eligible candidate; and

"(2) the balance in the Presidential Election Campaign Fund and any account maintained in such Fund.".

At the end of title II, add the following new sections:

SEC. 208. INCREASE IN PRESIDENTIAL ELECTION CAMPAIGN FUND INCOME TAX CHECKOFF.

(a) IN GENERAL.—Section 6096(a) of the Internal Revenue Code of 1986 is amended by striking out "$1" each place it appears and inserting in lieu thereof "$3" and by striking out "$2" and inserting in lieu thereof "$3" and by striking out "$2" and inserting in lieu thereof "$6".

(b) EFFECTIVE DATE.—The amendments made by subsection (a) shall apply with respect to income tax liability for taxable years beginning after December 31, 1990.

SEC. 209. REPORT TO CONGRESS ON THE EFFECTIVENESS OF CERTAIN REPORTING AND DISCLOSURE REQUIREMENTS OF THE FEDERAL ELECTION CAMPAIGN ACT OF 1971.

Not later than 6 months after the date of the enactment of this Act, the Federal Election Commission shall submit to the Congress a report containing—

(1) an analysis of the effectiveness of the provisions of the Federal Election Campaign Act of 1971 (2 U.S.C. 431 et seq.) that require reporting and disclosure of the occupation and employer of an individual who makes contributions subject to that Act;

(2) a description of any administrative action the Commission intends to implement to improve compliance with such requirements; and

(3) a draft of legislation (including technical and conforming provisions) recommended by the Commission to improve the provisions referred to in paragraph (1).

In lieu of title III, insert the following:

TITLE III—EFFECT OF PARTIAL INVALIDITY, EFFECTIVE DATE, AND SUNSET PROVISIONS

SEC. 301. EFFECT OF PARTIAL INVALIDITY.

If any amendment made by section 109, 126, 127, 129, or 208, or the application of such amendment with respect to any person or circumstance, is held invalid by a final decision of the courts of the United States, no amendment made by any such section and no application of any such amendment shall be valid with respect to any person or circumstance, and, from and after the effectiveness of such decision, the provisions of law amended by such sections shall be in effect as if this Act had not been enacted.

SEC. 302. EFFECTIVE DATE AND SUNSET PROVISIONS.

(a) IN GENERAL.—Except as otherwise provided in this Act, the amendments made by this Act shall apply with respect to elections for Federal office beginning with the general election of November 3, 1992 (and any primary election relating to such general election).

(b) SPECIAL RULE AND SUNSET PROVISION.—The amendments made by sections 109, 126, 127, and 129, shall take effect on January 1, 1991, and shall cease to have effect on January 1, 1999, unless extended by law. The amendments made by such sections and the amendment made by section 208 shall be repealed, effective January 1, 1999, unless extended by law, and from and after such repeal, the provisions of law amended by such sections, including section 208, shall be effective as if this Act had not been enacted.

Mr. SYNAR (during the reading). Mr. Chairman, I ask unanimous consent that the amendments en bloc be considered as read and printed in the RECORD.

The CHAIRMAN. Is there objection to the request of the gentleman from Oklahoma?

There was no objection.

The CHAIRMAN. Pursuant to the rule, the gentleman from Oklahoma [Mr. SYNAR] will be recognized for 30 minutes and a Member opposed will be recognized for 30 minutes.

The Chair recognizes the gentleman from Oklahoma [Mr. SYNAR].

Mr. SYNAR. Mr. Chairman, I yield 5 minutes to the gentleman from Wisconsin [Mr. OBEY], the cosponsor of the amendments.

The CHAIRMAN. Before the gentleman from Wisconsin [Mr. OBEY] proceeds, does the gentleman from Minnesota [Mr. FRENZEL] seek the time in opposition?

Mr. FRENZEL. I do, Mr. Chairman.

The CHAIRMAN. The gentleman from Minnesota [Mr. FRENZEL] will be recognized for 30 minutes in opposition to the amendments en bloc offered by the gentleman from Oklahoma [Mr. SYNAR].

Mr. OBEY. Mr. Chairman, the purpose of this amendment is to strengthen the Swift package, which we fully support, and weaken the clout of the high rollers in this country on American politics, especially within this Chamber, and give average Americans a better opportunity than they have had over the last 15 years to actually have their voices heard on this floor.

Mr. Chairman, the amendments limit the amount of campaign spending which candidates may take from PAC's to 40 percent, and it imposes a further limit on PAC's by saying that only 10 percent of their campaign money can come from any PAC that accepts a contribution larger than $240. It cuts the maximum individual contribution allowed from $1,000 to $500. It provides that every $50 contribution from an individual within a State, $50 or less, will be matched with public financing. The public financing portion of this package is temporary, it is limited, and it is voluntary. It is temporary because it sunsets in 8 years so that we, in effect, say to the American public that we are not making a judgment on the public financing system. This is an idea which will be tested to help cleanup campaign financing. We are going to test it. It sunsets unless the public demonstrates dramatic support for it, which would lead the Congress to renew it. It is voluntary because, if a taxpayer does not want his taxpayer dollars used for this, he simply does not check the box, and his tax money is not used. My colleagues would have to go through the private sector and first obtain contributions in the private sector from individuals of less than $50 before we can receive any match.

Mr. Chairman, I have been in the business of campaign finance reform for about 15 years. The last bill that passed the House that would have been a major transformation of the campaign law was the Obey-Railsback bill in the 1970's. This package tonight in many ways reflects a lot of what I have learned over that 15-year period.

Mr. Chairman, one thing I have learned is that the issue is not whether one gives individually or through PAC's. The issue is how much influence the very wealthiest people in this society have on the political process, whether they give individually or collectively.

We could have zeroed out PAC's. Only two problems with that. First, it is clearly unconstitutional, and, secondly, PAC's are changing the way they do business, and so it would have no practical effect.

I had one PAC director in my own State tell me, "OBEY, 5 years from now we're not going to contribute a single dime through our PAC. The way we do it is we send out our message, mailings, seven or eight times a year, tell the people who the good guys are, who the bad guys are. We work through our local organizers. We get a pretty good idea whose going to contribute how much, and then, after filing day, we said, 'OK, boys, hit the button,' money goes out to the candidate, it never runs through the PAC, but it was delivered by the PAC nonetheless."

So, Mr. Chairman, as a practical matter, I have learned, as a prime mover and campaign reformer for 15 years, that, if we zero out PAC's, we do nothing but drive the money trail underground. We are fooling ourselves. We would hide where the money comes from and where it goes.

Second, Mr. Chairman, we would not solve the problem. Drexel-Burnham, for instance, contributed $122,000 from their PAC's last year to help candidates. They contributed $300,000 through individual corporate office holders. Solomon Brothers contributed $120,000 through their PAC last year. They contributed $280,000 through individual corporate executive contributions.

So, Mr. Chairman, we do not solve the problem that way.

There is another phony argument which goes, "Why don't you lower the PAC level to $1,000 instead of $5,000?"

Mr. Chairman, I will tell my colleagues what that means. That means, if there are 100 guys working in a papermill, they get together and, through their PAC's, contribute $10 apiece so it can go to their Congressman. They have $1,000. It means one guy in the front office making $100,000 can cancel out the contributions of 100 guys who work every day in the shop for a living. That is not a balanced system. That is not fair. That is what the Republicans are trying to set up in their package.

Mr. Chairman, the fact is that Mr. Keating and his associates, Keating of the S&L scandal, did not exercise his influence through PAC's. Keating and a bunch of his cronies got together, contributed $200,000 individual contributions of $750 or more.

The key to successful campaign finance reform is balance. What our amendment does is to bring PAC's down to 40 percent of the allowable spending level, and then it says that you get the difference, not by going to the highest income people, in this country as the Republican plan would encourage, but you get the difference by going to regular people through this country, and ask them for a tiny contribution, $50 or less, so that we truly spread the influence around, down to the average family in the country. We help them maximize their ability to compete with the big boys. We help them to maximize their ability to compete with the well-off and the well-connected. That is what campaign finance reform ought to be.

The test is whether we limit the influence of the wealthy. The test is whether we stop turning elections into auctions. This amendment meets both tests because, together with the spending limits—which are crucial if we want to reform politics—it helps to take all political candidates, both incumbents and nonincumbents, off the money trail. It democratizes the system. It recognizes that we have legitimate interests in this country. But it requires balance with other individual forces.

Most of all, Mr. Chairman, it reduces the influence of the wealthiest 1 percent of people in this country who have dominated tax policy, dominated regulatory policy, dominated all other policy, in this country for the last 10 years, a decade of excess, a decade of ripoffs, which came about in very large part because the wealthiest people in this country have the most influence. That is what this amendment will help bring to an end.

Mr. Chairman, I urge my colleagues' support.

Mr. FRENZEL. Mr. Chairman, I yield myself 4 minutes.

Mr. Chairman, it is interesting to note that the wealthiest people in this country have controlled politics and elected this wonderful Democrat majority over here. I hope they are enjoying the base of their support.

Mr. Chairman, we have here a pretty simple matchup. It is a little more difficult to compare Michel and Swift because the rule forces us to look at comprehensive packages and compare one against the other. Obey-Synar is pretty simple because all it does is lay the Swift bill a series of new costs, new expenses, for the taxpayer.

□ 2000

It has been said by some of the speakers here, although I was surprised to hear it, that the public would like to have the taxpayers pay the costs of the same old Members of Congress getting reelected.

Mr. Chairman, for 10 years, between 1977 and 1986, an institution called the Civic Service Inc. made a poll and they asked the same question. The question was:

> It has been proposed in Congress that the Federal Government provide public financing for congressional campaigns for the U.S. House of Representatives and the Senate. Would you approve or disapprove of the proposal to use public funds, Federal money, to pay the cost of congressional campaigns and how strongly do you feel?

Now, the strongest the public felt in favor of that was in 1977, when 32.5 percent approved and the strongest disapproval was registered in 1986, when 70.6 percent disapproved. As a matter of fact, the figures were so close over the 10 years that polling was abandoned because it was quite clear that the public had a pretty clear and certain opinion that taxpayer financing of elections was a bad deal.

Looking at the last year, one might say, well, probably all Republicans were opposed and some of us wonderful Democrats were for it. Actually, the Republicans were opposed by 72.2 percent and the Democrats slightly higher in opposition at 74.3 percent.

Now, that is one example of the popularity of taxpayer financing of elections. It just is not there. The people do not want their elections controlled by the bureaucracy and they expect that the incumbents are going to feather their own nests with the taxpayers' money.

But there is a better poll of whether people like taxpayer funding of elections. It occurs each April 15, or as close to that as you file your income tax. That is: How many people check off on their income tax that they want a buck to go into the Federal fund to pay for Presidential elections?

Now, at no time has that number gone over 30 percent, and in the last year, last year only 20 percent of Americans checked off, 80 percent decided it was a lousy idea, and the 20 percent who voted for it did so secure in the knowledge that they did not have to pay the extra dollar.

Mr. OBEY. Mr. Chairman, will the gentleman yield on that point?

Mr. FRENZEL. I yield briefly to the gentleman from Wisconsin.

Mr. OBEY. Mr. Chairman, I would ask the gentleman what percentage of Americans give individually to any candidate for public office? Is it not considerably less than the 20 percent who check off on the income tax? Does not the income tax checkoff have a far better record of participation than the other system in existence now?

Mr. FRENZEL. I do not have the figures, but it is pretty hard to avoid the checkoff when it is stuck on your tax form and sent to your house, and yet 80 percent of those who get it manage to avoid it. It is astonishing.

Now, I cannot send an appeal to everybody in my district, so I do not know how to compare those who contribute to me with those who contribute or think they contribute through the checkoff.

But, Mr. Chairman, I want to go deeper than that. I want to go to the States which had systems that said, OK, you can participate through your tax form, but it will cost you some money.

The State of Maine has such a program.

The CHAIRMAN. The time of the gentleman from Minnesota has expired.

Mr. FRENZEL. Mr. Chairman, I yield myself 1 additional minute.

Its participation rate is 1.06 percent. I doubt the gentleman from Wisconsin will challenge that private contributions are less than 1.06 percent.

Massachusetts, another late great State, has less than 2 percent.

The chairman's own State of Maryland used to have a program, but it did not work. Nobody contributed to it, so they threw it in the ashcan. In fact, they still have $2 million laying around somewhere that they do not know what to do with.

The CHAIRMAN. The gentleman is correct.

Mr. FRENZEL. Well, that is the public approval of this wonderful system of public financing.

I want to get to one other point about public financing, and that is the cost. It is not just what you give to the candidates, the same old people who have been in Congress before that is the cost; CBO has estimated that cost from $25 million in 1987. But there is also the extra cost of administration.

The CHAIRMAN. The time of the gentleman from Minnesota has again expired.

Mr. FRENZEL. Mr. Chairman, I yield myself 1 additional minute.

Here are some little epic works that the Federal Election Commission has produced for Presidential candidates.

Presidential candidates must be audited by the system, and as of now we do not have about half the audits completed for 1988. Now 1988 was a couple of years ago. Still, the following minor campaigns in that Presidential election are not completed: Bush-QUAYLE, Dukakis-BENTSEN, GEPHARDT, ROBINSON, Kemp, DOLE, Dukakis, SIMON, and Bush.

The reason we have not done them is that we don't have the money or manpower to do it. Now, the amendment of the gentleman from Wisconsin requires 10 percent of the total campaigns to be audited, which means that we will never finish those audits either. But we will spend a pretty penny trying.

Now, any way you slice it, the taxpayer financing of Federal elections is a loser and it ought to lose tonight.

Mr. Chairman, I reserve the balance of my time.

Mr. SYNAR. Mr. Chairman, I yield 1 minute to the gentleman from Kansas [Mr. GLICKMAN], whose distinguished service on this issue has been so critical to us coming to this point tonight.

Mr. GLICKMAN. Mr. Chairman, today I urge my colleagues to take a courageous step. I urge us all to take a step outside the money ring which circles all of us and which has strangled Congress for the last decade. Obey-Synar is the most profound and intellectually consistent of all the proposals.

By adopting public financing based on an in-State match, and by lowering the amount of large contributions we are reversing the trend toward private ownership of campaigns and moving toward public input. We must show the American people that the public interest, not the accumulation of big monied interests is paramount in this country. This proposal democratizes the system.

Thomas Jefferson said, "When a man assumes a public trust, he should consider himself as public property." As trustees of the public interest, we should be beholden to the people who elect us, and that is why public financing is critical to this proposal and to reinvigorating the public's desire to participate in the democratic process.

For people who are worried about the costs of public financing of congressional campaigns, which is minimal, consider the cost of the current system of private financing. Consider the taxpayer costs of the savings and loan bailout or the defense spending overruns, or Federal tax policies developed in large part, by wealthy Americans who pay little or no taxes, in part encouraged by campaign contributions from those industries. In truth, the real bargain for the taxpayers is to adopt this amendment. Vote for it. It is probably the most important vote we will cast this year.

Mr. SYNAR. Mr. Chairman. I yield 1 minute to the gentleman from Ohio [Mr. ECKART], who has made it possible for us to be here tonight with the Synar-Obey amendment.

Mr. ECKART. Mr. Chairman. I appreciate my colleague yielding me this time.

Let us compare and contrast what is in front of us. Both sides claim to limit PAC's. That is nice, but what the Synar-Obey amendment does that the Republicans refuse to acknowledge is that while we both limit PAC's, they do not touch the fat cats.

That is what this debate is all about. It is about empowering those who are least capable of representing themselves currently in the political process, and indeed giving more to the rich and the wealthy who have been affected so mightily from economic and tax policies these past 10 years. This, in stark contrast to the Synar-Obey amendment, which says that if you have a few nickels to raise together from your hourly wage, we are going to let you participate in the process. At the same time we are going to say to those who have organizations who want to contribute, you have got to get closer to the people.

Any reform which deals with PAC's only and not the fat cats only deals with half the problem. The Synar-Obey amendment deals with fat cats by cutting back what the wealthy millionaires can contribute to the process. Synar-Obey is the solution. We know what the answer is.

Mr. FRENZEL. Mr. Chairman, I yield 4 minutes to the distinguished gentleman from Illinois [Mr. DURBIN].

Mr. DURBIN. Mr. Chairman, I thank the gentleman for yielding me this time.

Though the sponsors of this amendment are relatively young, they enjoy a reputation in this House on the issue of campaign reform which is almost legendary. The gentleman from Wisconsin [Mr. OBEY] was involved in the earliest days of reforming this process, and the gentleman from Oklahoma [Mr. SYNAR] has spent with his staff many months in an effort to put together this substitute.

Though there are many positive aspects in the Synar-Obey substitute, there is in my opinion one fatal flaw. In my home State of Illinois there is an extremist political party at work. They are the followers of Lyndon LaRouche. They spread a gospel of racism, anti-Semitism, and character assassination. The character assassination reaches everyone in this Chamber and everyone in government: State, local, and Federal.

□ 2010

Although their leader, Lyndon LaRouche, has been imprisoned for criminal activities, they still conduct a massive solicitation and recruitment effort. If you live in the Washington, DC, area, you can still hear the imprisoned Mr. LaRouche on the radio soliciting support for his extremist effort.

Four years ago the LaRouche party was strong enough to raid the Illinois Democratic primary and force several of their zealots on the ballot. Despite their miserable reputation, they still managed to defraud unsuspecting people out of vast sums of money, and they maintain a massive mail solicitation operation.

This public financing proposal as written is the answer to their prayers. They will be able to match dollars raised by their deceptive mailings with dollars from the Federal Treasury up to $100,000. Now, I understand in our democracy that even radicals and extremists have a right to speak and participate in our political process, but I cannot support a system which subsidizes the racism of Ku Klux Klan candidates or the anti-Semitism of Lyndon LaRouche candidates with such easy access to our Treasury.

In this age of 900 telephone numbers and computer mail, the threshold requirements for this public subsidy are well within the reach of these hate groups. This amendment will force America's taxpayers into underwriting these shabby extremist political groups.

If this is reform, I believe this is one reform we can do without.

Mr. MOODY. Mr. Chairman, will the gentleman yield?

Mr. DURBIN. I yield to the gentleman from Wisconsin.

Mr. MOODY. Mr. Chairman, I certainly agree with the thrust of what the gentleman says about Mr. LaRouche.

But the way to handle that, it seems to me, is to require that people not be able to run for Congress unless they can serve in Congress. Mr. LaRouche, if elected, could not serve, because he is a convicted felon. Mr. LaRouche could not run for Congress and soak up campaign funds of any variety, as he now is doing.

Mr. DURBIN. Reclaiming my time, the unfortunate fact is in the State of Illinois, he has hundreds, if not thousands, of followers. We see them on the street corners of Washington, and they are candidates for office. The fact that he is in prison is not going to stop his movement.

I might add that the attorney general of the State of Illinois is presently investigating fraudulent activity by the LaRouche people in Illinois, defrauding people in my district out of thousands of dollars. They send out a paper called the New Federalist which

looks like an official publication, and unsuspecting people fall into their trap. These same people will be providing the matching funds which would give them access to the Federal Treasury under this amendment.

Mr. MOODY. If the gentleman will yield further: Not if he was not able to run legally, which he cannot.

Mr. DURBIN. The gentleman does not understand. I am saying to the gentleman that Mr. LaRouche's candidacy is not in question. He has plenty of surrogates who will run in congressional districts, at least in my home State, and perhaps across the Nation. We cannot stop them with this message. We are, in fact, going to subsidize him if this amendment passes.

Mr. SYNAR. Mr. Chairman, I yield 3 minutes to my distinguished Missouri friend, the gentleman from Missouri [Mr. GEPHARDT], our majority leader.

Mr. GEPHARDT. Mr. Chairman and members of the committee, Adlai Stevenson once said that public confidence in the integrity of the Government is indispensable to faith in democracy. He said when we lost faith in the system we have lost faith in everything we fight and spend for.

About a month ago they had a primary election in California. About 25 percent of the eligible voters voted in that election. The Presidential election in 1988, about 50 percent of the eligible voters voted. We have all seen focus groups where they ask people why they are not participating in the process. One that I recently saw, a woman, said, "Why should I vote? The rich and the special interests are the only ones that have a voice in our political system. So why should I bother, because my vote won't count."

The reason the American people are becoming alienated from the political system and their Government is because they believe that only the fat cats, the wealthy, the large contributors, the large PAC's with the large contributors to them are running our political system.

You have a chance tonight to change that by voting for this substitute to the Swift package which is a good core package. We can make it better if Members will vote for this package.

It takes the individual contribution from $1,000 to $500, a valuable reform. It gives a tax credit for the $50 giver that we have lost too much in the system, so we can encourage average, ordinary working people to get involved in politics again. It has a matching funding program that says that if you can get a lot of those $50 givers, there will be matching funds up to a certain amount from the Government. It emphasizes, as does the Swift package, political action funds that get smaller contributions from their members.

So I would simply say to my colleagues that even though the hour is late and we are about to go away for a recess, the vote we cast tonight on these packages, and especially on this one, will be our chance perhaps in a long, long time to stand up for average, ordinary people getting ahold of this political system again. We need to do it. The country wants it. People are crying out for it.

I urge the Members on both sides of the aisle to stand up tonight and to give average Americans their political system back.

Mr. FRENZEL. Mr. Chairman, I yield myself 30 seconds to observe that the average American lost his or her tax credit as a result of the majority leader's tax bill in 1986, and I am glad he is going to give it back.

Mr. Chairman, I yield 5 minutes to the gentleman from California [Mr. THOMAS], the distinguished vice chairman of the Committee on House Administration, the committee that should have had this bill under consideration but was denied it.

Mr. THOMAS of California. Mr. Chairman, I thank the gentleman for yielding me this time.

Mr. Chairman, rhetoric is a wonderful thing. It gets very heady the more you use it, the more you want to use it. We have heard the fact that we want to take the political system away from the millionaires, that what we need to do is to reempower the average person.

The gentleman from Wisconsin [Mr. OBEY] said that the key is balance. First of all, unless the millionaire is a candidate himself, the most that a millionaire can give to another candidate in terms of contribution is $1,000. That $1,000 was put in place by this Congress in 1974. That $1,000 today is worth about $400.

So if Members really want to represent the purchasing power of $1,000 today, which is the current law, the Synar-Obey amendment should have reduced the individual contribution to $400 to try to match it up exactly in terms of what has happened in over 15 years of inflation on that fixed number.

The gentleman from Wisconsin said the key is balance. I do not want to use a lot of rhetoric. I would just like to let the Members know what the world would look like if the Synar-Obey amendment became part of the Swift package. The individual millionaire, or otherwise, would not be able to contribute $1,000. That individual would only be able to contribute $500.

Unfortunately, the way in which the amendment was drafted also means that the political parties, Democrat or Republican, if they accepted a contribution of more than $240 could not give more than $500 either. So in the world of Synar-Obey an individual is able to contribute $500. The Democratic Party, if they accept a contribution over $240, can contribute $500, and the same with the Republican Party. But the labor political action committee can contribute $5,000.

That is now the world that they want to bring about, plain and simple. They want to ennoble, or, enable labor PAC's. They want to make them king of the hill. They want them to be able to make the difference in campaigns, and, you know, since the 1970's, given the Supreme Court decision on the creation of political action committees, the Democrats have understood, and key Democrats within the Democratic Party have understood, that there are a whole lot more businesses than there are labor unions, and the time will come when there are multiples of PAC's under business and professionals that will outweigh labor.

□ 2020

This is the one clean shot to reverse that dynamic, to once again enable labor PAC's to be king of the hill.

Now, we have also heard that the Republican proposal has no arbitrary limit on spending, it has no arbitrary limit on political action committee money, and that, for example, the Synar-Obey amendment will reenable the little person.

But wait a minute. It is just an amendment to the Swift bill. What Swift does is still allow hundreds of thousands of dollars to be contributed by political action committees.

Does one have to get one cent from an individual to collect the maximum under the Swift bill from political action committees? No. And do you have to go home to get any of that PAC money? No. Can you stay in Washington and hold those events where people who don't even like you come to them and give you money? Wonderful atmosphere? Yep. You can stay right in Washington, collect a quarter of a million dollars, never go home. And if you do not spend all of that, that money gets washed in the next election cycle and you are right back up to $275,000 in PAC money once again. That is reform?

Now, the Republican position has been criticized. What is it that you are criticizing? You are criticizing the fact that what we want as a political world is that before you can take one dime from a PAC, whether in Washington or any place else, you have to go back home. You have to go back home to the people in the district and say, "Would you give me a dollar?" And if you can get a dollar from the people back home, then you can take a dollar of PAC money, or a dollar of money from people outside your district.

But what starts the ballgame is the people in the district. What controls the ballgame is the people in the district, not some arbitrary number that

is supposed to fit a congressional district that is an entire State, that is an urban district, that has TV, that doesn't have TV.

We have 435 districts. The only thing we are going to have in common under the Swift bill is they all can spend the same amount of money. What we want to do is put the people back home in total control of the campaign. What we want to say is you get a buck from home before you get a buck from anywhere else. It is the people back home who determine how much money you are going to spend.

What we have got in this amendment is as close to the perpetual motion machine as I have ever seen. Raise a buck, get a buck from the Treasury. Buy half a stamp, get half a stamp from the Treasury.

This plan is conceived by people who are used to getting their whole stamp from the Treasury, and they do not want to go back home to raise it.

Mr. SYNAR. Mr. Chairman, I yield such time as he may consume to the gentleman from Utah [Mr. OWENS].

Mr. OWENS of Utah. Mr. Chairman, I rise today in strong support of the Synar-Obey amendment and the elements it includes from the Democratic leadership bill.

As all of us know only too well, our collective desire to retain our seats in this August body has created enormous pressures for further and further campaign spending. In a war of words and wallets, we are escalating towards uncontrollable cost proliferation. It is time for a mutually verifiable campaign-spending freeze. In my first election for the House in 1972, I raised $130,000. In the last cycle in 1988, I was forced to raise more than $750,000. This election, I am trying to raise even more. Like medical costs, campaign costs are going through the ceiling, at a rate many times the rate of inflation. But unlike medical costs, campaign costs are relatively easy to control if we simply have the collective will to do so.

I have no fondness for fundraising. I love the job of Congressman, but I hate the job of fundraiser. I have seriously proposed extending the terms of Congessmen to 4 years by constitutional amendment in order to put a stop to the perpetual campaign, but this effort has not been seriously considered here. It is a matter of companion importance to campaign reform and it is my sincere hope that we might attract congressional interest next term.

Mr. Chairman, I support the Synar-Obey amendment in part because of its modest, but important, attempts to encourage the idea of public financing and voluntary campaign spending limits. I believe in public participation in financing congressional campaigns as we do in the Presidential arena. I first voted during my first term in the House 17 years ago for public financing of congressional campaigns—a bill then offered by Congressman MO UDALL, one of the most accomplished and distinguished Members ever to serve this body. We need at least partial public financing. The integrity of this body requires that the public, through voluntary check-offs, helps fund campaigns. If challengers are to have any chance at all—any chance at all—in most districts, partial public financing is essential. Let's face the bad news: The country needs full-time legislators, not legislators who are torn between their duties and their campaigns every second year as autumn rolls around.

I like the emphasis on the small contributor in the Synar-Obey amendment. I believe we are wise to seek lower limits on both individual contributions and the contributions made to PAC'S. Despite what we may have seen in past years, elections are not conducted just for the rich. Public matching funds for small contributions will also give us further incentives to solicit a broader base of support.

I also support the Synar-Obey amendment because it has a lower aggregate limit on PAC contributions than that proposed in the democratic leadership package and will prove to be an effective way to manage PAC participation in our campaigns. There is nothing wrong with the concept of PAC's—that is, the voluntary contributions of individuals with shared goals—but I am concerned that the relative influence of PAC contributions has become too great when compared to other campaign contributions. I have proposed a campaign reform package which would include the element of a voluntary spending cap and be composed of one-third individual contributions, one-third PAC contributions, and one-third public financing. The Synar-Obey amendment advances similar ideas and will be effective in balancing the diverse points of view which need to be considered during a campaign.

There are some elements in the Republican substitute which I find acceptable. But the package as a whole is not as appealing as what is offered in Synar-Obey, partly because there is no spending cap in the Republican substitute. There is merit in the idea of requiring a majority of funds to be generated in the Member's or candidate's district. But I believe this goal will also be effectively accomplished by the Synar-Obey limits on PAC contributions at $220,000 of a permitted $550,000.

Obviously, money does not influence how we vote. But the constant chase for contributions does get in the way of our responsibilities as legislators. We are spending too much. We are collecting too much. We are wasting too much time on fundraising. The system now in place is an insurance policy for incumbents, so this effort tonight represents a leap of faith and fairness. Self-interest and special-interest must give way to public interest. I am proud of this body for finally making some of these tough decisions.

Mr. SYNAR. Mr. Chairman, I yield such time as he may consume to the gentleman from Kentucky [Mr. MAZZOLI].

Mr. MAZZOLI. Mr. Chairman, I thank the gentleman for yielding. I rise in behalf of a strong campaign reform program. I rise in behalf of a program that puts people back into the system, and that is Synar-Obey. I, therefore, rise in support of the Synar-Obey substitute and ask unanimous consent to revise and extend my remarks.

Mr. SYNAR. Mr. Chairman, I yield such time as he may consume to the gentleman from Florida [Mr. FASCELL].

Mr. FASCELL. Mr. Chairman, I rise today in support of the Synar-Obey amendment to H.R. 5400, a bill to provide comprehensive campaign finance reform. This amendment provides genuine and urgently needed reforms to the campaign finance system—in my judgment, one of the most important issues facing our Nation today.

The problem is simple. Candidates are spending enormous, even exorbitant, sums of money for their campaigns. In order to finance extremely expensive advertising costs and to effectively challenge wealthy opponents, they must turn increasingly to national Political Action Committees [PAC's] for funds. As a result, PAC contributions to congressional candidates rose from $12.5 million in 1974 to nearly $150 million in 1988. Meanwhile, larger individual contributions, bundling and independent expenditures are responsible for increasing candidates' dependence on wealthy supporters while obscuring the money trail.

What is the result of all this? Clearly, the character and the responsiveness of the individual being supported is affected by the dependence on PAC money and contributions from wealthy, out-of-state individuals and groups. PAC's are certainly not the sole cause of the problems facing the existing campaign finance system, but we lose touch with the voters when there is an extra layer through which they can get peripherally involved in politics and make their contributions. Abandoning direct local participation in election campaigns for national PAC activities like fundraising by direct mail, political advertising on radio, television and in the newspapers, adds little or nothing to the political debate. It merely adds to the price.

The provisions of the Synar-Obey amendment might not put an end to these problems, but they will certainly help. By limiting the PAC money a candidate can accept to less than half what he or she spends and by promoting in-state giving, this amendment signals a return to the direct participation of voters in campaigns and elections. By providing matching public funds to candidates with small, in-state contributions, and double matching funds to candidates whose opponents exceed the spending limits, the amendment provides the incentives for a clean campaign. And by strongly limiting the contributions of wealthy individuals, whether on their own or through PAC's, the amendment provides restrictions on the undue political influence.

When these and further restrictions have been enacted, we may look forward to the day when lawmakers can spend precious campaign hours meeting with voters rather than spending an inordinate amount of time raising campaign funds. Thus, constituents might feel free to participate directly in elections, rather than asking national organizations to act on their behalf. And finally, candidates might be elected based on the number and the activity of their supporters, rather than their wealth.

The present campaign finance law went a long way toward giving the public the information it needs to know about a candidate's campaign funding support. Now we must go further and limit both spending and contributions in a reasonable way, balancing the legiti-

mate role of contributions in establishing a serious candidate with the dangers of excessive spending. We can and we must bring this spiraling spending problem under control.

Mr. SYNAR. Mr. Chairman, I yield 1 minute to the gentleman from Minnesota [Mr. SABO], whose invaluable services to the task force brought us here tonight.

Mr. SABO. Mr. Chairman, I thank the gentleman from Oklahoma [Mr. SYNAR] for yielding.

I rise in strong support of the Obey-Synar amendment. It has always struck me as rather difficult to understand that so many people somehow think that politics has nothing to do with Government and Government nothing to do with politics. It seems to me the key of representative government is the relationship between politics and Government.

Mr. Chairman, with all of the problems we have of campaign finance, and I can find problems with all kinds, it seems to me to say that there is a limtied amount of public funding that goes to a candidate who has raised 50 bucks from somebody in their State, has to be the most trouble-free money that could possibly exist in the political process. It creates the least demagoguery and maximizes the possiblities of the elected official to make a reasoned and considered judgment.

Mr. Chairman, I think the Obey-Synar amendment is a major improvement of the Swift bill, and I urge Members to vote for it.

Mr. SYNAR. Mr. Chairman, I yield 1 minute to the distinguished gentleman from North Carolina [Mr. PRICE].

Mr. PRICE. Mr. Chairman, I rise to propose that we add the Obey-Synar provisions to the Swift proposal. We need to limit spending, and the Swift bill does that. But we also need to have full and effective campaigns and to ensure that those campaigns are financed by a healthy diversity of donors.

That is where Obey-Synar comes in, reducing the role of PAC's, especially high donor PAC's, encouraging small contributors, and providing a floor of public funding.

Mr. Chairman, I know public funding is controversial, but there is no way to achieve what we want to achieve without it. It just does not add up otherwise, if we are to reduce the role of PAC's and large contributors, and also have campaigns that reach our people effectively in the age of television.

The public funding provision in Synar-Obey is well-designed, modest in amount, put on a matching basis to encourage small private contributions, and utilizing the already existing voluntary tax checkoff system.

Mr. Chairman, the campaign reform package does not add up without it, and I urge its adoption.

Mr. FRENZEL. Mr. Chairman, I yield 4 minutes to the distinguished gentleman from Kansas [Mr. ROBERTS], a member of the Committee on House Administration, the committee that should have had reference over this bill.

Mr. ROBERTS. Mr. Chairman, I am going back on my word. I was not going to speak. I said this was a spinning wheel issue, it was dead, that the President was going to veto the bill, and we would not get to real reform before the next session. That was before my friend the gentleman from Kansas [Mr. GLICKMAN] got up and described a brave new world. "The most important vote we are going to cast in the whole session."

I would say to the gentleman from Kansas [Mr. GLICKMAN], I thought that was the farm bill. But, nevertheless, I really do not want to go into that brave new world with this most important vote.

Somehow here there has been this connotation that we have to separate what people will give in terms of a contribution, in return for exemplary public service, not only the vote, but there is something inherently evil about supporting a person with contributions because they represent your views.

Mr. Chairman, I can remember the hearing back, I think, in 1987 when both the gentleman from Kansas [Mr. GLICKMAN] and the gentleman from Oklahoma [Mr. SYNAR] testified on this very subject. We have a philosophically different approach, and I understand that.

The gentleman from Oklahoma [Mr. SYNAR] comes to this issue very honestly. The gentleman does not accept any PAC money contributions. He firmly believes in public financing, and I credit him with that.

The gentleman from Kansas [Mr. GLICKMAN] feels that we should take a partial step, or at least some step.

Then I decided to look at the record. It has clearly shown and is showing today that the amount of PAC contributions, or these evil defense contractors, or big business, even including agriculture, with all of these PAC contributions, really contribute to Democrats more than Republicans; 60, 70, 80 percent.

Mr. Chairman, I have a great idea. If this is so evil as the gentleman from Missouri [Mr. GEPHARDT] has said, from the fat cats not the little guy. Just say no, don't take the money. Very simple. But there is a relationship in regard to what this Congress does and what individuals do and who will support you and who will not.

Mr. Chairman, we have people here who think service here is a divine right. We are celibate monks here in this Congress. My goodness, how dare you ask anybody for a contribution, despite the fact that they might really believe in you?

PAC contributions inherently evil? They are all publicly disclosed. It is all in the newspaper, 2,000 of them, 3,000 of them.

My word, they are in the right field bleachers, in the left field bleachers, they are all over the place. Nobody is buying anybody here. Look in the hometown newspaper.

If Members are so embarrassed about this, my good friends on the other side of the aisle, do not take the money. The gentleman from Kansas [Mr. GLICKMAN] said in regard to that election, there had to be some way through public financing where a challenger can at least run a decent race against him.

Mr. Chairman, I should not say this. We have a candidate against him now, but he has not had a contested race in 10 years. I have not either. But it certainly is not because of PAC contributions. It is because the gentleman from Kansas [Mr. GLICKMAN] is doing a fairly good job out there.

Mr. Chairman, just say no. Let us go back to what the gentleman from Illinois [Mr. DURBIN] pointed out, the fatal flaw in this particular amendment. This is ridiculous.

□ 2030

I said this before. Please pay attention to what the gentleman from Illinois [Mr. DURBIN] said. Any district where somebody does not sign this pledge that they will not go over $550,000, or the higher cap, and all of this mish-mash, all you have to do is sign the pledge, say you are a candidate and you get a 50-percent mailing discount. Every young lawyer who wants to get his name in the race is going to get that, every direct mail organization is going to get that, anybody with a mailing list is going to get that.

Now, you sign up and you say I take the pledge, and you file. Fat cats, yes, but what about Merry Melodies and Looney Tunes? I said before, do you want right-to-life candidates, do you want prochoice candidates, the right-to-bear-arms candidates, gun control candidates, young Socialist candidates? I am going to start a wheat party. We grow more wheat in my district than any State and Members have heard me say that 18 times here on the farm bill. I will have a wheat party. We can take the farmer's deficiency payment, and he can just countersign it to ROBERTS, and I could be my own majority leader and my own minority leader.

This is an open invitation to the end of the two-party system. The gentleman from Illinois [Mr. DURBIN] is right. We will have Lyndon LaRouche campaigning from a cell using taxpayer dollars.

This is ridiculous.

Mr. SYNAR. Mr. Chairman, I yield 1 minute to the distinguished gentleman from California [Mr. FAZIO].

Mr. FAZIO. Mr. Chairman, we certainly understand the high level of cynicism that infects the political process in our country. It crossed over to the census. It showed up in election after election, minimal turnouts. People dropping out.

In addition, another thing has happened in recent political terms. The small contributors, the average working people we represent are no longer participating. They feel as if it is irrelevant. The fat cats are taking care of us, they think, they are paying the bills, those escalating, ever-escalating costs of campaigning.

The Synar/Obey amendment passes the fundamental test by forcing down the limits in the political system to where those working people are once again our most important contributions. It meets the test because there is no way to eliminate money from politics. Nobody would really want to do that. But this amendment enhances that, the average person's role.

The limits of big contributors are reduced from $1,000 to $500. The smaller contributor not only has a tax credit to induce his participation, but a matching public financing contribution to make sure that that $25 or that $50 is doubled in its impact on a congressional campaign.

We empower people in this amendment, and we all ought to be proud of that, and we ought to stand up and advocate it because this form of public financing is not only limited, it is voluntary. And it is an experiment, up front; we admit it; it is sunsetted. We want to see if it will work as well as our Presidential system.

This is the way to give power back to the people, and I congratulate the authors and support their amendment.

Mr. SYNAR. Mr. Chairman, I yield 1 minute to the gentleman from Pennsylvania [Mr. GRAY], the majority whip of the U.S. House of Representatives.

Mr. GRAY. Mr. Chairman, I rise in support of the Synar-Obey amendment. I rise in support of it because it is an attempt to reduce the ability of the very wealthy to influence the political process either collectively or individually.

I think one of the things that most Americans are concerned about is the fact that a wealthy few are those who control this process by contributing their large wealth to those who are running for office. What the Synar/Obey amendment does is reduce the amount of PAC contributions which can be received by a candidate to 40 percent of the allowable spending limit.

It also limits to 10 percent of allowable spending the amount that can be taken from any PAC which receives contributions of more than $240 a year from any individual, and also, most importantly, cutting in half the amount an individual may contribute to any House candidate from $1,000 to $500.

My friends, it brings it back down to the people, and that is why we ought to support the Synar/Obey approach, because it brings it back down to the little guy out there in our district and across the Nation.

I urge support for the Synar-Obey amendment.

Mr. FRENZEL. Mr. Chairman, I yield 2 minutes to the distinguished gentleman from Missouri [Mr. BUECHNER].

Mr. BUECHNER. Mr. Chairman, I recall some of the negotiations that took place during our bipartisan committee trying to wind our way through the maze of campaign financing, and the gentleman from Oklahoma and I talked about a way to encourage the accumulation of small donors, or maybe at a certain point in time that if they met an amount, I think we talked about raising $50,000 or $100,000 in donations of $100 or less in your district, at that point, once you qualified, then you could get that money. You develop your own seed money, and then there would be some Federal money. It would be a lump sum, matching what you had raised, but it would not be in the form of stamps. It would not encourage people to file willy-nilly just to get their name out there, and that seemed like a very good alternative.

I know some of my friends on my side of the aisle do not like any type of public financing. But it seemed to me to be a good way to step across the line, to combine local interest with some public funds.

We are not debating that today. We are really debating very little. We are talking about a big rock over here, and another big rock to go on top of that rock, and over here we have a little bitty pebble because that is politics.

But I would love to have debated that and to have offered an amendment to bring that out here, because I think that is something that the average American would probably grab ahold of as opposed to paying for a lot of postage out of their pocket.

The other night at a town hall meeting a lady said she thought that there ought to be public financing of elections. And I said how many people here would pay $25 a family to support the Federal election process. She looked at the lady next to her, and there was a raised hand, and out of 120 people, 6 people raised their hands, and a guy in the back said: "Reduce the deficit, don't charge us any more."

I think that is the way America thinks about funding political campaigns. If we cannot make a case to the small donors, if we cannot convince a majority of people in our own district that they ought to give us some money, then we have lost touch, and that money that comes from outside is pervasive, and it hurts, and it is not good.

Mr. SYNAR. Mr. Chairman, I yield 1 minute to the gentleman from New York [Mr. MCHUGH].

Mr. MCHUGH. Mr. Chairman, I think the previous speaker has made one of the most important points in support of the Synar-Obey amendment, because we seem to agree that it would be beneficial to spread participation in the political process among small, individual contributors.

The Synar-Obey proposal is the most effective option before us in that respect because it provides a 100-percent tax credit for small contributions. And unlike any other option it matches that $50 contribution with public funds.

People say the argument here is that the average American does not support public financing. Well let us see, because the public financing would be available only if the American taxpayer voluntarily checked off on their income tax return the dollar contribution. If the American people do not support this matching public funding to spread participation among small contributors, they will not check off the dollar on their tax form.

Let us give it a test. Let us put our vote behind our rhetoric, and let us spread the participation to small, individual contributors.

Mr. SYNAR. Mr. Chairman, I yield 1 minute to the gentleman from Illinois [Mr. EVANS].

□ 2040

Mr. EVANS. Mr. Chairman, as one who has faced well-financed opposition in the past, I enthusiastically embrace the Synar-Obey amendment. That is because I believe that just like our economy, our political system works faster when we have good and meaningful competition. No Member has anything to fear from the meaningful competition that public financing will bring to our elections.

I have been with many of my colleagues in their districts, both Democrats and Republicans, and I have seen them work their differences. I know from those experiences that the vast majority of our colleagues have a firm grasp about the concern of their constituents and the issues that confront them. I know many of them are also tired of election coverage focusing on the pure horse race aspect of campaigns, who has raised more money, who has more money in the bank.

This legislation means we will spend less time raising money and more time raising issues. That should mean more public interest in campaign and bigger

voter participation on election day, and automatically better government in the long run. I urge Members to support this.

Mr. FRENZEL. Mr. Chairman, I yield 30 seconds to the gentleman from Washington [Mr. MILLER].

Mr. MILLER of Washington. The Obey-Synar proposal has much to commend it. The part about matching small individual contributions, I think, has merit. I have supported that in the past. I would like to support it now, except that the Obey-Synar proposal also has a provision that gives labor political action committees 3 times the contributing power and allowances of other political action committees.

Mr. SYNAR. Mr. Chairman, I yield 2 minutes to the gentleman from Wisconsin [Mr. MOODY].

Mr. MOODY. Mr. Chairman, many important things have been said in favor of the Synar-Obey amendment, I want to use my brief time to respond only to two points raised against it. The first one is that people do not really want public funding. We have 50 States that serve as laboratories under our Federal system. My State of Wisconsin has funding and matching grants for State legislative races, and partial public financing of campaigns is totally accepted in Wisconsin. It is almost totally participated in, and it has restored a great deal of confidence to the political system in my State for legislative races. So it is very good.

At the Federal level, of course, we already have partial public funding for Presidential races. Mr. FRENZEL says public funding for elections is not popular. Can Members imagine trying to rescind Presidential funding now? People do have confidence in it, and it does enable people to run for President who otherwise couldn't, and the country is better off for it.

Second, on the LaRouche point, the gentleman from Illinois [Mr. DURBIN] raised the point about fringe candidates or LaRouche-type candidates getting money from unwary travelers at airports, and so forth, to run for Congress, and then use matching funds under the Obey-Synar amendment. Here's why that couldn't happen. First, under Synar-Obey, they would have to win the primary. How many LaRouche candidates have won congressional primaries? I don't think any.

Second, and more importantly, to be eligible for any of these matching funds, such candidates would have to raise at least $25,000 in $50 donations or less from people who live inside the State. But getting money from people passing through airports is not going to meet that requirement. While I respect the concern of the gentleman from Illinois [Mr. DURBIN], I think that the fact is, if Members read the amendment, that that would not take place. Therefore, I think that particular criticism is not valid.

The Synar-Obey amendment is excellent. We have this in Wisconsin at the legislative race level. It provides for clean campaigns, wide-scale participation and enables people to run without being beholden to big money interests. I urge adoption of the amendment.

Mr. FRENZEL. Mr. Chairman, I yield 5 minutes to the distinguished gentleman from Georgia [Mr. GINGRICH], the minority whip, who is also formerly a member of the committee to which this bill was not referred.

Mr. GINGRICH. Mr. Chairman, let me say that in future years when historians and anthropologists look at the American system, tonight's debate will be one of the places that they use as an example of how bad it got. We clearly have a system which is in real trouble, a system of self-government which has grown steadily sicker.

If we read Brook Jackson's "Honest Graft," or if we read the Ethics Committee report on St Germain, or if we look at a range of things that are available, it is clear that the relationship between lobbyists, money, campaigns, offices, is, in fact, in real trouble. If we go back and we read Bill Schneider's article in the Atlantic Monthly of January of this year, in his description of how the Democratic freshman class of 1974 decided to conscientously use tax-paid money to ensure that incumbents would get reelected no matter what their voting record, we see a pattern of further and further distancing what is supposed to be the People's House, from the people.

I think one of the things people will look back upon as a truly amazing historic moment is the degree to which the Democratic Party came to distrust the American people. I want to focus for a minute on three parts of this distrust. First of all, we have a bill brought to the floor tonight which is, I think, called "Son of Swift," because Swift existed 3 days ago and has since been evolved into a second bill, designed to somehow appease some people who did not like the original Swift bill. So we have Son of Swift, which is a second bill, in 3 days. Then we have Obey-Synar, which is the amendment to Son of Swift. Neither of these has had any public hearings. Neither of these has had any committee markups. These are the products of a group of backroom politicians and backroom staff, trying to write something which will appease just enough people to survive the rules process and get to the floor, and not be too humiliating. However, neither of these have been through what we are taught in civics class, is normal legislative process.

There was no emergency except the emergency of political necessity. There was no requirement to rush to the floor, except that the Department wanted to. Every basic rule that high school students are taught about the legislative process has been violated by the Democrat leadership in bringing this bill to the floor. There were no hearings. There was no public markup. Then, we are going to discuss reform under a closed rule?

If there is any evidence the country needs of how sick the system has become, it is unlike the other body which took day after day. We are rushing through at the last moment, under a closed rule. But then we come to the Obey-Synar amendment, as I understand it in its current condition, without having been heard in public. In terms of distrusting the American people, why would they cut the contribution ceiling from $1,000 to $500? How can anyone argue not that we are going to eliminate political action committees, and I think they can make a case for that. Not that we will restrict the great labor unions in Washington, DC, from getting $5,000 at a unit, and they can make a great case for that, but why would they be so frightened of the American people that they would literally cut in half their right to contribute?

I think there is a good reason. The fact is, in 1988, Republican challengers raised more money in Democrat incumbent districts from people, from human beings, from voters, than the Democratic incumbents. Republican challengers raised $1 million more from the voters of their districts than did Democratic incumbents. How, then, did the Democratic incumbents survive? They survived first by the enormous tax-paid incumbency advantage they already have, and they survived second, because they used the great amount of money they can raise from the labor unions and the political action committee to drown the challengers.

Let me say one last thing which I think should worry every American citizen, Democrat or Republican. It is now easier to lose an election in any part of the Soviet empire than in a congressional race in the United States. We are more likely to defeat an incumbent in Russia, the Ukraine, Latvia, Lithuania, Estonia, Poland, Hungary, Czechoslovakia. Only in Albania are incumbents as carefully protected as in the American House.

I want to close with this thought. It tells Members how much we want to cripple people in terms of elections that we have proposed in Obey-Synar, a welfare program for politicians, but we have in the Swift bill a cap which would guarantee the challengers never have as much money as incumbents, that the income always starts with $1 million in tax-paid money for staff and franked mail, and all those advan-

tages, and then we cap the challengers so they guarantee no matter how much the incumbent becomes ethically sick, no matter how much the incumbent votes against, the taxpayer is coerced in keeping them in the office. That is the final proof of how much the Democrats distrust the American people.

Mr. SYNAR. Mr. Chairman, I yield 1 minute to the gentleman from South Carolina [Mr. DERRICK].

(Mr. DERRICK asked and was given permission to revise and extend his remarks.)

□ 2050

Mr. DERRICK. Mr. Chairman, back in the 1970's, the business community came to the Congress in the aftermath of Watergate and said, "We need a legitimate means of becoming involved financially in the political process."

Mr. Chairman, I say to my colleagues, "We all know what it was before then. You paid an executive $10,000 more than he was worth. He gave that to the political campaigner, or there was money running around in suitcases and whatnot."

I thought the tax situation was good when it passed, and I do not think it is bad now, and I do not think any of us here know exactly what is wrong with the situation.

However, Mr. Chairman, we do know this: That there has to be some changes made because people, the middle-income person, the middle-class person, the lower income, the lower income people in this country, are being turned off, and the reason they are being turned off is because the fat cats are running the political process.

It has taken me a long time to come around to get involved in some sort of public financing, but I have come to the conclusion that this is the only way that we are going to be able to keep the middle-income and lower middle-income person in this country involved in politics financially and contributing by their votes.

Mr. SYNAR. Mr. Chairman, I yield 1½ minutes to my colleague who joins with me in this amendment, the gentleman from Wisconsin [Mr. OBEY].

Mr. OBEY. Mr. Chairman, I make absolutely no apology for the public financing component of this bill. Is there any activity in American that is a more important public activity than the process by which a democracy elects its leaders? I make no apology whatsoever for trying to reduce the ability of the fat cats to influence politics by cutting in half the amount that rich people can contribute to political campaigns.

The amendment is very simple. It weakens the clout of the high rollers. It gives the average American in this country an opportunity and an incentive to compete with the big boys.

Mr. Chairman, that is what America is all about. In my judgment that is what the Democratic party is all about. In my judgment that is what this House is supposed to be about and this Congress is supposed to be about.

If my colleague believes in it, they ought to vote for this amendment.

Mr. FRENZEL. Mr. Chairman, I yield myself the balance of my time on the assumption that the gentleman from Oklahoma [Mr. SYNAR] is going to use all of his for his smashing finale.

Mr. Chairman, I have discoursed on the subject of the popularity of taxpayer financing, of elections, indicating that for many years 70 percent of Americans have disapproved and 30 percent, or less, have approved. The United States, clearly and repeatedly, has said, "No to taxpayer funding of Congressional elections." I have also indicated in states where they have a real checkoff, where they have to contribute real money, less than 2 percent of the citizens have participated. I have indicated that this year only 20 percent of Americans are checking off on their tax forms that they want to contribute, even though it does not cost them anything.

Now, Mr. Chairman, I would like to talk about what that Presidential system developed. Its receipts are running about $30 million a year. We have now about $100 million in the fund. The Federal Election Commission estimates that we will consume the fund in the next quadrennial Presidential election. That means that, if we decide that the taxpayers are going to have to pay for congressional elections, we are going to run out of money. We seem to be very good at running out of money.

Mr. Chairman, the gentleman from Wisconsin [Mr. OBEY] takes care of that by increasing the amount of money that is checked off. Increasing the checkoff from $1 to $3 is in fact, drawing money out of general revenues because taxpayers don't put any real money into the Treasury. But in raising the checkoff to $3, he is probably reducing demand for the product, and I believe the annual receipts will continue to fall, imperiling the Presidential fund.

Matching contributions do not encourage participation. The first election we had was in 1976 under that system. The participation was down, and it has been each subsequent election.

We are left with the final thought: The Congress is appropriating the peace dividend for itself. It is giving itself a matching contribution right out of general revenue. It is giving itself free postage that the postage users will have to pay, and it is giving itself broadcast time that the consumers of America will have to pay.

Finally, Mr. Chairman, for the fourth leg of the quadruple dip, Congress is giving a tax credit, so its fat cat friends will have a special dip into a tax preference that we thought we had eliminated in 1986.

Mr. Chairman, this is a very bad proposition, one that the people oppose. Its time has come for failure. Let us help it fail.

Mr. SYNAR. Mr. Chairman, I yield myself 5 minutes.

Mr. Chairman, 12 years ago, when I walked into this chamber there were 1,600 PAC's in this country, and they gave $65 million. Today there are 4,000 PAC's, and they give $90 million.

Twelve years ago, the major job of the lobbyists in this city was to provide us information to make better decisions, and most of us spent most of our time legislating. Today, the major job of the lobbyists is to raise money for the coffers of candidates, and some of our Members spend anywhere from a third to half of their time raising the moneys necessary to get re-elected.

Twelve years ago, when I walked through those doors, people believed in the fairness of Government and that all points of view would be heard. Today they have little confidence in the abilities of Congress to do the right thing, and that is reflected in the lowest voter turnout since World War II.

Tonight, Mr. Chairman, the gentleman from Wisconsin [Mr. OBEY] and I offer you, our colleagues, opportunity to stop this very dangerous trend. Our amendment is so simple and so right. First, it reduces the special interest money that is strangling this institution. Second, it reduces the money the fat cat donors can give that is strangling this institution. Finally, it puts clean, disinterested money into this system to fill the gaps.

Mr. Chairman, for those of my colleagues who object to this infusion of clean money, let me remind them of three simple facts. First, this is a voluntary system to the voter. If an American citizen does not want to participate, they do not have to. Second, it is a voluntary system to the candidate. If candidates do not want the money, they don't have to take it. Third, we sunset this legislation in 8 years to give the American public a second opportunity to review this whole system.

I say to my colleagues, "The easiest vote politically tonight is to say "no" because you don't want to tax the public Treasury," but I remind my colleagues to consider the cost of integrity for this institution. I remind my colleagues that we have had a public financing system with the Presidential campaigns and the American public has accepted it.

I say to my colleagues, "The easiest vote tonight politically would be to say

'no' because it is tough to explain at home" what we are trying to do, but our colleagues across the hall, just 2 nights ago, by a majority, both Republicans and Democrats, voted for public financing.

My colleagues, the right vote tonight is to vote for the Synar-Obey amendment to bring some sanity back into this institution and system. The right vote tonight is to bring the small donor back into the process.

□ 2100

The right vote tonight will rebuild the faith of the American people in this process and this system and in this institution.

Robert Frost, one of our most famous poets, once wrote:

Before I build a wall, let me ask who I wall in and who I wall out and to whom I give offense.

My colleagues, my fellow Americans, we have built a wall around this institution and Government, a wall of special interests and big donations. Tonight we have an opportunity to tear down that wall. I implore you to vote for the Synar-Obey amendment.

Mr. BEILENSON. Mr. Chairman, I rise in support of the Synar-Obey amendment, which will significantly strengthen the provisions of H.R. 5400.

As a long-time sponsor of legislation to establish full public financing for House general election campaigns, I support the amendment's provision of up to $100,000 of public financing and the strong incentives for accepting the spending limit as an important first step toward real reform of our system. I also strongly support the lower limit on political action committee [PAC] contributions contained in this amendment.

Whether or not the Synar-Obey amendment is adopted, I intend to vote for passage of H.R. 5400. However, I will do so with great reservation because, although the bill will improve existing law, it won't result in the real change we need in our campaign finance law.

I have the highest regard for our colleague, AL SWIFT, who has had the torturous task of crafting a proposal that will earn the support of a majority of Members. As he told the Rules Committee yesterday, every Member of the House is for campaign finance reform, but there are 435 different ideas about what reform means. Campaign finance reform may well be the most politically sensitive and highly charged issue we ever deal with, and I appreciate the enormous amount of time, energy, effort, and patience our colleague from Washington has devoted to this subject.

But the bill before us does not accomplish what I think reform should produce: a system that encourages Members of Congress to be more responsive to the people who elect them than to special-interest groups. Real reform requires that we lower spending and reduce the money flowing from PAC's. Instead, H.R. 5400 largely preserves the status quo.

Under this bill, candidates for the House will still be raising enormous amounts of money from PAC's—up to $275,000 per election cycle. That limit is $165,000 more than the average House candidate raised from PAC's for the 1988 elections; Congress will still be swimming in special-interest money.

Likewise, only a handful or races will actually have lower spending because of the new spending "limit" of $550,000 per election cycle or more for those with contested primaries. In 1988, the average House candidate spent $312,000, so the average race will be unaffected by such a high limit. Can we really expect our constituents to believe that we will have a cleaner Congress when adhering to spending limits will mean spending only half a million dollars on a campaign, with only a quarter million of that from PAC's?

Even the Synar-Obey amendment, which lowers the limit on PAC contributions from $275,000 to $220,000, will not make a terribly significant difference in the amount of power that PAC's are able to wield around here.

I am convinced that the only way we are really going to change the way we do business is to establish full public financing for congressional campaigns. For example, the bill I introduced at the beginning of this Congress (H.R. 36) would provide $200,000 in public funds for each major party candidate who agreed to limit his or her general election campaign spending to that amount. It's not a radical idea—it's the same system we have for our Presidential general elections.

Full public funding would solve the most troubling problems of our campaign system: it would rid our system of special-interest influence because it would eliminate private contributions—PAC and individual—yet it would assure candidates of a reasonable amount of funds with which to run a campaign. It would also be a relatively easy system to administer, in contrast to the complexity of administering a matching-fund scheme.

Full public funding would also make our races more competitive because challengers would have the same amount of funds as incumbents with which to run a campaign—something very few manage to have under the existing system, or will have under H.R. 5400. None of us relishes the idea of making it easier for a challenger to run a competitive race, but the American voters deserve more balanced races than they are getting when our election system is so heavily skewed toward incumbents.

I also believe that the time has never been better to make the case to the American people that public financing is the right solution. Because of the S&L crisis, more people now understand that spending a relatively small amount of tax dollars for congressional campaigns can save enormous sums of tax dollars down the road. We are missing an opportunity to take advantage of the public's outrage over the S&L scandal to make our system more responsive to the people we were elected to represent than to big contributors.

Unfortunately, full public financing is not an option we have the opportunity to choose today; the partial public financing offered by the Synar-Obey amendment is the best choice before us. I urge my colleagues to vote for the amendment, and for final passage of the bill.

The CHAIRMAN. The question is on the amendments en bloc offered by the gentleman from Oklahoma [Mr. SYNAR].

The amendments en bloc were agreed to.

AMENDMENT IN THE NATURE OF A SUBSTITUTE OFFERED BY MR. MICHEL

Mr. MICHEL. Mr. Chairman, I offer an amendment in the nature of a substitute in order by the rule.

The Clerk read as follows:

Amendment in the nature of a substitute offered by Mr. MICHEL: Strike out all after the enacting clause and insert the following:

SECTION 1. REDUCTION IN THE LIMITATION APPLICABLE TO NONPARTY MULTICANDIDATE POLITICAL COMMITTEE CONTRIBUTIONS TO CANDIDATES.

(a) IN GENERAL.—Section 315 of the Federal Election Campaign Act of 1971 (2 U.S.C. 441a) is amended by adding at the end the following new subsection:

"(i) Notwithstanding subsection (a)(2)(A), no nonparty multicandidate political committee may make contributions referred to in that subparagraph which, in the aggregate, exceed $1,000.".

"(b) TECHNICAL AMENDMENT.—Section 315(a)(2)(A) of the Federal Election Campaign Act of 1971 (2 U.S.C. 441a(a)(2)(A)) is amended by inserting after "(A)" the following: "except as provided in subsection (i),".

(c) EFFECTIVE DATE.—The amendments made by this section shall apply with respect to elections for Federal office taking place after November 6, 1990.

SEC. 2. PROHIBITION OF SEPARATE SEGREGATED FUND BUNDLING OF CONTRIBUTIONS TO CANDIDATES.

Section 316 of the Federal Election Campaign Act of 1971 (2 U.S.C. 441b) is amended by adding at the end the following new subsection:

"(c) No separate segregated fund (as described in subsection (b)(2)(c)) may act as an intermediary or conduit with respect to a contribution to a candidate for Federal office.".

SEC. 3. PROHIBITION OF TRANSFERS AMONG NONCANDIDATE, NONPARTY POLITICAL COMMITTEES.

Section 315 of the Federal Election Campaign Act of 1971 (2 U.S.C. 441a), as amended by section 1, is further amended by adding at the end the following new subsection:

"(j) A noncandidate, nonparty political committee may not make contributions, or otherwise transfer funds, to any other noncandidate, nonparty political committee. As used in this subsection, the term 'noncandidate, nonparty political committee' means a political committee that is not an authorized committee of a candidate for Federal office and is not a political committee of a political party.".

SEC. 4. PROHIBITION OF LEADERSHIP COMMITTEES; RESTRICTION ON CONTRIBUTIONS BETWEEN PRINCIPAL CAMPAIGN COMMITTEES.

"(a) LEADERSHIP COMMITTEE PROHIBITION.—Section 302 of the Federal Election Campaign Act of 1971 (2 U.S.C. 432) is amended by adding at the end the following new subsection:

"(j) A candidate for Federal office may not establish, maintain, finance, or control a political committee, other than the principal campaign committee of the candidate.".

(b) PRINCIPAL CAMPAIGN COMMITTEE RESTRICTION.—Section 315 of the Federal Election Campaign Act of 1971 (2 U.S.C. 441a), as amended by sections 1 and 3, is further

amended by adding at the end the following new subsection:

"(k) A principal campaign committee of a candidate for Federal office may not make any contribution to any other principal campaign committee (other than the principal campaign committee of the same individual as a candidate for another Federal office).".

SEC. 5. HOUSE OF REPRESENTATIVES ELECTION LIMITATION ON CONTRIBUTIONS FROM PERSONS OTHER THAN LOCAL INDIVIDUAL RESIDENTS.

(a) IN GENERAL.—Section 315 of the Federal Election Campaign Act of 1971 (2 U.S.C. 441a), as amended by sections 1, 3, and 4 is further amended by adding at the end the following new subsection:

"(l)(1) A candidate for the office of Representative in, or Delegate or Resident Commissioner to, the Congress may not, with respect to a reporting period for an election, accept contributions from persons other than local individual residents totaling in excess of the total of contributions accepted from local individual residents.

"(2) As used in this subsection, the term 'local individual resident' means an individual who resides in a county, any part of which is in the congressional district involved.".

(b) EFFECTIVE PROVISION.—During any period with respect to which subsection (1) of section 315 of the Federal Election Campaign Act of 1971, as added by subsection (a) is not in effect, such subsection (1) shall be effective as so added, together with the following new paragraph:

"(3) For purposes of this subsection, an individual may not be considered a resident of more than one congressional district.".

SEC. 6. ADDITIONAL PROHIBITIONS ON ELECTION-RELATED ACTIVITY BY CORPORATIONS AND LABOR ORGANIZATIONS; DISCLOSURE OF PERMITTED ELECTION-RELATED ACTIVITY.

(a) PROHIBITED ACTIVITIES.—Paragraph (2) of section 316(b) of the Federal Election Campaign Act of 1971 (2 U.S.C. 441(b)(2)) is amended—

(1) in subparagraph (A), by striking out "subject;" and inserting in lieu thereof "subject (other than communication for the purpose of influencing any election for Federal office); and";

(2) by striking out "(B)" and all that follows through "families; and"; and

(3) by redesignating subparagraph (C) as subparagraph (B).

(b) DISCLOSURE REQUIREMENTS.—Section 304 of the Federal Election Campaign Act of 1971 (2 U.S.C. 434) is amended by adding at the end of the following new subsection:

"(d) Any corporation or labor organization that makes a payment for a communication or other activity that—

"(1) relates to any election for Federal office; and

"(2) by reason of subparagraph (A) or (B) of paragraph (2) of section 316(b), is not a contribution or expenditure;

shall report such payment to the Commission in the same manner as a contribution or expenditure, as the case may be, is reported by a principal campaign committee of a candidate for the House of Representatives or the Senate under this section.".

SEC. 7. BAN ON SOFT MONEY.

Title III of the Federal Election Campaign Act of 1971 (2 U.S.C. 431 et seq.) is amended by adding at the end the following new section:

"LIMITATIONS AND REPORTING REQUIREMENT FOR AMOUNTS PAID FOR MIXED POLITICAL ACTIVITIES

"SEC. 324. (a) Any payment by the national committee of a political party or a State committee of a political party for a mixed political activity—

"(1) shall be subject to limitation and reporting under this Act as if such payment were an expenditure; and

"(2) may be paid only from an account that is subject to the requirements of this Act.

"(b) As used in this section, the term 'mixed political activity' means, with respect to a payment by the national committee of a political party or a State committee of a political party, an activity, such as a voter registration program, a get-out-the-vote drive, or general political advertising, that is both (1) for the purpose of influencing an election for Federal office, and (2) for any purpose unrelated to influencing an election for Federal office.".

Mr. MICHEL (during the reading). Mr. Chairman, I ask unanimous consent that the amendment in the nature of a substitute be considered as read and printed in the RECORD.

The CHAIRMAN. Is there objection to the request of the gentleman from Illinois?

There was no objection.

Mr. ECKART. Mr. Chairman, I believe under the rule the time is to be equally divided.

The CHAIRMAN. The gentleman is correct. The gentleman from Illinois [Mr. MICHEL] will be recognized for 30 minutes, and a Member opposed to the substitute amendment will be recognized for 30 minutes.

Mr. ECKART. Mr. Chairman, I am opposed to the substitute amendment.

The CHAIRMAN. The gentleman qualifies. The Chair will recognize the gentleman from Ohio [Mr. ECKART] for the 30 minutes provided under the rule.

Mr. MICHEL. Mr. Chairman, I yield myself 5 minutes.

Mr. MICHEL. Mr. Chairman, I can understand, I guess, a little bit of the disarray on the floor at this juncture in view of our just having adopted the Synar-Obey amendment as prevailing and the fact that for all practical purposes then our substitute here will in effect under the rule be a substitute for Obey-Synar; but let me proceed if I might with what comments I would like to make about our substitute.

In the first place, I think a little bit of review might very well be in order, and that has to do with the very process under which we are considering this measure.

Mr. Chairman, the consternation that I see prevailing here over the surprise adoption, of the Synar-Obey amendment indicates what a lousy process we have had in the very beginning to take up this measure. I think if we had had a fair shake in the very beginning on having an open rule to openly discuss what is at stake here, we would not find ourselves in this dilemma, so frankly, it serves you right.

Now, when we began this process, by way of short review, we came up with an extensive package. Oh, I suppose I was derided in good nature earlier in the day by the manager of the bill on your side that our measure initially had some 25 points and we telescoped it down to about 10 and now in our substitute we probably take three of the key provisions, and if we let it go until September there would not be anything left.

Let me tell you why we have engaged in this kind of process. Initially we had 25 points. Eight or nine of those are points in which you would agree, and I think subsequently before the end of this Congress we could agree on that package of what I call maybe footnote amendments to campaign reform; but we ought not to take those smaller items and then portray them as being meaningful campaign reform in the aggregte.

What we would like to do in our substitute is take 3 of the 10 provisions which we feel strongly about.

Political action committees, we would reduce the PAC contribution from $5,000 to $1,000. That means that no nonparty multicandidate political committee or PAC may make contributions that exceed $1,000 per election, and the second provision of that first title would be a prohibition on bundling. No separate segregated fund, corporate, union or trade association PAC's, may act as an intermediary or conduit with respect to a contribution to a candidate for Federal office.

Section 3 provides for a prohibition of transfers among noncandidates, nonparty political committees. PAC's may not transfer funds to any other PAC.

Then in section 4 there is a prohibition of leadership committees, restrictions on contributions between principal campaign committees as has been prevalent, and a candidate for Federal office may not establish, maintain or control a political committee other than the principal campaign committee of the candidate, and transfers among principal campaign committees is prohibited other than the principal campaign committee of the same individual as the candidate for another Federal office. That is one of the principal points we make having to do with political action committees.

Second, the point has been so eloquently made earlier in the course of general debate and in opposition to Obey-Synar by the eloquent speakers we have had on our side of the aisle about local sources and the importance we attach to having at least half of your contributions come from your own locale. That is a good principle

and I do not see how anyone can be opposed to that particular proposition.

Third, we talk about soft money. In section 6 of our substitute there is a prohibition and disclosure of certain expenditures by corporate and labor organizations, and for all practical purposes and outright flat ban on so-called soft money.

□ 2110

In quick summary, this is not the best of ways to legislate around here. We would have preferred, as I indicated earlier, to have an open rule wherein we might have had debate on these individual points, hashed them out and then eventually come to final agreement.

It is quite obvious that if we came here with a Republican-sponsored package of 25 provisions that it would be so easy for any one of the Members on the other side of the aisle to say, "I cannot support it because I do not like this or that provision." Quite natural. And so even if we narrowed it down to the 10 principal points, you could make the same case.

For those of you who are in the majority and never have experienced what it is to be in the minority, we can never win anything on our own. It is absolutey necessary for us to say, hopefully, to keep most of our folks together, to reach over requesting, advocating a proposition that we hope to get Democratic support. So we narrowed it down to these three points having to do with PAC's and soft money and local contributions.

It seems to me that gives the Members a real choice to either be for or against.

Mr. Chairman, with that, I will be happy then to yield to others and hope that we have got things organized well enough on the Democratic side now that we can proceed in an orderly fashion.

Mr. ECKART. Mr. Chairman, I hope the new found interest in campaign reform indicates that final passage can also be accomplished with as much ease as the vote on the amendments en bloc was by voice.

Mr. Chairman, I yield 5 minutes to my colleague, the gentleman from Massachusetts [Mr. FRANK].

Mr. FRANK. Mr. Chairman, I thank the gentleman for yielding me this time.

Mr. Chairman, I rise as a supporter of Obey-Synar. I look forward to this Republican support when we have a separate vote on this when the Committee rises, and we have a rollcall; I take it from the glee which we saw on the Republican side when Obey-Synar was accepted that we will get some support for it. Otherwise, of course, the interpretation would be that this glee was motivated not by support for what had just happened but by a hope it would lead to the defeat of any reform.

No one, of course, under the rules wants to impute motives less than completely honorable to anyone, so I will look with interest when we have a rollcall on Obey-Synar as the rules will allow us to have, and I would take it that the Republican glee at its passage will be repeated when we have a separate vote on Obey-Synar. I look forward to their joining us.

Mr. EDWARDS of Oklahoma. Mr. Chairman, will the gentleman yield?

Mr. FRANK. I am happy to yield to the gentleman from Oklahoma.

Mr. EDWARDS of Oklahoma. Mr. Chairman, I am sorry that the gentleman finds this all such a strain.

If the gentleman recalls, his side of the aisle crafted the rule, and I thought it was a great rule. It produced a result that you all can live with. I hope some of the gentleman's colleagues will join us, because if you do not want public financing, you have got to vote for the Michel substitute.

Mr. FRANK. I would respond to the gentleman that, first, I feel no strain at all right now, and the gentleman misapprehends the rules.

There will be a separate vote on Obey-Synar, and if a majority is for it, as I hope they are, because I am for it, it will pass, and if the majority is not for it, it will not pass. So the suggestion under the rules that that is the only choice we face is wrong.

We get, however, to the Republican substitute. I had some problems. I did object, because I was handed the Republican substitute summary. I assumed that the people on my side had been withholding information from me. This could not be the reform bill. This bill, as I read it, I have never seen a situation in which people describe the situation more graphically and prescribe more minimally. This bill is nothing. It changes virtually nothing.

It does do one thing. It is a bill for the proliferation of PAC's, because what it says is, and this is about its only substance that I can see, a PAC can only give you $1,000 per election, but, of course, there can be as many PAC's as people want to have, and the PAC's can give people as much money under this rule as under the old one, and people can spend as much in an unlimited amount. So what you have accomplished is the PAC that used to give you $5,000 will then become five PAC's which will give $1,000. So we have a PAC proliferation bill. There will be many more PAC's. The publishers of PAC directories will do well.

Mr. FRENZEL. Mr. Chairman, will the gentleman yield?

Mr. FRANK. I am happy to yield to the gentleman from Minnesota.

Mr. FRENZEL. Mr. Chairman, my understanding of the law is that PAC's which are affiliated have a common limit, and so that you cannot proliferate PAC's.

Mr. FRANK. Right. The gentleman understands the law.

Unfortunately so do the people who run PAC's. They will not be affiliated in a way which can be proved, and what you will get will be, and this is probably the most antienvironmental bill we have got, because the publishers of the PAC directory will have to bring out five or six volumes. All you will do is multiply the PAC's. Other than that it does not do anything. What it says is you spend the same aggregate amount, you can get the same money from private individuals. People said the polls show that the public does not like public financing. I agree. I submit that if you poll campaign financing is such an inherently unpleasant business that you would get majorities against almost anything.

Ask people do they favor those who have important interests before Congress being able to give $1,000 each to a Member of Congress for the primary and $1,000 for the final, and the majority would say "no," but the Republican substitute fully allows that. I do not think that this lays a glove on Charles Keating's practices. I think he would be able to do as much under the Republican bill as he did before.

This is not anything. Gertrude Stein ascribed more to Oakland than you can ascribe to this bill.

Mr. FROST. Mr. Chairman, will the gentleman yield?

Mr. FRANK. I am happy to yield to the gentleman from Texas.

Mr. FROST. Mr. Chairman, I am at this time notifying the House that it is my intention to ask for a separate vote on Obey-Synar when this bill comes out of the Committee of the Whole.

Mr. FRANK. Mr. Chairman, I want to thank the gentleman from Texas.

I want to point out that he can anticipate, apparently, significant Republican support, because the Republicans were very happy that Obey-Synar passed, and I assume, being men of commitment and principle, that the support they have previously evinced for Obey-Synar will be there in the rollcall, and having voted for it in the rollcall will then vote for it in final passage and we will send it to the President.

The alternative will be, although the Swift alternative is also preferable, and I will close just by pointing out that the only two things the Republican substitute does, first, it says half your money has to be raised from a county within your own district, and that will be interesting in redistricting. Everybody will want a piece of the rich county. But it also means in counties where we have a racial split, for instance, and those who are a racial minority or people with less money

than those in the majority group, the racial minority candidate will be greatly disadvantaged.

Other than that, it says individuals, people with interests, people in industry, can still give whatever they want. They will just have to have more PAC's.

Mr. MICHEL. Mr. Chairman, I yield 5 minutes to the distinguished gentleman from California [Mr. THOMAS].

Mr. THOMAS of California. Mr. Chairman, I thank the gentleman for yielding.

I would ask my colleague from Massachusetts, if he is still in the room, if he would simply listen for a moment or two. I will try to reduce his apoplectic concern about the Republican substitute, but, first of all, let me call the Members' attention once again to a survey completed March 3, 1990, called Money and Politics: A Survey of National Opinion. This is sponsored by the Advocacy Institute, Public Citizen, that is Ralph Nader, and People for the American Way. It is currently the most comprehensive, the most indepth analysis of where the American public is on the question of campaign finance.

I would call the attention of the Members to one of the questions that was asked, and you have got it over here.

□ 2120

Is it a good idea, a bad idea, or do you have an opinion on the question, that the bulk of campaign funds ought to come from the district or the State?

The American people, by 80 percent, say the bulk ought to come from your district. Then they probed it a little more precisely, and what happened? The next question was "Would you support requiring 75 percent of a candidate's campaign funds to come from the district or State?"

Mr. Chairman, look at that dropoff. We have all been elected. We know what dropoff means—76 percent of the American people say 75 percent of the money ought to come from the district.

Now we are at the heart of the argument. The Democrat proposal, Swift 1.1, as amended by Synar-Obey, says you can take more than a quarter of a million dollars from PAC's. You do not need one dime from your district. Not one dime. You can take up to $550,000, and if you do not get a two-thirds primary vote, you can take up to $715,000 under your proposal, and not one dime has to come from your district. It can come from Washington, it can come from Dallas, it can come from anywhere but your district, up to $715,000. You do not need one penny from the people who vote for you. That is your plan, that is your reform.

Mr. Chairman, let us take a look at the Republican substitute. Yes, it is simple. Maybe you missed the point. It is so simple you do not understand it. It is simply this. The American people said, 80 percent of them, we want you to go home and raise your money in your district. 76 percent of them said, make it 75 percent of your money.

Your plan says zero. That is not fundamental reform, that is the same old business, but just a little bit less.

The Republican plan says you cannot take a dime from Washington, you cannot take a dime from a PAC, you cannot take a dime from someone who cannot vote for you unless you get the dime from the people back home first.

Now, you have talked about fundamental reform. Let us put your vote where your mouth is. What we have in the Republican substitute is the requirement, one, that you go back home. Pretty shocking. Second, that you raise the bulk of your money from the people back home. You do not get a dime from PAC's, you do not get a dime from people outside the district, until you get that dime from the people back home.

No, it is not an arbitrary spending limit. It is a reempowering of the people who are tired of the process. What it says is you go back to the people who vote for you, and you let them determine how much money is spent in a campaign. You let the people back home determine whether you take that PAC dollar.

No, it is not an unlimited opportunity to take PAC money. You get a dollar of PAC money if you can convince a person back home to give you a dollar of their hard-earned dollars.

When does it enable? The $10 contributor. Today, back home, somebody who give $50 or $100, is simply ignored. You have got to get the $1,000, the $2,000.

Mr. Chairman, let me tell Members, if you have to get a dollar from home before you can get a dollar from a PAC group, you are going to look at that $10 contribution in a different way. You are going to pay attention to the person with $50. If you do not get that $50 contribution, you do not get the $50 from the outside. Let me tell Members, today we have PAC fundraisers. People come and give you $1,000, and they do not like you. But they smile and they shake your hand. You go back home and try it, and guess what? If they do not like the way you vote, they do not give you $10. Guess what else they do? They go around and tell their neighbors they do not like you.

Mr. Chairman, what the Republican substitute will do is turn this process back on its head. It will put us back where we are supposed to be in our districts.

People complain that we raise too much money. It is not that we raise too much money, it is that we do not raise the money at home. We are in Washington, we are in Los Angeles, we are in Dallas. We are not in our districts, unless, of course, Washington, Los Angeles, or Dallas is in your district. Then that is where you should be, and, God bless you, because you have got a good district.

It is not arbitrary, but it enables the people back home to tell you enough is enough, because if you do not get a dollar from them, you cannot take a dollar from PAC's or anybody else. Simple, yes; fundamental change, yes.

Mr. ECKART. Mr. Chairman, I yield 3 minutes to the gentleman from Wisconsin [Mr. MOODY].

Mr. MOODY. Mr. Chairman, the gentleman from California [Mr. THOMAS] just treated us to a wonderful show. But according to his arguments, I guess the gentleman must be supporting the Synar-Obey amendment, since it emphasizes small donors. The preceding arguments really argue for an Synar-Obey type amendment, since it emphasizes the small doner even more than the underlying Swift bill. I hope the gentleman from California [Mr. THOMAS] will support the Obey-Synar amendment when it comes to a vote after we rise.

But the basic point I would like to make it not that the Republican bill has absolutely no merit, and maybe one could argue that the point the gentleman raises makes the Republican more meritorious in that one dimension. But, Mr. Chairman, let me point out some dimensions where the Republican bill is seriously lacking.

No. 1, the Republican bill has no ceiling, no ceiling at all on total campaign spending. The Democratic package does.

No. 2, the Republican package has no aggregate limit on PAC contributions. None whatsoever. The Democratic does.

No. 3, the Republican package has no real shutdown of soft money systems, sometimes called sewer money. The Democratic package goes a long way to do that.

No. 4, the Republican package does not have any ban at all on bundling by political parties. The Democratic package does not only that, but also controls the bundling of PAC's.

No. 5, the Republican package has no reduction on the cost of communicating with constituents through electronic media. The Democratic package does that. It makes access greater for those who do not have large amounts of money.

No. 6, the Republican package does nothing to tighten or regulate independent expenditures, which are the real scourge of the political campaigns, frequently run along negative lines. The Democratic package does do that. It puts a strong discouragement on independent expenditures.

Finally, No. 7, the Republican package does nothing at all to reform negative campaign advertising. If there is anything that my constituents hate, it is the frequent barrage of negative campaign advertising. The Republican package does nothing about that, whereas the Democratic package requires that each candidate take full political accountability of negative campaigning in the ad itself.

Where is the Republican initiative in these seven areas? I have cited seven areas where the Republican package is totally silent.

The gentleman from Illinois [Mr. MICHEL], the minority leader whom we all respect a great deal, received tremendous political credit when he gave a speech about campaign finance reform. He cited "25 points of light."

But look at the items I have listed as the Michel substitute. The seven items that are totally missing in the Republican package. If the Republicans are truly interested in reform, I would hope they would address at least these seven items which are so important.

Mr. EDWARDS of Oklahoma. Mr. Chairman, will the gentleman yield?

Mr. MOODY. I yield to the gentleman from Oklahoma.

Mr. EDWARDS of Oklahoma. Mr. Chairman, we have a 25-point package. Give us an open rule and you will have these things. We had those proposals. We took them to the Committee on Rules. We cannot get a rule that allows us to offer these things on the floor.

Mr. MOODY. Mr. Chairman, reclaiming my time: The Democrats you blame now did not control what was in the Republican package. That was a package totally created on your side of the aisle. That is No. 1. So if you wanted to put all 25 items in there, you could have done so. That was not anyone's fault but your own.

No. 2, the gentleman from Oklahoma [Mr. EDWARDS] it knows very well the problem with an open rule. Campaign finance is a delicately balanced package, a balancing of many interests and concerns. You cannot pick it apart with 100 little pieces, or otherwise the whole thing would collapse.

Mr. EDWARDS of Oklahoma. If the gentleman from Wisconsin [Mr. MOODY] will yield further, the gentleman is saying in a reform package the problem is you know that we cannot open it up, we cannot let people offer amendments, that would destroy reform?

Mr. MOODY. Mr. Chairman, reclaiming my time: No, I am not saying that. You have to group them in blocks of amendments, which we have done. The Obey-Synar amendment is a block amendment. You obviously adopted it. There was no objection to it on your side of the aisle. None at all.

Mr. EDWARDS of Oklahoma. We just did not call for a vote. You adopted it. We just did not call for a vote.

The CHAIRMAN. The Chair would advise the gentleman from Illinois [Mr. MICHEL] he has 20 minutes left, and the gentleman from Ohio [Mr. ECKART] has 21 minutes remaining.

Mr. MICHEL. Mr. Chairman, I yield 30 seconds to the gentleman from California [Mr. THOMAS].

Mr. THOMAS of California. Mr. Chairman, I think we ought to review the bidding. The fact of the matter is, the Republicans did not say anything. The Democrats said "aye." What you were hoping was we would get up and order a vote.

Well, we did not do it. We did not pass Synar-Obey. We do not like it. We did not ask for a vote. That is your problem.

Mr. MICHEL. Mr. Chairman, I yield 3 minutes to the distinguished gentleman from Ohio [Mr. OXLEY].

Mr. OXLEY. Mr. Chairman, I would first like to say I started out as a member of the campaign task force, the campaign finance reform task force, and I give a lot of credit to the gentleman from Washington [Mr. SWIFT] and to the gentleman from California [Mr. THOMAS] and the gentleman from Michigan [Mr. VANDER JAGT] and those who worked on what I thought was going to be perhaps a historic opportunity to really make a major change in the campaign finance laws for this country

□ 2130

I guess I was a bit naive in thinking that somehow men of good will could sit together and work out our differences in this task force. And unfortunately that just simply did not happen. I suspect there were some partisan interests, particularly on the majority side, that ultimately doomed the task force to failure, and I think that is a shame because I think there has been a lot of work put in by the gentleman from Washington and the gentleman from Michigan and others to try to craft a good bill.

We ended up going back, putting together the Republican package, and as my colleagues have indicated we have had some difficulties with the Rules Committee, not surprising. But it was a worthwhile experience because it basically told me exactly where the parties are on this very important issue.

If you have some concerns about PAC's, if you have some concerns that the PAC's may be influencing the process too much, our package puts a $1,000 limit on the PAC's, the same as individuals. I think that deals with the PAC's, in a fair way. It does not say we are going to abolish the PAC's and PAC's are necessarily bad. They are an opportunity for people to participate in this great election process. I think it does give an opportunity to participate.

If you feel that most campaign money, as 80 percent of the population apparently does, should come from small donors in your particular congressional district, what is wrong with that? It gets government back to the people. That is in our package as well.

We also ban soft money contributions and prohibit leadership PAC's.

But I have to tell you, at least in my district and I suspect in almost every congressional district in the country, the overwhelming majority of Americans are opposed to taxpayer-funded elections.

Mr. Chairman, if you have the courage, if you have the courage go to your constituents and ask would they support their tax dollars paying for your reelection. I can guarantee you what the answer is going to be. It is going to be a flat no. And if you come back to them again they will probably vote you out of office, as they should. Every poll that I have ever seen indicates that 80 percent of the American public opposes taxpayer-funded congressional elections.

Now if you want to go out and vote for public financing, that is your choice. I do not choose to join you because it does not make any sense, and it is a political time bomb.

Is there no limit to the insatiable appetite on the other side of the aisle for taxpayer dollars to the point that not only are we going to spend and spend the taxpayer dollars, but we are going to come to them one more time and ask them for our election? I cannot believe it.

Spending limits, spending limits in essence are an incumbent protection racket, pure and simple, an incumbent protection racket. Tell that incumbent he is going to be limited to what he can spend, and his opponent who is not as well known is going to have to be able to spend the same amount of money, you cannot lose an incumbent. I do not think we want to give that type of advantage to incumbents, 98-percent reelection rates. It is crazy.

So let us take a look at the Republican package, and make a concerted effort to support what I feel is a reasonable package that all of us can support.

Mr. ECKART. Mr. Chairman, I yield myself such time as I may consume.

Mr. Chairman, none of us are surprised on the developments of asking or not asking for a vote. Indeed, many of us are surprised about the tactics that votes are frequently used. When it comes to approving the Journal, when it comes to seeking adjournment, when it comes to delaying the proceedings of the House, when it suits the purposes, rollcalls are always the order of the day. And indeed, we spend hundreds of thousands of tax-

payer dollars using the rollcalls in order to impede the comprehensive dealings of the House when it suits the minority's purposes. Your silence of half an hour ago has amazingly enough departed, and you have recovered your voices in a most pleasant and timely way.

The fact of the matter is that they want a vote when it suits them to vote, and we are going to vote until the cows come home. That is what they do not like, because the cash cows are coming home under the Republican substitute, and they cannot handle it.

Harry Truman told us that past is prologue. Just a few hours ago on this very floor when our Republican friends had a chance to give meaning to what it means to be a minority in these United States, they turned their back. Now their Republican substitute says to people from rural districts, says to people from poor districts, says to people unless you are a millionaire you cannot run for Congress. That is what the Republican substitute says.

Mr. Chairman, I yield 6 minutes to the gentleman from Mississippi [Mr. ESPY].

Mr. ESPY. Mr. Chairman, I thank the gentleman from Ohio for giving me the opportunity to stand and to speak against this Republican substitute, because, in fact, if it were to pass I would never get a chance to be elected to this august body.

So I rise in strong opposition to this Republican substitute.

I would like, Mr. Chairman, to speak just 1 minute about what this will do to those who may wish to run from poor districts and from rural districts. There is a lot wrong with this Republican substitute, but what is especially wrong is the fact that it requires that candidates raise one-half of their funds from local residents.

In listening to the debate tonight I heard those on the other side of the aisle who said that those of us who choose to seek funds should not have to go to New York, or Dallas, or Chicago to seek campaign funds, that we ought to go home to our districts and ask them for a buck. Well that assumes, Mr. Chairman, that there are bucks to be asked for, and that there are bucks to be gotten.

Mr. Chairman, in my congressional district, and in many others there are many, many constituents who simply cannot afford to contribute money to congressional campaigns. In my particular district, the per capita income is about $9,000 a year. So there is no discretionary income to give to political campaigns. Thirty percent of the people are unemployed. Those who do work earn far less than the national average. And unfortunately, Government transfer payments are the greatest source of income and still continue to be the order of the day.

Mr. Chairman, for those of us who represent welfare districts, and for those of us who represent the wealthy within those districts, then this amendment may look to you like a pretty good thing. If you have a district full of fat cat contributors who can keep the big money coming, of course that is a pretty good thing. But for those of us who represent poor districts like mine where an extra $5 is an awful hard thing to come by, this amendment, the Republican substitute, is unfair, it is unreasonable, and it is unrealistic. We need to vote it down tonight and go home.

Mr. FRENZEL. Mr. Chairman, will the gentleman yield?

Mr. EPSY. Yes, I yield to the gentleman from Minnesota.

Mr. FRENZEL. Mr. Chairman, I would ask the gentleman, does not your opponent come from the same district?

Mr. ESPY. Yes.

Mr. FRENZEL. Would he not have the same difficulty in raising money?

Mr. ESPY. Excuse me, sir. I did not understand. Could you repeat the question?

Mr. FRENZEL. The gentleman has complained about rich districts and poor districts. I have a nice rich district, my opponent has rich friends and so do I. You have a poor district and your opponent runs from the same district, does he not?

Mr. ESPY. The likelihood is that my opponent will be a Republican.

Mr. FRENZEL. We hope so.

Mr. ESPY. What I am telling the gentleman is that I have had Republican opponents before, and they do not donate or give donations to me.

Mr. ECKART. Mr. Chairman, will the gentleman yield?

Mr. ESPY. I yield to the gentleman from Ohio.

Mr. ECKART. Mr. Chairman, I have given more time to the gentleman from Mississippi because he has made a valuable point. The point of the gentleman is there is value in votes, not value in dollars, and the rich man Republican substitute gives additional strength to those who have it already through their finances.

Mr. ESPY. I yield to the gentleman from Minnesota.

Mr. SABO. Mr. Chairman, I commend the gentleman for his astute observation of how the Republican plan would work. I could not help but noticing my good friend and neighbor, the gentleman from Minnesota [Mr. FRENZEL], on the floor, who is retiring after a long and distinguished career. But I also have to notice the last campaign reports of the Republican running to succeed him, who has already raised $400,000 as of the end of June. The bulk of it, not $1,000, not in $500 contributions, not in $200 contributions, but $2,000, $4,000 contributions from husband and wives, in some cases, $6,000, husband, wife, and child.

You know, if you have got the rich and affluent with you, you quickly raise that money in your local district, you shut out the people who have to band together in order to get into the political process and look to broader horizons.

I think the point the gentleman from Mississippi makes is on the mark, and the Republican Party substitute skews politics again to serve the wealthiest in our society.

Mr. RUSSO. Mr. Chairman, will the gentleman from Mississippi yield?

Mr. ESPY. I yield to the gentleman from Illinois.

Mr. RUSSO. I thank the gentleman for yielding.

Mr. Chairman, it is no wonder why the Republican plan benefits the rich. Who do you think has benefited under the Reagan-Bush era in the last 9 years? The rich have benefited. That is why you want to keep them in power and have a rich man's campaign law.

The upper 1 percent of the wealthiest in this country have had a 94-percent increase in real income, and they have had their tax rate reduced 23 percent. No wonder the Republican campaign plan benefits the rich. What the heck, the rich has been having a party for the last 8 years, at the expense of working people.

I thank the gentleman for yielding.

Mr. MICHEL. Mr. Chairman, I yield half a minute to the distinguished gentleman from Florida [Mr. STEARNS].

Mr. STEARNS. I thank the leader of our party.

Mr. Chairman, the gentleman from Wisconsin [Mr. MOODY], whom I respect, mentioned that the Republicans, the Michel amendment, does not include anything on soft money. That is not true.

Section 2, we have a ban on soft money. But when you come over to the Swift amendment, which the Obey-Synar does not even address, we have additional exclusions from soft money in this piece of legislation.

Let me read one of them, if I might, Mr. Chairman: "Administrative expenses of a State or local committee of a political party, including expenses for overhead, staff, meetings and conducting party elections or a caucus."

So, in effect, Mr. Chairman, we have a ban on soft money in ours.

Mr. MICHEL. Mr. Chairman, I yield 2 minutes to the distinguished gentleman from Ohio [Mr. REGULA].

Mr. REGULA. Mr. Chairman, I think we are losing sight of something here. And it is that the congressional seats belong to the people. I disagree when people say it is Regula's seat or Smith's seat or whomever's seat in the

Congress. It does not belong to us. It belongs to the people.

The objective of all these campaign reforms should be to give those seats back to the people. They should be financed by the people in the district, not by the lobbyists, nor by the special interests. It is not their seat, although I observe that some of them seem to think it is.

The Michel proposal takes a giant step in accomplishing that because half of a candidate's money has to come from the candidate's district.

It ought to come from the district people. We ought to be required to go home and make our case to those whom we represent. We are here as surrogates for 550,000 people.

If this body would like to reduce the amount of individual contributions to meet the gentleman from Mississippi's objection, fine, reduce it to $100, require the Members and candidates to go to more and more people in their districts.

Likewise, the Michel proposal reducing the maximum of the PAC's to $1,000 is another giant step toward reform.

I am sorry we cannot work out campaign reform on a bipartisan basis to reduce the pernicious influence of money in the legislative process.

I am convinced we would not have had the enormous S&L problem that we do today if it were not in part a result of PAC influence.

Here we have an opportunity to do something on a bipartisan basis to really ensure that the constitutional objective of the Founding Fathers is achieved, and that is to ensure that we represent the people, that they are the ones who provide the support in campaigns.

Mr. ECKART. Mr. Chairman, it is the Democratic Party that is interested in in-district elections, not in in-district auctions.

Mr. Chairman, I yield 2 minutes to the gentleman from North Dakota [Mr. DORGAN].

Mr. DORGAN of North Dakota. I thank the gentleman for yielding.

Mr. Chairman, President Kennedy once said, "Every mother wants her child to grow up to be President, as long as they do not have to get involved in politics."

The reason for that, I suppose, is there is a perceived stain on the body politics. The stain, the increasing stain these days, is the money stain. It is getting worse, and we have to fix it.

What is wrong? Too much money in campaigns. Too much money in politics. How do we cure it? The first step is to limit the money.

The Republican substitute comes to us today and it is called reform. But you know what it says? It says: Keep on spending, the sky is the limit, no problem for us.

This is fool's gold. In fact, I am surprised it does not include the capital gains tax cut.

This is the parable of the goose that laid the golden egg. This is the goose, and Congressman SABO just described who gathers those golden eggs.

This is reform, this does not solve the first step of the problem to deal with money in campaigns.

What we have put together is serious. This substitute is a joke. This is not campaign finance reform, and we must defeat the substitute.

Mr. MICHEL. Mr. Chairman, I yield 2 minutes to the distinguished gentleman from Kansas [Mr. ROBERTS].

Mr. ROBERTS. Mr. Chairman, this is the old "I did not intend to get up and make another speech" speech.

My good friend, the gentleman from Ohio [Mr. ECKART] and the gentleman from Massachusetts [Mr. FRANK] have expressed surprise, shock, amazement, outrage, a veritable earthquake of concern at the fact that Obey/Synar passed without a vote. Some sort of devious plot seems to be occurring here on the House floor.

Now just calm down. Take deep breaths. Remember at the outset, when I told you at the first of this debate we should have gone through the subcommittee and the committee, that Mr. SMITH and Mr. THOMAS, good men both, and the mugwump, Mr. ROBERTS, could put something together along with our cohorts on the subcommittee? But we did not do that. We went to the task force, and we drank of the partisan juices and we reported this bill and the Obey/Synar bill which calls for taxpayer financing.

It is true Republicans on this side, surprise, surprise, do not want Obey-Synar. That is true. Oh, maybe two or three. After all, they are probably vegetarians or something, who knows.

But we do not want it. But the other side of the coin is that you do not want it either. At least half of your membership does not want it. I would also like to promise the Members is that when we get through with this spinning-in-the-mud exercise, we will get down to real reform. Mr. SWIFT is an honorable man and knows more about this than almost anybody else.

□ 2150

Mr. Chairman, we will work together. We will get a reform bill, a true campaign reform bill next session, not this time, because the President is going to veto it. We all know that.

This is filler. That is what we are doing here.

So, just calm down for once. This is petard hoisting time, and I say to my colleagues, "You've been hoisted on your petards. We are used to it. You are not. Calm down. We'll get reform."

Mr. ECKART. Mr. Chairman, I yield 3 minutes to the gentleman from Washington [Mr. SWIFT] for purposes of rescuing our petards from wherever.

Mr. SWIFT. Mr. Chairman, it might come as a surprise to some people who were not there, but the bipartisan task force in fact had a number of excellent meetings. There was never a sour atmosphere in those meetings at all, and one of the things that I think we found out, the 16 of us that sat there and examined each other's I.D's., and answered each other's straight, is we developed a respect for each other's fundamental views and also realized that we were fundamentally in disagreement. Things got a little out of control here in terms of, I think, some partisan sniping. Let us try to put it back in a context of honest people with some honest disagreement.

But let me discuss one of those honest disagreements, and I think there is one proposal here, and I happen to know that the gentleman from California is absolutely sincere. He has fought vigorously in his own caucus for it, and that is the local contribution issue.

Let me tell my colleagues about that. The fact is that, I say to my colleagues, "If you come from a poor district, it does not work for you." And the argument was made by the gentleman from Minnesota, "But doesn't your opponent have the same problem?"

Mr. Chairman, that is an interesting question from the side of the aisle that has always said that when we talked about putting spending limits on anything, that, "You have to have enough money for critical mass."

Mr. Chairman, we are talking $550,000, and we have heard today that is not critical mass. But they are suggesting that, if we live in a district that is dirt poor, in which the people cannot give virtually any money at all, that it is OK to stay tied to those local contributions without a prayer of reaching critical mass. That is what is wrong with that proposal.

Mr. Chairman, let me make one additional point. There has always been a fundamental difference in attitude toward poor people between the two parties, attitude toward rich people between the two parties. What is interesting about the Republican proposal that is on the floor tonight is what is not in it, 2 clear proposals that were contained in the 10 that were introduced, and one was to repeal the contribution limits for political parties. They could spend unlimited sums, which they cannot do now.

Mr. Chairman, another provision in those bills, which has not been presented here in the Republican substitute, which would increase by $25,000 what an individual could contribute to the party: A total amount of $50,000 an individual could put into the election system, $100,000 if we include the

wife, and, my colleagues, it gets us to the heart of what has been a central, and fundamental and sincere difference between the two parties for as long as the parties have existed.

With all great appreciation for the sincerity behind the proposals in the Republican substitute, we honestly, and sincerely and respectfully disagree with the approach because it will help the rich and will hurt the average citizen and the poor. That is the difference between the parties, and it is the basic difference beween these two proposals.

I respect the proposal they have made for the work that went into it. I cannot agree with what it would do to our election system.

Mr. MICHEL. Mr. Chairman, I yield 30 seconds to the distinguished gentleman from Louisiana [Mr. HOLLOWAY].

Mr. HOLLOWAY. Mr. Chairman, I get so tired of this crap of listening to the rich-man-poor-man situation.

Mr. Chairman, I represent a poor Southern district. My opponent in the race to date has raised $77,000, $62,000 of that in thousand-dollar contributions. I have been running for 8 years. I have raised $1.5 million, and I do not have 62 thousand-dollar contributors in my entire amount of money.

So, Mr. Chairman, it is not a rich man, poor man. The Republican Party represents the views of the middle-class people.

Mr. MICHEL. Mr. Chairman, I yield 2 minutes to the gentlewoman from Connecticut [Mrs. JOHNSON].

Mrs. JOHNSON of Connecticut. Mr. Chairman, I rise in strong support of the Michel proposal, and I want to congratulate the minority leader on having taken real leadership on this issue, for without his leadership, I do not think we would be here tonight if he had not been able to provide the firm hand that led our caucus to agree on a number of difficult subjects that allowed him to introduce concrete bills on controversial campaign reform issues, and I frankly do not think we would have been able to get agreements from the other side and bring bills to the floor tonight. So, I congratulate him.

In my mind there are two measures of real reform. One is the extent to which people I represent will control the pursestrings of my campaign and the campaign of my opponent, and by that measure the Michel proposal is clearly superior, superior.

I believe the first measure of reform is whether or not the individuals in the districts of each of us have primary power over our ability to run for reelection and the character of the campaign that we run, and by that measure the Michel amendment is far superior to that on the floor.

The second measure of quality, of real reform in my mind, is transparency, the accountability, the degree to which Members are responsible to be accountable for the contribution to their campaigns. Again, by that measure the Michel amendment is superior because it does completely ban soft money. The money that will influence the voters is money that will be accounted for by each candidate and, therefore, visible to the electorate.

Mr. Chairman, I rise in strong support of the Michel amendment.

Mr. ECKART. Mr. Chairman, I yield 1 minute to the gentleman from Connecticut [Mr. GEJDENSON].

Mr. GEJDENSON. Mr. Chairman, the gentleman from Illinois had it right before. What we are seeing here is power and money and trying to jiggle the system. Why? Well, they have outspent us 4 to 1 in almost every election. They are still the minority party, and that has got to be awfully frustrating, but what is most frustrating is they do not try to change what they stand for. They try to adjust the system.

Mr. Chairman, a year or two ago they wanted to extend the term of the Presidency, President Ronald Reagan, to serve for a third term. We would need a constitutional amendment. That did not sell so well. Now they want to limit the terms of Members of Congress because they cannot win a majority here. That is not selling well either.

Mr. Chairman, I say to my colleagues, "Spending four times as much can't buy you the Congress."

Well, maybe if they make it five times, maybe if they make it a district that's got 90 percent poor people and 10 percent millionaires, the millionaires will finally be able to win that district because they will not be able to raise money from anybody else in the country.

Let us get straight what is happening here. There is a fundamental battle, and the battle is between that party which has transferred more wealth from the poor and working people to the wealthiest people in this country.

This is the Democrat Party on this side. We have fought for the working people, and the sad fact is we have lost some of our battles over the last decade. We are ending that fight tonight. We are starting to take back this country, and working people in this country understand the fundamental difference.

Mr. Chairman, I say to my colleagues, "Jiggle the rules all you can. You won't win this Congress."

□ 2200

Mr. MICHEL. Mr. Chairman, I yield 4 minutes to the gentleman from Georgia [Mr. GINGRICH], the distinguished Republican whip.

Mr. GINGRICH. Mr. Chairman, I thank the minority leader for yielding me this time.

I have found large parts of tonight's debate absolutely fascinating. Earlier the distinguished Democratic gentleman from Wisconsin said, "The fat cats are controlling Congress," and if I had time allowed at that moment, I would have asked him, who do the fat cats control? Do they control the chairman of which committees? Do they control the majority leader? Do they control the Speaker?

I mean, what is he talking about? The Democrats have controlled the House since 1954, and if he is right that the fact cats control Congress, he ought to give us a list of which fat cats control which Democratic chairmen.

The gentleman from Connecticut who just spoke, sheer, ludicrous nonsense. There is no place in America where a challenger outspends a Democratic incumbent 4 to 1. It is just lunacy. It has no relationship to the real world. It is wonderful rhetoric, and when you are beginning to become a reactionary party, you have to use rhetoric to hide what is happening to you, but it has no relation to facts. It is simply factually wrong.

Mr. GEJDENSON. Mr. Chairman, will the gentleman yield?

Mr. GINGRICH. I will yield to the gentleman, if he can name one race——

Mr. GEJDENSON. The Republicans——

Mr. GINGRICH. Mr. Chairman, I will reclaim my time.

Mr. GEJDENSON. If the gentleman does not want an answer. I guess he should not ask the question.

The CHAIRMAN. The gentleman posited a conditional yielding, and the Chair is trying to determine whether he can do that.

Mr. GINGRICH. I do not know if I can conditionally do that or not, so I will not test the rule, but I thank the chairman.

Let me talk a little bit about what the Michel substitute does. It gets all PAC's down to $1,000. It does not have a loophole so that the labor PAC's in Washington can give $5,000 each in the primary and $5,000 in the general. That is a loophole which the Swift proposal does have, nice little loophole for the bosses.

The so-called working men are, in fact, that union staffs in Washington giving out $5,000 each.

No, the Michel substitute brings all PAC's down to $1,000.

Second, we require 50 percent in your home area, 50 percent.

Now, I heard one Democrat stand up and say he could not rise the money in his own district.

A Member who does not think that he could match a challenger in raising money back home ought to resign. Almost by definition he is announcing that he is so unrepresentative now.

The fact is that we are in a situation here where we have Democrats getting up and explaining they could not afford to go back home and rely on money from back home, that it would be terrible if they could go to Hollywood and New York and to the union bosses. My gosh, if they had to actually rely on the people, they would be devastated by this.

Now, we have heard recently in this House from Vaclav Havel, from Lech Walesa, from Nelson Mandela. We have applauded the progress being made by Yeltsin. We have passed resolutions on behalf of Lithuania. Let me just challenge the Democrats. You represent a system which now so protect incumbents that 98 or 99 percent get reelected. It is the most entrenched political system around. It is more entrenched than any political system in the Communist world, except Albania. Why not take the gamble that if we lowered all PAC's to $1,000, including the unions, that if we actually required—I understand some Democrats are booing the thought that we would actually rely on people back home, but if we actually allowed 50 percent of the money, required it to come from back home from challenger and incumbent alike, if we were in a position to ban leadership PAC's, if we had a tough ban on soft money, which the Michel substitute does, a tough ban, not a soft ban, the kind of ban that would make Keating money illegal, the kind of ban that would make the S&L looters locked out of the system, the kind of ban that we ought to have to keep the folks who corrupted the system in the eighties out of the system, that is in the Michel substitute, but it is not in the Democratic measure.

Mr. EDWARDS of Oklahoma. Mr. Chairman, will the gentleman yield?

Mr. GINGRICH. I am glad to yield to the gentleman from Oklahoma.

Mr. EDWARDS of Oklahoma. Mr. Chairman, did not Tip O'Neill tell us that all politics is local, Perhaps we ought to suggest to them that if they followed his advice and went back to their own districts, they might not have this concern.

Mr. ECKART. Mr. Chairman, I yield such time as she may consume to the gentlewoman from California [Mrs. BOXER].

Mrs. BOXER. Mr. Chairman, I rise in support of the Democratic bill and against the Republican substitute that would allow multimillion dollar campaigns funded by multimillionaries.

We in Congress work for the people and only the people and it is they that we reform campaign financing to bring it back to the people.

I am proud tonight to vote for spending limits. Our campaigns are going through the roof. The Republican bill still says the sky's the limit.

A million? Two million? How far can it go? We need to limit campaign spending.

We also need to move toward public financing, funded by a voluntary checkoff. When we finally get all the special interest money out of politics, we will truly be a better country.

When you take thousands and some have taken many hundreds of thousands in direct or indirect contributions, you are belittled by it; your actions will never be viewed as objective; it's not good for the people or the country.

I want to restore the faith of the people in our system. In my campaign I am making a special effort to encourage small contributions, and to bring back the excitment of grass roots politics.

Let's reform the system and let's do it now.

Mr. ECKART. Mr. Chairman, I yield 1 minute to the gentleman from North Carolina [Mr. HEFNER].

In yielding, let me say to my friend, the gentleman from Georgia that if he is so incensed about the Charles Keating problem, why not ask him why he does not close that loophole that allowed Mr. Keating to do that to make those kind of contributions?

Mr. HEFNER. Mr. Chairman, one of the real differences is that most of the people back home say, "We don't understand why you have to spend 6 or 7 or $800,000 to be elected to Congress."

One of the things that compounds the problem at home on both sides, we are never going to get a handle on campaign financing until we get a handle on trying to do away with some of the negative advertising that we do.

The biggest part of the legislation that is passed in this House, there are gimmicks that are brought here to get 30-second feeds to run on the television to do commercials where you can destroy somebody's integrity.

Right now every campaign has its hired gun and they are doing investigations to see what you can find on your opponent where you can destroy his integrity. That is what it is all about. If you can get enough dirt on him, you can win, never mind about the issues.

It is interesting, let me say to the gentleman from Georgia, we had some apologies yesterday or today from the gentleman from California. I was just wondering if maybe the gentleman from Georgia would like to apologize to Democrats when he said, "We goofed. We attempted to deal with Democrats as if they were responsible citizens."

We talk about going back to our districts, I go to my district. I raise money in my district. I have $5 and $10 and $25 fund raisers.

I would like to mention also that if the administration has the luxury of sending in the Secretary of Labor, the Secretary of Education, yes, even the Whip who can come to your district and refer to you as a pig, and you have to spend some extra money to defend these attacks.

We are never going to get to the root of campaign financing reform until we manage to get to the heart of it and do away with negative advertising and campaign on the issues and what people stand for.

Yes, the gentleman from Georgia [Mr. GINGRICH] says we do not have the Republican values. Thank God, I do not.

Mr. ECKART. Mr. Chairman, I yield 1 minute to the gentleman from Kansas [Mr. SLATTERY].

Mr. SLATTERY. Mr. Chairman, I thank the gentleman for yielding this time to me.

First I have to confess to my colleagues that I have no small measure of skepticism about how effective any of this legislation is going to be in improving the quality of representation for the American people in this body. In fact, I will go as far as to say there is not a proposal on the table this evening that is going to improve the representation quality in this body one whit.

Beyond that, Mr. Chairman, I want to make one or two observations about the Republican substitute. Any suggestion that we are talking about some kind of major reform by reducing the total PAC contribution from $5,000 to $1,000 is absolute nonsense. We are going to see nothing but a total proliferation of PAC's.

The second point I want to make is that when our friend, the gentleman from Mississippi, was talking, I hope people were listening, because the bottom line is this. A millionaire in a poor district will be able to virtually go in and buy a congressional seat. Poor people from that district that want to seek representation there are going to be denied an opportunity.

That is the ringer in this proposal before us this evening. That is what we are talking about. Are we going to set up a system that will enable someone with enormous personal wealth to go into poor districts in this country and literally buy a congressional seat.

I say we should not set up that kind of system and that is the most fundamental reason why we should oppose the Republican substitute.

□ 2210

Mr. ECKART. Mr. Chairman, I yield myself such time as I may consume.

Mr. Chairman and my colleagues, frequently when we have difficult or contrasting ideas and philosophies, it makes for a most interesting and intriguing debate and usually for a wide array and choices of political options. What is left before us today in this substitute before we return to the

House to vote on the Synar-Obey amendment is a question of clear difference in philosophy and how we got to that philosophical difference.

If we look about us, we see many indices of what drives this process. If you look at the billboards of America, you see one thing. If you look at the latest, hottest movies, you see something else. And television is even different.

But when we look at the question of campaign finance debate and we look at the complaints registered by those on the Republican side, we see a new television show called "The Incredibly Shrinking Republican Package." It was announced with great fanfare by the minority leader that their Republic campaign program had 25 points of light that shrunk to 21. Three months later it became 17. Two weeks after that it became 11. And in the package that they produced tonight to deliver to the floor of the House, it shrunk to seven or eight.

Now why did that happen? It happened because of their inability to coalesce behind any single agreement. This shrinking Republican package reflects most their ability to pursue their partisan political advantage, and I understand that. But like last summer's hit movie, "Honey, I Shrunk the Package," the Republicans now have captured a set of circumstances from which they will find it difficult to extricate themselves. It is not what they put in the package that they like, it is what they left out. They do not have spending limits. They do not put an aggregate limit on PAC contributions. They do not shut down the soft-money system. They do not put a ban on a bundling by political parties. They do not tighten expenditures by independent campaigns. And they do not provide for a trail to track the receipts that they are funneling through county parties.

We heard with eloquence how they spoke about returning the financing to county parties. What they did not tell us is that they do not require a dime of those donations to the county parties to be reported. Tiny Tammany Halls all across this country financed by the Republicans and their cronies here in Washington because they can run those dollars through without disclosures. Let me quote from a well-known 1980's political operation.

"Groups like ours are potentially very dangerous to the political process," this expert said; "we could say whatever we wanted about an opponent of a Senator and the Senator would not have to say anything. A group like ours could lie through its teeth, and the candidates it helps stays clean." That is the end expenditure loophole that the gentleman from Illinois [Mr. MICHEL] preserves, and that was Terry Dolan that took this caucus apart in 1982 with his negative campaign tactics. They say yes to this, we say no. The Republicans want dirty campaign tactics to be the norm and not the exception in the process, and yet when, independent expenditures of negative campaigns are directed at us, they want to tie our hands and not allow you to even have access to the media to respond. Do you call that reform?

If you want real reform in this package, do not look to the Republican substitute. They will tell you that, "We limit PAC's." But they do not touch fat cats. That is part of the problem. They say they want reform, but they define reform as that ever skyrocketing national debt which their economic politics fuel and which they refuse to step up to the bar and pay for when it comes time to the debt-ceiling requirements. We understand that. Yes, this incredibly shrinking Republican package is an invitation to disaster.

They do not ban soft money. The reason they do not ban soft money is because their political machine is oiled by soft money, and what they do with the soft money that is left they drive underground by not allowing or requiring reporting.

Mr. Chairman and my colleagues, if this package that the Republicans offered tonight was a beer, it would be called Campaign Reform Light. It does not taste good. It certainly is not less filling, save the coffers that you will use fueled by the tremendous unlimited, unreported expenditures of the wealthy to do what.

We heard complaints about his rule earlier tonight. One of the complaints was by one of the Republicans who said he had 60 cosponsors for his package, and why could he not get it offered. Do not complain to us. Ask the minority leader why he would not put your bill in our substitute.

The fact of the matter is that if you want to have meaningful campaign finance reform, if you want to limit spending, if you want to tell PAC's that we are tired of the big, wealthy PAC's owning the political process, if you want to tell everybody that you want merit and not money to drive campaigns, if you want to make sure that everybody knows that we are conducting elections and not auctions to the highest bidder, if you want to make it crystal clear that the test of membership in the Congress of the United States is not the size of your personal bank account, then you will reject the Republican substitute simply because it does not pass the smell test.

Reject the Republican substitute. Remember that in our best interests it is important that that wall of money that separates us from the people come down and that the people know that the people's House is owned by and responsible to the people.

Mr. MICHEL. Mr. Chairman, I yield 6 minutes, the remainder of my time, to the distinguished gentleman from Michigan [Mr. VANDER JAGT] to wrap it up on our side.

Mr. VANDER JAGT. Mr. Chairman, I personally do not call the substitute the Republican substitute, because there are such good things in here for real campaign reform that I would not want to insult my good and dear friends on the other side of the aisle by suggesting that they are the exclusive property of the Republican Party.

Besides campaign reform should not be a contest of Democrats versus Republicans. Fundamentally, it is a contest of powerful special interests against the power of the people whom all of us were elected to represent, and I do not mean to be inflammatory, but I think that it is essential that we set in context how campaign reform comes to us tonight.

The facts are that this Congress began with the resignation of a Speaker who had taken hundreds of thousands of dollars from corrupt S&L's PAC's and their personnel and carried the legislative water of those corrupt S&L's into this House. The whip resigned, and it turned out that he had been running an S&L yacht up and down the Potomac raising campaign funds illegally, it turned out to be, and as he left us, he protested, "I am not a corrupt person, but this is a corrupting system."

And then with a new Speaker, we all hoped that there would be bipartisan reform of this congressional Watergate.

□ 2220

And there at that time was widespread agreement on some essential elements to real campaign reform. Complex and controversial dispute as to how to do it. But pretty widespread agreement on some essential elements.

First, we reduce the role of special interest PAC money in campaigns;

Second, we enhance the role of the individual voter in the district;

Third, a balancing of the playing field between incumbent and challenger.

Last night, in the dead of the night, emerges for the first time the Democratic package. And to label that package "reform" is a joke, and to suggest that it addresses those three fundamental issues is an insult to intelligence.

It does not decrease, it increases the role of special interest PAC money. It raises to $122 million in the next election the PAC money that can come in, when it was only $86 million in the last election. This is an increase of almost 50 percent.

The role of the individual voter is not enhanced, it is cut in half, and the role of the political parties are emas-

culated. It is obvious that the more important you make the individual in the party, the less importance the special interest becomes.

And while I am on the role of rich people, poor people, and fat cats, little people, in the last election for which there is an indepth analysis, the NRCC raised over 90 percent of its money in contributions of less than $100; the DCCC raised over 70 percent of its money in contributions in excess of $500. And that package does not even acknowledge, let alone address, the imbalance between incumbent and challenger.

Fifteen years ago the chairman of the DCCC and the Committee on House Administration announced that by raising franking and perks and in other ways, he would establish a system to preserve and protect incumbents in perpetuity. And his dream has just about come true, as we have a 98.7-percent incumbent reelection rate.

It has been demonstrated earlier today that there are the votes over there to push a closed gag rule not down the mouth of Republicans, but down the mouth of the American people, on this important subject. I suppose you still have the votes to do what you want, but this substitute is your only chance in the House, in the committee, to vote against public financing. And yes, it is winnowed down. There are some motherhood issues there. But it is winnowed down. It has been shrunk down to just two fundamental issues, because we wanted it simple as to where you stood, for or against them.

The first one, we do reduce the role of PAC money by reducing the limit from $5,000 to $1,000, instead of increasing the role by 50 percent.

Second, we do enhance the role of the individual voter by saying that 50 percent of the funds should come from his supporters in the district. Vote no on this, and you are saying that a special interest Washington-based PAC ought to be able to give 10 times as much as an individual in the district where you are running. Vote no on this and you are saying it is perfectly OK to spend 90 percent of your time in Beverly Hills and the Upper East Side of Manhattan, rather than being required to spend at least 50 percent of your effort in your district with the people you are going to serve. Vote no on this and you are saying we don't want to change what your whip called a corrupting system one iota, and we want to preserve this as a House of the incumbent, by the incumbent, and for the incumbent, that Wayne Hayes envisioned, rather than with this substitute moving it just a little bit toward a House of the people, by the people, and for the people, that our Founding Fathers hoped it would always remain.

The CHAIRMAN. All time has expired.

The question is on the amendment in the nature of a substitute offered by the gentleman from Illinois [Mr. MICHEL].

The question was taken; and the Chairman announced that the noes appeared to have it.

RECORDED VOTE

Mr. MICHEL. Mr. Chairman, I demand a recorded vote.

A recorded vote was ordered.

The vote was taken by electronic device and there were—ayes 169, noes 241, answered "present" 1, not voting 21, as follows:

[Roll No. 316]

AYES—169

Archer	Hansen	Regula

□ 2243

The Clerk announced the following pairs:

On this vote:

Mr. Pursell for, with Mr. Nelson of Florida against.

Mr. Robinson for, with Mr. Ray against.

Mrs. Roukema for, with Mr. Flake against.

So the amendment in the nature of a substitute was rejected.

The result of the vote was announced as above recorded.

The CHAIRMAN. The question is on the amendment in the nature of a substitute made in order as original text, as amended.

The amendment in the nature of a substitute made in order as original text, as amended, was agreed to.

The CHAIRMAN. Under the rule, the Committee rises.

Accordingly, the Committee rose; and the Speaker having resumed the chair, Mr. HOYER, Chairman of the Committee of the Whole House on the State of the Union, reported that that Committee, having had under consideration the bill (H.R. 5400) to amend the Federal Election Campaign Act of 1971 and certain related laws to clarify such provisions with respect to Federal elections, to reduce costs in House of Representatives elections, and for other purposes, pursuant to House Resolution 453, he reported the bill back to the House with an amendment adopted by the Committee of the Whole.

The SPEAKER. Under the rule, the previous question was ordered.

Is a separate vote demanded on the amendments en bloc to the amendment in the nature of a substitute made in order as original text adopted by the Committee of the Whole?

Mr. FROST. Mr. Speaker, I demand a separate vote on the so-called Synar-Obey amendments.

The SPEAKER. The Clerk will report the amendments en bloc on which a separate vote is demanded.

The Clerk read as follows:

Amendments:

In section 315(k)(1) of the Federal Election Campaign Act of 1971, as proposed to be added by section 109, strike out "50 percent" and insert in lieu thereof "40 percent".

In section 315(k)(2) of the Federal Election Campaign Act of 1971, as proposed to be added by section 109, strike out "50 percent" and insert in lieu thereof "40 percent".

At the end of title I, add the following new sections:

SEC. 125. LIMITATION ON ACCEPTANCE OF POLITICAL COMMITTEE CONTRIBUTIONS, OTHER THAN SMALL DONOR POLITICAL COMMITTEE CONTRIBUTIONS, BY HOUSE OF REPRESENTATIVES CANDIDATES.

Section 315 of the Federal Election Campaign Act of 1971 (2 U.S.C. 441a), as amended by sections 107(b), 108, 109, and 110 of this Act, is further amended by adding at the end the following new subsection:

"(m) A candidate for the office of Representative in, or Delegate or Resident Commissioner to, the Congress, and the authorized political committees of such candidate, may not, with respect to an election, accept contributions from political committees (other than small donor political committees) in excess of 10 percent of the limitation specified in subsection (i)(1)(A).".

SEC. 126. REDUCTION IN LIMITATION AMOUNT FOR INDIVIDUAL CONTRIBUTIONS TO CANDIDATES.

Section 315(a)(1)(A) of the Federal Election Campaign Act of 1971 (2 U.S.C. 441a(a)(1)(A)) is amended by striking out "$1,000" and inserting in lieu thereof "$500".

SEC. 127. FEDERAL ELECTION COMMISSION TO MAINTAIN CERTAIN REPORT INFORMATION IN COMPUTER FORMAT.

Section 304 of the Federal Election Campaign Act of 1971 (2 U.S.C. 434), as amended by section 125 of this Act, is further amended by adding at the end the following new subsection:

"(f) The Commission shall—

"(1) maintain computer files of the report information referred to in subparagraphs (A) and (B) of paragraph (3) of subsection (b); and

"(2) make such files available to the public by remote access at reasonable cost.".

SEC. 128. NEW TITLE OF THE FEDERAL ELECTION CAMPAIGN ACT OF 1971.

The Federal Election Campaign Act of 1971 (2 U.S.C. 431 et seq.) is amended by adding at the end the following:

"TITLE V—VOLUNTARY EXPENDITURE LIMITATIONS AND PARTIAL PUBLIC FINANCING FOR QUALIFYING HOUSE OF REPRESENTATIVES CANDIDATES IN GENERAL ELECTIONS

"ELIGIBILITY FOR PAYMENTS

"SEC. 501. (a) To be eligible to receive payments under section 504, a qualifying House of Representatives candidate shall, at the time of filing the statement of organization under section 303(b), agree in writing that the candidate and the candidate's authorized committees—

"(1) will deposit all payments received under this section in a separate checking account in a depository institution referred to in section 302(h)(1), which shall contain only amounts so received and from which all expenditures of such amounts shall be made;

"(2) will furnish campaign records, evidence of contributions and other appropriate information to the Commission; and

"(3) will cooperate in any audit and examination conducted by the Commission under section 505;

"(b) To be eligible to receive payments under section 504, a qualifying House of Representatives candidate shall certify to the Commission that—

"(1) the candidate and at least one other candidate have qualified for the general election ballot under State law; and

"(2) subject to subsection (c), the candidate has received $25,000 in contributions with respect to the general election (and any primary election relating to the general election) from individual residents of the State in which the general election is held.

"(c) For purposes of subsection (b), in determining the amount of contributions received by a candidate and the candidate's authorized committees—

"(1) no contribution other than a contribution of money made by a written instrument which identifies the individual making the contribution shall be taken into account;

"(2) no contribution by an intermediary or conduit under section 315(a)(8) shall be taken into account; and

"(3) no contribution shall be taken into account to the extent such contribution exceeds $50 when added to the amount of all other contributions made by the individual with respect to the election.

"ENTITLEMENT OF ELIGIBLE CANDIDATES TO PAYMENTS

"SEC. 502. (a) An eligible candidate shall be entitled to—

"(1) matching payments under section 504 in an amount equal to the amount of contributions received by the candidate and the candidate's authorized committees, except that such payments may not exceed $100,000, and, in determining the amount of such contributions, the provisions set forth in subsection (c) of section 501 shall apply (except that the limitation in paragraph (3) of that section shall apply on a calendar year basis and only contributions from individual residents of the State in which the general election is held shall be taken into account); and

"(2) additional payments under section 504 in the amount of one dollar for each dollar of matching payments which a candidate is eligible to receive under paragraph (1), if any candidate (other than a qualifying House of Representatives candidate) receives aggregate contributions or makes aggregate expenditures in excess of $200,000 with respect to the general election.

"(b) Payments received by a candidate under this section shall be used only to defray expenditures incurred with respect to the general election for such candidate. Such payments shall not be used to make any expenditures other than expenditures to further the election of such candidate.

"CERTIFICATION BY COMMISSION

"SEC. 503. (a) Not later than one week after an eligible candidate files a request with the Commission to receive a payment under section 502, the Commission shall certify to the Secretary of the Treasury the eligibility of the candidate for payment in full of the amount to which the candidate is entitled. The request referred to in the preceding sentence shall contain—

"(1) such information and be made in accordance with the procedures, as the Commission may provide by regulation;

"(2) a verification, signed by the treasurer of the principal campaign committee of the candidate, stating that the information furnished in support of the request is correct and complies with the requirements of this title; and

"(3) a request for a payment for at least $10,000 except for the final payment request which may be for a lesser amount, if such request is filed for a payment under section 502(a)(1).

"(b) The Commission may not delay a certification under this section, unless the Commission determines that the request filed by the candidate is clearly incorrect.

"(c) Certifications by the Commission under subsection (a) and all determinations made by the Commission under this title, shall be final and conclusive, except to the extent that they are subject to examination and audit by the Commission under section 505 and judicial review under section 506.

"ESTABLISHMENT OF ACCOUNT; PAYMENTS TO ELIGIBLE CANDIDATES

"SEC. 504. (a) The Secretary shall maintain in the Presidential Election Campaign Fund established by section 9006(a) of the Internal Revenue Code of 1986, in addition to any other accounts maintained under such section, a separate account to be known as the House of Representatives Election Campaign Account. The Secretary shall deposit in the account, for use by eligible candidates, the amounts available after the Secretary determines that the amounts

in the Fund necessary for payments under subtitle H of the Internal Revenue Code of 1986 are adequate. The amounts designated for such account shall remain available without fiscal year limitation.

"(b) Upon receipt of a certification from the Commission under section 503, the Secretary shall promptly pay to the candidate from the account the amount certified by the Commission.

"(c) If at the time of a certification by the Commission under section 503 for payment to an eligible candidate, the Secretary determines that the moneys in the account are not, or may not be, sufficient to satisfy the full entitlement of all eligible candidates, the Secretary shall withhold from such payment the amount necessary to assure that each eligible candidate will receive a pro rata share of the candidate's full entitlement. Amounts so withheld shall be paid when the Secretary determines that there are sufficient moneys in the account to pay such amounts, or portions thereof, to all eligible candidates from whom amounts have been withheld, but, if there are not sufficient moneys in the account to satisfy the full entitlement of an eligible candidate, the amounts so withheld shall be paid in such manner that each eligible candidate receives a pro rata share of the full entitlement.

"EXAMINATION AND AUDITS; REPAYMENTS

"SEC. 505. (a)(1) After each general election, the Commission shall conduct an examination and audit of the campaign accounts of 10 percent of the eligible candidates, as designated by the Commission through the use of an appropriate statistical method of random selection, to determine whether such candidates have complied with the conditions of eligibility and other requirements of this title. In selecting the accounts to be examined and audited, the Commission shall select all candidates in a general election where any eligible candidate is selected for examination and audit.

"(2) After each special election, the Commission shall conduct an examination and audit of the campaign accounts of all candidates in the election if any candidate is an eligible candidate to determine whether the candidates have complied with the conditions of eligibility and other requirements of this title.

"(3) The Commission may conduct an examination and audit of the campaign accounts of any eligible candidate in a general election if the Commission, by an affirmative vote of 4 members, determines that there exists reason to believe that such candidate has violated any provision of this title.

"(b) If the Commission determines that any amount of a payment to a candidate under this title was in excess of the aggregate payments to which such candidate was entitled, the Commission shall so notify the candidate, and the candidate shall pay to the Secretary an amount equal to the excess.

"(c) If the Commission determines that any significant amount of a payment to a candidate under this title was not used as provided for in this title, the Commission shall so notify the candidate and the candidate shall pay to the Secretary an amount equal to 200 percent of the amount involved.

"(d) The Secretary shall deposit all payments received under this section in the House of Representatives Election Campaign Account.

"JUDICIAL REVIEW

"SEC. 506. (a) Any agency action by the Commission made under this title shall be subject to review by the United States District Court for the District of Columbia upon petition filed in such court within 30 days after the agency action by the Commission for which review is sought.

"(b) The provisions of chapter 7 of title 5, United States Code, apply to judicial review of any agency action, as defined in section 551(13) of title 5, United States Code, by the Commission.

"PARTICIPATION BY COMMISSION IN JUDICIAL PROCEEDINGS

"SEC. 507. (a) The Commission is authorized to institute actions in the district courts of the United States to seek recovery of any amounts determined under section 505 to be payable to the Secretary.

"(b) The Commission is authorized to petition the courts of the United States for such injunctive relief as is appropriate to carry out this title.

"(c) The Commission is authorized on behalf of the United States to appeal from, and to petition the Supreme Court for certiorari to review, judgments or decrees entered with respect to actions in which it appears pursuant to the authority provided in this section.

"REPORTS TO CONGRESS; REGULATIONS

"SEC. 508. The Commission shall, as soon as practicable after each election, submit a full report to the House of Representatives setting forth—

"(1) the amounts certified by the Commission under section 503 for payment to each eligible candidate; and

"(2) the balance in the Presidential Election Campaign Fund and any account maintained in such Fund.".

At the end of title II, add the following new sections:

SEC. 208. INCREASE IN PRESIDENTIAL ELECTION CAMPAIGN FUND INCOME TAX CHECKOFF.

(a) IN GENERAL.—Section 6096(a) of the Internal Revenue Code of 1986 is amended by striking out "$1" each place it appears and inserting in lieu thereof "$3" and by striking out "$2" and inserting in lieu thereof "$3" and by striking out "$2" and inserting in lieu thereof "$6".

(b) EFFECTIVE DATE.—The amendments made by subsection (a) shall apply with respect to income tax liability for taxable years beginning after December 31, 1990.

SEC. 209. REPORT TO CONGRESS ON THE EFFECTIVENESS OF CERTAIN REPORTING AND DISCLOSURE REQUIREMENTS OF THE FEDERAL ELECTION CAMPAIGN ACT OF 1971.

Not later than 6 months after the date of the enactment of this Act, the Federal Election Commission shall submit to the Congress a report containing—

(1) an analysis of the effectiveness of the provisions of the Federal Election Campaign Act of 1971 (2 U.S.C. 431 et seq.) that require reporting and disclosure of the occupation and employer of an individual who makes contributions subject to that Act;

(2) a description of any administrative action the Commission intends to implement to improve compliance with such requirements; and

(3) a draft of legislation (including technical and conforming provisions) recommended by the Commission to improve the provisions referred to in paragraph (1).

In lieu of title III, insert the following:

TITLE III—EFFECT OF PARTIAL INVALIDITY, EFFECTIVE DATE, AND SUNSET PROVISIONS

SEC. 301. EFFECT OF PARTIAL INVALIDITY.

If any amendment made by section 109, 126, 127, 129, or 208, or the application of such amendment with respect to any person or circumstance, is held invalid by a final decision of the courts of the United States, no amendment made by any such section and no application of any such amendment shall be valid with respect to any person or circumstance, and, from and after the effectiveness of such decision, the provisions of law amended by such sections shall be in effect as if this Act had not been enacted.

SEC. 302. EFFECTIVE DATE AND SUNSET PROVISIONS.

(a) IN GENERAL.—Except as otherwise provided in this Act, the amendments made by this Act shall apply with respect to elections for Federal office beginning with the general election of November 3, 1992 (and any primary election relating to such general election).

(b) SPECIAL RULE AND SUNSET PROVISION.—The amendments made by sections 109, 126, 127, and 129, shall take effect on January 1, 1991, and shall cease to have effect on January 1, 1999, unless extended by law. The amendments made by such sections and the amendment made by section 208 shall be repealed, effective January 1, 1999, unless extended by law, and from and after such repeal, the provisions of law amended by such sections, including section 208, shall be effective as if this Act had not been enacted.

Mr. FROST (during the reading). Mr. Speaker, I ask unanimous consent that the amendments be considered as read and printed in the RECORD.

The SPEAKER. Is there objection to the request of the gentleman from Texas?

There was no objection.

The SPEAKER. The question is on the amendments.

The question was taken, and the Speaker announced that the noes appeared to have it.

Mr. WALKER. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The vote was taken by electronic device, and there were—yeas 122, nays 128, answered "present" 158, not voting 24, as follows:

Mr. ESPY and Mr. TORRES changed their vote from "yea" to "nay."

Mr. JOHNSON of South Dakota changed his vote from "nay" to "yea."

Messrs. FAZIO, STAGGERS, TOWNS, and BONIOR changed their vote from "present" to "yea."

Mr. McEWEN changed his vote from "nay" to "present."

Mr. DAVIS, Mr. HAYES of Illinois, and Mrs. UNSOELD changed their vote from "present" to "nay."

So the amendments were rejected.

The result of the vote was announced as above recorded.

The SPEAKER. The question is on the amendment in the nature of a substitute made in order as orginal text.

The amendment in the nature of a substitute made in order as orginal text was agreed to.

The SPEAKER. The question is on the engrossment and third reading of the bill.

The bill was ordered to be engrossed and read a third time, and was read the third time.

The SPEAKER. The question is on the passage of the bill.

The question was taken; and the Speaker announced that the noes appeared to have it.

Mr. ECKART. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The vote was taken by electronic device, and there were—yeas 255, nays 155, not voting 22, as follows:

□ 2321

The Clerk announced the following pairs:

On this vote:

Mr. Nelson of Florida for, with Mr. Pursell against.

Mr. Hawkins for, with Mr. Quillen against.

Mr. Flake for, with Mrs. Roukema against.

Mr. Ray for, with Mr. Robinson against.

So the bill was passed.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

AUTHORIZING THE CLERK TO MAKE CORRECTIONS AND ENGROSSMENT OF H.R. 5400, CAMPAIGN COST REDUCTION AND REFORM ACT OF 1990

Mr. McDERMOTT. Mr. Speaker, I ask unanimous consent that in the engrossment of the bill, H.R. 5400, the Clerk be authorized to correct section numbers, punctuation, and cross-references, and to make such other conforming changes as may be necessary to reflect the actions of the House in amending and adopting the bill, H.R. 5400.

The SPEAKER pro tempore (Mr. BONIOR). Is there objection to the request of the gentleman from Washington?

There was no objection.

GENERAL LEAVE

Mr. McDERMOTT. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks, and include therein extraneous material, on H.R. 5400, the bill just passed.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Washington.

There was no objection.

LEGISLATIVE PROGRAM

(Mr. MICHEL asked and was given permission to address the House for 1 minute.)

Mr. MICHEL. Mr. Speaker, I ask to proceed for one moment that I might inquire of the distinguished majority leader the program for the balance hopefully of only this evening, but recognizing that we may have some problems, depending upon what action the other body takes.

Mr. GEPHARDT. Mr. Speaker, will the gentleman yield?

Mr. MICHEL. I yield to the gentleman from Missouri.

Mr. GEPHARDT. Mr. Speaker, I thank the gentleman for yielding. We have left for this evening's business three conference reports, one on trade matters, another an AIDS legislation, and another on the oilspill legislation.

When we finish with those three conference reports, we have finished our schedule, except that there may be further consideration of the debt ceiling legislation. If the Senate does not pass the short term to October 1, the debt ceiling that we have already passed, then we will send over one when they are ready to receive it.

To bring Members up to date with what is happening over there, as I understand it they are still having some problems reaching a unanimous-consent request on what amendments will or will not be offered on the short-term debt. Until that can be resolved, they are not going to be able to do it. That could happen later tonight, or it may be that they cannot do it until tomorrow. We do not know the answer to that right now.

When these three conference reports are finished, Members could be fairly well-assured that there will not be a lot of votes. We will not schedule any votes. The only possible vote would be if the debt ceiling gets into a position where it has to be voted on again here.

Mr. MICHEL. Mr. Speaker, might I inquire of the majority leader when we might want to take up that resolution having to do with our returning and the dates? Would we do that after we consider the conference reports?

Mr. GEPHARDT. Mr. Speaker, if the gentleman will yield further, I would be happy to do that at any point. We are prepared to do it now, or at a later point.

Mr. MICHEL. I think we might as well. It will prolong some discussion, and it might as well take place at this juncture as any, while we have the attention of the Members. It has to do with how we proceed when we come back after August.

REQUEST FOR CONSIDERATION OF HOUSE CONCURRENT RESOLUTION 361, SETTING FORTH TIMETABLE WITH RESPECT TO CONGRESSIONAL BUDGET PROCESS FOR FISCAL YEAR 1991

Mr. GEPHARDT. Mr. Speaker, I send to the desk a concurrent resolution (H. Con. Res. 361) and ask unanimous consent for its immediate consideration.

The SPEAKER pro tempore. The Clerk will report the concurrent resolution:

The Clerk read the concurrent resolution as follows:

H. CON. RES. 361

Resolved by the House of Representatives (the Senate concurring), That the timetable with respect to the congressional budget process for the fiscal year 1991 is as follows.

(a) If the Economic Budget Summit convened by the President and the Bipartisan Congressional Leadership reaches agreement as intended, then it shall report to the joint leadership of each House not later than September 10, 1990, its recommendations with respect to the congressional budget for the fiscal year 1991 and budget reconciliation for the fiscal year 1991.

(b) The Economic Budget Summit thereafter should continue to meet for the purpose of reviewing and making further recommendations concerning the actions referred to in subsections (c) through (f).

(c) Within two days after the report of the Economic Budget Summit, a conference report on a concurrent resolution on the budget reflecting the recommendations of the Economic Budget Summit should be filed in each House.

(d) Within two days after the filing of such a conference report on the concurrent resolution on the budget, such conference report should be voted upon in each House.

(e) Within ten days after the adoption of such conference report on the concurrent resolution on the budget, a budget reconciliation bill reflecting the recommendations of the Economic Budget Summit should be voted upon in each House.

(f) Any conference report on the disagreeing votes of the two Houses on such budget reconciliation bill reflecting the recommendations of the Economic Budget Summit should be voted upon within eight days after passage of the bill in each House.

SEC. 2. The Clerk of the House of Representatives shall inform the President of the United States of the adoption of this resolution.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Missouri?

Mr. FRENZEL. Mr. Speaker, reserving the right to object, under my reservation I yield to the distinguished

majority leader so that he might explain the resolution.

Mr. GEPHARDT. Mr. Speaker, I thank the gentleman from Minnesota [Mr. FRENZEL] for yielding.

Mr. Speaker, what we are attempting in this resolution is to set out a timetable that we would intend to follow with regard to the congressional budget process for fiscal year 1991, following our intention of being able to try to reach a budget summit agreement on the fiscal 1991 budget.

The resolution states that it will be our intention to make every possible effort to try to reach an agreement no later than September 10. We then go on further to say that if that can be done, and we hope it can, that within 2 days after that we will file a report on a concurrent resolution on the budget reflecting the recommendations of the summit, and that that would be filed in each House. That would be on or about September 12.

Then 2 days after that, we would hope that we would be able to have the conference report on the budget, which would be changed to reflect the recommendations of the summit and voted on in each House.

Mr. Speaker, we go on to say that within 10 days after the adoption of the conference report on the budget, a budget reconciliation bill reflecting the recommendations of the summit would be voted on in each House.

□ 2230

Obviously this would mean once the concurrent budget resolution conference was adopted by both Houses, we would then send reconciliation instructions to all of the applicable committees, and they would have about 10 days in order to return with specific reconciliation legislation. And then about October 2 we would be looking for a vote on disagreements on the reconciliation bill reflecting the recommendations of the summit, and that would be voted on 8 days after the passage of the reconciliation bills in each House. So we would have the conference on the reconciliation bill done.

Let me further say that it is also our intention, because the summit will be beginning on the Thursday after Labor Day, that we will have pro forma sessions during that week after Labor Day and; therefore, we believe there will be no votes in that week, so the summit can do its work and the members of the summit will not be called back to the floor to vote and not be able to complete the work of the summit. So Members will expect votes when we leave here on or about September 10 when the House will reconvene, and we will begin to do the business on the Defense authorization bill.

Mr. WALKER. Mr. Speaker, will the gentleman yield?

Mr. FRENZEL. Further reserving the right to object, I yield to the gentleman from Pennsylvania.

Mr. WALKER. Mr. Speaker, I have a couple of questions in listening to the explanation of the resolution and on the resolution itself. Is this resolution going to have the effect of law?

Mr. FRENZEL. I yield to the gentleman from Missouri.

Mr. GEPHARDT. If the gentleman will yield, I think that it is a very clear statement of our intentions, our earnest hope. I think everybody in this body, and I would hope in the Senate, wants there to be a budget summit agreement. Obviously there is no way that we can guarantee that we can reach an agreement or try to bind the Members of the Congress to say that there must be an agreement.

But I think what you have in this resolution is the clear intent of the leadership on both sides, and I would hope of a unanimous vote of the membership of the House that we clearly intend to make every possible human effort to reach an agreement. And then I think importantly it sets out a calendar or a schedule that we would intend to follow if an agreement could be reached to be able to do reconciliation, to implement the agreement so that we do not have to face sequestration, which would begin on or about October 1 if we do not get agreement.

Mr. WALKER. If the gentleman will yield further, my problem is that this does not have the effect of law. It is setting some new dates for the budget process. There are already dates in law that we were supposed to meet. The fact is we have not met a one of them. Not one date that was specified by law has been met by this House or this Congress thus far in terms of meeting budgets.

We ended up with a budget in the House that we deemed to have passed in order to proceed ahead. Now it seems to me that just before we leave here to suggest that there are a new set of dates that we are now going to follow does not really advance the budget process very much. It simply gives us a wish and a hope and not much else. And I would hope that we could get a little bit firmer out of this than just a hope.

Is there a strong statement involved here that this is in fact a schedule which we will follow and we will meet? If not, I am afraid I am not very convinced by a wish.

Mr. GEPHARDT. Mr. Speaker, will the gentleman yield?

Mr. FRENZEL. Further reserving the right to object, I yield to the gentleman from Missouri.

Mr. GEPHARDT. Mr. Speaker, let me state that everything that needs to happen to enforce a hoped for agreement depends upon the existence of the agreement. We have not completed that negotiation. We are setting out here a strict schedule to resume that negotiation when we come back, to make every effort to get it done.

It is clear that if we do not get it done the Budget Act, which the gentleman referred to, will take effect on October 1. We will have sequestration. We are told that it will be $100 billion, 40 percent across the board in domestic programs, 25 percent across the board in defense programs.

So we are going to have a budget this year even if none of this works. We will have sequestration. The reason we wanted to set this schedule out was to show what needed to be done and how it could be done if we get a budget summit agreement.

Let me go back on one of your other points. The House did pass a budget resolution. The Senate, the other body finally did, but the House did pass a budget resolution. We did deem it in both Houses. We have gone ahead with appropriations bills.

The President did call for a summit. We have been meeting over 10 or 11 weeks. I think a good deal of progress has been made. I think there is a readiness on both sides to try to negotiate seriously to reach an agreement, and I feel that if we can put in place a clear, direct plan for how to bring this to a successful conclusion that it is very possible to be able to do that. Again, there is no way that we can guarantee it or bind it or say something in a resolution that will certainly make it happen.

Mr. WALKER. Mr. Speaker, will the gentleman continue to yield?

Mr. FRENZEL. Further reserving the right to object, I yield to the gentleman from Pennsylvania.

Mr. WALKER. I thank the gentleman for yielding.

Mr. Speaker, I guess my concern is No. 1, yes, we did pass the budget in the House. I was not on time. It did not meet the dates, and now we are setting up new dates.

The second thing is I would say that the budget process, for those of us who have been on the outside of it looking in, who have not been a part of the proceedings of that budget, we are not very confident that there has been much progress. As a matter of fact, the most recent article in the newspaper disturbs a number of us on this side of the aisle a great deal when it was described by some Democratic leadership as an exercise in which there was Republican bloodletting and where at least one Democratic leader that was within the summit suggested it was a process whereby Republicans slit our wrists and Democrats did not have to slit their wrists.

I would simply say to those who are here cheering that I am simply quoting leaders on your side of the aisle, and we are not very happy about a process now that is going to drag out

even further, and perhaps not meet dates that are specified in this resolution.

I thank the gentleman for yielding and for helping me clarify the matter. But I must say that I am not particulary convinced.

Mr. FRENZEL. Further reserving the right to object, Mr. Speaker, I might say that what we are doing here in this resolution is designing the honeymoon cottage. Unfortunately, the girl has not said yes yet. So we have a ways to do.

But we are doing the best we can to lay the groundwork for what we hope will be a successful budget agreement.

Mr. GINGRICH. Mr. Speaker, will the gentleman yield?

Mr. FRENZEL. Further reserving the right to object, I yield to the distinguished minority whip.

Mr. GINGRICH. Mr. Speaker, first I thank the gentleman for yielding.

Let me say that I am very reluctant, but I will not object. I do want to say to the House that this is one more procrastination. We have deadlines without penalties, promises without performance, meetings without meaning.

We have been in a summit for 86 days, 3 months. President Bush and his team have bent over backward, but nothing has happened.

I rise in particular to set the record straight about something. Tonight on MacNeil-Lehrer the Speaker apparently said, "GINGRICH doesn't really want a summit agreement." Let me set the record straight. Let me set the record straight.

I agreed to be a member of the summit understanding what was involved. For 10 weeks, and your majority leader and your budget committee chairman will verify this, for 10 weeks I sat in those meetings, I sought to avoid arguments, I tried to listen intently and I tried to be helpful. You can check.

Let me go further. I avoided press statements about the summit, and as the majority leader knows, as the budget chairman knows, I was leaked against in the press precisely when I was trying to be helpful, and as they both know, those leaks were distortions of my position.

I have said publicly I believe the summit process has failed up to this point. Now we have a series of newspaper articles, including one yesterday in the Washington Post, which specifically cite a strategy of three Democratic Senators to delay as long as possible. Those are not my words, those are words in the Washington Post, quite clearly. I just want to set the record straight.

If we can get to a binding agreement for 5 years in one vote, then I am prepared to vote for it, if it fits the values that Bush has stated publicly he believes in.

□ 2340

If we cannot, then I am prepared to oppose it when it comes up. I think those of us who have been in that room have tried pretty darn hard to tolerate each other for more hours, in a small space, than any of us wanted. I am prepared to go back in September. I just wanted to set the record straight since some on your side seem to be confused about where we are.

Mr. FRENZEL. Further reserving the right to object, Mr. Speaker, I yield to my distinguished colleague, the gentleman from Minnesota [Mr. WEBER].

Mr. WEBER. Let me first just say for our friends on the other side of the aisle, I have spent countless hours with the gentleman from Georgia, and he has been, in my judgment, just the judgment of this Member, far too supportive of this process.

But further, if the gentleman will yield to me, I would just ask, speaking basically as our colleague from Pennsylvania did as one who is not in the summit proceeding, does not see much progress coming up, understanding that no one is suggesting that this is binding and no one is suggesting it will deal with any of the substantive issues at issue in the summit process, in all candor, and I say this to Members on both sides of the aisle—I am not trying to single out the distinguished majority leader or anyone else—are we doing anything other than trying to lay a little political groundwork for ourselves before we go home for the August recess?

Mr. FRENZEL. Further reserving the right to object, Mr. Chairman, we are trying to set a schedule in this resolution. It does not have any binding force and effect, but it is a little bit like whistling past a graveyard. If we reassure one another enough times, perhaps we will be able to reach that nirvana that we all seek.

I have been on the inside, and I have not seen any more progress than you have seen from the outside. It has been a frustrating 12 weeks. But I am assured by the majority leader and by the distinguished chairman of the Committee on the Budget that it is their intention, the intention of the leadership of this House, to proceed in accordance with the terms of this resolution and get the job done. And I am persuaded that there is some intention to do so, but I have to confess to my colleagues that we have no guarantee that that is going to be done.

Mr. WEBER. I thank the gentleman for yielding.

Mr. FRENZEL. Further reserving the right to object, I yield to my colleague from Arizona.

Mr. KOLBE. I appreciate the gentleman yielding.

Mr. Speaker, a few moments ago we heard, in response to a question of the gentleman from Pennsylvania, that this does have no legal or binding authority. We have laws that set dates for us in the budget process, set dates for us on the appropriations process, and we do not meet those.

I am just at a loss to understand what it is about passing this feel-good resolution about when we are going to meet these deadlines, what we are going to do for the next 30 days, what this—what good this possibly has.

Why cannot the Speaker and the minority leader, the majority leader and minority leader of the Senate walk out of here and have a press conference and announce when they are going to come to some kind of an agreement? You do not need us to say, we are not a part of the budget summit process. You do not need us to day do it. We need it to be done. I do not see why we are going to put this fig leaf over us when it is clear it has no authority, does not do anything.

Mr. FRENZEL. Mr. Speaker, further reserving the right to object, I yield to the majority leader.

Mr. GEPHARDT. I thank the gentleman for yielding.

The reason we are asking for this resolution is that it was the joint judgment of the President, of his chief of staff, of the Secretary of the Treasury, of the Speaker of the House, of the Senate majority leader, the Senate minority leader and the minority leader in the House and myself that this would be a valuable and productive thing to do so that we could begin to get both Houses of Congress to begin to see what lies ahead, and a schedule, a definite schedule that we would announce, not just a press conference but get Members to begin to think about and focus on, so that when we come back here, if we can reach an agreement as we hope we can on September 10, that we will be prepared as a body to put that agreement, which is a 5-year deal, twice as big as anything we have ever done in history and for many years than any budget deal we have ever done, into law and make it a reality before October 1, when we have a $100 billion sequestration, which would decimate the United States Government.

Mr. FRENZEL. Further reserving the right to object, I yield to the gentleman from Arizona.

Mr. KOLBE. I will make this brief. The distinguished majority leader knows we had a deadline once in July, July 4, I believe it was, when we said we were going to do just that, we were going to come up with the outlines of some agreement. We did not do that.

This is a sham. We do not need a resolution to tell us to come up with a deficit reduction plan.

Mr. FRENZEL. Further reserving the right to object, I yield to the distinguished minority leader.

Mr. MICHEL. I thank the gentleman for yielding.

Mr. Speaker, I just want to underscore what the distinguished majority leader just said, because eventually those of us who are privy to the inner circle, obviously are much better informed as to part of the problem that we have got and trying to work or give ourselves some ideas about how we eventually come out of here.

The circle has got to continue to become wider and wider, and the time is becoming so short now that before long you will all have to be taken into our confidence as to what this is all about.

Now, we can have all the press conferences in the world, and they would be just as ineffectual in really getting us to do the things we ought to do on the certain dates that we prescribe here. But it seems to me that we formally, with all the leaders combined, acknowledge in this body and over in the other body, do the same, it seems to me we are all under the gun and beholden to you to perform as we should.

Now, we are trying to make that a public commitment to you and, hopefully, that we can hold to it. And it is a rigorous schedule. And the majority leader, when he says he wants to implant in your minds what we are up against in that tight schedule, we have not met that kind of a schedule any time around here, but we have got to start gearing ourselves up during this recreation time at home so that when we do get back we have the resources to do that.

So, let us say there is no resolution, then we have come to no commitment whatsoever, official or otherwise.

Mr. FRENZEL. Mr. Speaker, further reserving the right to object, I yield to the gentleman from California [Mr. DANNEMEYER].

Mr. DANNEMEYER. I have listened attentively to this whole exchange. I have a simple question I would like to ask someone. If the House does not agree to this resolution, what is to prevent you, our leadership, from doing precisely what the majority leader has said you want to do?

Mr. FRENZEL. I yield to the minority leader.

Mr. MICHEL. Well, if it gives the gentleman more comfort just to vote "no" for whatever reason, that is the gentleman's privilege.

Mr. DANNEMEYER. That is my question.

Mr. MICHEL. We are trying to do this in an orderly way, lay out for you the problem that is going to have to eventually be shared by all of us to meet this schedule and to formalize it in this manner.

Mr. FRENZEL. Mr. Speaker, I yield to the gentleman from Indiana [Mr. BURTON].

Mr. BURTON of Indiana. I thank the gentleman for yielding.

Mr. Speaker, I just take a moment here. I certainly am not going to object. I have seen virtually no results, as have, I think, any of my colleagues, coming from the budget summit. I would just like to take this opportunity to say that we formed a caucus about 3 or 4 weeks ago to see if we could reach a budget that would meet the requirements set forth by the budget summiteers. And we did do that without a tax increase.

We also provided a litany of $31 billion of possible substitute spending cuts if the budget summiteers did not find our budget acceptable, $31 billion in possible substitutes.

All I would like to say to those who are going to be involved in the budget summit in the future, we wish you would look at this proposal seriously because it reaches the targets that you have set, without a tax increase.

I have heard on television and in the news media, "You can't get there from here without a tax increase," and I am telling you we have a document that does that and gives you $31 billion in possible substitutes. So I hope the summiteers will look at least seriously at our proposal.

Mr. FRENZEL. Further reserving the right to object, Mr. Speaker, this is a resolution sponsored by the joint leadership and it has been supported, as our distinguished majority leader said, by the administration and by the named individuals within the administration. We know that it has been difficult for you. I think you are lucky you have not been on the inside like we have.

We think this will help the process.

Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER pro tempore (Mr. BONIOR). Is there objection to consideration of the resolution?

Mr. KOLBE. Mr. Speaker, I object.

The SPEAKER pro tempore. Objection is heard.

Mr. GEPHARDT. Mr. Speaker, I move the resolution.

The SPEAKER pro tempore. Unanimous consent is required for consideration of the concurrent resolution.

IN MEMORY OF MRS MARY PITTS

(Mr. MICHEL asked and was given permission to address the House for 1 minute.)

Mr. MICHEL. Mr. Speaker, I would like to proceed for the purpose of conveying to the membership a personal thought. Many Members have come to me during the course of this past week when they heard that the wife of one of our real fine professionals around here, Billy Pitts, had a massive brain hemorrhage a week ago tonight, and then 4 hours of surgery. She never recovered from a coma, and passed away today. There were those Members who, all through the week, have been expressing their sincere feelings for Billy and what he has been going through. Obviously, he has not been on the floor this past week.

However, he is just one of our most outstanding professional staff people around here. Members recognize it on both sides of the aisle. I want to thank all for having expressed those feelings that I have tried to convey to Billy as best I could during a very trying time for him. It says something about family and about community when both sides of the aisle feel so strongly about one of our own.

Mr. FOLEY. Mr. Speaker, will the gentleman yield?

Mr. MICHEL. I yield to our distinguished Speaker.

Mr. FOLEY. Mr. Speaker, as the distinguished Republican leader has said, all Members who know Billy Pitts and who admire his great professional work for the Republican side of the aisle. Actually, as all key and devoted staff assistants do for the full House, have been hoping that his wife would survive this terrible illness.

I think I speak for all Members on this side in asking Members to extend to him our very deepest sympathy.

REPORT ON RESOLUTION PROVIDING FOR CONSIDERATION OF H.R. 4739, NATIONAL DEFENSE AUTHORIZATION ACT, FISCAL YEAR 1991

Mr. MOAKLEY, from the Committee on Rules, submitted a privileged report (Rept. No. 101-668) on the resolution (H. Res. 457) providing for the consideration of the bill (H.R. 4739) to authorize appropriations for fiscal year 1991 for military functions of the Department of Defense and to prescribe military personnel levels for fiscal year 1991, and for other purposes, which was referred to the House Calendar and order to be printed.

WAIVING CERTAIN POINTS OF ORDER AGAINST CONFERENCE REPORT ON H.R. 1594, CUSTOMS AND TRADE ACT OF 1990, AND AGAINST CONSIDERATION OF CONFERENCE REPORT

Mr. MOAKLEY. Mr. Speaker, by direction of the Committee on Rules, I call up House Resolution 447 and ask for its immediate consideration.

The Clerk read the resolution, as follows:

H. RES. 447

Resolved, That upon adoption of this resolution it shall be in order to consider the conference report on the bill (H.R. 1594) the Customs and Trade Act of 1990, and all points of order against the conference

report and against its consideration are hereby waived. The conference report shall be considered as having been read when called up for consideration.

The SPEAKER pro tempore (Mr. BONIOR). The gentleman from Massachusetts [Mr. MOAKLEY] is recognized for 1 hour.

Mr. MOAKLEY. Mr. Speaker, for the purpose of debate only, I yield the customary 30 minutes to the gentleman from California [Mr. PASHAYAN], pending which I yield myself such time as I may consume.

Mr. Speaker, House Resolution 447 is a fair rule providing for the consideration of the conference report on H.R. 1594, the Customs and Trade Act of 1990. The rule waives all points of order against the conference report and against its consideration. When it is called up for consideration, the conference report will be considered as read.

Mr. Speaker, I would like to recount the history of H.R. 1594, a story that instructs us in the perils of the legislative process. Last fall, H.R. 1594 began as a simple 5-year extension of most-favored nation treatment to the products of Hungary. The House passed the bill with an amendment, reducing the extension from 5 to 3 years.

The Senate did not take up H.R. 1594 until after the amazing events of winter 1989 in Eastern Europe.

The other body dropped all mention of Hungary and turned this simple 2-page extension into a 106-page omnibus bill touching on the Caribbean Basin Initiative, customs user fees, timber export restrictions, and more than 100 changes in the tariff treatment of everything from field hockey gloves and karate pants to corned beef in airtight containers.

In March of this year, around the time the Senate took up H.R. 1594, Ways and Means reported H.R. 4328, the Trade, Customs and Trade Agencies Authorization Act. H.R. 4328 eventually made its way into the conference report before us, so I bring it up now.

H.R. 4328 changes House procedures through amendments to sections of the Trade Act of 1974. Because House procedure, whether contained in the rules of the House or enacted as statute, is in the jurisdiction of the Rules Committee, I have no doubt that H.R. 4328 should have been jointly referred. The initial referral of H.R. 4328 solely to the Ways and Means Committee was plainly erroneous. However, to accommodate the Ways and Means Committee in its request to proceed quickly on the Suspension Calendar, we did not pursue referral.

The procedural matter in H.R. 4328 as introduced and as reported simply made necessary technical changes to existing fast-track procedures. The simple conforming changes in the House bill were expanded, however, when it became part of the conference on H.R. 1594.

House and Senate conferees agreed, with no member of the Rules Committee included in the conference, to expand the changes to expedited procedures concerning certain trade matters. The Rules Committee was consulted as the issues were discussed and these changes are clearly necessary in the face of the Chadha decision. However, the need for change and the fact of consultation in no way defeats our jurisdictional claim.

In fact, the conference agreement now includes procedures that in effect apply to consideration of one specific measure, a joint resolution disapproving the extension of most-favored-nation status for China. There can be no question of our responsibility to fashion rules for specific bills. The clock for disapproval resolutions to take advantage of expedited procedures, set for 60 days, will start ticking upon enactment of the conference report.

The Committee on Rules, as a general proposition, opposes writing House procedure into statute. It is inappropriate and generally unwise. What distinguishes this body from the Senate, what enables the House to act, is the flexibility of the Rules Committee to fashion special orders for the consideration of major legislation.

Mr. Speaker, trade matters are clearly a special case. The Executive must have the assurance of fast-track procedures. We cannot ask the President, just after he has completed negotiations with other nations, to open up all the issues and begin bargaining with the Congress.

However, even on trade matters, any attempt to bypass and weaken the Rules Committee, in the end, weakens the House. Without a credible threat that the Rules Committee can suspend fast-track procedures and make in order amendments, the Executive would not need to consult Members nor take into account our concerns during negotiations.

Though the conference report contains matter clearly in the jurisdiction of the Rules Committee, we have no objection to its consideration.

Mr. Speaker, House Resolution 447 is the customary rule for consideration of a conference report. It is a fair rule and I urge its adoption.

Mr. PASHAYAN. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I want to commend the chairman and ranking Republican member of the Committee on Ways and Means, the gentleman from Illinois [Mr. ROSTENKOWSKI] and the gentleman from Texas [Mr. ARCHER] for their leadership in bringing this conference report to the floor.

If we shall ever eliminate the trade deficit in this Nation, we shall have to export more and import less. American workers are as able as any in the world, and, given proper incentives, they can produce quality goods in abundance. We need to do all we can to encourage the sale of American made products abroad.

Mr. Speaker, this conference report is an omnibus package of trade and tariff provisions that support the U.S. interest in trade. It includes reauthorization for U.S. trade agencies such as the U.S. Trade Representative, Customs, and the International Trade Commission. The conference report is also designed to promote the establishment of commercial links with former Communist countries.

In the Committee on Rules, Members representing both sides of the aisle supported this conference report and this rule to allow for its consideration. The distinguished chairman of the Committee on Rules, the gentleman from Massachusetts [Mr. MOAKLEY], has made extensive remarks about the provisions of this rule, and I wish to add my voice to his.

The chairman made a reference to the fact that the Committee on Rules was not included among the conferees on this legislation. Speaking only for myself, I would say I agree with him with respect to the Supreme Court's holding in the case, in re: Chadha, and I agree with him regarding the appointment of members to this conference.

Mr. Speaker, I reserve the balance of my time.

Mr. MOAKLEY. Mr. Speaker, for purposes of debate only, I yield 2 minutes to the gentleman from Oregon [Mr. DEFAZIO].

Mr. DEFAZIO. Mr. Speaker, I rise in strong support of the rule and particularly rise in support of one very important segment of this legislation.

Mr. Speaker, the people of Oregon have waited more than one-half of a century for this night. In the 1930's we planted and replanted vast tracks of land to provide forests for future generations of Oregonians. We never intended that these forests would become tree farms for the Japanese and others who have erected barriers against our finished wood products, yet greedily devour our logs.

Due to the decision in our courts, we were stripped of the right to control the disposition of our State's own resources. This act restores Oregon's right to keep their logs, their natural resources, and their jobs at home. Newly important in this bill is a section which will greatly tighten the loopholes in the current Federal law which restricts the export of logs off of Federal land. It has been more than a quarter of a century since the great Senator, the deceased Senator from Oregon, Wayne Morse, passed legislation to, first, restrict the export of logs

off Federal lands. It is appropriate tonight that we make permanent that provision of law, tighten those loopholes and defend the American people against the unfair traders on the Pacific Rim. I urge that everyone support this rule and support adoption of the legislation.

Mr. PASHAYAN. Mr. Speaker, I yield myself such time as I may consume to continue my remarks.

Mr. Speaker, the conference agreement amends provisions dealing with House procedures. Section 132, the technical amendments regarding nondiscriminatory trade agreement, changes the fast-track procedure by which Congress shall disapprove the President's extension of most-favored-nation status. The section would require enactment of a joint resolution rather than a concurrent resolution.

Mr. Speaker, Congress must adopt the joint resolution within 60 days after the waiver authority would have expired but for the President's action, and, if the President shall veto the measure, must override the veto within 60 days or within 15 days after the veto message is received, whichever is later.

The section also affects approval of bilateral commercial agreements and compliance reports.

Finally, the section specifies how a disapproval of the President's extention of MFN status for China would be handled. The date of enactment of this bill, not the date of the President's action, shall trigger the 60-day clock. The veto override shall be within 60 days.

Mr. MOAKLEY. Mr. Speaker, I yield 2 minutes to the gentlewoman from Washington [Mrs. UNSOELD].

Mrs. UNSOELD. Mr. Speaker, I rise jubilantly—even at this very late hour—in support of the rule and in support of the log export restrictions contained in the Customs and Trade Act. We in the Northwest delegations have spent untold hours working to save jobs by attempting to stop this hemorrhage of critically needed logs on their nonstop trip to Asia. Finally, we are moments away from doing just that.

Mr. Speaker, we have a crisis in the Northwest. Our timber-dependent communities are on the verge of collapse as we finally begin to pay the piper for years of overcutting on private lands. Most recently these communities have also been forced to bear the burden of dramatic harvest reductions on national forests in an effort to protect the spotted owl. These timber families need relief and here is an opportunity to provide them some.

In Washington, two-thirds of the timber harvested comes from private lands and much of that is exported as raw logs. In fact, last year 4 of every 10 logs cut in Washington were sent, unprocessed, to foreign sawmills which receive enormous Government subsidies. We have been relegated to the role of a colony—exporting raw materials and importing manufactured goods.

I do not seek an outright ban on private log exports, instead, I am a firm believer in using our tax system to encourage timber growers to process their timber domestically and manage their lands wisely. These low-elevation, private forests provide our hope for a sustainable timber industry and we must nurture them.

While this legislation is a step in the right direction, it is only a step. We still have miles to go before we provide relief for timber communities. Still, we've come a long way and tonight we can celebrate the saving of hundreds, if not thousands, of jobs.

Good work, Republicans and Democrats, free traders and fair traders, Washingtonians and Oregonians. Our bipartisan unity has paid off. It's been a pleasure working with you to see one of my longest held solutions for the timber communities finally become a reality.

□ 0010

Mr. PASHAYAN. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I certainly support this rule so the House can get on with the business of debating this conference report on the Customs and Trade Act of 1990.

Mr. Speaker, I have no requests for time, and I yield back the balance of my time.

Mr. MOAKLEY. Mr. Speaker, I yield back the balance of my time, and I move the previous question on the resolution.

The previous question was ordered.

The SPEAKER pro tempore. (Mr. BONIOR). The question is on the resolution.

The resolution was agreed to.

A motion to reconsider was laid on the table.

APPOINTMENT OF CONFEREES OF H.R. 987, TONGASS TIMBER REFORM ACT

Mr. MILLER of California. Mr. Speaker, I ask unanimous consent to take from the Speaker's table the bill (H.R. 987) to amend the Alaska National Interest Lands Conservation Act, to designate certain lands in the Tongass National Forest as wilderness, and for other purposes, with Senate amendments thereto, disagree to the Senate amendment, and request a conference with the Senate thereon.

The SPEAKER. Is there objection to the request of the gentleman from California? The Chair hears none, and appoints the following conferees, and without objection, reserves the right to appoint further conferees:

From the Committee on Interior and Insular Affairs, for consideration of the House bill, and the Senate amendment, and modifications committed to conference: Messrs. UDALL, MILLER of California, SHARP, MARKEY, RAHALL, VENTO, GEJDENSON, KOSTMAYER, YOUNG of Alaska, MARLENEE, CRAIG, RHODES, and ROBERT F. (BOB) SMITH.

From the Committee on Agriculture, for consideration of titles I, II, and IV of the House bill, and titles I and III and section 402 of the Senate amendment, and modifications committed to conference: Messrs. DE LA GARZA, VOLKMER, and MORRISON of Washington.

As additional conferee, for consideration of the House bill, and the Senate amendment, and modifications committed to conference: Mr. MRAZEK.

There was no objection.

APPOINTMENT OF ADDITIONAL CONFEREES ON S. 1630, CLEAN AIR ACT AMENDMENTS OF 1990

The SPEAKER. Under the authority reserved on June 28, 1990, the Chair makes the following additional appointments of conferees on the Senate bill (S. 1630) to amend the Clean Air Act to provide for attainment and maintenance of health protective national ambient air quality standards, and for other purposes.

Mr. TAUKE is appointed as a conferee from the panel from the Committee on Energy and Commerce for consideration of title II of the Senate bill, and title II of the House amendment, in lieu of Mr. BILIRAKIS.

Mr. OBERSTAR is appointed as a conferee from the second panel from the Committee on Public Works and Transportation for consideration of that portion of section 301 adding new section 112(n) to the Clean Air Act of the Senate bill, and that portion of section 301 adding a new section 112(n)(1) to the Clean Air Act of the House amendment, in lieu of Mr. ROE.

The third panel from the Committee on Ways and Means is appointed for consideration of that portion of section 401 of the House amendment adding a new section 402(b)(3) to the Clean Air Act.

Mr. COOPER is appointed as an additional conferee for consideration of section 715 of the House amendment and modifications committed to conference, in lieu of section 709.

Mr. HUGHES is appointed as a conferee from the panel from the Committee on Merchant Marine and Fisheries, in lieu of Mr. TAUZIN.

The Clerk will notify the Senate of the change in conferees and the additional appointments of conferees.

TOM MILLER DAM

Mr. MILLER of California. Mr. Speaker, I ask unanimous consent that

the Committee on Interior and Insular Affairs be discharged from further consideration of the bill (H.R. 4877) to redesignate the Austin Dam located near Austin, TX, as the "Tom Miller Dam" and ask for its immediate consideration.

The Clerk read the title of the bill.

The SPEAKER. Is there objection to the request of the gentleman from California?

Mr. YOUNG of Alaska. Mr. Speaker, reserving the right to object, will the gentleman explain the bill?

Mr. MILLER of California. Mr. Speaker, will the gentleman yield?

Mr. YOUNG of Alaska. I am happy to yield to the gentleman from California.

Mr. MILLER of California. Mr. Speaker, I will say that this bill redesignates the Austin Dam near Austin, TX, as the "Tom Miller Dam." I know of no controversy with respect to this proposal and urge its approval.

Mr. PICKLE. Mr. Speaker, will the gentleman yield?

Mr. YOUNG of Alaska. Further reserving the right to object, Mr. Speaker, I am happy to yield to my good friend, fearless leader, and great competitor, the gentleman from Texas.

Mr. PICKLE. Mr. Speaker, I rise in support of H.R. 4877, the measure which I introduced to redesignate the Austin Dam located near Austin, Texas, as the "Tom Miller Dam" in honor of the mayor of our city.

This dam has been known locally as the Tom Miller Dam since its construction in the late 1930's. The current structure stands on the same site where two previous dams had been built and destroyed. The first was destroyed in an April 7, 1890, storm that brought 5 inches of rain to the central Texas hill country in 15 hours. A second dam was later erected on the same site, but it was destroyed by two floods in 1915. For more than 20 years, the city did not try again to rebuild the Austin Dam. However, in 1936 Mayor Tim Miller initiated the drive to obtain funds for the construction of a third dam at this same location. Funds were made available primarily with the aid of then Congressman Lyndon Johnson, a close friend of Mayor Miller.

At the time of its dedication, the dam was named by the Austin Chamber of Commerce after Mayor Tom Miller for his part in the rebuilding project; however, the Federal Government does not normally approve of federally funded projects being named for living persons and denied the chamber's request. Thus, in Washington, the structure is recorded as "Austin Dam". Yet if you ask anyone in Austin, TX, the name of the dam, the answer would be "Tom Miller Dam."

The purpose of this legislation is to officially bestow upon this dam the name it has unofficially had since 1940, the "Tom Miller Dam." It is appropriate that one of the most important structures in Austin should bear the name of one of the city's most colorful leaders. Tom Miller was one of the city's greatest public servants, perhaps the greatest, and Austin owes much of its current prosperity to his judgment and foresight.

When the history of Austin is written, one of the brightest chapters will be dedicated to Tom Miller. Time cannot obscure the fact that he was truly one of Texas' great leaders, and I hope the Congress will recognize his contributions by acknowledging the designation of the Austin Dam as the "Tom Miller Dam."

Mr. YOUNG of Alaska. Mr. Speaker, with that fine explanation, I withdraw my reservation of objection.

The SPEAKER. Is there objection to the request of the gentleman from California?

There was no objection.

The Clerk read the bill, as follows:

H.R. 4877

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. REDESIGNATION.

The Austin Dam, located on the Colorado River near Austin Texas, shall be known and designated as the "Tom Miller Dam".

SEC. 2. REFERENCES.

Any reference in a law, map, regulation, document, paper, or other record of the United States to the dam referred to in section 1 shall be deemed to be a reference to the "Tom Miller Dam".

The bill was ordered to be engrossed and read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

REMOVAL OF NAME OF MEMBER AS COSPONSOR OF H.R. 4496

Mr. GEREN of Texas. Mr. Speaker, I ask unanimous consent that my name be removed from the list of cosponsors of H.R. 4496.

The SPEAKER pro tempore (Mr. BONIOR). Is there objection to the request of the gentleman from Texas?

There was no objection.

CONFERENCE REPORT ON H.R. 1594, CUSTOMS AND TRADE ACT OF 1990

Mr. ROSTENKOWSKI. Mr. Speaker, pursuant to House Resolution 447, I call up the conference report on the bill (H.R. 1594), to make miscellaneous and technical changes to various trade laws.

The Clerk read the title of the bill.

The SPEAKER pro tempore (Mr. MURTHA). Pursuant to House Resolution 447, the conference report is considered as having been read.

(For conference report and statement, see proceedings of the House of July 30, 1990, at page 20467.

The SPEAKER pro tempore. The gentleman from Illinois [Mr. ROSTENKOWSKI] will be recognized for 30 minutes and the gentleman from Texas [Mr. ARCHER] will be recognized for 30 minutes.

The Chair recognizes the gentleman from Illinois [Mr. ROSTENKOWSKI].

Mr. ROSTENKOWSKI. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in strong support of the conference report on H.R. 1594, the Customs and Trade Act of 1990. This conference report contains a number of very important trade provisions.

Included in this report is the Caribbean Basin Economic Recovery Expansion Act, which expands and makes permanent the existing CBI program in order to promote greater economic and political stability in this important region of our hemisphere. I want to commend Congressman JAKE PICKLE, the chairman of the Subcommittee on Oversight for his outstanding contributions in putting together these important improvements in the CBI legislation as well as significant provisions to improve our customs operation. Without his able leadership, we would not have been able to make such meaningful improvements in the program.

The conference report also provides the authorization of appropriations for a 2-year period for the major trade agencies—the U.S. Customs Service, the Office of the U.S. Trade Representative and the International Trade Commission. Further, it modifies existing customs user fees to bring them into compliance with our international obligations under the GATT.

Another important provision fixes the constitutional problem associated with the Jackson-Vanik procedures to insure a continued congressional role in decisions affecting the MFN status of nonmarket countries, such as China and the Soviet Union.

The conference report also contains a large number of miscellaneous tariff and customs provisions sponsored by many Members on both sides of the aisle to enhance the competitiveness of U.S. companies. Provisions are also included to authorize the President to proclaim nondiscriminatory tariff treatment for East German products, and to reauthorize the competitiveness policy council with certain technical changes.

The competitiveness policy council was initially authorized in 1988 as part of our omnibus trade legislation. Over the past several months, the appointing officials in the House and Senate have been working together to effectuate these joint appointments. It is my understanding that the speaker and the minority leader have agreed on their appointees and that the majority

and minority leader of the other body have also agreed on their appointees. Thus, the Congress is prepared to announce its appointees as soon as the President is ready with his four appointments. To that end, the conference report sets a new deadline for making all 12 appointments of 30 days after enactment.

Mr. Speaker, in the 2 years since we passed the omnibus trade law, the need for an institution like the competitiveness policy council has become even more apparent. The growing economic strength of the Japanese economy and the realization of a more unified European Community will intensify the economic challenges that American industry and American workers will face in the years ahead.

The competitiveness policy council will be a free-standing advisory group to the Congress and the President. It will be composed of representatives from business, labor, the Federal Government, State government, and academia. The council will have a broad mandate to explore all issues relating to competitiveness and will have the authority to set up subcouncils to deal with specific sectors or problem areas.

Mr. Speaker, the committee is hopeful that this important council can officially be launched in the near future. We look forward to receiving the council's future advice on how the United States can compete more effectively in an increasingly interdependent world.

Finally, title IV of this report contains provisions worked out with three other House committees to restrict the exportation of logs from the United States. These provisions are a tribute to the hard work and dedication of the Washington and Oregon delegations who have been working for a number of years to achieve this important conservation measure. I want to particularly command Congressman PETER DEFAZIO and Congresswoman JOLENE UNSOELD for their outstanding leadership on this important issue.

Mr. Speaker, this is important legislation. I urge my colleagues to vote in strong support of adopting the conference report on H.R. 1594.

Mr. ARCHER. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise today in support of the conference report. The bill is an omnibus package of tariff and trade provisions, along with a limited number of nontrade miscellaneous provisions. It is designed to improve United States competitiveness, conform our laws to our international obligations, help the Caribbean Basin countries, establish a better mechanism for approving trade agreements with nonmarket counties such as Czechoslovakia, and make a host of miscellaneous tariff changes.

Many of these provisions have been under consideration for almost two years, and I believe we have ironed out the major controversies and concerns. Yet, the importance of H.R. 1594 should not be overlooked. Particularly, the bill contains changes in existing law regarding approval of trade agreements with nonmarket economies and consideration of the Jackson-Vanik emigration waiver. The unconstitutional one-House veto provisions of existing law are corrected under this bill, and we should be able to move expeditiously to approve the long-awaited trade agreement between the United States and Czechoslovakia.

Among other important provisions of H.R. 1594 is new treatment of Customs user fees. In this bill, we have made a tremendous effort to conform these fees to our international obligations under the General Agreement on Tariffs and Trade [GATT] by tailoring them in such a way that they closely approximate the cost of services provided by Customs. I believe we have succeeded.

I am particularly pleased with the balance we achieved between the air courier industry and the customhouse brokers on informal entry user fees. Also, we succeeded in directing the attention of the Treasury Department to resolving the problem of goods damaged by Customs inspection. These provisions are especially important to the Port of Houston and other ports that are the hub of import-export activity.

Mr. Speaker, the administration strongly endorses passage of this omnibus legislation. I urge my colleagues to vote yes on the conference report to accompany H.R. 1594.

□ 0020

Mr. Speaker, I yield such time as he may consume to the gentleman from New York [Mr. GILMAN].

Mr. GILMAN. Mr. Speaker, as the ranking minority member on the House Commitee on Post Office and Civil Service, which has jurisdiction over the census, I rise in strong support of H.R. 1594.

H.R. 1594 as amended contains a provision added during conference that overrides the exclusion from unemployment compensation for Federal service with Census Bureau. The coverage eligibility for unemployment benefits for 1990 decennial census temporary workers was eliminated under the dire emergency supplemental.

In order to ascertain the emergency supplemental appropriations necessary to complete the 1990 census an administrative provision redirected the funds set aside for Census workers unemployment benefits.

Mr. Speaker, this was an unfortunate situation. It is unfair that the hard-working and dedicated Census employees were denied the benefits afforded their counterparts in previous census. The conference report for H.R. 1594 will rectify this unjust situation and reinstates unemployment benefits for Census workers.

I wish to thank the chairman, Mr. ROSTENKOWSKI and the vice chairman, Mr. ARCHER for their support. I urge my colleagues to join with me in supporting H.R. 1594 with this provision.

Mr. ROSTENKOWSKI. Mr. Speaker, I yield 3 minutes to the gentleman from Texas [Mr. PICKLE].

Mr. PICKLE. Mr. Speaker, the so-called minitrade bill under consideration by the House today includes provisions developed as a result of the Ways and Means Subcommittee on Oversight's investigations and hearings regarding, first, the operations of the U.S. Customs Service, and second, the use of section 936 funds in eligible CBI countries. I am pleased that many of the subcommittee's recommendations in these areas are included in the conference agreement before us today. I will briefly describe these matters.

H.R. 1594 contains important provisions intended to bolster and strengthen the Caribbean Basin Economic Recovery Act. This legislation, commonly referred to as the Caribbean Basin Initiative, or CBI, reflected a commitment to the small nations that are among America's closest neighbors—a commitment to the improvement of the economies of these nations by increased market access to the United States. To this end, the CBI legislation contained significant trade benefits for Caribbean and Central American countries, foremost of which was temporary duty-free treatment for many products from Caribbean Basin countries.

Unfortunately, there were many exceptions to duty-free treatment; many products produced in the CBI region remained dutiable. As originally introduced, the CBI provisions included in today's conference agreement would have strengthened the original CBI legislation, providing for duty-free or duty-reduced treatment for more products. These provisions have been watered down, however. While helpful, they simply do not provide the kind of strong support for the CBI region that I would have liked to have seen. At least the CBI duty reductions have been made permanent. And now that investors can feel secure about the permanence of duty-free status for goods produced in the CBI region, hopefully, we will see more investment there.

A second step in helping the CBI region was taken in 1986 when Congress passed the Tax Reform Act. As part of tax reform, Congress amended section 936 of the Internal Revenue Code. This section allows U.S. companies operating in Puerto Rico, usually referred to as section 936 corporations, to avoid U.S. taxes on the operating profits they earn there. They can also deposit their profits in a Puerto Rican bank or otherwise invest them in Puerto Rico, and earn tax-free income from these investments. Right now, section 936 corporations have between

$10 and $15 billion in these so-called 936 funds invested in Puerto Rico.

When tax reform proposals were first being bandied about, the Treasury Department had proposed to repeal section 936 and replace it with a wage credit. Treasury felt that section 936 was an inefficient way to stimulate employment in Puerto Rico. Indeed, a report by the Treasury Department just last year showed that, on an average, the United States loses $125 in tax revenues for every $100 paid in salary by section 936 corporations. In response to Treasury's proposed repeal, the Government of Puerto Rico submitted its own proposal. Under Puerto Rico's proposal, Congress would leave section 936 intact, and the Government of Puerto Rico would guarantee new investments of $100 million annually in the CBI region, through loans of section 936 funds. Section 936 thus became another vehicle to achieve the policies underlying the Caribbean Basin Initiative.

To implement the Puerto Rican proposal, Congress amended section 936 to allow banks in Puerto Rico holding 936 funds to make loans of these funds to other CBI countries for investments in active business assets and development projects. Prior to 1986, these funds could be invested only in Puerto Rico. The interest rate charged for these loans is favorable—generally one to two percentage points below the going rate—and it was hoped that these loans would stimulate investment and employment in the CBI region.

The loan program was slow to get off the ground. At a hearing held by the Ways and Means Oversight Subcommittee in April, we found that during the first 3 years following passage of the Tax Reform Act, only about $80 million in low-interest loans were made in the CBI region. To increase use of section 936 funds in the CBI region, the conference agreement under consideration today provides that the Government of Puerto Rico shall take all necessary steps to ensure that at least $100 million in new investments of 936 funds are made each year in the CBI region.

With the most highly developed economy in the Caribbean, Puerto Rico has both the expertise and experience to facilitate development of the economies in other Caribbean nations. Inclusion of this provision relating to section 936 with the other CBI provisions indicates that Congress views section 936 funds as a crucial component of our Caribbean policy. It reflects the importance that Congress attaches to the use of section 936 for business investments and development projects throughout the CBI region. I believe that the use of these section 936 funds outside of Puerto Rico will not adversely affect the Puerto Rican economy. The $100 million of required annual investment in the Caribbean region represents less than one percent of the section 936 funds on deposit in Puerto Rico.

Also, this bill implements several of the recommendations contained in the Subcommittee on Oversight's report on abuses and mismanagement in U.S. Customs Service commercial operations. The subcommittee's report was the result of a much overdue thorough 2-year investigation. Before the subcommittee's investigation, it had been more than 10 years since any congressional committee had performed a comprehensive review of Customs operations.

One of the subcommittee's recommendations which is implemented by this bill is the establishment of a funding floor for Customs commercial operations. This floor is needed to ensure adequate funding for commercial operations and to address day-to-day pressures on Customs to divert funds from commercial to noncommercial programs.

The bill also implements the Subcommittee on Oversight's recommendation to require Customs to develop a nationwide threat assessment and to establish a uniform enforcement strategy to meet that threat. The subcommittee included this recommendation in its report because it determined that Customs current decentralized, nonuniform enforcement strategy encourages importers to forum shop by picking one port of entry, where the likelihood of examination might be low, over another, where the likelihood might be higher.

The bill also requires a study and report on: First, airline passenger preclearance programs, and second, the need for compensation to importers for merchandise damaged by Customs during examinations. The bill also implements the Subcommittee on Oversight's recommendation to establish increased accounting and reporting requirements for the Customs forfeiture fund.

Mr. Speaker, I strongly urge the House to adopt this conference agreement.

Mr. SCHULZE. Mr. Speaker, will the gentleman yield?

Mr. PICKLE. I yield to the gentleman from Pennsylvania.

Mr. SCHULZE. Mr. Speaker, I would like to take a moment to commend the gentleman from Texas [Mr. PICKLE] on the action on section 936. I think it is an important step in the right direction. We will have many benefits throughout the Caribbean Basin. The hard work and dedication of the gentleman is very much appreciated. It will lead to many benefits.

Mr. PICKLE. Mr. Speaker, reclaiming my time, I appreciate the remarks of the gentleman, and I want to extend the same compliments to him for his cooperation.

Mr. ROSTENKOWSKI. Mr. Speaker, I yield 1 minute to the gentleman from Illinois [Mr. BRUCE].

Mr. BRUCE. Mr. Speaker, I thank the gentleman from Illinois [Mr. ROSTENKOWSKI] for yielding. A little more than 14 years ago an error was made when a redraft was made of our Trade Act and the words "of broom corn" were inadvertently removed.

I thank the conferees, the minority members, and the chairman, for reinstating those three little words. It means 1,000 jobs in central Illinois. It means 15,000 jobs in the State of Illinois totally for the suppliers of both the wood for the handles, the wire, and the boxing. I appreciate the chairman's concern over a 14-month period to watch that these words were reinstated and this particular problem for central Illinois was resolved.

Mr. Speaker, I rise in support of the conference.

Mr. ARCHER. Mr. Speaker, I yield 2 minutes to the respected gentleman from Minnesota [Mr. FRENZEL], a member of the Committee on Ways and Means.

Mr. FRENZEL. Mr. Speaker, the chairman and vice chairman of the Committee on Ways and Means have described the bill accurately.

It does have a couple of hundred duty suspension bills sponsored by probably one-third of the House, and has been lying around since it fell on the cutting room floor during the last reconciliation bill.

It has been resurrected, built around the Caribbean Basin Initiative, which has been the good work of many members of the committee, including the distinguished gentleman from Texas [Mr. PICKLE], the gentleman from Florida [Mr. GIBBONS], the gentleman from New Jersey [Mr. GUARINI], and the gentleman from Pennsylvania [Mr. SCHULZE], who have worked particularly hard on it.

Mr. Speaker, it is not all the House wanted for the Caribbean Basin, but it is an improvement over the existing program and an extension. We would hope we could do better with the other body, and we hope we will do better in the future.

All things considered, it is a splendid bill for the House of Representatives, and should be voted up immediately.

Mr. ROSTENKOWSKI. Mr. Speaker, I yield such time as he may consume to the gentleman from Florida [Mr. GIBBONS], the distinguished chairman of the Subcommittee on Trade of the Committee on Ways and Means.

Mr. GIBBONS. Mr. Speaker, this is a really unusual bill, and it may be the last bill ever introduced here in Congress of the gentleman from Minnesota [Mr. FRENZEL]. We ought to pay

tribute to the gentleman from Minnesota [Mr. FRENZEL] for his illustrative career here in Congress, particularly his work in trade and on the budget.

I have had the privilege of working with the gentleman ever since he came here, and I want to tell Members I am mightily impressed with his ability and his integrity. He really cannot help that he and I introduced this bill about 2 years ago. We did not know it was just going to be as popular as it is. It ended up being the spotted owl bill and the trade reorganization bill. It has got 200 or 300 special tariff measures in there. It has got broom corns in there and everything else.

I would say to the gentleman from Minnesota [Mr. FRENZEL], as long as you live, you have left a mark here that far surpasses this bill and your work in this Congress. I want to honor you, salute you, and thank you very much.

Mr. ARCHER. Mr. Speaker, I yield 3 minutes to the gentleman from Pennsylvania [Mr. SCHULZE], a distinguished member of the Committee on Ways and Means.

Mr. SCHULZE. Mr. Speaker, the conference report on H.R. 1594 now before us represents 2 years of diligent efforts to bring a wide range of important trade issues forward in this omnibus package.

Contained in the package are provisions authorizing appropriations for certain trade agencies, amending customs user fees to bring them into compliance with our international obligations, expanding tariff and other benefits for the Caribbean Basin, enhancing trade with Czechoslovakia and East Germany, and providing numerous miscellaneous tariff changes and reclassifications. I believe the sum of these changes will be beneficial to United States trade policy objectives, improve our competitive position in world trade, and lend our support to struggling democracies both nearby and far from our shores.

I would also like to focus on the significant improvements we achieved in the customs area. Specifically, H.R. 1594, as amended, contains several provisions that respond to the findings of the Ways and Means Oversight Subcommittee's 2-year investigation of Customs commercial operations.

First, section 102 of the conference agreement contains, for the first time, a funding floor for Customs commercial operations, as well as a ceiling on noncommercial spending. The Oversight Subcommittee found that Customs was tempted to shift funding for essential commercial services over to its more glamorous drug enforcement activities. The subcommittee strongly felt that both types of activities needed to be fully funded. In addition to the funding floor, section 102 does that by providing for a 12-percent increase in funding for all Customs salaries and related expenses.

Second, provisions in section 121 of the conference agreement, which I have sponsored for over 2 years now, make needed improvements to the Customs Asset Forfeiture Program. As many of you know, Customs and its former contractor, Northrop, found a way to actually lose money while disposing of forfeited property from drug runners and other violators of our trade laws. Section 121 creates a strong, new requirement for audited financial statements for the Customs Forfeiture Fund. Now, we will have firm evidence of whether Customs is managing this important law enforcement program wisely.

In addition, section 122 increases the dollar limitation on forfeiture cases eligible for administrative forfeiture, from $100,000 to $500,000. Currently, many uncontested cases must still go through a lengthy judicial review process. This provision allows use of a shorter, less costly, administrative review process. The new authority still protects due process rights, since it applies to uncontested cases only.

This section also imposes strict new reporting requirements on the processing of seized cash. We found that it can literally take years for Customs to deposit seized cash. Since almost 90 percent of Customs seizures, by value, involve cash, substantial amounts of interest can be made by getting the money into the governments coffers more quickly.

Mr. Speaker, H.R. 1594, as amended, implements several other Oversight Subcommittee recommendations. Section 111(c) of the conference agreement allows surplus passenger and vehicle fees—COBRA—to be used to expand passenger clearance services. While I agree that international flights should not be denied because of a lack of Customs inspectors, I have concerns that Customs may play games with spending of the dedicated head tax revenues. That is why I sponsored language to ensure that surplus spending is reviewed by OMB through the apportionment process.

Last, section 124 requires Treasury to develop legislative recommendations for compensating importers when merchandise is damaged in Customs examinations. We found that there is currently no recourse for a legitimate importer when Customs run a chain saw through his merchandise. I look forward to Treasury's proposals for solving this dilemma.

In conclusion, Chairmen ROSTENKOWSKI and GIBBONS are to be commended for their leadership on this legislation and the trade area in general, and I urge Members to vote "yes" on the conference report for H.R. 1594.

Mr. ROSTENKOWSKI. Mr. Speaker, I yield 2 minutes to the gentleman from Washington [Mr. DICKS].

Mr. DICKS. Mr. Speaker, I want to thank the gentleman from Illinois [Mr. ROSTENKOWSKI], the chairman of the Committee on Ways and Means, for his outstanding cooperation, and I would like to take this opportunity to engage in a colloquy with the gentleman.

Mr. Speaker, title VI of this bill deals with the export of unprocessed timber from all public lands in the United States west of the 100th meridian. In exercising Federal control of trade policy, Congress, by enacting this legislation, is making permanent an annual ban on the export of unprocessed timber from Federal lands. In addition, Congress is directing the Secretary of Commerce to order restrictions on the export of such timber from all other public lands.

Does the chairman understand that we have made a distinction between Federal and State ownership of unprocessed timber? As the national legislative body, we have directed Federal agencies with jurisdiction in this matter to issue regulations for the administration of the Federal ban. However, because States own and manage timber on their own lands we have directed them to implement the export restrictions on the State level.

Further, it is the understanding of the Washington and Oregon delegations that title IV grants the Governors rulemaking authority to the extent necessary to ensure that the intent of the title to maximize the availability of unprocessed timber to domestic processor is met. Does the chairman concur that this construction reflects legislative intent?

Mr. ROSTENKOWSKI. Mr. Speaker, if the genleman will yield, yes, that is my understanding of the language.

Mr. DICKS. Mr. Speaker, there is no disagreement that the general purpose of the log export provisions is to maximize the availability of unprocessed timber for forest products manufacturing, and that this action is taken in consistency with our trade laws and agreements.

Further, it is my understanding that the language provides broad general authority and in no way limits the scope of actions that might be considered by the Governors to accomplish this purpose, including, should they be deemed necessary by a Governor, regulations to control the practice of direct and/or indirect substitution of unprocessed timber from non-federal public lands.

Mr. Speaker, in the gentleman's view, is that a proper interpretation of the intent and scope of this language?

Mr. ROSTENKOWSKI. Yes, that is my understanding of the language.

Mr. DICKS. Is it also the gentleman's understanding that the Governors are authorized to enforce such regulations as they might issue?

Mr. ROSTENKOWSKI. That is also my understanding of the language.

□ 0030

Mr. ARCHER. Mr. Speaker, I yield 2 minutes to the gentleman from Washington [Mr. CHANDLER], a member of the committee.

Mr. CHANDLER. Mr. Speaker, I would like to commend my colleagues who served on the trade bill conference committee. Their hard work has resulted in a measure which provides the U.S. Customs Service with the tools it needs to better enforce U.S. trade and narcotics laws at our borders, offers us the opportunity to establish normal trading relations with Eastern Europe and other non-market economy countries to which we have not extended most-favored-nation status and will help to maintain the economic viability of the northwest timber industry.

The Customs and Trade Act of 1990 will authorize an increase of 12 percent in the U.S. Customs Service personnel expenses for fiscal year 1991. Such an increase would allow customs to hire additional staff which is badly needed throughout the country.

The problem areas of particular concern to me are the westernmost border crossings between Canada and Washington State. Traffic volume has increased over 50 percent in the past 5 years, resulting in delays of sometimes 4 hours to some travelers. During this same time, Customs staffing has been reduced. It is my hope that the Commissioner of Customs will heed the recommendation contained in the House report accompanying this bill and hire additional permanent staff at the Blaine and Sumas ports of entry. The report also encourages Customs to make every effort to utilize part-time personnel at these crossings in the interim.

This bill will also initiate action to correct several problems uncovered by the Ways and Means Oversight Subcommittee in its investigation of the U.S. Customs Service commercial operations. Most importantly, the measure requires customs to assess the likelihood of violations of trade, narcotics and other laws in selecting cargo for inspection. I am very concerned that such a strategy is not yet in place at our borders.

There is legitimate concern that one port of entry could be more attractive to shippers because a customs inspection is less likely. Furthermore, there is little relationship between ports as to what cargo is selected and why. These discrepancies leave our country more vulnerable to the entry of drugs and other illegal cargo at ports with less stringent inspection procedures.

The measure requires the customs service to develop a uniform, nationwide enforcement strategy which would allow them to determine which cargo should be selected for inspection based on its potential threat. I would like to commend Oversight Subcommittee Chairman JAKE PICKLE for leading this effort and Trade Subcommittee Chairman SAM GIBBONS for acting so expeditiously to correct this deficiency.

Another problem addressed by H.R. 1594 is one that is oftentimes faced by importers. If the goods in a shipment are damaged during the course of Customs's inspection, an importer does not have any recourse to recover his loss. An antique dealer in Redmond, WA sent me photographs of the damage to a shipment of imported antiques which occurred during an inspection conducted by customs. His business suffered a $3,000 loss in damages alone. It is an outrage that my constituent has no available remedy to seek reimbursement.

I would also like to commend the conferees for reaching agreement on the changes made to the 1974 Jackson-Vanik amendment to bring it in line with the 1983 Supreme Court Chadha decision. The dramatic changes that have occurred in Eastern Europe give their people a renewed hope for freedom and democracy. As soon as we have complete assurance that a fair and free emigration policy is in place in these countries, we need to negotiate a trade agreement with them. I am pleased that now a ratification method is in place so that we may proceed with establishing commercial agreements with countries at or near compliance with Jackson-Vanik freedom of emigration requirements.

Finally, I would like to comment on a section of H.R. 1594 which is of special importance to the Pacific Northwest.

Under the bill, current yearly bans on exports of Federal timber will be made permanent. Direct substitution quotas will be phased out. Indirect Federal timber substitution practices will be limited to less than half of what is presently reported. Strict reporting requirements will be mandated. The bill will further prohibit the export of unprocessed State timber in States with harvests below 400 million board feet [MBF]. For States with harvest levels greater than 400 MBF, 75 percent of the volume would be prohibited from export. Procedures are established for increasing this percentage over the next 4 years. In addition, State substitution guidelines are written into the legislation.

Agreeing on language to limit the export of State and Federal timber was no small undertaking. Log exports have been perhaps the single most divisive issue faced by members of the Washington and Oregon congressional delegations in the last 10 years. Those of us who cosponsored the DeFazio bill several years ago, have not always had respect for our position. With all members from the two delegations working together in a spirit of nonpartisanship, a compromise bill was achieved, but only after serious environmental and employment considerations, led us to take the path we did.

I am therefore proud of my colleagues from the Pacific Northwest for the huge number of hours shared over the past half year in reaching agreement. We approached the complex issue from different constituencies—urban, suburban, and rural timber dependent communities—and from widely differing political perspectives. Environmentals and loggers both value public forests, but not for the same reasons. Even the industry was divided over the export ban. The final product, drafted by members representing these constituencies, represented these differences.

During the deliberations, some argued that a limit on the export of State and Federal timber was neither economically desirable or properly legislated. In the final result, this argument was rejected. Some will continue to lobby for a ban on the export of private logs as well. I disagree with both positions. It clearly is in the interest of the Federal Government to limit the export of a public resource in time of a crisis in supply. However, the restriction of private log exports would have serious trade and economic consequences for the region, and would be a very drastic measure.

In my view, there are strong arguments to limit the export of unprocessed timber from Federal and State lands. Over time, this measure will assist workers and timber communities very dependent on the public forest resource. It will ensure that substantially more public timber stays at home to be run through domestic mills if and when exported, the product will then have the added higher value as cut lumber. Timber industry employment, so dependent on adequate supply will be assisted. Our international trading posture is enhanced when we export refined versus raw products.

A log export limitation will further aid those small timber mills most dependent on public timber and heavily impacted by environmental impacts such as the listing of the northern spotted owl as a threatened species. It will help mitigate, but by no means solve, the coming serious impacts of reduced timber supply. Nowhere will these impacts be felt more than in the small town with the single sawmill dependent on Federal or State timber.

One person in particular deserves credit for his year's of work supporting limitations on public log exports. Gus Kuehne, president of the North-

west Independent Forest Manufacturers [NIFM] was the leader in arguing for an export ban even when the issue was not very popular in his own industry. Without his tireless efforts to convince people that we simply do not have enough public timber to run mills both here and abroad. This bill would not have been a reality. I commend his efforts.

I would further like to thank the chairman and members of the Ways and Means Committee for their support in recognizing the region's unique resource needs in supporting this compromise bill.

I urge my colleagues to support this important measure.

Mr. ROSTENKOWSKI. Mr. Speaker, I yield 1 minute to the gentleman from Oregon [Mr. AUCOIN].

Mr. AUCOIN. Mr. Speaker, in the Northwest we are short on logs, and it is because of listing of the spotted owl, as my colleagues from the Northwest have indicated. Because we are short on logs, mills are being idled. That means massive unemployment.

I just want to thank the chairman of the Ways and Means Committee and the ranking Republican and all of the members of the Ways and Means Committee who helped us draft a feature of this bill which permits a restriction on log exports so that we can keep those logs here at home and put them through American mills and keep Americans in the Northwest employed to a greater degree than they would be before.

I also want to thank the members of the Agriculture Committee, the Interior and Insular Affairs Committee and the Foreign Affairs Committee. Each of those committees had jurisdiction here, and without their cooperation this agreement, this provision would not be possible and those mill workers and their families who depend on the woods and the mills for their livelihood would not be benefited by this provision tonight.

Mr. ARCHER. Mr. Speaker, I yield 2 minutes to the gentleman from Washington [Mr. MILLER].

Mr. MILLER of Washington. Mr. Speaker, I thank the gentleman for yielding time to me.

Mr. Speaker, I rise to support the conference report on H.R. 1594 and particularly title IV, which restricts the export of unprocessed logs from State lands.

This amendment was dubbed the Miller amendment in the Foreign Affairs Committee, but it is a product of true nonpartisan work by my colleagues from Washington and Oregon. As a member of the Foreign Affairs Committee, I was the messenger who brought this package first to the Foreign Affairs Committee and then to the floor of the House as amendments to H.R. 4653, the Export Facilitation Act and now to the conference report on H.R. 1594.

In developing this bill, my colleagues from Washington and Oregon were acutely aware of the potential for a shortage of timber brought about by the listing of the northern spotted owl. To protect this owl, we will need to preserve thousands of acres of old growth timber. Most of the ancient forests being preserved are on Federal lands.

This package, Mr. Speaker, accomplishes four goals. First, it replaces some of the timber being removed from domestic harvesting with timber which would have been exported. Second, it allows some exports of timber to continue. This enables our forest products industry to continue to build new markets for our finished lumber exports in Asia. Third, by reaching this balance, we preserve some of the jobs which might have been lost. Finally, because this bill is GATT compatible, other exporters won't have to worry about losing their jobs should another country consider retaliating.

This is a good balance. Like everyone, I am not happy with every dotted "i" or crossed "t", but I am confident that this part of the conference report on H.R. 1594 does what it set out to do—reduce the anticipated shortage of timber facing Northwest mills in an environmentally responsible way without violating our trade laws.

I urge my colleagues to support the conference report.

Mr. ARCHER. Mr. Speaker, I yield 30 seconds to the gentleman from Washington [Mr. MORRISON].

Mr. MORRISON of Washington. Mr. Speaker, I rise in support of the conference report and want to pay special tribute to the Agriculture Committee, the Interior and Insular Affairs Committee and the Foreign Affairs Committee, and all who worked out the log export package that those of us in the Northwest bring so proudly to you this evening, and the Ways and Means Committee, and Chairman ROSTENKOWSKI, for putting the package all together.

Mr. ARCHER. Mr. Speaker, I yield 1 minute to the gentleman from New York [Mr. SOLOMON].

Mr. SOLOMON. Mr. Speaker, I thank the gentleman for yielding time to me.

Mr. Speaker, if I could have the attention of Chairman ROSTENKOWSKI for one moment, the chairman and I had a colloquy in the Rules Committee when I came before our committee earlier. I just want to have the gentleman repeat what he told me about those of us like myself, RICHARD SCHULZE, NANCY PELOSI, and ED MARKEY, and our resolution of disapproval on the most-favored-nation status to China. How does this legislation affect this bill?

Mr. ROSTENKOWSKI. Mr. Speaker, will the gentleman yield?

Mr. SOLOMON. I yield to the gentleman from Illinois.

Mr. ROSTENKOWSKI. Mr. Speaker, as I explained to the gentleman in the Rules Committee, all Members who are concerned and who have introduced legislation will be notified that they should reintroduce immediately upon our return in September so that we can start counting the days from the date of their introduction.

Mr. SOLOMON. So this does allow that?

Mr. ROSTENKOWSKI. The gentleman is correct.

Mr. SOLOMON. I just point out to my colleagues that the Iraqui tanks that rolled into Kuwait the other day were two T-59s and two T-69 main battle tanks sold to them from the People's Republic of China. We ought to keep that in mind when most favored nation comes up.

Mr. CRAIG. Mr. Speaker, I rise today to express my support for the log export provisions contained in the conference report on H.R. 1594, the Customs and Trade Act of 1990.

I am pleased to have served on the conference committee which hammered out those provisions.

I and other members of the Northwest congressional delegation have worked long and hard to restore stability to the timber supply situation by passing legislation which would give States and localities control over timber harvested on their lands.

Although I would have preferred a law that gives the States the authority to choose their own policies on log exports, this bill is much better than the current system. It helps maintain our critical timber supply for local mills and keep jobs at home.

During conference deliberations, I fought successfully for a provision to make permanent the ban on export of raw logs from Federal lands. I also pushed to include language that stops the direct and indirect substitution of unprocessed timber from Federal lands for unprocessed timber exported from private lands.

Foreign interests have been enjoying the economic and employment benefits of Idaho's timber resources, while our local mills go wanting for raw materials. This is happening at our expense. They are selling off our raw logs and our processing jobs at the same time.

I believe in the ability of free markets to allocate scarce resources. But unfortunately, tariff and nontariff controls placed on processed timber by some countries have skewed the market forces threatening our timber supply.

Mr. Speaker, this measure will help counteract the current imbalance and help bring stability back to the timber industries of Idaho and the Pacific Northwest. I urge my colleagues to join me in supporting it.

Mr. VENTO. Mr. Speaker, I rise in support of the conference committee report before the House. One title of this bill, title IV, contains an expanded and improved provision, which bars the export of timber from Federal lands.

Over the years the initial intent of this law has been frustrated and the consequences have resulted in loophole after loophole through which billions of board feet of timber have found their way to the Pacific Rim nations for processing.

Often the Federal timber was used as a substitute for State or private timber destined for such trade purpose, really a thinly guised means to circumvent the intent of the U.S. law and policy.

With the reduced cut of timber in the Pacific Northwest resulting from the depletion of the old growth timber supply and environmental ruling of longstanding multiple use sustained yield policy, the National Environmental Policy Act, Water and the Endangered Species Act, more efficient manufacture and timber techniques, reduction in jobs and employment conditions has grown at a steady pace. As the shrinking supply of high-quality old-growth timber evolves the economic impact will continue to challenge the Congress and public policy to be responsive. This conference committee report on reforming and strengthening the limits on log export is a major step to help soften the impact, new timber definitions, new authority for land managers, and the recognition of States rights to act in limiting log exports with a carefully crafted role, tempered by the Presidential action consistent with international treaties, all point to renewed hope at a critical point to make the log export ban from Federal land work for the 1990's.

Significant work by the Congress awaits the Members as we return in September, dealing with new policy and initiative concerning the old-growth ecosystem of the Pacific Northwest. With a good faith effort I am cautiously optimistic that we will be able to provide a long-term answer to this matter of acute interest to the Northwest and our Nation. This measure of log exports is a key piece of the puzzle and as chairman of a subcommittee that tackled the issue and working on the conference, I'm pleased we have a result.

Mr. Speaker, the members of my subcommittee, Mr. DEFAZIO of Oregon, who did an outstanding job on this issue, assisted by Mr. MCDERMOTT of Washington and Mr. WILLIAMS of Montana. The cooperation of the Washington and Oregon delegations was key to this issue on timber export, especially the new Member from Washington, Mrs. UNSOELD, truly a talented, dedicated worker and advocate for her constituents. My thanks to my colleagues.

Mr. CRANE. Mr. Speaker, I rise today in support of H.R. 1594, the Customs and Trade Act of 1990 conference report which was finalized in a Senate-House conference that concluded several days ago. H.R. 594 will maintain the functioning of U.S. trade agencies, enable us to ratify recently concluded trade agreements with Eastern European countries, suspend certain tariffs, and generally facilitate further international trade growth for the United States. Most importantly, H.R. 1594 will enhance the present benefits under the Caribbean Basin Initiative.

As you will recall, the original CBI bill, which was proposed by President Reagan in 1982, extended several trade and tax benefits to the eligible countries in the Caribbean and Central America. The Caribbean Basin Initiative has been extremely successful in promoting economic diversification, consequently, there has been a rapid increase in nontraditional exports as well as a decrease in the rate of unemployment in the region. H.R. 1594 will ensure that this progress continues.

The most important provision in this bill removes the 12-year time limit of the CBI program, and allows it to continue indefinitely. This will eliminate any uncertainty on the part of the business and investment community as to the degree of the United States commitment to the Caribbean Basin.

Additionally, several measures in the report will enable U.S. trade policy to react to change in the international environment, and respond to our international trade agreement obligations.

For example, the changes to the formulation of the Customs user fees were required because the United States was found to be in breach of the General Agreement on Tariffs and Trade [GATT] on this issue. The resulting compromise combines an ad valorem rate with a cap on maximum charges, and a separate fee structure for couriers and brokers, so that the fee parallels actual costs incurred by Customs in providing certain designated services.

Another trade policy revision of note is a rectifying amendment for the procedures under Jackson-Vanik. Without this fix, the United States would continue to fall far behind other countries in the establishment of commercial links with former Communist countries. The conference recommends changes that recognize the Chadha Supreme Court ruling by requiring joint resolutions, to be passed by both Houses and signed by the President, that would govern approval and disapproval resolutions for granting most favored nation [MFN] trade status to eligible countries.

Czechoslovakia can now expect early consideration by Congress of its trade agreement, and will soon achieve MFN status together with other countries.

Other measures in this conference report that I know my fellow Members will agree are beneficial to U.S. business are the series of tariff suspensions. These will enable cheaper inputs for U.S. industry, and will keep business prospering in the United States instead of moving offshore for lower cost alternatives.

Last, but not least, I commend the provisions reauthorizing each of the trade agencies for the next year. To keep United States business interests foremost internationally, we rely on these agencies to carry out our trade policy and enforce United States trade laws. With the Uruguay round of multilateral trade negotiations rapidly approaching conclusion, it is essential that our trade agencies be adequately funded.

I recommend that Congress agree to this package as expeditiously as possible because of the delays associated with its passage thus far.

We originally approved most of this package last year when the tariff provisions were passed in the budget reconciliation bill, only to have all the trade provisions pared off at the end in conference. This package represents a consensus of interests, and I believe that my fellow conferees and the administration all look forward to its early implementation.

Mr. Speaker, I call on my colleagues to support this conference report, and I yield back the balance of my time.

Mr. SAWYER. Mr. Speaker, I want to draw the attention of my colleagues to a provision in the conference report that concerns the 1990 census.

The provision—found in section 141 of the conference agreement—in practical terms restores unemployment compensation benefits to all temporary census workers.

Many of you have contacted me in recent weeks to express concerns about a provision in the Supplemental Appropriations Act of 1990 that precluded the Census Bureau from reimbursing States for unemployment benefits based on temporary census work performed after April 20, 1990.

Because of that provision, many hardworking, dedicated census workers were surprised to find that they could not receive unemployment compensation benefits for their census work.

We now have the opportunity to restore those benefits to all census workers who qualify under State law.

The original provision was adopted to ensure that the Census Bureau would have enough money to carry out essential counting activities and submit census counts to the President by December 31 of this year.

I respectfully urge the Appropriations Committees to ensure that the Bureau has sufficient funds in fiscal year 1991 to carry out the enormously important coverage evaluation and data publication activities.

Ms. SLAUGHTER of New York. Mr. Speaker, I rise today in support of H.R. 1594, and to comment on a provision within this legislation which will temporarily suspend import tariffs on frozen beans and whole kernel corn. This measure is a direct result of a 1989 natural disaster in western New York, and will help a domestic producer overcome tough times and maintain productive markets.

In the spring of last year heavy rains and low temperatures so drastically reduced farm production in western New York that several counties including Monroe and Genesee were declared State disaster areas. The bad weather also adversely affected the Curtice Burns Food Co. which is the principal food processor for the Pro-Fac Cooperative, an 800 member farm cooperative in Rochester. Last year, when local farmers fell short in meeting harvest projections, Curtice Burns was forced to purchase bean and corn at unfavorably high prices from foreign markets.

Section 1709 of H.R. 1594, when enacted, will allow for a temporary duty-free entry of these emergency shipments of certain frozen vegetables to compensate for the farmers' cooperative. This is a one-time duty suspension. It is effective for a 4-month period, between December 31, 1989 to May 1, 1990, and will temporarily suspend import tariffs on frozen cut beans and frozen cut whole kernel sweet corn.

Farmers in the 30th District depend on Curtice Burns to purchase their crops. By suspending these tariffs—which are estimated to amount to $655,000—Curtice Burns will be able to maintain production levels and continue purchasing local produce. Consumers of

the Northeast will also benefit from this action since it will help make sure that quality local produce at reasonable prices continue to be available at grocery stores.

Finally, this legislation is important because it demonstrates our support for domestic producers of agriculture and other products by helping them maintain their market share in times of adversity. By preventing the loss of markets, we are safeguarding jobs and ensuring livelihoods.

Mr. ARCHER. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. ROSTENKOWSKI. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time, and I move the previous question on the conference report.

The previous question was ordered.

The conference report was agreed to.

A motion to reconsider was laid on the table.

GENERAL LEAVE

Mr. ROSTENKOWSKI. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks on the conference report just agreed to.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Illinois?

There was no objection.

CONFERENCE REPORT ON S. 2240, RYAN WHITE COMPREHENSIVE AIDS RESOURCES EMERGENCY ACT OF 1990

Mr. WAXMAN. Mr. Speaker, I call up the conference report on the Senate bill (S. 2240) to amend the Public Health Service Act to provide grants to improve the quality and availability of care for individuals and families with HIV disease, and for other purposes.

The Clerk read the title of the Senate bill.

The SPEAKER pro tempore. Under the rule, the conference report is considered as having been read.

(For conference report and statement, see proceedings of the House of July 31, 1990.)

The SPEAKER pro tempore. The gentleman from California [Mr. WAXMAN] will be recognized for 30 minutes, and the gentleman from Illionis [Mr. MADIGAN] will be recognized for 30 minutes.

The Chair recognizes the gentleman from California [Mr. WAXMAN].

Mr. WAXMAN. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, until today, voluntary groups, cities, and States have carried almost the entire weight of the AIDS epidemic. This legislation finally brings a Federal contribution to the health-care needs of the thousands of Americans who are already sick and the hundreds of thousands who soon will be.

This bill will provide a range of assistance: Early intervention services to prevent and forestall illness among those persons who are infected, outpatient and home-health services for those who are ill, and emergency assistance to cities with a large number of acutely ill persons.

This legislation converts the millions of dollars of Federal research into treatments that are available to the public. It's not enough to develop drugs. We must also make sure that they are available to people regardless of their ability to pay, and we must be sure that they are available early enough in people's illness to make a real difference.

The bill will provide for health care services in response to the AIDS epidemic in the United States. It authorizes funds for services for prevention, both for preventing infection among the uninfected and preventing disease among those already infected. It also authorizes funds for health and support services for people who are ill and for emergency assistance to those cities that are hardest hit by the epidemic.

Many of our public health clinics that are trying to control such problems as drug abuse or tuberculosis are being asked to provide AIDS services as well, with no additional funding. The result can only be an erosion of these clinics' primary services.

Many of our AIDS counseling and testing programs have no financing for the provision of early intervention health care. The result can only be incomplete prevention programs that serve no one well.

Many of our hospitals are struggling with the tidal wave of acute cases of AIDS coming into their emergency rooms and admitting offices and have no place to serve these people on an outpatient basis or after their hospitalization. The result can only be overcrowding and a diminished level of care.

Such inadequacies are in no one's interest. The system does not adequately prevent infection among the uninfected, prevent disease among the infected, or provide care for the sick. And the system concentrates its care at the most expensive point—acute care for persons who are desperately ill.

This bill will take first steps to remedy these inadequacies. Much more could be done, much more needs to be done. But today's legislation will make a significant contribution to these problems.

It will provide for a continuum of prevention services—counseling and testing, diagnostics for those who test positive, and therapeutics for those whose diagnostics indicate a medical intervention.

I would note that, while providing some flexibility in the formula for the Secretary, the bill's provisions regarding counseling, testing, and early intervention hold States generally harmless for their funding level in fiscal year 1991 and that it is our intent that the cities receiving funds directly from CDC also be held harmless within the States. This hold-harmless provision is phased out over a period of years.

It will provide emergency relief for those cities that have been hardest hit by the epidemic.

And it will provide ongoing projects for the provision of comprehensive care to people who are ill.

CONCLUSION

Mr. Speaker, as we finish our work on this legislation, I would like to take a few minutes to pay tribute. This bill has now been given the Senate title of the Ryan White CARE Act. Ryan White gave this epidemic a face in the mass media of the Nation, someone that we could all recognize, admire for his courage, and mourn. I would take this opportunity to do so.

But I want to take a few moments now to acknowledge that there are also thousands and thousands of other Americans—our friends, loved ones, and fellow citizens—who have died and who deserve our recognition, our admiration for their courage, and our mourning. In closing the consideration of this legislation, I would like to add just a few names of people who have died of AIDS—some friends of mine and some friends of friends.

Mr. Speaker, let us acknowledge: Sheldon Andelson, Mel Boozer, Dan Bradley, John Furie, Barry Gingell, Ariel Glaser, Andre Hebert, Tito Kasner, Zack Kaufman, our colleague, Stewart McKinney, Suzanne Neeme, Wiliam Nelson, Robert Nickolitch, Paul Popham, Mike Richards, Peter Scott, Terry Tebedo, Dan Turner, Tom Waddell, and Lawrence Washington.

This is obviously only a brief and personal list. If I were to continue with the names of all of those of our fellow citizens who are known to have died of AIDS, I would not only exceed the remaining time allotted to this bill but possibly the remaining time allotted to this Congress.

And even that huge list would be an abbreviated one, made far shorter because there are so many names that are secret or unknown. I think of the stitching of one eloquent panel from the NAMES Project Quilt:

I have decorated this banner to honor my brother. Our parents did not want his name used publicly * * *.

But, Mr. Speaker, while we pay tribute to those who have died—only some of whose names we know—we should adopt this legislation in honor of, and with hope for, those people who are

now living with AIDS and HIV. For all these fellow Americans, some of whom are doing well and some of whom are acutely ill, I urge adoption of this legislation.

□ 0040

Mr. Speaker, I reserve the balance of my time.

Mr. MADIGAN. Mr. Speaker, I yield myself such time a I may consume.

Mr. Speaker, I rise in support of the conference report on S. 2240, legislation to provide support for AIDS treatment and prevention. This conference report is the product of considerable effort, negotiation and compromise between the House and the Senate. The conference agreement combines the best elements of both the House- and Senate-passed proposals and will mark an important step in our fight against the AIDS epidemic.

The main focus of the conferences bill is designed to make the new advances in AIDS preventive treatments and care more widely available.

The three most significant features of the bill would:

First, establish a grant program to provide counseling, testing, and preventive health services; $230 million would be authorized to be awarded to the States and an additional $75 million would be awarded to categorical grantees for these purposes. Given that there is no cure for AIDS, we can only halt its spread by convincing infected individuals to modify their high-risk behavior and other individuals to take precautions against becoming infected. Hopefully, this program will take a big step in this direction.

Second, establish emergency relief grants for metropolitan areas with the highest incidence of AIDS cases. The health care systems in many urban areas have been weakened by the huge numbers of AIDS cases. This program is designed to assist those communities in providing outpatient care.

Third, establish a program of health-care grants to the States to permit funding for a variety of services. The allowable use of funds would permit health and social service providers to deliver comprehensive care by continuing existing demonstration projects designed to establish cost-effective methods of care to both adult and pediatric AIDS patients. In addition, the States would be allowed to use the funds to provide for home- and community-based care, the purchase of therapeutic drugs such as AZT, and the continuation of health insurance for HIV-infected individuals.

I am pleased to state that the conference agreement includes the provisions which the gentleman from California [Mr. WAXMAN] and I were able to work out in the House bill with the administration in order to ensure that the limited Federal resources made available under this bill are focused on the most needy citizens.

All three major titles of the bill now target Federal funds to assist the financially needy in a fair and equitable manner while at the same time maximizing the effectiveness of the grant funds. For individuals with incomes at 100 percent of the Federal poverty line or below, services would be provided free of charge. In the case of individuals with incomes above the Federal poverty line, charges must be imposed on a sliding scale. For individuals with incomes between 100 percent and 200 percent of the poverty line, these charges cannot exceed 5 percent of an individual's annual gross income. For those with incomes greater than 200 percent but not exceeding 300 percent of the poverty line, these charges cannot exceed 7 percent of one's annual gross income. Individuals with income in excess of 300 percent of the Federal poverty line could not be charged more than 10 percent of their annual gross income.

In addition, all three titles of the bill now include strong maintenance of effort provisions that will ensure that grantees must maintain their investment for HIV-related services and that Federal moneys must be used to significantly increase AIDS-related services.

Finally, State matching requirements are imposed in titles II and III of the conference agreement, dealing with grants to States for health-care services and prevention services, respectively. States with 1 percent or more of AIDS cases would be required to meet a State matching requirement that would be phased in over a 4-year period. This provision would ensure the efficient use of Federal resources and encourage States to continue sharing the cost of HIV services. In the first year, the Federal match would be 5 Federal dollars for 1 State dollar, and in subsequent years, the Federal match would be phased down to a 2-to-1 permanent match by 1994.

In conclusion, I urge my colleagues to act prudently and to adopt this realistic and balanced legislation. I am hopeful that we will be able to send this legislation to the President before the Congress adjourns.

Mr. WAXMAN. Mr. Speaker, I yield 2 minutes to the gentleman from Georgia [Mr. ROWLAND].

Mr. ROWLAND of Georgia. Mr. Speaker, the conference report that we are considering tonight will help to give much needed assistance to metropolitan areas which are hardest hit by the AIDS epidemic; HIV care grants to State for improving the continuum of services for HIV AIDS patients, and provides early intervention services for testing, counseling and therapeutic drugs.

The passage of this agreement is critically important so that these programs in urban and rural areas can be established to help people with AIDS and also to help fight this disease.

I am especially pleased for the recognition that has been given to the Department of Veterans Affairs hospitals and health care system in recognizing that it plays such a tremendous part in the treatment of AIDS patients.

I am grateful that I have been able to be a part of this process.

I want to commend the chairman and the ranking minority Member and the Members on both sides of the aisle for all the work they have put into crafting this package.

I want to give special thanks to the staff members on both sides of the aisle who have worked so hard in putting this issue together and bringing it to fruition.

Mr. MADIGAN. Mr. Speaker, I yield such time as he may consume to the most noble and very distinguished ranking minority member of the Committee on Energy and Commerce, the gentleman from New York [Mr. LENT].

Mr. LENT. Mr. Speaker, I rise in support of the conference report on S. 2240, a bill to support AIDS treatment and prevention activities.

The AIDS epidemic continues to be a terrible tragedy. First, there is the direct human tragedy for the victims and their families. And the epidemic is also exerting continuing pressure on our entire health care system, particularly in States and urban areas of the highest incidence of the disease.

For years, the picture of this epidemic has been entirely bleak. However, recently, medical studies have shown that certain drug treatments can hold off the most serious symptoms for months or years in people who have been infected with the HIV virus. This conference agreement is directed toward the goal of providing funds to offer these preventive drugs to individuals, providing additional assistance to cities which have been hit the hardest by the epidemic and providing aid to States for a variety of purposes to test different approaches for the treatment of AIDS.

I am particularly pleased that the conference agreement includes a provision I sponsored concerning grants for research projects for conducting clinical research on drug therapies for pediatric AIDS patients.

Among the most tragic victims of this terrible epidemic are the poor children that have been stricken with this terrible disease. And, according to the Centers for Disease Control, children constitute the fastest growing AIDS population.

While the number of children currently afflicted with AIDS is relatively small, the Centers for Disease Control projects that by 1991 as many as 20,000 children will be infected with AIDS. Experts also predict that AIDS

will be one of the five major causes of death for children between 1 and 4 years old within the next 5 years.

Unfortunately, many experts have expressed the concern that the pace of drug development for these young patients has lagged significantly behind that of similar projects for adults. The conference agreement addresses this problem by authorizing grants for the purpose of conducting clinical research for the development of therapeutic drugs for pediatric HIV patients, and by targeting these research projects for local community clinics which serve the families of those who are at risk.

Finally, I would like to note that the conference agreement also contains special project authority to assist hemophiliacs. Given the unique problems this population faces in dealing with AIDS, I feel this provision is particularly important.

I think this conference report is balanced and merits our strong support. I urge my colleagues to join me in supporting it.

Mr. WAXMAN. Mr. Speaker, I yield 1 minute to the gentlewoman from California [Ms. PELOSI].

Ms. PELOSI. I thank the gentleman for yielding, and in the interest of time I will be very brief.

I wish to rise to commend the chairman of the subcommittee, the gentleman from California [Mr. WAXMAN], and the ranking minority member, the gentleman from Illinois [Mr. MADIGAN], for their leadership on this issue.

This legislation is a breakthrough in AIDS treatment, and it shows that Congress cares, but not only does it care but it is willing to provide the means to care for people with AIDS.

So I commend the gentlemen, thank them for their hard work for bringing this conference report to the floor.

Mr. Speaker, I rise in strong support of the conference report on the Ryan White Comprehensive AIDS Resources Emergency Act [CARE]. I commend Chairman WAXMAN and Mr. MADIGAN, the ranking minority member, for their leadership in reaching this agreement. I also commend Senator KENNEDY and Senator HATCH for their efforts to reach this agreement and for their bringing such attention to this issue.

For a city like San Francisco, where close to 6,000 people have already died of AIDS and close to 9,000 cases have been diagnosed to date, this is legislation that responds to our real needs. Responding to the nearly 3,000 San Franciscans living with AIDS and the nearly 30,000 San Franciscans living with HIV infection must be a national priority as well as a local priority.

San Francisco has developed model programs which are a source of great pride to the city. But the famous San Francisco model has been crumbling under the sheer weight of the numbers of new people needing services. The CARE legislation offers emergency assistance that will allow us to restore the humane and cost-effective continuum of services we need. The grants to States will allow us to expand on programs of early intervention to prevent the onset of severe disease in those infected but not yet sick. The legislation gives us hope.

This is a fitting tribute to Ryan White; his courage in the face of AIDS taught us all a lesson. We evoked caring from a nation that needed to care, and his plight focused attention on the epidemic that we cannot in good conscience ignore.

Mr. Speaker, this legislation allows to prepare for life rather than death in face of the HIV epidemic. Again, my congratulations to Chairman WAXMAN, who has done so much on the AIDS issue and whose leadership has once again made this House proud.

Mr. MADIGAN. Mr. Speaker, I yield 3 minutes to the gentleman from California [Mr. DANNEMEYER], a member of the subcommittee.

Mr. DANNEMEYER. I thank the gentleman from Illinois for yielding me this time.

Mr. Speaker, I would like to engage the subcommittee chairman in a colloquy about one of the provisions in the bill.

There is a provision in the legislation that requires States, as a condition of receipt of funds for counseling and testing and early treatment, to have laws regarding intentional transmission of HIV. Could the gentleman describe the meaning of that section?

Mr. WAXMAN. Mr. Speaker, If the gentleman will yield that provision requires that States have on their books laws that would allow criminal prosecution for intentional transmission by blood donation, sexual activity, or needle sharing.

Mr. DANNEMEYER. Would this language, as adopted by States, require laws to deal with the so-called AIDS terrorists, the people who have AIDS and say that they want to take as many other people with them as they can—by blood or sex or needle sharing?

Mr. WAXMAN. Yes. While I believe that such activities are rare, clearly such intentional spread of the infection would have to be prohibited under State law.

Mr. DANNEMEYER. Would this language in any way limit States to this standard of criminal law? Are States forbidden to go further in prosecuting people who spread AIDS?

Mr. WAXMAN. No. States retain all their traditional criminal law authorities. We have always depended on States to make criminal law and would anticipate that they would continue to do so.

But the bill before us is a public health grants program. We did not feel that we had the information or expertise to draft full criminal statutes in this context. There are many difficult problems of standards of culpability, proof, and evidence which we could not deal with in this context. But States clearly retain all authority to deal with these issues themselves.

Mr. DANNEMEYER. Mr. Speaker, I rise in support of this conference report. There is one essential feature of what we need in our law to control this epidemic, and I will not take a lot of my colleagues' time this evening to talk about that. Any person who believes that this epidemic is on the downslide in America and around the world should disabuse themselves of that notion.

I make reference to a report of the New England Journal of Medicine July 26, 1990, which discusses in part the results of testing in 26 sentinel hospitals across the country from January 1988 to June 1989. The incidence of the infection of men 25 to 40 in certain of those hospitals located in the Northeast is absolutely devastating in terms of the impact

For example, in the Northeast, one hospital, 21.7 percent of the men tested were HIV positive. That is the highest. Fortunately, most of them were lower than that.

What this data shows is, clearly, that the epidemic is alive and flourishing, mostly in urban areas in this country. One day this country and this Government is going to put in place the cornerstone of what our Public Health should have been doing to control this epidemic from the beginning of its existence in the early 1980's, namely, reportability to Public Health in confidence and contract tracing. That now is the recommendation of the American Medical Association that all States have such a policy in place. Unfortunately, the House did not choose to implement that recommendation of the American Medical Association when we considered this legislation when it passed the House earlier this year in an amendment that I offered.

However, I will continue to present that possibility to the Members at the next time when the House considers this issue.

Mr. Speaker, the bill before us today is the result of compromises and agreements that were achieved in this body, and an entirely new set of compromises that were arrived at after weeks of negotiation with our colleagues in the Senate. I believe the final product, while not perfect, deserves our support.

A NEW APPROACH TO THE WAR ON HIV INFECTION

What will this legislation do? For the first time, it will commit billions of dollars in Federal resources to the war against a killer disease—the human immunodeficiency virus that ultimately results in full-blown AIDS. What is most impressive about S. 2240 is that it targets these scarce resources on low-income individuals and limits the use of these funds to cost-efficient expenditures such as HIV counseling and testing, clinical and diagnostic services, therapeutic measures, and referrals to providers of appropriate support services. No funds in this bill will be spent on costly hospi-

tal inpatient services or on the construction of new facilities.

The focus that S. 2240 places on HIV testing and counseling is another strong point of the bill. Under this legislation, for the first time, persons who live in areas with significant concentrations of HIV infection will be encouraged to undergo HIV testing and counseling whenever they are admitted to hospitals in their areas or use other parts of the health care system—specifically, clinics for tuberculosis, drug abuse, sexually transmitted disease, and family planning. This is a crucial first step in our efforts to treat HIV infection like other sexually transmitted diseases.

The failure of our efforts to date is illustrated by the recent article which appeared in the New England Journal of Medicine describing the results of the sentinel hospital survey conducted by the Centers for Disease Control. In short, the results of this study underscore the need for section 2641(b)(5), which allows States to allocate funds to a program of routine HIV testing in hospitals with inordinately large numbers of HIV-infected inpatients. This program was the result of an agreement reached among Messrs. WAXMAN, LENT, MADIGAN, and myself during the Energy and Commerce Committee deliberations on this legisation. It is a good program, and deserves to be in the final bill.

THE CDC SENTINEL HOSPITAL SURVEY

The CDC sentinel hospital survey sought to evaluate the distribution of HIV-1 infection across all age and risk groups in the areas served by the participating hospitals. This requires the researchers to exclude many individuals who seek treatment in the hospital. As the researchers describe it:

Specimens [of blood] were . . . excluded if they were from patients whose admitting diagnosis or reason for hospital visit was among the following: AIDS or other conditions commonly associated with AIDS or HIV-1 infection; specified conditions that might presumptively be expected to occur more frequently among persons infected with HIV-1, including infectious diseases, unexplained fever, neuropsychiatric conditions, and neoplasms; conditions often associated with medical risk factors (such as hemophilia) or behavioral risk factors for HIV-1 infection (such as drug abuse or sexually transmitted diseases); or gunshot and knife wounds, conditions that have been reported to be associated with a higher than expected rate of HIV-1 seroprevalence.

These criteria eliminate quite a few hospital inpatients. Nevertheless, the researchers found an overall infection rate of 1.3 percent. The rate in one hospital was 7.8 percent. For men between the ages of 25 and 44, 9 of the 26 participating hospitals reported infection rates in excess of 5 percent, with 2 reporting the astonishingly high figures of 18.4 and 21.7 percent.

The researchers conclude that "many of these [HIV infected] persons were probably unaware of their infection" because "none had a clinical presentation suggesting to their physicians that they were at increased risk of HIV-1 infection as compared with others in their communities."

Mr. Speaker, these are the persons who stand to benefit the most from a traditional public health response to the epidemic. Note where they reside: The two hospitals with the highest seroprevalence rates were in Newark, NJ, and the South Bronx, NY. These people—most of whom fit within the definition of underclass—need to be warned of their exposure, and offered counseling and appropriate therapeutic measures, such as AZT.

THE NEED FOR PARTNER NOTIFICATION

While this bill goes a long way toward increasing the overall level of knowledge among those at risk for HIV, it does little to improve the extent to which our public health authorites warn the partners of infected individuals that they are at risk and should receive HIV testing and counseling.

Last year, 11,000 persons tested positive for HIV in New York City and, remarkably, not a single one of these persons was referred to the local health department for purposes of partner notification. While section 2646 requires States to establish some form of partner notification program, it leaves enough discretion for the States to adopt programs such as the one in New York City, where no one was warned of their risk.

PRISON TESTING

Finally, I would like to draw my colleagues' attention to section 2667(b), which enhances the Prison Testing Act of 1988 by adopting the House provisions worked out jointly between Messrs. WAXMAN, MADIGAN, and myself. Sadly, the level of HIV infection in many State prisons rivals, and sometimes exeeds, those found in our inner city hospitals. This program would enable States to test, counsel, and provide therapeutic measures to prisoners in prisons where public health and prison officials determine that a significant number of inmates are at risk for HIV infection.

CONCLUSION

While I would prefer that this legislation include stronger provisions relating to confidential reporting and partner notification, I nevertheless recognize that S. 2240 is a significant step forward in our attempts to control the spread of this insidious and fatal disease.

I urge my colleagues to support the conference report.

Mr. WAXMAN. Mr. Speaker, I have no further requests for time, but I reserve the balance of my time for the purpose of closing debate.

Mr. MADIGAN. Mr. Speaker, I yield 3 minutes to the gentleman from New York [Mr. GREEN].

Mr. GREEN. Mr. Speaker, I congratulate the gentleman from Illinois [Mr. MADIGAN] and the distinguished chairman of the subcommittee, the gentleman from California [Mr. WAXMAN] on the successful completion of this conference.

Mr. Speaker, I believe it was back in 1982 when another gentleman from California [Mr. ROYBAL] and I first approached the gentleman from Kentucky [Mr. NATCHER], the chairman of the Appropriations Subcommittee on Labor, Health and Human Services, and Education, and the gentleman from Massachusetts [Mr. CONTE] its ranking minority member, to tell them of the AIDS epidemic that we were starting to see in our communities, and the need for research funds. The distinguished chairman of that subcommittee and the gentleman from Massachusetts [Mr. CONTE] responded, and we got the first appropriations to start the investigation of what this epidemic was and how to deal with it. Thanks to that and vastly increased funding in subsequent years, we now know how the disease is transmitted, and we also know some treatments for it. Unfortunately, we do not yet have either a vaccine or a cure, although we hope that further research will yield those results.

Because we know how the disease is transmitted and we do have treatments that can help not only those who have AIDS but those who test positive for the virus but are not yet afflicted by the disease, it is now appropriate that we move ahead with authorizing, funds for the prevention and treatment program that are called for in this bill. So I am delighted that we have been able to see this bill through the conference process. I urge my colleagues to vote for the conference report this evening.

Mrs. MORELLA. Mr. Speaker, I rise in support of the conference report on S. 2240, the Ryan White Comprehensive AIDS Resources Emergency Act of 1990. After many months of negotiations and compromise, Congress has the opportunity to pass a vital and comprehensive AIDS package.

Though our Nation has faced the AIDS epidemic for more than 9 years, the Federal Government is still spending less than 5 percent of its public health resources on caring for victims of HIV infection and AIDS. As a result, advances in AIDS prevention and research have not been met with corresponding advances in the treatment of those afflicted by HIV-infection or full-blown AIDS.

Today's bill complements our Nation's existing AIDS research efforts with services for those who have either been afflicted with HIV infection or are at high risk of contracting the infection. The legislation is unique in that it launches a direct, three-pronged attack on the problem. First, it targets areas of the Nation especially hard-hit by HIV infection and AIDS, thus concentrating resources where they are most needed. Second, rather than initiating new programs, the bill uses existing resources—health care centers, clinics, and other public and private facilities—providing a continuum of care for AIDS services in communities across the country. Finally, the bill delivers the promise of important advances in AIDS research through its provision of early intervention services.

The Ryan White Comprehensive AIDS Resources Emergency Act is particularly important for the Washington Metropolitan Area; Washington is 1 of the 16 cities hardest hit by the AIDS epidemic. But the importance of this bill stretches far beyond the borders of the hardest hit cities. The AIDS epidemic now touches every sector of our population. Men, women, children, homosexuals, heterosexuals—AIDS does not discriminate. It should

come as no surprise, then, that a broad coalition of groups ranging from the American Medical Association to the Conference of Mayors has come out in strong support of the conference report. It deserves our support as well.

I thank the members of the conference committee for their outstanding work on this important legislation and I urge my colleagues to vote in favor of the conference report.

Mr. WEISS. Mr. Speaker, I rise in support of S. 2240, the conference report on Comprehensive AIDS Resources Emergency Act. This excellent legislation would provide emergency relief funds to help communities across the United States which are hardest hit by the AIDS epidemic. The legislation additionally provides support for early intervention services for persons with HIV infection who are not yet symptomatic, in order to prolong the healthy period of their lives.

I commend the chairman of the Subcommittee on Health and the Environment for his continuing leadership in the fight against AIDS and specifically on the legislation before us today.

Despite reports that the AIDS epidemic has peaked, the statistics tell us that this is pure fantasy. The Public Health Service estimates that in 1991 alone there will be as many as 71,000 new cases of AIDS. The total number of persons living with AIDS in 1991 could climb to 153,000.

In many communities, even before they were struck with the tradegy of HIV, the health care system was ill-equipped to provide adequate basic primary care to all their citizens. AIDS has illuminated the weaknesses in those systems, threatening not only persons with HIV disease, but also other citizens in need of health care.

Today, the House Government Operations Committee approved a report based on an investigation by my subcommittee of the Federal Government's role in the treatment and care of persons with AIDS. The subcommittee found that even though the Government has recommended early intervention treatments to delay the development of AIDS in HIV-infected persons, it has developed no plans or program to help pay for it. The provision of support for such services is alone a convincing reason for supporting this conference report.

The subcommittee also found that AIDS is a national disaster that can devastate a community as much as an earthquake, a hurricane or an oil spill. The Federal Government responds to these disasters by providing billion of dollars in assistance to affected communities. AIDS-impacted areas should receive similar Federal emergency relief funds. The conference report authorizes such a program.

The Assistant Secretary of Health has stated that the Government has a moral responsibility to find a way to provide health care and early intervention treatments for persons with HIV disease. But neither the President nor anyone in his administration has acted to carry out this moral responsibility. Thus, once again, the Congress has come to the rescue with these programs, and not a moment too soon.

I would like to appeal to my colleagues on the Appropriations Committee to fully fund these vital programs from the funds set aside for pending legislation once it is enacted.

And finally, I urge all Members to support this conference report for the sake of those whose lives are at stake and the communities which must care for them.

Mr. MATSUI. Mr. Speaker, the conference report before us today provides this Congress with a rare opportunity to attack a social problem and attack it in a way that will make a long-term difference. As far as AIDS is concerned, we really have no other choice.

By now, most Americans realize that AIDS is not a passing thing. It will not disappear by itself and neither will those who suffer under its debilitating effects. That is why this legislation is so crucial. Efforts to find a cure for the disease and prevent its spread need our resources. The people who have the disease need our compassion. This bill works toward accomplishing both goals.

With at least 1 million Americans infected with the HIV virus and that number increasing rapidly, we, as a Nation, have no time to waste. The provisions in this legislation calling for increased and improved education and counseling services are needed directly in urban and rural areas around this Nation, where the disease continues to exact a devastating human toll. Only through dispelling ignorance about AIDS will progress be made toward developing more humane attitudes toward those who contract the disease, which includes a startlingly large and increasing number of women and minorities.

This conference report also will direct emergency funds to where they are most needed—the 15 metropolitan areas where the spread of AIDS is crippling the social services system. This legislation will go a long way toward alleviating some of the burden on the systems in these areas.

The ability of social services to respond to this crisis is dependent on having the resources and personnel to respond. The funding in this bill will increase the resources available and allow hospitals and clinics in these areas to respond to the growing number of AIDS patients.

We should not pretend that this conference report will provide an end to AIDS. Operating under that pretense is not only unwise, but irresponsible. But it is a modest, and in my mind, very substantial attempt to direct resources to where they are needed so the day when we can write an epilog to the plague of AIDS will come sooner, rather than later.

Mr. MADIGAN. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. WAXMAN. Mr. Speaker, I yield myself such time as I may consume. As we finish our work on this legislation, I would like to take a few minutes to pay tribute. This bill has now been given the Senate title of the Ryan White CARE Act. Ryan White gave this epidemic a face in the mass media of the Nation, someone that we could all recognize, admire for his courage, and mourn. I would take this opportunity to do so.

But I want to take a few moments now to acknowlege that there are also thousands and thousands of other Americans—our friends, loved ones, and fellow citizens—who have died and who deserve our recognition, our admiration for their courage, and our mourning. In closing the consideration of this legislation, I would like to add just a few names of people who have died of AIDS—some friends of mine and some friends of friends.

Mr. Speaker, let us acknowledge: Sheldon Andelson, Mel Boozer, Dan Bradley, John Furie, Barry Gingell, Ariel Glaser, Andre Hebert, Tito Kasner, Zack Kaufman, our colleague, Stewart McKinney, Suzanne Neeme, William Nelson, Robert Nicholitch, Paul Popham, Mike Richards, Peter Scott, Terry Tebedo, Dan Turner, Tom Waddell, and Lawrence Washington.

This is obviously only a brief and personal list. If I were to continue with the names of all those of our fellow citizens who are known to have died of AIDS, I would not only exceed the remaining time allotted to this bill but possibly the remaining time allotted to this Congress.

And even that huge list would be an abbreviated one, made far shorter because there are so many names that are secret or unknown. I think of the stitching of one eloquent panel from the names project quilt:

> I have decorated this banner to honor my brother. Our parents did not want his name used publicly * * *.

But, Mr. Speaker, while we pay tribute to those who have died—only some of whose names we know—we should adopt this legislation in honor of, and with hope for, those people who are now living with AIDS and HIV. For all these fellow Americans, some of who are doing well and some of whom are acutely ill, I urge adoption of this legislation.

I would note that, while providing some flexibility in the formula for the Secretary, the bill's provisions regarding counseling, testing, and early intervention hold States generally harmless for their funding level in fiscal year 1991 and that it is our intent that the cities receiving funds directly from CDC also be held harmless within the States. This hold-harmless provision is phased out over a period of years.

Mr. Speaker, I have no further requests for time and yield back the balance of my time, and I move the previous question on the conference report.

The previous question was ordered.

The conference report was agreed to.

A motion to reconsider was laid on the table.

The SPEAKER pro tempore (Mr. MURTHA). Without objection, the House recedes from its title to the Senate bill (S. 2240).

There was no objection.

GENERAL LEAVE

Mr. WAXMAN. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks, and include therein extraneous material, on the conference report just agreed to.

The SPEAKER pro tempore (Mr. MURTHA). Is there objection to the request of the gentleman from California?

There was no objection.

WAIVING CERTAIN POINTS OF ORDER AGAINST THE CONFERENCE REPORT ON H.R. 1465, OIL POLLUTION ACT OF 1990

Mr. BONIOR. Mr. Speaker, by direction of the Committee on Rules, I call up House Resolution 452 and ask for its immediate consideration.

The Clerk read the resolution, as follows:

H. RES. 452

Resolved, That upon adoption of this resolution it shall be in order to consider the conference report on the bill (H.R. 1465) to establish limitations on liability for damages resulting from oil pollution, to establish a fund for the payment of compensation for such damages, and for other purposes, and all points of order against the conference report and against its consideration are hereby waived. The conference report shall be considered as having been read when called up for consideration.

The SPEAKER pro tempore. The gentleman from Michigan [Mr. BONIOR] is recognized for 1 hour.

Mr. BONIOR. Mr. Speaker, for purposes of debate only, I yield the customary 30 minutes to the gentleman from California [Mr. PASHAYAN], pending which I yield myself such time as I may consume.

□ 0100

Mr. BONIOR. Mr. Speaker, today is an important day for the environment. We are about to pass one of the toughtest clean up bills in the history of Congress.

The oilspill conference report, H.R. 1465, together with final approval of clean air legislation, will make the 101st a historic Congress in defense of the environment.

When the *Exxon Valdez* ran aground 17 months ago, the Nation watched in horror as a black plague spread across Alaska. Even worse was the helpless response: indecision, inaction, and inadequate equipment.

America was struck by our vulnerability to cope with such a disaster, and we vowed it should never happen again.

In the weeks and months since the *Exxon Valdez*, we have witnessed a great many other spills—in Delaware, New York, California, and Texas.

For every oil-soaked beach and every pollution-choked waterway we have seen since the Alaska spill, our resolve to put an end to these environmental disasters has only hardened.

In Alaska, the casualties were wildlife and soiled beaches. In my home State of Michigan, whole communities would be devastated.

Over 24 million people rely on the Great Lakes for their drinking water. Water is our way of life.

Last month, in my own district on the Great Lakes, a 330-foot tanker hit the rocks in the Detroit River. Fortunately, the ship's double-hull construction prevented a spill.

We were lucky.

If the oilspill bill we are considering today had been law in 1989, we may never have experienced the wreck of the *Exxon Valdez*.

H.R. 1465 is a tough bill.

It requires double hulls on oil tankers and barges beginning in 1995.

It strengthens antidrug and alcohol laws for ship operators.

It increases navigation safety by toughening standards for pilots on the Great Lakes, and expands research on environmental impact and cleanup methods.

The oilspill conference report requires shippers to have cleanup plans available in areas where a spill is likely to occur.

And it dramatically increases the liability for oilspill costs and damages to make sure polluters pay. Up to 1 billion Federal dollars will be available to clean up after a major spill.

Perhaps most importantly, H.R. 1465 establishes a 24-hour spill center—a sort of rapid response unit—in each of seven Coast Guard districts, including the Great Lakes.

It has taken a long time to reach this point. This legislation has been 15 years in the making.

I want to thank all of the Members and staff who have made this bill possible.

It's critical protection for the environment.

It's a proud moment for Congress.

And it's a victory for the American people.

Mr. Speaker, the rule on the oilspill bill, House Resolution 452, simply waives all points of order against the conference report and against its consideration.

It would allow the Congress to dispatch this critical legislation in quick order and send it to the President for his signature—before another disaster occurs.

I urge my colleagues to support House Resolution 452 so we can adopt this historic legislation.

Mr. PASHAYAN. Mr. Speaker, House Resolution 452 is a rule waiving all points of order against the conference report on the oilspill liability legislation.

Before I go any further in my remarks, I want to announce to the Members that the gentleman from Ohio, [Mr. REGULA] will attempt to defeat the previous question, and will offer a substitute rule for the consideration of the conference report.

This is an entirely proper procedure that Mr. REGULA will attempt, and, I might add, it is the same parlimentary procedure used by that other great gentleman from Ohio, Mr. Del Latta, in June of 1981, in order to offer a substitute for a rule reported from the Committee on Rules.

Mr. Speaker, the Committee on Rules recommends that the House waive all the rules of this House in order to prevent a direct vote, up or down, on the issue of natural gas leases 45 miles off the coast of North Carolina at Cape Hatteras.

The rule proposed by the gentleman from Michigan [Mr. BONIOR] will prevent Mr. REGULA from offering his amendment to strike section 6003 from the conference report.

The rule that Mr. REGULA will offer, if he shall be successful in defeating the previous question, shall permit a direct vote, up or down, on the motion to be offered by Mr. REGULA to strike section 6003 from the conference report.

Mr. Speaker, it is true that the conference report represents the work of Members concerned over protecting the Earth and this Nation's ocean waters from further grevious damage owing to oil spills.

Mr. Speaker, it is also true that there are many great legislative initiatives and truly great strides in the cause of environmental protection in this conference report.

The honorable chairman of the Committee on Merchant Marine and Fisheries, the gentleman from North Carolina, truly deserves as much credit as any other single Member of this or any other Congress for his outstanding record of environmental protection and for the specifics of the conference report.

I applaud him, and I say to him that almost every single provision of his conference report is deserving of our overwhelming approval.

Among these items are: the new requirement for double hulls on all new tankers and ocean going barges, beginning in 1995; and the ban on all single hull tankers by the year 2010.

Mr. Speaker, it is also true that every single environmental group in this Nation, indeed throughout the world, wants this conference report to become law.

But, before we shall make this conference report law, before we shall send it the President for his signature, let us please pause for 30 minutes and consider the appeal being made to us by the gentleman from Ohio [Mr. REGULA].

Mr. REGULA asks for 30 minutes to debate section 6003, and he asks for a

direct vote, up or down, on the question of including that in this conference report.

I truly believe it is a fair way to resolve the issue brought to us by the single-minded perserverance of the gentleman from Ohio [Mr. REGULA] and his colleague from the Committee on Appropriations, the gentleman from Louisiana [Mr. LIVINGSTON].

Mr. Speaker, this House is truly Mr. REGULA's court of last resort. The Senate has passed this conference report. Our action will be the last legislative step. He has no other appeal. He has nowhere else to turn for fairness, except to the Members of this House.

Consideration of Mr. REGULA's motion to strike section 6003 from the conference report will not kill the report, nor will it inhibit the eventual passage of the report.

If Mr. REGULA's motion shall be approved, the rule he proposes shall send the conference report—every single page of it except Section 6003—back to the Senate in the form of an amendment.

Section 6003 would prohibit the Secretary of the Interior from conducting a lease sale, issuing any new leases, approving any exploration plan, approving any development and production plan, approving any application for a permit to drill or permitting any drilling for oil or gas on any OCS lands offshore North Carolina.

Section 6003 is a straightjacket for Secretary Lujan with regard to OCS lands off the shores of North Carolina.

Section 6003 is a straightjacket, which will be in effect until the later of October 1, 1991, or until 45 days after the Interior Secretary shall certify to the Congress, in writing, that a whole host of new information is sufficient to authorize the prohibited activities.

I might add that one of the studies Secretary Lujan is required to make by section 6003 will be on socioeconomic information.

And so, Mr. Speaker, while Secretary Lujan will study socioeconomic information, he cannot get out his straightjacket. He cannot follow the OCS leasing law as it now stands—at least not off the coast of North Carolina.

Mr. Speaker, Members need to be aware that the procedure for amending a conference report—even one that has already passed the Senate—is entirely within the rules of the House.

The procedure's similar to that sought by the gentleman from Ohio, Mr. REGULA have been employed by the Committee on Rules as a way to amend the conference report in the House.

The plea that Mr. REGULA offers here is entirely in order, if his proposed substitute rule shall be adopted.

□ 0110

And so when we come to the end of this debate, Mr. BONIOR will move that the previous question be ordered. Mr. REGULA seeks a "nay" vote on that motion.

If there are a majority of "nays," Mr. REGULA would then control 1 hour of debate on his proposed rule for the consideration of the conference report.

At the conclusion of his 1 hour of debate, Mr. REGULA will move that his previous question be ordered Mr. REGULA seeks an "aye" vote on that motion.

If the previous question shall be ordered, Mr. REGULA will be recognized by the Speaker to offer his substitute rule. Mr. REGULA seeks an "aye" vote on his rule.

The final vote, at least as far as the rule is concerned, will then be on adoption of the rule as amended by the Regula substitute.

So there we have the four procedural votes just to get the House in the parliamentary position to dispose of Mr. REGULA's motion to strike section 6003 from the conference report.

Mr. REGULA's motion to strike section 6003, under the terms of the proposed rule, would come at the end of debate on the conference report.

The gentleman from North Carolina [Mr. JONES], the chairman of the Committee on Merchant Marine and Fisheries, has 1 hour to explain his conference report, and I assume he would use a large portion of that time to explain just exactly how section 6003 got in the report.

And what happens, Members might wonder, if Mr. REGULA fails on his fifth vote of the day, the vote on his motion to strike section 6003?

Well, Mr. Speaker, he will lose and the conference report will be ready for final action by the House.

At least he will have had the opportunity to present the question to the House. At least he will have had the opportunity for a direct vote, up or down.

And, my colleagues, you will have had the opportunity to vote on section 6003, this straitjacket for Secretary Lujan.

Mr. BONIOR. Mr. Speaker, I yield such time as he may consume to the gentleman from Texas [Mr. ANDREWS].

Mr. ANDREWS. Mr. Speaker, I rise in support of this legislation.

Mr. Speaker, at the very moment we prepare to adopt this oil pollution legislation, workers in my State of Texas are absorbing the residue of the latest oilspill to soil our shores.

The oil settling into Galveston Bay today is an unfortunately powerful example of why this oilspill legislation is important for both environmental and business reasons.

This afternoon in Galveston Bay, winds are pushing the oil slick north, toward the wetlands at Houston Point and Trinity Bay. The environmental and financial damage that is occurring is potentially devastating. There are 100 species of birds in Galveston Bay, including two endangered species, at risk from this spill. Even if the birds escape death by oil suffocation, or from ingesting it, their food supply is becoming dangerously contaminated.

As tragic as the specter of hundreds of lifeless, oil-coated birds would be, that is not the only toll the people along the gulf coast of Texas may have to pay. Much of the 500,000 gallons of oil that spilled has not been accounted for. If it has sunk, it threatens to contaminate oyster beds, and decimate shrimp and crab breeding grounds. This oil will not only destroy wildlife, it will destroy small business people—shrimpers, fisherman, charterboat captains, and others who make their living from the bay. We cannot even begin to assess the long-term impact of this spill.

With this disaster in mind, I am pleased to see that this conference report enables emergency response teams to react within the first few hours of oil spills along the gulf coast. This legislation takes the important step of putting the equipment and response capability at the sites where oil tanker traffic is at its heaviest.

I also believe that the provisions in this bill to increase liability are critical. Nothing is more serious than the destruction of our environment and economies in coastal areas. Regardless of whether or not you are from an energy producing State, from Alaska to Galveston Bay, today's legislation is a major step forward.

Mr. BONIOR. Mr. Speaker, I yield 2 minutes to the gentleman from Utah [Mr. OWENS].

Mr. OWENS of Utah. Mr. Speaker, I rise in support of this resolution which the chairman of the committee has added to in the conference. It is clearly within the scope of this oilspill bill.

I strongly believe that we should allow it to happen. It is a fair and innovative way to determine the environmental values that would be threatened by any oilspill along the North Carolina coast. I hope those words are persuasive and I offer that in encouraging my colleagues to support Chairman JONES.

Mr. BONIOR. Mr. Speaker, I yield such time as she may consume to the gentlewoman from California [Mrs. BOXER].

Mrs. BOXER. Mr. Speaker, I rise in support of this rule.

Mr. Speaker, Mr. REGULA argues that the gas off the coast of North Carolina may be essential to our national energy security. If we are really concerned about national energy security. If we are really concerned about national energy security in light of the crisis in Kuwait, let us rush an automobile fuel economy bill to the President, not a potential environmental disaster to the coast of North Carolina.

The amount of gas projected for the North Carolina leases pales in comparison to the savings in oil that could be achieved through greater automobile fuel economy. By simply

raising the fuel economy of automobiles to 45 miles per gallon by the year 2001, we would save 12 billion barrels—12 billion barrels in 10 short years. This is more than twice the amount of undiscovered oil and gas off the entire Atlantic and Pacific coasts combined.

So if the gentleman from Ohio [Mr. REGULA] is serious about the Nation's energy security, come work with me in September on achieving real energy security through realistically achievable fuel economy standards, and allow the protection of the North Carolina coast. It is small potatoes compared to the savings to be gained by achieving greater fuel economy.

Mr. BONIOR. Mr. Speaker, I yield such time as he may consume to the gentleman from California [Mr. MILLER].

Mr. MILLER of California. Mr. Speaker, I rise in support of this legislation. I want to first compliment Mr. JONES of North Carolina, who chaired the conference committee, for bringing to the House a tough, comprehensive response to the problem of oilspills. I want also to recognize the contributions of the majority leader, whose efforts were instrumental in producing a bill that we can be proud of.

While many months have passed, the catalyst for this legislation was unquestionably the *Exxon Valdez* oilspill. That tragic event woke up the Nation. The disaster that we were told could not happen did. We realized that even the world's largest and most powerful oil companies were completely unprepared and pathetically unable to clean up a major spill. We say how the industry had cut corners, putting our environment at risk.

This bill sends a shot across the bow of the oil and shipping companies. The clear and direct massage is that the Congress will not tolerate the unsafe transportation of oil. This bill establishes a new and higher standard of care. Those who carry oil in single hulled vessels do so with the full knowledge that they risk unlimited liability and stiff penalties.

For all of the good things this bill does, one of the most important is what it does not do: It does not preempt the rights of states to set higher liabillity and cleanup standards. It protects the rights of States to have cleanup and compensation funds. It allows States to impose additional penalties. As the House author of these provisions, along with Mr. STUDDS of Massachusetts, I am very pleased that the conference has affirmed the existing application of State laws to oilspills.

This bill greatly improves Federal standards, but more can, and should, be done on the State level. For example, my home State of California extends liability to the owner of oil being carried in a vessel. The House bill extended Federal liability to cargo owners, but that provision was not accepted by the conference. So it is critical that State laws be carefully drafted to extend liability to cargo owners and those who may attempt to evade responsibility by creating shell corporations or by other schemes.

As a conferee from the Committee on Interior and Insular Affairs, I would like to highlight some other provisions of importance to our jurisdiction and interests.

NATURAL RESOURCE DAMAGES

I am especially pleased that title I of the bill provides for full natural resource damage recovery. The basic premise of the natural resource damage section is to make the environment and society whole after an oilspill. Significantly, the measure of damages includes the diminution of value of natural resources. This is intended to include loss use and other intrinsic values as set forth in *Ohio* v. *U.S. Department of the Interior,* 880 F.2d 432, 462–480 (D.C. Cir. 1989).

Last April, the Subcommittee on Water, Power and Offshore Energy Resources, which I chair, held a hearing to examine the *Exxon Valdez* damage assessment process. That hearing identified numerous problems with the natural resource trustees' consideration of public input in the damage assessment process. This bill is intended to address concern about adequate public involvement in section 1006(c)(5)—public notice and input—and section 1006(g)—clarifies the right of public interest groups to seek judicial review of decisions by natural resource damage trustees. I also support section 6002 which authorizes direct spending from the trust fund to initiate assessment of natural resource damage. This is intended to rectify the dilemma found in the *Exxon Valdez* damage assessment process, where the Federal trustees have been unduly dependent upon Exxon—the perpetrator of the crime—since Exxon has refused to fully reimburse the Government's costs.

OUTER CONTINENTAL SHELF OIL AND GAS LEASING

Title VI of the bill contains two significant provisions within the Interior Committee's jurisdiction. Section 6003 provides for a moratorium on OCS oil and gas leasing off the North Carolina coast. My subcommittee held a field hearing on this legislation earlier this year. I am pleased to support Chairman JONES in this effort to assure protection for the valuable coastal resources of the Outer Banks. However, I have no such kind words for section 6004 and I strongly oppose its inclusion in this bill.

Legislation similar to section 6004 was referred solely to the Interior Committee. The gist of section 6004 is that it is the Federal Treasury's responsibility to compensate the State of Louisiana and its oil and gas lessees in the West Delta field for at least $25 million for drainage by Federal lessees. In practical effect, section 6004 amounts to a unjustified drainage of taxpayer's money.

The State of Louisiana and other Coastal States have been already compensated for drainage by the 1986 amendments to section 8(g) of the Outer Continental Shelf Lands Act, which I help craft. According to the Department of the Interior, Louisiana has received nearly $700 million in compensation under section 8(g) of OCSLA. In response to my inquiry on the drainage issue raised by section 6004, the Director of the Minerals Management Service stated that "we believe existing legislation has already provided for full compensation which has been paid to the State of Louisiana."

The Federal judge in the U.S. District Court for the Western District of Louisiana considered, and rejected, the West Delta claims identified for compensation by section 6004—*State of Louisiana v. United States* (Civil Action No. 86–0924) (December 19, 1986):

I hold that monies paid to Louisiana under the 1986 amendments to section 8(g) of the Outer Continental Shelf Lands Act [OSCLA], 43 U.S.C. section 1331 et. seq., are intended to compensate the State for Federal drainage of common hydrocarbon bearing reservoirs. Accordingly, the Secretary of the Interior has no duty under section 8(g) to compensate States for drainage losses. I find that Louisiana's acceptance of funds under section 8(g) forecloses any claims for drainage losses.

As a principal author of the 1986 amendments to section 8(g) and as the House subcommittee chairman of jurisdiction over this issue, I wholly concur in the district court's finding that section 8(g) was intended to compensate States for drainage.

In view of the Interior Committee majority, section 6004 is strictly limited in scope to authorizing compensation, through the appropriations process, to address the losses of the identified West Delta field lessees. Nothing in the section should in any way be construed to imply the validity of similar compensation claims by any other party.

PRINCE WILLIAM SOUND PROVISIONS

Title V of the bill is intended to respond to some of the problems identified in the wake of the *Exxon Valdez* oilspill. Credit should be given to Mr. YOUNG and his Alaska colleagues, especially for the citizens advisory councils. I am very supportive of section 5001's authorization for the Prince William Sound Oil Spill Recovery Institute for research related to the *Exxon Valdez* spill.

TRANS-ALASKA PIPELINE SYSTEM REFORM ACT

Title VIII of the bill is based on H.R. 3277 which I introduced last year. This legislation was developed after a series of *Exxon Valdez* oversight hearings by my subcommittee.

Section 8101 maintains the existing liability regime under the Trans-Alaska Pipeline Authorization Act for the pipline, terminal and related onshore facilities. Once the oil is loaded on a vessel, the liability regime under title I of the Oil Pollution Act of 1990 will apply. The TAPS Act provides for unlimited liability for cleanup expenses and sets a $50 million cap on strict liability for damages. Section 8101 increases the strict liability cap to $350 million and retains unlimited liability for cleanup costs, making the Trans-Alaska Pipeline System subject to the most rigorous liability regime for onshore facilities in the Nation.

Section 8102 is intended to preserve the rights of claimants against the TAPS liability fund, which will eventually be abolished, and directs the TAPS fund trustees to expeditiously pay claims—section 8102(d). It is an outrage that the TAPS fund has accumulated nearly $300 million, but has failed to pay a single claim. Incidents which qualify for payment under the TAPS Act include the *Glacier Bay*, 1987; *Exxon Valdez,* 1989, and *American Trader,* 1990. The following commentary details the problems that claimants have found when squared off against the armada of highly paid TAPS fund lawyers:

[From the Anchorage Daily News, July 11, 1990]

FISHERMEN HAVE WAITED TOO LONG FOR SPILL COMPENSATION

(By Tim Keener)

KENAI.—If I caused a person loss of their livelihood, I would certainly be liable, and I would expect and encourage my insurance company to pay claims promptly.

When the oil tanker Glacier Bay struck a rock and spilled oil in Cook Inlet on July 2, 1987, fishing was disrupted right at the peak of the season, resulting in lost income and damaged gear for hundreds of Cook Inlet fishermen.

Yet, the fund set up by oil companies at the direction of the U.S. Congress to reimburse exactly such losses has not yet compensated even one fisherman three full years after the spill. Trustees of that fund admit their liability for the fishermen's losses, but they refuse to pay the fishermen's claims.

The Trans-Alaska Pipeline liability fund, whose trustees include representatives from several oil companies, a representative from Doyon Native corporation in Fairbanks, and a senior vice president of the National Bank of Alaska, was established by Congress in 1973 to reimburse losses suffered from spills of oil transported through the Alaska pipeline.

The oil companies promised that every precaution would be taken to prevent oil spills, that cleanup technology would avoid significant damage if a spill did occur, and that the TAPS fund would be available to pay damage claims promptly.

All of this has proved untrue. Losses suffered from oil spills of the Glacier Bay in 1987, the Exxon Valdez in 1989, and the Huntington Beach, Calif., spill in February all are potentially eligible for reimbursement from this TAPS fund. But the fund has never paid even one claim.

The TAPS fund accumulates at the rate of 5 cents per barrel, and assets of the fund are approximately $300 million. Claims from fishermen whose livelihood was affected after the Glacier Bay spill now near $100 million, having doubled since 1987 because of interest accruing while the fund trustees refuse payment.

Over the course of three years of attempting to resolve differences over the Glacier Bay spill with representatives of the TAPS fund, it is clear these people have no intention of paying fishermen for losses until they are forced to do so by a court or by political pressure and public opinion.

Fishermen filed a lawsuit against the owner of the oil tanker, the producer of the oil and the TAPS fund. Now, three years later fishermen are being subjected to days of depositions—mine lasted nearly seven hours—and TAPS defense attorneys are being paid in the neighborhood of $1 million a month out of the fund that was established to reimburse spill victims, all in an effort to avoid payment of claims, not provide restitution as Congress intended. And still fishermen who suffered very real losses have seen no relief.

Fishermen are not part of a giant, organized industry. We're individuals. We still have people in Alaska who make their living off the renewable resource of fishing, and we do a good job of taking care of the resources.

Yet a major catastrophe like an oil spill can decimate that valuable resource overnight. Adequate monetary compensation for such losses is the very minimum requirement for restitution after a tanker dumps oil in valuable fishing grounds.

Before the Glacier Bay spill, concerned fishermen talked with the governor's office and with representatives from the Department of Environmental Conservation about the potential devastation an oil spill would cause.

It was clear even then that Alaska was not—and still is not—prepared for an oil spill of any magnitude. Since the well-publicized Exxon Valdez spill, the government and oil companies have taken some steps to minimize the possibility and the potential devastation of a spill. But more should be done.

Fishermen working this spring with an oil company helped devise a spill-contingency plan, illustrating a cooperative working relationship. Fishermen are capable of responding with assistance when there's a spill.

Oil and fishing are both very positive influences on the state's economy, but we cannot blindly tap into the depleting oil resource at the expense of the renewable resource of fisheries. Fisheries and oil companies need not be in an adversarial position. But the money managers running the TAPS fund, the issuance companies, and their lawyers seem out of touch with that reality.

With the TAPS fund paying their legal staff to the tune of $1 million a month, it appears to me that there is no real motivation for the TAPS fund attorneys to settle the case.

Years of expensive litigation are only prolonging the inevitable settlement of just claims presented to the TAPS fund for damages suffered after the Glacier Bay spill.

Three years is long enough to wait for restitution; the time has come for the TAPS fund and the insurance companies to settle their three-year-old Glacier Bay debt and move on to reconciliation and careful resource management. (Tim Keener is a third-generation Cook Inlet setnetter. He served on the board of the Kenal Peninsula Fishermen's Association for 16 years and was president of the association from 1986 until 1990.)

The bill adds an important safeguard for claimants by including the General Accounting Office as an independent review of the TAPS Fund determinations. Once the GAO certifies that all claims and actions involving those claims—including judicial review—have been resolved, the excess moneys in the TAPS fund are transferred into the new Trust Fund after rebating the prorata share owed to the State of Alaska for its contributions to the TAPS Fund. As additional protection, the 5-cent fee revenue raising mechanism established by section 204(c)(5) of the TAPS Act is to be reimposed as necessary to fully meet TAPS fund obligations.

One of the most significant provisions of the oilspill bill is section 8103 which establishes a Presidential Task Force on the Trans-Alaska Pipeline System.

In an article "Broken Promises—Alyeska Record Shows How Big Oil Neglected Alaska Environment" published on July 20, 1989, the Wall Street Journal characterized the TAPS operators as a "consortium that has long pursued a policy of cutting corners on the environment * * * Alyeska has long fought proposed new regulatory controls in long, expensive legal wars of attrition that allow it to dump pollutants into the environment in excess of what regulators consider safe." On February 7, 1990, the Los Angeles Times reported tht "[t]hough oil executives once swore that it wouldn't happen, corrosion is eating through critical sections of the 800 mile long Trans-Alaska Pipeline, threatening its structural integrity and forcing an expensive [$1.5 billion] and unprecedented crash program of repairs."

Last March, my subcommittee held a hearing on the TAPS system. The General Accounting Office testified that:

The pipeline has not received the systematic, comprehensive oversight needed to ensure compliance with operational safety, emergency response, and environmental requirements.

At that same hearing, the State of Alaska's Department of Environmental Conservation testified under oath that:

The most challenging environmental issues associated with the Trans-Alaska Pipeline are posed by the operation of Alyeska's Valdez Marine Terminal * * *. Alyeska said it would provide a state-of-the-art [ballast water treatment system]. Alyeska also contracted with the State in the Right-Of-Way Lease for TAPS to prevent or abate any environmental damage, including any damage to water quality. But, Alyeska failed to install or use several of the key components to that state-of-the-art system over the years. * * * Alyeska chose the least expensive method. * * * Alyeska aggressively challenged each term of the State's certificate, as well as EPA's NPDES permit, in a series of administrative proceedings in both the state and federal arenas.

As to air quality, the State of Alaska DEC testified under oath at the hearing that:

[W]hen Alyeska first applied for air permits for the terminal in 1976, it promised installation of a vapor recovery system which eliminates all major hydrocarbon emissions from the crude oil tanks and incinerates excess displaced vapors * * *. The vapor recovery system was neither constructed nor operated as planned. The fourth incinerator was ever built. The three incinerators constructed have not been on-line on a regular basis due to repeated maintenance problems. During shut-downs, excess hydrocarbons are vented directly to the atmosphere from the crude oil storage tanks. Approximately 400 tons of hydrocarbons are emitted yearly * * *. Tanker traffic to the Valdez Marine Terminal creates additional air pollution by venting hydrocarbons during loading * * * which is equal to 5 percent to 10 percent of total hydrocarbon emissions in the Los Angeles basin * * *. Alyeska in the past denied any responsibility for evaluating, controlling, or alleviating air pollution caused by tanker traffic.

In a compelling indictment, the State of Alaska DEC testified under oath that "Alyeska promised that in the lease covenants to stay abreast of technology developments and to continually upgrade equipment. In our view, however, the difference between what was promised and what was delivered is substantial.

Is this history? Is there a new, improved Alyeska that is willing to cut the margin on billions of dollars in profits for the world's largest oil companies in order to assure compliance with the State and Federal rights-of-way and other laws and regulations to protect the environment and public health?

The answer appears to be clearly "no," according to the Anchorage Daily News of July 20, 1990:

Alyeska Pipeline Service Company on Thursday threatened the domestic equivalent of the Arab oil embargo, vowing to shut down the Alaska pipeline rather than being held liable for violating state and federal air pollution laws.

[From the Anchorage Daily News, July 20, 1990]

ALYESKA SLOWS PIPELINE FLOW—AIR POLLUTION DISPUTE PROMPTS ACTION; NORMAL OPERATION RESUMES AFTER JUDGE'S ORDER

(By Kim Fararo and George Frost)

Alyeska Pipeline Service Co. on Thursday threatened the domestic equivalent of the Arab oil embargo, vowing to shut down the Trans-Alaska pipeline rather than risk being held liable for violating state and federal air pollution laws.

Alyeska did reduce oil flow through the pipeline Thursday morning—from 1.6 million barrels a day in 1.2 million barrels—but started to cranking back up again Thursday afternoon after a federal judge and two government agencies gave the oil consortium the assurances it wanted.

Within hours of the slowdown, U.S. District Judge Russel Holland in Anchorage issued an unprecedented order blocking enforcement of the Federal Clean Air Act and Alyeska agreed to bargain in good faith with state and federal environmental regulators over vapor emissions from the pipeline. The regulators have tried for three years to find out how much air pollution vents from pumps stations along the 800-mile pipeline and from holding tanks at the huge Valdez terminal so they could decide what to do about it.

It was unclear Thursday who won the game of brinkmanship—and that could have cost both the state and the oil companies millions of dollars a day and played havoc with oil markets throughout the U.S. had the slowdown continued.

But what was clear was how far the oil industry was willing to go to avoid possible prosecution and how much oil means to Alaska, which gets 95 percent of its revenues from oil money.

Alyeska, a consortium of seven oil companies that own the pipeline, attacked simultaneously on several fronts. Before going to court Thursday, it waged a lobbying blitz on federal and state politicians.

U.S. Sen. Ted Stevens, R-Alaska, said he was visited Wednesday in his Washington offices by top executives of BP America, which owns more than half of Alyeska. He said they told him about the imminent shutdown and asked for help.

Stevens said he "got hold of Bill Reilly," administrator of the Environmental Protection Agency, to help resolve the impause. Reilly told Stevens he would not usurp the state's leading role in enforcing air pollution laws in Alaska.

State Sen. Jan Falks got a call from the Energy Department wanting to know what was happening in Alaska, and another from Arco. Arco and BP, two major owners of the pipeline, divided up the Alaska Legislature and started dialing, she said.

Falks, normally pro-oil, said the threat demonstrated Alaska's almost total vulnerability to economic pressure from the industry.

"I am not happy with a business partner who threatens a shutdown without trying everything else," she said.

In temporarily blocking enforcement of the Clean Air Act, Holland said the threatened shutdown posed a greater threat to the public welfare than a few extra days of pollution.

By law, the EPA, which issued its ruling a month ago, could have begun proceedings today to prosecute the company. Violations of the Clean Air Act can result in fines of up to $25,000 a day for the company and criminal penalties for its executives. But nothing could have happened to Alyeska immediately, because EPA has to go through the federal justice department to obtain enforcement action.

And an EPA spokesman said that its notice of violation was basically an empty threat because the agency did not intend to actually prosecute Alyeska or its executives, just force them to sit down with state officials.

Shortly after Holland's ruling. Alyeska reached agreement with the State Department of Environmental Conservation. The company said it would negotiate in good faith to address the state's problems and the state agreed to amend the company's permits to allow Alyeska to say it was operating in compliance with the law for the next six weeks, even though there will be only minor reductions in air pollution from the pipeline.

According to a letter signed by Alyeska president James Hermiller, the state agreed to give up "certain of its rights" to enforce air pollution law.

"They just wanted an assurance from the state we would not skewe them when they were in a vulnerable position," said Ernie Piper, spokesman for Gov. Steve Cowper.

EPA didn't sign off on the deal, but said it would decide today if it satisfies federal law.

But the state was already declaring victory.

"I think they wheeled out all the political artillery and weren't successful," said Dennis Kelso, head of the state Department of Environmental Conservation. He spent the afternoon running from room to room at DEC's Anchorage headquarters updating the governor's office and negotiating with Alyeska Hermiller.

He said Alyeska still must file for a new and stricter air pollution permit, and even the six-week experience requires them to cut down pollution from the oil storage tanks at Valdez.

Piper suggested Alyeska's threat was a face-saving gesture in a game it knew it would lose. He said the state got what it wanted from its regulatory action. Cowper himself refused to comment.

Piper said a temporary pipeline shutdown would not hurt the state immediately and would have hurt the oil industry more.

"In some ways, they (the oil industry) had the gun pointed at their own foot," said Piper.

The slowdown, if continued, would have cost Alyeska $8 million a day in revenue and the state $1.4 million in lost tax and royalty income, according to Chuck Logsdon, a state petroleum economist.

State Sen. Rick Halford, long a friend of the oil industry, said Alyeska's actions Thursday were justified.

"If the agency that regulates my flying business came to me and said if you continue to fly that airplane you'll be liable for civil fines and you'll also be personally and criminally liable, that's a pretty heavy hammer," said Halford, B-Chuglak, a pilot and guide.

"If the executives at Alyeska are facing that, what do you expect them to do?"

The company began taking steps to shut down the pipeline at 10 a.m. Thursday. By about 2 p.m. Alyeska spokeswoman Marne Isaacs said flow through the line was down to 1.2 million barrels a day.

After agreement was reached with the state in the afternoon, Isaacs said, the company began increasing flow and expected it to be back over 1.6 million barrels a day by late Thursday night. She said Hermiller was unavailable for comment.

Tanker traffic from the Port of Valdez was not affected because the company's storage tanks there were nearly full, Isaacs said.

The battle between regulators began heating up last month when the state, after two years of unsuccessfully attempting to get Alyeska to address suspected pollution problems along the pipeline and at the Valdex terminal, set a deadline for compliance.

The Environmental Protection Agency stepped in the next day, changing that Alyeska violated the Clean Air Act by making changes at its facilities without state approval. That gave the state additional leverage it felt it needed to get Alyeska to the negotiating table.

Kelso said Thursday that was the strangest move the EPA had ever taken to back up the state in its fight with Alyeska. EPA officials earlier said the move was crucial because it had more resources to drag the pipeline company to court if necessary.

The state has consistently alleged that the changes Alyeska made resulted in increased pollution. Had Alyeska attempted to get state approval, the DEC says, it would have first required testing to see if the changes would result in more pollutants being spewed into the air.

The vapors include sulfur dioxide, benzene and nitrogen oxides. Benzene is a known carcinogen.

If the state decided the pollution exceeded acceptable limits, regulators would have required the company to install expensive equipment to lessen it.

"Alyeska's trademark in the past is first to contest jurisdiction" of the state regulators, said Kelso. "Second, co-opt the process. Third, attack the result of the process. Fourth, try to stop the process from ever going into effect," through political, legal and economic leverage.

But Alyeska never threatened to shut down the pipeline before, or started to. Federal and state environmental regulators said Thursday that is was still unclear why the company was ready to go so far this time. Although penalties under the Clean Air Act can be severe, the EPA had told the company that it would not prosecute as long as Alyeska began to cooperate with OEC. By the end of the day, Alyeska had agreed to do exactly that.

Alyeska maintained, however, that it wanted EPA's assurance in writing.

EPA officials in Seattle have said that no company has ever fought them so early in the enforcement process. Usually, they wait until the agency decides to go to court.

"Our intent was not to set Alyeska up for prosecution," said spokesman Bob Jacobson. "Our goal was compliance. . . . The reason notices of violation carry deadlines is to prevent prolonged negotiations."

"In this case, it's worked."

In Alyeska's original permit, the company promised that air pollution "would be virtually zero, when in fact emissions are about 350 tons per year." Jacobson said.

Although EPA claimed success for its regulatory pressure tactic, Jacobson said the

agency was alarmed that Holland's restraining order could set a precedent that could permanently weaken the Clean Air Act. He said the agency might challenge the ruling.

The 1986 Presidential Commission on the Space Shuttle Challenger Accident should serve as model for the Presidential Task Force on TAPS. *Exxon Valdez* was not just "an accident." A comprehensive engineering-environmental audit and review of compliance with laws is essential to restore public and congressional confidence in this system.

Mr. BONIOR. Mr. Speaker, I yield 3 minutes to the gentleman from North Carolina [Mr. JONES].

Mr. JONES of North Carolina. Mr. Speaker, of course it is late, but let us be very clear about this debate.

If you vote to kill this rule, you are voting to kill oilspill legislation in the 101st Congress.

The conference committee was disbanded yesterday when the Senate, by a vote of 99 to zero, approved this conference report.

If this rule is not approved, it will be impossible to pull together everything and everyone required to start a new conference.

We will lose what is just a short debate and maybe a couple of votes away—a comprehensive oil pollution and prevention law with a $1 billion fund to help clean up oilspills.

After 15 years of trying to pass an oilspill bill; after 9 months of intense negotiations in this Congress; after the *Exxon Valdez* spill in Alaska; after the oilspill in Texas City Harbor; after the oilspill in Bayonne, NJ; after the gas spill in the Hudson River; after the oilspill in the Houston ship channel; after the spill off the coast of Rhode Island; after the spill in the Delaware River; after the gas spill in the East River of New York; after two spills in the Virgin Islands; after the spill in Honolulu Harbor; after numerous spills in the New York-New Jersey area; after the spill in the Bering Sea of Alaska; after the Huntington Beach spill in California; after the *Mega Borg* spill in the Gulf of Mexico; and, after last Saturday's spill of 500,000 gallons of heavy oil into Galveston Bay; do you really want to kill oilspill legislation?

Do you really want to kill this conference report over a very modest proposal that allows the citizens of North Carolina to have adequate environmental information before an offshore well—the first ever off their coast—is drilled?

I do not believe that the Members are prepared to throw everything away because the residents of coastal North Carolina want to know a little more about the likely impacts of drilling off the Cape Hatteras National Seashore.

North Carolina is asking even less than the residents of California. The President has protected practically the entire California coast from oil leasing until after the year 2000.

North Carolina is asking even less than the residents of New England. The President has protected the entire North Atlantic area until after the year 2000.

North Carolina is asking even less than the citizens of south Florida. The President has protected this area until after the year 2000 and has even proposed to buy back existing leases.

North Carolina is asking even less than the residents of Washington and Oregon. The President has protected them until after the year 2000.

But, in his offshore moratoria proposal, the President has forgotten about North Carolina.

Well, I have not.

My outer banks provision in the conference report provides a 1-year delay—until October of 1991—before drilling can occur—to make sure we know what we are doing there.

This is not a 10-year moratorium—as the President has proposed for most other coastal areas.

This does not cancel or buy back any leases off North Carolina—as the President has proposed for Florida.

This simply provides the residents of North Carolina a small amount of protection—far less than that provided by the President for so many other areas.

Treating the citizens of North Carolina fairly is long overdue—and so is the passage of oilspill legislation.

Vote for the rule.

Mr. PASHAYAN. Mr. Speaker, I yield 9 minutes to the gentleman from Ohio [Mr. REGULA].

Mr. REGULA. Mr. Speaker, I thank the gentleman for yielding this time to me.

Mr. Speaker, I regret at this hour of the night to raise this issue. I think Chairman JONES and others have done a terrific job on the oillspill portion of this.

I strongly support the report, but there is a very important national issue embodied in this, a provision that was added in the conference that was not in the House bill, was not in the Senate bill, was not within the scope of the conference. It was simply added. That is why you have to be here tonight on a rule issue. If you noticed on the previous conference report, no rule was required, but it requires one on this because they have to waive points of order. This issue I am going to discuss would be subject to a point of order because of the lack of being in the scope of the conference.

I think events of recent days have emphasized the importance of the issue that is involved here. I think it is of sufficient magnitude that members of the Rules Committee should not make a decision on this item for the entire Nation. What I am talking about is the moratoria that is included in this bill for drilling off North Carolina.

Now, in the Subcommittee on Interior of the Appropriations Committee, we are going to deal with this. We already have included a moratoria off North Carolina out to 50 miles. It is on sale one to one, and that was taken care of; but the real issue is, and we rejected it in the subcommittee, is a moratorium on a sale that was made in 1981. This is a lease sale made by the U.S. Government, purchased by a buyer in good faith.

Now, $300 million was paid in a bonus bid to the U.S. Government and long since spent.

In the meantime, the purchaser, Mobil Oil, has spent in excess of $400 million in developing and getting ready to drill an exploratory well. This well is 45 miles off the coast of North Carolina. It would be one well to explore for the potential of gas.

Now, the structures there indicate that this has the potential for being the largest gas find, natural gas find, east of the Mississippi for many years.

This is a very important issue as we face an energy crisis in this country.

I want to emphasize again, and the gentleman from California did an excellent job in laying out the procedural situation, the motion that I am going to offer on the previous question, to vote no on that, will not kill the conference report. It simply will allow this body to make a very important policy decision that will affect the people of this Nation, who I might add own this resource, because what is beyond the 3-mile limit belongs to all the people of the United States.

My motion will allow the body to deal with an important policy question.

Fact: The lease was sold in 1981. It is 45 miles offshore. The structures indicate natural gas only, so it is not a spill issue. No North Carolina officials have said they will possess more information on Mobil's proposal than any State has ever had on any exploratory drilling plan.

□ 0120

Last year the Governor and the attorney general of North Carolina entered into a memorandum of understanding with the Secretary of the Interior. Now suddenly they want to put it all off, for whatever reason I do not know. There have been no hearings in either house. This is an exploratory well, one well only, and of 8,000 exploratory wells drilled in the last several years, not one has had a spill. So spillage is not the issue.

Even if we do not put on a moratorium, it probably will be at least 8 to 9 years before the well would actually produce gas. I mention this because as this body deals with moratoria, both here and on the Interior appropria-

tions, you have to understand that there is a long time lag totaling something like 15 years.

As we begin to face an energy crisis because of events around the world, we are not going to get immediate relief. That is why I think it is important to have an orderly development of the Outer Continental Shelf of resources.

Let me give Members the facts of why this is important. Today we are importing anywhere from 45 to 50 percent of our oil. It varies from month to month. Keep in mind that in the 1970's many Members were here in late night sessions dealing with the crisis. We were at the same time at about 45 percent exports. Suddenly OPEC put the screws on and we faced long lines and high prices.

We reacted by saying, among other things, that we should develop the Outer Continental Shelf.

Fact two: In 1985 Persian Gulf oil was 7 percent of U.S. consumption. In 1990 Persian Gulf oil is now 27 percent of U.S. consumption. Think of the power that gives Hussein.

In 1990 Persian Gulf oil is 37 percent of world consumption. I would also point out that the Clean Air Act, because of fuel switching and other requirements, undoubtedly will drive up the need for oil and natural gas.

Christopher Flavin, vice president of World Watch Institute, said in the last few days, "In a night's work, Hussein has irrevocably altered not only the balance of power in the Middle East, but the supply and demand balance in the world oil market."

Iraq doubled its share of reserves worldwide to about 200 billion barrels by taking over Kuwait. That makes them No. 2 in oil reserves. Saudi Arabia has about 255 billion barrels. the United States has 26 billion barrels of proven reserves.

Do we see what that means? Dictator Hussein has 8 times the proven reserves that we in the United States have, far away the world's largest consumers, in terms of the world's supply of oil.

Note the dangers involved in this kind of a situation. I think this issue of moratoria deserves a vote by this full House. It is an important policy question.

What does it mean if we do not address the problem? Prospectively, shortages. Higher prices. You have seen it today, gasoline up about 10 cents. Inflation, the stifling of growth.

This country is highly leveraged, in many different ways. If we are going to meet the demands of the times for people, we need to have continued growth.

The danger of reducing our supply of oil is great, and tonight we contribute, if we put this moratoria on, to exacerbate that problem.

A "yes" vote on the motion on the previous question will be to lock out the American people from an energy resource that they own. A "yes" vote will be to enhance the power of Dictator Hussein.

A "no" vote on the previous question will be a vote for energy independence, a vote for energy for the East and the Northeast of the United States, for natural gas. It will be a vote for growth, and it will be a vote for jobs.

Mr. Speaker, we are all familiar with what happened in 1978. Certainly those of us that are here.

I would close with a quote from George Santayana. We are all familiar with it, but it describes the conditions tonight. "Those who cannot remember the past are condemned to repeat it."

We do not want to repeat what happened in 1978. Therefore, I think this policy question of this moratoria should be addressed by this entire body. I ask for the support of Members to defeat the previous question.

Mr. BONIOR. Mr. Speaker, I yield 1 minute to the gentleman from North Carolina [Mr. JONES].

Mr. JONES of North Carolina. Mr. Speaker, I would say to the gentleman from Ohio [Mr. REGULA] that just finished, I am not sure he is familiar with what the amendment does. It does not stop drilling, it merely provides to October 1, 1991, an opportunity for additional scientific information. I think it is proper to note that the original announcement for this proposed drilling back in the early days was made in a city 250 miles from Dare County where the question is involved. So I feel like the people of that section are entitled to produce evidence, either good or bad, between now and October 1991. If the coast is clear, Mobil can start drilling the next morning.

Mr. BONIOR. Mr. Speaker, I yield 1 minute to the gentleman from New Jersey [Mr. TORRICELLI].

Mr. TORRICELLI. Mr. Speaker, I thank the gentleman for yielding.

I rise in support of the rule and support the legislation. Tonight, my friends, I wanted to review with you not only an important beginning in this legislation, but a challenge for the future. During this debate the gentleman from New Jersey [Mr. GALLO] and I challenged this institution to end 20 years of debate and begin putting double bottoms and double hulls on tankers, recognizing that spill after spill has proven that the construction and technology is available to end this abuse.

The legislation makes a beginning. In 20 years American tankers will have double hulls. It does not include barges. It does not include double bottoms in 7 years, as we had requested.

Mr. Speaker, I support this legislation. We make a beginning, but simply this.

Mr. Speaker, 20 years in the final analysis is not enough. Oil is spilling every day. In the waters of Houston only a few days ago we were reminded again. Three vehicles collided. Two went to the bottom. Their oil spilled into the gulf. They had a single hull. One was undamaged and it lost not a drop. It had a double hull.

Mr. Speaker, I would ask Members to support this legislation. Let us begin putting double hulls on our ships. We will be back. We can do better as well.

Mr. PASHAYAN. Mr. Speaker, I yield 3 minutes to the gentleman from Louisiana [Mr. LIVINGSTON].

Mr. LIVINGSTON. Mr. Speaker, I am a great admirer of the gentleman from North Carolina [Mr. JONES], but I am concerned about the provision in the conference report which specifically "prohibits new leasing, exploration, or development of the offshore of North Carolina until October 1, 1991," Now, that is a prohibition. That is a moratorium. This Congress has gotten into the habit of putting moratoria on every development that it seems to think is environmentally sensitive, and we are doing it with great regularity. Those moratoria were crowned by our own President, who declared moratoria all around the Outer Continental Shelf on all three sides of the country.

□ 0130

Now it seems to me that that is a mistake, and that that mistake has become painfully apparent in the last 2 days when Saddam Hussein marched across Kuwait, took it over, and now controls 20 percent of the world's oil reserves. If he goes further and invades Saudi Arabia, he may control one-half of the world's oil reserves. That is a very dangerous proposition.

I would suggest that this House was mistaken when in years past we acquiesced to environmental demands that were more strident than they deserve to be. This particular demand was not voted on by the House, was not voted on by the Senate, and was put into the conference report in the wee hours of the night. We have never had an opportunity to vote on it.

Consider that we stopped building nuclear energy plants back in 1980 when we declared that nuclear power was hazardous; that we cut off coal because of the Clean Air Act and what burned coal does to the environment; that we stopped oil production with moratoria placed on offshore drilling on the east coast, the west coast, and the Gulf of Mexico; and that we now have this provision which imposes a mortorium on a gas well.

The chairman pointed out the *Exxon Valdez*, the New Jersey oilspill, the Houston Channel oilspill as reasons for his amendment. Those were oilspills. We are talking about a gas

well here. Gas doesn't pollute. We are talking about a moratorium on exploration that has been worked on between State and Federal authorities for the last 9 years. We are talking about a lease costing the private developer some $700 million.

We are talking about a lease with the potential of being the longest gas reserves east of the Mississippi River. We are talking about abandoning this find at a time that Saddam Hussein was marching across Kuwait, and threatening Saudi Arabia. We are saying to the world that we have closed off nuclear energy, coal, and oil, and now we are closing off natural gas.

For a country that currently imports 50 percent of its energy reserves, and will in all likelihood import a much greater amount in the future, and when the Northeastern section of this United States imports 100 percent of its energy reserves, I think to not vote no on this previous question is to commit economic suicide.

I urge a no vote on this previous question.

Mr. BONIOR. Mr. Speaker, I yield 2 minutes to the gentleman from New Jersey [Mr. SAXTON].

Mr. SAXTON. Mr. Speaker, I rise in support of the rule.

It was many months ago that we started this process, and many of us have been very concerned about the subject of oilspills and how to prevent them, and how to clean up, and how to pay for the cleanup, and who is going to pay for the cleanup.

In this bill, because of activity, and think of the activity that we have been through, the 9 months of consideration that we have given this bill in the Merchant Marine and Fisheries Committee, in the subcommittees of that committee, in the Committee on Science, Space, and Technology under the leadership of Mr. ROE and Mr. WALKER, the Public Works and Transportation Committee, the Ways and Means Committee, and the conference involving the Senate and this House, and the many hours and days and weeks and months of work that have gone into this bill in getting us here at this late hour tonight. And while it may be late tonight, it certainly is not too late to vote aye on this rule.

In fact, we are right on time. Think about the events that have occurred since we started this process, just after the event in Alaska. We have had events in Houston, oilspills in Rhode Island, in Galveston, TX, in Philadelphia, and in the Kill van Kull, and in every single instance we were ill prepared, ill prepared to prevent those accidents from happening, and ill prepared to clean them up and pay for them.

This bill covers a wide range of concerns that we have all had. It provides a way to pay for them with $1 billion paid for by the industry. It provides for prevention techniques and education and it provides for adequate ways to clean up oilspills.

So I ask my colleagues on both sides of the aisle to support this rule tonight.

Mr. BONIOR. Mr. Speaker, I yield 2½ minutes to the gentlewoman from Rhode Island [Ms. SCHNEIDER].

Ms. SCHNEIDER. Mr. Speaker, I rise today in strong support for the rule on H.R. 1465, the Oil Pollution Act of 1990. This rule will expedite the enactment of oilspill legislation, which this body has been trying to do for over a decade.

Chairman JONES introduced H.R. 1465 1 week before the *Exxon Valdez* oilspill and has worked tirelessly on the bill ever since. A number of my colleagues today have taken issue with a provision which puts a 1-year moratorium on offshore oil and gas leasing off of North Carolina's Outer Banks. They have argued that the situation in Kuwait should preclude any such moratorium. It is a false dichotomy, however, to argue that we must choose between offshore drilling and importing foreign oil. The truth of the matter is that neither of these options represent the least-cost energy option for American consumers.

Study after study clearly shows that improving the energy efficiency of our vehicles, buildings, appliances, and factories is the least-cost option. The U.S. energy savings potential through these options is enormous. Commercially available technologies offer us the opportunity to cut the Nation's $400 billion annual energy bill in half. Simply raising Federal vehicle fuel economy standards to 45 miles per gallon would achieve the savings of 16 billion barrels of oil—that is more oil than could be extracted from the waters off the Pacific, Atlantic, and Alaskan coasts combined.

Achieving these efficiency gains should be our top priority. Doing so will save Americans billions of dollars on their energy bills, reduce our dependency on vulnerable foreign oil imports, and reduce the U.S. trade deficit by tens of billions of dollars each year. Furthermore, such policies would complement H.R. 1465 by reducing the risk of oilspills because of the reduction in imported oil, as well as achieving cost-free and tax-free reductions in urban smog, acid rain, and global greenhouse gas pollutants.

Mr. Speaker, I support H.R. 1465 with its outer banks moratorium provision and I strongly urge my colleagues to support this rule and to support the conference report on H.R. 1465.

Mr. BONIOR. Mr. Speaker, I yield 2 minutes to the gentleman from North Carolina [Mr. ROSE].

Mr. ROSE. Mr. Speaker, I have in my hand a letter from our former colleague, Gov. Jim Martin of North Carolina, asking that we adopt this rule. Governor Martin served with all of us in this House for a great many years, and he was horrified when the President stopped offshore drilling off the coast of California and off the coast of Florida and left North Carolina out. And so he began writing all of us, wrote to Mr. JONES, and Mr. JONES did exactly what your former colleague asked him to do, he put this in this legislation.

This is vitally important to the interests of my State and to the people of North Carolina, and to our former colleague, a Member of this body.

I urge all Members to adopt this rule for a great many reasons, but certainly for the good of our State of North Carolina.

I yield back the balance of my time.

Mr. PASHAYAN. Mr. Speaker, I yield 3 minutes to the gentleman from Montana [Mr. MARLENEE].

Mr. MARLENEE. Mr. Speaker, let us listen. What is it we hear? Why, it sounds like the flutter of wings, sounds like the cackle from a henhouse.

Why, it's the chickens coming home to roost, that is what it is. That is right.

It is long gas lines come home to roost on the environmental clothesline. It is lights out at 9 o'clock at night and no hot water in the buildings. They have come to roost on the liberals' doorstep. It's the thermostat police. Get your sweaters out, winter is right around the corner.

Does this country have an energy policy? No; the only energy policy that this country has seen fit to develop is called the National Environmental Policy Act, the Clean Air Act, moratoriums on Outer Continental Shelf drilling, and let us stop drilling for oil in ANWR.

□ 0140

That is the flawed energy policy of this country, an energy policy by those who would tremble and who would shake every time we have a vote in this Congress that is labeled "environmental."

You cannot drill on public lands, they are for the backpackers and the fern feelers. We cannot have any Outer Continental Shelf drilling because it might ruin Jane Fonda's view; we cannot build a dam because it ruins canoeing.

Nuclear power? No; the general public does not understand. All they get is the science fiction peddled by the environmental activists and repeated by the media.

I wonder why are we even voting on an oil pollution bill. If we continue our present policies at our current rate of energy cutbacks, we will not have any oil to worry about. Why? Because the hot-tub liberals and the fern feelers and a gutless Congress has capitulated

to every environmental whim that we have seen come down the pike. Within a week, listen to me—you may be chuckling over there, but listen—within a week we will see gas stations curtailing hours of service because they cannot get the product to put to the customers during the regular working days.

All I can say is congratulations, Sierra Club, congratulations, Wilderness Society, congratulations to you over there and to some over here who have been the collaborators with this group of environmentalists. All I can say to the Americans is, "Count those roosting chickens and the voting records of the individual Congressmen; it could be something to read while you are waiting in the gas line."

Iraqi and Kuwait, the two countries account for 200 billion barrels of oil reserves, about one-fifth of the world's reserves located outside the Soviet Union, nearly one-tenth of the world's oil production—excluding the Soviet Union—in 1989.

Seizing Kuwait gives Iraqi President Saddam Hussein 20 percent of the world's oil reserves and 8.2 percent of total global production, providing him with significant leverage to manipulate prices.

Iraq's invasion spurred oil prices to a four-year peak with the price of North Sea crude oil futures, an OPEC benchmark, up $1.15 to $21.95 yesterday.

A dollar per barrel increase in the price of oil amounts to about a 5 cent increase in gas prices for consumers at the pump. U.S. net oil imports in 1989 were 7.1 million barrels a day. A dollar increase in oil prices adds about $2.6 billion to the cost of U.S. imports and to the U.S. trade deficit.

Iraq and Kuwait account for about 8.7 percent of American crude oil imports.

Foreign oil constitutes a major portion of the U.S. balance of trade deficit. The cost of U.S. crude oil and refined product imports surged 28 percent during 1989 to $49.6 billion. This accounted for more than 10 percent of the total cost of all U.S. imports. Overall trade deficit is $108.6 billion.

Domestic oil production fell to its lowest level in 25 years in 1989, from an average of 8.1 million barrels per day in 1988 to 7.6 million barrels per day in 1989, the largest year-to-year decline ever.

Future production declines will occur most rapidly in Alaska which currently accounts for nearly 25 percent of domestic crude oil production. Alaska North Slope has now passed its peak levels. The Prudhoe Bay field, the largest in the area, entered its decline phase in 1989. Alaskan production is expected to fall by nearly 50 percent, from 1.84 to .96 million barrels per day between 1990 and the year 2000.

Current estimate of undiscovered Federal OCS oil reserves is about 18 billion barrels. Estimate of natural gas reserves is about 145 trillion cubic feet.

The startup of production from the Point Arguello project, one of the largest U.S. offshore finds ever, has been delayed by local permitting procedures for more than 2 years.

Based on Department of the Interior estimates ANWR could contain more than 3.2 billion barrels of oil, production could reduce U.S. oil imports by nearly 9 percent by the year 2005. The area could yield 9 billion barrels of economically recoverable oil, rivaling the size of the Prudhoe Bay discovery.

Net oil imports into the United States have increased steadily since 1985, from 4.3 million barrels per day to 7.2 million barrels per day in 1989, an increase of 67 percent in just 4 years.

In the same period, net oil imports as a percentage of domestic consumption has increased from 27 to 42 percent.

Mr. PASHAYAN. Mr. Speaker, I yield 5 minutes to the gentleman from Alaska. [Mr. YOUNG].

Mr. YOUNG of Alaska. Mr. Speaker, I rise in support of the rule on H.R. 1465 the Oil Pollution Prevention Act of 1990.

Mr. Speaker, we have experience to teach us a simple lesson. the experience is the *Exxon Valdez* disaster and the lesson is that we need to have a comprehensive oilspill bill. Unfortunately, since the *Exxon Valdez* experience we have had other spills to teach us the same lesson. Huntington Beach, *Mega Borg*, *Kill van Kull*, and now the spill in the Houston shipping channel have shown that almost any area in this country is vulnerable. More importantly, the clock is running. This fact should strike fear into every Member of this House because, without this legislation, we have neither the plans nor the resources to implement a comprehensive response. In short, we know that we are going to have oilspills and we have the means to alleviate that problem. If we do not pass this rule and pass this bill we have been irresponsible.

Mr. Speaker, the *Exxon Valdez* was the force that drove this legislation to completion, but the bill is also the culmination of the 15 years of work. I would point out to my colleagues that the reason this bill has been on the table for so long is because of the many delicate compromises which have taken time and energy to resolve. The Senate passed the conference report yesterday and if we do not pass this rule today, the conference must be reassembled and, considering this bill spent 9 months in conference in its initial stay there, we will not see an oilspill bill passed in this Congress.

Every Member of this body knows that I generally favor utilizing the energy resources available beneath the OCS. It's a clean and secure way of reducing our dependence on Middle Eastern oil. After all, Saddam Hussein went to war so he could charge us more for gas.

More importantly, the merits of drilling on the North Carolina OCS are not at issue because with or without this 1-year moratorium, nobody will be drilling on the North Carolina OCS for at least a year anyway. Litigation between the State of North Carolina and the Secretary of the Interior has already tied up that portion of the OCS for quite a while. The Governor of North Carolina has filed suit alleging inconsistency on the part of the Secretary in granting leases to drill. Until that dispute is resolved we will see no drilling on the OCS there. We cannot let this single moratorium sought by the distinguished chairman from North Carolina stonewall this oilspill bill.

We cannot sacrifice the desperately needed safeguard contained in this bill simply because we disapprove of a drilling moratorium. Voting to refer the bill back to conference would be a symbolic vote against OCS moratoria and in favor of more energy independence. These are admirable, crucial, and viable goals. I have fought for more energy production from the OCS. Let's open up ANWR. The economy, national security, and commonsense demand that we take these harmless measures. But voting against this rule will not give the United States one additional drop of domestic oil. Let's vote against moratoria when the moratoria are costing us energy.

The conferees have done a good job in covering the necessary bases. We have preventive measures. The conference finally settled on a reasonable double-hull provision; 50 percent of the single-hulled tonnage would be out of circulation by the year 2000; 96 percent would be out by the year 2010. We will not soon see double hulls on oil tankers if this rule is not passed.

We don't really need double-hulled tankers if the tankers don't ever run into anything, but by voting against the rule, you are denying our pilots better navigational capability through improved vehicle traffic safety systems in our waterways.

Another preventive measure of this bill would ensure that key marine personnel would be screened thoroughly and stringently for chemical abuse and criminal offenses. If this rule is not passed, we will continue to entrust our shores to intoxicated mariners.

Mr. Speaker, this bill creates a comprehensive mechanism for liability and compensation. Shipowners will be required to show financial responsibility for at least $1,200 per gross ton, or roughly $120 million. If we do not pass this rule and this bill, we have robbed

future oilspill victims of any real ability to go after the perpetrators of their suffering. I hope there is no spill affecting your district because, if this bill is not passed tonight, your constituents will have nowhere to go for compensation. Of course, your constituents can still seek remedy in court. That's what the victims of the *Amoco Cadiz* spill did 11 years ago and they are still waiting to be paid a dime.

I would like to repeat that this body cannot simply excise the offensive moratorium and pass the bill. The conference would have to be resurrected. On a bill of this size and controversy, that would mean an undetermined, but assuredly lengthy, delay. In light of the recent rash of oil spills and the wholly inadequate responses which follow, we cannot afford to delay our preventive measures, delay our response measures, or delay our compensatory measures. More oilspills are coming and we must be prepared—it is that simple.

Mr. Speaker, 20 percent of our Nation's oil is produced in and transported through Alaska. Alaska suffered through the disaster which gave impetus to this bill. Accordingly, the conferees included several provisions to make Alaskan oil even more clean and secure to transport:

Oil containment and removal equipment will be prepositioned in the Prince William Sound sufficient to remove at least a 200,000 barrel spill. This act also provides for training of personnel to operate the equipment. Equipment includes skimmers, barges, and booms.

Expands and updates the Prince William Sound vessel traffic service system. This measure will expand the area monitored by four or five times. Updated equipment includes satellite tracking systems, radar, closed-circuit television, and shipboard surveillance.

The Prince William Sound Science Center will be established in Cordova to take the unique opportunity to study the causes and long-term effects of the *Exxon Valdez* oilspill.

A regional Coast Guard oilspill strike team will be created for Alaska.

A light to aid navigation will be positioned at Bligh Reef.

Pilots operating in the Prince William Sound will be required to have both State and Federal licenses—unprecedented in maritime law. This measure creates dual accountability—to both local authorities and the Coast Guard. This provision also encourages local pilotage by dictating that a pilot in the Prince William Sound cannot be a member of the crew of the ship being operated.

Alaskan municipalities will be retroactively reimbursed out of the national oilspill fund for increased expenditures—such as police, fire-and lost revenues incurred due to the *Exxon Valdez* spill.

Citizens advisory committees will be established in both the Prince William Sound and Cook Inlet. Local officials and local citizens will be able to coordinate preventive and response measures with operators and transporters in these two oil transport channels.

All vessels transporting oil through the Cook Inlet will be required to be accompanied by at least two tugs.

A Presidential task force will audit and report on the structural integrity and the effects of the trans-Alaska pipeline.

Alaskans and the entire country have suffered enough. Let's work to utilize our energy resources. But do not destroy this much-needed bill in order to kill a moratorium which has no practical impact.

Mr. LAGOMARSINO. Mr. Speaker, will the gentleman yield?

Mr. YOUNG of Alaska. I yield to the gentleman from California [Mr. LAGOMARSINO].

Mr. LAGOMARSINO. Mr. Speaker, I thank the gentleman for yielding.

Mr. Speaker, I just want to say that I endorse everything the gentleman said.

Mr. Speaker, I rise in support of the rule for consideration of the conference report on H.R. 1465, the Oil Pollution, Prevention, Response, Liability and Compensation Act of 1990, and specifically in support of the proposal of the chairman of the committee, the gentleman from North Carolina, for a moratorium on oil leasing off the shore of North Carolina until October 1, 1991.

H.R. 1465 is a major step forward in the prevention and cleanup of oilspills. As reported by the conference committee, it provides a comprehensive and well-crafted response to a serious problem: the qeustion of how oilspills can be prevented in the first place, cleaned up where they do occur, and how all this will be paid for.

The House conferees did a terrific job in upholding the House position on the crucial issues of nonpreemption of State laws, strict liability standards, and double hulls. They deserve our thanks, and our support. On behalf of the residents of the 19th district in California, I want to express appreciation to the chairman and the conferees for presenting us with a strong package—the first major revision of Federal oilspill prevention, liability and compensation laws in 15 years. We also thank the committee for including provisions directing the Coast Guard to undertake a study on the feasibility of establishing a tanker-free zone in the Santa Barbara Channel, and for its support of a current study of the feasibility of establishing a vessel traffic service system in the channel.

The inclusion of a moratorium on oil leasing off the shore of North Carolina is, I believe, an appropriate response to current conditions, giving Congress and the administration an opportunity to evaluate the environmental consequences of such action. President Bush has called for a similar moritorium, until at least 1996, on leasing in the Santa Barbara Channel, and it's only fair that North Carolina should be afforded similar consideration.

In conclusion, Mr. Speaker, in the interest of fairness, and appreciation, for the work of the chairman and the conferees, I urge my colleagues to support the rule, and the conference committee report. I yield back the balance of my time.

Mr. STUDDS. Mr. Speaker, will the gentleman yield?

Mr. YOUNG of Alaska. I yield to the gentleman from Massachusetts [Mr. STUDDS].

Mr. STUDDS. I thank the gentleman for yielding.

Mr. Speaker, I just want to say, no one has worked longer and harder than the gentleman from Alaska in behalf of his oil-scarred citizens and his home State. We have worked together for 15 years on this legislation.

While the gentleman is in the well, may I just ask: We are trying to understand the remarks of the gentleman from Montana [Mr. MARLENEE]. We have figured out the "hot-tub liberal," but we thought we would ask the gentleman "in the well" if he could define for us a fern feeler.

Mr. YOUNG of Alaska. Mr. Speaker, I would have to research that a little longer, take a little more time.

Mr. VENTO. Mr. Speaker, will the gentleman yield?

Mr. YOUNG of Alaska. I yield to the gentleman from Minnesota [Mr. VENTO].

Mr. VENTO. Mr. Speaker, I rise in strong support of this conference report. The conference has been a lengthy process because of the range and magnitude of issues. For more than a decade, the need for strong oilspill legislation, such as is presented in this measure today, has been increasingly apparent, and the repeated assaults on the marine and coastal environment from oilspills and similar incidents, have too long, gone unanswered by a national legislative response of the type now before the House.

After the wreck of the *Exxon Valdez* more than a year ago, many of us thought that at last the time was ripe for breaking the legislative logjam. Unfortunately, since then there have been far too many other similar events—most recently the ongoing situation affecting Galveston Bay and the environment and economy of the gulf coast.

Congress should have moved with more dispatch. But I am pleased we are finally acting today to approve this conference report.

As one of the conferees on the part of the Committee on Interior and Insular Affairs, I particularly want to express my satisfaction with the way that the issues relating to the Alaska pipeline system are dealt with in the conference report.

I strongly support the conference report's provisions relating to the disposition of the existing taps pipeline fund. The conference report requires that the fund's trustees act promptly to pay or otherwise resolve all pending claims, and includes provisions intended to assure that complete termination of the fund will not occur until resolution of those claims is complete. This measure further protects the rights of claimants to seek full relief, through both administrative and judicial remedies.

These are very important provisions. There are now a number of claims pending for compensation from damages suffered by fishermen and others as a result of incidents covered by the Alaska pipeline legislation now on the books. For too long, those claims have gone unresolved. It is high time that we insist that these parties have a resolution. I believe that the conference report, with the strong language of the managers, will assist in achieving that resolution.

Finally, Mr. Speaker, let me compliment the gentleman from California [Mr. MILLER] for the outstanding leadership that he has demonstrated, along with Chairman UDALL, in connection with the House oilspill bill and the conference report that is before us today. I believe that his efforts have been invaluable in enabling us to today act on a good, strong, and responsible bill that vastly improves our Nation's ability to respond effectively to the risks to the environment, to the economy, and to the lives of the American people from disasters like the wreck of the *Exxon Valdez* or recent events in the waters off New York, California, and Texas.

As our Nation and other nations around the globe—from Antarctica to Alaska, from the Caspian Sea to the Gulf of Mexico—continue to experience oilspills, the threat of uncontrolled and unregulated transportation systems despoiling our waters and lands increases, it is imperative that we work toward yet better national, and international solutions and standards to efficiently clean up the inevitable oilspills and to prevent to the greatest extent possible that which is avoidable. Too often common sense is left behind in the blind drive to profiteer at the expense of our natural environment. Our constituents, our Nation, and people around the globe look to the United States to provide strong leadership to address this type of damage, this global assault on the remnant pieces of pristine lands and waters. This measure is a step, tentative but positive, to begin to live up to the mantle of leadership needed regarding the global environment and the responsibility for the legacy of future generations.

Mr. PASHAYAN. Mr. Speaker, I yield such time as he may consume to the gentleman from Florida [Mr. Goss].

Mr. GOSS. Mr. Speaker, I rise in support of the rule and commend Chairman JONES for his persistence and hard work.

Mr. Speaker, tonight we have the opportunity to complete some very necessary work that began more than 15 years ago and which lead to the adoption of landmark oilspill prevention legislation by this House 8 months ago.

In the 8 months since we passed the oilspill bill, the conference process has taken place, and unfortunately so have many disastrous oilspills. *Arthur Kill,* the *Mega Borg* explosion, and now Galveston Bay have repeatedly awakened the Nation's conscience to the heavy toll our coasts endure from up to 8,000 spills a year. Continuously, our Nation has revealed itself to be badly underprepared to effectively combat oilspills.

This debate focuses on the rule, and not the bill itself. However, if we defeat this rule, our Nation will be unnecessarily left at risk by the 600 to 1,000 oilspills which we can reasonably project could happen in the next 1 to 2 months. That's neither sound fiscal policy nor wise environmental policy.

We have good legislation before us whose timeliness cannot be contested. Now is not the moment to delay this bill over some last minute minutiae.

Our Nations' energy security obviously must not be held hostage by the threat posed by a dangerous madman in Iraq, and similarly we also cannot allow our Nation's coasts to be held hostage to the daily barrage of oilspills against which we need better defenses.

We need the oilspill cleanup trust fund. We need the emergency strike teams. We need the research and development funds to fight future spills. Mr. Speaker, we need an oilspill bill, and we need it now. I urge my colleagues to support the rule and the bill.

Mr. PASHAYAN. Mr Speaker, I yield 1 minute to the gentlewoman from Maryland [Mrs. BENTLEY].

Mrs. BENTLEY. Mr. Speaker, I rise in support of the rule for H.R. 1465—the Oil Pollution Prevention and Liability Act.

For the past year, the Nation has been faced with the need to clean up oil spills on virtually all of its coasts. H.R. 1465 contains the comprehensive measures—such as double hulls on tankers—designed to prevent such disasters and adequately address them should they occur in the future.

As has been said on this floor already, the contents of this bill are extremely vital to the future of this country—to its energy future—particularly in view of this week's events.

Therefore, we must proceed to pass this important piece of legislation now. We cannot afford any delay.

Mr. Speaker, this not a perfect rule, but I support the rule and I urge my colleagues to do likewise in the name of marine safety and protecting the environment.

Mr. BONIOR. Mr. Speaker, I yield such time as he may consume to the gentleman from North Carolina [Mr. VALENTINE].

Mr. VALENTINE. Mr. Speaker, I rise in support of the rule.

Mr. BONIOR. Mr. Speaker, I yield such time as he may consume to the gentleman from Oregon [Mr. WYDEN].

Mr. WYDEN. Mr. Speaker, I rise in support of the rule and the legislation.

Mr. Speaker, I rise to congratulate my colleagues who worked so long, and so hard to hammer out the Oil Pollution Prevention Response, Liability and Compensation Act before this House, today.

This legislation is a giant step forward in the protection of our Nation's natural marine treasures. Importantly, for the people of the Pacific Northwest, this legislation has significant protections for two crown jewels of our region—the Columbia River and Puget Sound. Both receive significant traffic in petroleum and fertilizer cargoes. Both will get new safeguards against spills, and assurances for more rapid and effective cleanup under this bill.

I also thank the conferees for their willingness to consider and incorporate language on enforcement of contingency planning which mirrored legislation introduced last spring by me and two Oregon colleagues—LES AUCOIN and PETER DEFAZIO. This much-needed addition will give the Environmental Protection Agency a significant new hammer—fines of up to $25,000 per day—to use against hazardous chemical carriers who refuse to do good-faith contingency planning for spills. This kind of good-faith planning—planning that includes the provision of equipment and personnel needed to do the job—greatly reduces the bad effects of spills when they do occur. One need look no further than the *Exxon Valdez* disaster to see what happens when planning is poor, half-hearted, or non-existent: spill impacts are many times worse, and many times more expensive to deal with.

This bill helps cure that problem as well as many others concerning the protection of this Nation's coastlines and waterways. I urge my colleagues to vote for it. I urge the President to sign it.

Mr. BONIOR. Mr. Speaker, I yield 1 minute to the gentleman from New Jersey [Mr. HUGHES].

Mr. HUGHES. Mr. Speaker, just briefly, putting aside the merits of the North Carolina issue—and I think there is sufficient justification—is this fact: A vote against the previous question basically, and a defeat of the rule, is a defeat really of oilspill legislation for the eighth time, I believe, since I have been here.

We have sent seven oil pollution bills to the Senate over the 15½ years that I have been here. It has taken us the better part of 1½ years to move this through to this point, through seven different committees of the House and probably one of the most painful conferences that has taken place, and frankly the conference has been disbanded.

So I would urge you to vote for the previous question, and for the rule.

Mr. BONIOR. Mr. Speaker, I yield 1 minute to the gentleman from Massachusetts [Mr. STUDDS].

Mr. STUDDS. Mr. Speaker, I rise in enthusiastic and relieved support of this conference report.

I first introduced a comprehensive oilspill liability bill 15 years ago, in 1975. Two years ago, I introduced a bill to require that oil tankers have double bottoms. And there were many times during that decade and more that I thought this day would never come. For years, we were told that a bill like this would place too great a burden on the oil industry; that the insurance industry wouldn't be happy; that the operators of foreign flag ships would object; that oilspills are not, in any case, a serious problem; that big spills don't happen; and that the environment isn't harmed when they do.

Those arguments were always wrong, but ironically it took an Exxon tanker to prove them wrong.

As a result, we bring to the floor today a bill that, in my judgment, will take its place alongside the National Environmental Policy Act, the Clean Air Act, and the Clean Water Act as one of the landmark pieces of environmental legislation in our history. The bill is strong, it is comprehensive, it is more than timely, and it is important, not just to one part of our country but to every region and State and community that has a body of water capable of supporting the transportation of oil.

Although this bill has been in the works for years, it derives much of its urgency from that Good Friday eve 16 months ago; that night when 11 million gallons of crude oil spilled into one of the richest and most beautiful bodies of water on Earth, not as a result of a storm or natural disaster, but because of inexcusable human error compounded by a decade of greed on the part of Exxon and Alyeska, and complacency on the part of government at all levels.

The *Exxon Valdez* spill has been followed by others—in the Delaware River; off Newport, RI; at Huntington Beach; in the Gulf of Mexico; twice in the Houston ship channel; twice very recently in Buzzards Bay; and every other week or so in the Arthur Kill.

And with each incident, we learn more about the inadequacy of current law and more about the need for this bill.

Our goal in this legislation, first and foremost, is not to clean up oilspills; it is to prevent oilspills. That means tougher penalties, better navigation systems, better operating practices; and an ironclad requirement for double hulls, not just for U.S. tankers, but for foreign tankers in U.S. waters and U.S. ports.

Our goal is to improve our response to oilspills, through better planning, better equipment, better training, and by requiring that spills be cleaned up completely and in compliance not only with Federal but also State law.

Our goal is to make certain that, when a spill occurs, the polluter—not the taxpayer—will pay; and to make certain that fishermen and property owners and hotel operators and others hurt by a spill will be compensated—not 7 years from now, not after lawyers have taken half or three-quarters of the money, but quickly and fairly.

Our goal is to make certain that damaged natural resources are restored completely, or that equivalent resources are acquired. To make certain that after a spill, the polluter's duty is not to his stockholders; it is to the public—and that duty is to make the environment whole.

Our goal is to preserve the right of States to protect their own citizens. The oil industry demanded that we preempt State rights. We said no. We said that State governments have the right to pass laws and impose fees to proctect their citizens and their natural resources and their environments; they have a right to a voice in oilspill cleanup operations; they have a right to tell a company like Exxon that, "What you have done is not enough, you must do more."

In short, our goal in this bill is to create a comprehensive system for dealing with oilspills that guarantees effective prevention, full restoration, fair compensation, and rapid response.

That is our goal, and with the support of this House, that goal, after 15 years of effort, is finally at hand.

Mr. Speaker, I want to close by expressing my thanks and admiration to Chairman JONES, for his leadership, for the fair way in which he managed this conference, and for the deft way he managed to wangle protection for the Outer Banks into this bill. To quote the Charlotte News and Observer, "On the broken field of Congressional procedures—Mr. JONES—still has the swivel hips of a 20-year-old running back."

I congratulate, as well, the leadership of the Committee on Public Works and Transportation, especially Mr. ANDERSON and Mr. NOWAK, for standing firm, along with the gentleman from California [Mr. MILLER], in support of the environmentally tough provisions of this bill.

I also congratulate Mr. YOUNG of Alaska for fighting hard in behalf of his State and its oilspill scarred citizens; and I want to thank Secretary of Transportation Samuel Skinner and the Commandant of the Coast Guard, Admiral Kime, for their constructive approach to this bill.

Mr. Speaker, it is said that good things take time. In this case, that principle has been carried to extremes. But passage of this bill proves, if nothing else, that perseverance pays off; that you can fight an idea whose time, has come, but only for a decade or so; and that even Congress, if hit over the head often enough and publicly enough and long enough, can sometimes be persuaded to do the right thing.

I urge adoption of this conference report.

Before I close, there are a few sections of this conference report that I had a particular hand in and the intent behind which I would like to make clear.

First, I want to clarify our intent with respect to section 1006, pertaining to natural resource damages. The overriding purpose of this section is to guarantee that the public will be compensated fully and fairly for damages to natural resources resulting from oil pollution.

The section requires the Department of Commerce to develop regulations for assessing those damages and for specifying what the measure of damages shall be. And it requires that sums recovered by trustees be used to restore, repair, or acquire the equivalent of the natural resources that were damaged.

Perhaps the most controversial issue addressed by this section of the bill is the question of what the appropriate measure of damages should be in the event that natural resources are damaged by an oilspill. The language in the bill that speaks to this point was originally added, at my request, shortly before we brought this bill to the floor of the House last fall.

Under the bill, the measure of damages for injury to natural resources shall be the cost of restoring, rehabilitating, replacing, or acquiring the equivalent of, the damaged natural resources, plus the diminution in value of those resources pending restoration.

This language is intended to reflect no more nor less than the measure of damages cited by the U.S. Circuit Court of Appeals when it recently overturned natural resource damage assessment regulations issued by the Department of the Interior under the Superfund Act—*Ohio et al.* v. *Department of the Interior,* 880 F. 2d 432, 462-480 (D.C. Cir. 1989). Thus, the measure of damages shall include, to quote the court, "restoration costs" and compensation for "reliably calculated use values," and "other factors in addition to use values."

A second provision of the bill that I would like to emphasize pertains to the adequate manning of both United States and foreign-flag oil tankers operating in U.S. waters.

Twelve years ago, the Liberian flag tanker *Argo Merchant* ran aground off Nantucket because, in the eloquent but understated words of then Coast Guard Adm. Mike Benkert, "the master and the navigator screwed up."

Largely in response to that incident, the International Maritime Organiza-

tion developed, with U.S. support, an International Agreement on Standards of Training and Watchkeeping. Although the United States has never ratified that agreement, the standards embodied in it can fairly be said to constitute customary international law.

Unfortunately, in June 1989, the Greek-flag tanker *World Prodigy* ran aground off Newport, RI and spilled almost 300,000 barrels of oil. The captain of the vessel has blamed the incident on the fact that he was so shorthanded that, at the time it occurred, he had gone 36 hours without sleep, and was acting not only as the captain on the bridge but as lookout, radio operator, and navigator as well.

That same month, the Uruguayan flag *Presidente Rivera* struck a reef in the Delaware River after its captain, who was on his first voyage in that position, and his chief mate, who was on his second, decided to drop anchor while the vessel was fully under way.

More than 90 percent of the oil we import enters the United States on foreign-flag tankers. And the number of foreign-flag tankers entering U.S. ports has risen by 57 percent during the last 3 years. How do we make certain that the people who operate those tankers are qualified to do so? Clearly, the development of the International Agreement on Standards of Training and Watchkeeping is not enough.

The issue raised in both the *World Prodigy* case and the *Presidente Rivera* case is not whether the legal standards of the flag state were sufficient but whether those standards were being effectively enforced by the flag state. In each of these cases, the obvious answer was no.

That is why section 4106 of the conference report requires the Secretary of Transportation to evaluate the manning, training, qualification, and watchkeeping standards of any nation whose vessel is involved in a significant maritime casualty in U.S. waters. If the Secretary determines that the nation has failed to maintain and enforce standards that are at least equivalent to customary international law, the Secretary shall prohibit vessels issued documentation by that country from entering the United States.

The purpose of this section is to demonstrate our determination to protect U.S. citizens and U.S. resources from substandard, fly-by-night foreign-flag operations such as the *Argo Merchant*, the *World Prodigy*, and the *Presidente Rivera*. The language in section 4106 gives the Secretary all the authority needed to provide that protection. It is our intent that this authority be used agressively and firmly in behalf of U.S. interests.

It is equally important that U.S. flag tankers be adequately mannered and operated. In its excellent report on the *Exxon Valdez* spill, the State of Alaska questioned the Coast Guard's decision in May 1988 to authorize reduced manning levels and unattended operating rooms on the *Exxon Valdez* and its sister vessels. The State also criticized Exxon for, first, failing to comply with the certificate of inspection for the *Exxon Valdez*; second, failing to plan for crew rest and alertness on trips from Valdez; third, failing to tell the Coast Guard the truth about the extent of overtime work needed on its vessels; and fourth, for flatly and continually failing to obey the legal requirement that watch officers have at least 6 hours of rest within the 12 hours prior to getting under way.

Section 4111 of the bill requires the Secretary of Transportation to study and report back to Congress within 1 year on the adequacy of existing laws and regulations, including those governing manning and watchkeeping standards, to ensure the safe navigation of vessels transporting oil and hazardous substances in U.S. waters.

I believe it is essential for the Secretary and for the Coast Guard to understand that we in Congress do not view this requirement as just another study. There is growing concern, stemming only in part from the *Exxon Valdez* incident, that the executive branch may have grown lax in its regulation of the U.S. flag tanker fleet. It is especially important that the Secretary address the question of the enforceability of safety standards, because it does little good to set standards and then ignore them.

In conclusion, Mr. Speaker, I am delighted that the time for talking about oil pollution has finally past. The time for strong legislative action has come. Let us proceed to approve this conference report by an overwhelming vote. Let us send it to the White House to be signed into law. And let us implement it promptly and fully throughout America, beginning this month, from sea to shining sea.

□ 0150

Mr. PASHAYAN. Mr. Speaker, I yield 1 minute to the gentleman from New Jersey [Mr. GALLO]

Mr. GALLO. Mr. Speaker, I ask permission to revise and extend my remarks. I rise in support of the rule and the conference report.

In a time when Congress has decided to draw partisan lines on practically every issue, let us join together in a bipartisan effort to put environmental policies ahead of environmental politics.

On this issue, and perhaps this issue alone, we can go home during the August recess and tell our constituents that we took a real step forward to protect our environment. Our beaches, our wildlife, and our waterways will be safer and cleaner with the passage of this conference report. I urge you to support the rule.

The conference committee has worked very hard to provide a bill that addresses the devastating problems caused by oilspills. It does so by the creation of a Federal Oilspill Liability Trust Fund that provides up to $1 billion in oilspill response and cleanup. The money for this fund will come from a 5-cent-a-barrel fee on domestic and imported oil.

I am most pleased that the conference committee includes my double hull mandate for oil tankers. Later today I will speak more about the double hull provision adopted by the Conference Committee.

In addition to these accomplishments, the bill forms regional response teams within the Coast Guard to assist in cleaning up spills. For the first time, a national response center will be formed. Computers will be set up with lists of equipment and personnel that can be called upon to clean up spills that foul our waterways. Also, for the first time the Federal Government will be charged with the responsibility to direct the cleanup procedures of a spill.

I commend the decision by the committee to make spillers liable for cleanup costs and damages up to specified liability limits. It was decided to raise the current liability ceiling from $150 per gross ton to $1,200. The agreement requires owners and operators to guarantee their payment by purchasing insurance.

Moreover, the report sets unlimited liability limits for those spills caused by gross negligence, willful misconduct, or if the spillers failed to report the spill. In these cases the spiller will be required to pay the entire cost of the spill.

Other provisions include: a requirement to check driving records for alcohol-related offenses prior to issuing licenses to operate oil tankers; increased research on oil pollution control and development of technologies to assist in cleanup; and a requirement for Presidential approval of all contingency plans before vessels or facilities can transport or handle oil.

This agreement goes a long way in responding to the prevention and cleanup of oil spills. For this reason, Mr. Speaker, I support the passage of this report.

Mr. PASHAYAN. Mr. Speaker, I yield 1 minute to the gentleman from Ohio [Mr. REGULA].

Mr. REGULA. Mr. Speaker, let me emphasize that the vote is on the question of moratoria, and has nothing to do with the main content of the bill. As the gentleman from New Jersey said, it has been a long time, but this was added in the conference, was not in the House bill, not in the Senate bill. A very important question

of national policy. A vote no on the previous question simply allows Members to vote on the issue of the moratoria, and in no way affects the balance of the bill.

Mr. BONIOR. Mr. Speaker, I ask my colleagues to vote yes on the previous question and yes on the rule.

Mr. Speaker, I yield back the balance of my time, and I move the previous question on the resolution.

The SPEAKER pro tempore (Mr. MURTHA). The question is on ordering the previous question.

The question was taken; the Speaker pro tempore announced that the ayes appeared to have it.

RECORDED VOTE

Mr. REGULA. Mr. Speaker, I demand a recorded vote.

A recorded vote was ordered.

The vote was taken by electronic device, and there were—ayes 281, noes 82, not voting 69, as follows:

[Roll No. 319]

□ 0210

Messrs. WILSON, PAXON, and McCOLLUM changed their vote from "no" to "aye."

So the previous question was ordered.

The result of the vote was announced as above recorded.

The SPEAKER pro tempore (Mr. MURTHA). The question is on the resolution.

The resolution was agreed to.

A motion to reconsider was laid on the table.

PERMISSION FOR COMMITTEE ON SCIENCE, SPACE, AND TECHNOLOGY TO FILE SUNDRY REPORTS DURING DISTRICT WORK PERIOD

Mr. ROE. Mr. Speaker, I ask unanimous consent that the Committee on Science, Space, and Technology be permitted to file legislative reports during the August-September district work period on the following matters that have been ordered reported by the committee:

H.R. 2734, the National Ground Water Research Act of 1990;

H.R. 37, to authorize the water resources research activities of the U.S. Geological Survey;

H.R. 2984, the Gobal Change Research Act of 1990;

H.R. 1268, the National Biological Diversity Conservation and Environmental Research Act; and

H.R. 5155, the Indoor Air Quality Act of 1990.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New Jersey?

There was no objection.

CONFERENCE REPORT ON H.R. 1465, OIL POLLUTION ACT OF 1990

Mr. JONES of North Carolina. Mr. Speaker, pursuant to House Resolution 452, I call up the conference report on the bill (H.R. 1465) to establish limitations on liabiliity for damages resulting from oil pollution, to establish a fund for the payment of compensation for such damages, and for other purposes.

The Clerk read the title of the bill.

The SPEAKER pro tempore. Pursuant to House Resolution 452, the conference report is considered as having been read.

(For conference report and statement, see proceedings of the House of August 1, 1990, at page 21621.)

The SPEAKER pro tempore. The gentleman from North Carolina [Mr. JONES] will be recognized for 30 minutes, and the gentleman from Michigan [Mr. DAVIS] will be recognized for 30 minutes.

The Chair recognizes the gentleman from North Carolina [Mr. JONES].

Mr. JONES of North Carolina. Mr. Speaker, I yield 2 minutes to the gentleman from Illinois [Mr. ROSTENKOW-

SKI], the chairman of the Ways and Means Committee.

Mr. ROSTENKOWSKI. Mr. Speaker, I rise in support of the conference report on H.R. 1465, the Oil Pollution Act of 1990. The Committee on Ways and Means has worked with the Committee on Merchant Marine and Fisheries and other House committees to coordinate the provisions of the Internal Revenue Code dealing with the oilspill trust fund and the oilspill tax. Together, we have created a bill which should function well to ensure the availability of sufficient funds in the unfortunate event of future oilspills.

Last year, as a result of action taken by the Committee on Ways and Means during the budget reconciliation process, the oilspill tax was increased from 1.3 cents per barrel to 5 cents per barrel. The conference report presented today represents the next step in the development of a comprehensive Federal oilspill response. The Committee on Ways and Means is proud to have participated in the development of this historic legislation and commends the other committees for their hard work and perseverance.

Mr. JONES of North Carolina. Mr. Speaker, I yield such time as he may consume to the gentleman from Washington [Mr. MCDERMOTT].

Mr. McDERMOTT. Mr. Speaker, I rise in support of the conference report.

I am most pleased by the double-hull requirements contained in this report. These provisions will protect our coastal waters from the kinds of devastating oilspills we have seen in the last year.

However, the report has a schedule for the phaseout of tankers that, in some cases, allows single-hulled tankers to continue in service for 25 years. I think it is important to emphasize that this schedule does not suggest that a company is acting responsibly if it delays the conversion of its fleet.

In fact, Congress has set in this bill a standard of responsibility for the transportation of oil that requires double-hulled tankers. Companies that choose to ignore this standard until the last possible moment do so at their own risk. That risk is the full weight of liability for a spill from a single hulled tanker.

I commend my colleagues and their staffs for their many hours of work in completing this report and I urge its passage.

Mr. JONES of North Carolina. Mr. Speaker, I yield such time as she may consume to the gentlewoman from New York [Mrs. LOWEY].

Mrs. LOWEY of New York. Mr. Speaker, I rise in support of the conference agreement on H.R. 1465.

It is now almost 1½ years since the *Exxon Valdez* awakened this Nation to the catastrophic effect of oilspills. The American people looked on in horror as the environmental disaster in Prince William Sound filled the news. But the spills continue—hundreds per month—fouling beaches, wreaking havoc on life-generating estuaries, and costing a fortune in environmental damage.

As one who has seen the devastation along the Alaskan coastline and witnessed cleanup work in New York Harbor undone by oilspills that occur in the area 6 out of every 7 days, the agreement we will vote on today comes not a moment too soon.

The *Exxon Valdez* left in its wake some hard lessons. We learned that someone who wasn't allowed to drive a car could legally pilot a ship carrying millions of gallons of environmentally lethal crude oil. We found that contingency plans weren't worth the paper they're printed on without the equipment and the manpower on hand to do the job. We discovered that for all our technological achievements, an oilspill could reduce us to the futility of scrubbing rocks with paper towels. And we realized that when a spill of this magnitude occurred, we were left to the good graces of those responsible to see if the mess got cleaned up.

More than anything else, the *Exxon Valdez* spill and the thousands that followed it have shown us that once the oil hits the water, it's too late. The many people who worked over the last 1½ years to craft this oilspill legislation reject the notion that oilspills are a fact of life; that they are the cost of doing business.

As a nation, we can do better. The legislation we're considering today is a strong beginning.

After many months of investigations, hearings, debates, and negotiations, Congress stands poised to offer its first comprehensive response to the oilspill crisis in this country. The conferees have agreed on a comprehensive and far-reaching approach to the problem of oilspills that: Sets up a Federal system to clean up oilspills and compensate victims, establishes a national planning and response system to ensure the effective and immediate removal of oilspills in U.S. waters, mandates double hulls for oil tankers, and preserves the rights of States to impose liability for spills as they judge appropriate.

These final two provisions were the subject of long and difficult negotiations during the conference. The conferees wisely agreed to preserve the right of States to establish their own liability and compensation systems. States like New York, whose waters and coastlines are threatened by heavy tanker traffic, should have the freedom to impose standards that reflect the importance of the resources at risk. This legislation rightly protects those essential rights from encroachment by Federal law or international convention.

On double hulling, the conference agreement balances the need for better safeguards against spills with the economic realities of the shipping industry. The bill requires that all new tankers and barges operating in U.S. waters be double hulled and gradually phases out currently operating single hulled ships, beginning in 1995. By the year 2010, virtually all tankers and barges will be double hulled. Double hulls will prevent or lessen the severity of a significant number of spills.

On both of these issues, the conferees responded to the calls from the public and the will of both Houses of Congress to produce a strong oilspill bill with a heavy emphasis on prevention.

Mr. Speaker, today we have an opportunity to deliver on our mandate to protect our waterways from the threat of oilspills. The *Exxon Valdez* spill, for all its tragic repercussions, did provide the essential spur that enabled us to pass long-overdue legislation. In the wake of this devastation, we have a chance to address the almost daily destruction oilspills cause in waterways like New York Harbor, while we move to prevent another *Valdez*.

I want to congratulate the conferees for retaining a number of provisions that enhance the New York area's ability to respond to the threat of oilspills. These include committee report language which I authored to direct the President to develop enhanced oilspill contingency plans for Long Island Sound, New York Harbor, and the Hudson River. In addition, the bill includes provisions to create seven regional strike teams, locating one in the mid-Atlantic region to respond without delay to oilspills. Given the importance of time in minimizing the impact of a spill, it is essential that contingency personnel be located in the vicinity.

The bill also includes language based on my legislation to authorize the Coast Guard to check the national driver's register while considering candidates for Federal pilots licenses. From now on, the Coast Guard will be better equipped to identify personnel with drug and alcohol problems and keep them away from sensitive positions.

The conference report also contains a provision directing the Coast Guard to assess whether tankers should be prohibited from using the channel between Montauk Point and Block Island. This extremely narrow and shallow channel was the site of a major spill in 1970. For years, it was not used by tankers, but it is now being used increasingly to expedite access to Connecticut ports.

Finally, I would like to congratulate Chairman JONES of the full committee and Chairman TAUZIN of the subcommittee for their fine work in crafting this legislation and their tireless work throughout the process. I also want to praise the other members of the Merchant Marine Committee with whom I had the pleasure of working on this landmark legislation.

Comprehensive oilspill legislation has survived the long and tortuous legislative process. With today's vote, we christen a new era in U.S. maritime policy dedicated to ending the oilspill nightmare. The American people are fed up with oilspills, and this legislation reflects their will. It took an environmental catastrophe of historic proportions to bring about these long overdue changes. This legislation will do much to ensure that history does not repeat itself in our precious waterways. I urge the adoption of this conference report.

Mr. JONES of North Carolina. Mr. Speaker, I yield such time as he may consume to the gentleman from New Jersey [Mr. ROE].

Mr. ROE. Mr. Speaker, no less then seven committees in the House of Representatives and three Senate committees have combined their talents, energy, and hard work to craft the important legislative proposal before us today.

It is just shy of a miracle that so many committees and their staff, representing such a wide variety of interests and responsibilities,

have succeeded in coordinating their efforts to achieve a common goal.

In the House, the Science, Space, and Technology Committee has worked especially closely with the Committees on Public Works and Transportation and Merchant Marine and Fisheries to develop the research provisions in the bill. I want to commend my colleagues on all three of these committees for working so well together.

In particular, I want to commend the chairman of the conference, Chairman WALTER JONES, for his leadership, as well as the chairman of the Public Works Committee, GLENN ANDERSON, and the ranking minority members of those committees, BOB DAVIS and JOHN PAUL HAMMERSCHMIDT. I also want to commend our Senate colleagues, Majority Leader GEORGE MITCHELL, Senator ERNEST HOLLINGS, and Senator QUENTIN BURDICK and their minority counterparts, Senator DANFORTH and Senator CHAFEE.

The Oil Pollution Compensation and Liability Act represents a badly needed, comprehensive reorganization of our Nation's laws relating to oilspills.

Since the horrendous incident in Valdez, AK. Last year, dozens of oilspills continue to occur, soiling our beaches, killing our wildlife, and endangering our fisheries.

By dramatically increasing liability for oilspillers, providing funding for cleanup and compensation, and authorizing a research program that will greatly improve our oilspill prevention and cleanup capabilities, this law will go far in equipping the Nation with the defense system it needs against these devastating, and often preventable, accidents.

The Science Committee authored title VII of the conference substitute, which creates a comprehensive Federal oil pollution research and development program to be planned and coordinated by a newly created Interagency Coordinating Committee.

The catastrophic Valdez spill is only one of many spills that have made the inadequacy of our prevention and response capabilities all too apparent.

Time and time again, accidents occur, oil is spilled, and our response is too slow and ineffective. We've learned the hard way an important lesson: For spills we fail to prevent, an effective and timely response is paramount.

The research and development provisions in this bill respond to the urgent need to improve our prevention and response capabilities by reinvesting in and reinvigorating an oil pollution R&D program that was all but completely abandoned in the 1980's.

Designed to combine the knowledge, skills, and resources of the Federal Government, States, industry, and local experts, this R&D program will improve our ability to prevent major oilspills, to develop and test improved response and cleanup technologies, and to enhance our understanding of the environmental effects of oilspills.

The program also includes projects at three major U.S. ports, including one in the New Jersey-New York Harbor area, to demonstrate and test, in a real world environment, the best of the innovative prevention and response technologies and practices which will be the fruit of the research program.

Just since the beginning of this year, the New York-New Jersey Harbor area has been barraged with at least five separate incidents, which combined have resulted in the release to the environment of over a million gallons of oil.

Because this port is the busiest in the United States, with more than 100 million tons of petroleum moving through the port every year, the risk of future accidents is high.

This bill contains a provision which is designed to significantly decrease that risk—a demonstration project making the New York-New Jersey port of a real world testing ground for our best oil pollution technologies and methods, not only for cleaning up spills but for preventing them in the first place.

In construing the intent of the conference report's new section 7001(c)(6), which requires the Coast Guard to conduct this demonstration project, as well as similar projects on the gulf coast and on the Pacific Ocean, the Coast Guard should broadly define the three port areas specified in the statute. In the case of the project intended for the New York-New Jersey Harbor area, we intend the area covered for the project to include, but not be limited to, the greater port area of the Port of New York and New Jersey: Specifically, all ports on the waters inshore of a line between Sandy Hook, NJ, and Rockaway Point, NY; and south of the Tappan Zee Bridge on the Hudson River; and west of the Throgs Neck Bridge on the East River. Among the areas included in this are the upper and lower New York Bay; Raritan Bay and the lower reaches of the Raritan River; Arthur Kill and Kill Van Kull; Newark Bay and the lower reaches of the Passaic and Hackensack Rivers; Rockaway and East Rockaway inlets; the East River and the western end of Long Island Sound; and the lower Hudson River.

I also want to express my appreciation for the dedicated group of committee staff who have worked over many months to help bring this bill together. I want to particularly commend the work of the House Science Committee staff, Mike Rodemeyer, Anne Polansky, and Wes Warren, and their Senate counterparts, Mike Nussman, Bob Davison, Rich Innes, and Earl Comstock. I also want to note the special contributions from four House staff who have each spent a better part of the last 12 years working on this legislation: Ed Welch, Tom Kitsos, Duncan Smith, and Cynthia Wilkinson from the Merchant Marine Committee.

Mr. Speaker, the Nation simply cannot afford to neglect this important research need, or to continue to mismanage catastrophic oilspills.

I wholeheartedly support this important bill and urge the unanimous support of my colleagues.

Mr. JONES of North Carolina. Mr. Speaker, I yield such time as he may consume to the gentleman from Delaware [Mr. CARPER].

Mr. CARPER. Mr. Speaker, I rise in support of the conference report.

Mr. JONES of North Carolina. Mr. Speaker, I yield myself such time as I may consume.

Mr. JONES of North Carolina. Mr. Speaker, on March 16, 1989, I introduced H.R. 1465, the Oil Pollution Act of 1989. Just days later, the *Exxon Valdez* ran aground on Bligh Reef in Alaska. This biggest oilspill in U.S. history proved what my committee had been saying for years: we had to completely rewrite and update our woefully inadequate oilspill laws.

Today, we bring before the House the conference report on H.R. 1465. It is massive, comprehensive, and tough. Seven House committees and scores of individual Members have made significant contributions to the final product. It is truly the product of the House as a whole.

Since the *Exxon Valdez*, we have seen a steady and dismaying series of oilspills from tankers, terminals, and pipelines. Americans are saying "Enough is enough!" This bill echoes that cry.

In many respects, the conference agreement is tougher than either the House or Senate version. Let me highlight some of its key features.

First, this bill will help prevent spills from occurring. The most dramatic prevention measure is that all newly built tankers serving the United States will have double hulls. And the existing fleet of single hull tankers will be phased out, the oldest and biggest first, with 90 percent gone by the year 2005.

In addition, we upgrade operation and navigation standards. Licensing and manning requirements for crews will be strengthened and those who abuse alcohol and drugs will be weeded out. We enhance the Coast Guard's ability to monitor tanker traffic in ports with heavy tanker traffic.

Next, we require ports, tankers, and onshore and offshore facilities to plan for and respond to oilspills. The Coast Guard will greatly expand its system of strike teams across the country. Private industry will have to bear their share of the burden. They will have to provide much more oilspill containment and cleanup equipment.

Also, we discourage potential spillers by increasing their limits of liability eightfold over current law. And it will be strict liability; there will not have to be a showing of negligence. Tankers will be liable for $1,200 per gross ton, and facilities will be liable for as much as $350 million. Furthermore, these limits can be breached in cases of gross negligence. In addition, the Federal law does not preempt States, so they can impose even stricter requirements if they choose.

Finally, we make it easier for victims of oilspills to recover for economic damages, natural resource damages, subsistence loss, and others. They can seek reimbursement from the spiller or directly from the $1 billion Federal trust fund. The 1978 *Amoco Cadiz* spill off the coast of France was the biggest spill in history to come ashore. The litigation on that spill is still

going on after 12 years, and not one penny in damages has yet been paid. This bill will make sure that doesn't happen here.

Finally, we already have an oilspill trust fund financed by a 5-cents-per-barrel tax on oil. This bill will activate that trust fund, increase its size to $1 billion and increase its borrowing authority to handle catastrophic spills. That trust fund will provide the money to pay for the Federal activities called for under this conference agreement.

There are numerous other items in the bill, including a national research and development program, special protection for Prince William Sound and the North Carolina Outer Banks, treatment of the trans-Alaska pipeline, and conforming changes to the Internal Revenue Code.

I am proud that this legislation, which my committee has reported out in every Congress since 1976, has finally caught the attention of the country—and the Senate—which passed the bill yesterday by a vote of 99-0. Today, we have the opportunity and the responsibility to pass the most important environmental and transportation bill to emerge from the 101st Congress. Because of this legislation there will be fundamental changes in the way oil is transported to our coasts. Shippers of oil are going to be held accountable. Government is going to be far better prepared to prevent and respond to spills. Our citizens and our environment are going to be better protected. Americans deserve this bill. Let's give it to them.

Mr. JONES of North Carolina. Mr. Speaker, I yield such time as he may consume to the gentleman from New Jersey [Mr. HUGHES].

Mr. HUGHES. Mr. Speaker, I rise in support of the conference report on H.R. 1465, the Oil Pollution Act of 1990. Since 1977, I have worked with my colleagues on the Merchant Marine and Fisheries Committee to develop a comprehensive initiative to replace the existing patchwork of Federal and State laws.

It is clear from the rash of devastating accidents which have occurred around our country in the past 2 years, that we do not have the ability, or the resources, to adequately respond to oilspills.

The conference report provides a workable plan that emphasizes improved prevention, quicker response, and the development of better technology to clean up spills.

The conference report establishes a $1 billion fund, financed by the oil industry, through a 5-cent-per-barrel tax on oil, for the immediate cleanup of oilspills, and compensation for those who suffer damages from the spill. The fund would also be available to the Coast Guard, to purchase equipment and increase manpower, allowing them to effectively respond to spills in a timely manner.

In addition, the liability of ship operators and facilities would be increased significantly over current levels. In cases of gross negligence or willful misconduct, vessels and facilities would become entirely liable for cleanup costs and compensation.

Even with the best technologies and methodologies for response and remediation and under the best of circumstances our efforts for a timely response may be frustrated. As we import more oil and our ports get busier, we will surely be faced with another catastrophic oilspill, hopefully not as terrible as that which occurred in Prince William Sound, or as frequent as those which have ravaged the Arthur Kill this past spring and summer. It would be shortsighted and irresponsible not to pay at least as much attention to the prevention of oilspills as we do to clean up after a disaster. For this reason, the conference report requires tankers and barges to be fitted with double hulls. Clearly, double hulls will help prevent the release of oil when accidents do occur.

Mr. Speaker, we are long overdue in enacting a national policy addressing oilspills. I urge my colleagues' support of this conference report—an initiative that will finally enable us to develop a comprehensive approach to oilspill prevention, liability, and cleanup.

Mr. JONES of North Carolina. Mr. Speaker, I yield such time as he may consume to the gentleman from New York [Mr. NOWAK].

Mr. NOWAK. Mr. Speaker, I am pleased to rise in support of the conference report to accompany H.R. 1465, the Oil Pollution Act of 1990. I urge each of my colleagues to join me in the support of this legislation.

The Congress has had the issues of oilspill liability and compensation pending before it for more than a decade. Unfortunately, the House and Senate have been unable to resolve the differences so as to have the legislation enacted. Today, we have the opportunity to approve the resolution of our differences and to enact this badly needed legislation.

Each year, over 10,000 oilspills are reported which either pollute or threaten to pollute the U.S. waters. Although the majority of these spills are minor and are routinely removed or require no removal, questions have remained whether the current system of Federal and State laws could provide adequate response to a major spill.

Unfortunately, on March 24, 1989, the *Exxon Valdez* ran aground in Prince William Sound, Alaska, and demonstrated that current levels of preparedness were not adequate to respond to a major spill.

The conference agreement on the Oil Pollution Act of 1990 is based in large part upon previous bills which this House has approved concerning the assessment of oilspill liability and compensation to those parties who have been injured by an oilspill.

The conference agreement imposes strict, joint, and several liability upon a responsible party who discharges oil into or upon navigable waters or adjoining shorelines or the exclusive economic zone of the United States. This liability includes removal costs as well as damages to natural resources, damage to real or personal property, loss of subsistence use of natural resources, lost revenues to governments, and lost profits or impairment of earning capacity. It also provides that uncompensated claims will be paid out of an oilspill liability trust fund to be financed by a tax on the oil industry.

The legislation before the House today also includes provisions on prevention of spills, including expanding vessel traffic service systems, and authority to obtain access to information concerning alcohol and drug abuse contained in the National Driver Registry in making determinations concerning the issuance or revocation of licenses, certificates, or merchant mariner's documents.

To further aid in both the prevention of oilspills and in responding to oilspills should they occur, the legislation includes a new research and development title to develop a comprehensive program of oil pollution research, development, and demonstration among the Federal agencies, in cooperation and coordination with industry, universities, research institutions, State governments, and other Nations.

Other provisions in the bill designed to improve response to oilspills include new requirements for new or improved local contingency plans for tank vessels and facilities, ensuring cleanup of spills.

Following enactment of this legislation, the law will require that a Coast Guard Response Group located in each Coast Guard District to provide oilspill response and technical assistance. I am pleased that such a response group will be located in the Great Lakes district. The need for a prompt and effective response to an oilspill is particularly urgent in the Great Lakes, both because of environmental concerns and because the Great Lakes provide drinking water to over 24 million people in the Great Lakes basin. The legislation also provides for a regional research program on oil pollution, and includes the Great Lakes as one of the regions.

Mr. Speaker, the conference agreement on H.R. 1465 represents the culmination of long and difficult efforts by the House and Senate conferees. If any good is possible to come out of the tragic incident in Prince William Sound, Alaska on March 24, 1989, I hope that it can be the swift passage and enactment of this legislation to prevent, respond to, and assess liability for the discharge of oil into our Nation's waters.

Mr. DAVIS. Mr. Speaker, I yield myself such time as I may consume.

Mr. DAVIS. Mr. Speaker, this conference report represents years of effort on the part of those of us who have supported the creation of a comprehensive oilspill liability and compensation system. The oilspill system created under the Oil Pollution Act of 1990 is designed to prevent future oilspills, clean up oilspills that do occur, compensate victims of oilspills, and punish individuals responsible for oilspills.

However, as the Members who have followed the progress of the conference will know, I am terribly disappointed that the final product does not implement the international

protocols—a necessary part of a complete worldwide oilspill response regime. Nevertheless, this is a landmark piece of legislation that will benefit not only the victims of oilspills, but every American citizen who values the beauty of our coastal regions.

The legislation includes provisions to increase the safety of existing and future transportation vessels and operations, not the least of which is a rigorous but responsible schedule for phasing out the use of single-hull tankers. More than 40 percent of the present U.S.-flag tonnage will be gone by the year 2000; more than 80 percent by the year 2005, more than 90 percent by the year 2010, and essentially no single hulls will remain by the year 2014.

I am pleased to have had a hand in developing this legislation for many reasons, but most of all because of the additional oilspill prevention and removal capability this legislation provides to the Great Lakes region.

It requires the Secretary of State to review the international agreements and treaties with Canada to determine whether changes need to be made to the agreements to prevent future oilspills on the Great Lakes, to ensure an effective response to oilspills that may occur, and to fully compensate those who are injured by an oilspill on the Great Lakes. The Secretary must consult with the Great Lakes States, the International Joint Commission, the Environmental Protection Agency, and other appropriate agencies in conducting the review of international agreements. Within 6 months after enactment of the Oil Pollution Act, the Secretary of State is required to submit a report to the Congress on the results of the review of agreements and treaties.

The safety of vessel navigation on the Great Lakes will be enhanced by a provision included in this legislation to ensure that all pilots on Great Lakes vessels are licensed under the high standards required by the United States. This requirement will close the gap in existing law and protect the Great Lakes from oilspills resulting from the navigation errors of untrained or otherwise unqualified pilots.

The Oil Pollution Act of 1990 creates a national oilspill planning and response system to provide greater protection and prevention from oilspills to all coastal regions. Under this system, a national response unit, 10 Coast Guard oilspill response groups, and area committees in each Coast Guard district will coordinate oilspill contingency planning and cleanup. The Great Lakes will receive additional Coast Guard oilspill response capability under this system, including additional personnel and equipment.

The Great Lakes are the largest source of freshwater in the world, and research involving effective methods to clean up oilspills in this environment is badly needed. This legislation establishes a 10-region grant program for oilspill research by private and public institutions. The Great Lakes region is eligible for one of these grants to study the regional aspects of oil pollution, including prevention, removal, mitigation, and the effects of oilspills on regional environments.

Mr. Speaker, this has been a long and contentious conference with many divergent views and positions to be worked out. All of the House Members who participated are to be congratulated. I would like to especially commend Chairman WALTER B. JONES, who has strived for 16 years to pass this legislation, for guiding—and driving—the conference to completion.

I would like also to extend my gratitude and congratulations to all of the House staff who worked tirelessly over the past months. I would like to especially recognize my staff, Rebecca Dye, Lisa Pittman, Duncan Smith, and George Pence; Kip Robinson for Mr. LENT; Cyndy Wilkinson and Ed Welch, for Chairman JONES; BILL WOODWARD for Chairman STUDDS; Errol Tyler, Gabe Rozsa, Ken Kopocis, and Ben Grumbles, for Public Works; Anne Polansky, Wesley Warren, and John Doyle for Science and Technology; and, Jeff Petrich and Lee Forsgren for Interior.

Mr. DAVIS. Mr. Speaker, I yield such time as he may consume to the gentleman from New Jersey [Mr. GALLO].

Mr. GALLO. Mr. Speaker, I rise in support of the conference report. I wish to commend the House and Senate conferees for their hard work.

The conference agreement does most of what we set out to do. After 15 years of debate and study, we have finally done it—we have mandated double hulls.

Under the conference agreement, all new tankers must have double hulls and older vessels with single hulls will be phased out.

This is a major victory for the American people, and for our environment.

When I first introduced my double-hull bill, virtually everyone in Washington was talking about more study and more delay.

Fortunately, a number of my colleagues, in particular BOB TORRICELLI and STEVE GUNDERSON, saw the need for double hulls.

Since the Valdez accident, major spills have occured in: Rhode Island, New York, New Jersey, Houston, Delaware, Huntington Beach, CA, and Cape Cod, and most recently, Galveston.

As the number of spills increased, so did support of double hulls.

We know the facts: Double hulls are a proven technology; they increase the margin of safety between the oil and the water from an inch and a half of steel on a single-hulled vessel to as much as 12 feet; five of the last six major accidents could have been prevented with double hulls; a spill in the Detroit River was recently prevented, because the tanker had a double hull.

I do have one serious note of caution.

The final conference agreement fails to deal with the safety of barge vessels less than 5,000 gross tons; 70 barges a day operate in the New Jersey/New York Harbor alone, yet they will not be required to have double hulls until the year 2015.

Just 5 days ago, a double-hull tanker collided with two single-hulled barges in Galveston Bay. The double-hulled tanker hasn't leaked a drop.

But one barge has sunk, and the other is listing. The tragic result is that 500,000 gallons of crude have fouled the water and damaged the sensitive environment.

We must ask ourselves—could it have been prevented?

I am not confident that this bill has answered this serious question.

Our work is not yet done.

With the help of Congressman TORRICELLI, I will continue to push for measures that will increase safety requirements for barges.

But, overall, we have accomplished a great deal in this legislation.

We placed environmental policies ahead of environmental politics.

Today, we take the first significant step in preventing oilspills, not just responding to them after the damage is done.

Mr. DAVIS. Mr. Speaker, I yield such time as he may consume to the gentleman from New York [Mr. LENT].

Mr. LENT. Mr. Speaker, we have arrived at the moment that many of us have been looking forward to for years—approving oilspill legislation. As we all know, this process has taken almost 15 years.

I do not intend to dwell at length on the various parts of this legislation but I do think it is important to note the bill before us reflects the best possible compromise between the House- and Senate-passed bills.

I personally feel that we made a terrible mistake in eliminating the language relating to the International Oil Spill Protocols. I believe we will regret that step and I think it will come back to haunt us. But that was the will of the Members and we shall see what happens.

In title IV of the bill, one part deserves special attention. The language requiring double hulls on oil tankers and ocean-going barges reflects a sense of urgency in getting rid of older single-hulled vessels. The time has come to have new doubled-hulled vessels operating in our coastal waters. At the same time, the conferees recognized that you simply cannot build ships overnight and the Nation must continue to have tankers available to transport petroleum products to meet our energy demands.

There are only four exceptions to the double-hull requirements—vessels used only to respond to oilspills; vessels less than 5,000 ton—mostly inland barges—that will have double containment systems; vessels calling at a deepwater port; and the large vessels—or motherships—involved in lightering oil at least 60 miles offshore. By the year 2010, all single-hulled tank vessels will be gone from our waters.

In the parts of this bill dealing with liability and compensation, I believe the conferees acted wisely in removing the cargo owner liability provision that was in the original House-passed bill. That one item would have had a devastating effect on small, independent companies which provide home heating oil to the citizens of the northeast part of our country.

I want to personally thank Chairman JONES of the Merchant Marine and Fisheries Committee, who acted as the conference chairman, for his tireless work and I think we should voice our appreciation for the efforts of the staff of both Houses for the work that they put in on this measure. I know the conference took longer than all of us had originally expected but I believe that the efforts to work out these controversial issues has resulted in a better piece of legislation than if we had

rushed to finish a bill that was not properly crafted.

Mr. Speaker, I urge the Members to adopt this conference report.

Mr. DAVIS. Mr. Speaker, I yield such time as he may consume to the gentleman from Massachusetts [Mr. CONTE].

Mr. CONTE. Mr. Speaker, 16 months ago the *Exxon Valdez* rammed into Bligh Reef, spilling 10 million gallons of crude oil into Prince William Sound. Since then we have also had several other major oilspills, from the Pacific coast, to the Gulf of Mexico, to the eastern seaboard. Today we are considering legislation that will create for the first time a comprehensive oilspill prevention, response, liability, and compensation system—giving us the tools we need to handle future spills.

It has been a long time coming. Congress has been wrestling with oilspill legislation for over 15 years, but it took a disaster of epic proportions to push us to where we are today. H.R. 1465, the Oil Pollution Act, is landmark legislation. It clearly defines the responsibilities of the spiller, dramatically increases civil and criminal penalties, provides for improved Federal oversight of all aspects of oil transportation, and creates a $1 billion trust fund which will ensure that spills are cleaned up and that the victims of oilspills will not go uncompensated.

There are a few provisions which I would like particularly to note. First, the legislation mandates double hulls for all new tankers which operate in U.S. waters, and includes a phaseout of the existing single-hull fleet by 2010. This step is an absolutely necessary added protection against oilspills. Second, the necessary added protection against oilspills. Second, the legislation does not preempt State liability laws, therefore allowing States to pass even tougher standards, if they so desire. Third, the legislation answers, in no uncertain terms, the question of who is in charge. It gives the Coast Guard the ability to direct oilspill response without letting the spiller off the hook. Furthermore it requires that the President take charge of catastrophic spills on the scale of the *Exxon Valdez*.

Since the legislation creates additional responsibilities for the Coast Guard, I intend to ensure that the Coast Guard gets the resources it needs to fulfill those responsibilities. Already in the fiscal year 1991 transportation appropriations bill approved by the House, we provide $27 million for Coast Guard oilspill response, in anticipation of this legislation. We may well have to reevaluate that amount now that we have a final conference report. When we conference with the Senate I will ensure that we do commit the necessary resources to enable the Coast Guard to do the job.

Lastly, I want to mention how pleased I am that my legislation which enables the Coast Guard to determine whether merchant mariners have any history of driving under the influence of alcohol or drugs was incorporated into the final oilspill bill. The Coast Guard will now be able to access the National Driver Register and run a simple check of the driving records of those mariners, whenever they apply or renew their licenses. That added verification may someday make the difference in preventing another Valdez.

Mr. Speaker, I fully support the conference report before us today. It will make a considerable difference in the protection of our environment, and I think it is an excellent insurance policy for the country. I urge its adoption.

Mr. DAVIS. Mr. Speaker, I yield such time as he may consume to the gentleman from Arkansas [Mr. HAMMERSCHMIDT].

Mr. HAMMERSCHMIDT. Mr. Speaker, I rise in support of the conference report on H.R. 1465. I do so with considerable relief, tempered with a significant degree of apprehension. I am relieved because we now have legislation after a long and difficult process. I am apprehensive because it poses significant obstacles to an orderly and responsible system of oil transportation—obstacles that may prove too difficult to overcome.

The bill before us is the product of a decade and a half of negotiations. During that time the House passed oilspill legislation on several occasions but was frustrated due to an inability to reach agreement with the Senate on the issue of preemption. This year the House reversed its traditional position on this critical issue, clearing the path to a final agreement.

Mr. Speaker, while this is not the bill I would have drafted, it is certainly one I can and do support. I still continue to have concerns about some of the bill's provisions. Nonetheless, I am convinced that the existing patchwork of laws addressing liability for oilspills is unsatisfactory and must be replaced. This bill will ensure that we have a uniform Federal approach to liability even though it is not a national or an international approach without preemption and without the protocols.

The bill will also require enhanced safety and spill prevention measures to help reduce the risk of spills and improved response capability to allow faster and better cleanup. This would include tougher vessel manning and licensing requirements, expanded Coast Guard staffing and equipment to react to spills, clearer direction for Federal control of oilspill cleanup, and improved contingency planning requirements. Perhaps, most importantly, the bill would require that our tanker and barge fleet be equipped with double hulls as quickly as possible.

Double hulls have been the most difficult issue of all to resolve. On the one hand, all of us wanted to ensure that oil transporting vessels were as safe as possible. On the other hand, there was more than a little concern that simply mandating double hulls would not guarantee that result and could impose severe and unnecessary costs on the oil transportation industry which would only be passed on to the American consumer.

It is certainly my hope that the bill's double-hull requirements would be implemented in a sensible manner by the Coast Guard. For example, I see no sense in the Coast Guard rigidly requiring vessels that currently have double hulls, though perhaps not of the same design as will be required under future regulations, to have to undergo extensive and expensive modifications which do not significantly reduce the risk of spills.

I want to thank all of the Members that have helped to develop this compromise. In particular, I want to express my appreciation to Chairman ANDERSON, Mr. NOWAK, and Mr. STANGELAND of the Committee on Public Works and Transportation, as well as to the members of the Merchant Marine Committee—Chairman JONES, Mr. DAVIS, Mr. TAUZIN, Mr. STUDDS, and Mr. YOUNG—for their hard work and leadership. Chairman ROE and the members of the Science Committee are also deserving of our thanks for their work in crafting an effective research and development title. In addition, let me commend the members from the Committee on Interior and Insular Affairs, the Committee on Foreign Affairs, the Committee on Energy and Commerce, and the Committee on Ways and Means for the important contributions they have made to this complex bill.

Let me also thank the Members of the other body from three different committees who have worked long and hard on the conference. In particular, I want to express my appreciation to Senators GEORGE MITCHELL, QUENTIN BURDICK, JOHN CHAFEE, MAX BAUCUS, DANIEL PATRICK MOYNIHAN, and ALAN SIMPSON from the Committee on Environment and Public Works and Senators ERNEST HOLLINGS, JOHN DANFORTH, DANIEL INOUYE, BOB PACKWOOD, and JOHN BREAUX of the Committee on Commerce, Science, and Transportation.

I would be remiss if I did not also thank the House and Senate staffs that have worked tirelessly on this bill. From the staff of the Committee on Public Works and Transportation, I want to thank Jack Schenendorf, Bob Bergman, Gabe Rozsa, Ben Grumbles, Janet Minkler, Dottie Chepp, Paul Schlesinger, Sante Esposito, Erroll Tyler, Ken Kopocis, Cate Leger, and Karen Rose.

Other House staff that deserve all of our thanks include Ed Welch, George Pence, Cindy Wilkinson, Duncan Smith, Lee Forsgren, Jeff Petrich, Bill Woodward and Roy Willis. They have faithfully represented the views of the House and the Members and committees they represent in what have been particularly arduous deliberations. Similarly, the staff from the Senate have shown tremendous capability and commitment. In particular, I want to mention Bob Davison, Rich Innes, Mike Nussman, Earl Comstock, Marcia Jones, Jeff Peterson and Hal Creel.

Mr. Speaker, this is certainly not a perfect bill. It has some flaws. Any bill of the scope and magnitude of this one will have some flaws. It will, however, provide a vastly improved system of liability. It will help speed up compensation for damages, including damages to private property and publicly owned natural resources. It will provide improved prevention and response and lead to increased research on better ways to clean up spills. As I mentioned earlier, I might have done some things differently. Nonethless, I support the bill and urge all of my colleagues to support the bill as well.

Mr. DAVIS. Mr. Speaker, I yield such time as he may consume to the gentleman from Minnesota [Mr. STANGELAND].

Mr. STANGELAND. Mr. Speaker, I rise for the purpose of engaging the chairman of the conference and the author of section 6003 in a colloquy

concerning the provision's intent and its effect.

Section 6003 calls for a moratorium on certain Outer Continental Shelf activities off the coast of North Carolina. As I understand it, this moratorium ends on October 1, 1991. Is that the chairman's intent?

Mr. JONES of North Carolina. Mr. Speaker if the gentleman will yield, I would say to the gentleman that this is the intent of section 6003. There is an environmental science review panel set up to submit findings and recommendations to the Secretary of the Interior on the status of environmental information that is available.

At the request of Senator CHAFEE, I put a 6-month time limit on the panel to submit its findings to the Secretary.

I did this to make certain that the Secretary has this information well in advance of October 1, 1991 so that he can report to the Congress at least 45 days prior to that date.

In his report, the Secretary is to certify that he has adequate environmental information to carry out his responsibilities under the law.

Mr. STANGELAND. And with that certification, the moratorium is lifted. Is that correct?

Mr. JONES of North Carolina. The gentleman is correct.

Mr. STANGELAND. What if the scientific panel does not report, for whatever reason? Is the Secretary prevented from submitting his report to the Congress?

Mr. JONES of North Carolina. No. Even if there is no report from the panel, the Secretary has it within his authority to make certain that the moratorium will end no later than October 1, 1991, as long as he reports that he has adequate environmental information on which to proceed. I believe that this is made clear in the statement of managers.

Mr. STANGELAND. I thank the gentleman for his clarification.

Mr. Speaker, I rise in support of the conference report on H.R. 1465, the Oil Pollution Act of 1990. Although far from perfect, this landmark legislation makes dramatic improvements to the Nation's current system for oilspill liability, compensation, prevention, removal, research, and technology development.

Today's action signals the end of an era—the close of a 16-year-long congressional odyssey involving devastating spills, attention-grabbing headlines, and heated debate. Since Alaska's *Exxon Valdez* oilspill, we have endured a media blitz of political posturing and rhetoric. Finally, the time has come to take constructive steps in preventing and cleaning up oilspills and making the polluters pay. Our bill translates the rhetoric into action.

Before describing the conference report, let me briefly thank key players and committee leaders who've made this widely supported legislation possible. Public Works Committee Chairman GLENN ANDERSON, ranking minority member JOHN PAUL HAMMERSCHMIDT, and Water Resources Subcommittee Chairman HENRY NOWAK and other public works conferees are to be commended.

I would also be remiss in not thanking and congratulating other conferees such as Chairman WALTER JONES and other leaders of the Merchant Marine and Fisheries Committee, as well as the Science, Space, and Technology Committee for all their efforts. Conferees from the Foreign Affairs Committee, Ways and Means Committee, Energy and Commerce Committee, and Interior Committee have also participated significantly throughout the process.

The Public Works and Transportation Committee reported H.R. 3027, its comprehensive oilspill bill, in August 1989. This included many of the liability and compensation provisions contained in H.R. 1465. However, we improved upon the earlier bill by adding a new title on prevention and response, addressing such issues as alcohol abuse, spill contingency plans, and federalization of cleanups. We also approved similar provisions on liability limits, natural resource damages, preemption, and other issues contained in Chairman JONES' bill, H.R. 1465.

We then incorporated provisions from numerous other bills involving Prince William Sound, the trans-Alaska pipeline, and other issues. The result was a comprehensive package, H.R. 3394, containing eight titles ranging from liability and compensation, to prevention and response, to international protocols, to Prince William Sound and the trans-Alaska pipeline. The House then passed this legislation overwhelmingly 375 to 5 on November 9, 1989.

Throughout the development of the House bill, we recognized certain basic principles. The Nation should focus first on oilspill prevention and cleanup, but we must not lose sight of liability and compensation issues, either. The polluter should pay and the victim should receive full compensation for direct, proven damages. This includes governmental cleanup costs, natural resource damages, and economic damages to third parties such as fishermen and beachfront property owners who can clearly demonstrate they meet requirements for standing. And when the polluter can't or won't pay, a Federal fund should be available for prompt, adequate compensation to oilspill victims without having to endure endless and costly litigation. Our bill follows these important principles. Today's final conference report does, too.

Mr. Speaker, allow me to highlight some of H.R. 1465's specific provisions.

Title I contains critical sections on liability and compensation. Key terms are also defined. The conferees have defined the term "oil" to clarify that the term is mutually exclusive from hazardous substances subject to regulation under the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 [CERCLA]. In fact, the conferees have focused on oilspills rather than hazardous substances or hazardous materials spills throughout development of the legislation. This is true even though various portions of the bill expressly mention hazardous substances. This is done, for example, in amendments to section 311 of the Clean Water Act where we simply wanted to restate existing provisions referring to both oil and hazardous substances.

Section 1002 provides for liability of responsible parties when oil pollution incidents occur. Basically, spillers are liable for removal costs consistent with the national contingency plan, certain third party damages, and natural resource damages to be recovered by natural resource trustees.

Throughout development of H.R. 1465, bill sponsors and conferees have been concerned about opening up a floodgate of meritless lawsuits by plaintiffs seeking recovery of speculative damages. The conferees do not intend for such results to occur. Documentation of prior profits and earnings should be evidenced to support claims for lost profits and diminished earning capacity. In addition, any plaintiff or claimant under this act is obligated to meet his or her duty to mitigate damages.

Provisions on the measure and recovery of natural resource damages are particularly important. The conferees have established a measure of damages that is consistent with the decision, *Ohio et al.* v. *Dept. of the Interior,* 880 F. 2d 432 (D.C. cir. 1989). The conferees also agreed to include the phrase "loss of use" for purposes of natural resource damages, including loss of subsistence use of natural resources, but not for other categories of damages.

Section 1003 contains certain defenses to liability, and section 1004 provides limits on liability. Defenses and limits, however, are available only if a responsible party reasonably cooperates with a responsible official in conducting removal activities. While not defining a responsible official, the conferees clearly intend that for any given spill, only one or a very limited number of cleanup officials should be the responsible official at the scene giving orders and ultimately subjecting responsible parties to unlimited liability under sections 1003 and 1004. In many instances, the responsible official would be the Federal on-scene coordinator.

Liability limits also do not apply if the oilspill is proximately caused by the responsible party's gross negligence or willful misconduct or if the responsible party—or agent or employee—violates an applicable Federal safety, construction, or operating regulation. The proximate cause requirement is particularly important and is meant to prevent trivial or unrelated violations from breaking section 1004's liability caps.

In section 1004(d), the President or the Secretary of Transportation is authorized to adjust liability limits for onshore facilities and deepwater ports to a level below the $350 million stated in section 1004(a). Given the potential insurability and liability problems, the President or, as the case may be, the Secretary is encouraged to exercise such authority. This is particularly true if the Secretary determines, pursuant to the study in section 1004(d), that use of deepwater ports is environmentally preferable to offshore lightering practices.

Section 1006 contains important provisions on natural resource damages. The measure of damages is basically the measure contained in the House-passed bill except the conferees

have added a loss of use concept. Otherwise, the fundamental measure is the cost of restoration, replacement, or acquiring the equivalent of the damaged natural resource, plus the diminution in value of those resources pending restoration and the cost of assessing the injuries to natural resources. The conferees have deleted the penalty provision in the House-passed bill that authorized special large-scale penalties if natural resources were irretrievably lost or beyond restoration.

Sections 1011, 1012, 1001, and other sections contain significantly modified provisions on removal costs and cleanup decisionmaking or the "how clean is clean" and "who's in charge" issues. The sections embody a solution to some of the most important issues during the conference. House and Senate conferees in section 1011 agreed to reject the approach in the Senate bill and instead firmly place the President—or designee—such as the Coast Guard—in charge of federally funded cleanups and deciding when cleanup is complete or consistent with applicable Federal and State law.

The conferees agreed to follow an approach similar to that used in CERCLA. The Federal official makes the final determinations regarding cleanup; States wishing to pursue additional or more stringent cleanup than what the Federal official decides is appropriate may do so, but only at their own expense or ultimately at the expense of the responsible party.

The State may recover additional removal costs against the responsible party; however, in recovering costs against the fund, States may recover only those removal costs the President determines to be consistent with the national contingency plan [NCP].

Section 1012 provides for allowable uses of the oilspill liability trust fund. Again, allowable costs are those determined by the President to be consistent with the NCP. The conferees have also modified the so-called direct draw provisions in the Senate- and House-passed bills to ensure greater Federal control over the fund but without denying access to the fund by States.

Title II provides for various conforming amendments to the Clean Water Act, the Deepwater Port Act, and title II of the Outer Continental Shelf Lands Act amendments of 1978.

Title III of H.R. 1465 addresses international oilspill prevention and removal issues. Unfortunately, the final conference agreement omits the House bill's provisions on implementation of the 1984 international protocols. This may be a serious mistake, Mr. Speaker. Like the administration and many others, I support ratification and implementation of the protocols. The United States should be a player in global efforts to prevent against, respond to, and compensate for oilspills. The House bill's provisions would have been a positive step forward in that direction. I strongly urge Congress to take seriously section 3001—expressing a sense of Congress—and follow up with actions and not just rhetoric.

Title IV, coupled with title I, forms the heart of the bill, by containing far-reaching provisions of oilspill prevention, removal, and penalties.

Subtitle A—prevention—requires, among other things, double hulls on all new oil tankers and on existing tankers pursuant to a retrofiting schedule based on vessel age and size. We've provided a very limited number of exceptions to take into account special policy concerns regarding inland barges, emergency response vessels, and vessels unloading oil at deepwater ports or engaged in certain lightering practices.

This has been one of the conference's most controversial and publicized issues. I support double hull mandates. In many instances, a double hull can mean the difference between a small spill and an ecological disaster. I only hope the compromise in H.R. 1465 works as intended. We shouldn't force new technologies or impose costly requirements that bankrupt businesses unless environmental benefits clearly justify such extreme measures.

I am pleased the final version of H.R. 1465 contains, in section 4112—relating to tanker navigation safety—my provision requiring the Secretary of Transportation to evaluate and demonstrate a program of remote alcohol testing for masters and pilots aboard tankers. This emerging technology may develop into one of our Nation's more successful efforts to prevent or deter oilspills and accidents generally.

Subtitle B—relating to oilspill removal—contains important provisions to strengthen and improve the Nation's oilspill response systems. Section 4201 requires the President to ensure an effective and immediate response. In addition, the President would be required to federalize oilspill cleanups in a limited number of situations—that is when a spill presents a substantial threat to the public health or welfare of the United States. We've also included a limited immunity clause for certain public or private response efforts. This important provisions is meant to help foster greater use of cleanup contractors and cooperatives by meeting their concerns about financial risks and liability exposures.

Section 4202 establishes a comprehensive planning and response system consisting of a national response unit, Coast Guard strike teams, district response groups, area committees, area contingency plans, and vessel and facility response plans. The conferees strongly encourge the Federal Government to avoid duplication of private initiatives and instead work closely with the petroleum industry response organization [PIRO] and other private organizations.

Response plans should provide for adequate personnel and equipment sufficient to remove, to the maximum extent practicable, a "worse case discharge." These terms should be construed in a reasonable manner, taking into account technical, practical, and other limitations.

Subtitle C—relating to penalties and other miscellaneous items—contains significant revisions to the Clean Water Act. The House Public Works and Transportation Committee has reviewed existing penalities in section 311 and enforcement tools in sections 308 and 309 of the Clean Water Act. Conferees have replaced the existing administrative penalty provisions in section 311(b)(6)(A) with new authority comparable to the administrative civil penalty authority in section 309(g).

Mr. Speaker, I'm concerned about the bill's provisions on the dollar amount of judicially assessed civil penalties. I support tough civil penalties and criminal fines. I am also pleased the conferees included my amendment—that I offered in the Public Works Committee—to increased civil penalties to $25,000 per day. We need to make the polluter pay. But we also need to give agency officials and judges some basic parameters to follow. A legitimate business should be afforded some reasonable expectations about its potential liability exposure.

Therefore, although we have not placed an outside cap on the $1,000 per barrel criterion, the conferees have specifically included various factors to be considered in determining the amount of penalties. Particular weight should be given to the degree of culpability, the economic impact of the penalty on the violator, efforts taken to mitigate the spill, and other matters as justice and fairness require.

Title V contains provisions related to Prince William Sound, AK—the site of the March 24, 1989 *Exxon Valdez* oilspill.

Title VI includes miscellaneous but significant provisions on, among other things, annual appropriations and a moratorium on certain oil and gas activities along North Carolina's outer banks. I have serious concerns about imposing such moratoria—particularly in this legislation and at this given time when our Nation's energy security seems to be increasingly threatened by world events and our growing dependence on foreign oil.

Title VII establishes a comprehensive oil pollution research and development program. Many of these provisions were in H.R. 3027, the House Public Works and Transportation Committee's oilspill bill from last year. The Science, Space, and Technology Committee, under the able leadership of Chairman BOB ROE, then significantly expanded on and improved the provisions.

Title VIII contains various provisions related to the Trans-Alaska Pipeline Authorization Act and other issues involving Alaska and the Outer Continental Shelf Lands Act.

Title IX includes important provisions on the oilspill liability trust fund, previously established in the Internal Revenue Code of 1986, and related funding issues. The legislation provides for a $1 billion fund, based on an existing 5-cent-per-barrel tax, with a $500 million per incident limitation on payment of natural resource damage claims and a borrowing limit of $1 billion. The title also addresses deposits from other trust funds and the limitation on expenditures for State removal costs exceeding those contained in the NCP.

As a final note, Mr. Speaker, I would like to thank and commend all the staff involved in the development and, I hope, enactment into law of H.R. 1465. In particular, I'd like to thank Gabe Rozsa, Ben Grumbles, Janet Minkler, Dottie Chepp, Errol Tyler, Ken Kopcis, Cate Leger, Cathy Evans, and Karen Rose of the House Public Works and Transportation's Water Resources Subcommittee.

A note of thanks and congratulations should also be extended to all the other House and Senate staff and members of the House legislative counsel who made this final conference

report possible. Their hard work and commitment helped make our job a little easier.

Mr. Speaker, I urge my colleagues to support the conference agreement, even though some particular provisions are troubling. H.R. 1465 will help strengthen the Nation's oilspill liability, compensation, prevention, response, and research and development programs. The country needs oilspill reform. We cannot afford to settle for the status quo. The Oil Pollution Act of 1990 makes necessary improvements and deserves our support.

Mr. DAVIS. Mr. Speaker, I yield such time as he may consume to the gentleman from Texas [Mr. FIELDS].

Mr. FIELDS. Mr. Speaker, I rise in strong support of the conference report to H.R. 1465, the Oil Pollution Act of 1990.

Since coming to Congress in 1981, one of my highest legislative priorities has been the enactment of a comprehensive Federal oil pollution cleanup and compensation fund.

After more than 10 years of debate and months of arduous negotiations with the other body, we have before us a bill which will protect the environment, penalize those who discharge petroleum products into our waterways, and compensate those who are adversely affected by an oilspill.

As a member of the House-Senate conference committee, I recognize that H.R. 1465 is not a perfect piece of legislation. Nevertheless, it is a vast improvement over current law and it is among the most important environmental protection bills we will consider this year.

Let me briefly highlight a few of the key provisions of H.R. 1465.

Mr. Speaker, the primary goal of this legislation is to prevent oilspills from occurring in the future. We must make every effort to ensure that accidents like the *Exxon Valdez* and the *Mega Borg* do not happen again and that our waterways are free from the ravages of oil.

The Oil Pollution Act of 1990 will significantly reduce the likelihood of an oilspill by establishing tough standards for those who operate tankers. It will establish procedures for dealing with crew and officers with alcohol or drug abuse problems, and it will mandate that all vessels have double hulls or secondary containment systems.

Under the terms of the conference agreement, all newly constructed tank vessels must be equipped with double hulls in order to transport oil within our territorial waters. In addition, existing vessels will be required to have double hulls, beginning in 1995—with a realistic phase-in schedule that targets the oldest and largest oil tankers. Under the bill, virtually all new and existing vessels must have double hulls by the year 2010.

In addition to this requirement, H.R. 1465 allows existing vessels using the Louisiana Offshore Oil Port, those off-loading oil more than 60 miles offshore, and small inland barges—those less than 5,000 gross tons—to operate until 2015. After that date, these vessels must be equipped with double hulls, or in the case of small barges, have Coast Guard-approved secondary containment systems.

While certain groups may wish that the double-hull requirement were immediate for all vessels, such a requirement would simply not be feasible. H.R. 1465 establishes a realistic farmework for the conversion of these vessels based on the availability of shipyards and the need to avoid shutting down our entire oil transportation system.

Although double hulls are mandated by this legislation, the Coast Guard is directed to continue to evaluate new containment systems and to make recommendations to Congress on ways to improve spill prevention in the future.

Regrettably, despite our best efforts, it is likely that new oilspills will occur. This is especially true in light of the fact that Congress and the Bush administration have virtually shut down our nation's outer continental shelf leasing program. By so doing, they have condemned this nation to an ever-increasing dependence on imported oil—and more foreign tankers tansporting that oil through our nation's waters.

Nevertheless, if an oilspill should occur, H.R. 1465 has greatly enhanced the ability of the Federal Government and the private sector to respond quickly tosuch a spill. The Oil Pollution Act establishes a simplified chain of command with clar authority and responsibility residing with the Presient. It establishes oilspill response teams in each Coast Guard district—teams that will be ready to quickly respond to any oilspill. It mandates that vessels and facilities have in place contingency plans describing how they will respond to an oilspill and that they demonstrate that these plans work, not only on paper but in real life. And, H.R. 1465 requires that the U.S. Coast Guard pre-position certain equipment that can be quickly transported to the site of an oilspill.

Based on my experiences with the Mega Borg in the Gulf of Mexico, it is clear that the prepositioning of certain cleanup equipment, such as booms and skimming vessels, is essential if we are going to prevent future environmental catastrophes.

In fact, because of langauge in the Conference report which I authored, the Coast Guard is require togive priority emphasis to the pre-positioning of equipment in those areas where large quantities of petroleum products are transported in international commerce. You can be sure that I will continue to strongly urge the Coast Guard to pre-position a significant amount of equipment near the Houston ship channel. In my judgment, it is vital that Houston receive priority attention since our port facilities handle such a huge amount of oil on a day-to-day basis.

In addition, it is my hope that the Coast Guard will carefully evaluate whether the V-22 *Osprey* can play an important role in the cleanup of oilspills.

In addition to these provisions, H.R. 1465 establishes legal liabilties and penalties and penalties for those who cause oilspills. The conferees agreed to impose an eightfold increase in a shipowner's liability, from the present $150 per vessel ton to $1,200 per vessel ton. It also sets liability limits of $75 million, plus unlimited removal costs, for offshore facilities and a $350 million limit for onshore facilities or deepwater ports. If the spill is the result of gross negligence or willful misconduct, however, then the spiller's liability is unlimited.

In all cases, it is the spiller and the industry-financed fund not the taxpayers of this Nation, that will pay the costs.

Finally, this landmark legislation provides that those injured by an oilspill will be fully and swiftly compensated for their losses—such as property damage, lost income, damage to natural resources, and lost business opportunities. Once this legislation is signed into law, those adversely affected will not have to wait years in order to recover their losses. In fact, if an agreement with a spiller cannot be reached within 90 days, injured parties will be compensated from the $1 billion oil industry-financed fund and the fund will seek reimbursement from the spiller later.

This Federal fund, which has been collecting revenue since January 1, 1990, is financed through a new 5-cent per barrel fee on all oil transported in U.S. waters. Money in the fund will be used to clean up oilspills compensate injured parties, restore our environment, and preposition essential oilspill cleanup equipment.

In short, H.R. 1465 provides the American people with a comprehensive cleanup and compensation meansure which will cover oilspills in U.S. waters. It will help prevent future oilspills and it will effectively deal with those spills that unfortunately do occur.

Mr. Speaker, before concluding, let me briefly mention two other importnat conference items.

First, while H.R. 1465 contains many important improvements in current law, I deeply regret that this conference report does not implement the international oilspill protocols. These protocols were negotiated by 46 nations, including the United States, at the International Maritime Organization conference in London in 1984. They are designed to effectively deal with those oilspills that occur on the high seas by providing up to $260 million per spill for the cleanup and compensation of those adversely affected by an oil spill.

It is my firm belief that the best oilspill protection system for the citizens of this Nation is a united international, Federal, and State effort. I support a global solution to the problems of oil pollution. I am at a loss to understand why anyone would be opposed to a global solution to this serious environmental problem.

Under current law, the Norwegian owners of the *Mega Borg* could simply have walked away from that spill without either cleaning up the oilspill or compensating its victims. While that did not occur, there is no certainty that future foreign tanker owners will be willing to accept their financial liability.

We must eliminate this massive loophole in our international liability laws and we must ensure that no spiller has an opportunity to hold this nation hostage.

The only way to protect our shores from international oilspills is to implement the protocols and for the U.S. Senate to ratify them.

Unfortunately, despite the fact that the protocols were overwhelmingly adopted by the House, the Senate refused to accept either our language or a compromise which called for the conditional approval of these important international agreements.

While the conference report does contain language in title III which expresses the sense of Congress that the United States should participate in an international oil pollution liability and compensation regime that is at least as effective as Federal and State laws, it is my hope that the Senate will consider ratifying these important protocols in the near future.

Finally, I regret that the chairman of the conference committee, Congressman WALTER B. JONES, felt compelled to add the text of his Outer Banks Protection Act to H.R. 1465. This bill, which establishes a 1-year moratorium on certain Federal leases off the coast of North Carolina, has not been the subject of any hearings or markup sessions before our committee. And, sadly, it continues the recent trend of placing an everincreasing amount of Federal offshore land off limits to development.

According to officials of the Department of the Interior, this 1-year moratorium, which they strongly oppose, will affect some 44 active leases in the OCS Mid-Atlantic planning region. It is my understanding that those who have acquired these leases have spent nearly $ billion in bonus payments, rentals, and interest to the Federal Government and for seismic data to evaluate the possibility of hydrocarbon resources. Furthermore, a detailed environmental report has been prepared by the Minerals Management Service, and the State of North Carolina is currently reviewing this document. In short, the citizens of North Carolina will have ample opportunity, without a moratorium, to express their concern about oil and gas activities off their shores at each stage of the OCS process.

Mr. Speaker, on balance, H.R. 1465 is a good bill which deserves our support. I urge my colleagues to vote aye on this conference report, and it is my hope that the President will soon sign the Oil Pollution Act of 1990 into law. The American people have waited far too long already for the enactment of this comprehensive Federal oil pollution cleanup and compensation act.

Mr. DAVIS. Mr. Speaker, I yield such time as he may consume to the gentleman from Michigan [Mr. UPTON].

Mr. UPTON. As a member of the conference committee I rise in strong support of the conference report.

As we began hearings in public works and transportation center last year, some of us also focused on the Great Lakes.

It quickly became apparent that there were not the contingency plans on the Great Lakes to feel with oil or toxic spills despite more than 5,000 such spills in the 1980's. Ninety percent of the fresh H_2O surface in North America is in the Great Lakes and 18 percent in the world.

Unlike salt H_2O bodies, the Great Lakes are a fairly closed system. They're especially vulnerable as they cannot flush themselves clear as readily as rivers or oceans.

H_2O is Lake Superior for example takes 191 years to recharge. Even relatively small oil spills have long-time catastrophic consequences.

In 1988—according to the Lake Carriers Association and the Canadian Shipowners Association—81 million barrels of oil and hazardous materials were transported on the Great Lakes.

Unlike salt H_2O bodies, the Lakes serve as a drinking H_2O supply for more than 25 million Americans. Consequently, techniques and dispersants suitable for cleanup in salt H_2O environments could seriously endanger public health if used on a spill.

One of the many worthwhile provisions in this legislation is the provision that a Coast Guard district response group be established in each of the 10 Coast Guard Districts.

The Coast Guard strike teams consist of available trained personnel, adequate oil and hazardous substance pollution control equipment, and a detailed oil and hazardous substance pollution and prevention plan, including measures to protect fish and wildlife.

I was delighted to work with my fellow Great Lakes colleagues on both sides of the aisle to ensure that we could finally use the old Boy Scout motto. "Be Prepared."

That's what this legislation accomplishes and encourage my request to support it.

Mr. DAVIS. Mr. Speaker, I yield such time as she may consume to the gentlewoman from Rhode Island [Ms. SCHNEIDER].

Ms. SCHNEIDER. Mr. Speaker, I rise today in strong support of the conference report on H.R. 1465. I became a Member of Congress nearly a decade ago and I have been fighting for a strong oil pollution bill during my entire tenure.

The Oil Pollution Act does not follow old failed formulas. It looks to the future and provides new solutions. This bill approaches pollution in the best way possible—it prevents it.

It is unfortunate that it took the disaster of the *Exxon Valdez* oilspill in Alaska, as well as an epidemic of major spills around the country, including in my own Narragansett Bay, to provide the impetus for Congress to act at long last. It addresses the problem of oilspills on a national basis, but also seeks to provide safeguards in areas that have been prone to oilspills in the past. In my own backyard of Narragansett Bay, there will now be an innovative demonstration project which will utilize satellite technology to monitor and direct shipping traffic. If this project proves successful it will be a model for all ports around the Nation.

This bill also addresses prevention be requiring that all tankers traveling in U.S. waters be equipped with double hulls. Congress has also recognized that there are sensitive ecological areas that should be tanker-free zones, such as around Block Island, RI, and has directed the Coast Guard to designate such areas. Although we can never completely eliminate the hazards of human error, this bill goes a long way toward achieving that goal, including mandatory alcohol and drug testing for merchant seamen, and reviews of driver's license records.

Another preventive concept intertwined throughout this legislation is that the polluter must pay for their mistakes. The liability of shipping and oil companies is increased eightfold by this bill. This threat of massive liability will encourage responsible preventive measures to be taken by those companies that would be faced with tremendous financial burdens in the event of an oilspill.

This bill also recognizes that when oilspills do occur, it is imperative that there be a swift and effective response and cleanup. There are numerous strong provisions which address responses to spills, including the establishment of permanent, full-time response groups in every Coast Guard district in the United States. Every port, facility, and vessel engaged in the shipping of oil in U.S. waters will be required to have an up-to-date contingency plan on how to respond to a variety of spills.

Finally, this bill addresses compensation for the victims of oilspills. It clearly and completely provides for all injured parties to be compensated for the entire amount of their losses. This includes damages to natural resources, such as birds, marine mammals, fish, wetlands, and so forth.

This bill looks to the future and seeks to prevent headlines such as "Cleanup in Alaska Tops $2 Billion." The past decade taught us that oilspills can cost tremendous amounts of money, and can do damage that cannot be corrected. This bill will allow us to learn in the next decade that preventing oilspills is the most cost effective way of doing business. The Oil Pollution Act will provide the assurance we need for the future that we can keep our bays and harbors clean, our wildlife safe, and our beaches free of oil.

Mr. DAVIS. Mr. Speaker, I yield such time as he may consume to the gentleman from California [Mr. SHUMWAY].

Mr. SHUMWAY. Mr. Speaker, on balance I support this legislation. It is certainly an important bill, and, unfortunately, one that is year overdue. It is indeed sad that it took the *Exxon Valdez* and *Mega Borg* catastrophes, and recent others like them, to prod this Congress into final action on an oilspill bill.

The most important provision in this bill is the $1 billion oilspill fund which will now be available to deal with even the largest of oil transportation accidents. The fund does not come from the American taxpayer; it appropriately is collected from oil companies in the form of a levy on oil produced or transported into the United States.

In the area of oilspill prevention, the fund will be available to preposition equipment and fund Coast Guard response teams. The bill also includes strict provisions to test merchant seamen for drug or alcohol use, and sets new Federal tanker manning standards. And the bill phases in a realistic double-hull requirement where by existing tankers won't be arbitarily rendered economically useless.

In terms of oilspill response, the bill clearly defines that the President has the authority to conduct cleanup and response efforts in the best way he or she determines depending on the size and nature of a particular spill. And up to $500 million will be available from the oilspill fund to natural resource trustees to restore and rehabilitate natural resources which are lost or damaged by oilspills.

Finally, the bill establishes stiff liability for responsible parties to ensure that they pay for the damage they might cause, and to ensure that there is an effective deterrent to oil transporters from engaging in unsafe, sloppy or illegal operations. And full compensation is

called for to those who suffer damages as a result of a spill.

Despite all these important provisions, this bill is not, in my mind, nearly as comprehensive or as strong as it could be. In fact, despite my support for this bill, I chose not to sign the conference report because I am, frankly, disappointed that some of what I view are the most important provisions did not make it into this final version.

The House-Senate conference ultimately dropped the language to implement the international oilspill protocols. I personally believe the United States should be part of a global system to deal with what has increasingly become a worldwide problem. This legislation provided an easy opportunity to do just that.

The United States was a leader in the 1984 International Maritime Organization negotiations on an international oilspill regime; yet despite our lead role we have been unwilling to ratify and implement these treaties. Failure to do so will mean that $280 million which we could receive from the international fund will not be available to us for oilspill cleanup and compensation purposes. Failure to implement the protocols will also mean that we risk losing legal standing to go after foreign-owned tankers which spill in U.S. waters. To me, this is a major shortcoming of the bill.

And finally, this bill purports to be a comprehensive domestic regime but it is not. For 14 years; this House has strongly supported an oilspill bill which replaces the existing patchwork of State and Federal laws with one single, clear-cut regime. Despite this longstanding, principled position, we have now bowed to the rhetoric and misperceptions of the environmental lobby and eliminated the gut of the liability section of the bill by removing the preemption provision. This bill, then, only perpetuates much of the existing confusion in liability and compensation that follows an oilspill—the very type of confusion which originally was one of the driving forces behind the bill.

Despite these strong reservations, Mr. Speaker, I will support final passage of this conference report because the seriousness of the threat of oilspills warrants that the many needed provisions in the bill be enacted.

Mr. DAVIS. Mr. Speaker, I yield such time as he may consume to the gentleman from California [Mr. LAGOMARSINO].

Mr. LAGOMARSINO. Mr. Speaker, I rise in strong support of the conference report to the Oil Pollution, Prevention, Response Liability and Compensation Act, H.R. 1465, and urge my colleagues to support this much needed piece of legislation.

For as long as I have been in public office I have been concerned about oilspills and the problems associated with them. Having the Santa Barbara Channel and the Channel Islands National Park in my district, I am keenly aware of the need to protect our waterways and our pristine and scenic places from the damages an oilspill may cause.

Many in the House of Representatives and in the Nation will recall one of the most noted oil related accidents to occur in U.S. waters prior to the *Exxon Valdez* spill. I am referring, of course, to the Santa Barbara offshore oil blow of 1969. Some say it was this accident which heightened environmental awareness and action regarding the hazards of oil exploration. Immediately after this accident I authored legislation which created a 400,000-acre oil-free sanctuary around the Channel Islands. For most of this decade, I have been fighting to get oil tankers to pass outside the Santa Barbara Channel. Recently, that work proved successful when all six companies shipping oil from Alaska to Long Beach agreed to my request to send their tankers outside the channel.

Although these measures have enhanced the safety of the area, past experience has shown us that an uncontained oilspill may damage even the most protected regions. To protect those and other regions, passage of the oilspill conference report is needed, and needed now.

Several provisions of the conference report deserve recognition. I thank the conferees for recognizing the importance of including provisions which direct the Coast Gaurd to undertake a study on the feasibility of establishing a tanker-free zone in the Santa Barbara Channel, and for supporting a current study of the feasibility of establishing a vessel traffic service system in the channel.

Also, by expressly preserving States' authority to impose additional liability or requirements, and preserving the States' authority to establish their own spill funds and to impose fines and penalties, the conference report recognizes the need for States to protect their shores and lands.

Requiring double hulls on all new tankers and barges operating in U.S. waters is also a positive step in oilspill prevention. Many have said the Prince William Sound accident may not have occurred if the *Valdez* had double hulls. Passage of this double-hull language will go a long way in ensuring greater shipping safety.

By establishing new requirements to prevent "shipping under the influence" and limiting the number of hours a crewmember can work on a vessel, the conference report also ensures greater safety among shipping personnel. The report also ensures faster cleanup by granting limited immunity to response organizations involved in cleanup activities.

I also applaud the conferees for including new research and development money in the legislation. We must always endeavor to enhance our ability to lessen the threat of, plan for, and respond to oil and hazardous waste spills. Only through needed research can this become a reality.

For myself, for my constituents and most of all, for the environment, I strongly urge my colleagues to vote for this much needed piece of legislation.

Mr. DAVIS. Mr. Speaker, I yield such time as he may consume to the gentleman from New York [Mr. BOEHLERT].

Mr. BOEHLERT. Mr. Speaker, I rise in strong support of this conference report.

Rusty old oil tankers move extremely slow, guided only by old maps and charts, with limited maneuverability and control. Likewise, much needed legislation to forge comprehensive oilspill liability laws have plodded through Congress without resolutions to many contentious issues. Meanwhile, these decrepit rust buckets for tankers have frequently run aground and spilled their vitriol in our beautiful estuaries and beaches. Likewise, Congress after Congress, oilspill legislation has sputtered, spilled, and sunk.

Mr. Speaker, I am proud to point out that this is no longer the case. We are on the brink of replacing the rustbucket with new, stronger vessels, matched by comprehensive oilspill liability legislation that is designed to make the polluters pay for the cost of cleanup, and make the safe transport of petroleum a priority in doing business.

In my committee, Science, Space, and Technology, we contributed significantly to the prevention titles in this bill. We are replacing the old maps and star charts that guided the tankers into coral reefs and beaches with available, navigational aids to help ship captains see where they are going so they can prevent a disaster.

These aids, which will enhance maneuverability and control of the ship, include sonar, electronic chart display, and satellite technology which I inlcuded in this bill as an amendment in committee last September. These products have been under development for years, at taxpayers expense, and used in military applications. It is important to transfer this technology to the private sector. This amendment was suggested to me by a retired radar expert in my district, Dr. Joseph Ryerson.

I commend my colleagues in both the House and the Senate who worked hard to resolve the many issues that has forstalled these environmental protections over the years. With this legislation we are taking responsibility for our actions, and making changes in the way we do business for the good of both our economy and our environment. Let's pass this bill today and let the ship sail to the President, who is waiting to sign it.

Mr. DAVIS. Mr. Speaker, I yield such time as he may consume to the gentleman from Florida [Mr. SHAW].

Mr. SHAW. Mr. Speaker, I rise in support of the conference report.

Mr. DAVIS. Mr. Speaker, I yield such time as he may consume to the gentleman from Washington [Mr. MILLER].

Mr. MILLER of Washington. Mr. Speaker, I rise in support of the conference report.

Mr. Speaker, at long last, we are prepared to pass a major oilspill prevention, compensation, and cleanup bill.

This bill helps us prevent oilspills by requiring double hulls on all new tankers. The bill sets a schedule for retrofitting or retiring the existing fleet of single-hull tankers. While I supported the House position calling for elimination of all single-hull tankers in 15 years, this provision, Mr. Speaker, is an improvement over the Senate's provision to study the issue. Several oil companies have indicated they plan to retrofit with double hulls sooner than what is called for in the bill. I applaud their efforts to add the extra protection to ensure the quality of our environment nationwide, in our region, and in Puget Sound. And I am calling on all oil companies to follow suit in order to protect the inland waters of our sound. Puget

Sound, with Rosario Strait and the San Juan Islands, is known for its beauty and marine life. It deserves the special safeguard of double-hull tankers. All in all, the compromise favors the tougher House position and it helps protect our waters from oilspills.

Among the special features to protect Puget Sound, is the requirement that tankers entering Puget Sound must have two tug boats escorting them. This will prevent a ship from losing its way and running aground.

Another provision in this bill is comprehensive language calling for areas to develop contingency plans. Recently, I convened a working group of concerned citizens, environmental organizations, cleanup cooperatives, oil transportation companies, maritime experts and local and State government officials to discuss the key elements of a contingency plan for Puget Sound. And I urged the Coast Guard to continue to work with this group as they develop Puget Sound's contingency plan. We are off to a good start.

The bill, Mr. Speaker, also addresses key concerns including the need for expanded vessel traffic systems, manning requirements that take into account fatigue, and new authorities for the Coast Guard to control shipping to protect key environmental areas.

Should an oilspill happen, this bill will help expedite the cleanup by requiring those who ship oil to have worse case cleanup plans in place. These plans will enhance regional contingency plans by providing specific details about the ship or barge carrying the oil. The Coast Guard will have an expanded mission including regional response teams with preposition cleanup supplies and equipment.

An oilspill cleanup effort must have one commander. This bill clarifies the responsibility of the Federal Government to take the lead. In areas like Puget Sound, the Coast Guard will have authority to take charge and assure a rapid and comprehensive effort to clean up any spill.

And, Mr. Speaker, this bill will assure that people, like the fishermen who work on Prince William Sound, or the cannery workers who are employed in the processing plants get prompt and fair compensation. The bill will increase a spiller's liability many times over current Federal limits and impose stiffer civil and criminal penalties. It will require spillers to pay for cleaning up oilspills and compensate those economically injured by them. The bill creates a $1 billion cleanup fund that is financed by a 5-cent-per-barrel fee. This fund will cover the costs not covered by the spiller.

States like Washington will be able to keep their unlimited liability laws. And Washington will be allowed to determine cleanup standards to ensure that we can protect our waters and beaches.

Mr. Speaker, for all these good points, this bill has one hole. We import roughly half our oil. Most of that oil comes in on foreign tankers. The House bill had a provision which would have implemented international protocols on oilspill compensation. Unfortunately, the Senate—and the Senate majority leader in particular—stubbornly opposed any consideration of these international protocols. I regret this because it denies the United States access to $265 million in potential cleanup costs. And, to my dismay, it may very well signal an end to efforts to develop a strong international regime to protect the world's oceans from oilspills. That is a shame.

This new law is long overdue. But true protection of our waters must begin with prevention. Laws alone cannot make the transportation of oil safe. The companies that ship oil must put safety first. We must give the Coast Guard the authority and the resources it needs to do its job. And, we must recognize the special concerns of States, like Washington, to protect their individual coastlines. This is a very big improvement. It is not a perfect bill, but it deserves our support, Mr. Speaker. I ask my colleagues to support it.

Mr. DAVIS. Mr. Speaker, I yield such time as she may consume to the gentlewoman from Maryland [Mrs. BENTLEY].

Mrs. BENTLEY. Mr. Speaker, I rise in support of the conference report, and I want to say it is about time we start fixing up those tankers so we can have a modern merchant marine.

Mr. DAVIS. Mr. Speaker, I yield such time as he may consume to the gentleman from Alaska [Mr. YOUNG].

Mr. YOUNG of Alaska. Mr. Speaker, I rise in support of the conference report.

Mr. Speaker, I would like to point out to my colleagues that this legislation is long overdue—some of us have been working for the last 15 years to get a comprehensive oilspill bill. We all know that the *Exxon Valdez* catastrophe was the engine that finally drove this bill to completion and I am dismayed that Alaska had to suffer that experience before this Congress decided to take decisive action.

Although overdue, I think this legislation is an important first step in bringing some stability to the process of transporting oil into the United States. But I hope my colleagues realize that stability is in short supply on the oil scene these days. We now import more than half of the oil we use and we have become dependent on oil that is produced in the most unstable region in the world. Oil prices are now soaring and we have no say in the matter. Mr. Speaker, Iraq went to war so they could charge us more for gas. How many of us seriously think that Saddam Hussein really is concerned about the coastal environment of this country?

Mr. Speaker, nothing is forcing the United States to undergo this lack of security and stability—we are doing it to ourselves. We need to participate in an international oilspill protection and compensation regime, that is strong enough to safeguard against the actions of irresponsible countries and companies. As long as so much oil is under the direction of such uncontrollable, unpredictable power, we have no reasonable alternative than to work with other reliable nations to adopt an international system of management. Also, it doesn't take a tremendous amount of insight to see that we need to develop our own energy resources.

Mr. Speaker, in the first week of July 1987, a tanker named the *Glacier Bay* spilled over 150,000 gallons of oil into the fertile fishing waters of Cook Inlet in Alaska. Premium days in the fishing season were completely lost, the market value of the fish dropped, and the Cook Inlet fishermen were severely harmed. Congress set up the Trans-Alaska pipeline liability fund to relieve just such problems in an insurancelike, nonadversarial manner. Unfortunately this system did not work very well, and to this day most of the Cook Inlet fishermen have not received even the face value of their losses and continually face the frustrations of litigation. We expect that through this legislation these and future claimants will be promptly and fairly compensated.

We on the conference expect that in the event of future spill, the provisions in title I will encourage the national oilspill liability fund to pay undisputed claims expeditiously. We feel that claims should be paid on a partial-payment basis if necessary. This is simple justice—pay undisputed amounts now and resolve other claims later. I would also like to state unequivolcally that, in the event of a future catastrophic oilspill, this legislation should result in prompt compensation for the subsistence fishermen who rely on their catch for consumption and survival.

Mr. Speaker, 20 percent of our Nation's oil is produced in and transported through Alaska, and most of that oil moves on tankers through the Prince William Sound. In light of this, it has been asserted during the legislative development of this bill that Valdez would be a sensible location for the Coast Guard strike team now provided for Alaska. In any event, we have inserted several additional special protections specifically for the Prince William Sound.

In section 416, we improve the quality of pilotage in Prince William Sound in two ways. We require any pilot operating in the Prince William Sound to have both a State and Federal license and to be operating under the Federal license. By this requirement, we create a system of dual accountability under which pilots operating in the Prince William Sound will be answerable to both local authorities and the Coast Guard. We are closing a loophole for incompetent pilots who operate exclusively under oil company control. Second, pilots in the Prince William Sound are prohibited from being members of the ship's crew. Through this provision, we ensure that tanker pilots will be local pilots familiar with the navigational hazards of the Prince William Sound. In the final analysis, we intend that this section will result in local pilots operating in the Prince William Sound and that these pilots will be readily amenable to the oversight and regulation of the Coast Guard.

Mr. Speaker, as I mentioned earlier, the *Exxon Valdez* spill was unquestionably the driving force behind the Oil Pollution Act of 1990, and I am happy to see that something good has come from that disaster. But we can learn more from the *Exxon Valdez* experience. Accordingly, section 5001 provides for the Prince William Sound Oil Spill Recovery Institute. The institute will study the cause and long-term effects of the spill in arctic and subarctic conditions.

This is a unique opportunity for study. The subject matter is demanding. The funds are limited. Therefore, the institute must not be allowed to deviate from the important task of investigating the direct effects of the 1989 *Exxon Valdez* spill. We certainly do not intend

for Federal funds to be used to sue or defend lawsuits arising from activities conducted by the institute which are not directly related to investigating the direct effects of the 1989 *Exxon Valdez* spill.

Mr. Speaker, section 5002 establishes two citizens' advisory councils to be located one each in the Prince William Sound and Cook Inlet. These councils, privately funded by local operators utilizing the waterways, should prove to be models of cooperation and coordination between local citizens, officials, and the industry. In this spirit, we expect that councils will be a source of dispute resolution, not dispute creation. For example, we included a conflict-of-interest provision which should be read with the nature of the small communities in mind. Inevitably, there will be some overlap of industry an citizenry. If less than the majority of a person's employment might be perceived as "in conflict," we expect that good-faith discretion will be used to determine that person's eligibility regarding membership in the council.

Mr. Speaker, section 5005 of the conference report is the culmination of conference consideration of section 5005 of the House-passed bill. It represented the House's incorporation of the provisions of H.R. 2158, the Prince William Sound Oil Spill Response Act, which I introduced shortly after the *Exxon Valdez* oilspill. As the author of this section and a conferee on all titles of the final bill, I take great pride in the inclusion of section 5005 in the final conference report.

This section establishes specific equipment and personnel requirements to respond to oilspills in the Prince William Sound. It requires in section 5005(a)(2) that:

An oilspill removal organization at appropriate locations in Prince William Sound, consisting of trained personnel in sufficient numbers to immediately remove, to the maximum extent practicable, a worst case discharge or a discharge of 200,000 barrels of oil, whichever is greater.

This section should be interpreted to set a floor of response capability at 200,000 barrels. The reference to "immediately remove, to the maximum extent practicable, worst case discharge" should be read as establishing the same response standard as section 4202 of this act. The intent of this section, as adopted by the conference, was to harmonize the requirements of section 5005 of the House-passed bill with the requirements of the contingency plan section of title IV of this conference report and should be read as such. This section is not intended to impose a more stringent response and removal time than is required by section 4202.

While all would agree that the response capability present in the Prince William Sound prior to the *Exxon Valdez* oilspill was wholly inadequate, we on the conference recognized that practical limitations should be recognized in determining the number of full-time removal personnel on hand to respond to a spill at any one time. We on the conference took great note of the fact that a large number of personnel are presently employed by the Alyeska Pipeline Service Co. for just such a purpose.

In writing this section we wished to encourage Alyeska to supplement this cadre of trained personnel by cooperating with the State of Alaska and others in providing basic training in oilspill response procedures to citizens of the communities in the Prince William Sound area. The conferees intended that local residents should be trained in oilspill removal and response techniques in order that they may assist in the removal of future spills and to allow them to protect themselves and their livelihoods from the damage caused by oilspills.

Mr. Speaker, section 8103 of the new statute establishes a Presidential task force to study and report on the structural integrity and effects of the Trans-Alaskan pipeline. We encourage the President to see that the report is filed and the project completed as soon as possible.

The Alaskan delegation has agreed to terminate the Trans-Alaska pipeline liability fund and place those funds in the national fund. We have included language in section 8102 which mandates that funds must be reserved sufficient to pay all possible claims against the TAPS fund arising from incidents occurring before the time of the enactment of this statute. Any claim arising after or on the date of enactment will be governed by the provisions of the new law only. The TAPS funds will be rolled into the national fund as soon as TAPS moneys are no longer necessary to pay claims against the TAPS fund.

Specifically, there are three incidents which have given rise to or may give rise to claims against TAPS: the *Glacier Bay* spill, the *Exxon Valdez* spill, and, if so determined by the courts, the *American Trader* spill. As I mentioned earlier, we on the conference anticipate that the claims related to the *Glacier Bay* spill will be resolved promptly. Upon disposition of the Glacier Bay claims, we expect a rollover of any TAPS funds which are not necessary to pay claims potentially arising from the *Exxon Valdez* or the *American Trader* spills. A partial rollover will continue in this manner until all claims against the TAPS fund are resolved, at which time that fund will cease to exist. As part of the rollover process the State of Alaska will receive a rebate for the percentage of the fund that the State contributed as an owner of oil.

Mr. Speaker, section 8102 also provides retroactive reimbursement of Alaskan municipalities for losses incurred due to the *Exxon Valdez* cleanup. Lost revenues and increased public services are among such the costs. The language in section 8102 reflects the broad range of costs for which we expect the communities to recover. These reimbursements are dictated by simple fairness. The *Exxon Valez* incident was the driving force behind this legislation and the communities who paid firsthand for that disaster should be given relief which they would experience under the Oil Pollution Act of 1990.

Mr. DAVIS. Mr. Speaker, I yield back the balance of my time.

Mr. ANDERSON. Mr. Speaker, I am pleased to join in bringing the conference report on H.R. 1465, the Oil Pollution Act of 1990, to the floor.

The Congress has had the issue of oil spill liability and compensation pending before it for more than a decade. On March 24, 1989, when the 987 foot tank vessel *Exxon Valdez* struck Bligh Reef in Prince William Sound, AK, and spilled nearly 11 million gallons of oil into one of the most pristine and magnificent areas of our country, it quickly became apparent that current levels of oilspill prevention, preparedness, and respons were not adequate for such a major spill. Spills since that time, such as those off Huntington Beach in California and in the Gulf of Mexico, have added urgency to the need for legislation.

The conference report on H.R. 1465 provides a comprehensive framework to prevent the spilling of oil and to improve our preparedness and ability to respond to an oilspill should one occur. It establishes new authorities and responsibilities for the prevention of oilspills, establishes a comprehensive response capability, and assesses significant liability upon spillers of oil. It also provides for compensation to individuals and entities which suffer economic damage due to a spill.

The first line of defense in any oilspill response program must be prevention of a spill. For that reason, the conference agreement includes sekveral provisions designed to improve vessel safety, both in the design of the vessels themselves and in vessel traffic. It expands vessel traffic service systems, and encurages methods to avoid the risk of spilling oil into the water. In addition, it requires that chronic alcohol abuse be cnsidered as a factor in the suspension, revocation, or the refusal to issue a license, merchant mariner's document, or certificate of registry.

The agreement also includes provisions to improve contingency planning and training of oilspill response personnel. Increased research concerning oilspill prevention and response and for the development of new technologies for prevention and response is included. Unfortunately, oilspill cleanup technology has been a low priority of the U.S. Government in recent years. The agreement therefore establishes a new research and development program, to improve the status of our knowledge on oilspill prevention and response.

Mr. Chairman, I believe that the conference agreement is a proper and balanced response to our Nation's needs both to increase preventive measures against oilspills and to respond to a spill should one occur. In addition, incentives are created to prevent spills on the part of industry through the imposition of strict liability and the enormous economic and ecological damages which could occur because of an oilspill. Finally, the bill addresses the issue of compensation of individuals injured by an oilspill by providing for an assured source of recovery and clearly delineated causes of action for economic damages.

Mr. Chairman, although this House has considered oilspill legislation several times, I believe that this is the best legislative package to come before it. This bill is tougher on parties responsible for the spilling of oil, and fairer to parties damaged by the spilling of oil. I urge my colleagues to give this legislation their strong support.

Mr. SHARP. Mr. Speaker, I urge Members of the House to approve the Oil Pollution Control Act conference reprot, today, and send it on to the President.

Since the tragic *Exxon Valdez* spill 16 months ago, not 1 month has gone by without

a significant spill of oil in our waters. Some of these we have been able to contain. But others, like the current debacle in Galveston Bay, a signal us that we urgently need this bill and the protection it will afford more than ever. We must not delay another moment.

The comprehensive $1 billion Federal oilspill fund, supported by a 5-cent-per-barrel tax on the oil industry, will allow us to tackle big spills, and will also allow up to $500 million to be expended to restore natural resource damage.

As a Member of the Energy and Commerce Committee, I note that the Commerce Committee was a conferee on title 8 of this bill. I wish to thank other Members of the conference for their attention to Commerce Committee concerns related to title 8. Their willingness to adjust their views or position to accommodate the requirements of programs within Commerce Committee jurisdiction is particularly appreciated.

I also commend my fellow Interior Committee colleague GEORGE MILLER for his tireless and outstanding advocacy of the environment; without his efforts, the bill before us today might not encompass the numerous, important environmental safeguards contained in the conference report.

While the legislation before us is primarily related to oilspills in a marine environment, additional legislation is needed to address other types of spills. The Commerce Committee has already started work on a comprehensive bill to prevent pipeline spills. We hope to bring this bill before the House as part of the reauthorization of the pipeline safety program in the 102d Congress.

My only regret is that the conference report contains a Senate amendment, wholly unrelated to the control and cleanup of oil pollution, that is unjustified, expensive, and perhaps sets a precedent that we will regret. It further compensates certain State of Louisiana lessees beyond the very generous allowance this Congress approved in 1985. However, that one stain on an otherwise laudable bill is not worth scuttling months of hard work and honest effort. Delay on the Oil Pollution Control Act serves nobody's interests.

Again, Mr. Speaker, I urge my colleagues to vote for the conference report. This bill is important, and it is needed right now. Its approval before we adjourn to go back to our districts is a must.

Ms. SNOWE. Mr. Speaker, I rise today in support of the conference report on H.R. 1465. I believe that this legislation takes important steps toward effective protection of our marine environment. In particular, I am pleased that the conferees have retained the right of the States to set their own oilspill liability limits and cleanup funds.

I say that because the State of Maine has consistently been recognized as a leader in the adoption of effective oilspill prevention, cleanup, and liability laws. Maine has more stringent safety standards than Federal law and many other States. The State has taken this action to protect one of our most precious resources—the coastal waters and the citizens that make their living from the sea. I applaud the decision of the conferees to recognize that State laws, like those of Maine, should augment and not be replaced by Federal standards.

I am proud of Maine's reputation as an environmental leader in this regard. Sadly, the Federal Government has lagged far behind States like Maine in its adoption of oilspill legislation. Fortunately, our action today can reverse 15 years of inaction on comprehensive Federal oilspill legislation.

The conferees also retained the House provision requiring double hulls for most oil tankers, foreign or domestic, operating in U.S. waters. This provision provides necessary and needed protection from a repeat of the *Exxon Valdez* disaster. The conferees showed foresight and wisdom in avoiding the calls for further study of this issue and moving forward with this important requirement.

Mr. Speaker, this comprehensive legislation addresses all facets of oilspill prevention, response, liability, and compensation. In the aftermath of the *Exxon Valdez* spill in Prince William Sound, and the myriad other spills that have plagued all of our coasts, many inadequacies in our system of preventing and responding to oilspills have been apparent. Through H.R. 1465, a coherent oilspill policy will be established to prevent a repetition of the problems which have occurred in the past.

In addition, we have taken the important step ensuring that the States also have the opportunity to enact laws that will protect their coasts. This is a vital provision that will allow States to take the necessary actions to ensure that specific needs of their marine environment are addressed.

Finally, we have preserved one of the cornerstones of U.S. environmental policy and one which I have long advocated: the polluter must pay. This principal is firmly established in H.R. 1465. Those who negligently allow a spill to occur will pay for its cleanup. Additional compensation will be available from a $1 billion Federal oilspill fund, supported by a 5-cent-per-barrel tax on oil.

Mr. Speaker, States like Maine have taken the lead in protecting the environment from the ravages of oilspills. It is time for this House to update the Federal approach to this problem by enacting the conference report on H.R. 1465. I urge my colleagues to join me.

Mr. WALKER. Mr. Speaker, the conference agreement on title VII is on balance a responsible piece of legislation. From two different bills the House and Senate have crafted a compromise which will provide an important research and development program for the oilspill legislation. The research title will enable us to use the best science available to develop new methods of preventing and mitigating the devastating effects of oilspills. In so doing, not only will we be able to better avoid spills, but when they do occur, we will be more effective in cleaning them up and minimizing environmental damage. I commend my colleague on the Science, Space, and Technology Committee, Ms. SCHNEIDER, for her diligent work on this bill.

I am disappointed, however, that certain provisions of title VII are outside the scope of the conference. Once again, Congress, in its infinite wisdom, has once again determined that it alone is able to decide what deserves scientific scrutiny. Time and again, in bill after bill, we have seen fit to bypass the scientific peer review process. Yet again, we have taken an otherwise good piece of legislation and found ourselves unable to resist turning science into pork.

I have signed the conference agreement because on balance I believe this is a good legislation, but I did want to point out that there is language contained in the bill that detracts from its otherwise meritorious provisions.

Mr. PACKARD. Mr. Speaker, I rise in strong support of the conference report on H.R. 1465, the comprehensive oilspill liability and cleanup bill. Oilspills can and do happen. Several spills have occurred in the last 18 months. The conference report on this legislation will go a long way to protecting our coastlines and their habitat from potentially disastrous spills.

The conference report includes a compromise provision on double hulls. Double hulls can prevent disastrous spills from occurring. Earlier this year, a double-hulled tanker, would have prevented oil from washing ashore in Huntington Beach, CA. I am convinced that this provision will help protect our coastlines.

As a cochair of the Clean Oceans task force and as an original cosponsor of H.R. 2291, the Clean Oceans Act of 1989, I am very pleased that many provisions in that legislation have been incorporated in the conference report. Oilspill response teams will be better prepared, better trained, and better equipped.

As the months passed since the House passed the bill and the instructions to conferees to adhere to the double-hull language by overwhelming votes, I must admit I did have some doubts that we would get a bill enacted this year. I commend the conferees for their work in reaching compromise that can and will be enacted into law.

Mr. CRAIG. Mr. Speaker, I rise today to express my support for the conference report on the Oil Pollution Prevention, Response, Liability and Compensation Act of 1989.

After 15 years, Congress has finally been able to resolve its differences on comprehensive oilspill legislation. I am pleased to have served as a member of the historic conference committee that ironed out these differences.

During conference committee consideration, I was concerned that the legislation might preempt a considerable amount of State authority, making it the sole responsibility of the Federal Government to deal with spills. This would not be acceptable—I believe that States need to be assured an adequate role in these situations. However, I also understand the need of the Federal Government to coordinate contingency planning and response efforts for major spills. There is no doubt that this was a difficult balance to strike, but one I believe had to be reached. As a result, I was glad that we were able to arrive at a compromise, settling upon a workable Federal-State balance.

I was also concerned about the legislation's requirements for double-hulled tankers. While such innovations may indeed help prevent spills in the future, we must make sure that the improvements will not be so costly that the oil industry will not be able to comply with

them. After lengthy negotiations on this matter, I am confident that the schedule for replacing single-hull tankers settled upon by the conference committee is reasonable and can be met.

With the issues resolved, I am happy to support the conference report. It should provide quicker response to oilspills than what we saw in the *Exxon Valdez* episode, helping to preserve the environment. This is especially important in the Northwest, where a major oilspill could reach the Columbia River and eventually effect Idaho's anadromous fish runs. In addition, the bill provides a system of liability for those who cause spills and compensation for those adversely affected.

Mr. Speaker, all in all, this is a much needed and overdue peice of legislation, and I am happy that I was able to play a role in its passage after more than a decade of stalemate on the issue.

Mr. MACHTLEY. Mr. Speaker, in March of last year, the 11-million-gallon spill from the *Exxon Valdez* devastated Alaska's Prince William Sound. That spill was the forerunner for what seems to be a growing number of oilspills in our waters—including one in Narragansett Bay—in my State of Rhode Island.

The *Exxon Valdez* spill has served as the battle cry for Americans concerned about our environment. And the result of this call to action is this legislation we put our final stamp on today, the conference report on the comprehensive oilspill legislation (H.R. 1465) we passed last year.

This legislation includes a very important provision which has a special impact on my State of Rhode Island. The conference report contains a pilot program for the testing of a naviation system that could help keep tankers and other vessels containing hazardous materials from spilling their cargoes.

The new tracking system to be tested in Rhode Island, called the Global Positioning System [GPS], uses existing defense technology to track the position of individual ships to within a few yards of their actual position. Vessels equipped with GPS technology would hear a warning sound if the ship went off course. In addition, the system would also warn the nearest Coast Guard station.

Legislation I have introduced will require tankers to carry this technology once it is readily available. While I strongly support our actions to make Rhode Island a test site for implementing the global positioning system, I also hope that the passage of this test program today will begin to pave the way for more comprehensive use of this navigational technology.

Senator NUNN has recently proposed that Department of Defense Science and Technology should be used to support a program of environmental research. Using our defense technology to help protect our environment from the damage of oilspills provides a perfect example of this potential. Together, we can work to see this test program become a permanent portion of our environmental defense.

Mr. WALGREN. Mr. Speaker, I rise today in support of the conference report for H.R. 1465, the Oil Pollution Act of 1990. I am confident that this bill will greatly improve our country's antiquated and inadequate oilspill prevention, response, compensation, and liability system. As a conferee on this legislation, I would like to commend Chairmen ANDERSON, JONES, FASCELL, and ROE and the other conference leaders in the House who worked to forge this landmark agreement.

The recent spate of oilspills in the Gulf of Mexico, off the New England coast, and in Californian waters has demonstrated the frequency with which these calamities can happen on waterway right in our own backyard.

On January 2, 1988, my suburban Pittsburgh district was jolted by the rupture of an Ashland oil aboveground tank that released 3.8 million gallons of No. 2 diesel oil. Within minutes, 1 million gallons of fuel had rushed into the Monongahela River. More than 1,200 people were evacuated because of the potential of fire. Drinking water supplies of some 1 million people were affected and some communities had no water for 8 days. Businesses closed. Fish and wildlife were killed. While aboveground tank accidents of this magnitude are unusual, it is important to remember that they can happen and their results can be devastating.

The legislation before us today includes two provisions which I first suggested and which respond to the Ashland tank collapse. One provision will restore a nationwide oilspill reponse equipment inventory. The second suggestion will make sure that the interagency committee charged with leading the Federal research effort focuses on the technological deficiencies which hampered past spill responses before setting research priorities.

In 1984, the Coast Guard discontinued its nationwide equipment inventory because of budgetary constraints and a shift in emphasis toward drug interdiction. The confused response which characterized many of the spills over the past several years has demonstrated that we need this computerized listing to assist response personnel in determining the location and capability of specialized response equipment.

No company or government agency could house enough equipment to respond to a truly catastrophic spill. But it should be a relatively easy task to establish a computerized listing of equipment available nationwide so response personnel can at least determine what resources are available. In Pittsburgh, response officials spent precious hours searching manufacturers' sales receipts to determine which local businesses might own the specialized water testing devises necessary to attack the Ashland spill. While the search was underway, thousands of gallons of diesel fuel slipped under booms which were misplaced because of faulty data.

Obviously, no amount of preparation for a spill can be effective without the technology needed to contain and remove the oil. For nearly 20 years, the research necessary to develop effective oil-pollution technology has been poorly coordinated and underfunded. I believe that the research and development section of this bill as originally reported by the Science, Space, and Technology Committee will establish a well-defined program with clear direction for coordinating and focusing the Federal oil pollution research effort.

I appreciate the conference committee's efforts to retain language which will insure that interagency research committee studies the legacy of past oilspills in order to determine what research gaps exist and what research priorities we as a nation need to set. By looking at all past spills in all locations, we can better determine our research needs and fill those technology gaps that make containment and response so difficult. In the long run, I hope this will result the development of new equipment to contain spills in a variety of habitats including the icy, fast-running rivers of western Pennsylvania.

I want to express my appreciation to the Public Works and the Science Committees, especially Congressmen NOWAK and SCHEUER, who accepted my suggestions. I urge my colleagues to vote in favor of this important conference agreement.

Mr. GUNDERSON. Mr. Speaker, the House today will finally vote on the comprehensive package to protect America's shores from oil and hazardous material spills. I plan to vote for the conference report, but I do so reluctantly. While we have made great strides through H.R. 1465 to prevent repeats of the *Exxon Valdez* spill, I am very disappointed that we stopped in our efforts at the shore's edge.

Each year, hundreds of barges pass through the Upper Mississippi River National Wildlife and Fish Refuge. This part of the river is the only inland waterway designated by Congress as both a major national wildlife refuge system and a commerical navigation system. Those of us who live in the region carry a constant concern that we may lose the refuge in the event of a major barge spill of oil or other hazards material on the upper river.

When H.R. 1465 passed the House earlier this year, I successfully included an amendment to require that all hazardous material tank vessels—barges—operating on inland waterways be double hulled within 10 years. The amendment was accepted unanimously. That provision would have solved the problem in our area, and on all inland waterways. Unfortunately, it was dropped out of the conference report in favor of a requirement that all vessels be double hulled by the year 2015.

This provision does nothing for the daily threat of a major spill we face every day. Each year, 1 billion gallons of hazardous materials are transported through the refuge area. According to the Wisconsin Department of Natural Resources, spills of between 500,000 and 1 million gallons are possible. Standard use of double hulls would substantially alleviate that possibility.

Short of this, conferees failed to come to the rescue of inland waterways in another way. Under section IV, the Secretary is given new authority to require changes in operational procedures of tank operators if those changes will add to safety. Unfortunately, barges under 5,000 deadweight tons were again exempted from this coverage.

I will now be looking at ways to work with the Secretary of Transportation to find a solution to the problem we face on the upper river. Early on in this debate, the American Waterways Operators committed their cooperation in helping me solve the situation in our region. In addition, I am including in the record

correspondence between the U.S. Fish and Wildlife Service and the U.S. Coast Guard on the situation. For those interested—and I know many of those I represent will be—a review of this correspondence will demonstrate the level of cooperation we already have from the Fish and Wildlife Service.

Where this oilspill legislation helps our shorelines and offshore, waters, I appreciate the effort of those who served on the House-Senate conference. Where it stops short of applying similar standards to protect our inland waterways, I am saddened by the failure of the conference to retain my provision or to cover inland barges under its most important provisions. I will now turn my efforts to working with those groups, both within the Government and within the industry, to further protect the Upper Mississippi River National Wildlife and Fish Refuge.

FISH AND WILDLIFE SERVICE,
UPPER MISSISSIPPI RIVER REFUGE COMPLEX,
LaCrosse, WI, November 7, 1989.

Rear Adm. WILLIAM J. ECKER,
Commander, Second District, U.S. Coast Guard, St. Louis, MO.

DEAR ADMIRAL ECKER: This letter concerns the transport of ecologically hazardous cargo through the Upper Mississippi River National Wildlife and Fish Refuge (Refuge). The reach of the Mississippi River that contains the Refuge is generally characterized by the presence of very high quality fish and wildlife habitat adjacent to and at times within the 9-foot navigation channel. The commercial channel through the Refuge is often narrow and sinuous thus increasing the likelihood of vessel damage leading to a spill of hazardous cargo. Further, the location of the biologically valuable areas is such that spill containment would be very difficult if not impossible.

In view of the above and based upon the fact that a reasonable and prudent alternative in the form of double-hulled barges exists, I conclude that the continued, indiscriminate use of single-hulled barges to transport hazardous cargo within the boundaries of the Refuge is incompatible with the purposes for which the Refuge was established. Such indiscriminate use would therefore violate the National Wildlife Refuge System Administration Act.

I request that, beginning with the 1990 navigation season, you either prohibit the transport of hazardous cargo in single-hulled barges within the Refuge (Lock and Dam 14 to River Mile 763.5) or restrict use of single-hulled barges to tows arranged so that any such barge is protected from damage on the front and both sides by double-hulled barges or barges containing non-hazardous cargo.

Sincerely,

RICHARD F. BERRY,
Complex Manager.

U.S. COAST GUARD,
St. Louis, MO, December 1, 1989.

DEPARTMENT OF THE INTERIOR,
FISH AND WILDLIFE SERVICE,
Upper Mississippi River Refuge Complex, LaCrosse, WI

DEAR MR. BERRY: I have been asked by Admiral Ecker to address your concerns for the safe water transportation of ecologically hazardous cargoes in tank barges as expressed in your letter of November 7, 1989.

The Coast Guard has addressed the issue of the safe shipment of hazardous cargoes by water in specific regulations contained in Subchapter "O" of Title 46 Code Of Federal Regulations (CFR). The definition of hazardous cargoes is contained in 46 CFR Subchapter "O". The majority of the hazardous cargoes listed in 46 CFR Table 151.05 are required by regulation to be shipped in double hulled vessels. On the other hand, the shipment of petroleum products by water are regulated under 46 CFR Subchapter "D" and those regulations do not require carriage in double hulled vessels.

The marine industry on the Western Rivers is building and largely using double hulled tank barges that can carry both Subchapter "O" (hazardous) and Subchapter "D" (petroleum) cargoes because of the flexibility of cargoes they can transport. Over 75% of all tank barges that transit the Upper Mississippi River to St. Paul, MN are double hulled.

A review of the vessel casualties and pollution incidents, from Mile 615 to Mile 860 of the Upper Mississippi River, revealed that less than 15% of all oil spills were from vessels and less than 3% of all oil spills were the result of vessel casualties. None of the oil spills were the result of vessels grounding.

The implementation of your recommendations would have wide reaching implications in the marine transportation field. The issue of double hulls on vessels carrying petroleum products is a national issue, and therefore the solution should be a national one. For your information, Congress has taken the subject under consideration. Both houses of Congress have passed different versions of laws addressing the carriage of petroleum products in double hulled tank vessels, and a resolution is being deliberated in conference committee.

The casualty and pollution history in your specific area of interest does not indicate a pattern that warrants initiation of specific local regulations at this time. Changes to the operation of tank barges on the Upper Mississippi River by the Second Coast Guard District at this time would not be prudent until the ongoing national regulatory process has come to a conclusion. If you have any questions, please feel free to contact CDR Glantz of my staff at (314) 425-4655.

Sincerely,

M. R. PERKINS,
Commander, U.S. Coast Guard,
Chief, Marine Safety Division
(By direction of the District Commander).

Ms. PELOSI. Mr. Speaker, I commend the conferees for their agreement on H.R. 1465, the Oil Pollution Act of 1990. After 15 years of a deadlock in negotiations on this issue, we can now applaud the significant effort made by 73 Members of Congress, from 7 House committees and 3 Senate committees, to reach this landmark compromise.

Mr. Speaker, it's about time. It's about time we put environmental safety first. It's about time we made the polluter pay.

H.R. 1465 contains numerous provisions that will improve the safety of our coastal waters and make those liable for spills also liable for cleanup costs and damages due to a spill.

Among its major provisons, H.R. 1465, will require double hulls on most oil tankers and barges and require better contingency planning and preparedness on the part of potential spillers and Federal, State, and local entities. Navigation safety is improved and research on environmental impacts and cleanup methods is expanded. Additionally, this legislation will maintain the right of States to develop their individual liability and compensation standards.

My provision to create a specific fish and wildlife response plan was incorporated into this legislation and I am very pleased the conferees agreed that such a plan was necessary for the protection of marine life affected by a spill. The national contingency plan will now include my component "for the immediate and effective protection, rescue, and rehabilitation of, and the minimization of risk of damage to, fish and wildlife resources and their habitat that are harmed or that may be jeopardized by a discharge."

As part of the national response system, the conferees agreed on a comprehensive planning and response system under the leadership of the U.S. Coast Guard. The national response unit would include strike teams located in San Francisco, CA, and Mobile, AL, and consist of trained personnel and equipment to be available on request by Federal coordinators to respond to a spill. Response groups would also be headquartered in each of the Coast Guard's 10 regional districts.

Mr. Speaker, there were over 22,000 oilspills during the 3-year period from 1984 to 1986. The recent spill off the Galveston coast, the worst in the region's history, confirms the strong need to increase our efforts to prevent oilspills, to recover damages, to restore our environment and to pass H.R. 1465.

Mr. Speaker, by raising the costs of carelessness, we are reducing the costs to our environment. A necessary ingredient in preventing oilspills is energy conservation which would reduced our dependence on oil, and more importantly, our dependence on foreign oil. Our country needs oil, but we do not need the high risks that are involved. Perhaps our next step will be a workable national policy on energy conservation and alternative energy sources.

I urge my colleagues to support this important legislation to prevent oil spills, to respond adequately when they occur and to make the polluter pay.

Mr. BORSKI. Mr. Speaker, I rise today in strong support of the conference report on H.R. 1465. The conference, on which I served, has produced a good bill.

I am pleased that Congress is acting on legislation that the Public Works and Merchant Marine Committees began working on many years ago: Legislation to protect our coastlines and waterways from disastrous oilspills.

My chairmen, GLENN ANDERSON of the Public Works Committee and WALTER JONES of the Merchant Marine Committee, deserve recognition for their leadership in crafting this legislation. They have guided this legislation through their committees, to the floor of the House, and finally, through a long conference.

Chairman JONES, especially, should have our thanks. He has been workng for years for an oilspill bill, and now he will have one.

The *Exxon Valdez* in Alaska, the *Presidente Rivera* in the Delaware River near my home in Philadelphia, the *American Trader* off the California coast, the *Mega Borg* in the Gulf of Mexico; the names of these vessels and others are now infamous for the damage they have done.

Congress is on the verge of approving legislation to help prevent a repeat of the horrors of the *Exxon Valdez* and the *Mega Borg*. The United States needs a tough Federal oilspill prevention and cleanup bill. H.R. 1465 is that bill.

The legislation before us, reflecting the intent of an amendment I offered in the Public Works Committee, for the first time gives the Federal Government the ultimate responsibility for preventing oilspills and cleaning them up if they occur.

H.R. 1465 will significantly increase the liability of spillers of oil and requires them to pay for cleanup. This will be an added incentive to adopt enhanced safety precautions on the part of those who handle and transport oil.

This legislation also authorizes the use of money from the oilspill liability trust fund to pay for the costs of oilspills above and beyond a spillers' liability.

H.R. 1465 will also help to prevent oilspills through tough new safety requirements for tank vessels and their crews, including mandatory double hulls and stiffer drug and alcohol regulations for vessel operators.

The bill establishes regional Federal oilspill strike teams, so that the necessary cleanup equipment will be on hand at the site of an oilspill in hours, not days.

H.R. 1465 provides for a national oilspill plan for national oilspill preparedness. It establishes a line of authority and responsibility for oilspill prevention and cleanup that extends from the White House in Washington to the white caps on Prince William Sound.

Mr. WELDON. Mr. Speaker, I rise today in strong support of the oilspill bill conference substitute. This much needed and long overdue bill should significantly improve our Nation's ability to both prevent and contain oilspills.

As the chairman of the Congressional Fire Service Caucus, I would like to take this opportunity to thank the members of the conference committee for incorporating vital oil tanker fire prevention language in the final conference substitute. Because of the nature of the *Exxon Valdez* disaster, the oilspill prevention language in H.R. 1465 did not address the issue of shipboard fires.

The *Mega Borg* fire changed all that, reemphasizing the need for fire reponse and preparedness. On June 21, I testified before the Subcommittee on Coast Guard and Navigation about the need to incorporate fire prevention into the oilspill legislation.

Responding to this need, the conference committee has incorporated language that addresses the dangers of oil tanker fires into the conference substitute to H.R. 1465. In the area of contingency planning, stockpiling of fire fighting equipment, and research and development, the conference committee fashioned a comprehensive framework for oil tanker fire response.

With this much needed addition, I am confident that the conference substitute to H.R. 1465 will tremendously enhance America's ability to cleanup, contain, and, most importantly, prevent future oilspils. It cannot accomplish any of these goals, though, if it is not enacted. Let us not delay this process any longer.

Mrs. SAIKI. Mr. Speaker, I rise in support of the rule and the conference report on H.R. 1465.

The past few years have shown us how vulnerable our environment is to damage from oilspills.

It seems that hardly a month goes by without yet another oilspill. Too often these spills are occurring in environmentally sensitive areas.

And while even a small spill could devastate my home State of Hawaii, my State is also heavily dependent on imported oil, and so a safe, yet reliable system for transporting oil is vital to both our economy and our environment.

This bill represents a major comprehensive improvement on our oilspill laws. It significantly increases liability limits on spillers, and provides for additional compensation for damage from spills. The bill also requires that oilspill response teams be established around the country, including in Hawaii, to respond quickly to oilspills.

Finally, Mr. Speaker, I want to commend the chairman of the committee, Mr. JONES, and the ranking member, Mr. DAVIS, for their hard work and leadership to see that an oilspill bill is passed in this Congress. They have been charged with the responsibility for planning an oil delivery system that is both reliable and safe, and I believe they have done an excellent job in this regard.

I urge my colleagues to support the conference report and let's get this bill to the President now to help prevent any further oilspill catastrophes.

Mr. JONES of North Carolina. Mr. Speaker, I yield back the balance of my time, and I move the previous question on the conference report.

The previous question was ordered.

The SPEAKER pro tempore (Mr. MURTHA). The question is on the conference report.

The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

RECORDED VOTE

Mr. GREEN. Mr. Speaker, I demand a recorded vote.

A recorded vote was ordered.

The vote was taken by electronic device, and there were—ayes 360, noes 0, not voting 72, as follows:

[Roll No. 320]

□ 0236

So the conference report was agreed to.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

GENERAL LEAVE

Mr. HUGHES. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks on the conference report just agreed to.

The SPEAKER. Is there objection to the request of the gentleman from New Jersey?

There was no objection.

PERSONAL EXPLANATION

Mr. NELSON of Florida. Mr. Speaker, had I been present, I would have voted "aye" on rollcall votes Nos. 308, 310, 311, 312, 313, 314, 317, 318, 319, 320 and "nay" on rollcall Nos. 309, 315, and 316.

ENERGY POLICY AND CONSERVATION ACT SHORT-TERM EXTENSION AMENDMENT OF 1990

Mr. SHARP. Mr. Speaker, I ask unanimous consent to take from the Speaker's table the Senate bill (S. 2952) to amend the Energy Policy and Conservation Act to extend the authority for titles I and II, and ask for its immediate consideration.

The Clerk read the title of the Senate bill.

The SPEAKER. Is there objection to the request of the gentleman from Indiana?

Mr. LENT. Mr. Speaker, reserving the right to object, I will not object, but I take this reservation for the purpose of providing the gentleman from Indiana [Mr. SHARP] with an opportunity to explain this important unanimous-consent request.

Mr. SHARP. Mr. Speaker, will the gentleman yield?

Mr. LENT. I yield to the gentleman from Indiana.

Mr. SHARP. Mr. Speaker, this measure extends for 30 more days the President's power to use our large strategic petroleum reserve. This maintains the President's ability to respond to events in the Middle East, as may be necessary. Meanwhile, a conference committee is working out the details of a longer extension and updating of the authorizing legislation.

This reserve of nearly 600 million barrels of crude oil is our major weapon against a disruption in world oil supplies.

As the Iraq-Kuwait conflict shows, we may have to use it quickly to prevent a price panic, to ease the economic shock of any joint embargo of Iraq, or to maintain our foreign policy flexibility and our commitments to our traditional allies in that region.

I urge the President to be ready to use our reserve. We've tested it. We've filled it. We've spent over $15 billion to date so it will be ready for our consumers. And we surely will approve this routine extension of SPR today.

We must consult now on a coordinated oil reserve drawdown with our allies. Japan and our major oil importing allies in Western Europe also have large crude reserves for precisely this type of emergency.

If all Iraqi and Kuwaiti oil is embargoed, world supply drops by about 5 million barrels daily. A much smaller disruption doubled world prices in 1979, so a successful embargo could easily push us into a recession.

Coordinated use of our oil reserves can prevent or ease this harm:

Our reserve could supply 3 million barrels per day for a time.

Our allies could supply more from their reserves, which altogether are roughly as big as ours.

Other friendly nations—Venezuela—could make up some of the shortage by pumping more.

Commercial stocks of crude are at high levels now, worldwide, because of recent overproduction.

Over the longer term, if an embargo continues, new supplies in nations from Mexico to Nigeria could be brought online.

But our reserves can't last forever. And some nations with extra pumping capacity are in the Persian Gulf and may fear to use their spare capacity now.

It's better to act earlier, than later: This is a complex affair, with complex politics and complex industry arrangements.

The administration must not wait too long. Don't wait until energy price inflation damages our economies more than Iraq's.

The Mideast clearly remains a treacherous, fragile, unpredictable place. To date, we have been lucky—and low crude oil prices over the last 7 years have tremendously benefited our economy.

But our cheap energy ride may be over, regardless of what happens this week or next in Kuwait and Iraq. The fact is we've gotten complacent over this cheap energy:

We're importing half our oil: 8 million barrels daily, or about one-seventh of all oil burned in the entire world.

Our domestic output is declining.

Oil imports are $40 billion of our $110 billion annual trade deficit. This big share will jump as crude prices go up.

As we deal with this new conflict in the short run, we must keep working on long-term measures to improve our energy security:

Our strategic petroleum reserve of crude oil is big, but we'd be well advised to make it bigger still as OPEC power increases.

We need to build a small reserve of heating oil and other products, too, as the House recently voted to do.

We have to move off oil and onto cleaner, domestic, nonoil fuels like ethanol or natural gas.

We must stop wasting fuel. Energy efficiency and conservation are huge potential energy sources for us.

Mr. Speaker, no one can predict fuel prices. But the rise in crude oil prices in the last few weeks could mean another 20 cents per gallon for our motorists, farmers, and industry.

Our economy is already sluggish. If oil stays at $23, it's just like that $5 oil import fee that many of us have opposed over the years, that could: raise inflation 1 percent, boost unemployment by 100,000 jobs, cut housing starts by 50,000 units annually, and raise interest rates, because this "import fee" won't send any deficit-cutting revenues to the Treasury.

I urge your support on S. 2952 as a necessary step in our preparedness.

Mr. Speaker, obviously with the Iraq-Kuwait situation we certainly want to accomplish this. It has unanimous Republican and Democratic support and the administration is strongly behind it.

Mr. LENT. Mr. Speaker, further reserving the right to object, on behalf of the minority I want to express my support for this unanimous-consent request.

Given the events, as the gentleman from Indiana stated, given the events in the Middle East with respect to Kuwait, it would be most unwise for us to leave town without passing a bill extending current law. I can advise my colleagues that the Department of Energy, on behalf of the administration, has strongly urged that we do

pass Senate bill 2952, the bill that is subject to the unanimous-consent request now before us.

Mr. SHARP. If the gentleman will yield further, quickly, Mr. Speaker, it is imperative that our Government be ready to move rapidly and at any early moment on this. That is the purpose of the reserve, to protect us.

Mr. LENT. Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER. Is there objection to the request of the gentleman from Indiana?

There was no objection.

The Clerk read the Senate bill, as follows:

S. 2952

Be it enacted by the Senate and the House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE

That this Act may be referred to as the "Energy Policy and Conservation Act Short-Term Extension Amendment of 1990".

SECTION 2. EXTENSION OF AUTHORITY

The Energy Policy and Conservation Act (42 U.S.C. 6211 et seq.) is amended—

(a) in section 104(b)(1) by striking out "August 15, 1990" and inserting in lieu thereof "September 15, 1990";

(b) in section 171, striking out "August 15, 1990" each place it appears and inserting in lieu thereof "September 15, 1990"; and

(c) in section 281, by striking out the term "August 15, 1990" each place it appears and inserting in lieu thereof "September 15, 1990".

The Senate bill was ordered to be read a third time, was read the third time, and passed, and motion to reconsider was laid on the table.

□ 0240

PERMISSION FOR COMMITTEE ON ENERGY AND COMMERCE TO HAVE UNTIL AUGUST 31, 1990 TO FILE REPORT ON H.R. 5267, CABLE TELEVISION CONSUMER PROTECTION AND COMPETITION ACT OF 1990

Mr. SHARP. Mr. President, I ask unanimous consent that the Committee on Energy and Commerce be permitted to have until August 31, 1990 to file the report for H.R. 5267, the Cable Television Consumer Protection and Competition Act of 1990.

The SPEAKER. Is there objection to the request of the gentleman from Indiana?

There was no objection.

REMOVAL OF NAME OF MEMBER AS COSPONSOR OF H.R. 586, H.R. 1661, AND H.R. 2373

Mrs. SAIKI. I ask unanimous consent that my name be removed as a cosponsor of H.R. 586, H.R. 1661, and H.R. 2373.

The SPEAKER. Is there objection to the request of the gentlewoman from Hawaii?

There was no objection.

PERMISSION FOR COMMITTEE ON GOVERNMENT OPERATIONS TO HAVE UNTIL 6 P.M. FRIDAY, AUGUST 31, 1990, TO FILE SUNDRY REPORTS

Mr. CONYERS. Mr. Speaker, I ask unanimous consent that the Committee on Government Operations have until 7 p.m. Friday, August 31, 1990, to file sundry reports.

The SPEAKER. Is there objection to the request of the gentleman from Michigan?

There was no objection.

FOOD, AGRICULTURE, CONSERVATION, AND TRADE ACT OF 1990

Mr. DE LA GARZA. Mr. Speaker, pursuant to House Resolution 444, I call up the Senate bill (S. 2830) to extend and revise agricultural price support and related programs, to provide for agricultural export, resource conservation, farm credit, and agricultural research and related programs, to ensure consumers an abundance of food and fiber at reasonable prices, and for other purposes, and ask for its immediate consideration in the House.

The SPEAKER. Is there objection to the request of the gentleman from Texas?

There was no objection.

MOTION OFFERED BY MR. DE LA GARZA

Mr. DE LA GARZA. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. DE LA GARZA moves to strike out all after the enacting clause of the bill S. 2830 and insert in lieu thereof the provisions contained in H.R. 3950, H.R. 3581, and H.R. 4077, as passed the House, as follows:

SECTION 1. SHORT TITLE AND TABLE OF CONTENTS.

(a) SHORT TITLE.—This Act may be cited as the "Food and Agricultural Resources Act of 1990".

(b) TABLE OF CONTENTS.—The table of contents is as follows:

TITLE I—COTTON

Sec. 101. Loan rates, target prices, disaster payments, Acreage Limitation Program, and land diversion for the 1991 through 1995 crops of upland cotton.
Sec. 102. Suspension of base acreage allotments, marketing quotas, and related provisions.
Sec. 103. Commodity credit corporation sales price restrictions.
Sec. 104. Nonapplicability of section 103(a) of the Agricultural Act of 1949 to the 1991 through 1995 crops of upland cotton.
Sec. 105. Skiprow practices.
Sec. 106. Preliminary allotments for 1996 crop of upland cotton.
Sec. 107. Extra long staple cotton.
Sec. 108. Adjustment of support prices.
Sec. 109. Cottonseed and cottonseed oil price support.

TITLE II—SUGAR

Subtitle A—Price Support and Marketing Allotments

Sec. 201. Sugar program extension.
Sec. 202. Information reporting.
Sec. 203. Marketing allotments for sugar and crystalline fructose.
Sec. 204. Establishment of marketing allotments.
Sec. 205. Allocation of marketing allotments.
Sec. 206. Assignments of deficits.
Sec. 207. Provisions applicable to producers.
Sec. 208. Special rules.
Sec. 209. Regulations; violations; publication of Secretary's determinations; jurisdiction of the courts; United States attorneys.
Sec. 210. Appeals.
Sec. 211. Administration.

Subtitle B—Import Treatment of Sugars, Syrups, and Molasses

Sec. 221. Findings and purpose.
Sec. 222. Tariff treatment when tariff-rate quotas not in effect.
Sec. 223. Tariff-rate quotas.
Sec. 224. Applicable statutory authorities.
Sec. 225. Definitions.
Sec. 226. Conforming amendments to HTS.
Sec. 227. Effective date; termination.

TITLE III—RICE

Sec. 301. Loan rates, target prices, disaster payments, Acreage Limitation Program, and land diversion for the 1991 through 1995 crops of rice.
Sec. 302. Marketing certificates.

TITLE IV—DAIRY

Sec. 401. Findings.
Sec. 402. Milk Price Support and Inventory Management Program for calendar years 1991 through 1995.
Sec. 403. Milk manufacturing margin adjustment.
Sec. 404. Minnesota-Wisconsin price series reform.
Sec. 405. Hearings on Federal milk marketing orders.
Sec. 406. Report of dairy product purchases.
Sec. 407. Application of support price for milk.
Sec. 408. Application of amendments.
Sec. 409. Adjustments for seasonal production; hearings on amendments; determination of milk prices.
Sec. 410. Transfer of dairy products to the military and veterans hospitals.
Sec. 411. Extension of the Dairy Indemnity Program.
Sec. 412. Export sales of dairy products.
Sec. 413. Component pricing of milk.
Sec. 414. Adjustments in payments by handlers.
Sec. 415. Dairy Export Incentive Program.
Sec. 416. Amendment to the Packers and Stockyards Act, 1921, to provide for the establishment of trusts for the benefit of milk producers.
Sec. 417. Status of producer handlers.

TITLE V—WOOL AND MOHAIR

Sec. 501. Extension of Price Support Program.
Sec. 502. Promotion program.
Sec. 503. Payment limitation.

TITLE VI—HONEY

Subtitle A—Beekeeping Stabilization

Sec. 601. Short title.
Sec. 602. Findings and policy.
Sec. 603. Honey price support.

Subtitle B—Honey Research, Promotion, and Consumer Information

Sec. 611. Short title.

Sec. 612. Definitions.
Sec. 613. Required terms in orders.
Sec. 614. Assessments.
Sec. 615. First reconfirmation referendum.
Sec. 616. Investigations and power to subpoena.
Sec. 617. Conforming amendment to order.

TITLE VII—OILSEEDS

Subtitle A—Oilseed Price Support

Sec. 701. Oilseed price support.

Subtitle B—Soybean Promotion, Research and Consumer Information

Sec. 711. Short title and table of contents.
Sec. 712. Findings and declaration of policy.
Sec. 713. Definitions.
Sec. 714. Issuance and amendments of orders.
Sec. 715. Required terms in orders.
Sec. 716. Referenda.
Sec. 717. Petition and review.
Sec. 718. Enforcement.
Sec. 719. Investigations; power to subpoena; aid of courts.
Sec. 720. Administrative provisions.
Sec. 721. Regulations.
Sec. 722. Authorization.

TITLE VIII—PEANUTS

Sec. 801. Suspension of marketing quotas and acreage allotments.
Sec. 802. National poundage quota and farm poundage quota.
Sec. 803. Sale, lease, or transfer of farm poundage quota.
Sec. 804. Marketing penalties; disposition of additional peanuts.
Sec. 805. Price support program.
Sec. 806. Reports and records.
Sec. 807. Suspension of certain price support provisions.
Sec. 808. Experimental and research programs for peanuts.
Sec. 809. Conforming changes.

TITLE IX—WHEAT

Sec. 901. Loan rates, target prices, disaster payments, Acreage Limitation Program, and land diversion for the 1991 through 1995 crops of wheat.
Sec. 902. Nonapplicability of certificate requirements.
Sec. 903. Suspension of land use, wheat marketing allocation, and producer certificate provisions.
Sec. 904. Suspension of certain quota provisions.
Sec. 905. Nonapplicability of section 107 of the Agricultural Act of 1949 to the 1991 through 1995 crops of wheat.

TITLE X—FEED GRAINS

Sec. 1001. Loan rates, target prices, disaster payments, Acreage Limitation Program, and land diversion for the 1991 through 1995 crops of feed grains.
Sec. 1002. Price support for high moisture feed grains.
Sec. 1003. Nonapplicability of section 105 of the Agricultural Act of 1949 to the 1991 through 1995 crops of feed grains.
Sec. 1004. Calculation of refunds of advance established price payments by producers of the 1988 or 1989 crops of feed barley.

TITLE XI—GENERAL COMMODITY PROVISIONS

Subtitle A—Miscellaneous Commodity Provisions

Sec. 1101. Payment limitations.
Sec. 1102. Hybrid seed corn producers.
Sec. 1103. Advance deficiency and diversion payments.
Sec. 1104. Commodity credit corporation sales price restrictions.
Sec. 1105. Disaster payments for 1991 through 1995 crops of peanuts, soybeans, sugar beets, and sugarcane.
Sec. 1106. Extension and enhancement of authority for multiyear set-aside contracts.
Sec. 1107. Establishment of cover crop.
Sec. 1108. Supplemental set-aside and acreage limitation authority.
Sec. 1109. Replenishment of the food security wheat reserve.
Sec. 1110. Extension of normally planted acreage provisions.
Sec. 1111. Extension of provisions regarding the advance announcement of programs.
Sec. 1112. Extension of provisions regarding certain determinations of the Secretary.
Sec. 1113. Application of terms in the Agricultural Act of 1949.
Sec. 1114. Normal supply determination.
Sec. 1115. National agricultural cost of production standards review board.
Sec. 1116. Producer reserve program for wheat and feed grains.
Sec. 1117. Certificates.
Sec. 1118. Procedural requirements.
Sec. 1119. Financial impact assessment.
Sec. 1120. Survey of program participants.
Sec. 1121. Sense of the Congress.
Sec. 1122. End rows in set-aside.
Sec. 1123. Increase in support levels.

Subtitle B—Uniform Base Acreage and Yield Provisions

Sec. 1131. Acreage base and program yield system for the wheat, feed grain, upland cotton, and rice programs.

Subtitle C—Encouraging Surface Water Storage

Sec. 1141. Definitions.
Sec. 1142. Surface reservoir encouragement program.
Sec. 1143. Special program for areas of severe groundwater depletion.
Sec. 1144. Limitations.

TITLE XII—AGRICULTURAL TRADE AND ASSISTANCE

Subtitle A—Public Law 480 and Related Programs

Sec. 1201. Short title.
Sec. 1202. Amendment of Agricultural Trade Development and Assistance Act of 1954.
Sec. 1203. Extension of authorities.
Sec. 1204. Amendment to section 2.
Sec. 1205. Amendment to section 3.
Sec. 1206. Amendments to title I.
Sec. 1207. Amendments to title II.
Sec. 1208. Amendment to title III.
Sec. 1209. Amendments to title IV.
Sec. 1210. Food for Peace officers.
Sec. 1211. Revision of regulations.
Sec. 1212. Independent evaluation of Public Law 480 programs.
Sec. 1213. Amendment to section 416(b) of 1949 Act.
Sec. 1214. Food for progress.
Sec. 1215. Extension of food security wheat reserve.

Subtitle B—Export Promotion

Sec. 1221. Amendment to the Agricultural Trade Act of 1978.
Sec. 1222. Amendments relating to export credit programs.
Sec. 1223. Market development task force.
Sec. 1224. Prohibition of export promotion.
Sec. 1225. Protecting United States agricultural exports.

Subtitle C—Agricultural Trade with and Fellowships for Emerging Democracies and Middle-Income Countries

Sec. 1231. Promotion of agricultural exports to emerging democracies.
Sec. 1232. Agricultural fellowship program for middle-income countries and emerging democracies.

Subtitle D—Studies, Reports, and Other Provisions

Sec. 1241. Study of North American free trade area.
Sec. 1242. Report on wood and fish export promotion.
Sec. 1243. Rose and flower study.
Sec. 1244. Commodity transportation and technology assessment and report.
Sec. 1245. Red tart cherry study.
Sec. 1246. Report on section 22 suspension or termination.
Sec. 1247. Agricultural exports to the European Community.
Sec. 1248. Language proficiency and evaluation of foreign agricultural service officers.
Sec. 1249. Prohibition on use of programs with respect to the export of certain commodities and products.

Subtitle E—Foreign Affairs Provision

Sec. 1251. Use of economic assistance funds for agricultural and industrial alternatives to narcotics production in major coca producing countries.

Subtitle F—Effective Dates and Conforming Changes

Sec. 1261. Effective dates.
Sec. 1262. Conforming changes.

Subtitle G—Pesticide Export Reform

Sec. 1271. Short title.
Sec. 1272. Definitions.
Sec. 1273. Registration of establishments.
Sec. 1274. Protection of trade secrets and other information.
Sec. 1275. Unlawful Acts.
Sec. 1276. Exports.
Sec. 1277. Conforming amendments to table of contents.
Sec. 1278. Study of exports of unregistered pesticides.
Sec. 1279. Effective dates.

TITLE XIII—RESEARCH

Subtitle A—Extensions and Changes to Existing Programs

Sec. 1301. Increased authorizations for, and the extension of, existing programs.
Sec. 1302. Findings of the National Agricultural Research, Extension, and Teaching Policy Act of 1977.
Sec. 1303. Definition of sustainable agriculture.
Sec. 1304. Joint Council on Food and Agricultural Sciences and National Agricultural Research and Extension Users Advisory Board.
Sec. 1305. Federal-State partnership and coordination.
Sec. 1306. Grants to enhance research capacity in schools of veterinary medicine.
Sec. 1307. Grants and fellowships for food and agricultural sciences education.

Sec. 1308. Grants for research on the production and marketing of alcohols and industrial hydrocarbons from agricultural commodities and forest products.
Sec. 1309. Joint contract for assessment of food science and human nutrition research.
Sec. 1310. Animal health and disease research study and Animal Health Science Research Advisory Board.
Sec. 1311. Grant programs for 1890 land-grant colleges, including Tuskegee University.
Sec. 1312. International agricultural research and extension and international trade development centers.
Sec. 1313. Reauthorization of extension education and pilot project to coordinate food and nutrition education programs.
Sec. 1314. Aquaculture assistance programs.
Sec. 1315. Program of competitive, special, and facilities grants for agricultural research.
Sec. 1316. Minimization of conflicts of interest of employees of colleges receiving funds under the Smith-Lever Act.
Sec. 1317. Grants for financially stressed farmers, dislocated farmers, and rural families.

Subtitle B—Sustainable Agriculture Research and Education Program

Sec. 1321. Purpose and definitions.
Sec. 1322. Research and extension projects.
Sec. 1323. Program administration.
Sec. 1324. Federal-State matching grant program.
Sec. 1325. Integrated management systems research and education.
Sec. 1326. Technical guides and handbooks.
Sec. 1327. Education and training.
Sec. 1328. Authorization for appropriations.
Sec. 1329. Repeal of agricultural productivity research provisions.

Subtitle C—National Genetics Resources Program

Sec. 1331. Establishment, purpose, and functions of the National Genetic Resources Program.
Sec. 1332. Appointment and authority of director.
Sec. 1333. Advisory council.
Sec. 1334. Definitions and authorization of appropriations.

Subtitle D—National Agricultural Library

Sec. 1335. Establishment, purposes, and functions of the National Agricultural Library.
Sec. 1336. Gifts.
Sec. 1337. Board of Regents.
Sec. 1338. Definitions and authorization of appropriations.

Subtitle E—National Agricultural Weather Information System

Sec. 1339. Short title, findings, and purposes.
Sec. 1340. Agricultural Weather Office.
Sec. 1341. National Advisory Board on Agricultural Weather.
Sec. 1342. State agricultural weather information systems.
Sec. 1343. Funding.

Subtitle F—Plant and Animal Pest and Disease Control Program

Sec. 1344. Findings and definitions.
Sec. 1345. Establishment of office.
Sec. 1346. Plant and Animal Pest and Disease Control Program.
Sec. 1347. Pest and disease control data base and pesticide resistance monitoring.
Sec. 1348. Research on exotic pests.
Sec. 1349. Authorization of appropriations.
Sec. 1350. Study of the biology and behavior of cinch bugs: factors leading to crop loss and development of improved management practices.

Subtitle G—Research Regarding the Production, Preparation, Processing, Handling, and Storage of Agricultural Products

Sec. 1351. Findings, purpose, and definition.
Sec. 1352. Research and grant program.
Sec. 1353. Advisory committee and grant process.
Sec. 1354. Reports to Congress.
Sec. 1355. Authorization of appropriations.
Sec. 1355B. Study of the impact on United States meat exports of allowing destination based grading.

Subtitle H—National Institute for Alternative Agricultural Products

Sec. 1356. Short title, purposes, and definitions.
Sec. 1357. National Institute for Alternative Agricultural Products.
Sec. 1358. National Alternative Agricultural Products Board.
Sec. 1359. Research and development grants, contracts, and agreements.
Sec. 1360. Commercialization assistance.
Sec. 1361. General rules regarding the provision of assistance.
Sec. 1362. Regional Centers.
Sec. 1363. Alternative Agricultural Products Technology Revolving Fund.

Subtitle I—Agriculture and Water Policy Coordination

PART 1—SHORT TITLE, DEFINITIONS, WATER QUALITY POLICY, COORDINATION, RESEARCH AND INFORMATION

Sec. 1364. Short title, purpose, definitions, and authorization of appropriations.
Sec. 1365. Policy with respect to agrichemicals.
Sec. 1366. State Water Quality Coordination Program.
Sec. 1367. Water quality research.
Sec. 1368. Nutrient management research.
Sec. 1369. Repository of agriculture and water quality planning information.
Sec. 1370. Data base on State plans and programs.
Sec. 1371. National Agriculture and Water Data Base.
Sec. 1371A. Pesticide recordkeeping.

PART 2—EXPERIMENTAL WATER QUALITY ENHANCEMENT PROGRAM

Sec. 1372. Program eligibility.
Sec. 1373. Duties of owners and operators.
Sec. 1374. Duties of the Secretary.
Sec. 1375. Water quality management plans.
Sec. 1376. Agreements.
Sec. 1376A. Environmental restoration program.

Subtitle J—Miscellaneous Research Provisions

Sec. 1377. Biotechnology risk assessment research.
Sec. 1378. Graduate school of the United States Department of Agriculture.
Sec. 1379. Pesticide Impact Response Program.
Sec. 1380. Collection of pesticide use information.
Sec. 1381. Disposal of agricultural chemicals and agricultural chemical containers.
Sec. 1382. National farm safety study.
Sec. 1383. Plant Genome Mapping Program.
Sec. 1384. Composting Research and Extension Program.
Sec. 1385. Aflatoxin research program.
Sec. 1386. Agricultural telecommunications program.
Sec. 1387. Study of the transportation of fertilizer and agricultural chemicals to farmers.
Sec. 1388. Special grant to study constraints on agricultural trade.
Sec. 1389. Special grants for mesquite and prickly pear research.
Sec. 1390. National centers for agricultural product quality research.
Sec. 1391. Immunoassay research program.
Sec. 1392. Rural development research.
Sec. 1393. Outreach and assistance for socially disadvantaged farmers.
Sec. 1394. Grants for niche market development.
Sec. 1395. Turkey Research Center.
Sec. 1396. Scrapie research program.
Sec. 1397. Deer tick ecology and related research.
Sec. 1398. Research extension agents.

TITLE XIV—FRUITS, VEGETABLES, AND MARKETING

Subtitle A—Fruits and Vegetables

Sec. 1401. Findings.
Sec. 1402. Purposes.
Sec. 1403. Declaration.
Sec. 1404. Study of the fruit and vegetable industry.
Sec. 1405. Pilot program on labeling of perishable agricultural products.

Subtitle B—Marketing

Sec. 1411. Amendment to the Perishable Agricultural Commodities Act.
Sec. 1412. Enforcement of handler assessments.
Sec. 1413. Wine and winegrape industry study.
Sec. 1414. Producer research and promotion board accountability.

Subtitle C—Commodity Promotion

PART 1—PECAN PROMOTION

Sec. 1421. Short title.
Sec. 1422. Findings and declaration of policy.
Sec. 1423. Definitions.
Sec. 1424. Issuance of plans.
Sec. 1425. Regulations.
Sec. 1426. Required terms in plans.
Sec. 1427. Permissive terms in plans.
Sec. 1428. Assessments.
Sec. 1429. Petition and review.
Sec. 1430. Enforcement.
Sec. 1431. Investigations and power to subpoena.
Sec. 1432. Requirement of referendum.
Sec. 1433. Suspension or termination of plan.
Sec. 1434. Authorization of appropriations.

PART 2—MUSHROOMS

Sec. 1441. Short title.
Sec. 1442. Findings and declaration of policy.
Sec. 1443. Definitions.
Sec. 1444. Issuance of orders.
Sec. 1445. Required terms in orders.
Sec. 1446. Referenda.
Sec. 1447. Petition and review.
Sec. 1448. Enforcement.

Sec. 1449. Investigations and power to subpoena.
Sec. 1450. Savings provision.
Sec. 1451. Suspension or termination of orders.
Sec. 1452. Authorization of appropriations.
Sec. 1453. Regulations.

PART 3—POTATOES

Sec. 1461. Short title.
Sec. 1462. Findings and declaration of policy.
Sec. 1463. Definitions.
Sec. 1464. Authority to issue a plan.
Sec. 1465. Notice and hearings.
Sec. 1466. Required terms in plans.
Sec. 1467. Permissive terms in plans.
Sec. 1468. Assessments.
Sec. 1469. Investigation and power to subpoena.
Sec. 1470. Requirement of referendum.
Sec. 1471. Suspension or termination of plans.
Sec. 1472. Amendment procedure.

PART 4—COTTON

Sec. 1473. Short title.
Sec. 1474. Findings and declaration of policy.
Sec. 1475. Required terms in order; cotton imports.
Sec. 1476. Requirements for referenda.
Sec. 1477. Suspension and termination of orders.
Sec. 1478. Amendments to the order.
Sec. 1479. Producer refunds.
Sec. 1480. Definitions.

PART 5—LIMES

Sec. 1481. Short title.
Sec. 1482. Findings, purposes, and limitations.
Sec. 1483. Definitions.
Sec. 1484. Issuance of orders.
Sec. 1485. Required terms in orders.
Sec. 1486. Permissive terms in orders.
Sec. 1487. Petition and review.
Sec. 1488. Enforcement.
Sec. 1489. Investigations and power to subpoena.
Sec. 1490. Initial referendum.
Sec. 1491. Suspension and termination.
Sec. 1492. Authorization of appropriations.
Sec. 1493. Regulations.

PART 6—APPLICATION OF COMMODITY RESEARCH AND PROMOTION PROGRAMS TO IMPORTS

Sec. 1494. Consistency with international obligations of the United States.

Subtitle D—Organic Certification Standards

Sec. 1495. Short title.
Sec. 1495A. Purposes.
Sec. 1495B. Definitions.
Sec. 1495C. National organic production program.
Sec. 1495D. Compliance requirements.
Sec. 1495E. General requirements.
Sec. 1495F. State organic certification program.
Sec. 1495G. National standards for organic production.
Sec. 1495H. Prohibited crop production practices and materials.
Sec. 1495I. Animal production practices and materials.
Sec. 1495J. Handling.
Sec. 1495K. Additional guidelines.
Sec. 1495L. Other production and handling practices.
Sec. 1495M. Contents of organic farm plan.
Sec. 1495N. Accreditation program.
Sec. 1495O. Requirements of certifying agents.
Sec. 1495P. Peer review of certifying agents.
Sec. 1495Q. National list.
Sec. 1495R. National Organic Standards Board.
Sec. 1495S. Violations of subtitle.
Sec. 1495T. Administrative appeal.
Sec. 1495U. Administration.
Sec. 1495V. Authorization of appropriations.

TITLE XV—STATE AND PRIVATE FORESTRY

Sec. 1501. Firefighting preparedness and mobilization assistance.
Sec. 1502. Insect control.
Sec. 1503. Disaster assistance.
Sec. 1504. Research and utilization.
Sec. 1505. Forest Reserve Program.
Sec. 1506. Forest land protection studies.
Sec. 1507. Forest resources management improvement stewardship and reforestation project.
Sec. 1508. Urban and community forestry.
Sec. 1509. Tree planting foundation.
Sec. 1510. Presidential Commission on State and Private Forests.
Sec. 1511. Blue Mountain Natural Resource Institute.
Sec. 1512. International Forest Resources Institute.
Sec. 1513. Semiarid agroforestry research.

TITLE XVI—CONSERVATION

Sec. 1601. Modification of Highly Erodible Land Program.
Sec. 1602. Modification of Wetlands Program.
Sec. 1603. Conservation Reserve Program.
Sec. 1604. Tree planting initiative.
Sec. 1605. Natural Resource Loan Program.
Sec. 1606. State technical committee.
Sec. 1607. Water quality protection.
Sec. 1608. Wetland and environmental easements.
Sec. 1609. Administration of conservation programs.
Sec. 1610. Office of Environmental Quality.
Sec. 1611. Integrated farm management program option.
Sec. 1612. Soil and water activities.
Sec. 1613. Cost sharing for soil enhancement.
Sec. 1614. Extension of Great Plains Conservation Program.
Sec. 1615. Amendment to the Watershed Protection and Flood Prevention Act.
Sec. 1616. Resource Conservation and Development Program eligibility.
Sec. 1617. Amendment to the Noxious Weed Act.
Sec. 1618. Agricultural Resource Conservation Demonstration Program.

TITLE XVII—FOOD STAMP AND RELATED PROVISIONS

Sec. 1700. Short title; presumption of reference to Food Stamp Act of 1977.

Subtitle A—Reducing Childhood Hunger

Sec. 1701. Households with high shelter expenses.
Sec. 1702. Basic benefit level.
Sec. 1703. Continuing benefits to eligible households.
Sec. 1704. Emergency food for disaster victims.
Sec. 1705. Clothing allowances and general assistance vendor payments.
Sec. 1706. Participants in demonstration projects.
Sec. 1707. Alternate method of issuance.
Sec. 1708. Improving assistance to the homeless.
Sec. 1709. Reduced paperwork for homeless households.

Subtitle B—Promoting Self-Sufficiency

Sec. 1711. Child support.
Sec. 1712. Limitation on resources.
Sec. 1713. State option to reduce unnecessary paperwork.
Sec. 1714. Combined households.
Sec. 1715. Employment and training program expansion.
Sec. 1716. Employment and training allocation.
Sec. 1717. Helping low-income students achieve self-sufficiency.
Sec. 1718. Families in transitional housing.

Subtitle C—Simplifying Program Administration

Sec. 1721. Relatives living together.
Sec. 1722. AFDC/Food stamp simplification.
Sec. 1723. Simplifying resource and eligibility determinations.
Sec. 1724. Simplified application signing requirements.
Sec. 1725. Categorical eligibility for recipients of State general assistance.
Sec. 1726. Fraud claims repayment.
Sec. 1727. Commission on coordination of family support and food stamp policies.
Sec. 1728. Dependent care expenses.
Sec. 1729. State flexibility in budgeting methods.
Sec. 1730. Enhanced waiver authority for demonstration projects.

Subtitle D—Hunger in Rural America

Sec. 1731. Simplified issuance procedures in rural areas.
Sec. 1732. Flexibility for State informational activities.
Sec. 1733. Vehicles necessary to carry fuel or water.
Sec. 1734. Grants to improve food stamp participation of rural Americans, minorities, elderly and homeless.

Subtitle E—Promoting Access for the Elderly and Disabled

Sec. 1741. Clarifying amendment concerning simplified procedure for claiming excess medical deduction.
Sec. 1742. Value of minimum benefit.
Sec. 1743. Procedures for issuing aggregate allotments.
Sec. 1744. Applicants for supplemental security income.
Sec. 1745. Asset Limits for the disabled.
Sec. 1746. Extension of pilot projects.

Subtitle F—Program Administration by State Agencies

Sec. 1751. Quality control sanctions with respect to disallowances before fiscal year 1991.
Sec. 1752. Food stamp automation.

Subtitle G—Food Stamp Program Integrity

Sec. 1761. Authorization of wholesale food concerns.
Sec. 1762. Biennial reauthorization of retail food stores.
Sec. 1763. Per-violation civil money penalty for coupon trafficking; permanent disqualification for certain abuses.
Sec. 1764. Fines for retail food stores and wholesale food concerns that accept loose coupons.
Sec. 1765. Fines for unauthorized third parties that accept food stamps.
Sec. 1766. Computer fraud penalties.
Sec. 1767. Unlawful use of coupons in laundering monetary instruments.

Sec. 1768. Issuance of warning letters.

Subtitle H—Commodity Distribution Programs

Sec. 1771. TEFAP commodity availability.
Sec. 1772. Food bank projects.
Sec. 1773. Authorizing a Commodity Supplemental Food Program for the elderly and increasing administrative funding.
Sec. 1774. Food Distribution Program—advance funding for State option contracts (SOCS).
Sec. 1775. Clarifying amendment.
Sec. 1776. Distribution of milk.
Sec. 1777. Commodity assistance for infants and children.

Subtitle I—Reauthorization of Programs

Sec. 1781. Reauthorization of Food Stamp Program and elimination of specified authorization levels.
Sec. 1782. Reauthorization of Nutrition Assistance Program for Puerto Rico.
Sec. 1783. Reauthorization of Temporary Emergency Food Assistance Program.
Sec. 1784. Soup kitchens and food banks.
Sec. 1785. Reauthorization of Commodity Supplemental Food Program and other food donation programs.
Sec. 1786. Processing agreements.
Sec. 1787. Nutrition education authorization.

Subtitle J—Miscellaneous; Effective Dates

Sec. 1791. Gleaning assistance.
Sec. 1792. Welfare Simplification and Coordination Advisory Committee.
Sec. 1793. Nutrition education improvements.
Sec. 1794. Effective dates.
Sec. 1795. Special provisions in case of sequestration.

TITLE XVIII—IMPROVEMENT OF AGRICULTURAL ECONOMY

Subtitle A—Grain Quality Improvements

Sec. 1801. Committee on grain quality and grain quality coordinator.
Sec. 1802. Benefits and costs associated with grain quality.
Sec. 1803. Classification, grades, and standards design framework.
Sec. 1804. Improving the cleanliness of grain.
Sec. 1805. Grade determining factors related to physical soundness and purity.
Sec. 1806. Testing for aflatoxin contamination of corn shipped in foreign commerce; domestic testing standards and procedures.
Sec. 1807. Cargo loading requirements.
Sec. 1808. Prohibition of contamination.
Sec. 1809. Sense of Congress concerning tests for purity.
Sec. 1810. Sense of Congress concerning cooperative enforcement of Federal grain purity requirements.
Sec. 1811. Entry quality standards for all farmer-owned reserve grains.
Sec. 1812. Price support loan incentives for quality grain.
Sec. 1813. Quality requirements for commodity credit Corporation-owned grain.
Sec. 1814. Establishing quality as a goal for Commodity Credit Corporation programs.
Sec. 1815. Seed variety information.
Sec. 1816. Survey of grain varieties.
Sec. 1817. Analysis of Variety Survey Data.
Sec. 1818. Sense of Congress concerning end-use performance research.
Sec. 1819. Sense of Congress concerning cooperation in objective testing.
Sec. 1820. Authority to assist farmers and elevator operators.
Sec. 1821. Standardizing commercial inspections.

Subtitle B—Agricultural Cooperation and Development

Sec. 1831. Control and eradication of plant pests.
Sec. 1832. Cooperation in animal disease control.
Sec. 1833. Debt for agricultural development exchanges.

Subtitle C—Other Provisions

Sec. 1841. Agricultural product promotion and enhancement.
Sec. 1842. Agricultural Assistance Program for farmers with disabilities.
Sec. 1843. Emergency grants to assist low-income migrant and seasonal farmworkers.
Sec. 1844. Narrowing the defense exception to the Farmland Protection Policy Act.
Sec. 1845. Forage rangeland inventory survey.
Sec. 1846. Accurate tracking of costs of Commodity Certificate Program.
Sec. 1847. Improving the accuracy of Commodity Program budget forecasts.
Sec. 1848. Amendments to the Disaster Assistance Act of 1989.

Subtitle D—Reports and Studies

Sec. 1851. Pass through of savings.
Sec. 1852. Farm value of agricultural products.
Sec. 1853. Study of the concentration of the meat packing industry.
Sec. 1854. Commodity reports.
Sec. 1855. Recordkeeping.
Sec. 1856. Buy American.
Sec. 1857. Farm spouse fairness and equity.
Sec. 1858. Sense of Congress concerning crop insurance.

E—Food Marketing Research

Sec. 1861. Short title.
Sec. 1862. Definition.
Sec. 1863. Research.
Sec. 1864. Changes in procedural regulations.
Sec. 1865. Authorization of appropriations.

TITLE XIX—REORGANIZATION OF THE DEPARTMENT OF AGRICULTURE

Sec. 1901. Rural Development Administration.
Sec. 1902. Confronting amendments.

TITLE XX—LOCAL PRIORITIZATION OF PROJECT FUNDING

Sec. 2001. Delivery of certain rural development programs.
Sec. 2002. Loan and loan guarantee allocation and transfer.

TITLE XXI—ENHANCEMENT OF EXISTING RURAL DEVELOPMENT PROGRAMS

Sec. 2101. REA technical assistance unit.
Sec. 2102. Deferment of payment on economic development loans.
Sec. 2103. Water and waste lending by banks for cooperatives.
Sec. 2104. Amendments to the business and industry loan program.
Sec. 2105. Water or waste disposal loans to benefit rural businesses.
Sec. 2106. Rural wastewater treatment circuit rider program.
Sec. 2107. Increase on limitation of authorization for water and waste grants.
Sec. 2108. Limitation on conditions for water and sewer grants and loans.

TITLE XXII—RURAL DEVELOPMENT INFORMATION SHARING AND TECHNOLOGY TRANSFERS

Sec. 2201. Rural development information sharing.
Sec. 2202. Rural technology grants.

TITLE XXIII—RURAL BUSINESS AND LEADERSHIP TRAINING

Sec. 2301. Extension Service Rural Business and Leadership Training Program.

TITLE XXIV—RURAL ECONOMIC DEVELOPMENT RESEARCH

Sec. 2401. Research on nontraditional uses of agricultural commodities.
Sec. 2402. Authorization of rural development research competitive grants.
Sec. 2403. Demonstration projects.
Sec. 2404. Rural development research assistance.

TITLE XXV—RURAL ELECTRIFICATION PROVISIONS

Sec. 2501. Short title; amendment of Rural Electrification Act of 1936.
Sec. 2502. Findings; statement of policy.

Subtitle A—Amendment to Title I of the Rural Electrification Act of 1936

Sec. 2511. General prohibitions.

Subtitle B—Amendments Relating to Title II of the 1936 Act

Sec. 2521. Nonduplication of telephone facilities.
Sec. 2522. Updated definition of telephone service.
Sec. 2523. Loan feasibility.
Sec. 2524. Encouragement of investment by telephone borrowers in rural development projects.
Sec. 2525. Improvements in telephone program.
Sec. 2526. Prompt processing of telephone loans.

Subtitle C—Amendments Relating to Title II of the 1936 Act

Sec. 2531. Creation of separate electric and telephone accounts within rural electric and telephone revolving fund.
Sec. 2532. Borrowers to determine amortization period for insured telephone loans.
Sec. 2533. TIER requirement for insured telephone loans.
Sec. 2534. Clarification of telephone loan guarantee authority.

Subtitle D—Amendments Relating to Title IV of the 1936 Act

Sec. 2541. Modification of Rural Telephone Bank Board.
Sec. 2542. Rural telephone bank capitalization.
Sec. 2543. Pro rata purchase of rural telephone bank stock by rural telephone bank borrowers.
Sec. 2544. Clarification of authority to set rural telephone bank loan levels.
Sec. 2545. Borrowers to determine amortization period for rural telephone bank loans.

Sec. 2546. Full use of rural telephone bank loan authority.
Sec. 2547. Technical amendments relating to the rural telephone bank provisions of the Omnibus Budget Reconciliation Act of 1987.

Subtitle E—Effective Date

Sec. 2551. Effective date.

TITLE XXVI—MISCELLANEOUS

Sec. 2600. Short title of titles XIX through XXVIII.
Sec. 2601. Regulations.
Sec. 2602. Encouragment of private contracting.
Sec. 2603. Loan rates applicable to certain loans under the Consolidated Farm and Rural Development Act.
Sec. 2604. Assistance for certain distressed community facility program borrowers.
Sec. 2605. Water and waste facility loans and grants to alleviate health risks.
Sec. 2606. Preservation of eligibility.
Sec. 2607. Buy-American requirement.
Sec. 2608. State programs not affected.
Sec. 2609. Technical corrections.

TITLE XXVII—NATIONAL FOREST-DEPENDENT RURAL COMMUNITIES

Sec. 2701. Short title.
Sec. 2702. Findings and purposes.
Sec. 2703. Definitions.
Sec. 2704. Rural forestry and economic diversification action teams.
Sec. 2705. Action plan implementation.
Sec. 2706. Training and education.
Sec. 2707. Loans to economically disadvantaged rural communities.
Sec. 2708. Authorization of appropriations and spending authority.

TITLE XXVIII—ENHANCING HUMAN RESOURCES

Sec. 2801. Short title.

Subtitle A—Rural Business Development

Sec. 2811. Purposes.
Sec. 2812. Loans for business telecommunications partnerships.

Subtitle B—Rural Telecommunications Provisions

Sec. 2821. Rural telecommunications zones.
Sec. 2822. Grants for emergency public safety telephone answering systems.
Sec. 2823. Study on use of telecommunications infrastructure by businesses in rural areas.

TITLE XXIX—IMPROVEMENT OF FARMERS HOME ADMINISTRATION FARM LOAN PROGRAMS

Sec. 2901. Sale of Inventory Property.
Sec. 2902. Good Faith Requirement for Preservation Rights.
Sec. 2903. Inclusion of Property in Calculating Recovery Value.
Sec. 2904. Inclusion of Assets in Calculating the Value of the Restructured Loan.
Sec. 2905. Net Recovery But-Out; Limitation on Use; Recapture; Application Deadline; Good Faith Requirement.
Sec. 2906. Limitation of Use of Debt Write-Down.
Sec. 2907. Extension of Deadlines.

TITLE XXX—SHIPPING PROVISIONS

Sec. 3001. Exemption of American Great Lakes Vessels From Restriction on Carriage of Preference Cargoes.
Sec. 3002. Designation of American Great Lakes Vessels.
Sec. 3003. Restrictions on Operations of American Great Lakes Vessels.
Sec. 3004. Revocation of Designation.
Sec. 3005. Eligibility of American Great Lakes Vessels for Operating Differential Subsidy.
Sec. 3006. Great Lakes Set-Aside.
Sec. 3007. Definitions.

TITLE I—COTTON

SEC. 101. LOAN RATES, TARGET PRICES, DISASTER PAYMENTS, ACREAGE LIMITATION PROGRAM, AND LAND DIVERSION FOR THE 1991 THROUGH 1995 CROPS OF UPLAND COTTON.

Effective only for the 1991 through 1995 crops of upland cotton, the Agricultural Act of 1949 is amended by inserting after section 103A (7 U.S.C. 1444-1) the following new section:

"SEC. 103B. (a) LOANS.—(1) IN GENERAL.—Except as provided in paragraph (2), the Secretary shall, on presentation of warehouse receipts or other acceptable evidence of title, as determined by the Secretary, reflecting accrued storage charges of not more than 60 days, make available for the 1991 through 1995 crops of upland cotton to producers nonrecourse loans for a term of 10 months from the first day of the month in which the loan is made at such loan level, per pound, as will reflect for the base quality of upland cotton, as determined by the Secretary, at average location in the United States a level that is not less than the smaller of—

"(A) 85 percent of the average price (weighted by market and month) of such base quality of cotton as quoted in the designated United States spot markets during 3 years of the 5-year period ending July 31 in the year in which the level of price support is announced, excluding the year in which the average price was the highest and the year in which the average price was the lowest in such period; or

"(B) 90 percent of the average, for the 15-week period beginning July 1 of the year in which the level of price support is announced, of the 5 lowest-priced growths of the growths quoted for Middling one and three-thirty-seconds inch cotton C.I.F. Northern Europe (adjusted downward by the average difference during the period April 15 through October 15 of the year in which the loan is announced between such average northern European price quotation of such quality of cotton and the market quotations in the designated United States spot markets for the base quality of upland cotton, as determined by the Secretary).

For purposes of perfecting a security interest under any State law, the evidence of title approved by the Secretary under this paragraph shall be considered to be a warehouse receipt.

"(2) ADJUSTMENTS TO LOAN LEVEL.—(A) LIMITATION ON DECREASE IN LOAN LEVEL.—The loan level for any crop determined under paragraph (1) may not be reduced by more than 5 percent from the level determined for the preceding crop, nor may such loan level be reduced below 50 cents per pound.

"(B) LIMITATION ON INCREASE IN LOAN LEVEL.—If for any crop the average northern European price determined under paragraph (1)(B) is less than the average United States spot market price determined under paragraph (1)(A), the Secretary may increase the loan level to such level as the Secretary may deem appropriate, not in excess of the average United States spot market price determined under paragraph (1)(A).

"(3) ANNOUNCEMENT OF LOAN LEVEL.—The loan level for any crop of upland cotton shall be determined and announced by the Secretary not later than November 1 of the calendar year preceding the marketing year for which such loan is to be effective. Such loan level shall not thereafter be changed.

"(4) LENGTH OF TERMS OF NONRECOURSE LOANS.—(A) EXTENSION OF TERMS.—Except as provided in subparagraph (B), nonrecourse loans provided for in this section shall, on request of the producer during the 10th month of the loan period for the cotton, be made available for an additional term of 8 months.

"(B) LIMITATION ON EXTENSIONS.—A request to extend the loan period shall not be approved in any month in which the average price of the base quality of upland cotton, as determined by the Secretary, in the designated spot markets for the preceding month exceeded 130 percent of the average price of such base quality of cotton in such markets for the preceding 36-month period.

"(5) COMPETITIVE POSITION DETERMINATION.—(A) IN GENERAL.—If the Secretary determines that the prevailing world market price for upland cotton (adjusted to United States quality and location) is below the loan level determined under the foregoing provisions of this subsection, in order to make United States upland cotton competitive in world markets, the Secretary shall implement the provisions of Plan A or Plan B in accordance with this paragraph.

"(B) REDUCED LOAN REPAYMENT LEVEL.—If the Secretary elects to implement Plan A, the Secretary shall permit a producer to repay a loan made for any crop at a level determined and announced by the Secretary at the same time the Secretary announces the loan level for such crop as determined under paragraph (3). Such repayment level for loans on such crops shall not be less than 80 percent of the loan level determined for the crop. Such repayment level, once announced for the crop, shall not thereafter be changed.

"(C) MARKETING LOAN.—(i) If the Secretary elects to implement Plan B, except as provided in clause (ii), the Secretary shall permit a producer to repay a loan made for any crop at a level that is the lesser of—

"(I) the loan level determined for such crop; or

"(II) the prevailing world market price for upland cotton (adjusted to United States quality and location), as determined by the Secretary.

"(ii) For each of the 1991 through 1995 crops of cotton, if the prevailing world market price for upland cotton (adjusted to United States quality and location) as determined by the Secretary, is less than 80 percent of the loan level determined for such crop, the Secretary may permit a producer to repay a loan made under this subsection for a crop at such level (not in excess of 80 percent of the loan level determined for such crop) as the Secretary determines will—

"(I) minimize potential loan forfeitures;

"(II) minimize the accumulation of cotton stocks by the Federal Government;

"(III) minimize the cost incurred by the Federal Government in storing cotton; and

"(IV) allow cotton produced in the United States to be marketed freely and competitively, both domestically and internationally.

"(D) FIRST HANDLER NEGOTIABLE MARKETING CERTIFICATES.—(i) During the period beginning August 1, 1991, and ending July 31, 1996, if a program carried out under Plan A or Plan B fails to make United States upland cotton fully competitive in world

markets and the prevailing world market price of upland cotton (adjusted to United States quality and location), as determined by the Secretary, is below the current loan repayment rate for upland cotton determined under subparagraph (A), then in order to make United States upland cotton competitive in world markets and to maintain and expand domestic consumption and exports of upland cotton produced in the United States, the Secretary shall provide for the issuance of negotiable marketing certificates in accordance with this subparagraph.

"(ii) The Commodity Credit Corporation, under such regulations as the Secretary may prescribe, shall make payments, through the issuance of negotiable marketing certificates, to first handlers of cotton (persons regularly engaged in buying or selling upland cotton) who have entered into an agreement with the Commodity Credit Corporation to participate in the program established under this subparagraph. Such payments shall be made in such monetary amounts and subject to such terms and conditions as the Secretary determines will make upland cotton produced in the United States available at competitive prices, consistent with the purposes of this subparagraph.

"(iii) The value of each certificate issued under clause (ii) shall be based on the difference between—

"(I) the loan repayment rate for upland cotton under Plan A or Plan B, as the case may be; and

"(II) the prevailing world market price of upland cotton (adjusted to United States quality and location), as determined by the Secretary.

"(iv) The Commodity Credit Corporation, under regulations prescribed by the Secretary, may assist any person receiving marketing certificates under this subparagraph in the redemption of certificates for cash, or marketing or exchange of such certificates for agricultural commodities or the products thereof owned by the Commodity Credit Corporation, at such times, in such manner, and at such price levels as the Secretary determines will best effectuate the purposes of the program established under this subparagraph. Any price restrictions that may otherwise apply to the disposition of agricultural commodities by the Commodity Credit Corporation shall not apply to the redemption of certificates under this subparagraph.

"(v) Insofar as practicable, the Secretary shall permit owners of certificates to designate the commodities and the products thereof, including storage sites thereof, such owners would prefer to receive in exchange for certificates. If any certificate is not presented for redemption, marketing, or exchange within a reasonable number of days after the issuance of such certificate (as determined by the Secretary), reasonable costs of storage and other carrying charges, as determined by the Secretary, shall be deducted from the value of the certificate for the period beginning after such reasonable number of days and ending with the date of the presentation of such certificate to the Commodity Credit Corporation.

"(vi) The Secretary shall take such measures as may be necessary to prevent the marketing or exchange of agricultural commodities and products for certificates under this subsection from adversely affecting the income of producers of such commodities or products.

"(vii) Under regulations prescribed by the Secretary, certificates issued to cotton handlers under this subparagraph may be transferred to other handlers and persons approved by the Secretary.

"(E) DETERMINATION OF PREVAILING WORLD MARKET PRICE.—(i) The Secretary shall prescribe by regulation—

"(I) a formula to define the prevailing world market price for upland cotton (adjusted to United States quality and location); and

"(II) a mechanism by which the Secretary shall announce periodically the prevailing world market price for upland cotton (adjusted to United States quality and location).

"(ii) The prevailing world market price for upland cotton (adjusted to United States quality and location) established under this subparagraph shall be used for purposes of both Plan A and Plan B and marketing certificates under subparagraph (D).

"(F) ADJUSTMENT TO PREVAILING WORLD MARKET PRICE.—(i) During the period beginning August 1, 1991, and ending July 31, 1996, the prevailing world market price for upland cotton (adjusted to United States quality and location) established under subparagraph (E) shall be further adjusted if:

"(I) such adjusted prevailing world market price is less than 115 percent of the current crop year loan level for the base quality of upland cotton, as determined by the Secretary; and

"(II) the Friday through Thursday average price quotation for the lowest-priced United States growth as quoted for Middling (M) one and three-thirty seconds inch cotton delivered C.I.F. Northern Europe is greater than the Friday through Thursday average price of the five lowest-priced growths of upland cotton, as quoted for Middling (M) one and three-thirty seconds inch cotton, delivered C.I.F. Northern Europe (hereafter referred to as 'the Northern Europe price').

"(ii) Such adjusted prevailing world market price shall be further adjusted on the basis of some or all of the following data, as available:

"(I) the United States share of world exports;

"(II) the current level of cotton export sales and cotton export shipments; and

"(III) other data determined by the Secretary, or a designee of the Secretary, to be relevant in establishing an accurate prevailing world market price for upland cotton (adjusted to United States quality and location).

"(iii) The adjustment may not exceed the difference between the Friday through Thursday average price for the lowest-priced United States growth as quoted for Middling one and three-thirty seconds inch cotton delivered C.I.F. Northern Europe and the Northern Europe price.

"(G) COTTON USER NEGOTIABLE MARKETING CERTIFICATES.—During the period beginning August 1, 1991, and ending July 31, 1996, if for any consecutive four-week period, the Friday through Thursday average price quotation for the lowest-priced United States growth, as quoted for Middling (M) one and three-thirty seconds inch cotton, delivered C.I.F. Northern Europe exceeds the Northern Europe price by more than 1.25 cents per pound, the Secretary shall issue negotiable marketing certificates to domestic users or exporters for documented sales made in the week following such consecutive four-week period. The value of such negotiable marketing certificates shall be based on the amount of the difference, reduced by 1.25 cents per pound, in such prices during the fourth week of the consecutive four-week period multiplied by the quantity of upland cotton included in such documented sales. The provisions of subparagraphs (D)(iv) through (vii) shall apply to negotiable marketing certificates issued under this subparagraph, and any such certificates may be transferred to other persons approved by the Secretary under regulations prescribed by the Secretary.

"(H) SPECIAL IMPORT QUOTA; ONE WEEK'S MILL CONSUMPTION.—(i) The President shall, within 60 days after the date of enactment of this section, establish an import quota program which shall provide that whenever the Secretary determines and announces that for any consecutive ten-week period, the Friday through Thursday average price quotation for the lowest-priced United States growth, as quoted for Middling (M) one and three-thirty seconds inch cotton, delivered C.I.F. Northern Europe, adjusted for the value of any certificates issued under subparagraph (F), exceeds the Northern Europe price by more than 1.25 cents per pound, there shall immediately be in effect a special limited global import quota.

"(ii) Such quota shall be equal to one week's consumption of upland cotton by domestic mills at the seasonally adjusted average rate of the most recent 3 months for which data are available.

"(iii) Such quota shall apply to upland cotton purchased not later than 90 days after the date of the Secretary's announcement under clause (i) and entered into the United States not later than 180 days after such date.

"(iv) A special quota period may be established that overlaps any existing quota period if required by the provisions of clause (i), except that a special quota period may not be established under this paragraph if a special quota period has been established under subsection (n).

"(6) RECOURSE SEED COTTON LOANS.—In order to encourage and assist producers in the orderly ginning and marketing of their production of upland cotton, the Secretary shall make recourse loans available to such producers on seed cotton in accordance with authority vested in the Secretary under the Commodity Credit Corporation Charter Act (15 U.S.C. 714 et seq.).

"(b) PAYMENTS FOR FORGOING LOAN.—(1) IN GENERAL.—The Secretary shall, for each of the 1991 through 1995 crops of upland cotton, make payments available to producers who, although eligible to obtain a loan under subsection (a), agree to forgo obtaining such loan in return for such payments.

"(2) COMPUTATION.—A payment under this subsection shall be computed by multiplying—

"(A) the loan payment rate; by

"(B) the quantity of upland cotton on which the producer requests payment.

"(3) QUANTITY ELIGIBLE.—For purposes of this subsection, the quantity of upland cotton eligible for payment may not exceed the product obtained by multiplying—

"(A) the individual farm program acreage for the crop; by

"(B) the actual yield per harvested acre established for the farm.

"(4) LOAN PAYMENT RATE.—For purposes of this subsection, the loan payment rate shall be the amount by which—

"(A) the loan level determined for such crop under subsection (a) exceeds

"(B) the level at which a loan may be repaid under subsection (a).

"(5) PAYMENT IN NEGOTIABLE MARKETING CERTIFICATES.—The Secretary may make up to one-half the amount of a payment under

this subsection available in the form of negotiable marketing certificates, subject to the terms and conditions provided in subsection (a)(5)(D).

"(c) DEFICIENCY PAYMENTS.—(1) IN GENERAL.—(A) COMPUTATION.—The Secretary shall make available to producers payments (to be known as 'deficiency payments') for each of the 1991 through 1995 crops of upland cotton in an amount computed by multiplying—

"(i) the payment rate; by

"(ii) the individual farm program acreage; by

"(iii) the farm program payment yield established for the crop for the farm.

"(B) 0/92 AND 50/92 PROGRAMS.—(i) If an acreage limitation program under subsection (e)(2) is in effect for a crop of upland cotton and the producers on a farm devote a portion of the permitted upland cotton acreage of the farm (as determined in accordance with subsection (e)(2)(A)) equal to more than 8 percent of the permitted upland cotton acreage of the farm for the crop to conservation uses (except as provided in subparagraph (F))—

"(I) such portion of the permitted upland cotton acreage in excess of 8 percent of such acreage devoted to conservation uses (except as provided in subparagraph (F)) shall be considered to be planted to upland cotton for the purpose of determining the individual farm program acreage in accordance with subsection (e)(2)(E) and for the purpose of determining the acreage on the farm required to be devoted to conservation uses in accordance with subsection (e)(2)(D); and

"(II) the producers shall be eligible for payments under this paragraph on such acreage, subject to the compliance of the producers with clause (ii).

"(ii)(I) To be eligible for payments under clause (i), except as provided in subclause (II) and clause (iv), the producers on a farm must actually plant upland cotton for harvest on at least 50 percent of the permitted upland cotton acreage of the farm.

"(II) The Secretary may waive the 50 percent planting requirement in subclause (I) for any crop of upland cotton.

"(iii) Notwithstanding any other provision of this section, any producer who elects to devote a portion (or, where the Secretary exercises the waiver authority under clause (ii)(II), all) of the permitted upland cotton acreage of the farm to conservation uses (or other uses as provided in subparagraph (F)) under this subparagraph shall receive deficiency payments on the acreage that is considered to be planted to upland cotton and eligible for payments under this subparagraph for such crop at a rate established by the Secretary, except that such rate may not be established at less than the projected deficiency payment rate for the crop, as determined by the Secretary. Such projected payment rate for the crop shall be announced by the Secretary prior to the period during which upland cotton producers may agree to participate in the program for such crop.

"(iv) If a State or local agency has imposed in an area of a State or county a quarantine on the planting of upland cotton for harvest on farms in such area, the State committee established under section 8(b) of the Soil Conservation and Domestic Allotment Act (16 U.S.C. 590h(b)) may recommend to the Secretary that payments be made under this paragraph to producers in such area who were required to forgo the planting of upland cotton for harvest on acreage to alleviate or eliminate the condition requiring such quarantine. If the Secretary determines that such condition exists, the Secretary may make payments under this paragraph to such producers. To be eligible for payments under this clause, such producers must devote such acreage to conservation uses (except as provided in subparagraph (F)).

"(v) If an acreage limitation program under subsection (e) is in effect for any crop of upland cotton and if the Secretary determines that producers on a farm are prevented from planting the acreage intended for upland cotton to upland cotton because of drought, flood, or other natural disaster, or other condition beyond the control of the producers, the Secretary shall make available to such producers payments computed as provided in paragraph (1)(A). Producers shall be eligible for such payments if a portion (or all) of the permitted upland cotton acreage of the farm is devoted to conservation uses (except as provided in paragraph (F)). Such acreage equal to more than 8 percent of the permitted upland cotton acreage of the farm for the crop shall be considered to be planted to upland cotton for the purpose of determining the individual farm program acreage in accordance with subsection (e)(2)(E) and for the purpose of determining the acreage on the farm required to be devoted to conservation uses in accordance with subsection (e)(2)(D). The provisions of clauses (iii) and (vi) shall apply to any such producers.

"(vi) The upland cotton crop acreage base and upland cotton farm program payment yield of the farm shall not be reduced due to the fact that such portion (or all) of the permitted acreage of the farm was devoted to conserving uses (except as provided in subparagraph (F)).

"(vii) Other than as provided in clauses (i) through (v), payments may not be made under this paragraph for any crop on a greater acreage than the acreage actually planted to upland cotton.

"(viii) Any acreage considered to be planted to upland cotton in accordance with clauses (i) and (v) may not also be designated as conservation use acreage for the purpose of fulfilling any provisions under any acreage limitation or land diversion program requiring that the producers devote a specified acreage to conservation uses.

"(C) PAYMENT RATE.—The payment rate for upland cotton shall be the amount by which the established price for the crop of upland cotton exceeds the higher of—

"(i) the national average market price received by producers during the calendar year that includes the first 5 months of the marketing year for such crop, as determined by the Secretary; or

"(ii) the loan level determined for such crop.

"(D) MINIMUM ESTABLISHED PRICE.—The established price for upland cotton shall not be less than $0.729 per pound.

"(E) REDUCTION FOR DISASTER PAYMENTS.—The total quantity of upland cotton on which payments would otherwise be payable to a producer on a farm for any crop under this paragraph shall be reduced by the quantity on which any disaster payment is made to the producer for the crop under paragraph (2).

"(F) ALTERNATIVE CROPS.—The Secretary may permit, subject to such terms and conditions as the Secretary may prescribe, all or any part of acreage otherwise required to be devoted to conservation uses as a condition of qualifying for payments under subparagraph (B) to be devoted to sweet sorghum or the production of guar, sesame, castor beans, crambe, plantago, ovato, triticale, rye, commodities for which no substantial domestic production or market exists but that could yield industrial raw material being imported, or likely to be imported, into the United States, or commodities grown for experimental purposes (including kenaf), subject to the following sentence. The Secretary may permit such acreage to be devoted to such production only if the Secretary determines that—

"(i) the production is not likely to increase the cost of the price support program and will not affect farm income adversely; and

"(ii) the production is needed to provide an adequate supply of the commodity, or, in the case of commodities for which no substantial domestic production or market exists but that could yield industrial raw materials, the production is needed to encourage domestic manufacture of such raw material and could lead to increased industrial use of such raw material to the long-term benefit of United States industry.

"(2) DISASTER ASSISTANCE.—(A) PREVENTED PLANTING PAYMENTS.—Except as provided in subparagraph (C), if the Secretary determines that the producers on a farm are prevented from planting any portion (or all) of the acreage intended for upland cotton to upland cotton or other nonconserving crops because of drought, flood, or other natural disaster, or other condition beyond the control of the producers, including such condition resulting from the adjudication of Indian water settlement disputes, the Secretary shall make a prevented planting disaster payment to the producers in an amount equal to the product obtained by multiplying—

"(I) the number of acres so affected but not to exceed the acreage planted to upland cotton for harvest (including any acreage that the producers were prevented from planting to upland cotton or other nonconserving crops in lieu of upland cotton because of drought, flood, or other natural disaster, or other condition beyond the control of the producers) in the immediately preceding year; by

"(II) 75 percent of the farm program payment yield established for the farm by the Secretary; by

"(III) a payment rate equal to 33⅓ percent of the established price for the crop.

"(ii) Payments made by the Secretary under this subparagraph may be made in the form of cash or in such other form as the Secretary is authorized by law to make.

"(B) REDUCED YIELD PAYMENTS.—Except as provided in subparagraph (C), if the Secretary determines that because of drought, flood, or other natural disaster, or other condition beyond the control of the producers, including such condition resulting from the adjudication of Indian water settlement disputes, the total quantity of upland cotton that the producers are able to harvest on any farm is less than the result of multiplying 75 percent of the farm program payment yield established for the farm for such crop by the acreage planted for harvest for such crop, the Secretary shall make a reduced yield disaster payment to the producers at a rate equal to 33⅓ percent of the established price for the crop for the deficiency in production below 75 percent for the crop.

"(C) LIMITATION DUE TO CROP INSURANCE.—Producers on a farm shall not be eligible for—

"(i) prevented planting disaster payments under subparagraph (A), if prevented planting crop insurance is available to the producers under the Federal Crop Insurance

Act (7 U.S.C. 1501 et seq.) with respect to the upland cotton acreage of the producers; or

"(ii) reduced yield disaster payments under subparagraph (B), if reduced yield crop insurance is available to the producers under such Act with respect to the upland cotton acreage of the producers.

"(D) EXCEPTION FROM LIMITATION.—(i) Notwithstanding subparagraph (C), the Secretary may make a disaster payment to producers on a farm under this paragraph if the Secretary determines that—

"(I) as the result of drought, flood, or other natural disaster, or other condition beyond the control of the producers, including such condition resulting from the adjudication of Indian water settlement disputes, the producers have suffered substantial losses of production either from being prevented from planting upland cotton or other nonconserving crops or from reduced yields;

"(II) such losses have created an economic emergency for the producers;

"(III) crop insurance indemnity payments under the Federal Crop Insurance Act (7 U.S.C. 1501 et seq.) and other forms of assistance made available by the Federal Government to such producers for such losses are insufficient to alleviate such economic emergency; and

"(IV) additional assistance must be made available to such producers to alleviate such economic emergency.

"(ii) The Secretary may make such adjustments in the amount of payments made available under this paragraph with respect to an individual farm so as to assure the equitable allotment of such payments among producers, taking into account other forms of Federal disaster assistance provided to the producers for the crop involved.

"(d) FARM PROGRAM PAYMENT YIELDS.—The farm program payment yields for farms for each crop of upland cotton shall be determined under title V.

"(e) PROGRAMS TO REDUCE ACREAGE.—(1) IN GENERAL.—(A) EXCESSIVE SUPPLY.—Notwithstanding any other provision of this Act, if the Secretary determines that the total supply of upland cotton, in the absence of an acreage limitation program, will be excessive taking into account the need for an adequate carry-over to maintain reasonable and stable supplies and prices and to meet a national emergency, the Secretary may provide for any crop of upland cotton an acreage limitation program as described in paragraph (2).

"(B) CONSIDERATION OF CONSERVATION RESERVE.—In making a determination under subparagraph (A), the Secretary shall take into consideration the number of acres placed in the conservation acreage reserve established under section 1231 of the Food Security Act of 1985 (16 U.S.C. 3831).

"(C) ANNOUNCEMENT OF PROGRAM.—(i) If the Secretary elects to put an acreage limitation program into effect for any crop year, the Secretary shall make a preliminary announcement of any such program not later than November 1 of the calendar year preceding the year in which the crop is harvested. Such announcement shall include, among other information determined necessary by the Secretary, an announcement of the uniform percentage reduction in the upland cotton crop acreage base described in paragraph (2)(A).

"(ii) Not later than January 1 of the calendar year in which the crop is harvested, the Secretary shall make a final announcement of such program. Such announcement shall include, among other information determined necessary by the Secretary, an announcement of the uniform percentage reduction in the upland cotton crop described in paragraph (2)(A).

"(iii) The Secretary shall allow producers in early planting areas to elect to participate in the program on the terms of the acreage limitation program—

"(I) first announced for the crop under subparagraph (C)(i); or

"(II) as subsequently revised under subparagraph (C)(ii)

if the Secretary determines that such producers may be unfairly disadvantaged by such revision.

"(D) RATIO OF CARRY-OVER TO TOTAL DISAPPEARANCE.—The Secretary shall carry out an acreage limitation program described in paragraph (2) for a crop of upland cotton in a manner that will result in a ratio of carry-over to total disappearance (domestic use plus exports) of 30 percent, based on the Secretary's most recent projection of carry-over and total disappearance at the time of announcement of the acreage limitation program.

"(2) ACREAGE LIMITATION PROGRAM.—(A) UNIFORM PERCENTAGE REDUCTION.—If an upland cotton acreage limitation program is announced under paragraph (1), such limitation shall be achieved by applying a uniform percentage reduction (not to exceed 25 percent) to the upland cotton crop acreage base for the crop for each upland cotton-producing farm.

"(B) ENFORCEMENT.—Except as provided in subsection (g), producers who knowingly produce upland cotton in excess of the permitted upland cotton acreage for the farm, as established in accordance with subparagraph (A), shall be ineligible for upland cotton loans and payments with respect to that farm.

"(C) CROP ACREAGE BASES.—Upland cotton crop acreage bases for each crop of upland cotton shall be determined under title V.

"(D) CONSERVATION USE ACREAGE.—(i) A number of acres on the farm shall be devoted to conservation uses, in accordance with regulations issued by the Secretary. Such number shall be determined by dividing—

"(I) the product obtained by multiplying the number of acres required to be withdrawn from the production of upland cotton times the number of acres planted to such commodity; by

"(II) the number of acres authorized to be planted to such commodity under the limitation established by the Secretary.

"(ii) The number of acres determined under clause (i) is hereafter in this subsection referred to as 'reduced acreage'.

"(E) FARM PROGRAM ACREAGE.—Except as provided in subsection (c)(1)(B), the individual farm program acreage shall be the acreage planted on the farm to upland cotton for harvest within the permitted upland cotton acreage for the farm as established under this paragraph.

"(3) USE OF CONSERVATION ACREAGE.—(A) PROTECTION FROM WEEDS AND EROSION.—The regulations issued by the Secretary under paragraph (2) with respect to acreage required to be devoted to conservation uses shall assure protection of such acreage from weeds and wind and water erosion.

"(B) PERMITTED PLANTINGS.—The Secretary may permit, subject to such terms and conditions as the Secretary may prescribe, all or any part of such acreage to be devoted to sweet sorghum, or the production of guar, sesame, safflower, sunflower, rapeseed, castor beans, mustard seed, crambe, plantago ovato, flaxseed, triticale, rye, or other commodity, if the Secretary determines that such production is needed to provide an adequate supply of such commodities, is not likely to increase the cost of the price support program, and will not affect farm income adversely.

"(C) HAYING AND GRAZING.—(i) Except as provided in clause (ii) haying and grazing of acreage designated as conservation use acreage for the purpose of meeting any requirements established under an acreage limitation program (including a program conducted under subsection (c)(1)(B)), or land diversion program established under this section shall be permitted, except during any consecutive 5-month period that is established by the State committee established under section 8(b) of the Soil Conservation and Domestic Allotment Act (16 U.S.C. 590h(b)) for a State. Such 5-month period shall be established during the period beginning April 1, and ending October 31, of a year.

"(ii) In the case of a natural disaster, the Secretary may permit unlimited haying and grazing on such acreage. The Secretary may not exclude irrigated or irrigable acreage not planted in alfalfa when exercising the authority under this clause.

"(4) LAND DIVERSION PROGRAM.—(A) PAYMENTS.—(i) The Secretary may make land diversion payments to producers of upland cotton, whether or not an acreage limitation program for upland cotton is in effect, if the Secretary determines that such land diversion payments are necessary to assist in adjusting the total national acreage of upland cotton to desirable goals. Such land diversion payments shall be made to producers who, to the extent prescribed by the Secretary, devote to approved conservation uses an acreage of cropland on the farm in accordance with land diversion contracts entered into by the Secretary with such producers.

"(ii) If, at the time of final announcement of the acreage limitation program established under this subsection, the projected carry-over of upland cotton for the crop year is equal to or greater than 8 million bales, the Secretary shall offer a paid land diversion program to producers of upland cotton. Payments to producers under such a program shall be determined by multiplying—

"(I) the payment rate, of not less than 35 cents per pound of cotton, established by the Secretary; by

"(II) the program payment yield established for the crop for the farm; by

"(III) the number of permitted upland cotton acres diverted on the farm.

"(B) BIDS FOR CONTRACTS.—The amounts payable to producers under land diversion contracts may be determined through the submission of bids for such contracts by producers in such manner as the Secretary may prescribe or through such other means as the Secretary determines appropriate. In determining the acceptability of contract offers, the Secretary shall take into consideration the extent of the diversion to be undertaken by the producers and the productivity of the acreage diverted.

"(C) LIMITATION ON DIVERTED ACREAGE.—The Secretary shall limit the total acreage to be diverted under this paragraph—

"(i) to not more than 15 percent of the upland cotton crop acreage base for a farm; and

"(ii) under agreements in any county or local community so as not to affect adversely the economy of the county or local community.

The Secretary may allow producers to participate in a land diversion program under

this paragraph at a level lower than the maximum level announced by the Secretary, at the option of the producer, if the Secretary determines that it will increase participation in such program.

"(5) WILDLIFE USES FOR REDUCED AND DIVERTED ACREAGE.—(A) IN GENERAL.—The reduced acreage and additional diverted acreage may be devoted to wildlife food plots or wildlife habitat in conformity with standards established by the Secretary in consultation with wildlife agencies.

"(B) COST SHARING.—The Secretary may pay an appropriate share of the cost of practices designed to carry out the purposes of subparagraph (A).

"(C) ENCOURAGEMENT OF PUBLIC ACCESS.—The Secretary may provide for an additional payment on such acreage in an amount determined by the Secretary to be appropriate in relation to the benefit to the general public if the producer agrees to permit, without other compensation, access to all or such portion of the farm, as the Secretary may prescribe, by the general public, for hunting, trapping, fishing, and hiking, subject to applicable State and Federal regulations.

"(6) PARTICIPATION AGREEMENTS.—(A) IN GENERAL.—An operator of a farm desiring to participate in the program conducted under this subsection shall execute an agreement with the Secretary providing for such participation not later than such date as the Secretary may prescribe.

"(B) MODIFICATION OR TERMINATION.—The Secretary may, by mutual agreement with producers on a farm, terminate or modify any such agreement if the Secretary determines such action necessary because of an emergency created by drought or other disaster or to prevent or alleviate a shortage in the supply of agricultural commodities.

"(f) ONE-HALF ACREAGE REDUCTION PROGRAM.—(1) IN GENERAL.—The Secretary may, for each of the 1991 through 1995 crops of upland cotton, make payments available to producers who meet the requirements of this subsection.

"(2) FORM OF PAYMENT.—Such payments may be—

"(A) made in the form of upland cotton owned by the Commodity Credit Corporation; or

"(B) made in such other form as the Secretary is authorized by law to make.

"(3) DETERMINATION OF PAYMENT.—(A) IN GENERAL.—Payments under this subsection shall be determined in the same manner as provided in subsection (b).

"(B) QUANTITY OF COTTON MADE AVAILABLE.—The quantity of upland cotton to be made available to a producer under this subsection shall be equal in value to the payments so determined under such subsection.

"(4) ELIGIBILITY.—A producer shall be eligible to receive a payment under this subsection for a crop if the producer—

"(A) agrees to forgo obtaining a loan under subsection (a);

"(B) agrees to forgo receiving payments under subsection (c);

"(C) does not plant upland cotton for harvest in excess of the crop acreage base reduced by one-half of any acreage required to be diverted from production under subsection (f); and

"(D) otherwise complies with this section.

"(g) EQUITABLE RELIEF.—(1) LOANS AND PAYMENTS.—If the failure of a producer to comply fully with the terms and conditions of the program formulated under this section precludes the making of loans and payments, the Secretary may, nevertheless, make such loans and payments in such amounts as the Secretary determines are equitable in relation to the seriousness of the failure. The Secretary may consider whether the producer made a good faith effort to comply fully with the terms and conditions of such program in determining whether equitable relief is warranted under this paragraph.

"(2) DEADLINES AND PROGRAM REQUIREMENTS.—The Secretary may authorize the county and State committees established under section 8(b) of the Soil Conservation and Domestic Allotment Act (16 U.S.C. 590h(b)) to waive or modify deadlines and other program requirements in cases in which lateness or failure to meet such other requirements does not affect adversely the operation of the program.

"(h) REGULATIONS.—The Secretary may issue such regulations as the Secretary determines necessary to carry out this section.

"(i) COMMODITY CREDIT CORPORATION.—The Secretary shall carry out the program authorized by this section through the Commodity Credit Corporation.

"(j) ASSIGNMENT OF PAYMENTS.—The provisions of section 8(g) of the Soil Conservation and Domestic Allotment Act (16 U.S.C. 590h(g)) (relating to assignment of payments) shall apply to payments under this section.

"(k) EQUITABLE SHARING OF PAYMENTS.—The Secretary shall provide for the sharing of payments made under this section for any farm among the producers on the farm on a fair and equitable basis.

"(l) TENANTS AND SHARECROPPERS.—The Secretary shall provide adequate safeguards to protect the interests of tenants and sharecroppers.

"(m) PROHIBITIONS.—(1) CROSS COMPLIANCE.—(A) IN GENERAL.—Compliance on a farm with the terms and conditions of any other commodity program or compliance with crop acreage base requirements for any other commodity may not be required as a condition of eligibility for loans or payments under this section.

"(B) CROP ACREAGE BASE INCREASES.—If a producer on a farm is participating in the cotton program under this section, the crop acreage base for any other commodity for the farm may not be increased if such commodity is produced on the farm in a manner that is not in compliance with—

"(i) the terms and conditions of the applicable commodity program for such commodity; or

"(ii) the crop acreage base requirements of the applicable commodity program for such commodity.

"(2) OFFSETTING COMPLIANCE.—The Secretary may not require producers on a farm, as a condition of eligibility for loans or payments under this section for such farm, to comply with the terms and conditions of the upland cotton program with respect to any other farm operated by such producers.

"(n) SPECIAL IMPORT QUOTA; 21 DAYS' MILL CONSUMPTION.—(1) DETERMINATION.—Whenever the Secretary determines that the average price of the base quality of upland cotton, as determined by the Secretary, in the designated spot markets for a month exceeded 130 percent of the average price of such quality of cotton in such markets for the preceding 36 months, notwithstanding any other provision of law, the President shall immediately establish and proclaim a special limited global import quota for upland cotton subject to the following conditions:

"(A) QUANTITY OF QUOTA.—The quantity of the special quota shall be equal to 21 days of domestic mill consumption of upland cotton at the seasonally adjusted average rate of the most recent 3 months for which data are available.

"(B) QUANTITY IN EVENT OF PRIOR QUOTA.—If a special quota has been established under this subsection during the preceding 12 months, the quantity of the quotas next established hereunder shall be the smaller of 21 days of domestic mill consumption calculated as set forth in subparagraph (A) or the quantity required to increase the supply to 130 percent of the demand.

"(C) DEFINITIONS.—As used in subparagraph (B):

"(i) The term 'supply' means, using the latest official data of the Bureau of the Census, the Department of Agriculture, and the Department of the Treasury—

"(I) the carry-over of upland cotton at the beginning of the marketing year (adjusted to 480-pound bales) in which the special quota is established; plus

"(II) production of the current crop; plus

"(III) imports to the latest date available during the marketing year.

"(ii) The term 'demand' means—

"(I) the average seasonally adjusted annual rate of domestic mill consumption in the most recent 3 months for which data are available; plus

"(II) the larger of either the average exports of upland cotton for the preceding 6 marketing years, or the cumulative exports of upland cotton plus outstanding export sales for the marketing year in which the special quota is established.

"(D) QUOTA ENTRY PERIOD.—When a special quota is established under this subsection, cotton may be entered under such quota during the 90-day period beginning on the effective date of the proclamation.

"(2) PROHIBITION.—Notwithstanding paragraph (1), a special quota period may not be established—

"(A) that overlaps an existing quota period; or

"(B) when a special quota period has been established under subsection (a)(5)(H).".

SEC. 102. SUSPENSION OF BASE ACREAGE ALLOTMENTS, MARKETING QUOTAS, AND RELATED PROVISIONS.

Sections 342, 343, 344, 345, 346, and 377 of the Agricultural Adjustment Act of 1938 (7 U.S.C. 1342–1346 and 1377) shall not be applicable to any of the 1991 through 1995 crops of upland cotton.

SEC. 103. COMMODITY CREDIT CORPORATION SALES PRICE RESTRICTIONS.

Effective only with respect to the period beginning August 1, 1991, and ending July 31, 1996, the tenth sentence of section 407 of the Agricultural Act of 1949 (7 U.S.C. 1427) is amended by striking all of that sentence through the words "110 per centum of the loan rate, and (2)" and inserting the following: "Notwithstanding any other provision of law, (1) the Commodity Credit Corporation shall sell upland cotton for unrestricted use at the same prices as it sells upland cotton for export; such sales shall be made on a competitive bid basis, but in no event, however, at less than 115 percent of the lower of the loan rate or the loan repayment rate in effect for the week in which it is sold for the base quality of upland cotton, as determined by the Secretary, adjusted for such current market differentials reflecting grade, quality, location, and other value factors as the Secretary determines appropriate plus reasonable carrying charges, and (2)".

SEC. 104. NONAPPLICABILITY OF SECTION 103(a) OF THE AGRICULTURAL ACT OF 1949 TO THE 1991 THROUGH 1995 CROPS OF UPLAND COTTON.

Section 103(a) of the Agricultural Act of 1949 (7 U.S.C. 1444(a)) shall not be applicable to the 1991 through 1995 crops.

SEC. 105. SKIPROW PRACTICES.

Section 374(a) of the Agricultural Adjustment Act of 1938 (7 U.S.C. 1374(a)) is amended by striking "1990 crops" and inserting "1995 crops. However, for the 1991 through 1995 crops, the rules shall allow 30 inch rows to be taken into account for classifying the acreage planted to cotton and the area skipped".

SEC. 106. PRELIMINARY ALLOTMENTS FOR 1996 CROP OF UPLAND COTTON.

Notwithstanding any other provision of law, the permanent State, county, and farm base acreage allotments for the 1977 crop of upland cotton, adjusted for any underplantings in 1977 and reconstituted as provided in section 379 of the Agricultural Adjustment Act of 1938 (7 U.S.C. 1379), shall be the preliminary allotments for the 1996 crop.

SEC. 107. EXTRA LONG STAPLE COTTON.

Section 103(h) of the Agricultural Act of 1949 (7 U.S.C. 1444(h)) is amended—

(1) by striking paragraphs (4) through (6);

(2) by redesignating paragraphs (7) through (19) as paragraphs (4) through (16), respectively;

(3) in the second sentence of paragraph (5)(A)(i), as so redesignated, by inserting ", including a zero percentage reduction," after "reduction";

(4) by striking paragraph (13) as so redesignated, and inserting the following:

"(13)(A)(i) Compliance on a farm with the terms and conditions of any other commodity program or compliance with crop acreage base requirements for any other commodity may not be required as a condition of eligibility for loans or payments under this section.

"(ii) If a producer on a farm is participating in the extra long staple cotton program under this section, the crop acreage base for any other commodity for the farm may not be increased if such commodity is produced on the farm in a manner that is not in compliance with—

"(I) the terms and conditions of the applicable commodity program for such commodity; or

"(II) the crop acreage base requirements of the applicable commodity program for such commodity.

"(B) The Secretary may not require producers on a farm, as a condition of eligibility for loans or payments under this section for such farm, to comply with the terms and conditions of the extra long staple cotton program with respect to any other farm operated by such producers."; and

(5) in paragraph (19) by striking "1991" and inserting "1996".

SEC. 108. ADJUSTMENT OF SUPPORT PRICES.

Section 403 of the Agricultural Act of 1949 (7 U.S.C. 1423) is amended to read as follows:

"SEC. 403. ADJUSTMENT OF SUPPORT PRICES.

"(a) CROPS OTHER THAN COTTON.—Appropriate adjustments may be made in the support price for any commodity except cotton for differences in grade, type, quality, location and other factors. Such adjustments shall, so far as practicable, be made in such manner that the average support price for such commodity will, on the basis of the anticipated incidence of such factors be equal to the level of support determined as provided in this Act.

"(b) COTTON.—Appropriate adjustments may be made in the support price for cotton for differences in quality factors and location. Beginning with the 1991 crop, the quality differences (premiums and discounts for quality factors) for the upland cotton loan program shall be established by the Secretary by giving equal weight to (1) loan differences for the preceding crop and (2) market differences for such crop in the designated United States spot markets.".

SEC. 109. COTTONSEED AND COTTONSEED OIL PRICE SUPPORT.

Effective only for the 1991 through 1995 crops of upland cotton, section 203 of the Agricultural Act of 1949 (7 U.S.C. 1446d) is amended to read as follows:

"SEC. 203. COTTONSEED AND COTTONSEED OIL PRICE SUPPORT.

"If the Secretary determines that any oilseed program or programs cause, or are likely to cause, a reduction in prices received by producers for cottonseed or by processors for cottonseed oil, the Secretary shall take such actions as are necessary to offset the actual or anticipated impact of such program on prices for cottonseed or cottonseed oil. Such actions shall only include actions to stabilize or increase the price of cottonseed, and shall not include actions to decrease the prices of other oilseeds.".

TITLE II—SUGAR

Subtitle A—Price Support and Marketing Allotments

SEC. 201. SUGAR PROGRAM EXTENSION.

(a) AMENDMENT TO THE AGRICULTURAL ACT OF 1949.—Effective only for the 1991 through 1995 crops of sugar beets and sugarcane, section 201 of the Agricultural Act of 1949 (7 U.S.C. 1446) is amended by—

(1) striking "honey, and milk" in the first sentence and inserting "honey, milk, sugar beets, and sugarcane"; and

(2) amending subsection (h) to read as follows:

"(h)(1) The price of each of the 1991 through 1995 crops of sugar beets and sugarcane, respectively, shall be supported in accordance with this subsection.

"(2)(A) The Secretary shall support the price of domestically grown sugarcane through nonrecourse loans at such level as the Secretary determines appropriate but not less than 18 cents per pound for raw cane sugar.

"(B) The Secretary may increase the support price for each of the 1991 through 1995 crops of domestically grown sugarcane and sugar beets from the price determined for the preceding crop based on such factors as the Secretary determines appropriate, including changes (during the 2 crop years immediately preceding the crop year for which the determination is made) in the cost of sugar products, the cost of domestic sugar production, and other circumstances that may adversely affect domestic sugar production.

"(C) If the Secretary makes a determination not to increase the support price under subparagraph (B), the Secretary shall submit a report containing the findings, decision, and supporting data for such determination to the Committee on Agriculture of the House of Representatives and the Committee on Agriculture, Nutrition, and Forestry of the Senate.

"(3) The Secretary shall support the price of each of the 1991 through 1995 crops of domestically grown sugar beets through nonrecourse loans at such level for each such crop as the Secretary determines to reflect—

"(A) an amount that bears the same relation to the support level for such crop of sugarcane under paragraph (2) as the weighted average of producer returns for sugar beets bears to the weighted average of producer returns for sugarcane, expressed on a cents per pound basis for refined beet sugar and raw cane sugar, for the most recent 5-year period for which data are available, plus

"(B) an amount that covers sugar beet processor fixed marketing expenses.

"(4) The Secretary shall announce the loan rate to be applicable during any fiscal year under this subsection as far in advance of the beginning of that fiscal year as is practicable consistent with the purposes of this subsection.

"(5) Loans under this subsection during any fiscal year shall be made available not earlier than the beginning of such fiscal year and shall mature at the earlier of—

"(A) the end of 9 months or

"(B) the end of such fiscal year.

"(6) With respect to those sugar beet producing areas in which sugar beets normally are harvested during the last 3 months of a fiscal year, the Secretary shall make available, to each borrower under a loan made under this subsection during the last 3 months of the fiscal year on sugar processed from sugar beets so harvested, a supplementary nonrecourse loan in addition to the initial loan. In each case, the supplementary loan shall—

"(A) be made available to the borrower as of the first day of the following fiscal year;

"(B) be made at the same loan rate as the initial loan; and

"(C) mature in 9 months less the amount of time that the initial loan was in effect.".

(b) REPORT BY COMPTROLLER GENERAL.—The Comptroller General of the United States shall provide, not later than 12 months after the date of enactment of this Act, a report advising the Committee on Agriculture and the Committee on Ways and Means of the House of Representatives and the Committee on Agriculture, Nutrition, and Forestry of the Senate on the progress the various agencies of the United States Government have made in addressing the concerns raised by the General Accounting Office in its official report, RCED-88-146, dated June 1988.

SEC. 202. INFORMATION REPORTING.

(a) DUTY TO REPORT.—All cane sugar refiners and sugar beet processors and all manufacturers of crystalline fructose from corn (hereinafter in this subtitle referred to as "crystalline fructose") shall furnish the Secretary of Agriculture (hereinafter in this subtitle referred to as the "Secretary"), on a monthly basis, such information as the Secretary may require with respect to such person's importation, distribution, and stock levels of sugar or crystalline fructose, respectively.

(b) PENALTY.—Any person willfully failing or refusing to furnish such information, or furnishing willfully any false information, shall be subject to a civil penalty of not more than $10,000 for each such violation.

(c) MONTHLY REPORTS.—Using the information received under subsection (a), the Secretary shall publish on a monthly basis composite data on imports, distribution, and stock levels of sugar and crystalline fructose.

SEC. 203. MARKETING ALLOTMENTS FOR SUGAR AND CRYSTALLINE FRUCTOSE.

(a) SUGAR ESTIMATES.—(1) IN GENERAL.—Before the beginning of each of the fiscal years 1992 through 1996, the Secretary shall estimate the amount of sugar that will be consumed in the United States during such fiscal year (other than sugar imported for

purposes other than human consumption), and the amount of sugar that will be available from carryin stocks or from domestically-produced sugarcane and sugar beets for consumption in the United States during such year. The Secretary shall also estimate the amount of sugar that will be imported for such consumption during such year (other than sugar imported for purposes other than human consumption), based on the difference between the amount of estimated consumption and the amount of sugar estimated to be available from domestically produced sugarcane, sugar beets and carryin stocks.

(2) QUARTERLY REESTIMATES.—The Secretary shall make quarterly reestimates of sugar consumption, availability, and imports for a fiscal year no later than the beginning of each of the second through fourth quarters of such fiscal year.

(b) SUGAR ALLOTMENTS.—For any fiscal year in which the Secretary estimates, under subsection (a), that imports of sugar for consumption in the United States will be less than 1,250,000 short tons, raw value, the Secretary shall establish for that year appropriate allotments under section 204 for the marketing by processors of sugar processed from domestically produced sugarcane and sugar beets in a manner that is fair, efficient, and equitable to producers, processors, and refiners, at a level that the Secretary estimates will result in imports of sugar of not less than 1,250,000 short tons, raw value, for that year.

(c) CRYSTALLINE FRUCTOSE ALLOTMENTS.—For any fiscal year in which the Secretary establishes allotments for the marketing of sugar under section 204, the Secretary shall establish for that year appropriate allotments for the marketing by manufacturers of crystalline fructose manufactured from corn, at a level not to exceed the equivalent of 200,000 tons of sugar, raw value, during such fiscal year, in a manner that is fair, efficient, and equitable to manufacturers.

(d) PROHIBITION.—(1) SUGAR.—(A) EXCEEDING ALLOCATION.—At any time allotments are in effect and allocated to processors under section 205, the total of—

(i) the amount of sugar marketed by a processor plus

(ii) the amount of sugar pledged as collateral for a price support loan under section 201 of the Agricultural Act of 1949 (7 U.S.C. 1446)

shall not exceed the amount of the allocation of the allotment made to such processor.

(B) EXCEPTIONS.—Subparagraph (A) shall not apply—

(i) to the marketing during a fiscal year of sugar pledged in that fiscal year as collateral for a price support loan under section 201 of the Agricultural Act of 1949 (7 U.S.C. 1446) after such sugar has been subsequently redeemed; or

(ii) any sale of sugar by a sugar beet processor to another sugar beet processor made to enable such other sugar beet processor to fulfill the amount of the allocation of the allotment made to such other processor.

(2) CRYSTALLINE FRUCTOSE.—At any time crystalline fructose allotments are in effect for manufacturers under subsection (c), no manufacturer may exceed the allotment made to it. No restrictions or allotments shall be established on the marketings of any liquid fructose.

(3) CIVIL PENALTY.—Any processor who violates paragraph (1) or manufacturer who violates paragraph (2) shall be liable to the Commodity Credit Corporation for a civil penalty in an amount equal to 3 times the United States market value, at the time of the commission of the violation, of that quantity of sugar or crystalline fructose involved in the violation.

(4) DEFINITION OF MARKET.—For purposes of this subtitle, the term "market" shall mean to sell or otherwise dispose of in commerce in the United States.

SEC. 204. ESTABLISHMENT OF MARKETING ALLOTMENTS.

The Secretary shall establish marketing allotments for sugar for any fiscal year in which such allotments are required under section 203(b) as follows:

(1) The Secretary shall establish the overall quantity of sugar to be allotted for such fiscal year (hereafter in this subtitle referred to as the "overall allotment amount") by deducting from the estimated sugar consumption for such fiscal year, as determined under section 203(a)—

(A) 1,250,000 short tons, raw value (representing minimum imports of sugar for consumption in the United States during such fiscal year), and

(B) carryin stocks of sugar, including sugar in Commodity Credit Corporation inventory.

The Secretary shall adjust the overall allotment amount to the maximum extent practicable to prevent the accumulation of sugar acquired by the Commodity Credit Corporation.

(2) The overall allotment amount for the fiscal year shall be allotted among—

(A) sugar derived from sugar beets; and

(B) sugar derived from sugarcane.

(3)(A) The Secretary shall establish percentage factors for the overall beet sugar and cane sugar allotments applicable for a fiscal year. The Secretary shall establish such percentage factors in a fair and equitable manner on the basis of past marketings of sugar (considering for such purposes the marketings of sugar processed from sugarcane and sugar beets of any or all of the 1985 through 1989 crops) processing and refining capacity, and the ability of processors to market the sugar covered under the allotments.

(B) The Secretary shall publish these percentage factors in the Federal Register, along with a description of the Secretary's reasons for establishing the factors, as provided in section 209(c).

(4) The marketing allotment for sugar derived from sugarcane and the marketing allotment for sugar derived from sugar beets for a fiscal year, in each case, shall be an amount equal to the product of multiplying the overall allotment amount for the fiscal year by the percentage established by the Secretary under paragraph (3)(A) for such allotment.

(5) The allotment for sugar derived from sugarcane shall be further allotted among the four States in the United States in which sugarcane is produced, and Puerto Rico (hereafter in this subtitle the term "State" shall include Puerto Rico), in a fair and equitable manner on the basis of past marketings of sugar (considering for such purposes the average of marketings of sugar processed from sugarcane in the 2 highest years of production from each State from the 1985 through 1989 crops), processing and refining capacity, and the ability of processors to market the sugar covered under the allotments.

(6)(A) The Secretary shall, based on reestimates under section 203(a)(2), adjust upward or downward marketing allotments established under paragraphs (1) through (5) in a fair and equitable manner, or suspend such allotments, as the Secretary determines appropriate, to reflect changes in estimated sugar consumption, availability, or imports.

(B) In the case of any increase or decrease in an allotment, each allocation to a processor of the allotment under section 205, and each proportionate share established with respect to the allotment under section 207(b), shall be increased or decreased by the same percentage that the allotment is increased or decreased.

(C) Whenever a marketing allotment for a fiscal year is required to be reduced during such fiscal year under this paragraph—

(i) if the amount of the sugar marketed, including pledged as collateral for a price support loan under section 201 of the Agricultural Act of 1949 (7 U.S.C. 1446), for such fiscal year at the time of such reduction under the allotment by all processors covered by the allotment exceeds the reduced allotment, the amount of the excess sugar marketed shall be deducted—

(I) if beet sugar is involved, from the marketing allotment, if any, next established for beet sugar, or

(II) if cane sugar is involved, from the marketing allotment next established for the State; and

(ii) if the amount of sugar marketed, including pledged as collateral for a price support loan under section 201 of the Agricultural Act of 1949 (7 U.S.C. 1446), for such fiscal year at the time of the reduction by any individual processor covered by the allotment exceeds the processor's reduced allocation, the amount of the excess sugar marketed shall be deducted from the allocation of an allotment, if any, next established for the processor.

(7) Except as otherwise provided in section 206, each marketing allotment of sugarcane established under this section may only be filled with sugar processed from domestically grown sugarcane, and each marketing allotment of sugar beets established under this section may only be filled with sugar processed from domestically grown sugar beets.

SEC. 205. ALLOCATION OF MARKETING ALLOTMENTS.

(a) IN GENERAL.—(1) ALLOCATION TO PROCESSORS.—Whenever marketing allotments are established for a fiscal year under section 204, in order to afford all interested persons an equitable opportunity to market sugar processed under an allotment, the Secretary shall allocate each such allotment among the processors covered by the allotment.

(2) HEARING AND NOTICE.—(A) CANE SUGAR.—The Secretary shall make allocations for cane sugar after such hearing and on such notice as the Secretary by regulation may prescribe, in such manner and in such quantities as to provide a fair, efficient, and equitable distribution of such allocations by taking into consideration processing capacity, past marketings of sugar, and the ability of each processor to market sugar covered by that portion of the allotment allocated. Each such allocation shall be subject to adjustment under section 204(6)(B).

(B) BEET SUGAR.—The Secretary shall make allocations for beet sugar after such hearing and on such notice as the Secretary by regulation may prescribe, in such manner and in such quantities as to provide a fair, efficient, and equitable distribution of such allocations by taking into consideration processing capacity, past marketings of sugar (considering for such purposes the marketings of sugar processed from sugar beets of any or all of the 1985 through 1989 crops),

and the ability of each processor to market sugar covered by that portion of the allotment allocated. Each such allocation shall be subject to adjustment under section 204(6)(B).

(b) FILLING CANE SUGAR ALLOTMENTS.—Except as otherwise provided in section 206, the marketing allotment established for cane sugar under this subtitle for a fiscal year may be filled only with sugar processed from sugarcane grown in the State covered by the allotment.

SEC. 206. ASSIGNMENTS OF DEFICITS.

(a) ESTIMATES OF MARKETING.—At any time allotments are in effect under this subtitle, the Secretary, from time to time, shall determine whether (in view of then-current inventories of sugar, the estimated production of sugar and expected marketings, and other pertinent factors) processors of sugarcane in each State covered by an allotment will be able to market the sugar covered by the allotment applicable to them and whether processors of sugar beets will be able to market sugar covered by the portion of the beet sugar allotment applicable to them.

(b) REASSIGNMENT OF DEFICITS.—(1) CANE SUGAR.—If the Secretary determines that the sugarcane processors subject to a State allotment will be unable to market the State's allotment for the fiscal year—

(A) the Secretary first shall reassign the estimated quantity of the deficit proportionately to the allotments for other cane sugar States, depending on the capacity of each other State to fill the portion of the deficit to be assigned to it, with such reassigned amount to each State to be allocated among processors in that State in proportion to the allocations of such processors; and

(B) if after such reassignments, the deficit cannot be completely eliminated, the Secretary shall reassign the remainder to imports.

(2) BEET SUGAR.—If the Secretary determines that a sugar beet processor subject to an allotment will be unable to market that allotment—

(A) the Secretary first shall reassign the estimated quantity of the deficit proportionately to the allotments for other sugar beet processors, depending on the capacity of each other processor to fill the portion of the deficit to be assigned to it; and

(B) if after such reassignments, the deficit cannot be completely eliminated, the Secretary shall reassign the remainder to imports.

(3) CORRESPONDING INCREASE.—The allocation of each processor receiving a reassigned amount of an allotment under this subsection for a fiscal year shall be increased to reflect such reassignment.

SEC. 207. PROVISIONS APPLICABLE TO PRODUCERS.

(a) PROCESSOR ASSURANCES.—Whenever allotments for a fiscal year are allocated to processors under section 205, the Secretary shall obtain from the processors such assurances as the Secretary deems adequate that the allocation will be shared among producers served by the processor in a fair and equitable manner that adequately reflects producers' production histories. Any dispute between a processor and a producer, or group of producers, with respect to the sharing of the processor's allocation shall be resolved through arbitration by the Secretary on the request of either party.

(b) PROPORTIONATE SHARES OF CERTAIN ALLOTMENTS.—(1) IN GENERAL.—(A) STATES AFFECTED.—In any case in which a State allotment is established under section 204(5) and there are in excess of 250 producers in the State to which it applies, the Secretary shall make a determination under subparagraph (B).

(B) DETERMINATION.—The Secretary shall determine, for each State allotment described in subparagraph (A), whether the production of sugar, in the absence of proportionate shares, will be greater than the quantity needed to enable processors to fill the allotment and provide a normal carryover inventory.

(2) ESTABLISHMENT OF PROPORTIONATE SHARES.—If the Secretary determines that the amount of sugar processed from all crops by all processors covered by a State allotment for a fiscal year will be in excess of the quantity needed to enable processors to fill the allotment for such fiscal year and provide a normal carryover inventory, the Secretary shall establish proportionate shares for the crop of sugarcane that is harvested during the fiscal year the allotment is in effect as provided in this subsection. Each such proportionate share shall be subject to adjustment under section 204(6)(B).

(3) METHOD OF DETERMINING.—For purposes of determining proportionate shares for any crop of sugarcane—

(A) The Secretary shall convert the State allotment for the fiscal year involved into a State acreage allotment for the crop by dividing the State allotment by the per-acre yield goal for the State, as established under subparagraph (B).

(B) The Secretary shall establish the State's per-acre yield goal for a crop at a level (not less than the average per-acre yield in the State for the preceding 5 years, as determined by the Secretary) that will ensure an adequate net return per pound to producers in such State, taking into consideration any available production research data that the Secretary deems relevant.

(C) The Secretary shall establish a uniform reduction percentage for the crop by dividing the State acreage allotment, as determined for such crop under subparagraph (A), by the sum of all acreage bases in the State, as determined by the Secretary that the Secretary estimates would otherwise be harvested for the production of such crop of sugarcane.

(D) The uniform reduction percentage for such crop, as determined under subparagraph (C), shall be applied to the acreage base for each farm covered by the State allotment to determine the farm's proportionate share for the crop.

(4) ACREAGE BASE.—For purposes of this subsection, the acreage base for each sugarcane-producing farm shall be determined by the Secretary, as follows:

(A) The acreage base for any crop shall be the number of acres that is equal to the average of the acreage planted and considered planted for harvest for sugar or seed on the farm in each of the 5 crop years preceding such crop year.

(B) Acreage that producers on a farm were unable to harvest to sugarcane for sugar or seed because of drought, flood, other natural disaster, or other condition beyond the control of the producers shall be considered as harvested to sugarcane for sugar or seed for purposes of this paragraph.

(5) VIOLATION.—(A) IN GENERAL.—Whenever proportionate shares are in effect in a State for a crop of sugarcane, no producer in the State knowingly may harvest for sugar or seed an acreage of sugarcane of such crop in excess of the farm's proportionate share for the crop or otherwise violate proportionate share regulations issued by the Secretary under section 209(a).

(B) CIVIL PENALTY.—Any producer who violates subparagraph (A) shall be liable to the Commodity Credit Corporation for a civil penalty in an amount equal to 3 times the United States market value, at the time of the commission of the violation, of that quantity of sugar involved in the violation. The quantity of sugar involved shall be determined based on the per-acre yield goal established under paragraph (3).

(6) WAIVER.—Notwithstanding the preceding subparagraph, the Secretary may authorize the county and State committees established under section 8(b) of the Soil Conservation and Domestic Allotment Act to waive or modify deadlines and other proportionate share requirements in cases in which lateness or failure to meet such other requirements does not affect adversely the operation of proportionate shares.

SEC. 208. SPECIAL RULES.

(a) TRANSFER OF PRODUCTION HISTORY.—For the purpose of establishing proportionate shares for producers under section 207, the Secretary, on application of any producer, may transfer the production history of land owned, operated, or controlled by such producers to any other parcels of land of such applicant.

(b) RESERVATION OF PRODUCTION HISTORY.—If for reasons beyond the control of the owner of a farm, the owner is unable to use all or a portion of the proportionate share established for the farm under section 207, the Secretary may reserve for a period of not more than 3 consecutive years the production history of such farm to the extent of the proportionate share involved. Such proportionate share may be redistributed to other farm owners or operators, but no production history shall accrue to such other farm owners or operators, by virtue of such redistribution of the proportionate share so redistributed.

(c) REVISIONS OF ALLOCATIONS AND PROPORTIONATE SHARES.—The Secretary, after such hearing and notice as the Secretary by regulation may prescribe, may revise or amend any allocation of a marketing allotment under section 205, or any proportionate share established for a farm under section 207, on the same basis as the initial allocation or proportionate share was established.

SEC. 209. REGULATIONS; VIOLATIONS; PUBLICATION OF SECRETARY'S DETERMINATIONS; JURISDICTION OF THE COURTS; U.S. ATTORNEYS.

(a) REGULATIONS.—(1) IN GENERAL.—The Secretary shall issue such regulations as may be necessary to carry out the powers vested in the Secretary in administering the marketing allotment program under this subtitle.

(2) PRIOR CONSULTATIONS REQUIRED.—In addition to taking such other action as may be required under section 551 through 559 of title 5, United States Code, prior to proposing any regulations under paragraph (1), the Secretary shall consult with representatives of domestic sugar processors and producers with regard to ensuring that such regulations achieve the objectives of this subtitle. The results of such consultations shall be published in the Federal Register, along with the proposed regulations.

(b) VIOLATION.—Any person knowingly violating any regulation of the Secretary issued under subsection (a) shall be subject to a civil penalty of not more than $5,000 for each violation.

(c) PUBLICATION IN FEDERAL REGISTER.—Each determination issued by the Secretary to establish, adjust or suspend allotments under this subtitle shall be promptly published in the Federal Register and shall be

accompanied by a statement of the reasons for such determination.

(d) JURISDICTION OF COURTS; UNITED STATES ATTORNEYS.—(1) The several district courts of the United States are vested with jurisdiction specifically to enforce, and to prevent and restrain any person from violating, this subtitle or any regulation issued thereunder.

(2) Whenever the Secretary shall so request, it shall be the duty of the several United States attorneys, in their respective districts, to institute proceedings to enforce the remedies and to collect the penalties and forfeitures provided for in this subtitle. The Secretary may elect not to refer to a United States attorney any violation of this subtitle or regulation when the Secretary determines that the administration and enforcement of this subtitle would be adequately served by written notice or warning to any person committing the violation.

(e) NONEXCLUSIVITY OF REMEDIES.—The remedies and penalties provided for in this subtitle shall be in addition to, and not exclusive of, any remedies or penalties existing at law or in equity.

SEC. 210. APPEALS.

(a) IN GENERAL.—An appeal may be taken to the Secretary from any decision under section 205 establishing allocations of marketing allotments, or under section 207, by any person adversely affected by reason of any such decision.

(b) PROCEDURE.—Any such appeal shall be taken by filing with the Secretary, within 20 days after the decision complained of is effective, notice in writing of the appeal and a statement of the reasons therefor. Unless a later date is specified by the Secretary as part of the Secretary's decision, the decision complained of shall be considered to be effective as of the date on which announcement of the decision is made. The Secretary shall deliver a copy of any notice of appeal to each person shown by the records of the Secretary to be adversely affected by reason of the decision appealed, and shall at all times thereafter permit any such person to inspect and make copies of appellant's reasons for the appeal and shall on application permit such person to intervene in the appeal. The Secretary shall provide each appellant an opportunity for a hearing. The Secretary shall appoint an administrative law judge to conduct a hearing on the record on each appeal under this section. In all other respects, each appeal under this section shall be subject to the provisions of section 551 through 559, and 701 through 706, of title 5, United States Code.

SEC. 211. ADMINISTRATION.

(a) USE OF CERTAIN AGENCIES.—In carrying out the provisions of sections 202 through 210 of this subtitle, the Secretary may use the services of local committees of sugar beet or sugarcane producers, sugarcane processors, or sugar beet processors, State and county committees established under section 8(b) of the Soil Conservation and Domestic Allotment Act, and the departments and agencies of the United States Government.

(b) USE OF COMMODITY CREDIT CORPORATION.—The Secretary shall use the services, facilities, funds, and authorities of the Commodity Credit Corporation to carry out the provisions of sections 202 through 210 of this subtitle.

Subtitle B—Import Treatment of Sugars, Syrups, and Molasses

SEC. 221. FINDINGS AND PURPOSE.

(a) FINDINGS.—The Congress finds that—

(1) the current administration of import quotas on imports of sugar has been found to be inconsistent with obligations of the United States under the General Agreement on Tariffs and Trade (GATT) by a GATT panel established pursuant to a dispute settlement proceeding instituted against the United States by the Government of Australia;

(2) the United States has accepted the findings of the GATT panel report, and the GATT panel report has been adopted by the GATT Council;

(3) the United States now has an international obligation to bring its regime of import restrictions on sugar into conformity with the GATT rules;

(4) the conversion of the current regime of import quotas to a regime of tariff-rate quotas would comply with our international obligations; and

(5) a GATT-consistent regime of regulating sugar imports should be implemented not later than October 1, 1990.

(b) PURPOSE.—The purpose of this subtitle is to provide for the implementation on October 1, 1990, of tariff-rate quotas on imports of sugar, molasses, and syrups that are consistent with the international obligations of the United States.

SEC. 222. TARIFF TREATMENT WHEN TARIFF-RATE QUOTAS NOT IN EFFECT.

The rates of duty under column 1-general and column 2 of the HTS on sugars, syrups, and molasses that are entered during any period after September 30, 1990, when a tariff-rate quota provided for under section 233 is not in effect are the respective rates of duty that were applicable to sugars, syrups, and molasses entered on January 1, 1990.

SEC. 223. TARIFF-RATE QUOTAS.

(a) IN GENERAL.—

(1) Subject to paragraph (3), the President—

(A) may establish for any quota year beginning after September 30, 1990, a tariff rate quota on sugars, syrups, and molasses; and

(B) shall by proclamation implement each tariff-rate quota established under subparagraph (A).

(2) The President, or a designee of the President, may make such intra-annual adjustments to any tariff-rate quota established under paragraph (1) as may be necessary or appropriate.

(3) LIMITATIONS.—

(A) If the United States Trade Representative determines at any time that the application of a tariff-rate quota under this subtitle to any sugar, syrup, or molasses is inconsistent with the obligations of the United States under any trade agreement, such tariff-rate quota may not be applied to such sugar, syrup, or molasses.

(B) No tariff-rate quota may be implemented under paragraph (1) on or after the effective date specified in section 237(a) until the United States Trade Representative determines whether or not a limitation described in subparagraph (A) applies.

(b) REQUIREMENTS APPLICABLE TO TARIFF-RATE QUOTAS.—A tariff-rate quota established under subsection (a) for any quota year, and any intra-annual adjustment thereto, is subject to the following requirements:

(1) The interests in the United States sugar market of domestic producers, domestic consumers, and materially affected contracting parties to the General Agreement on Tariffs and Trade must be given due consideration.

(2) The United States Trade Representative shall allocate among supplier countries their respective shares of the tariff-rate quota established for the quota year. In making such allocations, the United States Trade Representative shall take into account—

(A) the percentage distributions allocated to supplier countries under Additional U.S. Note 3 to chapter 17 of the HTS for the quota period ending on September 30, 1990;

(B) in the case of supplier countries not included under subparagraph (A), the access of such countries to the United States sugar market during a representative period;

(C) the obligations of the United States under trade agreements; and

(D) any prohibition or limitation imposed under law as a political or economic sanction on the importation into, or export to, the United States of sugars, syrups, or molasses.

The United States Trade Representative may, from time to time, make such adjustments to allocations made under this paragraph as may be necessary.

(3) The rates of duty on sugars, syrups, and molasses that—

(A) are the product of any supplier country; and

(B) are certified upon entry as being included within the allocation made to such country for the quota year pursuant to paragraph (2);

are the respective rates that were applicable to sugars, syrups, and molasses entered on January 1, 1990.

(4) No rate of duty that exceeds 40 cents per kilogram may be imposed on sugars, syrups, or molasses that—

(A) are the product of any supplier country; but

(B) are not certified upon entry as being within the allocation made to such country for such year pursuant to paragraph (2).

(5)(A) The rates of duty referred to in paragraph (3) may be applied to all sugars, syrups, and molasses that are—

(i) entered for use only in the production (other than by distillation) of polyhedric alcohols, except polyhedric alcohols for use as a substitute for sugar in human food consumption; or

(ii) reexported in refined form or in sugar-containing products.

(B) The Secretary of Agriculture, after consultation with the United States Trade Representative, shall impose such licensing requirements, terms, conditions, bonds, or other limitations as may be necessary or appropriate to ensure that—

(i) sugars, syrups, and molasses to which subparagraph (A) is applied are utilized in accordance with the purposes stated in that subparagraph; and

(ii) reexportations are not used for the purpose of obtaining refunds and drawbacks of duties at rates applicable in circumstances described in paragraph (4)(B).

The Secretary of Agriculture shall consult with the Secretary of the Treasury regarding the implementation of clause (ii).

(c) REGULATIONS.—The United States Trade Representative and the Secretary of Agriculture are each authorized to prescribe such regulations as may be necessary or appropriate to carry out, with respect to the implementation of tariff-rate quotas established under this subtitle, the respective functions that each had in implementing the quota program established under Additional U.S. Note 3 to chapter 17 of the HTS for the quota period ending September 30, 1990.

(d) TIMING REQUIREMENTS; NOTICE.—If a tariff-rate quota for any quota year, or any

intra-annual adjustment to a tariff-rate quota, is established under subsection (a)—

(1) the tariff-rate quota shall be established, and notice thereof published in the Federal Register, not later than the 15th day before the date on which the tariff-rate quota is to take effect; and

(2) such adjustment shall be established, and notice thereof published in the Federal Register, not later than the 2nd day before the date on which the adjustment is to take effect.

SEC. 224. APPLICABLE STATUTORY AUTHORITIES.

After September 30, 1990, no quantitative limitation or duty on the entry, or withdrawal from warehouse for consumption, of sugars, syrups, and molasses may be imposed or modified except under the authority of—

(1) this subtitle;

(2) title II or III of the Trade Act of 1974;

(3) title VII of the Tariff Act of 1930;

(4) section 22 of the Agricultural Adjustment Act of 1933, as amended; or

(5) any statute, enacted after the date of the enactment of this Act, that specifically authorizes such an imposition or modification.

SEC. 225. DEFINITIONS.

As used in this subtitle:

(1) The term "entered" means entered, or withdrawn from warehouse for consumption, in the customs territory of the United States.

(2) The term "HTS" means the Harmonized Tariff Schedule of the United States.

(3) The term "sugars, syrups, and molasses" means articles described in subheadings 1701.11, 1701.12, 1701.91.20, 1701.99, 1702.90.30, 1806.10.40, and 2106.90.10 of the HTS.

(4) The term "quota year" means an annual period beginning on October 1 of any year and ending at the close of September 30 of the succeeding year.

SEC. 226. CONFORMING AMENDMENTS TO HTS.

Chapter 17 of the HTS is amended—

(1) by striking out Additional U.S. Notes 2, 3, and 4; and

(2) by redesignating Additional U.S. Note 5 as Additional U.S. Note 2.

SEC. 227. EFFECTIVE DATE; TERMINATION.

(a) EFFECTIVE DATE.—This subtitle, and the amendments made by it, apply to sugars, syrups, and molasses that are entered after September 30, 1990.

(b) TERMINATION.—The authority to establish tariff-rate quotas under the authority of this subtitle expires on September 30, 1996.

TITLE III—RICE

SEC. 301. LOAN RATES, TARGET PRICES, DISASTER PAYMENTS, ACREAGE LIMITATION PROGRAM, AND LAND DIVERSION FOR THE 1991 THROUGH 1995 CROPS OF RICE.

Effective only for the 1991 through 1995 crops of rice, the Agricultural Act of 1949 is amended by inserting after section 101A (7 U.S.C. 1441-1) the following new section:

"SEC. 101B. (a) LOANS AND PURCHASES.—(1) IN GENERAL.—Except as provided in paragraph (2), the Secretary shall make available to producers nonrecourse loans and purchases for each of the 1991 through 1995 crops of rice at a level that is not less than the higher of—

"(A) 85 percent of the simple average price received by producers, as determined by the Secretary, during the marketing years for the immediately preceding 5 crops of rice, excluding the year in which the average price was the highest and the year in which the average price was the lowest in such period; or

"(B) $6.50 per hundredweight.

"(2) LIMITATION ON DECREASE IN LOAN LEVEL.—The loan level for any crop of rice determined under paragraph (1) may not be reduced by more than 5 percent from the level determined for the preceding crop.

"(3) ANNOUNCEMENT OF LOAN LEVEL AND ESTABLISHED PRICE.—The loan and purchase level and the established price for each of the 1991 through 1995 crops of rice shall be announced not later than January 31 of each calendar year for the crop harvested in such calendar year.

"(4) LENGTH OF TERMS OF NONRECOURSE LOANS.—A loan made under this section shall have a term of not more than 9 months beginning after the month in which the application for the loan is made.

"(5) MARKETING LOAN.—(A) IN GENERAL.—The Secretary shall permit a producer to repay a loan made under paragraph (1) for a crop at a level that is the lesser of—

"(i) the loan level determined for such crop; or

"(ii) the higher of—

"(I) the loan level determined for such crop multiplied by 70 percent; or

"(II) the prevailing world market price for rice, as determined by the Secretary.

"(B) DETERMINATION OF PREVAILING WORLD MARKET PRICE.—The Secretary shall prescribe by regulation—

"(i) a formula to define the prevailing world market price for rice; and

"(ii) a mechanism by which the Secretary shall announce periodically the prevailing world market price for rice.

"(C) PRODUCER PURCHASE OF NEGOTIABLE MARKETING CERTIFICATES.—(i) As a condition of permitting a producer to repay a loan as provided in subparagraph (A), the Secretary may require a producer to purchase marketing certificates equal in value to an amount that does not exceed one-half the difference, as determined by the Secretary, between the amount of the loan obtained by the producer and the amount of the loan repayment. Such certificates shall be negotiable.

"(ii) Such certificates shall be redeemable for agricultural commodities or products thereof owned by the Commodity Credit Corporation valued at the prevailing market price, as determined by the Secretary.

"(iii) The Commodity Credit Corporation, under regulations prescribed by the Secretary, shall assist any person receiving marketing certificates under this subparagraph in the redemption or marketing of such certificates. Insofar as practicable, the Secretary shall permit an owner of a certificate to designate the storage facility at which such owner would prefer to receive agricultural commodities or products thereof in exchange for such certificate.

"(iv) If any such certificate is not presented for redemption or marketing within a reasonable number of days after issuance, as determined by the Secretary, reasonable costs of storage and other carrying charges, as determined by the Secretary, shall be deducted from the value of the certificate for the period beginning after such reasonable number of days and ending with the date of the presentation of such certificate to the Commodity Credit Corporation.

"(6) SIMPLE AVERAGE PRICE DETERMINATION.—For purposes of this section, the simple average price received by producers for the immediately preceding marketing year shall be based on the latest information available to the Secretary at the time of the determination.

"(b) PAYMENTS FOR FORGOING LOAN OR PURCHASE.—(1) IN GENERAL.—The Secretary shall, for each of the 1991 through 1995 crops of rice, make payments available to producers who, although eligible to obtain a loan or purchase agreement under subsection (a), agree to forgo obtaining such loan or agreement in return for such payments.

"(2) COMPUTATION.—A payment under this subsection shall be computed by multiplying—

"(A) the loan payment rate; by

"(B) the quantity of rice the producer is eligible to place under loan.

"(3) QUANTITY ELIGIBLE.—For purposes of this subsection, the quantity of rice eligible to be placed under loan may not exceed the product obtained by multiplying—

"(A) the individual farm program acreage for the crop; by

"(B) the actual yield per harvested acre for the farm.

"(4) LOAN PAYMENT RATE.—For purposes of this subsection, the loan payment rate shall be the amount by which—

"(A) the loan level determined for such crop under subsection (a); exceeds

"(B) the level at which a loan may be repaid under subsection (a).

"(5) PAYMENT IN NEGOTIABLE MARKETING CERTIFICATES.—The Secretary may make up to one-half the amount of a payment under this subsection available in the form of negotiable marketing certificates, subject to the terms and conditions provided in subsection (a)(5)(C).

"(c) DEFICIENCY PAYMENTS.—(1) IN GENERAL.—(A) COMPUTATION.—The Secretary shall make available to producers payments (to be known as 'deficiency payments') for each of the 1991 through 1995 crops of rice in an amount computed by multiplying—

"(i) the payment rate; by

"(ii) the individual farm program acreage; by

"(iii) the farm program payment yield established for the crop for the farm.

"(B) 0/92 AND 50/92 PROGRAMS.—(i) If an acreage limitation program under subsection (e)(2) is in effect for a crop of rice and the producers on a farm devote a portion of the permitted rice acreage of the farm (as determined in accordance with subsection (e)(2)(A)) equal to more than 8 percent of the permitted rice acreage of the farm for the crop to conservation uses (except as provided in subparagraph (F))—

"(I) such portion of the permitted rice acreage in excess of 8 percent of such acreage devoted to conservation uses (except as provided in subparagraph (F)) shall be considered to be planted to rice for the purpose of determining the individual farm program acreage in accordance with subsection (e)(2)(E) and for the purpose of determining the acreage on the farm required to be devoted to conservation uses in accordance with subsection (e)(2)(D); and

"(II) the producers shall be eligible for payments under this paragraph on such acreage, subject to the compliance of the producers with clause (ii).

"(ii)(I) To be eligible for payments under clause (i), except as provided in subclause (II) and clause (iv), the producers on a farm must actually plant rice for harvest on at least 50 percent of the permitted rice acreage of the farm.

"(II) The Secretary may waive the 50 percent planting requirement in subclause (I) for any crop of rice.

"(iii) Notwithstanding any other provision of this section, any producer who elects to devote a portion (or, where the Secretary exercises the waiver authority under clause (ii)(II), all) of the permitted rice acreage of

the farm to conservation uses (or other uses as provided in subparagraph (F)), under this subparagraph shall receive deficiency payments on the acreage that is considered to be planted to rice and eligible for payments under this subparagraph for such crop at a rate established by the Secretary, except that such rate may not be established at less than the projected deficiency payment rate for the crop, as determined by the Secretary. Such projected payment rate for the crop shall be announced by the Secretary prior to the period during which rice producers may agree to participate in the program for such crop.

"(iv) If a State or local agency has imposed in an area of a State or county a quarantine on the planting of rice for harvest on farms in such area, the State committee established under section 8(b) of the Soil Conservation and Domestic Allotment Act (16 U.S.C. 590h(b)) may recommend to the Secretary that payments be made under this paragraph to producers in such area who were required to forgo the planting of rice for harvest on acreage to alleviate or eliminate the condition requiring such quarantine. If the Secretary determines that such condition exists, the Secretary may make payments under this paragraph to such producers. To be eligible for payments under this clause, such producers must devote such acreage to conservation uses (except as provided in subparagraph (F)).

"(v) If an acreage limitation program under subsection (e) is in effect for any crop of rice and if the Secretary determines that producers on a farm are prevented from planting the acreage intended for rice to rice because of drought, flood, or other natural disaster, or other condition beyond the control of the producers, the Secretary shall make available to such producers payments computed as provided in paragraph (1)(A). Producers shall be eligible for such payments if a portion (or all) of the permitted rice acreage of the farm is devoted to conservation uses (except as provided in paragraph (F)). Such acreage equal to more than 8 percent of the permitted rice acreage of the farm for the crop shall be considered to be planted to rice for the purpose of determining the individual farm program acreage in accordance with subsection (e)(2)(E) and for the purpose of determining the acreage on the farm required to be devoted to conservation uses in accordance with subsection (e)(2)(D). The provisions of clauses (iii) and (vi) shall apply to any such producers.

"(vi) The rice crop acreage base and rice farm program payment yield of the farm shall not be reduced due to the fact that such portion (or all) of the permitted acreage of the farm was devoted to conserving uses (except as provided in subparagraph (F)).

"(vii) Other than as provided in clauses (i) through (v), payments may not be made under this paragraph for any crop on a greater acreage than the acreage actually planted to rice.

"(viii) Any acreage considered to be planted to rice in accordance with clauses (i) and (v) may not also be designated as conservation use acreage for the purpose of fulfilling any provisions under any acreage limitation or land diversion program requiring that the producers devote a specified acreage to conservation uses.

"(C) PAYMENT RATE.—The payment rate for rice shall be the amount by which the established price for the crop of rice exceeds the higher of—

"(i) the national average market price received by producers during the first 5 months of the marketing year for such crop, as determined by the Secretary; or

"(ii) the loan level determined for such crop.

"(D) MINIMUM ESTABLISHED PRICE.—The established price for rice shall not be less than $10.71 per hundredweight.

"(E) REDUCTION FOR DISASTER PAYMENTS.—The total quantity of rice on which payments would otherwise be payable to a producer on a farm for any crop under this paragraph shall be reduced by the quantity on which any disaster payment is made to the producer for the crop under paragraph (2).

"(F) ALTERNATIVE CROPS.—The Secretary may permit, subject to such terms and conditions as the Secretary may prescribe, all or any part of acreage otherwise required to be devoted to conservation uses as a condition of qualifying for payments under subparagraph (B) to be devoted to sweet sorghum or the production of guar, sesame, castor beans, crambe, plantago ovato, triticale, rye, commodities for which no substantial domestic production or market exists but that could yield industrial raw material being imported, or likely to be imported, into the United States, or commodities grown for experimental purposes (including kenaf), subject to the following sentence. The Secretary may permit such acreage to be devoted to such production only if the Secretary determines that—

"(i) the production is not likely to increase the cost of the price support program and will not affect farm income adversely; and

"(ii) the production is needed to provide an adequate supply of the commodity, or, in the case of commodities for which no substantial domestic production or market exists but that could yield industrial raw materials, the production is needed to encourage domestic manufacture of such raw material and could lead to increased industrial use of such raw material to the long-term benefit of United States industry.

"(2) DISASTER ASSISTANCE.—(A) PREVENTED PLANTING PAYMENTS.—(i) Except as provided in subparagraph (C), if the Secretary determines that the producers on a farm are prevented from planting any portion (or all) of the acreage intended for rice to rice or other nonconserving crops because of drought, flood, or other natural disaster, or other condition beyond the control of the producers, including such condition resulting from the adjudication of Indian water settlement disputes, the Secretary shall make a prevented planting disaster payment to the producers in an amount equal to the product obtained by multiplying—

"(I) the number of acres so affected but not to exceed the acreage planted to rice for harvest (including any acreage that the producers were prevented from planting to rice or other nonconserving crops in lieu of rice because of drought, flood, or other natural disaster, or other condition beyond the control of the producers) in the immediately preceding year; by

"(II) 75 percent of the farm program payment yield established for the farm by the Secretary; by

"(III) a payment rate equal to 33⅓ percent of the established price for the crop.

"(ii) Payments made by the Secretary under this subparagraph may be made in the form of cash or in such other form as the Secretary is authorized by law to make.

"(B) REDUCED YIELD PAYMENTS.—Except as provided in subparagraph (C), if the Secretary determines that because of drought, flood, or other natural disaster, or other condition beyond the control of the producers, including such condition resulting from the adjudication of Indian water settlement disputes, the total quantity of rice that the producers are able to harvest on any farm is less than the result of multiplying 75 percent of the farm program payment yield established for the farm for such crop by the acreage planted for harvest for such crop, the Secretary shall make a reduced yield disaster payment to the producers at a rate equal to 33⅓ percent of the established price for the crop for the deficiency in production below 75 percent for the crop.

"(C) LIMITATION DUE TO CROP INSURANCE.—Producers on a farm shall not be eligible for—

"(i) prevented planting disaster payments under subparagraph (A), if prevented planting crop insurance is available to the producers under the Federal Crop Insurance Act (7 U.S.C. 1501 et seq.) with respect to the rice acreage of the producers; or

"(ii) reduced yield disaster payments under subparagraph (B), if reduced yield crop insurance is available to the producers under such Act with respect to the rice acreage of the producers.

"(D) EXCEPTION FROM LIMITATION.—(i) Notwithstanding subparagraph (C), the Secretary may make a disaster payment to producers on a farm under this paragraph if the Secretary determines that—

"(I) as the result of drought, flood, or other natural disaster, or other condition beyond the control of the producers, including such condition resulting from the adjudication of Indian water settlement disputes, the producers have suffered substantial losses of production either from being prevented from planting rice or other nonconserving crops or from reduced yields;

"(II) such losses have created an economic emergency for the producers;

"(III) crop insurance indemnity payments under the Federal Crop Insurance Act (7 U.S.C. 1501 et seq.) and other forms of assistance made available by the Federal Government to such producers for such losses is insufficient to alleviate such economic emergency; and

"(IV) additional assistance must be made available to such producers to alleviate such economic emergency.

"(ii) The Secretary may make such adjustments in the amount of payments made available under this paragraph with respect to an individual farm so as to assure the equitable allotment of such payments among producers, taking into account other forms of Federal disaster assistance provided to the producers for the crop involved.

"(d) FARM PROGRAM PAYMENT YIELDS.—The farm program payment yields for farms for each crop of rice shall be determined under title V.

"(e) PROGRAMS TO REDUCE ACREAGE.—(1) IN GENERAL.—(A) EXCESSIVE SUPPLY.—Notwithstanding any other provision of this Act, if the Secretary determines that the total supply of rice, in the absence of an acreage limitation program, will be excessive taking into account the need for an adequate carryover to maintain reasonable and stable supplies and prices and to meet a national emergency, the Secretary may provide for any crop of rice an acreage limitation program as described in paragraph (2).

"(B) CONSIDERATION OF CONSERVATION RESERVE.—In making a determination under subparagraph (A), the Secretary shall take into consideration the number of acres placed in the conservation acreage reserve

established under section 1231 of the Food Security Act of 1985 (16 U.S.C. 3831).

"(C) ANNOUNCEMENT OF PROGRAM.—If the Secretary elects to put an acreage limitation program into effect for any crop year, the Secretary shall announce any such program not later than January 31 of the calendar year in which the crop is harvested.

"(D) RATIO OF CARRY-OVER TO TOTAL DISAPPEARANCE.—The Secretary shall carry out an acreage limitation program described in paragraph (2) for a crop of rice in a manner that will result in carry-over stocks equal to between sixteen and one-half and twenty percent of the simple average of the total disappearance of rice for each of the three marketing years preceding the year for which the announcement is made. For the purpose of this subparagraph, 'total disappearance' means all rice utilization, including total domestic, total export, and total residual disappearance.

"(2) ACREAGE LIMITATION PROGRAM.—(A) UNIFORM PERCENTAGE REDUCTION.—If a rice acreage limitation program is announced under paragraph (1), such limitation shall be achieved by applying a uniform percentage reduction (not to exceed 35 percent) to the rice crop acreage base for the crop for each rice-producing farm.

"(B) ENFORCEMENT.—Except as provided in subsection (g), producers who knowingly produce rice in excess of the permitted rice acreage for the farm, as established in accordance with subparagraph (A), shall be ineligible for rice loans, purchases, and payments with respect to that farm.

"(C) CROP ACREAGE BASES.—Rice crop acreage bases for each crop of rice shall be determined under title V.

"(D) CONSERVATION USE ACREAGE.—(i) A number of acres on the farm shall be devoted to conservation uses, in accordance with regulations issued by the Secretary. Such number shall be determined by dividing—

"(I) the product obtained by multiplying the number of acres required to be withdrawn from the production of rice times the number of acres planted to such commodity; by

"(II) the number of acres authorized to be planted to such commodity under the limitation established by the Secretary.

"(ii) The number of acres determined under clause (i) is hereafter in this subsection referred to as 'reduced acreage'.

"(E) FARM PROGRAM ACREAGE.—Except as provided in subsection (c)(1)(B), the individual farm program acreage shall be the acreage planted on the farm to rice for harvest within the permitted rice acreage for the farm as established under this paragraph.

"(3) USE OF CONSERVATION ACREAGE.—(A) PROTECTION FROM WEEDS AND EROSION.—The regulations issued by the Secretary under paragraph (2) with respect to acreage required to be devoted to conservation uses shall assure protection of such acreage from weeds and wind and water erosion.

"(B) PERMITTED PLANTINGS.—The Secretary may permit, subject to such terms and conditions as the Secretary may prescribe, all or any part of such acreage to be devoted to sweet sorghum, or the production of guar, sesame, safflower, sunflower, rapeseed, castor beans, mustard seed, crambe, plantago ovato, flaxseed, triticale, rye, or other commodity, if the Secretary determines that such production is needed to provide an adequate supply of such commodities, is not likely to increase the cost of the price support program, and will not affect farm income adversely.

"(C) HAYING AND GRAZING.—(i) Except as provided in clause (ii), haying and grazing of acreage designated as conservation use acreage for the purpose of meeting any requirements established under an acreage limitation program (including a program conducted under subsection (c)(1)(B)), or land diversion program established under this section shall be permitted, except during any consecutive 5-month period that is established by the State committee established under section 8(b) of the Soil Conservation and Domestic Allotment Act (16 U.S.C. 590h(b)) for a State. Such 5-month period shall be established during the period beginning April 1, and ending October 31, of a year.

"(ii) In the case of a natural disaster, the Secretary may permit unlimited haying and grazing on such acreage. The Secretary may not exclude irrigated or irrigable acreage not planted in alfalfa when exercising the authority under this clause.

"(4) LAND DIVERSION PROGRAM.—(A) PAYMENTS.—The Secretary may make land diversion payments to producers of rice, whether or not an acreage limitation program for rice is in effect, if the Secretary determines that such land diversion payments are necessary to assist in adjusting the total national acreage of rice to desirable goals. Such land diversion payments shall be made to producers who, to the extent prescribed by the Secretary, devote to approved conservation uses an acreage of cropland on the farm in accordance with land diversion contracts entered into by the Secretary with such producers.

"(B) BIDS FOR CONTRACTS.—The amounts payable to producers under land diversion contracts may be determined through the submission of bids for such contracts by producers in such manner as the Secretary may prescribe or through such other means as the Secretary determines appropriate. In determining the acceptability of contract offers, the Secretary shall take into consideration the extent of the diversion to be undertaken by the producers and the productivity of the acreage diverted.

"(C) LIMITATION ON DIVERTED ACREAGE.—The Secretary shall limit the total acreage to be diverted under agreements in any county or local community so as not to affect adversely the economy of the county or local community.

"(5) WILDLIFE USES FOR REDUCED AND DIVERTED ACREAGE.—(A) IN GENERAL.—The reduced acreage and additional diverted acreage may be devoted to wildlife food plots or wildlife habitat in conformity with standards established by the Secretary in consultation with wildlife agencies.

"(B) COST SHARING.—The Secretary may pay an appropriate share of the cost of practices designed to carry out the purposes of subparagraph (A).

"(C) ENCOURAGEMENT OF PUBLIC ACCESS.—The Secretary may provide for an additional payment on such acreage in an amount determined by the Secretary to be appropriate in relation to the benefit to the general public if the producer agrees to permit, without other compensation, access to all or such portion of the farm, as the Secretary may prescribe, by the general public, for hunting, trapping, fishing, and hiking, subject to applicable State and Federal regulations.

"(6) PARTICIPATION AGREEMENTS.—(A) IN GENERAL.—An operator of a farm desiring to participate in the program conducted under this subsection shall execute an agreement with the Secretary providing for such participation not later than such date as the Secretary may prescribe.

"(B) MODIFICATION OR TERMINATION.—The Secretary may, by mutual agreement with producers on a farm, terminate or modify any such agreement if the Secretary determines such action necessary because of an emergency created by drought or other disaster or to prevent or alleviate a shortage in the supply of agricultural commodities.

"(f) ONE-HALF ACREAGE REDUCTION PROGRAM.—(1) IN GENERAL.—The Secretary may, for each of the 1991 through 1995 crops of rice, make payments available to producers who meet the requirements of this subsection.

"(2) FORM OF PAYMENT.—Such payments may be—

"(A) made in the form of rice owned by the Commodity Credit Corporation; or

"(B) made in such other form as the Secretary is authorized by law to make.

"(3) DETERMINATION OF PAYMENT.—(A) IN GENERAL.—Payments under this subsection shall be determined in the same manner as provided in subsection (b).

"(B) QUANTITY OF RICE MADE AVAILABLE.—The quantity of rice to be made available to a producer under this subsection shall be equal in value to the payments so determined under such subsection.

"(4) ELIGIBILITY.—A producer shall be eligible to receive a payment under this subsection for a crop if the producer—

"(A) agrees to forgo obtaining a loan or purchase agreement under subsection (a);

"(B) agrees to forgo receiving payments under subsection (c);

"(C) does not plant rice for harvest in excess of the crop acreage base reduced by one-half of any acreage required to be diverted from production under subsection (f); and

"(D) otherwise complies with this section.

"(g) EQUITABLE RELIEF.—(1) LOANS AND PAYMENTS.—If the failure of a producer to comply fully with the terms and conditions of the program formulated under this section precludes the making of loans, purchases, and payments, the Secretary may, nevertheless, make such loans, purchases, and payments in such amounts as the Secretary determines are equitable in relation to the seriousness of the failure. The Secretary may consider whether the producer made a good faith effort to comply fully with the terms and conditions of such program in determining whether equitable relief is warranted under this paragraph.

"(2) DEADLINES AND PROGRAM REQUIREMENTS.—The Secretary may authorize the county and State committees established under section 8(b) of the Soil Conservation and Domestic Allotment Act (16 U.S.C. 590h(b)) to waive or modify deadlines and other program requirements in cases in which lateness or failure to meet such other requirements does not affect adversely the operation of the program.

"(h) REGULATIONS.—The Secretary may issue such regulations as the Secretary determines necessary to carry out this section.

"(i) COMMODITY CREDIT CORPORATION.—The Secretary shall carry out the program authorized by this section through the Commodity Credit Corporation.

"(j) ASSIGNMENT OF PAYMENTS.—The provisions of section 8(g) of the Soil Conservation and Domestic Allotment Act (16 U.S.C. 590h(g)) (relating to assignment of payments) shall apply to payments under this section.

"(k) EQUITABLE SHARING OF PAYMENTS.—The Secretary shall provide for the sharing of

payments made under this section for any farm among the producers on the farm on a fair and equitable basis.

"(l) TENANTS AND SHARECROPPERS.—The Secretary shall provide adequate safeguards to protect the interests of tenants and sharecroppers.

"(m) PROHIBITIONS.—(1) CROSS COMPLIANCE.—(A) IN GENERAL.—Notwithstanding any other provision of law, compliance on a farm with the terms and conditions of any other commodity program, or compliance with crop base acreage requirements for any other commodity, may not be required as a condition of eligibility for loans, purchases, or payments under this section.

"(B) CROP ACREAGE BASE INCREASES.—If a producer on a farm is participating in the rice program under this section, the crop acreage base for any other commodity for the farm may not be increased if such commodity is produced on the farm in a manner that is not in compliance with—

"(i) the terms and conditions of the applicable commodity program for such commodity; or

"(ii) the crop acreage base requirements of the applicable commodity program for such commodity.

"(2) OFFSETTING COMPLIANCE.—The Secretary may not require producers on a farm, as a condition of eligibility for loans, purchases, or payments under this section for such farm, to comply with the terms and conditions of the rice program with respect to any other farm operated by such producers.".

SEC. 302. MARKETING CERTIFICATES.

(a) IN GENERAL.—Notwithstanding any other provision of law, whenever, during the period beginning August 1, 1991, and ending July 31, 1996, the world price for a class of rice (adjusted to United States qualities and location), as determined by the Secretary of Agriculture, is below the current loan repayment rate for that class of rice, to make United States rice competitive in world markets and to maintain and expand exports of rice produced in the United States, the Commodity Credit Corporation, under such regulations as the Secretary may prescribe, shall make payments, through the issuance of negotiable marketing certificates, to persons who have entered into an agreement with the Commodity Credit Corporation to participate in the program established under this section. Such payments shall be made in such monetary amounts and subject to such terms and conditions as the Secretary determines will make rice produced in the United States available at competitive prices consistent with the purposes of this section.

(b) VALUE OF CERTIFICATES.—The value of each certificate issued under subsection (a) shall be based on the difference between—

(1) the loan repayment rate for the class of rice; and

(2) the prevailing world market price for the class of rice, as determined by the Secretary of Agriculture under a published formula submitted for public comment before its adoption.

(c) REDEMPTION OF CERTIFICATES.—The Commodity Credit Corporation, under regulations prescribed by the Secretary of Agriculture, shall assist any person receiving marketing certificates under this section in the redemption of certificates for cash, or marketing or exchange of such certificates for agricultural commodities or the products thereof owned by the Commodity Credit Corporation, at such times, in such manner, and at such price levels as the Secretary determines will best effectuate the purposes of the program established under this section. Notwithstanding any other provision of law, any price restrictions that may otherwise apply to the disposition of agricultural commodities by the Commodity Credit Corporation shall not apply to the redemption of certificates under this section.

(d) COMMODITY DESIGNATION; STORAGE COSTS.—Insofar as practicable, the Secretary shall permit owners of certificates to designate the commodities and the products thereof, including storage sites thereof, such owners would prefer to receive in exchange for certificates. If any certificate is not presented for redemption, marketing, or exchange within a reasonable number of days after the issuance of such certificate (as determined by the Secretary), reasonable costs of storage and other carrying charges, as determined by the Secretary, shall be deducted from the value of the certificate for the period beginning after such reasonable number of days and ending with the date of the presentation of such certificate to the Commodity Credit Corporation.

(e) PREVENTION OF POTENTIAL ADVERSE AFFECTS.—The Secretary of Agriculture shall take such measures as may be necessary to prevent the marketing or exchange of agricultural commodities and the products thereof for certificates under this section from adversely affecting the income of producers of such commodities or products.

(f) TRANSFERABILITY.—Under regulations prescribed by the Secretary of Agriculture, certificates issued to rice exporters under this section may be transferred to other exporters and persons approved by the Secretary.

TITLE IV—DAIRY

SEC. 401. FINDINGS.

Congress finds that—

(1) United States dairy policy should foster an economic environment in which milk producers have the opportunity to receive a satisfactory return for their labor and investment;

(2) the Federal support price should establish a minimum price which guarantees an adequate supply of wholesome milk;

(3) the Federal dairy program should foster the use of a component based price support system to more readily reflect market demands and better communicate the economic composition of milk and products derived from milk;

(4) market forces, together with appropriate adjustments in the government support price and standby milk production reduction programs, should balance supply and demand for milk and dairy products;

(5) Federal dairy support programs should embody the notion that the market for dairy products is national in scope;

(6) United States milk producers should be treated equally under Federal laws that compel the Secretary to purchase dairy products under the price support program;

(7) an alternative milk production reduction program should be used only when price changes alone will not balance supply with demand within a reasonable time period without greatly disrupting the market for dairy products; and

(8) factors such as the cost of the program, the program's effect on other agricultural segments, the economic conditions in agriculture and fiscal goals should be considered when an alternative inventory management program is considered.

SEC. 402. MILK PRICE SUPPORT AND INVENTORY MANAGEMENT PROGRAM FOR CALENDAR YEARS 1991 THROUGH 1995.

Section 201 of the Agricultural Act of 1949 (7 U.S.C. 1446) is amended by amending subsection (e) to read as follows:

"(e) Notwithstanding any other provision of law—

"(1) During the period beginning on January 1, 1991 and ending on December 31, 1995, the price of milk shall be supported as provided in this subsection.

"(2)(A) During the period beginning on January 1, 1991 and ending on December 31, 1995, the price of milk shall be supported at a rate not less than $10.10 per hundredweight for milk containing 3.67 percent milkfat.

"(B)(i) The price of milk shall be supported through the purchase of milk and the products of milk.

"(ii) The Commodity Credit Corporation price support for each of the products butter, cheese and nonfat dry milk, respectively, announced by the Corporation shall be the same for all of that product sold by persons offering to sell such product to the Corporation. Such purchase prices shall be sufficient to enable plants of average efficiency receiving such prices for dairy products to pay producers, on average, a price not less than the rate of price support for milk in effect during such twelve-month period under this paragraph.

"(iii) In carrying out this section, the Secretary shall offer to purchase butter for not more than an amount per pound of $0.9825 in fiscal year 1991, $0.8150 in fiscal years 1992 and 1993, and $0.7875 in fiscal years 1994 and 1995, and shall offer to purchase nonfat dry milk at such a level that results in milk being supported at the level prescribed in subparagraph (A) as adjusted under paragraph (3), except that the Secretary may allocate the rate of price support between the purchase prices for nonfat dry milk and butter in such other manner as the Secretary determines will result in the lowest level of expenditures by the Commodity Credit Corporation and shall notify the Committee on Agriculture of the House of Representatives and the Committee on Agriculture, Nutrition, and Forestry of the Senate of such determination.

"(3)(A)(i) If for any of the fiscal years 1992 through 1996, the level of purchases of milk and the products of milk by the Commodity Credit Corporation under this subsection (less sales under section 407 for unrestricted use), as estimated by the Secretary on August 1 of the preceding fiscal year, will exceed 5 billion pounds, milk equivalent, total milk solids basis, the Secretary shall decrease by an amount per hundredweight of at least $0.25 but not more than $0.50 the rate of price support for milk in effect for such fiscal year.

"(ii) The Secretary shall, by August 1 of the preceding fiscal year, notify the Committee on Agriculture of the House of Representatives and the Committee on Agriculture, Nutrition, and Forestry of the Senate of any proposed decrease in price support under this subparagraph.

"(B)(i) If for any of the fiscal years 1992 through 1996, the level of purchases of milk and the products of milk by the Commodity Credit Corporation under this subsection (less sales under section 407 for unrestricted use), as estimated by the Secretary on August 1 of the preceding fiscal year, will not exceed 3.5 billion pounds, milk equivalent, total milk solids basis, the Secretary shall increase by an amount per hundred-

weight of at least $0.25 the rate of price support for milk in effect for such fiscal year.

"(ii) The Secretary shall, by August 1 of the preceding fiscal year, notify the Committee on Agriculture of the House of Representatives and the Committee on Agriculture, Nutrition, and Forestry of the Senate of any proposed increase in price support under this subparagraph.

"(C) If for any of the fiscal years 1992 through 1996, the level of purchases of milk and the products of milk by the Commodity Credit Corporation under this subsection (less sales under section 407 for unrestricted use), as estimated by the Secretary on August 1 of the preceding fiscal year, will be less than 5 billion pounds, milk equivalent, total milk solids basis, but more than 3.5 billion pounds of milk equivalent, total milk solids basis, the Secretary shall not decrease the rate of price support for milk in effect for such fiscal year.

"(D) Notwithstanding any other provision of this subsection, in no event shall the price of milk be supported at less than $10.10 per hundredweight.

"(E)(i) As used in this subsection, the term 'milk equivalent, total milk solids basis', of milk and the products of milk purchased by the Commodity Credit Corporation shall be equal to the weighted-average of the milk equivalents, as computed on a milkfat basis, and on a milk solids not fat basis, of such products, with weighting factors equal to not more than 40 percent for the milk equivalent, milkfat basis, and not more than 70 percent for the milk equivalent, milk solids not fat basis. Such weighting factors shall total 100 percent.

"(ii) In estimating the level of purchases of milk and the products of milk under this subsection, the Secretary shall deduct the amount, if any, by which the level of imports into the United States of milk and the products of milk during the most recent calendar year exceeds the annual average level of imports into the United States of milk and the products of milk during the period January 1, 1986, through December 31, 1990, milk equivalent, total milk solids basis.

"(4)(A) Within 180 days of enactment of this subsection, the Secretary shall submit to the Committee on Agriculture of the House of Representatives and the Committee on Agriculture, Nutrition, and Forestry of the Senate, a report that—

"(i) recommends an inventory management program to be implemented when Commodity Credit Corporation purchases of milk and the products of milk are projected to exceed 7 billion pounds of milk equivalent, total milk solids basis, in any fiscal year;

"(ii) evaluates two-tier pricing systems, or a plan to achieve equivalent results;

"(iii) does not evaluate any termination or diversion program;

"(iv) does not evaluate the use of assessments as a mechanism to decrease price support levels; and

"(v) seeks, among other things, methods to reduce any excessive surplus of milk, lower costs to the Commodity Credit Corporation, and to provide for the orderly marketing of surplus milk.

"(B) The report submitted under subparagraph (A) shall include, but is not limited to, the following topics:

"(i) the difficulties and possible resolutions associated with the disposition and orderly marketing of milk priced at a price lower than the world market price through various marketing channels including export markets and domestic donation feeding programs;

"(ii) the establishment of a Class IV price for milk;

"(iii) the impact of a Class IV system on the Federal milk marketing order system;

"(iv) the impact of a system similar to the Class IV system on non-Federal milk marketing order milk; and

"(v) plans to achieve desired results other than through a two-tiered pricing system.

"(C)(i) If for any of the fiscal years 1992 through 1995, the level of purchases of milk and the products of milk by the Commodity Credit Corporation under this subsection (less sales under section 407 for unrestricted use), as estimated by the Secretary on August 1 of the preceding fiscal year, will exceed 6 billion pounds of milk equivalent, total milk solids basis, the Secretary shall, except as provided in clause (ii), implement for such fiscal year the inventory management program recommended in subparagraph (A).

"(ii) The Secretary shall not implement the inventory management program recommended in subparagraph (A) before the later of January 1, 1992, or the date 6 months after the submission of the report required under subparagraph (A).

"(iii) If the Secretary is required to implement during a fiscal year an inventory management program, the Secretary shall, by August 1 of the preceding fiscal year, notify the Committee on Agriculture of the House of Representatives and the Committee on Agriculture, Nutrition, and Forestry of the Senate of the type of inventory management program to be implemented.

"(iv) Not later than January 1 of any fiscal year that an inventory management program is in effect, the Secretary shall submit to the Committee on Agriculture of the House of Representatives and the Committee on Agriculture, Nutrition, and Forestry of the Senate a certification, including a statement of facts in support of such certification, that such inventory management program will achieve a reduction in the production or marketing of milk for commercial purposes by program participants such that purchases of milk and the products of milk by the Commodity Credit Corporation, as estimated by the Secretary, for the fiscal year will not be greater than 7 billion pounds, milk equivalent, total milk solids basis.

"(D) If the Secretary is required to establish and carry out an inventory management program for milk, the Secretary shall not offer to enter into a contract with any producer of milk in the United States for the purpose of selling for slaughter any dairy cattle in which such producer owns an interest.".

SEC. 403. MILK MANUFACTURING MARGIN ADJUSTMENT.

No State may use a greater allowance than that provided for in Federal programs to establish a Grade A price for milk for manufacturing butter, nonfat dry milk, or cheese.

SEC. 404. MINNESOTA-WISCONSIN PRICE SERIES REFORM.

(a) INITIATE REFORM.—Within 60 days of enactment of this Act, the Secretary of Agriculture shall commence to accept alternative pricing formula recommendations, as they may relate to the Minnesota-Wisconsin price series used to determine the minimum prices paid under milk marketing orders, in order to amend such milk marketing orders authorized under section 8c of the Agricultural Adjustment Act, reenacted with amendments by the Agricultural Marketing Agreement Act of 1937. Among the alternative pricing formulas to be considered by the Secretary shall be a price series based on prices paid by milk processors for Grade A milk and manufacturing grade milk that is used in the manufacture of dairy products.

(b) AVAILABILITY OF DATA.—The Secretary shall compile and make available to the public the historical and current data used to compare the alternative pricing formulas submitted and recommended as provided in subsection (a) with the existing Minnesota-Wisconsin price series.

(c) DEADLINE.—(1) Not later than October 1, 1991, the Secretary shall publish in the Federal Register a proposed replacement price series and shall give notice and 30 days for public comment on such proposal. At the end of the comment period the Secretary shall publish a final rule and report such rule to the Committee on Agriculture of the House of Representatives and the Committee on Agriculture, Nutrition, and Forestry of the Senate. Not less than 30 legislative days after publication of the final rule, the Secretary shall implement the new Minnesota-Wisconsin price series in the federal milk marketing orders as provided under section 8c of the Agricultural Adjustment Act, reenacted with amendments by the Agricultural Marketing Agreement Act of 1937.

(2) For purposes of this section "legislative day" shall mean a day on which either House of Congress is in session.

SEC. 405. HEARINGS ON FEDERAL MILK MARKETING ORDERS.

The Secretary of Agriculture shall conclude the national hearings announced by the Secretary on March 29, 1990, regarding possible changes in the pricing provisions of federal milk marketing orders in order to effect any changes in the federal orders setting minimum prices that milk processors must pay for Grade A milk received from producers, by January 1, 1992.

SEC. 406. REPORT OF DAIRY PRODUCT PURCHASES.

The Secretary of Agriculture shall make available to the public quarterly evaluations of the acquisition and disposal of Commodity Credit Corporation purchases of dairy products.

SEC. 407. APPLICATION OF SUPPORT PRICE FOR MILK.

For purposes of supporting the price of milk under section 201(e) of the Agricultural Act of 1949 (7 U.S.C. 1446(e)), the Secretary of Agriculture may not take into consideration any market value of whey.

SEC. 408. APPLICATION OF AMENDMENTS.

The amendments made by this title shall not affect any liability of any person under section 201 of the Agricultural Act of 1949 (7 U.S.C. 1446) as in effect before the date of the enactment of this Act.

SEC. 409. ADJUSTMENTS FOR SEASONAL PRODUCTION; HEARINGS ON AMENDMENTS; DETERMINATION OF MILK PRICES.

Section 101(b) of the Agriculture and Food Act of 1981 (7 U.S.C. 608c note) is amended by striking "1990"and inserting "1995".

SEC. 410. TRANSFER OF DAIRY PRODUCTS TO THE MILITARY AND VETERANS HOSPITALS.

Subsections (a) and (b) of section 202 of the Agricultural Act of 1949 (7 U.S.C. 1446a) are each amended by striking "1990" and inserting "1995".

SEC. 411. EXTENSION OF THE DAIRY INDEMNITY PROGRAM.

Section 3 of the Act entitled "An Act to provide indemnity payments to dairy farmers" (7 U.S.C. 450l), approved August 13, 1968, is amended by striking "1990" and inserting "1995".

SEC. 412. EXPORT SALES OF DAIRY PRODUCTS.

(a) IN GENERAL.—In each of the fiscal years 1991 through 1995, the Secretary of Agriculture shall sell for export, at such prices as the Secretary determines appropriate, not less than 150,000 metric tons of dairy products owned by the Commodity Credit Corporation, of which not less than 100,000 metric tons shall be butter and not less than 20,000 metric tons shall be cheese, if that disposition of such commodities will not interfere with the usual marketings of the United States nor disrupt world prices of agricultural commodities and normal patterns of commercial trade. Notwithstanding any other provision of this section, the Secretary of Agriculture shall sell for export in fiscal year 1991 at least 184 million pounds of butter without regard for the effect of such sale upon world prices of agricultural commodities or normal patterns of commercial trade.

(b) SALES.—Such sales shall be made through the Commodity Credit Corporation.

(c) REPORT.—Through September 30, 1995, the Secretary shall report semiannually to the Committee on Agriculture of the House of Representatives and the Committee on Agriculture, Nutrition, and Forestry of the Senate on the volume of sales made under this section.

SEC. 413. COMPONENT PRICING OF MILK.

Section 8c(5)(B) of the Agricultural Adjustment Act (7 U.S.C. 608c(5)(B)), reenacted with amendments by the Agricultural Marketing Agreement Act of 1937, is amended by striking out "and" at the end of clause (ii)(d) and adding before the final period at the end of the clause, the following: "and, (f) a further adjustment, equitably to apportion the total value of milk purchased by any handler or by all handlers among producers on the basis of the milk components contained in their marketings of milk."

SEC. 414. ADJUSTMENTS IN PAYMENTS BY HANDLERS.

Section 8c(5) of the Agricultural Adjustment Act (7 U.S.C. 608c(5)), reenacted with amendments by the Agricultural Marketing Agreement Act of 1937, is amended by adding at the end the following:

"(L) Providing that adjustments in payments by handlers under paragraph (A) need not be the same as adjustments to producers under paragraph (B) with regard to adjustments authorized by subparagraph (A) (2) and (3) and clauses (B)(ii) (b), (c), and (d).".

SEC. 415. DAIRY EXPORT INCENTIVE PROGRAM.

Section 153 of the Food Security Act of 1985 (15 U.S.C. 713a-14) is amended by striking "September 30, 1990" and inserting "December 31, 1995".

SEC. 416. AMENDMENT TO THE PACKERS AND STOCKYARDS ACT, 1921, TO PROVIDE FOR THE ESTABLISHMENT OF TRUSTS FOR THE BENEFIT OF MILK PRODUCERS.

(a) DEFINITIONS.—Section 2(a) of the Packers and Stockyards Act, 1921 (7 U.S.C. 182) is amended—

(1) in paragraph (10) by striking "and" at the end;

(2) by redesignating paragraph (11) as paragraph (15), and

(3) by inserting after paragraph (10) the following:

"(11) The term 'milk' means cow's milk;

"(12) The term 'milk product' means any product or by product from processing milk;

"(13) The term 'milk producer' means any person who produces milk;

"(14) The term 'handler' means any person who, in commerce, receives or otherwise acquires milk, processes, prepares or arranges for marketing, or markets the milk; and".

(b) STATUTORY TRUST ESTABLISHED.—The Packers and Stockyards Act, 1921 (7 U.S.C. 181 et seq.) is amended by inserting after section 207 the following:

"SEC. 208. STATUTORY TRUST ESTABLISHED; MILK.

"(a) PROTECTION OF PUBLIC INTEREST FROM INADEQUATE FINANCING ARRANGEMENTS.—(1) It is hereby found that a burden on commerce in milk, and an obstruction to commerce in milk is caused by financing arrangements under which handlers encumber, give lenders security interest in, or have liens placed on milk purchased or received by a handler, on inventories of milk, on receivables or proceeds from milk, or on products derived from milk when payment is not made for the milk. Such arrangements are contrary to the public interest.

"(2) This section is intended to remedy such burden on commerce in milk and obstruction to commerce in milk and to protect the public interest.

"(b) TRUSTS.—All milk purchased or received by a handler, all inventories of milk or milk products, and all receivables or proceeds from milk or milk products, shall be held by such handler in trust for the benefit of all unpaid milk producers of such milk or milk products or unpaid handlers until full payment has been received by such unpaid milk producer or handler.

"(c) EFFECT OF DISHONORED INSTRUMENTS.—Payment shall not be considered to have been made if the milk producer or handler receives a payment instrument which is dishonored.

"(d) PRESERVATION OF TRUST BENEFITS BY MILK PRODUCER OR HANDLER.—The unpaid milk producer or unpaid handler shall lose the benefit of such trust if such milk producer or handler has not preserved his trust under this section by giving written notice to the debtor handler and by filing such notice with the Secretary—

"(1) within thirty days of the final date for making a payment for milk when a payment instrument has not been received, or

"(2) within fifteen business days after the milk producer or handler has received notice if the payment instrument promptly presented for payment has been dishonored.

"(e) DISTRICT COURTS.—The several district courts of the United States are vested with jurisdiction specifically to entertain—

"(1) actions by trust beneficiaries to enforce payment from the trust; and

"(2) actions by the Secretary to prevent and restrain dissipation of the trust.".

(c) RECORDS AND RESPONSIBILITY.—(1) Section 401 of the Packers and Stockyards Act, 1921 (7 U.S.C. 221), is amended by inserting ", milk handler" after "any live poultry dealer".

(2) Section 403 of the Packers and Stockyards Act, 1921 (7 U.S.C. 223), is amended by inserting ", milk handler" after "any live poultry dealer".

(d) EFFECTIVE DATE.—The amendments made by this section shall take effect 90 days after the date of the enactment of this Act.

(e) AUTHORIZATION.—Such sums are authorized to be appropriated as may be necessary for the administration of this section.

SEC. 417. STATUS OF PRODUCER HANDLERS.

The legal status of producer handlers of milk under the Agricultural Adjustment Act (7 U.S.C. 601 et seq.), reenacted with amendments by the Agricultural Marketing Agreement Act of 1937, shall be the same after the amendments made by this title take effect as it was before the effective date of such amendments.

TITLE V—WOOL AND MOHAIR

SEC. 501. EXTENSION OF PRICE SUPPORT PROGRAM.

Section 703 of the National Wool Act of 1954 (7 U.S.C. 1782) is amended by—

(1) striking "1990" in subsection (a) and inserting "1995"; and

(2) striking "1990" in subsection (b) and inserting "1995".

SEC. 502. PROMOTION PROGRAM.

Section 708 of the National Wool Act of 1954 (7 U.S.C. 1787) is amended by striking "at least two-thirds" wherever it appears and inserting "a majority" and by striking "two-thirds" wherever it appears and inserting "a majority".

SEC. 503. PAYMENT LIMITATION.

Section 704 of the National Wool Act of 1954 (7 U.S.C. 1783) is amended by—

(1) inserting immediately after the section designation "(a) USE OF PAYMENTS.—"; and

(2) adding at the end the following new subsection:

"(b) PAYMENT LIMITATION.—(1) In general.—The total amount of payments that any one producer is entitled to receive under this Act for any marketing years shall not exceed—

"(1) $200,000 in the 1991 marketing year;

"(2) $167,000 in the 1992 marketing year;

"(3) $133,000 in the 1993 marketing year; and

"(4) $100,000, beginning with marketing year 1994.

"(2) ENFORCEMENT.—For purposes of determining who is producer referred to in paragraph (1), sections 10001(5), 1001A, and 1001B of the Food Security Act of 1985 (7 U.S.C. 1308(5), 1308-1, and 1308-2, respectively) shall apply in the same manner as such sanctions apply for purposes of determining who is a person under such sections.

TITLE VI—HONEY

Subtitle A—Beekeeping Stabilization

SEC. 601. SHORT TITLE.

This subtitle may be cited as the "Beekeeping Industry Stabilization Act of 1990".

SEC. 602. FINDINGS AND POLICY.

(a) FINDINGS.—Congress finds that—

(1) honeybees serve a vital function for United States agriculture by pollinating millions of acres of fruits, vegetables, oilseeds, and legume seed crops annually;

(2) pollination by honeybees adds an estimated $9.7 billion annually to the value of the crops pollinated in the United States and has many additional indirect benefits to agriculture and horticulture, and such pollination has increased in importance to farmers in recent years as urbanization and other pressures on the environment have lessened the availability of other natural pollinators;

(3) while the value of honeybees to agriculture as pollinators far exceeds the value of the honey produced by bees, the income from honey production is essential to most beekeepers' operations since their income from honey production far exceeds the fees they receive for pollination services;

(4) honey production provides the incentive for beekeepers to maintain strong colonies of bees during the many months of the year that bees are not involved in commercial pollination; and

(5) the honey price support program has enabled beekeepers to continue operations and provide vital pollinating services while also assuring consumers of a stable supply of nutritious honey at reasonable prices.

SEC. 603. HONEY PRICE SUPPORT.

(a) Effective only for the 1991 through 1995 crops of honey, subsection (b) of sec-

tion 201 of the Agricultural Act of 1949 (7 U.S.C. 1446) is amended to read as follows:

"(b)(1) For each of the 1991 through 1995 crops of honey, the price of honey shall be supported through loans, purchases, or other operations at not less than 53.8 cents per pound.

"(2) The Secretary may permit a producer to repay a loan made to the producer under this subsection for a crop at a level that is the lesser of—

"(A) the loan level determined for such crop; or

"(B) such level as the Secretary determines will—

"(i) minimize the number of loan forfeitures;

"(ii) not result in excessive total stocks of honey;

"(iii) reduce the costs incurred by the Federal Government in storing honey; and

"(iv) maintain the competitiveness of honey in the domestic and export markets.

"(3)(A) If the Secretary determines that a person has knowingly pledged adulterated or imported honey as collateral to secure a loan made under this subsection, such person, in addition to any other penalty or sanction prescribed by law, shall be ineligible for a loan, purchase, or payment under this subsection for the 3 crop years succeeding such determination.

"(B) For purposes of subparagraph (A), honey shall be considered adulterated if—

"(i) any substance has been substituted wholly or in part for such honey;

"(ii) such honey contains a poisonous or deleterious substances that may render such honey injurious to health, except that in any case in which such substance is not added to such honey, such honey shall not be considered adulterated if the quantity of such substance in or on such honey does not ordinarily render it injurious to health; or

"(iii) for any other reason, such honey is unsound, unhealthy, unwholesome, or otherwise unfit for human consumption.".

(b) Section 405A of the Agricultural Act of 1949 (7 U.S.C. 1425A) is amended by striking "does not exceed $250,000" and inserting the following: "does not, when combined with any payments for such crop of honey described in section 1001(2) of the Food Security Act of 1985, exceed—

"(1) $200,000 in crop year 1991;

"(2) $167,000 in crop year 1992;

"(3) $133,000 in crop year 1993; and

"(4) $100,000, beginning with crop year 1994.".

Subtitle B—Research, Promotion, and Consumer Information

SEC. 611. SHORT TITLE.

This title may be cited as the "Honey Research, Promotion, and Consumer Information Act Amendments of 1990".

SEC. 612. DEFINITIONS.

Section 3 of the Honey Research, Promotion, and Consumer Information Act (7 U.S.C. 4602) is amended by—

(1) in paragraph (8)—

(A) striking "or who acts" and inserting "or acts"; and

(B) inserting before the period at the end the following: "and who is listed in the import records as the importer of record for such honey or honey products"; and

(2) adding at the end the following new paragraph:

"(18) The term 'exporter' means any person who exports honey or honey products from the United States.".

SEC. 613. REQUIRED TERMS IN ORDERS.

Section 7 of the Honey Research, Promotion, and Consumer Information Act (7 U.S.C. 4606) is amended—

(1) in subsection (c)—

(A) by amending paragraph (2)(C) to read as follows:

"(C) two members who are either importers or exporters, of which at least one shall be an importer, appointed from nominations submitted by the Committee from recommendations by industry organizations representing importer and exporter interests;";

(B) in the matter following paragraph (2)(E), by striking "nominate an alternate or alternates" and inserting "submit nominations for an alternate";

(C) at the end of paragraph (2), by adding the following sentence: "However, no producer-packer who, during any three of the preceding five years, purchased for resale more honey than such producer-packer produced shall be eligible for nomination or appointment to the Honey Board as a producer described in subparagraph (A) or as an alternate to such producer."; and

(D) in paragraph (4), inserting before the period at the end the following: ", except that if, as a result of the adjustment of the boundaries of the regions established under paragraph (2)(A), a producer member or alternate is no longer from the region from which such person was appointed, such member or alternate may serve out the term for which such person was appointed"; and

(2) by adding at the end the following new subsection:

"(k) Any patent on any product, copyright on any material, or any invention, product formulation or publication developed through the use of funds collected by the Honey Board shall be the property of the Honey Board. The funds generated from any such patent, copyright, invention, product formulation, or publication shall inure to the benefit of the Honey Board.".

SEC. 614. ASSESSMENTS.

(a) Assessment Rate and Exemptions.—Section 7 of the Honey Research, Promotion, and Consumer Information Act (7 U.S.C. 4606) is further amended—

(1) in subsection (e)(1) by striking the second and third sentences and inserting the following: "The assessment rate shall be $0.01 per pound, with payment to be made in the manner described in section 9."; and

(2) by striking subsection (e)(2) and inserting the following:

"(2)(A) Honey that is consumed at home by the producer or importer or donated by the producer or importer to a nonprofit, government, or other entity, as determined appropriate by the Secretary, rather than sold shall be exempt from assessment under the order, except that donated honey that later is sold in a commercial outlet by a donee or a donee's assignee shall be subject to assessment on such sale.

"(B)(i) A producer, producer-packer, or importer who produces or imports during any year less than 6,000 pounds of honey shall be eligible for an exemption in such year from paying an assessment on honey such person distributes directly through local retail outlets, as determined by the Secretary, during such year.

"(ii) In order to claim an exemption under this subparagraph, a person shall submit an application to the Honey Board stating the basis on which the person claims the exemption for such year.

"(iii) If, after a person claims an exemption from assessments for any year under this subparagraph, such person no longer meets the requirements of this subparagraph for an exemption, such person shall file a report with the Honey Board in the form and manner prescribed by the Board and pay an assessment on or before March 15 of the subsequent year on all honey produced or imported by such person during the year for which the person claimed the exemption.

"(3) If a producer, producer-packer, or importer does not pay any assessments under this Act due to the applicability to such person of the exemptions from assessments provided in paragraph (2), then such producer, producer-packer, or importer shall not be considered a producer or importer for purposes of voting in any referendum conducted under this Act during the period the person's exemption from all assessments is in effect.".

(b) COLLECTION OF ASSESSMENTS; REFUNDS.—Section 9 of the Honey Research, Promotion, and Consumer Information Act (7 U.S.C. 4608) is amended—

(1) in subsection (a), by striking "and (e)" and inserting "(e), and (i)";

(2) by amending subsection (d) to read as follows:

"(d) In any case in which a loan is made with respect to honey under the honey price support loan program established under the Agricultural Act of 1949, or successor statute, the Secretary shall provide for the assessment to be deducted from the disbursement of any loan funds made to the producer and for the amount of such assessment to be forwarded to the Honey Board. The Secretary shall provide for the producer to receive a statement of the amount of the assessment deducted from the loan funds promptly after each occasion when an assessment is deducted from any such loan funds under this subsection.";

(3) in subsection (f), by inserting after "assessments" the following: ", and persons receiving an exemption from assessments under section 7(e)(2),";

(4) in subsection (h), by—

(A) striking "Any" and inserting "(1)(A) Except as otherwise provided in paragraph (2), any";

(B) striking "to importers" and inserting "an importer";

(C) striking "from importers" and inserting "from such importer"; and

(D) adding at the end the following:

"(B) A producer that has obtained a honey price support loan under the Agricultural Act of 1949, or successor statute, may obtain a refund if the producer has submitted to the Honey Board the statement received under subsection (d) of the amount of assessment deducted from the loan funds and has otherwise complied with this subsection, even though the loan with respect to which the assessment was collected may still be outstanding and final settlement has not been made.

"(2) With respect to the order in effect on the date of the enactment of this paragraph, following the referendum on such order required under section 13(b)(2), a producer or importer may obtain a refund of an assessment under such order as provided in paragraph (1) only if the Secretary determines that the proposal to terminate refunds under the order is defeated in such referendum."; and

(5) by inserting after subsection (h) the following:

"(i) If a first handler or the Secretary fails to collect an assessment from a producer under this section, the producer shall be responsible for the payment of the assessment to the Honey Board.".

SEC. 615. FIRST RECONFIRMATION REFERENDUM.

(a) IN GENERAL.—Section 13(b) of the Honey Research, Promotion, and Consumer Information Act (7 U.S.C. 4612) is amended by—

(1) striking "Five" and inserting "(1) Except as otherwise provided in paragraph (2), five";

(2) striking "continuation, termination," and inserting "termination"; and

(3) inserting at the end the following:

"(2)(A) In lieu of the first referendum otherwise required to be conducted under paragraph (1) for the order in effect on the date of the enactment of this paragraph, the Secretary shall conduct a referendum to determine if honey producers and importers favor—

"(i) the continuation of the order; and

"(ii) termination of the authority for producers and importers to obtain a refund of assessments under section 9(h)(1).

The referendum shall be conducted at the time the first referendum otherwise required under paragraph (1) would have been conducted, except for the operation of this paragraph.

"(B)(i) The Secretary shall terminate such order at the end of the marketing year during which such referendum is conducted, if the Secretary determines that termination of the order is approved or favored by not less than a majority of the producers and importers voting in the referendum and that the producers and importers comprising this majority produce and import more than 50 percent of the volume of honey produced and imported by those voting in the referendum.

"(ii) If the Secretary determines that termination of the authority for producers and importers to receive refunds of assessments under section 9(h)(1) is favored or approved by a majority of the producers and importers voting in such referendum and that the producers and importers comprising this majority produce and import more than 50 percent of the volume of honey produced and imported by those voting in the referendum, then the Secretary shall amend such order as necessary to reflect the vote of producers and importers. Such amendment to the order shall become effective on the date it is issued, but in no case more than 180 days after the conduct of such referendum.".

(b) CONFORMING AMENDMENT.—Section 13(d) of the Honey Research, Promotion, and Consumer Information Act (7 U.S.C. 4612) is amended by—

(1) striking "such order" and inserting "an order";

(2) inserting "in which a referendum is conducted under subsection (b) or (c)" after "marketing year"; and

(3) striking "of the order".

SEC. 616. INVESTIGATIONS AND POWER TO SUBPOENA.

The Honey Research, Promotion, and Consumer Information Act is amended by inserting after section 11 (7 U.S.C. 4610) the following new section:

"INVESTIGATIONS AND POWER TO SUBPOENA

"SEC. 11A. (a) IN GENERAL.—The Secretary may make such investigations as the Secretary deems necessary—

"(1) for the effective administration of this Act; or

"(2) to determine whether a person has engaged or is engaging in any act or practice that constitutes a violation of any provision of this Act, or of any order, rule, or regulation issued under this Act.

"(b) POWER TO SUBPOENA.—(1) INVESTIGATIONS.—For the purpose of an investigation made under subsection (a), the Secretary is authorized to administer oaths and affirmations and to issue a subpoena to require the production of any records that are relevant to the inquiry. The production of any such records may be required from any place in the United States.

"(2) ADMINISTRATIVE HEARINGS.—For the purpose of an administrative hearing held under section 10 or section 11, the presiding officer is authorized to administer oaths and affirmations, subpoena witnesses, compel their attendance, take evidence, and require the production of any records that are relevant to the inquiry. Such attendance of witnesses and the production of any such records may be required from any place in the United States.

"(c) AID OF COURTS.—In case of contumacy by, or refusal to obey a subpoena issued to, any person, the Secretary may invoke the aid of any court of the United States within the jurisdiction of which such investigation or proceeding is carried on, or where such person resides or carries on business, in order to enforce a subpoena issued by the Secretary under subsection (b). The court may issue an order requiring such person to comply with such a subpoena.

"(d) CONTEMPT.—Any failure to obey such order of the court may be punished by such court as a contempt thereof.

"(e) PROCESS.—Process in any such case may be served in the judicial district in which such person resides or conducts business or wherever such person may be found.

"(f) HEARING SITE.—The site of any hearings held under this section shall be within the judicial district where such person resides or has a principal place of business.".

SEC. 617. CONFORMING AMENDMENT TO ORDER.

Notwithstanding any provision of the Honey Research, Promotion, and Consumer Information Act (7 U.S.C. 4601 et seq.), the Secretary of Agriculture, after notice and opportunity for public comment, shall issue an amendment to the order in effect under such Act on the date of the enactment of this Act to conform such order to the amendments made by this title, which shall become effective on the date of the publication of such amendment to the order in the Federal Register without a referendum thereon (except for the referendum specifically provided for under section 05). The Secretary shall issue such amendment to the order in final form not later than 150 days after the date of the enactment of this Act.

TITLE VII—OILSEEDS

Subtitle A—Oilseed Price Support

SEC. 701. OILSEED PRICE SUPPORT.

Effective only for the 1991 through 1995 crops of oilseeds, including soybeans, sunflower, canola, rapeseed, safflower, flaxseed, and mustard seed, section 201 of the Agricultural Act of 1949 (7 U.S.C. 1446) is amended by—

(1) inserting after "tung nuts," in the first sentence "oilseeds (including soybeans, sunflower, canola, rapeseed, safflower, flaxseed, and mustard seed)," and

(2) amending subsection (g) to read as follows:

"(g)(1)(A) The Secretary shall support the price of soybeans, sunflowers, canola, rapeseed, safflower, flaxseed, mustard seed, and any other oilseeds the Secretary may designate, through loans and purchases in each of the 1991 through 1995 marketing years as provided in this subsection.

"(B) Except as provided in paragraph (2), the level of price support —

"(i) in the case of the 1991 and 1992 crops of soybeans shall not be less than $5.25 per bushel; and

"(ii) in the case of the 1991 through 1995 crops of sunflower, canola, rapeseed, safflower, flaxseed, mustard seed, and other oilseeds the Secretary may designate, shall be set for each such oilseed at such level as the Secretary determines is fair and reasonable in relation to the level of price support available for soybeans, including any adjustment made pursuant to paragraph (2), but, except in the case of cottonseed, in no event less than the level established for soybeans on a per-pound basis for the same crop year.

"(2) In the case of each of the 1993 through 1995 crops of soybeans and other oilseeds for which a price support program is in effect under this subsection, if the Secretary estimates for the marketing year for such crop that the ratio of ending stocks of soybeans or such other oilseeds to total use for the marketing year will be—

"(A) more than 25 percent, the Secretary may reduce the level of price support determined under paragraph (1)(B) for soybeans or such other oilseeds for the marketing year by an amount not to exceed 5 percent in any year.

"(B) more than 20 percent but not more than 25 percent, the Secretary may not reduce the level of price support determined under paragraph (1)(B) for soybeans or such other oilseeds for the marketing year.

"(C) equal to or less than 20 percent, the Secretary shall increase the level of price support determined under paragraph (1)(B) for soybeans or such other oilseed for the marketing year by 5 percent in any year. In no case may the level of price support for the 1993 crop of soybeans be more than $5.40 per bushel.

Any change in the level of price support for soybeans or such other oilseed under this paragraph shall not be considered in determining such level of price support for subsequent years.

"(3)(A) If the Secretary adjusts the level of price support for soybeans or other oilseeds under paragraph (2), the Secretary shall submit to the Committee on Agriculture of the House of Representatives and the Committee on Agriculture, Nutrition, and Forestry of the Senate a report—

"(i) certifying such adjustment as necessary to prevent the build-up of stocks or to encourage production; and

"(ii) containing a description of the need for such adjustment.

"(B) Such adjustment shall become effective no earlier than 60 calendar days after the date of submission of such report to such committees.

"(4)(A) The Secretary shall permit a producer to repay a loan made under this subsection for any crop of soybeans, sunflower, canola, rapeseed, safflower, flaxseed, mustard seed, and other oilseeds that the Secretary may designate, at a level that is the lesser of—

"(i) the loan level determined for such crop; or

"(ii) the prevailing world market price for such crop, as determined by the Secretary.

"(B) The Secretary shall prescribe by regulation—

"(i) a formula to define the prevailing world market price for such crops; and

"(ii) a mechanism by which the Secretary shall periodically announce the prevailing world market price for such crops.

"(5)(A) The Secretary shall, for each of the 1991 through 1995 crops of soybeans, sunflower, canola, rapeseed, safflower, flaxseed, mustard seed, and other oilseeds the Secretary may designate, make payments available to producers who, although eligible to obtain a loan under paragraph (1), agree to forgo obtaining such loan in return for such payments.

"(B) A payment under this paragraph shall be computed by multiplying—

"(i) the loan payment rate; by

"(ii) the quantity of such crop that the producer is eligible to place under loan.

"(C) For purposes of this paragraph, the quantity of such crops eligible to be placed under loan may not exceed the product obtained by multiplying—

"(i) the individual farm acreage for such crops actually harvested; by

"(ii) the actual yield per harvested acre established for the farm.

"(D) For purposes of this paragraph, the loan payment rate shall be the amount by which—

"(i) the loan level determined for such crop under paragraph (1) exceeds

"(ii) the level at which a loan may be repaid under paragraph (4).

"(E)(i) The Secretary may make payments under this subsection available in the form of certificates redeemable for any agricultural commodity owned by the Commodity Credit Corporation.

"(ii) The Secretary shall make certificates available under clause (i) in such a manner so as to minimize the accumulation of oilseeds stocks.

"(6) For purposes of this subsection, the marketing year for—

"(A) soybeans, sunflower, or safflower is the 12-month period beginning on September 1 of the calendar year in which the crop of the commodity is harvested;

"(B) canola and rapeseed is the 12-month period beginning on May 1 of the calendar year in which the crop of the commodity is harvested; and

"(C) flaxseed, mustard seed, and any other oilseeds the Secretary may designate is such period as prescribed by the Secretary by regulation.

"(7)(A) The Secretary shall make a preliminary announcement of the support price for each crop—

"(i) of soybeans, sunflower, and safflower not later than November 1 preceding the beginning of the marketing year for the crop,

"(ii) of canola and rapeseed not later than July 1 preceding the beginning of the marketing year for the crop, and

"(iii) of flaxseed, mustard seed, and other oilseeds the Secretary may designate not later than 10 months preceding the beginning of the marketing year for such crop.

"(B) The Secretary shall make a final announcement of the level of price support for each crop of soybeans, sunflower, canola, rapeseed, safflower, flaxseed, mustard seed, and other oilseeds the Secretary may designate not later than 30 days after the beginning of the marketing year for such crop. The final support price may not be less than the support price provided for in the preliminary announcement.

"(8) Loans for each crop of soybeans, sunflower, canola, rapeseed, safflower, flaxseed, mustard seed, and other oilseeds the Secretary may designate shall be made available not earlier than the beginning of the marketing year for the crop and shall mature nine months from the date of the loan.

"(9) Notwithstanding any other provision of law the Secretary may not require participation in any production adjustment program for any commodity as a condition of eligibility for price support under this subsection.".

Subtitle B—Soybean Promotion, Research and Consumer Information

SECTION 711. SHORT TITLE AND TABLE OF CONTENTS.

(a) This subtitle may be cited as the "Soybean Promotion, Research, and Consumer Information Act".

(b) TABLE OF CONTENTS.—The table of contents for this subtitle is as follows:

Sec. 711. Short title and table of contents.
Sec. 712. Findings and declaration of policy.
Sec. 713. Definitions.
Sec. 714. Issuance and amendments of orders.
Sec. 715. Required terms in orders.
Sec. 716. Referenda.
Sec. 717. Petition and review.
Sec. 718. Enforcement.
Sec. 719. Investigations; power to subpoena; aid of courts.
Sec. 720. Administrative provisions.
Sec. 721. Regulations.
Sec. 722. Authorization.

SEC. 712. FINDINGS AND DECLARATION OF POLICY.

(a) FINDINGS.—Congress finds that—

(1) soybeans are an important source of nutritious foods that are a valuable part of the human diet and are an important feedstuff for the livestock industry;

(2) the production of soybeans plays a significant role in the economy of the United States in that soybeans are produced by thousands of soybean producers, processed by numerous processing entities, and soybeans and soybean products produced in the United States are consumed by people and livestock throughout the United States and foreign countries;

(3) soybeans and soybean products should be readily available and marketed efficiently to ensure that consumers have an adequate supply of soybean products at a reasonable price;

(4) the maintenance and expansion of existing markets and development of new markets for soybeans and soybean products are vital to the welfare of soybean producers and processors and those concerned with marketing soybeans and soybean products, as well as to the general economy of the United States, and are necessary to ensure the ready availability and efficient marketing of soybeans and soybean products;

(5) there exist established State and national organizations conducting soybean promotion, research, and consumer education programs that are valuable to the efforts of promoting the consumption of soybeans and soybean products;

(6) the cooperative development, financing, and implementation of a coordinated national program of soybean promotion, research, consumer information, and industry information are necessary to maintain and expand existing markets and develop new markets for soybeans and soybean products; and

(7) soybeans and soybean products move in interstate and foreign commerce, and soybeans and soybean products that do not move in such channels of commerce directly burden or affect interstate commerce in soybeans and soybean products.

(b) POLICY.—Congress declares that it is in the public interest to authorize the establishment, through the exercise of the powers provided in this subtitle, of an orderly procedure for developing, financing through assessments on domestically-produced soybeans, and implementing a program of promotion, research, consumer information, and industry information designed to strengthen the soybean industry's position in the marketplace, to maintain and expand existing domestic and foreign markets and uses for soybeans and soybean products, and to develop new markets and uses for soybeans and soybean products.

(c) CONSTRUCTION.—Nothing in this subtitle may be construed to provide for the control of production or otherwise limit the right of individual producers to produce soybeans.

SEC. 713. DEFINITIONS.

As used in this subtitle:

(1) The term "Board" means the United Soybean Board established under section 715(b) of this subtitle.

(2) The term "commerce" includes interstate, foreign, and intrastate commerce.

(3) The term "consumer information" means information that will assist consumers and other persons in making evaluations and decisions regarding the purchase, preparation, and use of soybeans or soybean products.

(4) The term "Department" means the Department of Agriculture.

(5) The term "first purchaser" means—

(A) except as provided in subparagraph (B), any person buying or otherwise acquiring from a producer soybeans produced by such producer, or

(B) the Commodity Credit Corporation, in any case in which soybeans are pledged as collateral for a loan issued under any price support loan program administered by the Commodity Credit Corporation.

(6) The term "industry information" means information and programs that will lead to the development of new markets, new marketing strategies, or increased efficiency for the soybean industry, and activities to enhance the image of the soybean industry.

(7) The term "marketing" means the sale or other disposition of soybeans or soybean products in any channel of commerce.

(8) The term "net market price" means—

(A) except as provided in subparagraph (B), the sales price or other value received by a producer for soybeans after adjustments for any premium or discount based on grading or quality factors, as determined by the Secretary, or

(B) for soybeans pledged as collateral for a loan issued under any price support loan program administered by the Commodity Credit Corporation, the principal amount of the loan.

(9) The term "order" means an order issued under section 714.

(10) The term "person" means any individual, group of individuals, partnership, corporation, association, cooperative, or any other legal entity.

(11) The term "producer" means any person engaged in the growing of soybeans in the United States who owns, or who shares the ownership and risk of loss of, such soybeans.

(12) The term "promotion" means any action, including paid advertising, technical assistance, and trade servicing activities, to enhance the image or desirability of soybeans or soybean products in domestic and foreign markets, and any activity designed to communicate to consumers, importers, processors, wholesalers, retailers, government officials, or others information relating to the positive attributes of soy-

beans or soybean products or the benefits of importation, use, or distribution of soybeans and soybean products.

(13) The term "qualified State soybean board" means a State soybean promotion entity that is authorized by State law. If no such entity exists in a State, the term "qualified State soybean board" means a soybean producer-governed entity—

(A) that is organized and operating within a State,

(B) that receives voluntary contributions and conducts soybean promotion, research, consumer information, or industry information programs, and

(C) that meets criteria established by the Board relating to the qualifications of such entity to perform duties under the order, as determined by the Board, and is recognized by the Board as the soybean promotion and research entity within the State.

(14) The term "research" means any type of study to advance the image, desirability, marketability, production, product development, quality, or functional or nutritional value of soybeans or soybean products, including any research activity designed to identify and analyze barriers to export sales of soybeans and soybean products.

(15) The term "Secretary" means the Secretary of Agriculture.

(16) The term "soybean products" means products produced in whole or in part from soybeans or soybean by-products.

(17) The term "soybeans" means all varieties of Glycine max or Glycine soya.

(18) The terms "State" and "United States" consist of the fifty States of the United States of America, the District of Columbia, and the Commonwealth of Puerto Rico.

SEC. 714. ISSUANCE AND AMENDMENT OF ORDERS.

(A) IN GENERAL.—To effectuate the declared policy of section 712(b) of this subtitle, the Secretary, subject to the procedures provided in subsection (b), shall issue orders under this subtitle applicable to producers and first purchasers of soybeans. Any such order shall be national in scope, and not more than one order shall be in effect under this subtitle at any one time.

(b) PROCEDURE.—(1) The Secretary may propose the issuance of an order under this subtitle, or an association of soybean producers or any other person that would be affected by an order issued pursuant to this subtitle may request the issuance of, and submit a proposal for, such an order.

(2) Not later than 30 days after the receipt of a request and proposal for an order pursuant to paragraph (1), or whenever the Secretary determines to propose an order, the Secretary shall publish a proposed order and give due notice and opportunity for public comment on the proposed order.

(3) After notice and opportunity for public comment are given as provided in paragraph (2), the Secretary shall issue an order, taking into consideration the comments received and including in the order provisions necessary to ensure that the order is in conformity with the requirements under this subtitle. Such order shall be issued and become effective not later than 180 days following publication of the proposed order.

(c) AMENDMENTS.—The Secretary, from time to time, may amend any order issued under this section. Except as otherwise provided in sections 715(b)(2)(F) and 715(d)(1), no amendment to an order shall be effective until approved by a referendum of soybean producers and the provisions of this subtitle applicable to orders shall be applicable to amendments to orders.

SEC. 715. REQUIRED TERMS IN ORDERS.

(a) IN GENERAL.—Any order issued under this subtitle shall contain the terms and conditions specified in this section.

(b) ESTABLISHMENT AND MEMBERSHIP OF THE UNITED SOYBEAN BOARD.—(1) The order shall provide for the establishment of, and appointment of members to, a United Soybean Board to administer the order. Members of the Board shall be soybean producers appointed by the Secretary, on a geographic basis, from State or combined units, as provided in this subsection. The cumulative number of seats on the Board shall be the total number of seats to which all the units are entitled.

(2) The Secretary shall establish State units and combined units and seats on the Board for such units, as follows:

(A) Except as provided in subparagraph (B), each State shall be considered as a unit.

(B) A State in which average annual soybean production is less than 3 million bushels shall be grouped with other States into a combined unit. To the extent practicable, each State with average annual soybean production of less than 3 million bushels shall be grouped with other States with average annual soybean production of less than 3 million bushels into a combined unit, in a manner prescribed in the order, and each combined unit shall consist of geographically contiguous States. Each combined unit shall have an average annual production of soybeans of at least 3 million bushels.

(C) Subject to subparagraph (F), each unit, as established under subparagraph (A) or (B)—

(i) if its average annual soybean production is less than 15 million bushels, shall be entitled to one seat on the Board;

(ii) if its average annual soybean production is 15 million bushels or more but less than 70 million bushels, shall be entitled to 2 seats on the Board;

(iii) if its average annual soybean production is 70 million bushels or more but less than 200 million bushels, shall be entitled to 3 seats on the Board; and

(iv) if its average annual soybean production is 200 million bushels or more, shall be entitled to 4 seats on the Board.

(D) At the end of each 3 year period beginning with the 3 year period starting on the effective date of the order, the Secretary, if necessary, shall adjust any unit to conform with subparagraphs (A) and (B) and any modifications pursuant to paragraph (F). If the Secretary makes such an adjustment, the Secretary shall re-establish the seats on the board to conform with subparagraph (C) and any modifications pursuant to paragraph (F).

(E) For purposes of subparagraphs (A), (B), (C), and (D), the Secretary shall determine average annual soybean production application to a crop year by using the average of the 5 previous crops of soybeans, excluding the crop in which production was the highest and the crop in which production was the lowest.

(F) At the end of each 3 year period beginning with the 3 year period starting on the effective date of the order, the Board may recommend to the Secretary, to the extent it determines appropriate, changes in the levels of production used in subparagraphs (A), (B), and (C) to determine per-unit representation on the Board. The Secretary may amend the order to make such changes in levels of production used to determine per-unit representation. Any such amendment to the order shall not be subject to a referendum of producers. A unit may not, as a result of any modification under this subparagraph, lose Board seats to which it is entitled at the time the order is initially issued unless its average annual production, as determined under subparagraph (E), declines below the levels required for representation, as specified in subparagraphs (A), (B), and (C).

(3)(A) The Secretary shall appoint soybean producers to seats established under paragraph (2) from nominations submitted by each unit. Each unit shall submit to the Secretary at least 2 nominations for each appointment to the Board to which such unit is entitled.

(B)(i) The Secretary shall solicit nominations for each seat on the initially-established Board to which a State unit is entitled from the State soybean board in the State that submits satisfactory evidence to the Secretary that such board meets the criteria of section 713(13), other than section 713(13)(C), of this subtitle. If no such organization exists in the unit, the Secretary shall solicit nominations for appointments in such manner as the Secretary determines appropriate.

(ii) The Secretary shall solicit nominations for each seat on the initially-established Board to which a combined unit is entitled in such manner as the Secretary determines appropriate, taking into consideration the recommendations of any State soybean board operating in the unit that submits satisfactory evidence to the Secretary that such board meets the criteria of section 713(13), other than section 713(13)(C), of this subtitle.

(C)(i) The Secretary shall solicit nominations for each subsequent appointment to a seat on the Board to which a State unit is entitled from the qualified State soybean board in the unit. If no such organization exists in the unit, the Secretary shall solicit nominations for such appointment in such manner as the Secretary determines appropriate.

(ii) The Secretary shall solicit nominations for each subsequent appointment to a seat on the Board to which a combined unit is entitled in such manner as the Secretary determines appropriate, taking into consideration the recommendations of any qualified State soybean board operating in the unit.

(4) The Secretary may reject any nomination submitted by a unit. If there are insufficient nominations from which to appoint members to the Board as a result of the Secretary rejecting the nominations submitted by a unit, the unit shall submit additional nominations, as provided in paragraph (3).

(5) The Secretary shall ensure, to the extent practicable, that at least 5 of the members appointed to the Board are members in good standing, and were members for at least 3 years prior to appointment to the Board, of a national general farm oganization. Each of the 5 members shall be a member of a different national general farm organization.

(6) Each appointment to the Board shall be for a term of 3 years, except that appointments to the initially-established Board shall be proportionately for 1 year, 2 year, and 3 year terms. No person may serve more than 3 three-year terms. Board members shall serve without compensation, but shall be reimbursed by the Board for their reasonable expenses incurred in performing their duties as members of the Board.

(7)(A) Notwithstanding the foregoing provisions of this subsection, the Secretary, under procedures established by the Secre-

tary, may appoint to the initially-established Board up to 3 temporary members to serve in addition to the members appointed as otherwise provided in this subsection, as the Secretary determines appropriate for transition purposes under the criteria set out in subparagraph (B). Each such temporary member shall be appointed for a single term not to exceed 3 years.

(B) The Secretary, in making any temporary appointments to the initially-established Board, shall ensure, to the extent practicable, that each State with a State soybean board that, prior to the enactment of this subtitle, was contributing State soybean promotion and research assessment funds to national soybean promotion and research efforts has representation on the initially-established Board that reflects the relative contributions of such State to the national soybean promotion and research effort.

(8) The order shall provide for at least one meeting of the Board annually and specify the circumstances in which additional special meetings of the Board may be held.

(c) POWERS AND DUTIES OF THE BOARD.—The order shall define the powers and duties of the Board and shall include the following powers or duties:

(1) to administer the order in accordance with its terms and provisions;

(2) to make regulations to effectuate the terms and provisions of the order;

(3) to elect members of the Board to serve on committees;

(4) to submit budgets to the Secretary for the Secretary's approval or disapproval;

(5) to contract with appropriate persons to implement plans or projects;

(6) to contract with qualified State soybean boards to implement programs in their States;

(7) to receive, investigate, and report to the Secretary complaints of violations of the order;

(8) to provide the Secretary with prior notice of meetings of the Board to allow the Secretary, or a designated representative, to attend such meetings;

(9) to recommend to the Secretary amendments to the order;

(10) to provide at least annually a report to producers accounting for funds and describing programs implemented and make such report available to the public upon request; and

(11) to ensure, in carrying out the order, that the development of the budget and activities conducted under the order do not cause a duplication of efforts of, or ineffective use of resources under, any other soybean promotion, research, consumer information, or industry information program on the State or national level.

(d) BOARD VOTING PROCEDURES.—(1) The order shall establish procedures for the conduct of voting by the Board, as specified in this subsection. At the end of the 3 year period beginning on the effective date of the order, the Board may recommend to the Secretary changes in such procedures for the conduct of voting by the Board, and the Secretary may amend the order to make such recommended changes in voting procedures. Such amendment to the order shall not be subject to a referendum of procedures.

(2) Each member of the Board shall be entitled, in any vote conducted by the Board, to cast the number of votes determined under the following rules:

(A) Each member shall be entitled to cast one vote unless a roll call vote is conducted. On a roll call vote, each member shall be entitled to cast such additional votes as are assigned to the member under subparagraph (B).

(B) The additional votes that each member is assigned for roll call votes shall be computed as follows:

(i) Except as provided in clause (ii), each unit shall be allotted one vote for each percent, or portion of a percent, of the total amount of assessments remitted to the Board that was remitted from the unit, net of any refunds made under subsection (j)(2), on the average, during each of the 3 previous fiscal years of the Board.

(ii)(I) During the first fiscal year of the Board, each unit shall be allotted one vote for each percent, or portion of a percent, of the total production of soybeans in the United States that was produced in the unit, on the average, during each of the 3 immediately preceding crop years.

(II) The order shall provide appropriate adjustments of the procedure for the allotment of votes under clause (i) to apply to allotments of votes during the second and third fiscal years of the Board.

(iii) A unit's total votes under clause (i) or (ii) shall be divided equally among all the members representing that unit. The procedures established by the order shall provide for the equitable disposition of fractional votes assigned to a member under such division of a unit's votes.

(3)(A) Except as provided in subparagraph (B), a motion shall carry if approved by a simple majority of members of the Board casting votes.

(B) Any member of the Board may call for a roll call vote on any motion. Except as otherwise provided in the bylaws adopted by the Board, whenever a roll call vote is conducted, the motion shall carry only if approved by a simple majority of all votes cost and a simple majority of all units voting, with the vote of each unit determined by a simple majority of all votes cast by members in that unit.

(4) In any vote conducted by a committee of the Board, each member of the committee shall have one vote.

(5) A member may not cast votes by proxy.

(e) BUDGETS.—The order shall provide that the Board shall develop budgets on a fiscal year basis of anticipated expenses and disbursements under the order, including probable costs of administration and promotion, research, consumer information, and industry information projects. The Board shall submit such budgets or any substantial modification thereof to the Secretary for the Secretary's approval. In approving or disapproving such budget or modification, the Secretary shall, among other considerations, ensure that the activities conducted under the order do not cause a duplication of efforts of, or ineffective use of resources under, any other soybean promotion, research, consumer information, or industry information program on the State or national level. Each such budget or modification shall be approved or disapproved by the Secretary within 45 days after the Secretary receives the budget modification. No expenditure of funds may be made by the Board unless such expenditure is authorized under a budget or modification approved by the Secretary.

(f) PLANS AND PROJECTS.—The order shall provide that the Board shall review or, on its own initiative, develop plans or projects of promotion, research, consumer information, and industry information, to be paid for with funds received by the Board.

(g) ADMINISTRATION.—(1) The order shall provide that the Board shall be responsible for all expenses of the Board.

(2)(A) The order shall provide that the Board may establish an administrative staff or facilities of its own or contract for the use of the staff and facilities of national, nonprofit, producer-governed organizations that represent producers of soybeans.

(B) If the Board establishes an administrative staff of its own, the Board is authorized to expend for administrative staff salaries and benefits an amount not to exceed one percent of the projected level of assessments to be collected by the Board, net of any refunds to be made under subsection (j)(2), for that fiscal year.

(C) If the staff of national, nonprofit, producer-governed organizations that represent producers of soybeans are used by the Board, the staff of such organizations shall not receive compensation directly from the Board, but such organizations shall be reimbursed for the reasonable expenses of their staffs, including salaries, incurred in performing staff duties on behalf of, and authorized by, the Board.

(3) The order shall provide that costs incurred by the Board in administering the order (including the cost of staff but not including administrative costs incurred by the Secretary) during any fiscal year shall not exceed 5 percent of the projected level of assessments to be collected by the Board, net of any refunds to be made under subsection (j)(2), for that fiscal year.

(h) CONTRACTS AND AGREEMENTS.—(1) To ensure coordination and efficient use of funds, the order shall provide that the Board may enter into contracts or agreements for the implementation and carrying out of the activities authorized by this subtitle with national, nonprofit, producer-governed organizations that represent producers of soybeans, and for the payment thereof with funds received by the Board under the order.

(2) To enhance coordination, the Board, when entering into contracts or agreements for the implementation and carrying out of activities authorized by this subtitle, shall ensure that all plans or projects implemented for consumer information, industry information, promotion, or research are implemented by a single entity. There shall not be in force, at any one time, more than one contract or agreement for implementation of plans or projects for consumer information, for industry information, for promotion, or for research, except that, upon approval of the Secretary, the Board may contract with qualified State soybean boards to implement plans or projects within their respective States.

(3) Any such contract or agreement shall provide that—

(A) the contracting party shall develop and submit to the Board a plan or project together with a budget or budgets that shall show estimated costs to be incurred for such plan or project;

(B) the plan or project shall not become effective unless it has been approved by the Secretary; and

(C) the contracting party shall keep accurate records of all of its transactions, account for funds received and expended, including staff time, salaries, and expenses expended on behalf of Board activities, make periodic reports to the Board of activities conducted, and make such other reports as the Board or the Secretary may require.

(i) BOOKS AND RECORDS OF THE BOARD.—The order shall require the Board to—

(1) maintain such books and records, which shall be available to the Secretary for inspection and audit, as the Secretary may prescribe,

(2) prepare and submit to the Secretary, from time to time, such reports as the Secretary may prescribe, and

(3) account for the receipt and disbursement of all funds entrusted to the Board.

The Board shall cause its books and records to be audited by an independent auditor at the end of each fiscal year and a report of such audit to be submitted to the Secretary. The Secretary shall make such report available to the public upon request.

(j) ASSESSMENTS.—(1)(A)(i) The order shall provide that each first purchaser of soybeans from a producer shall collect, in the manner prescribed by the order, an assessment from the producer and remit the assessment to the Board. If a qualified State soybean board is operating in the State, the Board shall permit such State board to collect such assessments on behalf of the Board from first purchasers in the State in which such board is operating.

(ii) The rate of assessment prescribed by the order shall be one-half of 1 percent of the net market price of soybeans bought or otherwise acquired by the first purchaser from the producer.

(iii) No more than one assessment shall be made with respect to any particular soybeans.

(iv) The order shall provide that no person may engage in any scheme or device regarding the net market price of soybeans for purposes of affecting the assessment under the order.

(B) The order shall provide that any person processing soybeans of that person's own production and marketing such soybeans or soybean products made from such soybeans shall remit to the Board or the qualified State soybean board, in the manner prescribed by the order, an assessment established at a rate equivalent to the rate provided for in subparagraph (A)(ii).

(2)(A) The order shall provide that, during the period prior to the approval of the continuation of the order in the referendum provided for in section 1906(a), as determined by the Secretary, each producer shall have the right to demand and receive from the Board a refund of any assessment collected from such producer if—

(i) such producer is responsible for paying the assessment; and

(ii) such producer does not support the programs, projects, or activities implemented under the order.

(B) Subject to the provisions of subparagraph (C)(i), any demand by a producer for a refund of an assessment under this paragraph shall be made in accordance with regulations, on a form, and within the time period, not to exceed 90 days from the date of collection, prescribed by the Board.

(C)(i) In each State in which a qualified State soybean board collects assessments, as provided in paragraph (1)(A)(i), producers shall submit demands for refunds of assessments to the qualified State soybean board. Such board shall process such submissions under procedures established under State statute applicable to refunds of assessments on soybeans, except that if no refunds are allowed under State statute, such submissions shall be processed under procedures established under this paragraph.

(ii) In each State not specified in clause (i), producers shall submit demands for refunds of assessments directly to the Board.

(D) Subject to the provisions of subparagraph (C)(i), each refund to a producer of an assessment under this paragraph shall be made as soon as practicable, but in no case more than 60 days, after submission of proof satisfactory to the qualified State soybean board or the Board that the producer paid the assessment for which refund is demanded.

(3) The assessments shall be used for payment of the expenses incurred in implementation and administration of the order, the establishment of a reasonable reserve, and reimbursement to the Secretary of administrative costs incurred by the Secretary after the order has been proposed.

(4) A producer who can establish that such producer is contributing to a qualified State soybean board shall receive credit, in determining the assessment due to the Board from such producer, for contributions to the qualified State soybean board of up to one-quarter of 1 percent of the net market price of soybeans or the equivalent thereof. A producer may receive a credit under this paragraph only if the contribution is to the qualified State soybean board in the State in which the soybeans are produced, except that the Board, with the approval of the Secretary, may authorize exceptions to such State-of-origin rule as appropriate to ensure effective coordination of collection procedures among States.

(5) The procedures in the order for the collection of assessments shall ensure, to the extent practicable, that such soybeans are subject to a single process of assessment under the order.

(k) CREDIT FOR CERTAIN COSTS TO STATES.—The order shall provide that the Board may provide a credit against the amount of collected assessments due from each qualified State soybean board of an amount not to exceed one-half of any fees paid to State governmental agencies or first purchasers for collection of the assessments if the payment of such fees by the qualified State soybean board is required by State statute enacted prior to the date of enactment of this subtitle. Any credit provided to any qualified State soybean board under this subsection may not exceed 2.5 percent of the amount of assessments collected and remitted to the Board under subsection (j).

(l) MINIMUM LEVEL OF ASSESSMENTS TO STATES.—(1) The order shall contain provisions to ensure that, during the period prior to conduct of the referendum provided for in section 1906(a), each qualified State soybean board retains annually an amount of money equal to the average amount that the State board collected from assessments during each of the State board's fiscal years 1984 through 1988, excluding the year in which such collections were the highest and the year in which such collections were the lowest, as determined by the Secretary and subject to paragraph (3).

(2) The order shall provide, effective after the conduct of the referendum provided for in section 716(a), subject to paragraph (3), that the Board annually shall provide a credit to each qualified State soybean board of an amount by which—

(A) the amount equal to one cent times the average number of bushels of soybeans produced in the State during each of the preceding 5 years, excluding the year in which the production is the highest and the year in which the production is the lowest, exceeds

(B) the total amount collected by the qualified State soybean board from assessments on producers under this subtitle and State law minus the amount of assessments remitted to the Board during such year under subsection (j).

(3) The total amount of assessment funds retained by a qualified State soybean board under paragraph (1) or (2) and subsection (j)(4) for a year may not exceed the total amount of assessments collected in the State under subsection (j), net of any refunds made under subsection (j)(2), for that year.

(m) INVESTMENT OF FUNDS.—The order shall provide that the Board, with the approval of the Secretary, may invest funds received by the Board under the order, pending their disbursement, only in obligations of the United States or any agency thereof, in general obligations of any State or any political subdivision thereof, in any interest bearing account or certificate of deposit of a bank that is a member of the Federal Reserve System, or in obligations fully guaranteed as to principal and interest by the United States. Income from any such investment may be used only for such purposes as the invested funds may be used.

(n) PROHIBITION.—(1) Except as otherwise provided in paragraph (2), the order shall prohibit any funds collected by the Board under the order from being used in any manner for the purpose of influencing any action or policy of the United States Government, any foreign, State, or United States territory or possession government, or any political subdivision thereof.

(2) The prohibition in paragraph (1) shall not apply to—

(A) the development and recommendation of amendments to the order;

(B) the communication to appropriate government officials of information relating to the conduct, implementation, or results of promotion, research, consumer information, and industry information under the order; or

(C) any action designed to market soybeans or soybean products directly to a foreign government or political subdivision thereof.

(o) BOOKS AND RECORDS OF FIRST PURCHASERS AND CERTAIN PRODUCERS.—(1) The order shall require that each first purchaser of soybeans and any person processing soybeans of that person's own production maintain and make available for inspection by the Board or the Secretary such books and records as may be required by the order and file reports at the time, in the manner, and having the content prescribed by the order. The order shall exempt small producers processing soybeans of their own production from such recordkeeping and reporting requirements if they are not required to pay assessments under the order.

(2)(A) Information maintained under paragraph (1) shall be made available to the Secretary as is appropriate for the administration or enforcement of this subtitle, or any order or regulation issued under this subtitle.

(B) The Secretary shall authorize the use under this subtitle of information regarding first purchasers that is accumulated under a law or regulation other than this subtitle or regulations under this subtitle.

(3)(A) Commercial or financial information obtained under paragraphs (1) and (2) and that is privileged or confidential shall be kept confidential by all officers and employees of the Department, the Board, and agents of the Board, subject to the provisions of subparagraph (B).

(B) Information obtained under the authority of this subtitle shall be made available to any agency or officer of the Federal Government for—

(i) the implementation of this subtitle;

(ii) any investigatory or enforcement action necessary for the implementation of this subtitle; or

(iii) any civil or criminal law enforcement activity if the activity is authorized by law.

(4) Any person who intentionally or knowingly violates the provisions of this subsection, upon conviction, shall be subject to a fine of not more than $1,000, or to imprisonment for not more than one year, or both, if an agent of the Board or an officer or employee of the Department, shall be removed from office.

(p) INCIDENTAL TERMS AND CONDITIONS.—The order shall provide terms and conditions, not inconsistent with the provisions of this subtitle, as necessary to effectuate the provisions of the order, including provisions for the assessment of a penalty for each late payment of assessments under subsection (j).

SEC. 716. REFERENDA.

(a) INITIAL REFERENDUM.—Not earlier than 18 months nor later than 36 months following the issuance of an order under section 1904 of this subtitle, the Secretary shall conduct a referendum for the purpose of ascertaining whether the order than in effect shall be continued. Such referendum shall be conducted among producers who, during a representative period as determined by the Secretary, have been engaged in the production of soybeans. Such order shall be continued only if the Secretary determines that the order has been approved by not less than a majority of the producers voting in the referendum. If continuation of the order is not approved by a majority of those voting in the referendum, the Secretary shall terminate the collection of assessments under the order within 6 months after the referendum and shall terminate the order in an orderly manner as soon as practicable.

(b) ADDITIONAL REFERENDA.—(1)(A) After the initial referendum on an order, the Secretary shall conduct additional referenda, as described in subparagraph (C), if requested by a representative group of producers, as described in subparagraph (B).

(B) An additional referendum on an order shall be conducted if requested by 10 percent or more of the producers who during a representative period have been engaged in the production of soybeans, of which group of requesting producers not in excess of one-fifth are producers in any one State, as determined by the Secretary.

(C) Each additional referendum shall be conducted among all producers who, during a representative period, as determined by the Secretary, have been engaged in the production of soybeans to determine whether such producers favor the termination of the order.

(2) If the Secretary determines, in any referendum conducted under paragraph (1), that termination of the order is favored by a majority of the producers voting in the referendum, the Secretary shall terminate, as appropriate, collection of assessments under the order within 6 months after such determination and shall terminate the order, as appropriate, in an orderly manner as soon as practicable after such determination.

(3)(A) To facilitate the periodic determination as to whether producers favor the conduct of an additional referendum under this subsection, the Secretary, 5 years after the conduct of a referendum under this section and every 5 years thereafter for as long as an order is in effect, shall provide soybean producers an opportunity to request an additional referendum, as provided in this paragraph.

(B)(i) To implement the requirements of subparagraph (A), the Secretary shall establish a procedure under which producers may request a reconfirmation referendum in person at county extension offices during a period established by the Secretary, or as provided in clause (ii).

(ii) In lieu of making such requests in person, producers may make requests by mail. Mail-in requests must be postmarked no later than the end of the period established under clause (i) for in-person requests. To facilitate such submission of requests by mail, the Secretary may make mail-in request forms available to producers.

(C) The Secretary shall publish a notice in the Federal Register, and the Board shall provide written notification to producers, not later than 60 days prior to the end of the period established under subparagraph (B)(i) for in-person requests, of the producers' opportunity to request the additional referendum. Such notification shall explain the producers' right to, and the procedures specified in this subsection for, the conduct of an additional referendum, the purpose of the referendum, and the date and method by which producers can act to request the additional referendum under this paragraph. The Secretary shall take such other actions as the Secretary determines necessary to ensure that producers are made aware of the opportunity to request an additional referendum on the order.

(D) As soon as practicable following the submission of requests for a reconsideration referendum, the Secretary shall determine whether a sufficient number of producers have requested an additional referendum, and take other steps to conduct an additional referendum, as required under paragraph (1).

(E) Any additional referendum requested under the procedures provided in this paragraph shall be conducted not later than one year after the Secretary determines that a representative group of producers, as described in paragraph (1)(B), have requested the conduct of such referendum.

(c) PROCEDURES.—(1) The Secretary shall be reimbursed from assessments collected by the Board for any expenses incurred by the Secretary in connection with the conduct of any activity required under this section, except for the salaries of Government employees.

(2) Each referendum shall be conducted for a reasonable period (not to exceed 3 days) established by the Secretary, under a procedure whereby producers intending to vote in the referendum shall certify that they were engaged in the production of soybeans during the representative period and, at the same time, shall be provided an opportunity to vote in the referendum.

(3) Referenda shall be conducted at county extension offices and provision shall be made for absentee mail ballots to be provided upon request.

SEC. 717. PETITION AND REVIEW.

(a) PETITION.—Any person subject to an order issued under this subtitle may file with the Secretary a petition stating that such order, any provision of such order, or any obligation imposed in connection with the order is not in accordance with law and requesting a modification of the order or an exemption from the order. The petitioner shall be given an opportunity for a hearing on the petition, in accordance with regulations issued by the Secretary. After such hearing, the Secretary shall make a ruling on the petition.

(b) REVIEW.—The district courts of the United States in any district in which a person who is a petitioner under subsection (a) resides or carries on business are hereby vested with jurisdiction to review the ruling on such person's petition, if a compliant for that purpose is filed within twenty days after the date of the entry of a ruling by the Secretary under subsection (a). Service of process in such proceedings shall be conducted in accordance with the Federal Rules of Civil Procedure. If the court determines that such ruling is not in accordance with law, the court shall remand the matter to the Secretary with directions either (1) to make such ruling as the court shall determine to be in accordance with law, or (2) to take such further action as, in the opinion of the court, the law requires.

SEC. 718. ENFORCEMENT.

(a) IN GENERAL.—(1) Each district court of the United States shall have jurisdiction specifically to enforce, and to prevent and restrain a person from violating, an order or regulation issued by the Secretary under this subtitle.

(2) A civil action authorized to be brought under this subsection shall be referred to the Attorney General for appropriate action, except that the Secretary is not required to refer to the Attorney General a violation if the Secretary believes that the administration and enforcement of this subtitle would be adequately served by providing a suitable written notice or warning to the person who committed such violation or by administrative action under subsection (b).

(b) ADMINISTRATIVE REMEDIES.—(1)(A) A person who willfully violates an order or regulation issued by the Secretary under this subtitle may be assessed by the Secretary—

(i) a civil penalty of not more than $1,000 for each such violation; and

(ii) in the case of a willful failure to pay, collect, or remit an assessment as required by the order, an additional penalty equal to the amount of such assessment.

(B) Each such violation shall be a separate offense.

(C) In addition to or in lieu of such civil penalty, the Secretary may issue an order requiring such person to cease and desist from violating such order or regulation.

(D) No order assessing a penalty or cease and desist order may be issued by the Secretary under this paragraph unless the Secretary gives the person against whom the order is issued notice and opportunity for a hearing on the record with respect to such violation.

(E) An order assessing a penalty or cease and desist order issued under this paragraph by the Secretary shall be final and conclusive unless the person against whom the order is issued files an appeal from such order with the appropriate district court of the United States, as provided in paragraph (2), not later than 30 days after the date of such order.

(2)(A) A person against whom an order is issued under paragraph (1) may obtain review of such order in the district court of the United States for the district in which such person resides or does business, or in the United States district court for the District of Columbia, by—

(i) filing a notice of appeal in such court not later than 30 days after the date of such order; and

(ii) simultaneously sending a copy of such notice by certified mail to the Secretary.

(B) The Secretary shall file promptly in such court a certified copy of the record on which the Secretary found that the person had committed a violation.

(C) A finding of the Secretary shall be set aside only if the finding is found to be unsupported by substantial evidence.

(3)(A) A person who fails to obey a valid case and desist order issued under paragraph (1) by the Secretary, after an opportunity for a hearing, shall be subject to a penalty assessed by the Secretary of not more than $500 for each offense.

(B) Each day during which such failure continues shall be considered a separate violation of such order.

(4)(A) If a person fails to pay a valid civil penalty imposed under this subsection by the Secretary, the Secretary shall refer the matter to the Attorney General for recovery of the amount assessed in the district court of the United States in any district in which the person resides or conducts business.

(B) In such action, the validity and appropriateness of the order imposing such civil penalty shall not be subject to review.

(c) OTHER REMEDIES UNAFFECTED.—The remedies provided in subsections (a) and (b) shall be in addition to, and not exclusive of, other remedies that may be available.

SEC. 719. INVESTIGATIONS; POWER TO SUBPOENA; AID OF COURTS.

(a) INVESTIGATIONS.—The Secretary may make such investigations as the Secretary deems necessary—

(1) for the effective administration of this subtitle, or

(2) to determine whether any person subject to the provisions of this subtitle has engaged or is about to engage in any act that constitutes or will constitute a violation of any provision of this subtitle, or of any order or regulation issued under this subtitle.

(b) POWER TO SUBPOENA.—For the purpose of any such investigation, the Secretary may require the production of any records that are relevant to the inquiry. The production of any such records may be required from any place in the United States.

(c) AID OF COURTS.—In case of contumacy by, or refusal to obey a subpoena to, any person, the Secretary may invoke the aid of any court of the United States within the jurisdiction of which such investigation or proceeding is carried on, or where such person resides or carries on business, in requiring the production of records. The court may issue an order requiring such person to appear before the Secretary to produce records. Any failure to obey such order of the court may be punished by such court as a contempt thereof. Process in any such case may be served in the judicial district in which such person resides or conducts business or wherever such person may be found.

SEC. 720. ADMINISTRATIVE PROVISIONS.

(A) CONSTRUCTION.—Except as provided in subsection (b), nothing in this subtitle may be construed to—

(1) preempt or supersede any other program relating to soybean promotion, research, consumer information, or industry information organized and operated under the laws of the United States or any State; or

(2) authorize the withholding of any information from Congress.

(b) STATE LAWS.—(1) In order to ensure the proper administration of this subtitle, any provision of State law automatically requiring a State referendum relating to the continuation or termination of a qualified State soybean board shall, to the extent it automatically requires such a referendum, be suspended for the period beginning on the date an order is issued under section 714 and ending 18 months after the referendum on such order is conducted under section 716(a). Such suspension shall not be construed to apply to any State referendum regarding a State soybean promotion program that is originated by soybean producers.

(2) In order to ensure adequate funding of the operations of qualified State soybean boards under this subtitle, whenever an order is in effect under this subtitle, no State law or regulation that limits the rate of assessment that qualified State soybean board in the State may collect from producers on soybeans produced in such State, or that has the effect of limiting such rate, may be applied to prohibit such State board from collecting, and expending for authorized purposes, assessments from producers of up to the full amount of the credit authorized for producer contributions to qualified State soybean boards under section 715(j)(4).

SEC. 721. REGULATIONS.

The Secretary may make such regulations as may be necessary to carry out the provisions of the subtitle.

SEC. 722. AUTHORIZATION.

There are hereby authorized to be appropriated annually such funds as are necessary to carry out the provisions of this subtitle. The funds so appropriated shall not be available for payment of the expenses or expenditures of the Board in administering any provision of any order issued under this subtitle.

TITLE VIII—PEANUTS

SEC. 801. SUSPENSION OF MARKETING QUOTAS AND ACREAGE ALLOTMENTS.

The following provisions of the Agricultural Adjustment Act of 1938 shall not be applicable to the 1991 through 1995 crops of peanuts:

(1) Subsections (a) through (j) of section 358 (7 U.S.C. 1358(a)-(j)).

(2) Subsections (a) through (h) of section 358a (7 U.S.C. 1358a(a)-(h)).

(3) Subsections (a), (b), (d), and (e) of section 359 (7 U.S.C. 1359 (a), (b), (d), (e)).

(4) Part I of subtitle C of title III (7 U.S.C. 1361 et seq.).

(5) Section 371 (7 U.S.C. 1371).

SEC. 802. NATIONAL POUNDAGE QUOTA AND FARM POUNDAGE QUOTA.

Effective only for the 1991 through 1995 crops of peanuts, subsections (k) through (p) of section 358 of the Agricultural Adjustment Act of 1938 (7 U.S.C. 1358(k) through (p)) are amended to read as follows:

"(k)(1) The national poundage quota for peanuts for each of the 1991 through 1995 marketing years shall be established by the Secretary at a level that is equal to the quantity of peanuts (in tons) that the Secretary estimates will be devoted in each such marketing year to domestic edible, seed, and related uses, except that the national poundage quota for any such marketing year shall not be less than 1,350,000 tons.

"(2) The national poundage quota for a marketing year shall be announced by the Secretary not later than December 15 preceding such marketing year.

"(l) The national poundage quota established under subsection (k) shall be apportioned among the States based upon the percentage of the national poundage quota allocated to farms in each such State for 1990.

"(m)(1)(A) A farm poundage quota for each of the 1991 through 1995 marketing years shall be established—

"(i) for each farm that had a farm poundage quota for peanuts for the 1990 marketing year;

"(ii) if the poundage quota apportioned to a State under subsection (l) for any such marketing year is larger than such quota for the immediately preceding marketing year, for each other farm on which peanuts were produced for marketing in at least 2 of the 3 immediately preceding crop years, as determined by the Secretary; and

"(iii) for institutions specified in section 358b, as approved and determined by the Secretary pursuant to that section.

"(B) The farm poundage quota for each of the 1991 through 1995 marketing years for each farm described in subparagraph (A)(i) of the preceding sentence shall be the same as the farm poundage quota for such farm for the immediately preceding marketing year, as adjusted under paragraph (2), but not including—

"(i) any increases for undermarketings from previous years; or

"(ii) any increases resulting from the allocation of quotas voluntarily released for 1 year under paragraph (9).

The farm poundage quota, if any, for each of the 1991 through 1995 marketing years for each farm described in subparagraph (A)(ii) shall be equal to the poundage quota allocated to such farm for such year under paragraph (2)(A).

"(C) For purposes of this paragraph, if the farm poundage quota, or any part thereof, is permanently transferred in accordance with section 358a, the receiving farm shall be considered as possessing the farm poundage quotas (or portion thereof) of the transferring farm for all subsequent marketing years.

"(2)(A) Except as provided in paragraph (3), if the poundage quota apportioned to a State under subsection (l) for any of the 1991 through 1995 marketing years is increased over the poundage quota apportioned to the State for the immediately preceding marketing year, such increase shall be allocated proportionately, based on farm production history for the 3 immediately preceding years, among—

"(i) all farms in the State for which a farm poundage quota was established for the marketing year immediately preceding the marketing year for which the allocation is being made; and

"(ii) all other farms in the State on which peanuts were produced in at least 2 of the 3 immediately preceding crop years, as determined by the Secretary.

"(B) If the poundage quota apportioned to a State under subsection (l) for any of the 1991 through 1995 marketing years is decreased from the poundage quota apportioned to the State under such subsection for the immediately preceding marketing year, such decrease shall be allocated among all the farms in the State for which a farm poundage quota was established for such immediately preceding marketing year.

"(3)(A) Notwithstanding the foregoing provisions of this subsection, in the case of the State of Texas only and subject to terms and conditions prescribed by the Secretary, beginning with the 1991 marketing year 33 percent of the increased poundage quota referred to in paragraph (2)(A) for any year (hereafter in this section referred to as the 'reserve share') shall be allocated according to this paragraph.

"(B) The Secretary shall distribute the reserve share to counties in which the production of additional peanuts exceeded the total poundage quota allocated to farms in such counties for the 1989 marketing year (hereafter in this paragraph referred to as 'eligible counties'). The amount of such reserve share distributed to each eligible county shall be proportional to—

"(i)(I) the total additional peanuts produced in such eligible county for the 1988 crop; divided by

"(II) the total amount of additional peanuts produced in all such eligible counties for the 1988 crop; multiplied by

"(ii) the reserve share.

"(C) In the case of eligible counties where more than 10,000 tons of poundage quota was allocated to all farms in the county for the 1989 marketing year, the total poundage quota distributed to any such county under this paragraph and paragraph (8) shall not increase the total poundage quota allocated to all farms in such county to a level of more than 100 percent of the total poundage quota allocated to farms in such county for the 1989 marketing year. In the event the amount of total poundage quota allocated to all farms in any such county is increased to 100 percent of the total poundage quota allocated to all farms in such county for the 1989 marketing year, the remainder of the reserve share distributed to such county shall be redistributed to other eligible counties in accordance with subparagraph (B).

"(D) The portion of reserve share distributed to each eligible county under this paragraph shall be allocated in accordance with subparagraph (E) within such county only to farms (hereafter in this paragraph referred to as 'eligible farms')—

"(i) having a poundage quota for the 1990 marketing year; and

"(ii) from which additional peanuts were delivered under contract with handlers for the marketing year immediately preceding the marketing year for which the allocation is being made.

"(E) The portion of reserve share distributed to each eligible county shall be allocated among eligible farms in each such county on the following basis:

"(i) A factor shall be established for each eligible farm by dividing the amount of additional peanuts contracted and delivered to handlers from the farm by the total amount of remaining peanuts produced on such farm for the marketing year immediately preceding the marketing year for which the allocation is being made.

"(ii) Each eligible farm shall be entitled to that proportion of the reserve share as its factor bears to the total of such factors for all eligible farms in such county.

"(F) The remaining 67 percent of such increased poundage quota referred to in paragraph (2)(A) shall be allocated to farms pursuant to paragraph (2)(A).

"(4)(A) Insofar as practicable and on such fair and equitable basis as the Secretary may by regulation prescribe, the farm poundage quota established for a farm for any of the 1991 through 1995 marketing years shall be reduced to the extent that the Secretary determines that the farm poundage quota established for the farm for any 2 of the 3 marketing years preceding the marketing year for which the determination is being made was not produced, or considered produced, on the farm.

"(B) For the purposes of this paragraph, the farm poundage quota for any such preceding marketing year shall not include—

"(i) any increases for undermarketing of quota peanuts from previous years; or

"(ii) any increase resulting from the allocation of quotas voluntarily released for one year under paragraph (9).

"(5) For purposes of this subsection, the farm poundage quota shall be considered produced on a farm for a particular marketing year if—

"(A) the farm poundage quota was not produced on the farm because of drought, flood, or any other natural disaster, or any other condition beyond the control of the producer, as determined by the Secretary;

"(B) the farm poundage quota for the farm was released voluntarily under paragraph (9) for only 1 of the 3 immediately preceding marketing years; or

"(C) the farm poundage quota was leased to another owner or operator of a farm within the same county for transfer to such farm for only 1 of the 3 immediately preceeding years.

"(6)(A) The farm poundage quota established for a farm under this subsection, or any part of such quota, may be permanently released by the owner of the farm, or the operator with the permission of the owner.

"(B) The poundage quota for the farm for which such quota is released shall be adjusted downward to reflect the quota that is so released.

"(7)(A) Except as provided in subparagraph (B) and paragraph (8), the total amount of the farm poundage quotas reduced or permanently released from farms in a State for any marketing year under paragraphs (4) and (6) shall be allocated proportionately, based on farm production history for the 3 immediately preceding years, to other farms in the State on which peanuts were produced in at least 2 of such years.

"(B)(i) Subject to clause (ii) the Secretary shall allocate to each farm for which no poundage quota was established for the immediately preceding year's crop an amount of quota from the total amount of farm poundage quota reduced or permanently released in the State equal to such farm's average production for the 3 immediately preceeding years during which peanuts were produced on such farm.

"(ii) The Secretary shall allocate under clause (i) a maximum of 25 percent of the total amount of farm poundage quota reduced or permanently released in the State to such farms and if the sum of such average production for such farms exceeds this maximum the Secretary shall allocate such maximum to such farms in proportion to such average production for the 3 immediately preceeding years during which peanuts were produced on such farm.

"(8)(A) In the case of the State of Texas only and subject to terms and conditions prescribed by the Secretary, beginning with the 1991 marketing year, the farm poundage quota reduced from farms in the State of Texas as provided in paragraph (4), except the percent allocated to new farms as provided in paragraph (7), (hereafter in this section referred to as the 'release share'), shall be allocated according to this paragraph to other farms that had a peanut quota for the 1990 marketing year.

"(B) The Secretary shall distribute the release share to counties in which the production of additional peanuts exceeded the total poundage quota allocated to farms in such counties for the 1989 marketing year (hereafter in this paragraph referred to as 'eligible counties'). The amount of such release share distributed to each eligible county shall be proportional to—

"(i)(I) the total additional peanuts produced in such eligible county for the 1988 crop; divided by

"(II) the total amount of additional peanuts produced in all such eligible counties for the 1988 crop; multiplied by

"(ii) the release share.

"(C) In the case of eligible counties where more than 10,000 tons of poundage quota was allocated to all farms in the county for the 1989 marketing year, the total poundage quota distributed to any such county under this paragraph and paragraph (3) shall not increase the total poundage quota allocated to all farms in such county to a level of more than 100 percent of the total poundage quota allocated to farms in such county for the 1989 marketing year. In the event the amount of total poundage quota allocated to all farms in any such county is increased to 100 percent of the total poundage quota allocated to all farms in such county for the 1989 marketing year, the remainder of the release share distributed to such county shall be redistributed to other eligible counties in accordance with subparagraph (B).

"(D) The portion of release share distributed to each eligible county under this paragraph shall be allocated in accordance with subparagraph (E) within such county only to farms (hereafter in this paragraph referred to as 'eligible farms')—

"(i) having a poundage quota for the 1990 marketing year; and

"(ii) from which additional peanuts were delivered under contract with handlers for the marketing year immediately preceding the marketing year for which the allocation is being made.

"(E) The portion of release share distributed to each eligible county shall be allocated among eligible farms in each such county on the following basis:

"(i) A factor shall be established for each eligible farm by dividing the amount of additional peanuts contracted and delivered to handlers from the farm by the total amount of remaining peanuts produced on such farm for the marketing year immediately preceding the marketing year for which the allocation is being made.

"(ii) Each eligible farm shall be entitled to that proportion of the release share as its factor bears to the total of such factors for all eligible farms in such county.

"(9)(A) The farm poundage quota, or any portion thereof, established for a farm for a marketing year may be voluntarily released to the Secretary to the extent that such quota, or any part thereof, will not be produced on the farm for the marketing year. Any farm poundage quota so released in a State shall be allocated to other farms in the State on such basis as the Secretary may by regulation prescribe.

"(B) Any adjustment in the poundage quota for a farm under subparagraph (A) shall be effective only for the marketing year for which it is made and shall not be taken into consideration in establishing a farm poundage quota for the farm from which such quota was released for any subsequent marketing year.

"(10)(A) Except as provided in subparagraph (B), the poundage quota for a farm for any marketing year shall be increased by the number of pounds by which the total marketings of quota peanuts from the farm during previous marketing years (excluding any marketing year before the marketing year for the 1989 crop) were less than the total amount of applicable farm poundage quotas (disregarding adjustments for undermarketings from previous marketing years) for such marketing years.

"(B) For purposes of subparagraph (A), no increase for undermarketings in previous marketing years shall be made to the poundage quota for any farm to the extent that the poundage quota for such farm for the marketing year was reduced under paragraph (4) for failure to produce.

"(C) Any increases in farm poundage quotas under this paragraph shall not be

counted against the national poundage quota for the marketing year involved.

"(D) Any increase in the farm poundage quota for a farm for a marketing year under this paragraph may be used during the marketing year by the transfer of additional peanuts produced on the farm to the quota loan pool for pricing purposes on such basis as the Secretary shall by regulation prescribe.

"(11) Notwithstanding the foregoing provisions of this subsection, if the total of all increases in individual farm poundage quotas under paragraph (10) exceeds 10 percent of the national poundage quota for the marketing year in which such increases shall be applicable, the Secretary shall adjust such increases so that the total of all such increases does not exceed 10 percent of the national poundage quota.

"(n)(1) For each farm for which a farm poundage quota is established under subsection (m), and when necessary for purposes of this Act, an average farm yield of peanuts shall be determined for each such farm.

"(2) Such yield shall be equal to the average of the actual yield per acre on the farm for each of the 3 crop years in which yields were highest on the farm out of the 5 crop years 1973 through 1977.

"(3) If peanuts were not produced on the farm in at least 3 years during such 5-year period or there was a substantial change in the operation of the farm during such period (including, but not limited to, a change in operator, lessee who is an operator, or irrigation practices), the Secretary shall have a yield appraised for the farm. The appraised yield shall be that amount determined to be fair and reasonable on the basis of yields established for similar farms that are located in the area of the farm and on which peanuts were produced, taking into consideration land, labor, and equipment available for the production of peanuts, crop rotation practices, soil and water, and other relevant factors.

"(o)(1) Not later than December 15 of each calendar year, the Secretary shall conduct a referendum of producers engaged in the production of quota peanuts in the calendar year in which the referendum is held to determine whether such producers are in favor of or opposed to poundage quotas with respect to the crops of peanuts produced in the five calendar years immediately following the year in which the referendum is held, except that, if as many as two-thirds of the producers voting in any referendum vote in favor of poundage quotas, no referendum shall be held with respect to quotas for the second, third, fourth, and fifth years of the period.

"(2) The Secretary shall proclaim the result of the referendum within 30 days after the date on which it is held.

"(3) If more than one-third of the producers voting in the referendum vote against quotas, the Secretary also shall proclaim that poundage quotas will not be in effect with respect to the crop of peanuts produced in the calendar year immediately following the calendar year in which the referendum is held.

"(p) For the purposes of this part and title I of the Agricultural Act of 1949:

"(1) The term 'additional peanuts' means, for any marketing year—

"(A) any peanuts that are marketed from a farm for which a farm poundage quota has been established and that are in excess of the marketings of quota peanuts from such farm for such year; and

"(B) all peanuts marketed from a farm for which no farm poundage quota has been established in accordance with subsection (m).

"(2) The term 'crushing' means the processing of peanuts to extract oil for food uses and meal for feed uses, or the processing of peanuts by crushing or otherwise when authorized by the Secretary.

"(3) The term 'domestic edible use' means use for milling to produce domestic food peanuts (other than those described in paragraph (2)), seed, and use on a farm, except that the Secretary may exempt from this definition seeds of peanuts that are used to produce peanuts excluded under section 359(c), are unique strains, and are not commercially available.

"(4) The term 'quota peanuts' means, for any marketing year, any peanuts produced on a farm having a farm poundage quota, as determined in subsection (m), that—

"(A) are eligible for domestic edible use as determined by the Secretary;

"(B) are marketed or considered marketed from a farm; and

"(C) do not exceed the farm poundage quota of such farm for such year.".

SEC. 803. SALE, LEASE, OR TRANSFER OF FARM POUNDAGE QUOTA.

Effective only for the 1991 through 1995 crops of peanuts, subsections (i) and (j) of section 358a of the Agricultural Adjustment Act of 1938 (7 U.S.C. 1358a) are amended to read as follows:

"(i)(1) Subject to such terms, conditions, or limitations as the Secretary may prescribe, the owner, or the operator with permission of the owner, of any farm for which a farm poundage quota has been established under this Act may sell or lease all or any part of such poundage quota to any other owner or operator of a farm within the same county for transfer to such farm, except that any such lease of poundage quota may be entered into in the fall or after the normal planting season only—

"(A) if not less than 90 percent of the farm quota exclusive of undermarketings and temporary quota transfers, plus any poundage quota transferred to the farm under this subsection, has been planted or considered planted on the farm from which the quota is to be leased; and

"(B) under such terms and conditions as the Secretary may by regulation prescribe.

In the case of a fall transfer or a transfer after the normal planting season by a cash lessee, the landowner shall not be required to sign the transfer authorization. A fall transfer or transfer after the normal planting season may be made not later than 72 hours after the peanuts that are the subject of the transfer are inspected and graded.

"(2) The owner or operator of a farm may transfer all or any part of the farm poundage quota for such farm to any other farm owned or controlled by such owner or operator that is in the same county or in a county contiguous to such county in the same State and that had a farm poundage quota for the preceding year's crop. Any farm poundage quota transferred under this paragraph shall not result in any reduction in the farm poundage quota for the transferring farm if such transferred quota is produced or considered produced on the receiving farm.

"(3) Notwithstanding paragraphs (1) and (2), in the case of any State for which the poundage quota opportioned to the State was less than 10,000 tons for the preceding year's crop, all or any part of a farm poundage quota may be transferred by sale or lease or otherwise from a farm in one county to a farm in another county in the same State.

"(j) Transfers (including transfer by sale or lease) of farm poundage quotas under this section shall be subject to all of the following conditions:

"(1) No transfer of the farm poundage quota from a farm subject to a mortgage or other lien shall be permitted unless the transfer is agreed to by the lienholders.

"(2) No transfer of the farm poundage quota shall be permitted if the local county committee established under section 8(b) of the Soil Conservation and Domestic Allotment Act (hereafter in this section referred to as the 'county committee') determines that the receiving farm does not have adequate tillable cropland to produce the transferred farm poundage quota.

"(3) No transfer of the farm poundage quota shall be effective until a record thereof is filed with the county committee of the county to which such transfer is made and such committee determines that the transfer complies with this section.

"(4) Such other terms and conditions that the Secretary may by regulation prescribe.".

SEC. 804. MARKETING PENALTIES; DISPOSITION OF ADDITIONAL PEANUTS.

Effective only for the 1991 through 1995 crops of peanuts, subsections (f) through (l) of section 359 of the Agricultural Adjustment Act of 1938 (7 U.S.C. 1359) are amended to read as follows:

"(f)(1)(A) The marketing of any peanuts for domestic edible use in excess of the farm poundage quota for the farm on which such peanuts are produced shall be subject to penalty at a rate equal to 140 percent of the support price for quota peanuts on the quantity of such excess amount of peanuts for the marketing year in which such marketing occurs.

"(B) For purposes of this section, the marketing year for peanuts shall be the 12-month period beginning August 1 and ending July 31.

"(C) The marketing of any additional peanuts from a farm shall be subject to the same penalty unless such peanuts, in accordance with regulations established by the Secretary, are—

"(i) placed under loan at the additional loan rate in effect for such peanuts under section 108B of the Agricultural Act of 1949 and not redeemed by the producers;

"(ii) marketed through an area marketing association designated pursuant to section 108A(c)(1) of the Agricultural Act of 1949 (7 U.S.C. 1445c-1(c)(1)); or

"(iii) marketed under contracts between handlers and producers pursuant to subsection (j).

"(2) Such penalty shall be paid by the person who buys or otherwise acquires the peanuts from the producer or, if the peanuts are marketed by the producer through an agent, the penalty shall be paid by such agent. Such person or agent may deduct an amount equivalent to the penalty from the price paid to the producer.

"(3) If the person required to collect the penalty fails to collect such penalty, such person and all persons entitled to share in the peanuts marketed from the farm or the proceeds thereof shall be jointly and severally liable for the amount of the penalty.

"(4) Peanuts produced in a calendar year in which farm poundage quotas are in effect for the marketing year beginning therein shall be subject to such quotas even though the peanuts are marketed prior to the date on which such marketing year begins.

"(5) If any producer falsely identifies or fails to certify planted acres or fails to account for the disposition of any peanuts produced on such planted acres, an amount

of peanuts equal to the farm's average yield, as determined under section 358(n), times the planted acres, shall be deemed to have been marketed in violation of permissible uses of quota and additional peanuts. Any penalty payable under this paragraph shall be paid and remitted by the producer.

"(6) The Secretary shall authorize, under such regulations as the Secretary shall issue, the county committees established under section 8(b) of the Soil Conservation and Domestic Allotment Act to waive or reduce marketing penalties provided for under this subsection in cases in which such committees determine that the violations that were the basis of the penalties were unintentional or without knowledge on the part of the parties concerned.

"(7) Errors in weight that do not exceed one-tenth of 1 percent in the case of any one marketing document shall not be considered to be marketing violations except in cases of fraud or conspiracy.

"(g)(1) Only quota peanuts may be retained for use as seed or for other uses on a farm. When so retained, quota peanuts shall be considered as marketings of quota peanuts, except that the Secretary may exempt from consideration as marketings of quota peanuts seeds of peanuts that are used to produce peanuts excluded under subsection (c), are unique strains, and are not commercially available.

"(2) Additional peanuts shall not be retained for use on a farm and shall not be marketed for domestic edible use, except as provided in subsection (k).

"(3) Seed for planting of any peanut acreage in the United States shall be obtained solely from quota peanuts marketed or considered marketed for domestic edible use.

"(h) On a finding by the Secretary that the peanuts marketed from any crop for domestic edible use by a handler are larger in quantity or higher in grade or quality than the peanuts that could reasonably be produced from the quantity of peanuts having the grade, kernel content, and quality of the quota peanuts acquired by such handler from such crop for such marketing, such handler shall be subject to a penalty equal to 140 percent of the loan level for quota peanuts on the quantity of peanuts that the Secretary determines are in excess of the quantity, grade, or quality of the peanuts that could reasonably have been produced from the peanuts so acquired.

"(i)(1) Except as provided in paragraph (2), the Secretary shall require that the handling and disposal of additional peanuts be supervised by agents of the Secretary or by area marketing associations designated pursuant to section 108A(c)(1) of the Agricultural Act of 1949 (7 U.S.C. 1445c-1(c)(1)).

"(2)(A) Supervision of the handling and disposal of additional peanuts by a handler shall not be required under paragraph (1) if the handler agrees in writing, prior to any handling or disposal of such peanuts, to comply with regulations that the Secretary shall issue.

"(B) The regulations issued by the Secretary under subparagraph (A) shall include, but need not be limited to, the following provisions:

"(i) Handlers of shelled or milled peanuts may export or crush peanuts classified by type in all of the following quantities:

"(I) Sound split kernel peanuts purchased by the handler as additional peanuts to which a mandated deduction with respect to the price paid to the producer of such peanuts is applied due to the percentage of such sound splits.

"(II) Sound mature kernel peanuts (which term includes sound split kernel peanuts and sound whole kernel peanuts) in an amount equal to the poundage of such peanuts purchased by the handler as additional peanuts less the total poundage of sound split kernel peanuts described in subclause (I).

"(III) The remaining quantity of total kernel content of peanuts purchased by the handler as additional peanuts.

"(ii) Handlers shall ensure that any additional peanuts exported or crushed are evidenced by onboard bills of lading or other appropriate documentation as may be required by the Secretary, or both.

"(iii) If a handler suffers a loss of peanuts as a result of fire, flood, or any other condition beyond the control of the handler, the portion of such loss allocated to contracted additional peanuts shall not be greater than the portion of the handler's total peanut purchases for the year attributable to contracted additional peanuts purchased for export or crushing by the handler during such year.

"(iv)(I) The obligation of a handler to export or crush peanuts in quantities described in this subparagraph shall be reduced by a shrinkage allowance, to be determined by the Secretary, to reflect actual dollar value shrinkage experienced by handlers in commercial operations, except that such allowance shall not be less than 4 percent, except as provided in sub-clause (II).

"(II) The Secretary may provide a lower shrinkage allowance for a handler who fails to comply with restrictions on the use of peanuts, as may be specified by the Commodity Credit Corporation, to take into account common industry practices.

"(3) A handler shall submit to the Secretary adequate financial guarantees, as well as evidence of adequate facilities and assets, to ensure the handler's compliance with the obligation to export or crush peanuts.

"(4) Quota and additional peanuts of like type and segregation or quality may, under regulations issued by the Secretary, be commingled and exchanged on a dollar value basis to facilitate warehousing, handling, and marketing.

"(5)(A) Except as provided in subparagraph (B), the failure of a handler to comply with regulations issued by the Secretary governing the disposition and handling of additional peanuts shall subject the handler to a penalty equal to 140 percent of the loan level for quota peanuts on the quantity of peanuts involved in such failure to comply.

"(B) A handler shall not be subject to a penalty for failure to export or crush additional peanuts if such peanuts were not delivered to the handler.

"(6) If any additional peanuts exported by a handler are reentered into the United States in commercial quantities as determined by the Secretary, the importer thereof shall be subject to a penalty equal to 140 percent of the loan level for quota peanuts on the quantity of peanuts reentered.

"(j)(1) Handlers may, under such regulations as the Secretary may issue, contract with producers for the purchase of additional peanuts for crushing, export, or both.

"(2)(A) Any such contract shall be completed and submitted to the Secretary (or if designated by the Secretary, the area marketing association) for approval before August 1 of the year in which the crop is produced.

"(B) Such contract shall be executed on a form prescribed by the Secretary. The form shall require such information as the Secretary determines appropriate to ensure the proper handling of such additional peanuts, including the identity of the contracting parties, the poundage and category of the peanuts, the disclosure of any liens on such peanuts, and the intended disposition of the peanuts.

"(C) Notwithstanding any other provision of this section, any person wishing to handle and process additional peanuts as a handler shall submit to the Secretary (or if designated by the Secretary, the area marketing association), such information as may be required under subsection (i) by such date as prescribed by the Secretary so as to permit final action to be taken on the application by July 1 of each marketing year.

"(3) Each such contract shall contain the final price to be paid by the handler for the peanuts involved and a specific prohibition against the disposition of such peanuts for domestic edible or seed use.

"(4) Notwithstanding any other provision of this Act, if the President issues a proclamation under section 22 of the Agricultural Adjustment Act temporarily suspending restrictions on, or increasing any quota for, the importation of peanuts, the Secretary shall permit a handler, subject to such terms and conditions as the Secretary may prescribe, with the written consent of the producer, to purchase additional peanuts from any producer who contracted with the handler and to offer such peanuts for sale for domestic edible, seed or related uses.

"(k)(1) Subject to section 407 of the Agricultural Act of 1949 (7 U.S.C. 1427), any peanuts owned or controlled by the Commodity Credit Corporation may be made available for domestic edible use, in accordance with regulations issued by the Secretary, so long as doing so does not result in substantially increased cost to the Commodity Credit Corporation. Additional peanuts received under loan shall be offered for sale for domestic edible use at prices not less than those required to cover all costs incurred with respect to such peanuts for such items as inspection, warehousing, shrinkage, and other expenses, plus—

"(A) not less than 100 percent of the loan value of quota peanuts if the additional peanuts are sold and paid for during the harvest season on delivery by and with the written consent of the producer;

"(B) not less than 105 percent of the loan value of quota peanuts if the additional peanuts are sold after delivery by the producer but not later than December 31 of the marketing year; or

"(C) not less than 107 percent of the loan value of quota peanuts if the additional peanuts are sold later than December 31 of the marketing year.

"(2)(A) Except as provided in subparagraph (B), for the period from the date additional peanuts are delivered for loan to March 1 of the calendar year following the year in which such additional peanuts were harvested, the area marketing association designated pursuant to section 108A(c)(1) of the Agricultural Act of 1949 (7 U.S.C. 1445c-1(c)(1)) shall have sole authority to accept or reject lot list bids when the sales price, as determined under this subsection, equals or exceeds the minimum price at which the Commodity Credit Corporation may sell its stocks of additional peanuts.

"(B) The area marketing association and the Commodity Credit Corporation may agree to modify the authority granted by subparagraph (A) to facilitate the orderly marketing of additional peanuts.

"(l)(1) The person liable for payment or collection of any penalty provided for in this section shall be liable also for interest thereon at a rate per annum equal to the rate per annum of interest that was charged the Commodity Credit Corporation by the Treasury of the United States on the date such penalty became due.

"(2) This section shall not apply to peanuts produced on any farm on which the acreage harvested for nuts is one acre or less if the producers who share in the peanuts produced on such farm do not share in the peanuts produced on any other farm.

"(3) Until the amount of the penalty provided by this section is paid, a lien on the crop of peanuts with respect to which such penalty is incurred, and on any subsequent crop of peanuts subject to farm poundage quotas in which the person liable for payment of the penalty has an interest, shall be in effect in favor of the United States.

"(4)(A) Notwithstanding any other provision of law, the liability for and the amount of any penalty assessed under this section shall be determined in accordance with such procedures as the Secretary by regulation may prescribe. The facts constituting the basis for determining the liability for or amount of any penalty assessed under this section, when officially determined in conformity with the applicable regulations prescribed by the Secretary, shall be final and conclusive and shall not be reviewable by any other officer or agency of the Government.

"(B) Nothing in this section shall be construed as prohibiting any court of competent jurisdiction from reviewing any determination made by the Secretary with respect to whether such determination was made in conformity with the applicable law and regulations.

"(C) All penalties imposed under this section shall for all purposes be considered civil penalties.

"(5)(A) Notwithstanding any other provision of law and except as provided in subparagraph (B), the Secretary may reduce the amount of any penalty assessed against handlers under this section by any appropriate amount, including, in an appropriate case, reducing the penalty to zero, if the Secretary finds that the violation on which the penalty is based was minor or inadvertent, and that the reduction of the penalty will not impair the operation of the peanut program.

"(B) The amount of any penalty imposed on a handler under this section that resulted from the failure to export contracted additional peanuts may not be reduced by the Secretary.".

SEC. 805. PRICE SUPPORT PROGRAM.

Effective only for the 1991 through 1995 crops of peanuts, section 108A of the Agricultural Act of 1949 (7 U.S.C. 1445c-1) is amended to read as follows:

"PRICE SUPPORT FOR 1991 THROUGH 1995 CROPS OF PEANUTS

"SEC. 108A. (a)(1) The Secretary shall make price support available to producers through loans, purchases, and other operations on quota peanuts for each of the 1991 through 1995 crops.

"(2) The national average quota support rate for each of the 1991 through 1995 crops of quota peanuts shall be the national average quota support rate for the immediately preceding crop, adjusted to reflect any increase, during the calendar year immediately preceding the marketing year for the crop for which a level of support is being determined, in the national average cost of peanut production, excluding any change in the cost of land, except that in no event shall the national average quota support rate for any such crop exceed by more than 6 percent the national average quota support rate for the preceding crop.

"(3) The levels of support so announced shall not be reduced by any deductions for inspection, handling, or storage.

"(4) The Secretary may make adjustments for location of peanuts and such other factors as are authorized by section 403.

"(5) The Secretary shall announce the level of support for quota peanuts of each crop not later than February 15 preceding the marketing year for the crop for which the level of support is being determined.

"(b)(1) The Secretary shall make price support available to producers through loans, purchases, or other operations on additional peanuts for each of the 1991 through 1995 crops at such levels as the Secretary finds appropriate, taking into consideration the demand for peanut oil and peanut meal, expected prices of other vegetable oils and protein meals, and the demand for peanuts in foreign markets, except that the Secretary shall set the support rate on additional peanuts at a level estimated by the Secretary to ensure that there are no losses to the Commodity Credit Corporation on the sale or disposal of such peanuts.

"(2) The Secretary shall announce the level of support for additional peanuts of each crop not later than February 15 preceding the marketing year for the crop for which the level of support is being determined.

"(c)(1)(A) In carrying out subsection (a) and (b), the Secretary shall make warehouse storage loans available in each of the three producing areas (described in section 1446.60 of title 7 of the Code of Federal Regulations (January 1, 1985)) to a designated area marketing association of peanut producers that is selected and approved by the Secretary and that is operated primarily for the purpose of conducting such loan activities. The Secretary may not make warehouse storage loans available to any cooperative that is engaged in operations or activities concerning peanuts other than those operations and activities specified in this section and section 359 of the Agricultural Adjustment Act of 1938 (7 U.S.C. 1359).

"(B) Such area marketing associations shall be used in administrative and supervisory activities relating to price support and marketing activities under this section and section 359 of the Agricultural Adjustment Act of 1938 (7 U.S.C. 1359).

"(C) Loans made under this paragraph shall include, in addition to the price support value of the peanuts, such costs as the area marketing association reasonably may incur in carrying out its responsibilities, operations, and activities under this section and section 359 of the Agricultural Adjustment Act of 1938 (7 U.S.C. 1359).

"(2)(A) The Secretary shall require that each area marketing association establish pools and maintain complete and accurate records by area and segregation for quota peanuts handled under loan and for additional peanuts placed under loan, except that separate pools shall be established for Valencia peanuts produced in New Mexico. Bright hull and dark hull Valencia peanuts shall be considered as separate types for the purpose of establishing such pools.

"(B) Net gains on peanuts in each pool, unless otherwise approved by the Secretary, shall be distributed only to producers who placed peanuts in the pool and shall be distributed in proportion to the value of the peanuts placed in the pool by each producer. Net gains for peanuts in each pool shall consist of the following:

"(i) For quota peanuts, the net gains over and above the loan indebtedness and other costs or losses incurred on peanuts placed in such pool plus an amount from all additional pool gains equal to any loss on disposition of all peanuts in the pool for quota peanuts.

"(ii) For additional peanuts, the net gains over and above the loan indebtedness and other costs or losses incurred on peanuts placed in the pool for additional peanuts less any amount allocated to offset any loss on the pool for quota peanuts as provided in clause (i).

"(d) Notwithstanding any other provision of this section:

"(1) Any distribution of net gains on additional peanuts (other than net gains on additional peanuts in separate type pools established under subsection (c)(2)(A) for Valencia peanuts produced in New Mexico) shall be first reduced to the extent of any loss by the Commodity Credit Corporation on quota peanuts placed under loan.

"(2)(A) The proceeds due any producer from any pool shall be reduced by the amount of any loss that is incurred with respect to peanuts transferred from an additional loan pool to a quota loan pool under section 358(m)(10) of the Agricultural Adjustment Act of 1938 (7 U.S.C. 1358(m)(10)).

"(B) Losses in area quota pools, other than losses incurred as a result of transfers from additional loan pools to quota loan pools under section 358(m)(10) of the Agricultural Adjustment Act of 1938 (7 U.S.C. 1358(m)(10)), shall be offset by any gains or profits from pools in other production areas (other than separate type pools established under subsection (c)(2)(A) for Valencia peanuts produced in New Mexico) in such manner as the Secretary shall by regulation prescribe.

"(e) Notwithstanding any other provision of law, no price support may be made available by the Secretary for any crop of peanuts with respect to which poundage quotas have been disapproved by producers, as provided for in section 358(c) of the Agricultural Adjustment Act of 1938 (7 U.S.C. 1358(c).".

SEC. 806. REPORTS AND RECORDS.

Effective only for the 1991 through 1995 crops of peanuts, the first sentence of section 373(a) of the Agricultural Adjustment Act of 1938 (7 U.S.C. 1373(a)) is amended by inserting before "all brokers and dealers in peanuts" the following: "all producers engaged in the production of peanuts,".

SEC. 807. SUSPENSION OF CERTAIN PRICE SUPPORT PROVISIONS.

Section 101 of the Agricultural Act of 1949 (7 U.S.C. 1441) shall not be applicable to the 1991 through 1995 crops of peanuts.

SEC. 808. EXPERIMENTAL AND RESEARCH PROGRAMS FOR PEANUTS.

Effective only for the 1991 through 1995 crops of peanuts, the Agricultural Adjustment Act of 1938 is amended by inserting after section 358a the following:

"QUOTA FOR RESEARCH

"SEC. 358b. Notwithstanding any other provision of this Act, the Secretary may permit a portion of the poundage quota for peanuts apportioned to any State to be allocated from such State's quota reserve to land-grant institutions identified in the Act of May 8, 1914 (7 U.S.C. 341 et seq.), and colleges eligible to receive funds under the Act of August 30, 1890 (7 U.S.C. 321-326 and 328), including Tuskegee Institute and, as

appropriate, the Agricultural Research Service of the Department of Agriculture to be used for experimental and research purposes in an amount equal to that amount of quota held by each such institution during 1985 up to one tenth of one percent of such State's basic quota. The responsibility for complying with the duties of the farm operator with respect to the production of such quota peanuts shall be vested in the director of the Agricultural Experiment Station for the State.".

SEC. 809. CONFORMING CHANGES.

Section 8b of the Agricultural Adjustment Act (7 U.S.C. 608b), reenacted with amendments by the Agricultural Marketing Agreement Act of 1937, is amended in subsection (b)(2) by striking "section 108B of".

TITLE IX—WHEAT

SEC. 901. LOAN RATES, TARGET PRICES, DISASTER PAYMENTS, ACREAGE LIMITATION PROGRAM, AND LAND DIVERSION FOR THE 1991 THROUGH 1995 CROPS OF WHEAT.

Effective only for the 1991 through 1995 crops of wheat, section 107A of the Agricultural Act of 1949 (7 U.S.C. 1445b) is amended to read as follows:

"SEC. 107A. ANNUAL PROGRAM FOR 1991 THROUGH 1995 CROPS OF WHEAT.

"(a) LOANS AND PURCHASES.—(1) IN GENERAL.—Except as provided in paragraphs (2), (3), and (4), the Secretary shall make available to producers loans and purchases for each of the 1991 through 1995 crops of wheat at such level as the Secretary determines will maintain the competitive relationship of wheat to other grains in domestic and export markets after taking into consideration the cost of producing wheat, supply and demand conditions, and world prices for wheat.

"(2) MINIMUM LOAN AND PURCHASE LEVEL.—(A) 1991 CROP TRANSITION RULE.—From June 1, 1991 to September 30, 1991, the loan and purchase level for the 1991 crop of wheat shall be not less than $1.93 per bushel. Beginning October 1, 1991, the Secretary shall make available to producers who pledged 1991 crop wheat as collateral for a price support loan, or whose 1991 crop wheat was purchased by the Secretary, at the $1.93 level an increase in the loan or purchase amount such that the loan and purchase level is equal to the level described in subparagraph (B).

"(B) 1991 THROUGH 1995 CROPS.—Except as provided in subparagraph A and paragraphs (3) and (4), the loan and purchase level determined under paragraph (1) shall not be less than 85 percent of the simple average price received by producers of wheat, as determined by the Secretary, during the marketing years for the immediately preceding 5 crops of wheat, excluding the year in which the average price was the highest and the year in which the average price was the lowest in such period, except that the loan and purchase level for a crop determined under this paragraph may not be reduced by more than 5 percent from the level determined for the preceding crop.

"(3) ADJUSTMENTS TO SUPPORT LEVEL.—(A) STOCKS TO USE RATIO.—If the Secretary estimates for any marketing year that the ratio of ending stocks of wheat to total use for the marketing year will be—

"(i) equal to or greater than 30 percent, the Secretary may reduce the loan and purchase level for wheat for the corresponding crop by an amount not to exceed 10 percent.

"(ii) or less than 30 percent but not less than 15 percent, the Secretary may reduce the loan and purchase level for wheat for the corresponding crop by an amount not to exceed 5 percent.

"(iii) less than 15 percent, the Secretary may not reduce the loan and purchase level for wheat for the corresponding.

"(B) REPORT TO CONGRESS.—(i) If the Secretary adjusts the level of loans and purchases for wheat under subparagraph (A), the Secretary shall submit to the Committee on Agriculture of the House of Representatives and the Committee on Agriculture, Nutrition, and Forestry of the Senate a report—

"(I) certifying such adjustment as necessary to prevent the build-up of stocks and to retain market share; and

"(II) containing a description of the need for such adjustment.

"(ii) Such adjustment shall become effective no earlier than 60 calendar days after the date of submission of such report to such committees.

"(C) COMPETITIVE POSITION.—Notwithstanding the provisions of subparagraph (A), if the Secretary determines, not later than 60 days prior to the beginning of a marketing year for a crop, that the effective loan rate established for such crop will not maintain a competitive market position for wheat, the Secretary may reduce the loan and purchase level for wheat for the marketing year by an amount, in addition to any reduction under subparagraph (A), not to exceed 10 percent in any year.

"(D) NO EFFECT ON FUTURE YEARS.—Any reduction in the loan and purchase level for wheat under this paragraph shall not be considered in determining the loan and purchase level for wheat for subsequent years.

"(E) MINIMUM LOAN RATE.—Notwithstanding the provisions of subparagraph (A), the loan rate for wheat shall not be less than $2.44 per bushel, unless such rate would exceed 80 percent of the five year average market price determination.

"(4) MARKETING LOAN.—(A) IN GENERAL.—The Secretary may permit a producer to repay a loan made under paragraph (1) for a crop at a level that is the lesser of—

"(i) the loan level determined for such crop; or

"(ii) the higher of—

"(I) 70 percent of such level;

"(II) if the loan level for a crop was reduced under paragraph (3), 70 percent of the loan level that would have been in effect but for the reduction under paragraph (3); or

"(III) the prevailing world market price for wheat, as determined by the Secretary.

"(B) WORLD PRICE FORMULA.—If the Secretary permits a producer to repay a loan in accordance with subparagraph (A), the Secretary shall prescribe by regulation—

"(i) a formula to define the prevailing world market price for wheat; and

"(ii) a mechanism by which the Secretary shall announce periodically the prevailing world market price for wheat.

"(5) SIMPLE AVERAGE PRICE.—For purposes of this section, the Secretary in determining the simple average price received by producers for the immediately preceding marketing year shall use the latest information available to the Secretary at the time of the determination.

"(b) PAYMENTS FOR FORGOING LOAN OR PURCHASE.—(1) IN GENERAL.—The Secretary may, for each of the 1991 through 1995 crops of wheat, make payments available to producers who, although eligible to obtain a loan or purchase agreement under subsection (a), agree to forgo obtaining such loan or agreement in return for such payments.

"(2) COMPUTATION.—A payment under this subsection shall be computed by multiplying—

"(A) the loan payment rate; by

"(B) the quantity of wheat the producer is eligible to place under loan.

"(3) QUANTITY ELIGIBLE.—For purposes of this subsection, the quantity of wheat eligible to be placed under loan may not exceed the product obtained by multiplying—

"(A) the individual farm program acreage for the crop; by

"(B) the farm program payment yield established for the farm.

"(4) PAYMENT RATE.—For purposes of this subsection, the loan payment rate shall be the amount by which—

"(A) the loan level determined for such crop under subsection (a); exceeds

"(B) the level at which a loan may be repaid under subsection (a).

"(c) DEFICIENCY PAYMENTS.—(1) IN GENERAL.—(A) COMPUTATION.—The Secretary shall make available to producers payments to be known as 'deficiency payments' for each of the 1991 through 1995 crops of wheat in an amount computed by multiplying—

"(i) the payment rate; by

"(ii) the individual farm program acreage for the crop; by

"(iii) the farm program payment yield for the crop for the farm.

"(B) 0/92 PROGRAM.—(i) If an acreage limitation program under subsection (f)(2) is in effect for a crop of wheat and the producers on a farm devote a portion of the permitted wheat acreage of the farm (as determined in accordance with subsection (f)(2)(A)) equal to more than 8 percent of the permitted wheat acreage of the farm for the crop to conservation uses (except as provided in subparagraph (G))—

"(I) such portion of the permitted wheat acreage of the farm in excess of 8 percent of such acreage devoted to conservation uses (except as provided in subparagraph (G)) shall be considered to be planted to wheat for the purpose of determining the individual farm program acreage in accordance with subsection (f)(2)(F) and for the purpose of determining the acreage on the farm required to be devoted to conservation uses in accordance with subsection (f)(2)(D); and

"(II) the producers shall be eligible for payments under this paragraph on such acreage.

"(ii) Notwithstanding any other provision of this section, any producer who elects to devote all or a portion of the permitted wheat acreage of the farm to conservation uses (or other uses as provided in subparagraph (G)) under this subparagraph shall receive deficiency payments on the acreage that is considered to be planted to wheat and eligible for payments under this subparagraph for such crop at a per-bushel rate established by the Secretary, except that such rate may not be established at less than the projected deficiency payment rate for the crop, as determined by the Secretary. Such projected payment rate for the crop shall be announced by the Secretary prior to the period during which wheat producers may agree to participate in the program for such crop.

"(iii) The Secretary shall implement this subparagraph in such a manner as to minimize the adverse effect on agribusiness and other agriculturally related economic interests within any county, State, or region. In carrying out this subparagraph, the Secretary may restrict the total amount of wheat acreage that may be taken out of production under this subparagraph, taking into consideration the total amount of wheat acreage that has or will be removed from production under other price support, production

adjustment, or conservation program activities. No restrictions on the amount of acreage that may be taken out of production in accordance with this subparagraph in a crop year shall be imposed in the case of a county in which producers were eligible to receive disaster emergency loans under section 321 of the Consolidated Farm and Rural Development Act (7 U.S.C. 1961) as a result of a disaster that occurred during such crop year.

"(iv) The wheat crop acreage base and wheat farm program payment yield of the farm shall not be reduced due to the fact that such portion of the permitted acreage of the farm was devoted to conserving uses (except as provided in subparagraph (G)).

"(v) Other than as provided in clauses (i) through (iv), payments may not be made under this paragraph for any crop on a greater acreage than the acreage actually planted to wheat.

"(vi) Any acreage considered to be planted to wheat in accordance with clause (i) may not also be designated as conservation use acreage for the purpose of fulfilling any provisions under any acreage limitation, set-aside, or land diversion program requiring that the producers devote a specified acreage to conservation uses.

"(C) PAYMENT RATE.—The payment rate for wheat shall be the amount by which the established price for the crop of wheat exceeds the higher of—

"(i) the national weighted average market price received by producers during the first 6 months of the marketing year for such crop, as determined by the Secretary; or

"(ii) the loan level determined for such crop, prior to any adjustment made under subsection (a)(3) for the marketing year for such crop of wheat.

"(D) COMPENSATION FOR SUPPORT LEVEL ADJUSTMENT.—(i) Notwithstanding the foregoing provisions of this section, if the Secretary adjusts the level of loans and purchases for wheat under subsection (a)(3), the Secretary shall provide emergency compensation by increasing the payments for wheat by such amount as the Secretary determines necessary to provide the same total return to producers as if the adjustment in the level of loans and purchases had not been made.

"(ii) In determining the payment rate, per bushel, for payments for a crop of wheat under this subparagraph, the Secretary shall use the national weighted average market price, per bushel of wheat, received by producers during the marketing year for such crop, as determined by the Secretary.

"(iii) Notwithstanding any other provision of this Act the Secretary shall—

"(I) by December 1 of the marketing year for the crop estimate the national weighted average market price, per bushel of wheat, received by producers during such marketing year;

"(II) by December 15 of such marketing year use the estimate to make available to producers who have elected the payment option authorized by this clause not less than 75 percent of the increase in payments estimated to be payable with respect to such crop under this subparagraph; and

"(III) adjust the amount of each final payment for wheat to reflect any difference between the amount of any estimated payment made under this clause and the amount of actual payment due under this subparagraph.

"(iv) Producers shall elect the payment option authorized by clause (iii) at the time of entering into a contract to participate in the program established by this section for the crop.

"(E)(i) MINIMUM ESTABLISHED PRICE.—The established price for wheat shall not be less than $4 per bushel.

"(ii) ESTABLISHED PRICE INCREASE.—If in any crop year the Secretary announces an acreage limitation program under subsection (H)(2) or a set-aside program under subsection (F)(3) for farms under which the percentage reduction or set-aside is in excess of 22.5 percent, then the established price for such crop shall be increased by an amount not less than 2.55 percent of the established price for such crop for each 2.5 percent incremental increase of such percentage reduction or set aside in excess of 22.5 percent.

"(F) REDUCTION FOR DISASTER PAYMENTS.—The total quantity of wheat on which payments would otherwise be payable to a producer on a farm for any crop under this paragraph shall be reduced by the quantity on which any disaster payment is made to the producer for the crop under paragraph (2).

"(G) ALTERNATIVE CROPS.—The Secretary may permit, subject to such terms and conditions as the Secretary may prescribe, all or any part of acreage otherwise required to be devoted to conservation uses as a condition of qualifying for payments under subparagraph (B) to be devoted to sweet sorghum or the production of guar, sesame, castor beans, crambe, plantago ovato, triticale, rye, commodities for which no substantial domestic production or market exists but that could yield industrial raw material being imported, or likely to be imported, into the United States, or commodities grown for experimental purposes (including kenaf), subject to the following sentence. The Secretary may permit such acreage to be devoted to such production only if the Secretary determines that—

"(i) the production is not likely to increase the cost of the price support program and will not affect farm income adversely; and

"(ii) the production is needed to provide an adequate supply of the commodity, or, in the case of commodities for which no substantial domestic production or market exists but that could yield industrial raw materials, the production is needed to encourage domestic manufacture of such raw material and could lead to increased industrial use of such raw material to the long-term benefit of United States industry.

"(H)(i) TARGET OPTION PROGRAM.—Subject to clauses (ii) and (iii), if an acreage limitation program under subsection (f)(2) is in effect for a crop of wheat and the producers on a farm devote a portion of the permitted wheat acreage of the farm (as determined in accordance with subsection (f)(2)(A)) to conservation uses, the producers shall be eligible for an increase of up to one percent in the established price of wheat, on the acreage on the farm actually planted to wheat, for each one percent of the permitted wheat acreage of the farm devoted to conservation uses.

"(ii) The portion of permitted wheat acreage of the farm devoted to conservation uses under clause (i) shall not exceed 10 percent of the crop acreage base of the farm.

"(iii) Such increase in the established price shall not result in a producer receiving more in payments than the maximum amount such producers would be eligible to receive under section 107A(c)(1)(B).

"(iv) The wheat crop acreage base and the wheat farm program payment yield for the farm may not be reduced due to the fact that such portion of the permitted acreage of the farm was devoted to conserving uses.

"(2) DISASTER ASSISTANCE.—(A) PREVENTED PLANTING PAYMENTS.—(i) Except as provided in subparagraph (C), if the Secretary determines that the producers on a farm are prevented from planting any portion of the acreage intended for wheat to wheat or other nonconserving crops because of drought, flood, or other natural disaster, or other condition beyond the control of the producers, including such condition resulting from the adjudication of Indian water settlement disputes, the Secretary shall make a prevented planting disaster payment to the producers in an amount equal to the product obtained by multiplying—

"(I) the number of acres so affected but not to exceed the acreage planted to wheat for harvest (including any acreage that the producers were prevented from planting to wheat or other nonconserving crops in lieu of wheat because of drought, flood, or other natural disaster, or other condition beyond the control of the producers) in the immediately preceding year; by

"(II) 75 percent of the farm program payment yield established by the Secretary; by

"(III) a payment rate equal to 33⅓ percent of the average of the established prices for the crop.

"(ii) Payments made by the Secretary under this subparagraph may be made in the form of cash or from stocks of wheat held by the Commodity Credit Corporation.

"(B) REDUCED YIELD PAYMENTS.—Except as provided in subparagraph (C), if the Secretary determines that because of drought, flood, or other natural disaster, or other condition beyond the control of the producers, including such condition resulting from the adjudication of Indian water settlement disputes, the total quantity of wheat that the producers are able to harvest on any farm is less than the result of multiplying 60 percent of the farm program payment yield established by the Secretary for such crop by the acreage planted for harvest for such crop, the Secretary shall make a reduced yield disaster payment to the producers at a rate equal to 50 percent of the established price for the crop for the deficiency in production below 60 percent for the crop.

"(C) LIMITATION DUE TO CROP INSURANCE.—Producers on a farm shall not be eligible for—

"(i) prevented planting disaster payments under subparagraph (A), if prevented planting crop insurance is available to the producers under the Federal Crop Insurance Act (7 U.S.C. 1501 et seq.) with respect to the wheat acreage of the producers; or

"(ii) reduced yield disaster payments under subparagraph (B), if reduced yield crop insurance is available to the producers under such Act with respect to the wheat acreage of the producers.

"(D) EXCEPTION FROM LIMITATION.—(i) Notwithstanding subparagraph (C), the Secretary may make a disaster payment to producers on a farm under this paragraph if the Secretary determines that—

"(I) as the result of drought, flood, or other natural disaster, or other condition beyond the control of the producers, including such condition resulting from the adjudication of Indian water settlement disputes, the producers on a farm have suffered substantial losses of production either from being prevented from planting wheat or other nonconserving crops or from reduced yields;

"(II) such losses have created an economic emergency for the producers;

"(III) crop insurance indemnity payments under the Federal Crop Insurance Act (7 U.S.C. 1501 et seq.) and other forms of assistance made available by the Federal Government to such producers for such losses are

insufficient to alleviate such economic emergency; and

"(IV) additional assistance must be made available to such producers to alleviate such economic emergency.

"(ii) The Secretary may make such adjustments in the amount of payments made available under this subparagraph with respect to an individual farm so as to assure the equitable allotment of such payments among producers, taking into account other forms of Federal disaster assistance provided to the producers for the crop involved.

"(d) NATIONAL PROGRAM ACREAGE.—(1) IN GENERAL.—(A) PROCLAMATION.—Except for a crop with respect to which there is an acreage limitation program in effect under subsection (f), the Secretary shall proclaim a national program acreage. The proclamation shall be made not later than June 1 of each calendar year for the crop harvested in the next succeeding calendar year.

"(B) REVISION.—The Secretary may revise the national program acreage first proclaimed for any crop year for the purpose of determining the allocation factor under paragraph (2) if the Secretary determines it necessary based on the latest information. The Secretary shall proclaim such revised national program acreage as soon as such revision is made.

"(C) AMOUNT OF ACREAGE.—The national program acreage for wheat shall be the number of harvested acres that the Secretary determines (on the basis of the weighted national average of the farm program payment yields for the crop for which the determination is made) will produce the quantity (less imports) that the Secretary estimates will be utilized domestically and for export during the marketing year for such crop.

"(D) ADJUSTMENT FOR CARRYOVER.—If the Secretary determines that carryover stocks of wheat are excessive or an increase in stocks is needed to assure desirable carryover, the Secretary may adjust the national program acreage by the quantity the Secretary determines will accomplish the desired increase or decrease in carryover stocks.

"(2) PROGRAM ALLOCATION FACTOR.—The Secretary shall determine a program allocation factor for each crop of wheat, if the Secretary proclaims a national program acreage for such crop. The allocation factor for wheat shall be determined by dividing the national program acreage for the crop by the number of acres that the Secretary estimates will be harvested for such crop, except that in no event shall the allocation factor for any crop of wheat be more than 100 percent nor less than 80 percent.

"(3) FARM PROGRAM ACREAGE.—(A) DETERMINATION.—Except as provided in subsection (f)(2), the individual farm program acreage for each crop of wheat shall be determined by multiplying the allocation factor by the acreage of wheat planted for harvest on the farms for which individual farm program acreages are required to be determined.

"(B) LIMITATION ON REDUCTION.—The individual farm program acreage shall not be further reduced by application of the allocation factor if the producers on a farm reduce the acreage of wheat planted for harvest on the farm from the crop acreage base established for the farm under title V by at least the percentage recommended by the Secretary in the proclamation of the national program acreage.

"(C) FAIR AND EQUITABLE TREATMENT.—The Secretary shall provide fair and equitable treatment for producers on farms on which the acreage of wheat planted for harvest is less than the crop acreage base established for the farm under title V, but for which the reduction is insufficient to exempt the farm from the application of the allocation factor.

"(D) ADJUSTMENT FOR EXEMPTIONS.—In establishing the allocation factor for wheat, the Secretary may make such adjustment as the Secretary deems necessary to take into account the extent of exemption of farms under the foregoing provisions of this paragraph.

"(e) FARM PROGRAM PAYMENT YIELDS.—The farm program payment yields for farms for each crop of wheat shall be determined under title V.

"(f) PROGRAMS TO REDUCE ACREAGE.—(1) IN GENERAL.—(A) EXCESSIVE SUPPLY.—(i) Notwithstanding any other provision of this Act, except as provided in subparagraphs (B) and (C), if the Secretary determines that the total supply of wheat, in the absence of an acreage limitation or set-aside program, will be excessive taking into account the need for an adequate carryover to maintain reasonable and stable supplies and prices and to meet a national emergency, the Secretary may provide for any crop of wheat either an acreage limitation program as described in paragraph (2) or a set-aside program as described in paragraph (3).

"(ii) In making a determination under clause (i), the Secretary shall take into consideration the number of acres placed in the conservation acreage reserve established under section 1231 of the Food Security Act of 1985 (16 U.S.C. 3831).

"(iii) If the Secretary elects to put either of such programs into effect for any crop year, the Secretary shall announce any such program not later than June 1 prior to the calendar year in which the crop is harvested.

"(iv) Not later than July 31 of the year previous to the year in which the crop is harvested, the Secretary may make adjustments in the program announced under clause (iii) if the Secretary determines that there has been a significant change in the total supply of wheat since the program was first announced.

"(B) AMOUNT OF ACREAGE LIMITATION.—In the case of each of the 1991 through 1995 crops of wheat, if the Secretary estimates for a marketing year for the crop that the ratio of ending stocks of wheat to total use of wheat for the marketing year will be—

"(i) more than 40 percent, the Secretary shall provide for an acreage limitation program (as described in paragraph (2)) under which the acreage planted to wheat for harvest on a farm would be limited to the wheat crop acreage base for the farm for the crop reduced by not less than 20 percent nor more than 30 percent; or

"(ii) equal to or less than 40 percent, the Secretary may provide for such an acreage limitation program under which the acreage planted to wheat for harvest on a farm would be limited to the wheat crop acreage base for the farm for the crop reduced by not more than 20 percent.

"(C) CONDITION FOR ELIGIBILITY.—As a condition of eligibility for loans, purchases, and payments for any such crop of wheat, except as provided in subsection (g), the producers on a farm must comply with the terms and conditions of the acreage limitation program and, if applicable, any land diversion program, as provided in paragraph (5).

"(2) ACREAGE LIMITATION PROGRAM.—(A) UNIFORM PERCENTAGE.—If a wheat acreage limitation program is announced under paragraph (1), such limitation shall be achieved by applying a uniform percentage reduction to the wheat crop acreage base for the crop for each wheat-producing farm.

"(B) ENFORCEMENT.—Except as provided in subsection (g), producers who knowingly produce wheat in excess of the permitted wheat acreage for the farm shall be ineligible for wheat loans, purchases, and payments with respect to that farm.

"(C) WHEAT CROP ACREAGE BASE.—Wheat crop acreage bases for each crop of wheat shall be determined under title V.

"(D) DETERMINATION OF CONSERVATION USE ACREAGE.—(i) A number of acres on the farm shall be devoted to conservation uses, in accordance with regulations issued by the Secretary. Such number shall be determined by dividing—

"(I) the product obtained by multiplying the number of acres required to be withdrawn from the production of wheat times the number of acres planted to such commodity; by

"(II) the number of acres authorized to be planted to such commodity under the limitation established by the Secretary.

"(ii) The number of acres so determined is hereafter in this subsection referred to as 'reduced acreage'.

"(E) INAPPLICABILITY OF NATIONAL PROGRAM ACREAGE.—If an acreage limitation program is announced under paragraph (1) for a crop of wheat, subsection (d) shall not be applicable to such crop, including any prior announcement that may have been made under such subsection with respect to such crop.

"(F) INDIVIDUAL FARM PROGRAM ACREAGE.—Except as otherwise provided in subsections (c)(1)(B) and (c)(1)(H), the individual farm program acreage shall be the acreage planted on the farm to wheat for harvest within the permitted wheat acreage for the farm as established under this paragraph.

"(3) SET-ASIDE PROGRAM.—(A) IN GENERAL.—If a set-aside program is announced under paragraph (1), as a condition of eligibility for loans, purchases, and payments for wheat authorized by this Act (except as provided in subsection (g)), the producers on a farm shall—

"(i) set aside and devote to conservation uses an acreage of cropland equal to a specified percentage, as determined by the Secretary, of the acreage of wheat planted for harvest for the crop for which the set-aside is in effect; and

"(ii) otherwise comply with the terms of such program.

"(B) CONSERVATION USE REQUIRED.—The set-aside acreage shall be devoted to conservation uses, in accordance with regulations issued by the Secretary.

"(C) UNIFORM ACREAGE LIMITATION.—If a set-aside program is established, the Secretary may limit the acreage planted to wheat. Such limitation shall be applied on a uniform basis to all wheat-producing farms.

"(D) ADJUSTMENTS TO SET-ASIDE.—The Secretary may make such adjustments in individual set-aside acreages under this paragraph as the Secretary determines necessary—

"(i) to correct for abnormal factors affecting production; and

"(ii) to give due consideration to tillable acreage, crop-rotation practices, types of soil, soil and water conservation measures, topography, and such other factors as the Secretary determines necessary.

"(4) USE OF CONSERVATION ACREAGE.—(A) PROTECTION FROM WEEDS AND EROSION.—The regulations issued by the Secretary under paragraphs (2) and (3) with respect to acreage required to be devoted to conservation uses shall assure protection of such acreage from weeds and wind and water erosion.

"(B) PERMITTED PLANTINGS.—The Secretary may permit, subject to such terms and conditions as the Secretary may prescribe, all or any part of such acreage to be devoted to sweet sorghum, or the production of guar, sesame, safflower, sunflower, castor beans, mustard seed, crambe, plantago ovato, flaxseed, triticale, rye, or other commodity, if the Secretary determines that such production is needed to provide an adequate supply of such commodities, is not likely to increase the cost of the price support program, and will not affect farm income adversely.

"(C) HAYING AND GRAZING.—(i) Except as provided in clause (ii), haying and grazing of acreage designated as conservation use acreage for the purpose of meeting any requirements established under an acreage limitation program (including a program conducted under subsection (c)(1)(B) or subsection (c)(1)(H)), set-aside program, or land diversion program established under this section shall be permitted, except during any consecutive 5-month period that is established by the State committee established under section 8(b) of the Soil Conservation and Domestic Allotment Act (16 U.S.C. 590h(b)) for a State. Such 5-month period shall be established during the period beginning April 1, and ending October 31, of a year.

"(ii) In the case of a natural disaster, the Secretary may permit unlimited haying and grazing on such acreage. The Secretary may not exclude irrigated or irrigable acreage not planted in alfalfa when exercising the authority under this clause.

"(D) SUMMER FALLOW.—In determining the quantity of land to be devoted to conservation uses under an acreage limitation or set-aside program with respect to land that has been farmed under summer fallow practices, as defined by the Secretary, the Secretary shall consider the effects of soil erosion and such other factors as the Secretary considers appropriate.

"(5) LAND DIVERSION PROGRAM.—(A) PAYMENTS.—The Secretary may make land diversion payments to producers of wheat, whether or not an acreage limitation or set-aside program for wheat is in effect, if the Secretary determines that such land diversion payments are necessary to assist in adjusting the total national acreage of wheat to desirable goals. Such land diversion payments shall be made to producers who, to the extent prescribed by the Secretary, devote to approved conservation uses an acreage of cropland on the farm in accordance with land diversion contracts entered into by the Secretary with such producers.

"(B) BIDS FOR CONTRACTS.—The amounts payable to producers under land diversion contracts may be determined through the submission of bids for such contracts by producers in such manner as the Secretary may prescribe or through such other means as the Secretary determines appropriate. In determining the acceptability of contract offers, the Secretary shall take into consideration the extent of the diversion to be undertaken by the producers and the productivity of the acreage diverted.

"(C) LIMITATION ON DIVERTED ACREAGE.—The Secretary shall limit the total acreage to be diverted under agreements in any county so as not to affect adversely the economy of the county.

"(6) WILDLIFE USES FOR REDUCED AND DIVERTED ACREAGE.—(A) IN GENERAL.—Any reduced acreage, set-aside acreage, and additional diverted acreage may be devoted to wildlife food plots or wildlife habitat in conformity with standards established by the Secretary in consultation with wildlife agencies.

"(B) WILDLIFE USE COST SHARING.—The Secretary may pay an appropriate share of the cost of practices designed to carry out the purposes of subparagraph (A).

"(C) CONSERVATION COST SHARING.—The Secretary may also pay an appropriate share of the cost of approved soil and water conservation practices (including practices that may be effective for a number of years) established by the producer on reduced acreage, set-aside acreage, or additional diverted acreage.

"(D) ENCOURAGEMENT OF PUBLIC ACCESS.—The Secretary may provide for an additional payment on such acreage in an amount determined by the Secretary to be appropriate in relation to the benefit to the general public if the producer agrees to permit, without other compensation, access to all or such portion of the farm, as the Secretary may prescribe, by the general public, for hunting, trapping, fishing, and hiking, subject to applicable State and Federal regulations.

"(7) PARTICIPATION AGREEMENTS.—(A) IN GENERAL.—An operator of a farm desiring to participate in the program conducted under this subsection shall execute an agreement with the Secretary providing for such participation not later than such date as the Secretary may prescribe.

"(B) MODIFICATION OR TERMINATION.—The Secretary may, by mutual agreement with producers on a farm, terminate or modify any such agreement if the Secretary determines such action necessary because of an emergency created by drought or other disaster or to prevent or alleviate a shortage in the supply of agricultural commodities.

"(8) BUSHEL PRODUCTION TARGETS.—Notwithstanding the foregoing provisions of this subsection, in carrying out the program conducted under this subsection, the Secretary may prescribe production targets for participating farms expressed in bushels of production so that all participating farms achieve the same pro rata reduction in production as prescribed by the national production targets.

"(9) SPECIAL OATS PLANTINGS.—(A) IN GENERAL.—In any crop year that the Secretary determines that projected domestic production of oats will not fulfill the projected domestic demand for oats the Secretary, notwithstanding the foregoing provisions of this subsection—

"(i) shall, subject to subparagraph (B), provide that any reduced acreage and set-aside acreage may be planted to oats for harvest;

"(ii) may make program benefits (including, but not limited to, loans, purchases, and payments) available under the annual program for oats under section 105A available to producers with respect to acreage planted to oats under this paragraph; and

"(iii) shall not make program benefits other than the benefits specified in clause (ii) available to producers with respect to acreage planted to oats under this paragraph.

"(B) LIMITATION.—(i) If the Secretary estimates that oats planted to such acreage will result in projected domestic production of oats exceeding the projected domestic demand of oats, the Secretary shall limit the amount of such acreage that producers may plant to oats for harvest under subparagraph (A) to an amount that will result in projected domestic production fulfilling projected domestic demand.

"(ii) Such limitation may be achieved by applying a uniform percentage reduction to such acreage for each farm.

"(g) EXCEPTIONS TO PROGRAMS TO REDUCE ACREAGE.—(1) ONE-HALF ACREAGE REDUCTION PROGRAM.—(A) IN GENERAL.—The Secretary may, for each of the 1991 through 1995 crops of wheat, make payments available to producers who meet the requirements of this paragraph.

"(B) FORM OF PAYMENT.—Such payments shall be—

"(i) made in the form of wheat owned by the Commodity Credit Corporation; and

"(ii) subject to the availability of such wheat.

"(C) DETERMINATION OF PAYMENT.—(i) Payments under this subsection shall be determined in the same manner as provided in subsection (b).

"(ii) The quantity of wheat to be made available to a producer under this subsection shall be equal in value to the payments so determined under such subsection.

"(D) ELIGIBILITY.—A producer shall be eligible to receive a payment under this subsection for a crop if the producer—

"(i) agrees to forgo obtaining a loan or purchase agreement under subsection (a);

"(ii) agrees to forgo receiving payments under subsection (c);

"(iii) does not plant wheat for harvest in excess of the crop acreage base reduced by one-half of any acreage required to be diverted from production under subsection (f); and

"(iv) otherwise complies with this section.

"(2) ACRE-FOR-ACRE REDUCTION.—(A) IN GENERAL.—The Secretary may permit producers on a farm to plant wheat on a portion of the acreage otherwise required to be devoted to conservation uses under subsection (f) if the producers agree to a corresponding reduction, on an acre-for-acre basis, in the farm program acreage used to compute deficiency payments under subsection (c)(1)(A)(ii).

"(B) LIMITATION.—If the Secretary exercises the authority provided under subparagraph (A), then the Secretary shall implement this paragraph in such a manner that no greater outlays by the Commodity Credit Corporation result from its implementation.

"(C) BASES AND YIELDS UNAFFECTED.—The wheat crop acreage base and the wheat farm program payment yield for the farm may not be increased or reduced due to the fact that such portion of the conserving use acres for the farm was planted to wheat as authorized under this subparagraph.

"(h) EQUITABLE RELIEF.—(1) LOANS, PURCHASES, AND PAYMENTS.—If the failure of a producer to comply fully with the terms and conditions of the program conducted under this section precludes the making of loans, purchases, and payments, the Secretary may, nevertheless, make such loans, purchases, and payments in such amounts as the Secretary determines are equitable in relation to the seriousness of the failure. The Secretary may consider whether the producer made a good faith effort to comply fully with the terms and conditions of such program in determining whether equitable relief is warranted under this paragraph.

"(2) DEADLINES AND PROGRAM REQUIREMENTS.—The Secretary may authorize the county and State committees established under section 8(b) of the Soil Conservation and Domestic Allotment Act (16 U.S.C. 590h(b)) to waive or modify deadlines and other program requirements in cases in which lateness or failure to meet such other requirements does not affect adversely the operation of the program.

"(i) REGULATIONS.—The Secretary may issue such regulations as the Secretary determines necessary to carry out this section.

"(j) COMMODITY CREDIT CORPORATION.—The Secretary shall carry out the program authorized by this section through the Commodity Credit Corporation.

"(k) ASSIGNMENT OF PAYMENTS.—The provisions of section 8(g) of the Soil Conservation and Domestic Allotment Act (16 U.S.C. 590h(g)) (relating to assignment of payments) shall apply to payments under this section.

"(l) EQUITABLE SHARING OF PAYMENTS.—The Secretary shall provide for the sharing of payments made under this section for any farm among the producers on the farm on a fair and equitable basis.

"(m) TENANTS AND SHARECROPPERS.—The Secretary shall provide adequate safeguards to protect the interests of tenants and sharecroppers.

"(n) PROHIBITIONS.—(1) CROSS COMPLIANCE.—(A) IN GENERAL.—Compliance on a farm with the terms and conditions of any other commodity program, or compliance with crop acreage base requirements for any other commodity, may not be required as a condition of eligibility for loans or payments under this section.

"(B) BASE INCREASES.—If a producer on a farm is participating in the wheat program under this section, the crop acreage base for any other commodity for the farm may not be increased if such commodity is produced on the farm in a manner that is not in compliance with—

"(i) the terms and conditions of the applicable commodity program for such commodity; or

"(ii) the crop acreage base requirements of the applicable commodity program for such commodity.

"(2) OFFSETTING COMPLIANCE.—The Secretary may not require producers on a farm, as a condition of eligibility for loans, purchases, or payments under this section for such farm, to comply with the terms and conditions of the wheat program with respect to any other farm operated by such producers.".

SEC. 902. NONAPPLICABILITY OF CERTIFICATE REQUIREMENTS.

Sections 379d, 379e, 379f, 379g, 379h, 379i, and 379j of the Agricultural Adjustment Act of 1938 (7 U.S.C. 1379d–1379j) (relating to marketing certificate requirements for processors and exporters) shall not be applicable to wheat processors or exporters during the period June 1, 1991, through May 31, 1996.

SEC. 903. SUSPENSION OF LAND USE, WHEAT MARKETING ALLOCATION, AND PRODUCER CERTIFICATE PROVISIONS.

Sections 331, 332, 333, 334, 335, 336, 338, 339, 379b, and 379c of the Agricultural Adjustment Act of 1938 (7 U.S.C. 1331–1336, 1338, 1339, 1379b, and 1379c) shall not be applicable to the 1991 through 1995 crops of wheat.

SEC. 904. SUSPENSION OF CERTAIN QUOTA PROVISIONS.

The joint resolution entitled "A joint resolution relating to corn and wheat marketing quotas under the Agricultural Adjustment Act of 1938, as amended", approved May 26, 1941 (7 U.S.C. 1330 and 1340), shall not be applicable to the crops of wheat planted for harvest in the calendar years 1991 through 1995.

SEC. 905. NONAPPLICABILITY OF SECTION 107 OF THE AGRICULTURAL ACT OF 1949 TO THE 1991 THROUGH 1995 CROPS OF WHEAT.

Section 107 of the Agricultural Act of 1949 (7 U.S.C. 1445a) shall not be applicable to the 1991 through 1995 crops of wheat.

TITLE X—FEED GRAINS

SEC. 1001. LOAN RATES, TARGET PRICES, DISASTER PAYMENTS, ACREAGE LIMITATION PROGRAM, AND LAND DIVERSION FOR THE 1991 THROUGH 1995 CROPS OF FEED GRAINS.

Effective only for the 1991 through 1995 crops of feed grains, section 105A of the Agricultural Act of 1949 (7 U.S.C. 1444c) is amended to read as follows:

"SEC. 105A. (a) LOANS AND PURCHASES.—(1) IN GENERAL.—Except as provided in paragraphs (2), (3), and (4) the Secretary shall make available to producers loans and purchases for each of the 1991 through 1995 crops of corn at such level as the Secretary determines will encourage the exportation of feed grains and not result in excessive total stocks of feed grains after taking into consideration the cost of producing corn, supply and demand conditions, and world prices for corn.

"(2) MINIMUM LOAN LEVEL.—Except as provided in paragraphs (3) and (4), the loan and purchase level determined under paragraph (1) shall not be less than 85 percent of the simple average price received by producers of corn, as determined by the Secretary, during the marketing years for the immediately preceding 5 crops of corn, excluding the year in which the average price was the highest and the year in which the average price was the lowest in such period, except that the loan and purchase level for a crop determined under this paragraph may not be reduced by more than 5 percent from the level determined for the preceding crop.

"(3) ADJUSTMENTS TO SUPPORT LEVEL.—(A) STOCKS TO USE RATIO.— If the Secretary estimates for any marketing year that the ratio of ending stocks of corn to total use for the marketing year will be—

"(i) equal to or greater than 25 percent, the Secretary may reduce the loan and purchase level for corn for the marketing year by an amount not to exceed 10 percent in any year;

"(ii) less than 25 percent but not less than 12.5 percent, the Secretary may reduce the loan and purchase level for corn for the marketing year by an amount not to exceed 5 percent in any year;

"(iii) less than 12.5 percent the Secretary may not reduce the loan and purchase level for corn for the marketing year.

"(B) REPORT TO CONGRESS.—(i) If the Secretary adjusts the level of loans and purchases for corn under subparagraph (A), the Secretary shall submit to the Committee on Agriculture of the House of Representatives and the Committee on Agriculture, Nutrition, and Forestry of the Senate a report—

"(I) certifying such adjustment as necessary to prevent the build-up of stocks and to retain market share; and

"(II) containing a description of the need for such adjustment.

"(ii) Such adjustment shall become effective no earlier than 60 calendar days after the date of submission of such report to such committees.

"(C) COMPETITIVE POSITION.—Notwithstanding the provisions of subparagraph (A), if the Secretary determines, not later than 60 days prior to the beginning of a marketing year for a crop, that the effective loan rate established for such crop will not maintain a competitive market position for corn, the Secretary may reduce the loan and purchase level for corn for the marketing year by an amount, in addition to any reduction under subparagraph (A), not to exceed 10 percent in any year.

"(D) NO EFFECT ON FUTURE YEARS.—Any reduction in the loan and purchase level for corn under this paragraph shall not be considered in determining the loan and purchase level for corn for subsequent years.

"(E) MINIMUM LOAN RATE.—Notwithstanding the provisions of subparagraph (A), the loan rate for corn shall not be less than $1.76 per bushel, unless such rate would exceed 80 percent of the five year average market price determination.

"(4) MARKETING LOAN.—(A) IN GENERAL.—The Secretary may permit a producer to repay a loan made under paragraphs (1) or (6) for a crop at a level that is the lesser of—

"(i) the loan level determined for such crop; or

"(ii) the higher of—

"(I) 70 percent of such level;

"(II) if the loan level for a crop was reduced under paragraph (3), 70 percent of the loan level that would have been in effect but for the reduction under paragraph (3); or

"(III) the prevailing world market price for feed grains, as determined by the Secretary.

"(B) WORLD PRICE FORMULA.—If the Secretary permits a producer to repay a loan in accordance with subparagraph (A), the Secretary shall prescribe by regulation—

"(i) a formula to define the prevailing world market price for feed grains; and

"(ii) a mechanism by which the Secretary shall announce periodically the prevailing world market price for feed grains.

"(5) SIMPLE AVERAGE PRICE.—For purposes of this section, the Secretary in determining the simple average price received by producers for the immediately preceding marketing year shall use the latest information available to the Secretary at the time of the determination.

"(6) LOAN LEVELS FOR OTHER FEED GRAINS.—The Secretary shall make available to producers loans and purchases for each of the 1991 through 1995 crops of grain sorghum, barley, oats, and rye, respectively, at such level as the Secretary determines is fair and reasonable in relation to the level that loans and purchases are made available for corn, taking into consideration the feeding value of such commodity in relation to corn and other factors specified in section 401(b).

"(b) PAYMENTS FOR FORGOING LOAN OR PURCHASE.—(1) IN GENERAL.—The Secretary may, for each of the 1991 through 1995 crops of corn, grain sorghum, barley, oats, and rye, make payments available to producers who, although eligible to obtain a loan or purchase agreement under subsection (a), agree to forgo obtaining such loan or agreement in return for such payments.

"(2) COMPUTATION.—A payment under this subsection shall be computed by multiplying—

"(A) the loan payment rate; by

"(B) the quantity of such feed grains the producer is eligible to place under loan.

"(3) QUANTITY ELIGIBLE.—For purposes of this subsection, the quantity of feed grains eligible to be placed under loan may not exceed the product obtained by multiplying—

"(A) the individual farm program acreage for the crop; by

"(B) the farm program payment yield established for the farm.

"(4) PAYMENT RATE.—For purposes of this subsection, the loan payment rate shall be the amount by which—

"(A) the loan level determined for such crop under subsection (a); exceeds

"(B) the level at which a loan may be repaid under subsection (a).

"(c) DEFICIENCY PAYMENTS.—(1) IN GENERAL.—(A) COMPUTATION.—The Secretary shall make available to producers payments (to be known as 'deficiency payments') for each of the 1991 through 1995 crops of corn, grain sorghum, oats, and barley in an amount computed by multiplying—

"(i) the payment rate; by

"(ii) the individual farm program acreage for the crop; by

"(iii) the farm program payment yield for the crop for the farm.

"(B) 0/92 PROGRAM.—(i) If an acreage limitation program under subsection (f)(2) is in effect for a crop of feed grains and the producers on a farm devote a portion of the permitted feed grain acreage of the farm (as determined in accordance with subsection (f)(2)(A)) equal to more than 8 percent of the permitted feed grain acreage of the farm for the crop to conservation uses (except as provided in subparagraph (H))—

"(I) such portion of the permitted feed grain acreage of the farm in excess of 8 percent of such acreage devoted to conservation uses (except as provided in subparagraph (H)) shall be considered to be planted to feed grains for the purpose of determining the individual farm program acreage in accordance with subsection (f)(2)(G) and for the purpose of determining the acreage on the farm required to be devoted to conservation uses in accordance with subsection (f)(2)(E); and

"(II) the producers shall be eligible for payments under this paragraph on such acreage.

"(ii) Notwithstanding any other provision of this section, any producer who elects to devote all or a portion of the permitted feed grain acreage of the farm to conservation uses (or other uses as provided in subparagraph (H)) under this subparagraph shall receive deficiency payments on the acreage that is considered to be planted to feed grains and eligible for payments under this subparagraph for such crop at a per-bushel rate established by the Secretary, except that such rate may not be established at less than the projected deficiency payment rate for the crop, as determined by the Secretary. Such projected payment rate for the crop shall be announced by the Secretary prior to the period during which feed grain producers may agree to participate in the program for such crop.

"(iii) The Secretary shall implement this subparagraph in such a manner as to minimize the adverse effect on agribusiness and other agriculturally related economic interests within any county, State, or region. In carrying out this subparagraph, the Secretary may restrict the total amount of feed grain acreage that may be taken out of production under this subparagraph, taking into consideration the total amount of feed grain acreage that has or will be removed from production under other price support, production adjustment, or conservation program activities. No restrictions on the amount of acreage that may be taken out of production in accordance with this subparagraph in a crop year shall be imposed in the case of a county in which producers were eligible to receive disaster emergency loans under section 321 of the Consolidated Farm and Rural Development Act (7 U.S.C. 1961) as a result of a disaster that occurred during such crop year.

"(iv) The feed grain crop acreage base and feed grain program payment yield of the farm shall not be reduced due to the fact that such portion of the permitted acreage of the farm was devoted to conserving uses (except as provided in subparagraph (H)).

"(v) Other than as provided in clauses (i) through (iv), payments may not be made under this paragraph for any crop on a greater acreage than the acreage actually planted to feed grains.

"(vi) Any acreage considered to be planted to feed grains in accordance with clause (i) may not also be designated as conservation use acreage for the purpose of fulfilling any provisions under any acreage limitation, set-aside, or land diversion program requiring that the producers devote a specified acreage to conservation uses.

"(C) PAYMENT RATE.—The payment rate for each crop of feed grains shall be the amount by which the established price for such crop of feed grains exceeds the higher of—

"(i) the national weighted average market price received by producers during the first 6 months of the marketing year for such crop, as determined by the Secretary; or

"(ii) the loan level determined for such crop, prior to any adjustment made under subsection (a)(3) for the marketing year for such crop.

"(D) COMPENSATION FOR SUPPORT LEVEL ADJUSTMENT.—(i) Notwithstanding the foregoing provisions of this section, if the Secretary adjusts the level of loans and purchases for feed grains under subsection (a)(3), the Secretary shall provide emergency compensation by increasing the deficiency payments for feed grains by such amount as the Secretary determines necessary to provide the same total return to producers as if the adjustment in the level of loans and purchases had not been made.

"(ii) In determining the payment rate, per bushel, for deficiency payments for a crop of feed grains under this subparagraph, the Secretary shall use the national weighted average market price, per bushel of such crop of feed grains, received by producers during the marketing year for such crop, as determined by the Secretary.

"(E) ESTABLISHED FOR CORN.—

"(i) MINIMUM PRICE.—The established price for corn shall not be less than $2.75 per bushel.

"(ii) ESTABLISHED PRICE INCREASE FOR FEED GRAINS.—If in any crop year the Secretary announces an acreage limitation program under subsection (f)(2) or a set-aside program under subsection (f)(3) for farms under which the percentage reduction or set aside for a crop of feedgrains is in excess of 17.5 percent, then the established price for such crop shall be increased by an amount not less than 2.55 percent of the established price for such crop for each 2.5 percent incremental increase of such percentage reduction or set-aside in excess of 17.5 percent.

"(F) ESTABLISHED PRICE FOR OTHER FEED GRAINS.—(i) The established price for grain sorghum shall be such price as the Secretary determines is fair and reasonable in relation to the established price for corn.

"(ii) The established price for oats shall be such price as the Secretary determines is fair and reasonable in relation to the established price for corn, but not less than $1.45 per bushel.

"(iii) The established price for barley shall be such price as the Secretary determines is fair and reasonable in relation to the established price for corn, taking into consideration the various feed and food uses for barley, and provided that the ratio of such established price for barley shall not be less than 85.8 percent of the established price for corn.

"(G) REDUCTION FOR DISASTER PAYMENTS.—The total quantity on which payments would otherwise be payable to a producer on a farm for any crop under this paragraph shall be reduced by the quantity on which any disaster payment is made to the producer for the crop under paragraph (2).

"(H) ALTERNATIVE CROPS.—The Secretary may permit, subject to such terms and conditions as the Secretary may prescribe, all or any part of acreage otherwise required to be devoted to conservation uses as a condition of qualifying for payments under subparagraph (B) to be devoted to sweet sorghum or the production of guar, sesame, castor beans, crambe, plantago ovato, triticale, rye, commodities for which no substantial domestic production or market exists but that could yield industrial raw material being imported, or likely to be imported, into the United States, or commodities grown for experimental purposes (including kenaf), subject to the following sentence. The Secretary may permit such acreage to be devoted to such production only if the Secretary determines that—

"(i) the production is not likely to increase the cost of the price support program and will not affect farm income adversely; and

"(ii) the production is needed to provide an adequate supply of the commodity, or, in the case of commodities for which no substantial domestic production or market exists but that could yield industrial raw materials, the production is needed to encourage domestic manufacture of such raw material and could lead to increased industrial use of such raw material to the long-term benefit of United States industry.

"(I)(i) TARGET OPTION PROGRAM.—Subject to clauses (ii) and (iii), if an acreage limitation program under subsection (f)(2) is in effect for a crop of feed grains and the producers on a farm devote a portion of the permitted feed grain acreage of the farm (as determined in accordance with subsection (f)(2)(A)) to conservation uses, the producers shall be eligible for an increase of up to one percent in the established price of the crop of feed grains, on the acreage on the farm actually planted to feed grains, for each one percent of the permitted feed grain acreage of the farm devoted to conservation uses.

"(ii) The portion of permitted feed grain acreage of the farm devoted to conservation uses under clause (i) shall not exceed 10 percent of the crop acreage base of the farm.

"(iii) Such increase in the established price shall not result in a producer receiving more in payments than the maximum amount such producer would be eligible to receive under section 105A(C)(1)(B).

"(iv) The feed grain crop acreage base and the feed grain farm program payment yield for the farm may not be reduced due to the fact that such portion of the permitted acreage of the farm was devoted to conserving uses.

"(J)(i) BARLEY CALCULATIONS.—The Secretary shall, for purposes of determining the payment rate for barley under subparagraphs (C)(i) and (D)(ii), use the national weighted average market price received by producers of barley sold primarily for feed purposes.

"(ii)(I) In the case of the 1991 crop of barley, the Secretary shall, for purposes of determining any advance deficiency payment made to the producers of barley under

section 107C, use the national weighted average market price received by producers for all barley, as determined by the Secretary.

"(II) In implementing this subsection, the Secretary shall ensure that producers of the 1991 crop of barley, notwithstanding the method of calculation or the amount of the advance deficiency payment, shall be equal to receive the total amount of payments as calculated under clause (i).

"(2) DISASTER ASSISTANCE.—(A) PREVENTED PLANTING PAYMENTS.—(i) Except as provided in subparagraph (C), if the Secretary determines that the producers on a farm are prevented from planting any portion of the acreage intended for feed grains to feed grains or other nonconserving crops because of drought, flood, or other natural disaster, or other condition beyond the control of the producers, including such condition resulting from the adjudication of Indian water settlement disputes, the Secretary shall make a prevented planting disaster payment to the producers in an amount equal to the product obtained by multiplying—

"(I) the number of acres so affected but not to exceed the acreage planted to feed grains for harvest (including any acreage that the producers were prevented from planting to feed grains or other nonconserving crops in lieu of feed grains because of drought, flood, or other natural disaster, or other condition beyond the control of the producers) in the immediately preceding year; by

"(II) 75 percent of the farm program payment yield established by the Secretary; by

"(III) a payment rate equal to 33⅓ percent of the established price for the crop.

"(ii) Payments made by the Secretary under this subparagraph may be made in the form of cash or from stocks of feed grains held by the Commodity Credit Corporation.

"(B) REDUCED YIELD PAYMENTS.—Except as provided in subparagraph (C), if the Secretary determines that because of drought, flood, or other natural disaster, or other condition beyond the control of the producers, including such condition resulting from the adjudication of Indian water settlement disputes, the total quantity of feed grains that the producers are able to harvest on any farm is less than the result of multiplying 60 percent of the farm program payment yield established by the Secretary for such crop by the acreage planted for harvest for such crop, the Secretary shall make a reduced yield disaster payment to the producers at a rate equal to 50 percent of the established price for the crop for the deficiency in production below 60 percent for the crop.

"(C) LIMITATION DUE TO CROP INSURANCE.—Producers on a farm shall not be eligible for—

"(i) prevented planting disaster payments under subparagraph (A), if prevented planting crop insurance is available to the producers under the Federal Crop Insurance Act (7 U.S.C. 1501 et seq.) with respect to the feed grain acreage of the producers; or

"(ii) reduced yield disaster payments under subparagraph (B), if reduced yield crop insurance is available to the producers under such Act with respect to the feed grain acreage of the producers.

"(D) EXCEPTION FROM LIMITATION.—(i) Notwithstanding subparagraph (C), the Secretary may make a disaster payment to the producers on a farm under this paragraph if the Secretary determines that—

"(I) as the result of drought, flood, or other natural disaster, or other condition beyond the control of the producers, including such condition resulting from the adjudication of Indian water settlement disputes, the producers on a farm have suffered substantial losses of production either from being prevented from planting feed grains or other nonconserving crops or from reduced yields;

"(II) such losses have created an economic emergency for the producers;

"(III) crop insurance indemnity payments under the Federal Crop Insurance Act (7 U.S.C. 1501 et seq.) and other forms of assistance made available by the Federal Government to such producers for such losses are insufficient to alleviate such economic emergency; and

"(IV) additional assistance must be made available to such producers to alleviate such economic emergency.

"(ii) The Secretary may make such adjustments in the amount of payments made available under this subparagraph with respect to an individual farm so as to assure the equitable allotment of such payments among producers, taking into account other forms of Federal disaster assistance provided to the producers for the crop involved.

"(d) NATIONAL PROGRAM ACREAGE.—(1) IN GENERAL.—(A) PROCLAMATION.—Except for a crop with respect to which there is an acreage limitation program in effect under subsection (f), the Secretary shall proclaim a national program acreage for each of the 1991 through 1995 crops of feed grains. The proclamation shall be made not later than September 30 of each calendar year for the crop harvested in the next succeeding calendar year.

"(B) REVISION.—The Secretary may revise the national program acreage first proclaimed for any crop year for the purpose of determining the allocation factor under paragraph (2) if the Secretary determines it necessary based on the latest information. The Secretary shall proclaim such revised national program acreage as soon as such revision is made.

"(C) AMOUNT OF ACREAGE.—The national program acreage for feed grains shall be the number of harvested acres that the Secretary determines (on the basis of the weighted national average of the farm program payment yields for the crop for which the determination is made) will produce the quantity (less imports) that the Secretary estimates will be utilized domestically and for export during the marketing year for such crop.

"(D) ADJUSTMENT FOR CARRYOVER.—If the Secretary determines that carryover stocks of feed grains are excessive or an increase in stocks is needed to assure desirable carryover, the Secretary may adjust the national program acreage by the quantity the Secretary determines will accomplish the desired increase or decrease in carryover stocks.

"(E) INAPPLICABILITY TO OATS.—This subsection shall not apply to the 1991 through 1995 crop of oats.

"(2) PROGRAM ALLOCATION FACTOR.—The Secretary shall determine a program allocation factor for each crop of feed grains, if the Secretary proclaims a national program acreage for such crop. The allocation factor for feed grains shall be determined by dividing the national program acreage for the crop by the number of acres that the Secretary estimates will be harvested for such crop, except that in no event shall the allocation factor for any crop of feed grains be more than 100 percent nor less than 80 percent.

"(3) FARM PROGRAM ACREAGE.—(A) DETERMINATION.—Except as provided in subsection (f)(2), the individual farm program acreage for each crop of feed grains shall be determined by multiplying the allocation factor by the acreage of feed grains planted for harvest on the farms for which individual farm program acreages are required to be determined.

"(B) LIMITATION ON REDUCTION.—The individual farm program acreage shall not be further reduced by application of the allocation factor if the producers reduce the acreage of feed grains planted for harvest on the farm from the crop acreage base established for the farm under title V by at least the percentage recommended by the Secretary in the proclamation of the national program acreage.

"(C) FAIR AND EQUITABLE TREATMENT.—The Secretary shall provide fair and equitable treatment for producers on farms on which the acreage of feed grains planted for harvest is less than the crop acreage base established for the farm under title V, but for which the reduction is insufficient to exempt the farm from the application of the allocation factor.

"(D) ADJUSTMENT FOR EXEMPTIONS.—In establishing the allocation factor for feed grains, the Secretary may make such adjustment as the Secretary deems necessary to take into account the extent of exemption of farms under the foregoing provisions of this paragraph.

"(e) FARM PROGRAM PAYMENT YIELDS.—The farm program payment yields for farms for each crop of feed grains shall be determined under title V.

"(f) PROGRAMS TO REDUCE ACREAGE.—(1) IN GENERAL.—(A) EXCESSIVE SUPPLY.—(i) Notwithstanding any other provision of this Act, except as provided in subparagraphs (B) through (D), if the Secretary determines that the total supply of feed grains, in the absence of an acreage limitation or set-aside program, will be excessive taking into account the need for an adequate carryover to maintain reasonable and stable supplies and prices and to meet a national emergency, the Secretary may provide for any crop of feed grains either an acreage limitation program as described in paragraph (2) or a set-aside program as described in paragraph (3).

"(ii) In making a determination under clause (i), the Secretary shall take into consideration the number of acres placed in the conservation acreage reserve established under section 1231 of the Food Security Act of 1985 (16 U.S.C. 3831).

"(iii) If the Secretary elects to put either of such programs into effect for any crop year, the Secretary shall announce any such program not later than September 30 prior to the calendar year in which the crop is harvested.

"(iv) Not later than November 15 of the year previous to the year in which the crop is harvested, the Secretary may make adjustments in an announcement made under clause (iii) if the Secretary determines that there has been a significant change in the total supply of feed grains since the program was first announced.

"(B) AMOUNT OF ACREAGE REDUCTION.—In the case of each of the 1991 through 1995 crops of feed grains, if the Secretary estimates for a marketing year for the crop that the ratio of ending stocks of corn to total use of corn for the preceding marketing year will be—

"(i) more than 25 percent, the Secretary shall provide for an acreage limitation program (as described in paragraph (2)) under which the acreage planted to feed grains for harvest on a farm would be limited to the feed grain crop acreage base for the farm for

the crop reduced by not less than 12.5 percent nor more than 20 percent; or

"(ii)(I) except as provided by subclause (II), 25 percent or less, the Secretary may provide for an acreage limitation program (as described in paragraph (2)) under which the acreage planted to feed grains for harvest on a farm would be limited to the feed grain crop acreage base for the farm for the crop reduced by not more than 12.5 percent; or

"(II) not less than 21.6 nor more than 22.8 percent, the Secretary shall provide for an acreage limitation program (as described in paragraph (2)) under which the acreage planted to feed grains for harvest on a farm would be limited to the feed grain crop acreage base for the farm for the crop reduced by not less than 11.6 percent.

"(C) CONDITION FOR ELIGIBILITY FOR FEED GRAINS.—As a condition of eligibility for loans, purchases, and payments for any such crop of feed grains, except as provided in subsection (g), the producers on a farm must comply with the terms and conditions of the acreage limitation program and, if applicable, the land diversion program, as provided in paragraph (5).

"(D) CONDITION FOR ELIGIBILITY FOR OATS.—Except as provided in paragraph (9), as a condition of eligibility for loans, purchases, and payments for the 1991 through 1995 crop of oats, the producers of oats on a farm may not plant oats in excess of the crop acreage base for the farm.

"(2) ACREAGE LIMITATION PROGRAM.—(A) UNIFORM PERCENTAGE.—If a feed grain acreage limitation program is announced under paragraph (1), such limitation shall be achieved by applying a uniform percentage reduction to the feed grain crop acreage base for the crop for each feed grain-producing farm.

"(B) ENFORCEMENT.—Except as provided in subsection (g), producers who knowingly produce feed grains in excess of the permitted feed grain acreage for the farm shall be ineligible for feed grain loans, purchases, and payments with respect to that farm.

"(C) EXCEPTION FOR MALTING BARLEY.—The Secretary may provide that no producer of malting barley shall be required as a condition of eligibility for feed grain loans, purchases, and payments to comply with any acreage limitation under this paragraph if such producer has previously produced a malting variety of barley for harvest, plants barley only of an acceptable malting variety for harvest, and meets such other conditions as the Secretary may prescribe.

"(D) FEED GRAIN CROP ACREAGE BASE.—Feed grain crop acreage bases for each crop of feed grains shall be determined under title V.

"(E) DETERMINATION OF CONSERVATION USE ACREAGE.—(i) A number of acres on the farm shall be devoted to conservation uses, in accordance with regulations issued by the Secretary. Such number shall be determined by dividing—

"(I) the product obtained by multiplying the number of acres required to be withdrawn from the production of feed grains times the number of acres planted to such commodity; by

"(II) the number of acres authorized to be planted to such commodity under the limitation established by the Secretary.

"(ii) The number of acres so determined is hereafter in this subsection referred to as 'reduced acreage'.

"(F) INAPPLICABILITY OF NATIONAL PROGRAM ACREAGE.—If an acreage limitation program is announced under paragraph (1) for a crop of feed grains, subsection (d) shall not be applicable to such crop, including any prior announcement that may have been made under such subsection with respect to such crop.

"(G) INDIVIDUAL FARM PROGRAM ACREAGE.—Except as otherwise provided in subsections (c)(1)(B) and (c)(1)(I), the individual farm program acreage shall be the acreage planted on the farm to feed grains for harvest within the permitted feed grain acreage for the farm as established under this paragraph.

"(H) LIMITATION ON OATS ACREAGE REDUCTION.—In the case of the 1991 through 1995 crops of oats, the Secretary—

"(i) shall not establish a percentage reduction in accordance with paragraph (1) in excess of 5 percent, unless the Secretary determines that the supply of oats will be excessive without a greater percentage reduction than 5 percent; and

"(ii) may establish a percentage reduction for oats in accordance with paragraph (1) of less than 5 percent. If the Secretary does not establish a percentage reduction requirement for oats, the Secretary shall ensure that the crop acreage bases established for the farm and the farm acreage base are not increased as a result of this clause.

"(3) SET-ASIDE REQUIRED.—(A) IN GENERAL.—If a set-aside program is announced under paragraph (1), as a condition of eligibility for loans, purchases, and payments for feed grains authorized by this Act (except as provided in subsection (g)), the producers on a farm shall—

"(i) set aside and devote to conservation uses an acreage of cropland equal to a specified percentage, as determined by the Secretary, of the acreage of feed grains planted for harvest for the crop for which the set-aside is in effect; and

"(ii) otherwise comply with the terms of such program.

"(B) CONSERVATION USE REQUIRED.—The set-aside acreage shall be devoted to conservation uses, in accordance with regulations issued by the Secretary.

"(C) UNIFORM ACREAGE LIMITATION.—If a set-aside program is established, the Secretary may limit the acreage planted to feed grains. Such limitation shall be applied on a uniform basis to all feed grain-producing farms.

"(D) ADJUSTMENTS TO SET-ASIDE.—The Secretary may make such adjustments in individual set-aside acreages under this section as the Secretary determines necessary—

"(i) to correct for abnormal factors affecting production; and

"(ii) to give due consideration to tillable acreage, crop-rotation practices, types of soil, soil and water conservation measures, topography, and such other factors as the Secretary determines necessary.

"(4) USE OF CONSERVATION ACREAGE.—(A) PROTECTION FROM WEEDS AND EROSION.—The regulations issued by the Secretary under paragraphs (2) and (3) with respect to acreage required to be devoted to conservation uses shall assure protection of such acreage from weeds and wind and water erosion.

"(B) PERMITTED PLANTINGS.—The Secretary may permit, subject to such terms and conditions as the Secretary may prescribe, all or any part of such acreage to be devoted to sweet sorghum, or the production of guar, sesame, safflower, sunflower, castor beans, mustard seed, crambe, plantago ovato, flaxseed, triticale, rye, or other commodities, if the Secretary determines that such production is needed to provide an adequate supply of such commodities, is not likely to increase the cost of the price support program, and will not affect farm income adversely.

"(C) HAYING AND GRAZING.—(i) Except as provided in clause (ii), haying and grazing of acreage designated as conservation use acreage for the purpose of meeting any requirements established under an acreage limitation program (including a program conducted under subsection (c)(1)(B) or subsection (c)(1)(I)), set-aside program, or land diversion program established under this section shall be permitted, except during any consecutive 5-month period that is established by the State committee established under section 8(b) of the Soil Conservation and Domestic Allotment Act (16 U.S.C. 590h(b)) for a State. Such 5-month period shall be established during the period beginning April 1, and ending October 31, of a year.

"(ii) In the case of a natural disaster, the Secretary may permit unlimited haying and grazing on such acreage. The Secretary may not exclude irrigated or irrigable acreage not planted in alfalfa when exercising the authority under this clause.

"(D) SUMMER FALLOW.—In determining the quantity of land to be devoted to conservation uses under an acreage limitation or set-aside program with respect to land that has been farmed under summer fallow practices, as defined by the Secretary, the Secretary shall consider the effects of soil erosion and such other factors as the Secretary considers appropriate.

"(5) LAND DIVERSION PROGRAM.—(A) PAYMENTS.—The Secretary may make land diversion payments to producers of feed grains, whether or not an acreage limitation or set-aside program for feed grains is in effect, if the Secretary determines that such land diversion payments are necessary to assist in adjusting the total national acreage of feed grains to desirable goals. Such land diversion payments shall be made to producers who, to the extent prescribed by the Secretary, devote to approved conservation uses an acreage of cropland on the farm in accordance with land diversion contracts entered into by the Secretary with such producers.

"(B) BIDS FOR CONTRACTS.—The amounts payable to producers under land diversion contracts may be determined through the submission of bids for such contracts by producers in such manner as the Secretary may prescribe or such other means as the Secretary determines appropriate. In determining the acceptability of contract offers, the Secretary shall take into consideration the extent of the diversion to be undertaken by the producers and the productivity of the acreage diverted.

"(C) LIMITATION ON DIVERTED ACREAGE.—The Secretary shall limit the total acreage to be diverted under agreements in any county or local community so as not to affect adversely the economy of the county or local community.

"(6) WILDLIFE USES FOR REDUCED AND DIVERTED ACREAGE.—(A) IN GENERAL.—Any reduced acreage, set-aside acreage, and additional diverted acreage may be devoted to wildlife food plots or wildlife habitat in conformity with standards established by the Secretary in consultation with wildlife agencies.

"(B) WILDLIFE USE COST SHARING.—The Secretary may pay an appropriate share of the cost of practices designed to carry out the purposes of subparagraph (A).

"(C) CONSERVATION COST SHARING.—The Secretary may also pay an appropriate share of the cost of approved soil and water

conservation practices (including practices that may be effective for a number of years) established by the producer on reduced acreage, set-aside acreage, or additional diverted acreage.

"(D) ENCOURAGEMENT OF PUBLIC ACCESS.—The Secretary may provide for an additional payment on such acreage in an amount determined by the Secretary to be appropriate in relation to the benefit to the general public if the producer agrees to permit, without other compensation, access to all or such portion of the farm, as the Secretary may prescribe, by the general public, for hunting, trapping, fishing, and hiking, subject to applicable State and Federal regulations.

"(7) PARTICIPATION AGREEMENTS.—(A) IN GENERAL.—An operator of a farm desiring to participate in the program conducted under this subsection shall execute an agreement with the Secretary providing for such participation not later than such date as the Secretary may prescribe.

"(B) MODIFICATION OR TERMINATION.—The Secretary may, by mutual agreement with producers on a farm, terminate or modify any such agreement if the Secretary determines such action necessary because of an emergency created by drought or other disaster or to prevent or alleviate a shortage in the supply of agricultural commodities.

"(8) BUSHEL PRODUCTION TARGETS.—Notwithstanding the foregoing provisions of this subsection, in carrying out the program conducted under this subsection, the Secretary may prescribe production targets for participating farms expressed in bushels of production so that all participating farms achieve the same pro rata reduction in production as prescribed by the national production targets.

"(9)(A) In any crop year that the Secretary determines that projected domestic production of oats will not fulfill the projected domestic demand for oats the Secretary, notwithstanding the foregoing provisions of this subsection—

"(i) may, subject to subparagraph (B), provide that any reduced acreage and set-aside acreage may be planted to oats for harvest;

"(ii) may make program benefits (including, but not limited to, loans, purchases, and payments) available under the annual program for oats under this title available to producers with respect to acreage planted to oats under this paragraph; and

"(iii) shall not make program benefits other than the benefits specified in clause (ii) available to producers with respect to acreage planted to oats under this paragraph.

"(B) LIMITATION.—(i) If the Secretary estimates that oats planted to such acreage will result in projected domestic production of oats exceeding the projected domestic demand of oats, the Secretary shall limit the amount of such acreage that producers may plant to oats for harvest under subparagraph (A) to an amount that will result in projected domestic production fulfilling projected domestic demand.

"(ii) Such limitation may be achieved by applying a uniform percentage reduction to such acreage for each farm.

"(g) EXCEPTIONS TO PROGRAMS TO REDUCE ACREAGE.—(1) ONE-HALF ACREAGE REDUCTION PROGRAM.—(A) IN GENERAL.—The Secretary may, for each of the 1991 through 1995 crops of corn, grain sorghum, oats, and barley, make payments available to producers who meet the requirements of this paragraph.

"(B) FORM OF PAYMENT.—Such payments shall be—

"(i) made in the form of such feed grains, respectively, owned by the Commodity Credit Corporation; and

"(ii) subject to the availability of such feed grains.

"(C) DETERMINATION OF PAYMENT.—(i) Payments under this subsection shall be determined in the same manner as provided in subsection (b).

"(ii) The quantity of feed grains to be made available to a producer under this subsection shall be equal in value to the payments so determined under such subsection.

"(D) ELIGIBILITY.—A producer shall be eligible to receive a payment under this subsection for a crop if the producer—

"(i) agrees to forgo obtaining a loan or purchase agreement under subsection (a);

"(ii) agrees to forgo receiving payments under subsection (c);

"(iii) does not plant feed grains for harvest in excess of the crop acreage base reduced by one-half of any acreage required to be diverted from production under subsection (f); and

"(iv) otherwise complies with this section.

"(2) ACRE-FOR-ACRE REDUCTION.—(A) IN GENERAL.—The Secretary may permit producers on a farm to plant feed grains on a portion of the acreage otherwise required to be devoted to conservation uses under subsection (f) if the producers agree to a corresponding reduction, on an acre-for-acre basis, in the farm program acreage used to compute deficiency payments under subsection (c)(1)(A)(ii).

"(B) LIMITATION.—If the Secretary exercises the authority provided under subparagraph (A), then the Secretary shall implement this paragraph in such a manner that no greater outlays by the Commodity Credit Corporation result from its implementation.

"(C) BASES AND YIELDS UNAFFECTED.—The feed grain crop acreage base and the feed grain farm program payment yield for the farm may not be increased or reduced due to the fact that such portion of the conserving use acres for the farm was planted to feed grains as authorized under this subparagraph.

"(h) EQUITABLE RELIEF.—(1) LOANS, PURCHASES, AND PAYMENTS.—If the failure of a producer to comply fully with the terms and conditions of the program conducted under this section precludes the making of loans, purchases, and payments, the Secretary may, nevertheless, make such loans, purchases, and payments in such amounts as the Secretary determines are equitable in relation to the seriousness of the failure. The Secretary may consider whether the producer made a good faith effort to comply fully with the terms and conditions of such program in determining whether equitable relief is warranted under this paragraph.

"(2) DEADLINES AND PROGRAM REQUIREMENTS.—The Secretary may authorize the county and State committees established under section 8(b) of the Soil Conservation and Domestic Allotment Act (16 U.S.C. 590h(b)) to waive or modify deadlines and other program requirements in cases in which lateness or failure to meet such other requirements does not affect adversely the operation of the program.

"(i) REGULATIONS.—The Secretary may issue such regulations as the Secretary determines necessary to carry out this section.

"(j) COMMODITY CREDIT CORPORATION.—The Secretary shall carry out the program authorized by this section through the Commodity Credit Corporation.

"(k) ASSIGNMENT OF PAYMENTS.—The provisions of section 8(g) of the Soil Conservation and Domestic Allotment Act (16 U.S.C. 590h(g)) (relating to assignment of payments) shall apply to payments under this section.

"(l) EQUITABLE SHARING OF PAYMENTS.—The Secretary shall provide for the sharing of payments made under this section for any farm among the producers on the farm on a fair and equitable basis.

"(m) TENANTS AND SHARECROPPERS.—The Secretary shall provide adequate safeguards to protect the interests of tenants and sharecroppers.

"(n) PROHIBITIONS.—(1) CROSS COMPLIANCE.—(A) IN GENERAL.—Compliance on a farm with the terms and conditions of any other commodity program, or compliance with crop acreage base requirements for any other commodity, may not be required as a condition of eligibility for loans or payments under this section.

"(B) CROP ACREAGE BASE INCREASES.—If a producer on a farm is participating in the feed grains program under this section, the crop acreage base for any other commodity for the farm may not be increased if such commodity is produced on the farm in a manner that is not in compliance with—

"(i) the terms and conditions of the applicable commodity program for such commodity; or

"(ii) the crop acreage base requirements of the applicable commodity program for such commodity.

"(2) OFFSETTING COMPLIANCE.—The Secretary may not require producers on a farm, as a condition of eligibility for loans, purchases, or payments under this section for such farm, to comply with the terms and conditions of the feed grains program with respect to any other farm operated by such producers.".

SEC. 1002. PRICE SUPPORT FOR HIGH MOISTURE FEED GRAINS.

(a) RECOURSE LOANS.—Notwithstanding any other provision of law, effective for each of the 1991 through 1995 crops of feed grains, the Secretary of Agriculture shall make available recourse loans as determined by the Secretary, as provided in this section, to producers on a farm who—

(1) normally harvest all or a portion of their crop of feed grains in a high moisture state (herein defined as a feed grain having a moisture content in excess of Commodity Credit Corporation standards for loans made by the Secretary under sections 105A(a)(1) and (6) of the Agricultural Act of 1949);

(2)(A) present certified scale tickets from an inspected, certified commercial scale, including licensed warehouses, feedlots, feed mills, distilleries, or other similar entities approved by the Secretary, pursuant to regulations issued by the Secretary; or

(B) present field or other physical measurements of the standing or stored feed grain crop in regions of the country, as determined by the Secretary, that do not have certified commercial scales from which certified scale tickets may be obtained within reasonable proximity of harvest operation;

(3) certify that they were the owners of the feed grain at the time of delivery to, and that the amount to be placed under loan was in fact harvested on the farm and delivered to, a feedlot, feed mill, or commercial or on-farm high-moisture storage facility, or to such facilities maintained by the users of such high-moisture feed grain;

(4) comply with deadlines established by the Secretary for harvesting the feed grain

and submit applications for loans within deadlines established by the Secretary; and

(5) participate in an acreage limitation or set-aside program for such crop of feed grains established by the Secretary.

(b) ELIGIBILITY OF ACQUIRED FEED GRAINS.—Such loans shall be made on a quantity of feed grains of the same crop acquired by the producer equivalent to a quantity determined by multiplying—

(1) the acreage of the feed grain in a high moisture state harvested on the producer's farm; by

(2) the lower of the farm program payment yield or the actual yield on a field, as determined by the Secretary, that is similar to the field from which such high moisture feed grain was obtained.

SEC. 1003. NONAPPLICABILITY OF SECTION 105 OF THE AGRICULTURAL ACT OF 1949 TO THE 1991 THROUGH 1995 CROPS OF FEED GRAINS.

Section 105 of the Agricultural Act of 1949 (7 U.S.C. 1444b) shall not be applicable to the 1991 through 1995 crops of feed grains.

SEC. 1004. CALCULATION OF REFUNDS OF ADVANCE ESTABLISHED PRICE PAYMENTS BY PRODUCERS OF THE 1988 OR 1989 CROPS OF FEED BARLEY.

(a) MANDATORY CALCULATION OF REFUND.—(1) IN GENERAL.—Not later than 45 days after the date of enactment of this Act, the Secretary of Agriculture shall calculate, for informational purposes only (except as provided in the discretionary authority under subsection (b)), the amount of the refund of any advance deficiency payment a producer of barley who participated in the 1988 or 1989 Federal barley price support program would be required to make pursuant to section 107C of the Agricultural Act of 1949 (7 U.S.C. 1445b-2) based on a formula that includes the human food values of barley in all components of the calculations used to determine the amount of refund of the advance deficiency payment required of such producer.

(2) DISCLOSURE.—(A) TO THE PUBLIC.—The Secretary shall publish in the Federal Register—

(i) the formula used to perform the calculations described in paragraph (1);

(ii) the aggregate results that the use of such calculation would have pursuant to subsection (b), in terms of—

(I) the total reduction in the amount of refunds,

(II) the number of producers affected, and

(III) any other information the Secretary determines appropriate;

(iii) a declaration of the Secretary's decision whether to use such calculation to recalculate barley producer's refunds pursuant to subsection (b); and

(iv) a statement of the Secretary's reasons for the decision described in clause (iii).

(B) TO PRODUCERS.—The Secretary shall make available to each producer of 1988 or 1989 crop barley, upon request, a statement detailing the effect of the calculation of refunds described in paragraph (1) upon such producer's 1988 or 1989 refund.

(b) DISCRETIONARY USE OF CALCULATION.—(1) IN GENERAL.—The Secretary may use the calculation described in subsection (a) to determine whether or not to reduce the total refund owed by a producer of 1988 or 1989 crop barley under section 107C of the Agricultural Act of 1949.

(2) PROCEDURE FOR USE OF CALCULATION.—If the Secretary decides to use the calculation described in subsection (a) as provided under paragraph (1), then, in the case of a producer of 1988 or 1989 crop barley who paid the refund of the advance deficiency payment for such crop calculated prior to the enactment of this Act (or any amount of refund in excess of the amount of the refund determined in accordance with paragraph (1)), the Secretary —

(i) shall, before May 31, 1991, reimburse the producer the amount of refund paid by the producer in excess of the refund determined in accordance with this section;

(ii) shall have the option to make such reimbursement in a lump sum or in installments;

(iii) shall, not later than 45 days after the date of enactment of this Act, notify producers who are eligible to receive such reimbursement of their 1988 or 1989 advance deficiency payment refund under this section—

(I) of the timing of the payment of such reimbursement (either in lump sum or in installments),

(II) that the amount of such reimbursement shall not bear interest if paid before October 15, 1990, and

(III) that the amount of such reimbursement paid after October 15, 1990 shall bear interest at a rate of at least 7 percent per annum; and

(iv) may elect to pay such reimbursement in a lump sum with negotiable generic certificates redeemable for commodities owned by the Commodity Credit Corporation if such reimbursement is paid in full not later than 60 days after the date of enactment of this Act.

TITLE XI—GENERAL COMMODITY PROVISIONS

Subtitle A—Miscellaneous Commodity Provisions

SEC. 1101. PAYMENT LIMITATIONS.

(a) AMENDMENTS TO SECTION 1001 OF THE FOOD SECURITY ACT OF 1985.—Effective beginning with the 1991 crops, section 1001 of the Food Security Act of 1985 (7 U.S.C. 1308) is amended—

(1) in paragraph (1)—

(A) by inserting "(A)" after "(1)";

(B) by striking "1990" and inserting "1995";

(C) by adding at the end the following new subparagraphs:

"(B) Subject to sections 1001A through 1001C, for each of the 1991 through 1995 crops, the total amount of payments set forth in clauses (i) through (iv) that a person shall be entitled to receive under one or more of the annual programs established under the Agricultural Act of 1949 for wheat, feed grains, oilseeds, upland cotton, extra long staple cotton, and rice shall not exceed $100,000. For purposes of this subparagraph, the term 'payments' includes—

"(i)(I) any gain realized by a producer from repaying a loan for a crop of wheat, feed grains, oilseeds, upland cotton, or rice at the rate permitted under section 107A(a)(4), 105A(a)(4), 201(g)(4), 103B(a)(5), or 101B(a)(5), respectively, of the Agricultural Act of 1949, or (II) any gain realized by a producer from repaying a loan for a crop of any other commodity at a lower level than the original loan level established under the Agricultural Act of 1949;

"(ii) any loan deficiency payment received for a crop of wheat, feed grains, oilseeds, upland cotton, or rice under section 107A(b) or 105A(b), 201(g)(5), 103B(b), or 101B(b), respectively, of the Agricultural Act of 1949;

"(iii) any inventory reduction payment received for a crop of wheat, feed grains, upland cotton, or rice under section 107A(g)(1), 105A(g)(1), 103B(f), or 101B(f), respectively, of the Agricultural Act of 1949; and

"(iv) any deficiency payment received for a crop of wheat or feed grains under section 107A(c)(1) or 105A(c)(1), respectively, of the Agricultural Act of 1949 as the result of a reduction of the loan level for such crop under section 107A(a)(3) or 105A(a)(3) of such Act.".

(2) in paragraph (2)(A)—

(A) by striking "1987 through 1990" and inserting "1991 through 1995"; and

(B) by inserting "oilseeds," after "feed grains,";

(C) by striking "(with respect to clause (iii)(II) of subparagraph (B))";

(D) by striking "when combined" and inserting "and, with respect to wool and mohair, under the program established under the National Wool Act of 1954, when combined"; and

(E) by striking "$250,000" and inserting "$200,000";

(3) in paragraph (2)(B) by—

(A) striking "the term 'payments' means—" and inserting "the term 'payments' includes—";

(B) by striking clauses (iii) through (vi);

(C) inserting "and" after the semicolon at the end of clause (ii); and

(D) inserting the following clause:

"(iii) any gain realized by a producer from repaying a loan for a crop of honey at a lower level than the original loan level established under section 201(b)(2) of the Agricultural Act of 1949.";

(4) by amending paragraph (5)(B)(i)(I) to read as follows:

"(I) an individual, including any individual participating in a farming operation as a partner in a general partnership, a participant in a joint venture, a grantor of a revocable trust, or a participant in a similar entity (as determined by the Secretary), and, except for purposes of deficiency payments and land diversion payments (as described in paragraph (1)(A)), the term person shall also include any individual holding a substantial beneficial interest in any entity described in subclause (II);";

(5) in paragraph (5)(B)(i)(II) by inserting "only for purposes of deficiency payments and land diversion payments described in paragraph (1)(A)," before "a corporation";

(6) in paragraph (5)(B)(ii)(II) by—

(A) striking "irrevocable trusts and"; and

(B) striking "trusts and";

(7) by inserting after paragraph (5)(B)(ii) the following clause:

"(iv) Such regulations shall prohibit an irrevocable trust from being eligible to receive any payments (as described under paragraph (2)(B)).."; and

(8) in paragraph (5)(C), by striking "The regulations" and inserting "Only for purposes of deficiency payments and land diversion payments described in paragraph (1)(A), the regulations".

(b) AMENDMENT TO SECTION 1001A OF THE FOOD SECURITY ACT OF 1985.—Section 1001A(a) of the Food Security Act of 1985 (7 U.S.C. 1308-1(a)) is amended—

(1) by striking "farm program payments (as described in paragraphs (1) and (2) of this section" and inserting "deficiency payments and land diversion payments (as described in section 1001(1)(A)";

(2) by striking paragraph (2);

(3) by redesignating paragraph (3) as paragraph (2); and

(4) by redesignating paragraph (4) as paragraph (3).

(c) CONFORMING AMENDMENT.—Section 2 of the Act of December 11, 1989 (Public Law 101-217) is amended by striking "Effective

only for" and inserting "Effective beginning with".

(d) AMENDMENT TO SECTION 1001C OF THE FOOD SECURITY ACT OF 1985.—Section 1001C(a) of the Food Security Act of 1985 (7 U.S.C. 1308-3(a)) is amended by striking "and 1990" and inserting "through 1995".

(e) TREATMENT OF MULTI-YEAR FARM PROGRAM CONTRACT PAYMENTS.—Effective beginning with the 1989 crops, the Food Security Act of 1985 is amended by inserting after section 1001C (7 U.S.C. 1308-C) the following new section:

"SEC. 1001D. TREATMENT OF MULTI-YEAR FARM PROGRAM CONTRACT PAYMENTS.

"(a) IN GENERAL.—Notwithstanding any other provision of law, in the event of a transfer of ownership of a farming operation (or an ownership interest in a farming operation) by way of gift (in anticipation of death or upon disability of the donor), devise, or descent, the Secretary of Agriculture may continue to make to the new owner or owners all payments which may become due and payable by virtue of any multi-year program contract which was in effect at the time of the gift or the death of the prior owner.

"(b) LIMITATION ON INCREASE IN PAYMENTS.—Payments made pursuant to this section shall not exceed the amount to which the previous owner was entitled to receive under the terms of the contract at the time of the gift or the death of the prior owner.

"(c) LIMITATION ON DECREASE IN PAYMENTS.—Payments shall be made pursuant to this section to the new owner or owners of a farming operation (or an ownership interest in a farming operation) without regard to any limitation on farm program payments received by such new owner or owners in their capacity as separate persons actively engaged in farming with regard to any other farming operation, including the operation subject to the multi-year program payment contract which is the basis of this section.".

SEC. 1102. HYBRID SEED CORN PRODUCERS.

(a) DEFINITION.—For the purposes of the Agricultural Adjustment Act of 1938 (7 U.S.C. 1281 et seq.) and the Agricultural Act of 1949 (7 U.S.C. 1421 et seq.) the terms "producer" and "producers" shall include a grower of hybrid seed corn under contract, and the grower's interest in the crop shall be determined as though any contract for growing such hybrid seed corn did not exist.

(b) DETERMINATION OF ACTIVELY ENGAGED STATUS.—Section 1001A(b) of the Food Security Act of 1985 (7 U.S.C. 1308-1(b)) is amended by adding at the end the following paragraph:

"(6) GROWERS OF HYBRID SEED.—To determine whether a person growing hybrid seed under contract shall be considered to be actively engaged in farming, the Secretary shall not take into consideration the existence of any contract for growing such hybrid seed.".

SEC. 1103. ADVANCE DEFICIENCY AND DIVERSION PAYMENTS.

Effective only for the 1991 through 1995 crops of wheat, feed grains, upland cotton, and rice, section 107C of the Agricultural Act of 1949 (7 U.S.C. 1445b-2) is amended to read as follows:

"SEC. 107C. (a)(1) If the Secretary establishes an acreage limitation or set-aside program for any of the 1991 through 1995 crops of wheat, feed grains, upland cotton, or rice under this Act and determines that deficiency payments will likely be made for such commodity for such crop, the Secretary shall make advance deficiency payments available to producers for each of such crops.

"(2) Advance deficiency payments under paragraph (1) shall be made to the producer under the following terms and conditions:

"(A) Such payments may be made available in the form of—

"(i) cash;

"(ii) commodities owned by the Commodity Credit Corporation and negotiable certificates redeemable in a commodity owned by the Commodity Credit Corporation, except that not more than 50 percent of such payments may be made in commodities or such certificates in the case of any producer; or

"(iii) any combination of clauses (i) and (ii).

"(B) If payments are made available to producers as provided for under subparagraph (A)(ii), such producers may elect to receive such payments either in the form of—

"(i) such commodities; or

"(ii) such certificates.

"(C) Such a certificate shall be redeemable for a period not to exceed 3 years from the date such certificate is issued.

"(D) The Commodity Credit Corporation shall pay the cost of storing a commodity that may be received under such a certificate until such time as the certificate is redeemed.

"(E) Such payments shall be made available as soon as practicable after the producer enters into a contract with the Secretary to participate in such program.

"(F) Such payments shall be made available in such amounts as the Secretary determines appropriate to encourage adequate participation in such program, except that such amount may not exceed an amount determined by multiplying—

"(i) the estimated farm program acreage for the crop, by

"(ii) the farm program payment yield for the crop, by

"(iii)(I) in the case of wheat and feed grains, not less than 40 percent, nor more than 50 percent, of the projected payment rate; and

"(II) in the case of rice and upland cotton, not less than 30 percent, nor more than 50 percent, of the projected payment rate,

as determined by the Secretary.

"(G) If the deficiency payment payable to a producer for a crop, as finally determined by the Secretary under this Act, is less than the amount paid to the producer as an advance deficiency payment for the crop under this subsection, the producer shall refund an amount equal to the difference between the amount advanced and the amount finally determined by the Secretary to be payable to the producer as a deficiency payment for the crop concerned.

"(H) If the Secretary determines under this Act that deficiency payments will not be made available to producers on a crop with respect to which advance deficiency payments already have been made under this subsection, the producers who received such advance payments shall refund such payments.

"(I) Any refund required under subparagraph (G) or (H) shall be due at the end of the marketing year for the crop with respect to which such payments were made.

"(J) If a producer fails to comply with requirements established under the acreage limitation or set-aside program involved after obtaining an advance deficiency payment under this subsection, the producer shall repay immediately the amount of the advance, plus interest thereon in such amount as the Secretary shall prescribe by regulation.

"(3) The Secretary may issue such regulations as the Secretary determines necessary to carry out this section.

"(4) The Secretary shall carry out the program authorized by this section through the Commodity Credit Corporation.

"(5) The authority provided in this section shall be in addition to, and not in place of, any authority granted to the Secretary or the Commodity Credit Corporation under any other provisions of law.

"(b) If the Secretary makes land diversion payments under this Act to assist in adjusting the total national acreage of any of the 1991 through 1995 crops of wheat, feed grains, upland cotton, or rice to desirable levels, the Secretary may make at least 50 percent of such payments available to a producer as soon as possible after the producer agrees to undertake the diversion of land in return for such payments.".

SEC. 1104. COMMODITY CREDIT CORPORATION SALES PRICE RESTRICTIONS.

Effective only for the marketing years for the 1991 through 1995 crops, section 407 of the Agricultural Act of 1949 (7 U.S.C. 1427) is amended by—

(1) in the third sentence, striking the language following the third colon and inserting the following: "Provided, That, notwithstanding any other provision of law, the Corporation may not sell any of its stocks of wheat, corn, grain sorghum, barley, oats, and rye at less than (A) 150 percent of the current national average loan rate for the commodity, adjusted for such current market differentials reflecting grade, quality, location, and other value factors as the Secretary determines appropriate plus reasonable carrying charges, or (B) if the Secretary permits the repayment of loans made for a crop of the commodity at a rate that is less than the loan level determined for such crop, 150 percent of the average loan repayment rate that is determined for such crop during the period of such loans."; and

(2) in the seventh sentence, striking ", but in no event shall the purchase price exceed the then current support price for such commodities" and inserting "or unduly affecting market prices, but in no event shall the purchase price exceed the Corporation's minimum sales price for such commodities for unrestricted use".

SEC. 1105. DISASTER PAYMENTS FOR 1991 THROUGH 1995 CROPS OF PEANUTS, SOYBEANS, SUGAR BEETS, AND SUGARCANE.

(a) EXTENSION OF AMENDMENT TO SECTION 201 OF THE AGRICULTURAL ACT OF 1949.—Section 1008 of the Food Security Act of 1985 is amended by striking "1990" and inserting "1995".

(b) TECHNICAL CORRECTION.—Section 201(k)(1) of the Agricultural Act of 1949 (7 U.S.C. 1446(k)(1)) is amended by striking "Secetary" and inserting "Secretary".

SEC. 1106. EXTENSION AND ENHANCEMENT OF AUTHORITY FOR MULTIYEAR SET-ASIDE CONTRACTS.

Section 1010 of the Food Security Act of 1985 (7 U.S.C. 1445i) is amended—

(1) in paragraph (1) by—

(A) striking "The Secretary of Agriculture may" and inserting "The Secretary of Agriculture shall";

(B) striking "beyond the 1990" and inserting "beyond the 1995";

(C) striking "through 1990" and inserting "through 1995";

(D) striking "the set-aside acreage to vegetative cover capable" and all that follows through "natural beauty." and inserting "50 percent of the set-aside acreage to a perenni-

al cover crop or an annual cover crop each year that is capable of naturally improving water quality, improving habitat for wildlife, or making forage available for drought emergencies, unless water conservation considerations or other crop management considerations identified in a conservation plan prepared for such land require otherwise. Seasonal flooding with shallow water shall be considered to be acceptable cover crop for the purpose of this section.";

(E) striking "Grazing" and inserting "Haying or grazing"; and

(F) striking "grazing" and inserting "haying or grazing";

(2) by striking paragraph (4) and inserting the following:

"(4) There are authorized to be appropriated such sums as may be necessary to carry out this section."; and

(3) by adding at the end the following:

"(5) To be eligible to enter into a multi-year set-aside agreement and receive cost share assistance under this section a producer shall designate the same cropland each crop year for all agricultural set-aside and acreage limitation programs that are involved in multi-year set-aside programs, except that those croplands necessary for normal crop rotation or those lands used for changes in farm operations shall be exempt from this requirement. Each producer shall establish on such acreage a perennial cover crop or an annual cover crop that is capable of naturally improving soil fertility, reducing water problems, improving water quality, improving habitat for wildlife or making forage available for drought emergencies, unless water conservation considerations or other crop management considerations identified in a conservation plan for such land require otherwise.".

SEC. 1107. ESTABLISHMENT OF COVER CROP.

(a) IN GENERAL.—The Secretary should encourage producers who participate in an acreage reduction program established for a crop of wheat, feed grains, cotton or rice under the Agricultural Act of 1949 to plant an annual or perennial vegetative cover on reduced acreage that provides full season coverage capable of naturally improving soil fertility, reducing erosion, improving soil quality, enhancing wildlife, and making forage available for drought emergencies on all acreage required to be devoted to conservation uses, unless water conservation considerations or other crop management considerations identified in a conservation plan prepared for such land require otherwise.

(b) PARTICIPATION VOLUNTARY.—Participation by a producer in any program of encouragement under subsection (a) shall be at the discretion of the producer. Failure to participate in any such program shall not be used to determine eligibility for any other Federal program, unless specifically authorized by law.

(c) CONSIDERATION OF MANAGEMENT PRACTICES.—In any program of encouragement authorized under this section the Secretary shall provide for the planting of annual or vegetative cover crops consistent with normal crop rotation management practices, such as summer fallow or other conserving use management practices, traditionally practiced in the area.

SEC. 1108. SUPPLEMENTAL SET-ASIDE AND ACREAGE LIMITATION AUTHORITY.

Effective for the 1991 through 1995 crops of wheat and feed grains, section 113 of the Agricultural Act of 1949 (7 U.S.C. 1445h) is amended to read as follows:

"SUPPLEMENTAL SET-ASIDE AND ACREAGE LIMITATION AUTHORITY

"SEC. 113. Notwithstanding any other provision of law or prior announcement made by the Secretary to the contrary, the Secretary may announce and provide for a set-aside or acreage limitation program under section 105A or 107A for one or more of the 1991 through 1995 crops of wheat and feed grains if the Secretary determines that such action is in the public interest as a result of the imposition of restrictions on the export of any such commodity by the President or other member of the executive branch of the Federal Government. To carry out effectively a set-aside or acreage limitation program authorized under this section, the Secretary may make such modifications and adjustments in such program as the Secretary determines necessary because of any delay in instituting such program.".

SEC. 1109. REPLENISHMENT OF THE FOOD SECURITY WHEAT RESERVE.

Section 302(b)(2) of the Food Security Wheat Reserve Act of 1980 (7 U.S.C. 1736f-1)(b)(2)) is amended—

(1) by inserting "(A)" after "(2)";

(2) by striking "(A)" and "(B)" and inserting "(i)" and "(ii)", respectively; and

(3) by adding at the end the following new subparagraph:

"(B) Not later than 18 months after the release of stocks from the reserve, the Secretary of Agriculture shall replenish the reserve—

"(i) through purchase under subparagraph (A)(i) to the extent of the appropriations available; or

"(ii) by designating an equivalent quantity of wheat from uncommitted stocks of the Commodity Credit Corporation, to the extent sufficient appropriations are not available under subparagraph (A)(i), except to the extent that the Secretary reports to the Committee on Agriculture of the House of Representatives and the Committee on Agriculture, Nutrition, and Forestry of the Senate that there are not sufficient uncommitted stocks of the Commodity Credit Corporation available."

SEC. 1110. EXTENSION OF NORMALLY PLANTED ACREAGE PROVISIONS.

Sections 1001(a) and (b) of the Food and Agriculture Act of 1977 (7 U.S.C. 1309) are amended by striking "1990" each place it appears and inserting "1995".

SEC. 1111. EXTENSION OF PROVISIONS REGARDING THE ADVANCE ANNOUNCEMENT OF PROGRAMS.

(a) AMENDMENT THROUGH 1996 CROPS.—Section 406 of the Agricultural Act of 1949 (7 U.S.C. 1426) is amended by—

(1) striking "1991" each place it appears, other than in subsection (b)(3)(B)(ii), and inserting "1996";

(2) in subsection (b)(2) striking "(B)(1)" and inserting "(B)(i)"; and

(3) adding at the end of subsection (b)(3)(B)(ii) a new clause as follows:

"(iii) In the case of the 1996 crop, the Secretary shall make available to producers of a commodity who exercise the election provided by this section and who comply fully with the terms and conditions of any acreage reduction program established for the 1995 crop of the commodity—

"(I) loans and purchases at the level established for the 1996 crop under legislation enacted subsequent to the date of the enactment of the Food and Agricultural Resources Act of 1990, except that if legislation is enacted subsequent to the enactment of such Act which provides that loans and purchases shall not be made with respect to the 1996 crop of a commodity, the Secretary may make available to producers of such commodity eligible for the election provided by this subsection loans and purchases at the level determined for the 1995 crop, or if legislation is not enacted subsequent to the enactment of such Act which provides that loans and purchases shall be made with respect to the 1996 crop of any such commodity, and if loans and purchases are available to producers of such commodity under laws previously enacted, none of the provisions of this section shall apply to the 1996 crop;

"(II) deficiency payments calculated on the basis of the established price for the commodity determined for the 1995 crop; and

"(III) payments equal to the difference between the level of loans and purchases that the producer is eligible to receive under subclause (I) for such commodity for the 1995 crop and the level of loans and purchases determined for such commodity for the 1995 crop.

Payments authorized by subclause (III) of the preceding sentence shall be made in cash or in the form of in-kind commodities.".

(b) AMENDMENT THROUGH 1995 CROPS.—Section 406 of the Agricultural Act of 1949 (7 U.S.C. 1426) is amended—

(1) in subsection (b)(1) by striking "1987 through 1991 crops of wheat, feed grains, upland cotton and rice" and inserting "1991 through 1995 crops of wheat and feed grains";

(2) in subsection (b)(2) by striking "1987 through 1991 crops of wheat, feed grains, upland cotton and rice" and inserting "1991 through 1995 crops of wheat and feed grains";

(3) in subsection (b)(2)(B) by striking clauses (iii) and (iv) and inserting "and" at the end of clause (B)(1);

(4) in subsection (b)(3)(B) by striking "(i) Except as provided in clause (ii)," and inserting "Effective for the 1992 through 1995 crops,"; and

(5) by striking subsection (b)(3)(B)(ii) and the last sentence in subparagraph (B).

SEC. 1112. EXTENSION OF PROVISIONS REGARDING CERTAIN DETERMINATIONS OF THE SECRETARY.

Section 1017(b) of the Food Security Act of 1985 (99 Stat. 1459) is amended by striking "1990" and inserting "1995".

SEC. 1113. APPLICATION OF TERMS IN THE AGRICULTURAL ACT OF 1949.

Section 1018 of the Food Security Act of 1985 (99 Stat. 1459) is amended by striking "1990" and inserting "1995".

SEC. 1114. NORMAL SUPPLY DETERMINATION.

Section 1019 of the Food Security Act of 1985 (7 U.S.C. 1310a) is amended by striking "1990" and inserting "1995".

SEC. 1115. NATIONAL AGRICULTURAL COST OF PRODUCTION STANDARDS REVIEW BOARD.

Section 1014 of the Agriculture and Food Act of 1981 (7 U.S.C. 4110) is amended by striking "1990" and inserting "1995".

SEC. 1116. PRODUCER RESERVE PROGRAM FOR WHEAT AND FEED GRAINS.

Effective beginning with the 1991 crops, section 110 of the Agricultural Act of 1949 (7 U.S.C. 1445e) is amended—

(1) by striking the first sentence in subsection (a) and inserting "If the Secretary estimates for any marketing year that the ratio of ending stocks to total use for the marketing year for wheat will be more than 40 percent or for corn will be more than 25 percent, the Secretary shall formulate and administer a program under which producers of wheat or feed grains, respectively, will be able to store wheat or feed grains to extend

the time period for their orderly marketing and to provide for adequate, but not excessive, carryover stocks to ensure a reliable supply of the commodities.";

(2) in clause (1) of the third sentence of subsection (b) by striking "in not less than three years, with extensions as warranted by market conditions" and inserting: "in not less than 18 months, with one automatic 6-month extension upon the request of the producer, and further extensions at the discretion of the Secretary";

(3) in clause (2) of the third sentence of subsection (b) by inserting after "program" the following: ", taking into account, to the extent practicable, average rates paid for commercial storage in the State, such storage payments to be made to each producer at the end of the first calendar quarter after the grain enters such storage";

(4) in the third sentence of subsection (b) by striking clause (4) and inserting "(4) producers to redeem such loans at their discretion"; and

(5) in clause (5) of the third sentence of subsection (b) by striking "the higher of 140 percent of the nonrecourse loan rate for the commodity or the established price for such commodity," and inserting "150 percent of the nonrecourse loan rate,";

(6) by striking the fourth sentence of subsection (b);

(7) in subsection (c) by inserting at the end the following: "The Secretary may waive the repayment of principal or interest on loans made under this section if market conditions warrant."; and

(8) by striking paragraph (2) of subsection (e) and inserting the following:

"(2)(A) The total quantity of wheat stored under storage programs established under this section shall not exceed 300 million bushels.

"(B) The total quantity of feed grains stored under storage programs established under this section shall not exceed 600 million bushels.".

SEC. 1117. CERTIFICATES.

(a) AMENDMENT.—Section 107E of the Agricultural Act of 1949 (7 U.S.C. 1445b) is amended—

(1) in subsection (b)(3) by inserting "which shall enable any subsequent holders of such certificates to redeem such certificates under the same rules that apply to original holders of such certificates" before the semicolon; and

(2) by inserting at the end the following new subsection:

"(c) In the case of the annual programs for wheat or feed grains, if the Secretary makes in-kind payments available to producers for any payment under any such program, the Secretary shall also permit producers to elect to receive such payment in cash instead of in the form of an in-kind payment.".

(b) APPLICATION.—The amendment made by paragraph (a)(1) shall only apply during the 180-day period beginning on the date of enactment. No person may redeem more than $25,000 worth of certificates under such amendment.

(c) LIMITATIONS.—In no event shall a person receive a payment from the Commodity Credit Corporation for a certificate that is redeemed under the amendment made by paragraph (a)(1) in an amount greater than the price paid for the certificate by such person. No expired certificate shall be exchanged under this section if the owner purchased such certificate after January 1, 1990.

SEC. 1118. PROCEDURAL REQUIREMENTS.

The Agricultural Act of 1949 is amended by inserting after section 107F the following new section: "

SEC. 107G. PROCEDURES FOR DISPOSITION OF STOCKS.

"(a) IN GENERAL.—The Commodity Credit Corporation shall, by rule, establish procedures for the exchange of certificates issued by the Commodity Credit Corporation for commodities or funds of the Commodity Credit Corporation, including any procedures to be used by the Commodity Credit Corporation to determine the value of any such commodities.

"(b) ADVANCE ANNOUNCEMENT.—As soon as practicable before the marketing year or season for each commodity for which there is an annual program in effect under this Act, the Secretary shall announce the anticipated stock disposition actions with respect to the exchange of commodity certificates for commodities owned by the Commodity Credit Corporation (and reasons therefor) for that commodity for the marketing year or season.

"(c) ANNOUNCEMENT OF RATIONALE AND GOALS.—Whenever the Secretary decides to make payments to producers participating in annual programs under this Act using marketing certificates, the Secretary shall announce the rationale for such decision and the goals for the levels of Commodity Credit Corporation stocks.

"(d) REPAYMENT IN CERTIFICATES.—Whenever the Secretary decides to make payments to producers participating in annual programs under this Act using marketing certificates, the Secretary shall allow producers to make any refund of those payments by using such certificates.".

SEC. 1119. FINANCIAL IMPACT ASSESSMENT.

The Secretary shall conduct an annual assessment of the financial impact of the support levels established and announced by the Secretary under programs contained in the Agricultural Act of 1949 (hereafter "programs"), including an assessment of the effect of such support levels on the ability of producers to meet their financial obligations (with special emphasis on borrowers from the Farmers Home Administration and the Farm Credit System). The Secretary shall annually prepare a report containing the results of such assessment and submit such report to the Committee on Agriculture of the House of Representatives and the Committee on Agriculture, Nutrition, and Forestry of the Senate, not later than the date of the final announcement for such programs by the Secretary for any one year. The assessment under this section, including the assessment of the effect of such support levels on the ability of producers to meet their financial obligations, shall be only for informational purposes and for Congressional oversight and shall not give rise to any cause of action, be a basis for, or be used as evidence in support of, any claim or right of any person, including farmers and borrowers, in any administrative or judicial proceeding.

SEC. 1120. SURVEY OF PROGRAM PARTICIPANTS.

(a) SURVEY.—The Secretary of Agriculture (hereafter in this section referred to as the "Secretary") shall provide that producers, during the sign-up period for commodity programs under the Agricultural Act of 1949 (7 U.S.C. 1441) in the 1991 calendar year, complete a survey regarding the preference of such producers, either to increase the efficiency of their farming operation or to assist in meeting conservation requirements for the farm, for the redistribution of any crop acreage bases on each producer's farm. Such survey shall include questions designed to determine whether such producers would prefer to redistribute their current crop acreage bases—

(1) in different proportions among the program crops for which such producers currently have a crop acreage base;

(2) among program crops for which such producers currently do not have a crop acreage base; or

(3) in some combination of the options provided under paragraphs (1) and (2)

without exceeding total cropland of the farm. Such survey shall be prepared and administered by the Agricultural Stabilization and Conservation Service, and conducted in every county where sign-ups for Federal commodity programs are administered.

(b) ANALYSIS OF DATA.—The Secretary shall compile and analyze the data collected from the survey required under subsection (a) to determine—

(1) the potential increases and decreases in State, regional, and national acreage that would be planted to various program crops if producers were given the option to redistribute their current crop acreage bases as indicated by the survey conducted under subsection (a);

(2) the potential commodity program costs or savings if producers were allowed to implement the redistribution of such crop acreage bases as described in paragraph (1);

(3) the potential impact of such a redistribution of crop acreage bases on the competitiveness of United States agriculture in world markets; and

(4) such other consequences of such a redistribution of crop acreage bases that the Secretary determines to be of significance to United States agriculture.

(c) REPORT.—Not later than January 31, 1992, the Secretary shall submit to the Committee on Agriculture of the House of Representatives and the Committee on Agriculture, Nutrition, and Forestry of the Senate a report on the results of the survey conducted under subsection (a). Such report shall—

(1) include a compilation of the data collected pursuant to the survey conducted under subsection (a);

(2) include the results of the analysis and determinations required under subsection (b);

(3) provide a summary of such data and determinations on a program crop-by-program crop and State-by-State basis; and

(4) provide such other recommendations or information as the Secretary determines appropriate.

SEC. 1121. SENSE OF THE CONGRESS.

It is the sense of the Congress that any future reduction in spending provided by any budget reconciliation bill that affects agricultural commodity support programs should be made by Congress on a targeted basis to protect the support prices for the amount of commodities produced by family-sized farms.

SEC. 1122. END ROWS IN SET-ASIDE.

(1) IN GENERAL.—Producers shall, subject to subsection (b), be allowed to meet acreage limitation or set-aside requirements by idling end rows, regardless of whether they meet the minimum acreage limitation or set-aside width and acreage if—

(1) the end rows are planted to a perennial cover crop;

(2) it would be in substantial soil loss reductions, relative to idling other land, as determined by the Soil Conservation Service; and

(3) each acre idled under this provision shall count as .9 acres toward meeting the acreage limitation or set-aside requirement, except that an Agricultural Stabilization and Conservation Service county committee may, on a case-by-case basis, reduce the set-aside credit if it determines that actual production adjustment afforded by the practice on a farm is less than the production adjustment afforded by enrolling other eligible acres.

(b) BUDGET NEUTRALITY LIMITATION.—A producer shall be allowed to exercise the option to meet acreage limitation or set-aside requirements by idling end rows, as provided under subsection (a), only to the extent that the total payments to the producer exercising such option are no greater than they would otherwise have been if the producer had not exercised such option.

SEC. 1123. INCREASE IN SUPPORT LEVELS.

Section 402 of the Agricultural Act of 1949 is amended by—

(1) inserting "(a)" after "402"; and

(2) adding at the end the following:

"(b) Effective only for the 1991 through 1995 crops of wheat, feed grains, cotton, and rice, the Secretary of Agriculture may provide for annual adjustments in the established prices for such program crops to reflect any change during the last calendar year ending before the beginning of each such crop year in the index of prices paid by farmers for production items, interest, taxes, and wage rates in such calendar year.".

Subtitle B—Uniform Base Acreage and Yield Provisions

SEC. 1131. ACREAGE BASE AND PROGRAM YIELD SYSTEM FOR THE WHEAT, FEED GRAIN, UPLAND COTTON, AND RICE PROGRAMS.

Effective for the 1991 through 1995 crops of wheat, feed grains, upland cotton, and rice, title V of the Agricultural Act of 1949 (7 U.S.C. 1461 et seq.) is amended to read as follows:

"TITLE V—ACREAGE BASE AND PROGRAM YIELD SYSTEM FOR THE WHEAT, FEED GRAIN, UPLAND COTTON, AND RICE PROGRAMS

"SEC. 501. PURPOSE.

"The purpose of this title is to prescribe a system for establishing farm and crop acreage bases and program yields for the wheat, feed grain, upland cotton, and rice programs under this Act that is efficient, equitable, flexible, and predictable.

"SEC. 502. DEFINITIONS.

"For purposes of this title—

"(1) the term 'program crop' means any crop of wheat, feed grains, upland cotton, or rice; and

"(2) the term 'county committee' means the county committee established under section 8(b) of the Soil Conservation and Domestic Allotment Act (16 U.S.C. 590h(b)) for the county in which the farm is administratively located.

"SEC. 503. FLEXIBLE ACREAGE BASE AND FLEXIBLE CROP ACREAGE.

"(a) ESTABLISHMENT OF BASES.—The Secretary shall provide for the establishment and maintenance of flexible acreage bases for the 1991 and subsequent crop years.

"(b) DETERMINATION OF BASES.—The county committee, in accordance with regulations prescribed by the Secretary, shall determine the flexible acreage base for a farm for a crop year. Such flexible acreage base shall include the sum of—

"(1) the number of acres equal to the sum of the crop acreage bases for the farm; and

"(2) the average of the acreage on the farm planted and considered planted to soybeans, sunflower, canola, rapeseed, safflower, flaxseed, mustard seed, and any other oilseeds the Secretary may designate under section 201(g)(1)(A), in each of the 5 crop years immediately preceding the year for which the determination is made.

"(c) FLEXIBLE CROP ACREAGE.—(1) Designation by Producers.—Notwithstanding any other provision of this Act, the Secretary shall permit producers on a farm to designate up to 25 percent of such flexible acreage base for the crop year as flexible crop acreage. Such flexible crop acreage may be planted, at the option of the producer, to—

"(A) any program crop in an amount such that the plantings of all program crops on farm do not exceed the total of the permitted acreage for all program crops on the farm: Provided; That during any of the crop years 1991 through 1995 in which a percentage of permitted acres on a farm planted to a crop of wheat, feed grains, cotton, or rice shall be ineligible to receive deficiency payments by virtue of any program policy element that may subsequently be enacted removing from the producer of such crop the option to plant the permitted crop and receive deficiency payments thereon, then at such time and to the extent of the percentage of such ineligibility to receive deficiency payments on the permitted program crop or crops on the farm, the restrictions imposed by this subparagraph shall be waived as to the total plantings of all program crops on the farm on flexible acreage base on the farm as defined in this title.

"(B) soybeans, sunflower, canola, rapeseed, safflower, flaxseed, mustard seed, or any other oilseeds the Secretary may designate under section 201(g)(1)(A);

"(C) sweet sorghum, popcorn, guar, sesame, castor beans, mustard, crambe, plantago ovato, triticale, rye, guayule, milkweed, mung bean, meadowfoam, jojoba, kenaf;

"(D) commodities grown for experimental purposes, as determined by the Secretary;

"(E) commodities for which no substantial domestic production or market exists, as determined by the Secretary; or

"(F) any experimental crop, including annual herbaceous, or short-rotation woody crops, the production of which the Secretary determines necessary to meet demand or anticipated demand for ethanol or other biofuels production.

"(2) NOTIFICATION.—With regard to commodities that may be planted pursuant to paragraph (1)(D) (E), and (F), the Secretary shall make a determination in each crop year of the commodities that will qualify for planting on flexible acres and shall publish a proposed list of such commodities in advance of making a final determination and granting the authority to producers to plant such commodities.

"(3) BASE PROTECTION.—For the purposes of determining the flexible acreage base or the crop acreage bases for the farm, any acreage on the farm that is designated as flexible crop acreage under paragraph (1), shall be considered to be planted to the program crop or oilseed specified in subsection (b)(2) for which such crop planted on such flexible crop acreage is substituted.

"(4) LIMITATION ON BENEFITS.—The Secretary shall not make program benefits, other than price support loans (including any loan made under section 107A(a), 105A(a), 201(g), 103B(a), or 101B(a)) authorized under this Act for the program crop, available to producers with respect to a program crop planted on flexible crop acreage under paragraph (1), and shall ensure that the crop acreage bases and the flexible acreage base established for the farm are not increased due to such plantings.

"(d) OATS PLANTINGS.—(1) BASE PROTECTION.—Notwithstanding any other provision of this Act, the Secretary shall permit producers on a farm to designate any portion of the flexible acreage base (excluding any acreage specified in subsection (b)(2)) for the crop year as acreage base established for oats. For the purposes of determining the flexible acreage base or the crop acreage bases for the farm, any acreage on the farm that is designated as oats base under this paragraph and planted to oats for harvest shall be considered to be planted to the program crop for which oats are substituted.

"(2) OATS PROGRAM BENEFITS.—The Secretary may make program benefits (including, but not limited to, loans, purchases, and payments) available under the annual program for oats under section 105A available to producers with respect to acreage planted to oats under this subsection.

"(3) LIMITATION OF BENEFITS.—The Secretary shall not make program benefits other than benefits specified in paragraph (2) available to producers with respect to acreage planted to oats under paragraph (1), and shall ensure that the crop acreage bases established for the farm and the flexible acreage base are not increased due to such plantings.

"SEC. 504. CROP ACREAGE BASES.

"(a) ESTABLISHMENT.—(1) IN GENERAL.—The Secretary shall provide for the establishment and maintenance of crop acreage bases for each program crop, including any program crop produced under an established practice of double cropping. The sum of the crop acreage bases for all program crops produced on any farm for any crop year shall not exceed the flexible acreage base for such farm for such crop year, except to the extent that the excess is due to an established practice of double cropping.

"(2) DOUBLE CROPPING.—The term 'double cropping' means a farming practice, as defined by the Secretary, which has been carried out on a farm in at least 3 of the 5 crop years immediately preceding the crop year for which the crop acreage base for the farm is established.

"(b) DETERMINATION.—(1) IN GENERAL.—(A) Except as provided in subparagraph (B), the crop acreage base for a program crop for any farm for the 1991 and subsequent crop years shall be the number of acres that is equal to the average of the acreage planted and considered planted to such program crop for harvest on the farm in each of the 5 crop years preceding such crop year.

"(B) In the case of upland cotton and rice, the crop acreage base for those crops shall be the number of acres that is equal to the average of the acreage planted and considered planted to such program crop for harvest on the farm in each of the three crop years preceding such crop year.

"(2) ACREAGE CONSIDERED PLANTED.—The acreage considered planted to a program crop shall include—

"(A) any reduced acreage, set-aside acreage, and diverted acreage on the farm;

"(B) any acreage on the farm that producers were prevented from planting to such crop because of drought, flood, or other natural disaster, or other condition beyond the control of the producers;

"(C) acreage in an amount equal to the difference between the permitted acreage for a program crop and the acreage planted to the crop, if the acreage considered to be

planted is devoted to conservation uses or the production of commodities permitted under section 107A(c)(1)(G), 105A(c)(1)(H), 103B(c)(1)(F), or 101B(c)(1)(F), as the case may be;

"(D) acreage designated as flexible crop acreage, other than that portion designated from acreage specified under section 503(b)(2);

"(E) any acreage on the farm that the Secretary determines is necessary to be included in establishing a fair and equitable crop acreage base;

"(F) any acreage on the farm for which the crop acreage base for the crop on the farm was adjusted because of a condition or occurrence beyond the control of the producer pursuant to subsection (e).

"(3) CONSTRUCTION OF PLANTING HISTORY.—For the purpose of determining the crop acreage base for the 1991 and subsequent crop years for any farm, the county committee, in accordance with regulations prescribed by the Secretary, may construct a planting history for such crop if—

"(A) planting records for such crop for any of the 5 crop years preceding such crop year are incomplete or unavailable; or

"(B) during at least one but not more than 4 of the 5 crop years preceding such crop year, the program crop was not produced on the farm.

"(c) CROP ROTATION.—The Secretary may make adjustments to reflect crop rotation practices and to reflect such other factors as the Secretary determines should be considered in determining a fair and equitable crop acreage base.

"(d) PREVENTED PLANTING.—If a county committee determines, in accordance with regulations prescribed by the Secretary, that the occurrence of a natural disaster or other similar condition beyond the control of the producer prevented the planting of a program crop on any farm within the county (or substantially destroyed any such program crop after it had been planted but before it had been harvested), the producer may plant any other crop, including any other program crop, on the acreage of such farm that, but for the occurrence of such disaster or other condition, would have been devoted to the production of a program crop. For purposes of determining the flexible acreage base or the crop acreage base, any acreage on the farm on which a substitute crop, including any program crop, is planted under this subsection shall be taken into account as if such acreage had been planted to the program crop for which the other crop was substituted.

"(e) ADJUSTMENT OF BASES.—The county committee, in accordance with regulations prescribed by the Secretary, may adjust any crop acreage base for any program crop for any farm if the crop acreage base for the crop on the farm would otherwise be adversely affected by a condition or occurrence beyond the control of the producer.

"SEC. 505. FARM PROGRAM PAYMENT YIELDS.

"(a) ESTABLISHMENT.—The Secretary shall provide for the establishment of a farm program payment yield for each farm for each program crop for each crop year. Such program payment yield shall be equal to the average of the farm program payment yields for the farm for the 1981 through 1985 crop years (or, at the option of the producer, the actual yields for the 1986 through 1990 crop years in the case of feed grains), excluding the year in which such yield was the highest and the year in which such yield was the lowest.

"(b) PRODUCER PROTECTIONS.—(1) LIMITATION ON REDUCTIONS.—If the farm program payment yield for a farm is reduced more than 10 percent below the farm program payment yield for the 1985 (or 1990 in the case of feed grain producers who elect the 1986 through 1990 crop years) crop year, the Secretary shall make available to producers deficiency payments for the commodity in such amount as the Secretary determines is necessary to provide the same total return to producers as if the farm program payment yield had not been reduced more than 10 percent below the farm program payment yield for the 1985 (or 1990 in the case of feed grain producers who elect the 1986 through 1990 crop years) crop year. Such payments shall be made available to producers not later than the time final deficiency payments are made available.

"(2) CONSTRUCTION OF YIELDS.—If no crop of the commodity was produced on the farm or no farm program payment yield was established for the farm for any of the 1981 through 1985 crop years (or 1986 through 1990 as appropriate), the farm program payment yield shall be established on the basis of the average farm program payment yield for such crop years for similar farms in the area.

"(3) COUNTY YIELDS.—If the Secretary determines such action is necessary, the Secretary may establish national, State, or county program payment yields on the basis of—

"(A) historical yields, as adjusted by the Secretary to correct for abnormal factors affecting such yields in the historical period; or

"(B) the Secretary's estimate of actual yields for the crop year involved if historical yield data is not available.

"(4) BALANCING OF YIELDS.—If national, State, or county program payment yields are established, the farm program payment yields shall balance to the national, State, or county program payment yields.

"(c) DETERMINATION OF YIELDS.—(1) ACTUAL YIELDS.—With respect to the 1991 and subsequent crop years, the Secretary may (A) establish the farm program payment yield as provided in subsection (a), or (B) establish a farm program payment yield for any program crop for any farm on the basis of the average of the yield per harvested acre for the crop for such farm for each of the 5 crop years immediately preceding such crop year, excluding the crop year with the highest yield per harvested acre, the crop year with the lowest yield per harvested acre, and any crop year in which such crop was not planted on the farm. For purposes of the preceding sentence, the farm program payment yield for the 1986 crop year and the actual yield per harvested acre with respect to the 1987 and subsequent crop years shall be used in determining farm program payment yields. Notwithstanding any other provision of this paragraph, for purposes of establishing a farm program payment yield for any program crop for any farm for the 1991 and subsequent crop years, the farm program payment yield for the 1986 crop year may not be reduced more than 10 percent below the farm program payment yield for the farm for the 1985 crop year.

"(2) ADJUSTMENT OF YIELDS.—The county committee, in accordance with regulations prescribed by the Secretary, may adjust any farm program payment yield for any program crop for any farm if the farm program payment yield for the crop on the farm does not accurately reflect the productive potential of the farm.

"(d) ASSIGNMENT OF YIELDS.—In the case of any farm for which the actual yield per harvested acre for any program crop referred to in subsection (c)(1) for any crop year is not available, the county committee may assign the farm a yield for the crop for such crop year on the basis of actual yields for the crop for such crop year on similar farms in the area.

"(e) OFFSETS.—In order to offset any cost of the use of the actual yield per harvested acre in establishing farm program payment yields for feed grains under subsection (a), the Secretary shall increase the uniform percentage reduction to the crop acreage base applied to each crop of feed grains under any acreage limitation program under this Act by an amount sufficient to result in a reduction of program costs equal to any costs associated with such use of actual yields.

"SEC. 506. PLANTING AND PRODUCTION HISTORY OF FARMS.

"Effective for each of the 1991 and subsequent crop years, each county committee, in accordance with regulations prescribed by the Secretary, may require any producer who seeks to establish a flexible acreage base, crop acreage base, or farm program payment yield for a farm for a crop year to provide planting and production history of such farm for each of the 5 crop years immediately preceding such crop year.

"SEC. 507. ESTABLISHMENT OF BASES AND YIELDS BY COUNTY COMMITTEES.

"Each county committee may, in accordance with regulations prescribed by the Secretary, provide for the establishment of a flexible acreage base, crop acreage base, and farm program payment yield with respect to any farm administratively located within the county if such flexible acreage base, crop acreage base, or farm program payment yield cannot otherwise be established under this title. Such bases and farm program payment yields shall be established in a fair and equitable manner, but no such bases or farm program payment yields shall be established for a farm if the producer on such farm is subject to sanctions under any provision of Federal law for cultivating highly erodible land or converted wetland.

"SEC. 508. APPEALS.

"The Secretary shall establish an administrative appeal procedure which provides for an administrative review of determinations made with respect to flexible acreage bases, crop acreage bases, and farm program payment yields.".

Subtitle C—Encouraging Surface Water Storage

SEC. 1141. DEFINITIONS.

As used in this subtitle—

(1) the term "producer" means a producer of a program crop who, in the year the crop is produced, participates in the price support and acreage reduction program for such crop established by the Agricultural Act of 1949;

(2) the term "surface reservoir" means a reservoir, pond, or other facility constructed on a farm for the primary purpose of storing surface water for the irrigation of crops produced on the farm, for the watering of livestock, or for such agricultural purpose as the Secretary may by regulation allow;

(3) the term "program crop" means any crop of wheat, feed grains, upland cotton or rice; and

(4) the term "wetland" has the meaning given such term in section 1201(a)(16) of the Food Security Act of 1985.

SEC. 1142. SURFACE RESERVOIR ENCOURAGEMENT PROGRAM.

(a) IN GENERAL.—A producer may construct a surface reservoir on land which is

part of a flexible acreage base for a farm, as determined by the Secretary pursuant to section 503 of the Agricultural Act of 1949.

(b) CONSERVATION USE.—Land on which a surface reservoir has been constructed pursuant to subsection (a) shall be considered to be devoted to conservation uses if the land was planted or considered planted to a program crop or an oilseed crop in at least 3 of the immediately preceding 5 years.

SEC. 1143. SPECIAL PROGRAM FOR AREAS OF SEVERE GROUND WATER DEPLETION.

Not later than 18 months following the date of enactment of this Act, the Secretary shall devise and implement a program for providing further incentives for reservoir construction in counties designated by the Secretary, after consultation with the United States Geologic Survey, as areas of severe ground water depletion.

SEC. 1144. LIMITATIONS.

This subtitle shall not apply in the case of any producer unless—

(a)(1) the surface reservoir constructed by the producer under this subtitle is in compliance with an established conservation plan approved by the Soil Conservation Service;

(2) the Soil Conservation Service certifies that the producer has not converted any wetland not previously designated as prior converted wetland or farmed wetland for the purpose of constructing the reservoir;

(c) the producer has demonstrated to the satisfaction of the Secretary that water needs which would be met by the water in the surface reservoir have been met on the same farm by ground water in at least three of the five years preceding enactment of this Act.

TITLE XII—AGRICULTURAL TRADE AND ASSISTANCE

Subtitle A—Public Law 480 And Related Programs

SEC. 1201. SHORT TITLE.

This subtitle may be cited as the "Mickey Leland Food for Peace Act".

SEC. 1202. AMENDMENT OF AGRICULTURAL TRADE DEVELOPMENT AND ASSISTANCE ACT OF 1954.

Unless otherwise expressly provided, whenever in this subtitle an amendment is expressed in terms of an amendment to a section or other provision, the reference shall be considered to be made to a section or other provision of the Agricultural Trade Development and Assistance Act of 1954 (7 U.S.C. 1691 and following).

SEC. 1203. EXTENSION OF AUTHORITIES.

Section 409 (7 U.S.C. 1736c) is amended—

(1) by striking "1990" in the first sentence and inserting "1995"; and

(2) by striking "and the Food Security Act of 1985" in the second sentence and inserting ", the Food Security Act of 1985, and the Food and Agricultural Resources Act of 1990".

SEC. 1204. AMENDMENT TO SECTION 2.

Section 2 (7 U.S.C. 1691) is amended to read as follows:

"SEC. 2. UNITED STATES POLICY.

"It is the policy of the United States to use its abundant agricultural productivity to promote the foreign policy of the United States by enhancing the food security of the developing world through the use of agricultural commodities, and local currencies accruing under this Act, to—

"(1) combat world hunger and malnutrition and their causes;

"(2) promote broad-based, equitable, and sustainable development, including agricultural development;

"(3) expand international trade;

"(4) develop and expand export markets for United States agricultural commodities; and

"(5) foster and encourage the development of private enterprise and democratic participation in developing countries.".

SEC. 1205. AMENDMENT TO SECTION 3.

Section 3 (7 U.S.C. 1691a) is amended to read as follows:

"SEC. 3. OVERALL FOOD AID LEVEL.

"It is the sense of the Congress that the President should increase the level of food aid provided by the United States, and should encourage other donor governments to increase the level of food aid they provide, to reflect the findings of the National Research Council of the National Academy of Sciences that it will be necessary to double the present food aid level of approximately 10 million metric tons per year in order to meet the projected world food aid needs during 1991 through 2000. It is further the sense of the Congress that the President should encourage other developed countries to increase their contributions toward combatting hunger and malnutrition in developing countries by expanding international food and agricultural assistance programs.".

SEC. 1206. AMENDMENTS TO TITLE I.

(a) AMENDMENT TO SECTION 101.—Section 101 (7 U.S.C. 1701) is amended to read as follows:

"SEC. 101. SALES PROGRAM.

"(a) GENERAL AUTHORITY.—To carry out the policies set forth in section 2, the President may negotiate and carry out agreements with developing countries to provide for the sale of agricultural commodities to such countries—

"(1) for dollars on credit terms, or for local currencies (including for local currencies on credit terms) for use under section 104; and

"(2) on such other terms and conditions as the President may require be included in such agreements, consistent with the requirements of this Act.

"(b) DEFINITION OF DEVELOPING COUNTRY.—For purposes of this section, the term 'developing country' means a country that has a shortage of foreign exchange earnings and has difficulty meeting all of its food needs through commercial channels.

"(c) PRIORITIES IN ALLOCATIONS OF ASSISTANCE.—In determining whether and to what extent agricultural commodities will be made available to developing countries under this section, the President shall give priority to countries that—

"(1) demonstrate the greatest need for food, and

"(2) have the demonstrated potential to become commercial markets for competitively priced United States agricultural commodities.".

(b) AMENDMENTS TO SECTION 103.—Section 103 (7 U.S.C. 1703) is amended—

(1) by striking subsections (a), (b), (d), (h), (i), (j), (p), (q), and (r);

(2) by redesignating subsections (c), (e), (f), (g), (k), (l), (m), (n), and (o) as paragraphs (1) through (9), respectively;

(3) in paragraph (7), as so redesignated—

(A) by striking "except as provided in section 108,";

(B) by striking "(1)"; and

(C) by striking ", and (2)" and all that follows through "conversion;" and inserting a semicolon;

(4) by inserting "and" at the end of paragraph (9), as so redesignated; and

(5) by inserting after that paragraph the following:

"(10) give priority to financing the sale of food and fiber commodities in the allocation of funds made available under this title.".

(c) AMENDMENT TO SECTION 104.—Section 104 (7 U.S.C. 1704) is amended to read as follows:

"SEC. 104. USE OF LOCAL CURRENCY PAYMENTS.

"(a) IN GENERAL.—Agreements under section 101 may provide that the President shall use payments made in local currencies by the recipient country in accordance with this section.

"(b) ACTIVITIES.—The proceeds from the payments referred to in subsection (a) may be used in the recipient country for the following:

"(1) TRADE DEVELOPMENT.—To carry out programs to help develop markets for United States agricultural commodities on a mutually beneficial basis in the recipient country.

"(2) AGRICULTURAL BUSINESS DEVELOPMENT LOANS.—To make loans to United States business entities (including cooperatives) and branches, subsidiaries, or affiliates of such entities for agricultural business development and agricultural trade expansion in such recipient countries.

"(3) AGRICULTURAL FACILITIES LOANS.—To make loans to domestic or foreign entities (including cooperatives) for the establishment of facilities for aiding in the utilization or distribution of, or otherwise increasing the consumption of and markets for, United States agricultural products.

"(4) TRADE PROMOTION.—To promote agricultural trade development, under procedures established by the President, by making loans or through other activities (including trade fairs) that the President determines to be appropriate.

"(5) PRIVATE SECTOR AGRICULTURAL TRADE DEVELOPMENT.—To conduct private sector agricultural trade development activities in the recipient country, as determined appropriate by the President.

"(6) AGRICULTURAL DEVELOPMENT.—To support—

"(A) increased agricultural production, including availability of agricultural inputs, with emphasis on small farms, processing, forestry management, and land and water management;

"(B) credit policies for private-sector agriculture development; and

"(C) establishment and expansion of institutions for basic and applied agricultural research and the use of such research through development of extension services.

"(7) RESEARCH.—To conduct research in agriculture, forestry, and aquaculture, including collaborative research which is mutually beneficial to the United States and the recipient country.

"(8) ACQUISITION OF BUILDINGS FOR UNITED STATES GOVERNMENT USE.—To acquire (by purchase, lease, rental, or otherwise) sites and buildings and grounds abroad for United States Government use (including offices, residence quarters, and community and other facilities), and to construct, repair, alter, and furnish such buildings and facilities.

"(9) ACQUISITION OF MATERIALS FOR LIBRARIES.—To finance under the direction of the Librarian of Congress and the Director of the National Agricultural Library, in consultation with the National Science Foundation and other interested agencies—

"(A) programs outside the United States for the analysis and evaluation of foreign books, periodicals, and other materials to determine their technical, scientific, cultur-

al, or educational significance to the United States, and

"(B) the acquisition of such books, periodicals, and other materials and the deposit thereof in libraries and research centers in the United States specializing in the areas to which they relate.

"(10) SCIENTIFIC ACTIVITIES.—To collect, collate, translate, abstract, and disseminate scientific and technological information, conduct research and support scientific activities overseas, including programs and projects of scientific cooperation between the United States and other countries, such as coordinated research against human diseases, and to promote and support programs of medical and scientific research.

"(11) PEST CONTROL PROGRAMS.—To pay the costs of carrying out programs for the control of rodents, insects, weeds, and other animal or plant pests.

"(c) SPECIAL ACCOUNT.—Local currencies received by the President under section 101 shall be deposited in an interest-bearing account to the credit of the United States. Amounts in such accounts shall be used by the President as provided in this section.

"(d) FISCAL REQUIREMENTS REGARDING USE OF LOCAL CURRENCIES.—

"(1) EXEMPTION.—Section 1306 of title 31, United States Code, shall not apply to local currencies used by the President under paragraphs (1) through (7) of subsection (b).

"(2) USE OF CURRENCIES BY OTHER AGENCIES.—Any department or agency of the United States Government that uses any currencies from a special account established pursuant to subsection (c) for a purpose for which funds have been appropriated shall reimburse the Commodity Credit Corporation in an amount equivalent to the dollar value of the currencies used.

"(e) REDUCTION IN BALANCE OF PAYMENTS DEFICIT.—The President shall utilize local currencies received pursuant to this Act is such manner as will, to the maximum extent possible, reduce any deficit in the balance of payments of the United States.

"(f) SUPPORT FOR CERTAIN EDUCATIONAL INSTITUTIONS.—If the President determines that local currencies deposited in a special account pursuant to subsection (c) are not needed for any of the activities described in subsection (b), the President may use those currencies to provide support for any institution (other than an institution whose primary purpose is to provide religious education) located in the recipient country that provides education in agricultural sciences or other disciplines for a significant number of United States nationals (who may include members of the United States Armed Forces or the Foreign Service or dependents of such members).".

(d) REPEAL OF SECTION 105; DEBT FORGIVENESS AND DEBT SWAP AUTHORITIES.—Title I is amended by striking section 105 (7 U.S.C. 1705) and inserting the following:

"SEC. 105. DEBT FORGIVENESS.

"(a) AUTHORITY.—The President, taking into account the financial resources of a country, may waive payments of principal and interest that that country would otherwise be required to make to the Commodity Credit Corporation under dollar sales agreements under this title if—

"(1) that country is a least developed country (as defined in section 301(b)) or has a per capita external debt in excess of $1500; and

"(2) either—

"(A) an International Monetary Fund standby agreement is in effect with respect to that country;

"(B) a structural adjustment program of the International Bank for Reconstruction and Development or of the International Development Association is in effect with respect to that country;

"(C) a structural adjustment facility, enhanced structural adjustment facility, or similar supervised arrangement with the International Monetary Fund is in effect with respect to that country; or

"(D) even though such an agreement, program, facility, or arrangement is not in effect, the country is pursuing national economic policy reforms that would promote democratic, market-oriented, and long term economic development.

"(b) APPROPRIATIONS ACTION REQUIRED.—The aggregate amount of principal and interest waived under this section may not exceed the amount approved for such purpose in an Act appropriating funds to carry out this Act.

"(c) LIMITATION ON NEW CREDIT ASSISTANCE.—If the authority of this section is used to waive payments otherwise required to be made by a country pursuant to this title, the President may not provide any new credit assistance for that country under this title during the 2-year period beginning on the date such waiver authority is exercised, unless the President provides to the Congress, before the assistance is provided, a written justification for the provision of such new credit assistance.

"(d) APPLICABILITY.—The authority of this section applies with respect to credit sales agreements entered into before or after the enactment of the Food and Agricultural Resources Act of 1990.

"SEC. 105A. DEBT-FOR-NATURE SWAPS FOR LATIN AMERICA AND THE CARIBBEAN.

"(a) DEBT CONVERSION.—To the extent provided for in an agreement meeting the requirements of subsection (b), the President may release an eligible country from all or a part of its obligation to make principal and interest payments that would otherwise be required to be made to the Commodity Credit Corporation under dollar sales agreements under this title.

"(b) DEBT-FOR-NATURE SWAP AGREEMENT.—The agreement referred to in subsection (a) is an agreement between the United States Government and the government of the eligible country which includes the following requirements:

"(1) ISSUANCE OF BOND.—The government of the eligible country shall be required to issue, and deposit in a trust, a long-term bond or other obligation requiring that government to make periodic payments to the trust. Such obligation shall be nonredeemable.

"(2) TRUST.—The agreement shall provide for the establishment of a trust, which shall hold the bond or other obligation. The trust shall be managed by a board of trustees as specified in the agreement

"(3) USE OF FUNDS FOR ENVIRONMENTAL PURPOSES.—Amounts paid to the trust shall be made available by the trustee, in accordance with the agreement, to—

"(A) indigenous nongovernmental environmental, conservation, or development organizations,

"(B) the government of the eligible country, or

"(C) other appropriate entities,

for use in protecting, preserving, or restoring, and ensuring the appropriate and sustainable use of, environmentally critical land, habitat, or other natural resources in the eligible country.

"(c) CRITERIA FOR SELECTING COUNTRIES.—In determining the eligible countries with respect to which the authority of this section will be exercised, the President shall take into account—

"(1) the needs for financial resources for use in protecting, preserving, or restoring environmentally critical areas and resources in an eligible country; and

"(2) the commitment of the government of that country to protecting, preserving, and restoring, those areas and resources.

"(d) ELIGIBLE COUNTRIES.—For purposes of this section, the term 'eligible country' means a country in Latin America or the Caribbean that the President determines—

"(1) has adopted a strong economic reform program consistent with the policies of the International Monetary Fund and the International Bank for Reconstruction and Development and the International Development Association and that protects the poor and other vulnerable groups;

"(2) is pursuing comprehensive investment reforms with the Inter-American Development Bank or is otherwise implementing an open investment regime; and

"(3) has concluded, if appropriate, a financing package with commercial banks including debt and debt service reduction.

"(e) CONSULTATION REQUIREMENTS.—The President shall consult with nongovernmental organizations having expertise with respect to environmental or conservation matters—

"(1) in identifying countries with respect to which the authority of this section should be exercised because of their environmental situation;

"(2) during the negotiation of an agreement pursuant to subsection (b) with respect to the debt restructing arrangement pursuant to subsection (b)(1), the establishment of the trust pursuant to subsection (b)(2), and the uses of funds pursuant to subsection (b)(3); and

"(3) with respect to whether funds paid to the trust are being used for the intended purposes.

"(f) ANNUAL REPORTS.—Each year, the President shall submit to the Congress a report which describes the debt-for-nature swap agreements entered into under this section during the preceding fiscal year.

"(g) APPROPRIATIONS ACTION REQUIRED.—The aggregate amount of principal and interest waived under this section may not exceed the amount approved for such purpose in an Act appropriating funds to carry out this Act.

"(h) RELATION TO SECTION 105.—This section should not be construed to limit the authority of the President to provide debt forgiveness under section 105 of this Act for eligible countries (as defined in this section).

"(i) APPLICABILITY.—The authority of this section applies with respect to credit sales agreements entered into before or after the enactment of the Food and Agricultural Resources Act of 1990.

"SEC. 105B. DEBT-FOR-DEVELOPMENT AND AGRICULTURAL SWAPS FOR LATIN AMERICA AND THE CARIBBEAN.

"(a) DEBT CONVERSION.—To the extent provided for in an agreement meeting the requirements of subsection (b), the President may reduce the debt obligations of an eligible country owed to the Commodity Credit Corporation under sales agreements under this title.

"(b) DEBT REDUCTION AGREEMENT.—The agreement referred to in subsection (a) is an agreement between the United States Government and the government of the eligible country which includes the following requirements:

"(1) REPAYMENT OF INTEREST IN LOCAL CURRENCY.—Interest payments due on the principal remaining following the reduction of debt obligations under subsection (a) shall be made in local currency at an agreed rate.

"(2) TRUST.—A trust shall be established by the United States Government to receive the interest payments described in paragraph (1).

"(3) USE OF FUNDS FOR AGRICULTURAL DEVELOPMENT AND POVERTY REDUCTION PURPOSES.—Amounts paid to the trust shall be made available by the trustee (in accordance with the agreement) to indigenous charitable, educational, scientific, cooperative, or other appropriate nongovernmental organizations, or to other appropriate entities, for use in—

"(A) projects for the development of, research on, and the study of agriculture-related activities, and projects for the control or eradication of animal and plant pests and diseases in the eligible country, and

"(B) increasing educational opportunities or improving the nutrition, health, or income-producing abilities of the poorer people of the eligible country.

"(c) CRITERIA FOR SELECTING COUNTRIES.—In determining the countries with respect to which the authority of this section will be exercised, the President shall take into account—

"(1) the needs for financial resources for use in the activities referred to in subsection (b)(3);

"(2) the commitment of the government of that country to the long-term viability of activities undertaken through debt-for-development and agricultural swaps under this section; and

"(3) the commitment of the government of that country measurably to increase access to educational opportunity, improve agricultural productivity, and improve the nutrition, health, and income-producing abilities of the poor.

"(d) ELIGIBLE COUNTRIES.—For purposes of this section, the term 'eligible country' means a country in Latin America or the Caribbean that the President determines—

"(1) is operating under a heavy debt burden;

"(2) has adopted a strong economic reform program in conjunction with multilateral agencies such as the International Monetary Fund, the International Bank for Reconstruction and Development and the International Development Association, and the Inter-American Development Bank; and

"(3) as appropriate, has concluded a financing package with commercial banks including debt and debt service reduction.

"(e) CONSULTATION REQUIREMENTS.—The President should consult with international organizations, domestic or foreign nongovernmental organizations, and colleges and universities, that have expertise with respect to agriculture and development matters—

"(1) in identifying countries and projects with respect to which the authority of this section should be exercised,

"(2) in identifying countries and projects that are in particular need of immediate assistance in order to support and promote the control or eradication of animal and plant pests and diseases that are an imminent threat to agriculture within the Western Hemisphere;

"(3) during the negotiation of an agreement pursuant to subsection (b) with respect to the uses of funds pursuant to subsection (b)(3); and

"(4) with respect to whether funds paid to the trust are being used for the intended purpose.

"(f) ANNUAL REPORTS.—Each year, the President shall submit to the Congress a report which describes the agreements entered into under this section during the preceding fiscal year.

"(g) APPROPRIATIONS ACTION REQUIRED.—The authority of subsection (a) may exercised only to such extent or in such amounts as are provided in advance in Acts appropriating funds to carry out this Act.

"(h) RELATION TO SECTION 105.—This section should not be construed to limit the authority of the President to provide debt forgiveness under section 105 of this Act for eligible countries (as defined in this section).

"(i) APPLICABILITY.—The authority of this section applies only with respect to sales agreements entered into before the date of enactment of the Food and Agricultural Resources Act of 1990.".

(e) AMENDMENT TO SECTION 106.—Section 106 (7 U.S.C 1706) is amended to read as follows:

"SEC. 106. TERMS AND CONDITIONS OF SALES.

"(a) PAYMENT.—

"(1) DOLLARS.—Except as provided in paragraph (2), agreements under section 101 shall require that payment for agricultural commodities be made in dollars.

"(2) LOCAL CURRENCIES.—(A) The President may permit a recipient country to make payment under an agreement under section 101 in the local currency of such country in order to use the proceeds from such payments to carry out activities under section 104.

"(B) Payments in local currency shall be at rates of exchange that are no less favorable than the highest exchange rate legally obtainable in the country and that are no less favorable than the highest exchange rate obtainable by any other country.

"(b) INTEREST.—An agreement under section 101 shall provide that interest shall accrue on the payment deferred under such agreement at such rate as is determined appropriate by the President, but not in excess of 50 percent of the cost of borrowing to the United States Government as of the time the agreement is entered into.

"(c) DURATION.—Payments required under an agreement under section 101 may be made in reasonable annual amounts over the period specified in the agreement, which may not be less than 10 nor more than 40 years after the date of the last delivery of agricultural commodities under such agreement. The date for the beginning of such annual payment may be deferred for not more than 2 years after the date of such last delivery, and interest shall be computed from the date of such last delivery.

"(d) DELIVERY.—Delivery of agricultural commodities pursuant to an agreement under this title shall be made for not more than 10 years following the date of the agreement and subject to the availability of the commodities at the time delivery is to be made.

"(e) USE OF SALES PROCEEDS FOR ECONOMIC DEVELOPMENT PURPOSES.—Agreements under this title for the sale of agricultural commodities for dollars on credit terms may include requirements that an amount equal to the proceeds from the sale of the commodities in the recipient country be used for such economic development purposes as are agreed upon in the agreement or any amendment thereto. Such purposes may include promotion of specific policy reforms and private sector development. In negotiating such agreements, the President shall emphasize the use of such proceeds for purposes that directly improve the lives of the poorest of the people of the recipient country and their capacity to participate in the development of their country and to carry out programs in accordance with sections 109 and 406(a)(1).".

(f) AMENDMENT TO SECTION 107.—Section 107 (7 U.S.C. 1707) is amended in subsection (d) by striking "103(a), 103(d), 103(e), 103(f), 103(j), 103(k)" and inserting "103(2), 103(3), 103(5)".

(g) REPEAL OF SECTION 108.—Section 108 (7 U.S.C. 1708) is repealed.

(h) AMENDMENTS TO SECTION 109.—

(1) REQUIREMENT FOR SELF-HELP MEASURES.—Section 109 (7 U.S.C. 1709) is amended by amending subsection (a) to read as follows:

"(a) To be eligible to enter into an agreement under title I or title III, the proposed recipient country must undertake self-help measures for economic development purposes in order to improve food security and agricultural development, alleviate poverty, and promote broad-based, equitable, and sustainable development through such activities as—

"(1) fostering increased agricultural production (with emphasis on the production by small farms of food for local consumption) and processing, forestry management, and land and water management;

"(2) fostering the availability of agricultural inputs necessary for agricultural growth;

"(3) improving marketing, storage, and transportation systems;

"(4) promoting and developing credit policies for private sector agricultural development;

"(5) promoting free and open markets for food and agricultural producers;

"(6) establishing and maintaining government policies to ensure adequate incentives to producers of food and agricultural products;

"(7) establishing and expanding institutions for basic and applied agricultural research and the use of such research through development of extension services and agricultural education institutions; and

"(8) preservation of biological diversity.".

(2) DESCRIPTION OF SELF-HELP MEASURES.—Subsection (d)(1) of that section is amended by striking "maximum".

(3) ADDITIONALITY REQUIREMENT.—Subsection (d)(2) of that section is repealed.

(4) REDESIGNATIONS.—Subsection (c) of that section is redesignated as subsection (b), subsection (d)(1) of that section is redesignated as subsection (c), and subsection (d)(3) of that section is redesignated as subsection (e).

(5) APPLICATION OF PROVISIONS TO NEW TITLE III PROGRAM.—Subsection (b) of that section, subsection (c) of that section, and subsection (d) of that section (as so redesignated by paragraph (4) of this subsection) are amended by inserting after "this title" each place it appears "or title III".

(i) REPEAL OF SECTION 110.—Section 110 (7 U.S.C. 1710) is repealed.

(j) AMENDMENTS TO SECTION 112.—Section 112 (7 U.S.C. 1712) is amended—

(1) in subsection (a) by striking "to finance the sale of agricultural commodities to" and inserting "or title III with";

(2) in subsection (b) by striking "International Relations" and inserting "Foreign Affairs"; and

(3) by striking subsection (d).

(k) AMENDMENT TO SECTION 113.—Section 113 (7 U.S.C. 1713) is amended to read as follows:

"SEC. 113. DEADLINE FOR AGREEMENTS UNDER TITLES I AND III.

"An agreement under this title or title III shall, to the extent practicable, be entered into not later than—

"(1) November 30 of the first fiscal year in which agricultural commodities are to be shipped under the agreement, or

"(2) 60 days after the date of enactment of the annual Rural Development, Agriculture, and Related Agencies Appropriations Act for the first fiscal year in which agricultural commodities are to be shipped under the agreement,

whichever is later.".

(l) AMENDMENTS TO SECTION 115.—Section 115 (7 U.S.C. 1715) is amended—

(1) in subsection (a) by striking the first two sentences; and

(2) in subsection (b)—

(A) in the next to the last sentence by striking "International Relations" and inserting "Foreign Affairs", and

(B) in the last sentence by inserting "not more than" after "for a period of".

SEC. 1207. AMENDMENTS TO TITLE II.

(a) AMENDMENTS TO SECTION 201.—Section 201 (7 U.S.C. 1721) is amended—

(1) in subsection (a)—

(A) by striking "The President" and inserting "IN GENERAL.—Notwithstanding the provisions of any other Act, the President"; and

(B) by inserting "under this title" after "furnish agricultural commodities";

(2) by amending subsection (b) to read as follows:

"(b) MINIMUM LEVELS.—

"(1) MINIMUM ASSISTANCE.—Except as provided in paragraph (3), the President shall make agricultural commodities available for food distribution under this title in an amount that—

"(A) for fiscal year 1991, is not less than 1,925,000 metric tons;

"(B) for fiscal year 1992, is not less than 1,950,000 metric tons;

"(C) for fiscal year 1993, is not less than 1,975,000 metric tons;

"(D) for fiscal year 1994, is not less than 2,000,000 metric tons; and

"(E) for fiscal year 1995, is not less than 2,025,000 metric tons.

"(2) MINIMUM NONEMERGENCY ASSISTANCE.—Of the amounts specified in paragraph (1), and except as provided in paragraph (3), the President shall make agricultural commodities available for nonemergency food distribution through private voluntary organizations, cooperatives, the World Food Program, and other intergovernmental organizations in an amount that—

"(A) for fiscal year 1991, is not less than 1,450,000 metric tons;

"(B) for fiscal year 1992, is not less than 1,475,000 metric tons;

"(C) for fiscal year 1993, is not less than 1,500,000 metric tons;

"(D) for fiscal year 1994, is not less than 1,525,000 metric tons; and

"(E) for fiscal year 1995, is not less than 1,550,000 metric tons.

"(3) EXCEPTION.—The President may waive the requirements of paragraphs (1) and (2) for any fiscal year if the President determines that such quantities of commodities cannot be used effectively to carry out this title or in order to meet an emergency or that insufficient funds are available for that fiscal year to meet those requirements. In making a waiver under this paragraph, the President shall prepare and submit to the Committee on Foreign Affairs and the Committee on Agriculture of the House of Representatives and to the Committee on Agriculture, Nutrition, and Forestry of the Senate a report containing the reasons for the waiver."; and

(3) in subsection (c)(2) by striking "fortified or processed" both places it appears and inserting "fortified, processed, or bagged".

(b) AMENDMENTS TO SECTION 202.—Section 202 (7 U.S.C. 1722) is amended—

(1) by striking "nonprofit voluntary agencies" each place it appears and inserting "private voluntary organizations,";

(2) by striking "nonprofit voluntary agency" each place it appears and inserting "private voluntary organization";

(3) in subsection (a) by striking "friendly";

(4) in subsection (b)(4) by striking "those agencies" and inserting "those organizations"; and

(5) in subsection (c) by striking "(c)(1)" and all that follows through "(3) In carrying out a multiyear agreement pursuant to this subsection," and insert "(c) In carrying out a multiyear agreement under this title,".

(c) REPEAL OF SECTION 206.—Section 206 (7 U.S.C. 1726) is repealed.

(d) AMENDMENTS TO SECTION 207.—Section 207 (7 U.S.C. 1726a) is amended—

(1) by striking "nonprofit voluntary agency" each place it appears and inserting "private voluntary organization"; and

(2) by adding at the end the following:

"(d)(1) Not less than $10,000,000 and not more than $13,500,000 of the amounts made available in each fiscal year to private voluntary organizations and cooperatives under this title shall be made available by the President to such organizations and cooperatives to assist in—

"(A) establishing new programs under this title; and

"(B) meeting specific administrative, management, personnel and internal transportation and distribution costs for carrying out programs in foreign countries under this title.

"(2) In order to receive funds made available under paragraph (1), a private voluntary organization or cooperative must submit a request for such funds (which must be approved by the President) when submitting a proposal to the President for an agreement under this title. Such request for funds shall include a specific explanation of—

"(A) the program costs to be offset by such funds;

"(B) the reason why such funds are needed in carrying out the particular assistance program; and

"(C) the degree to which such funds will improve the provision of food assistance to foreign countries (particularly those in sub-Saharan Africa suffering from acute, long-term food shortages).

"(e) Upon the request of a private voluntary organization or cooperative, the President may provide assistance to that organization or cooperative with respect to the sale of agricultural commodities made available to it under this title.".

(e) AMENDMENT TO SECTION 208.—Section 208 (7 U.S.C. 1726b) is amended to read as follows:

"SEC. 208. ADMINISTRATION.

"(a) PROPOSALS.—

"(1) TIME FOR DECISION.—Not later than 45 days after the receipt by the President of a proposal submitted—

"(A) by a private voluntary organization or cooperative, with the concurrence of the appropriate United States field mission, for commodities; or

"(B) by a United States field mission to make commodities available to a private voluntary organization or cooperative;

under this title, a decision shall be made concerning such proposal.

"(2) DENIALS.—If a proposal under paragraph (1) is denied, the response shall specify the reasons for the denial and the conditions that must be met for the proposal to be approved.

"(b) NOTICE AND COMMENT.—Not less than 30 days prior to the issuance of a final guideline to carry out this title, the President—

"(1) shall provide notice of the proposed guideline (including notice of its availability for review and comment) to private voluntary organizations and cooperatives that participate in programs under this title and to other interested persons; and

"(2) shall make the proposed guideline available, on request, to such organizations, cooperatives, and other persons.

The President shall take any comments received into consideration prior to the issuance of the final guideline.

"(c) REGULATIONS, GUIDELINES, AND HANDBOOKS.—

"(1) IN GENERAL.—The President shall promptly issue all necessary regulations and make revisions to agency guidelines with respect to changes in the operation or implementation of programs established under this title.

"(2) REQUIREMENTS.—The President shall develop regulations with the intent of—

"(A) simplifying procedures for participation in the programs established under this title;

"(B) reducing paperwork requirements under such programs;

"(C) establishing reasonable and realistic accountability standards to be applied to eligible organizations participating in such programs, taking into consideration the problems associated with carrying out programs in developing countries; and

"(D) providing flexibility for carrying out such programs.

"(3) HANDBOOKS.—Handbooks developed by the President to assist in carrying out programs under this title shall be designed to foster the development of programs under this title by eligible organizations.

"(d) DEADLINE FOR SUBMISSION OF COMMODITY ORDERS.—Not later than 15 days after receipt of a call forward from a United States field mission for agricultural commodities that meet the requirements of this title, the order for the purchase or the supply, from inventory, of such commodities shall be transmitted to the Commodity Credit Corporation.".

(f) FOOD AID ADVISORY GROUP.—Title II is amended by adding at the end the following new section:

"SEC. 209. FOOD AID ADVISORY GROUP.

"(a) ESTABLISHMENT.—The President shall establish a Food Aid Advisory Group to meet regularly and provide advice on the implementation of programs under this title.

"(b) MEMBERSHIP.—The Food Aid Advisory Group shall be composed of—

"(1) the Administrator of the Agency for International Development;

"(2) the Inspector General of the Agency for International Development;

"(3) the Administrator of the Foreign Agricultural Service;

"(4) the Administrator of the Agricultural Stabilization and Conservation Service;

"(5) representatives of each private voluntary organization and cooperative partici-

pating in a program under this title or receiving planning assistance funds to establish programs under this title; and

"(6) representatives from African, Asian and Latin American indigenous nongovernmental organizations determined appropriate by the President.

"(c) CHAIRPERSON.—The Administrator of the Agency for International Development shall be the chairperson of the Food Aid Advisory Group.

"(d) CONSULTATIONS.—In preparing regulations, handbooks, or guidelines in implementation of this title, and in preparing any significant revisions of any such regulations, handbooks, or guidelines, the President—

"(1) shall provide such proposals to the Food Aid Advisory Group for review and comment, and

"(2) shall consult and, when appropriate, meet with the Group regarding such proposed regulations, handbooks, guidelines, or revisions thereto prior to their issuance.

"(e) TERMINATION.—The Food Aid Advisory Group shall terminate on December 31, 1995.".

(g) SAFEGUARDING USUAL MARKETINGS.—Title II is further amended by adding at the end the following new section:

"SEC. 210. SAFEGUARDING USUAL MARKETINGS.

"In exercising the authorities conferred by this title, the President shall take reasonable precautions to safeguard usual marketings of the United States and to assure that agricultural commodities provided under this title will not unduly disrupt world prices of agricultural commodities or normal patterns of commercial trade with recipient countries.".

SEC. 1208. AMENDMENT TO TITLE III.

Title III (7 U.S.C. 1727–1727g) is amended to read as follows:

"TITLE III

"SEC. 301. FOOD FOR DEVELOPMENT.

"(a) GENERAL AUTHORITY.—To carry out the policies set forth in section 2, the President may negotiate and carry out agreements with least developed countries to provide commodities to such countries on a grant basis.

"(b) LEAST DEVELOPED COUNTRIES.—

"(1) DEFINITION.—As used in this section, the term 'least developed country' means a country that—

"(A) meets the poverty criteria established by the International Bank for Reconstruction and Development for Civil Works Preference for providing financial assistance, or

"(B) is a food deficit country and is characterized by high levels of malnutrition among significant numbers of its population.

"(2) INDICATORS OF FOOD DEFICIT COUNTRIES.—In determining whether a country is a least developed country under the criteria in paragraph (1)(B), the President should take into consideration whether that country meets all of the following indicators of national food deficit and malnutrition (using the best available information):

"(A) CALORIE CONSUMPTION.—The daily per capita calorie consumption of the country is less than 2,300 calories.

"(B) FOOD SECURITY REQUIREMENTS.—The country cannot meet its food security requirements through domestic production or imports due to a shortage of foreign exchange earnings.

"(C) CHILD MORTALITY RATE.—The mortality rate of children under five years of age in the country is in excess of 100 per 1,000 births.

"(c) PRIORITIES IN ALLOCATION OF ASSISTANCE.—In determining whether and to what extent agricultural commodities shall be made available to least developed countries under this section, the President shall give priority to countries that—

"(1) demonstrate the greatest need for food;

"(2) demonstrate the capacity to use food assistance effectively;

"(3) have demonstrated a commitment to policies to promote food security, including policies to reduce measurably hunger and malnutrition through efforts such as establishing and institutionalizing supplemental nutrition programs targeted to reach those who are nutritionally at risk; and

"(4) have a long term plan for broad-based, equitable, and sustainable development.

"(d) DIRECT USES OR SALES OF COMMODITIES.—Agricultural commodities provided to a least developed country under this section—

"(1) may be used in such country for—

"(A) direct feeding programs, including programs that include activities that deal directly with the special health needs of children and mothers consistent with section 104(c)(2) of the Foreign Assistance Act of 1961 (22 U.S.C. 2151b(c)(2); relating to the Child Survival Fund), or

"(B) the development of emergency food reserves; or

"(2) may be sold in such country by the government of the country or the President (or their designees) as provided in the agreement, with the proceeds of such sale used in accordance with subsection (f).

"(e) ACCOUNTING FOR LOCAL CURRENCY PROCEEDS.—

"(1) SEPARATE ACCOUNTS.—Except as provided in paragraph (2), all of the proceeds of sales of agricultural commodities pursuant to subsection (d)(2) shall be deposited into a separate account in the recipient country.

"(2) ACCOUNTING FOR LOCAL CURRENCIES TO BE USED FOR POLICY REFORM.—The President may waive the requirement of paragraph (1) with respect to local currency proceeds that are to be used to promote policy reforms pursuant to subsection (f)(1)(A) if the President determines that those currencies will otherwise be adequately accounted for in accordance with procedures approved by the President.

"(3) OWNERSHIP AND PROGRAMMING OF LOCAL CURRENCIES.—The proceeds of sales pursuant to subsection (d)(2) shall be the property of the recipient country or the United States, as specified in the applicable agreement. Such proceeds shall be utilized for the benefit of the recipient country, shall be jointly programmed by the President and the government of the recipient country, and shall be disbursed in such country in accordance with local currency agreements between the President and that government.

"(f) USE OF LOCAL CURRENCY PROCEEDS.—

"(1) IN GENERAL.—Except as provided in paragraph (5), the local currency proceeds of sales pursuant to subsection (d)(2) shall be used in the recipient country for specific economic development purposes, including—

"(A) the promotion of specific policy reforms to improve food security and agricultural development within the country and to promote broad-based, equitable, and sustainable development;

"(B) the establishment of development programs, projects, and activities that promote food security, alleviate hunger, improve nutrition, promote family planning, and promote maternal and child health care, oral rehydration therapy, and other child survival objectives consistent with section 104(c)(2) of the Foreign Assistance Act of 1961 (22 U.S.C. 2151b(c)(2); relating to the Child Survival Fund);

"(C) the promotion of increased access to food supplies through the encouragement of specific policies and programs designed to increase employment and incomes within the country;

"(D) the promotion of free and open markets through specific policies and programs;

"(E) support for United States private voluntary organizations and cooperatives and encouragement of the development and utilization of indigenous nongovernmental organizations;

"(F) the purchase of agricultural commodities (including transportation and processing costs) produced in the country—

"(i) to meet urgent or extraordinary relief requirements in the country or in neighboring countries, or

"(ii) to develop emergency food reserves;

"(G) the purchase of goods and services (other than agricultural commodities and related services) to meet urgent or extraordinary relief requirements;

"(H) the payment, to the extent practicable, of the costs of carrying out the program authorized in section 406;

"(I) private sector development activities designed to further the policies set forth in section 2, including loans to financial intermediaries for use in making loans to private individuals, cooperatives, corporations, or other entities;

"(J) activities of the Peace Corps that relate to agricultural production;

"(K) the development of rural infrastructure such as roads, irrigation systems, and electrification to enhance agricultural production;

"(L) research on malnutrition and its causes, as well as research relating to the identification and application of policies and strategies for targeting resources made available under this section to address the problem of malnutrition; and

"(M) support for research (including collaborative research which is mutually beneficial to the United States and the recipient country), education, and extension activities in agricultural sciences.

Section 1306 of title 31, United States Code, shall not apply to the use under this paragraph of local currency proceeds that are owned by the United States.

"(2) SUPPORT OF PRIVATE INDIGENOUS NONGOVERNMENTAL ORGANIZATIONS.—To the extent practicable, not less than 10 percent of the proceeds of sales in each country pursuant to subsection (d)(2) shall be used to support the development and utilization of indigenous nongovernmental organizations and cooperatives that are active in rural development, agricultural education, sustainable agricultural production, other measures to assist the poorest people, and environmental protection projects within such country.

"(3) CONSULTATION WITH FOREIGN AGRICULTURAL SERVICE OFFICERS.—The President shall ensure that members of the Foreign Agricultural Service, who are assigned to a country in which local currencies are to be used under this subsection, are consulted with respect to the uses of those currencies in that country.

"(4) INVESTMENT OF LOCAL CURRENCIES BY NONGOVERNMENTAL ORGANIZATIONS.—A nongovernmental organization may invest local currencies that accrue to that organization

as a result of assistance under paragraph (1), and any interest earned on such investment may be used for the purpose for which the assistance was provided to that organization without further appropriation by the Congress.

"(5) SUPPORT FOR CERTAIN EDUCATIONAL INSTITUTIONS.—If the President determines that local currencies deposited in a special account pursuant to subsection (e)(1) are not needed for any of the activities described in subparagraphs (A) through (M) of paragraph (1) of this subsection or for any other specific economic development purpose in the recipient country, the President may use those currencies to provide support for any institution (other than an institution whose primary purpose is to provide religious education) located in the recipient country that provides education in agricultural sciences or other disciplines for a significant number of United States nationals (who may include members of the United States Armed Forces or the Foreign Service or dependents of such members).

"(g) GENERAL REQUIREMENTS.—In exercising the authorities conferred by this title, the President shall—

"(1) take reasonable precautions to safeguard usual marketings of the United States and to assure that agricultural commodities provided under this title will not unduly disrupt world prices of agricultural commodities or normal patterns of commercial trade with recipient countries;

"(2) give consideration to the development and expansion of markets for United States agricultural commodities and local foodstuffs by increasing the effective demand for agricultural commodities through the support of measures to stimulate equitable economic growth in recipient countries, with appropriate emphasis on developing more adequate storage, handling, and food distribution facilities;

"(3) obtain commitments from recipient countries that will prevent resale or transshipment to other countries, or use for other than domestic purposes, of agricultural commodities provided under this title, without specific approval of the President;

"(4) obtain commitments from recipient countries to publicize widely to their people, by public media and other means, that the commodities are being provided on a grant basis through the friendship of the American people as food for peace;

"(5) take maximum precautions to assure that donations under this title shall not displace any sales of United States agricultural commodities that would otherwise be made; and

"(6) take steps to assure that the United States obtains a fair share of any increase in commercial purchases of agricultural commodities by the recipient country and that commercial supplies are available to meet demands developed through programs carried out under this Act.".

SEC. 1209. AMENDMENTS TO TITLE IV.

(a) AMENDMENTS TO SECTION 401.—

(1) AVAILABILITY DETERMINATIONS.—Section 401 (7 U.S.C. 1731) is amended in subsection (a)—

(A) by inserting ", prior to the beginning of each fiscal year" after "Secretary of Agriculture shall";

(B) by striking ", and the commodities and quantities thereof which may be included in the negotiations with each country"; and

(C) by inserting after the first sentence the following: "The Secretary may, during the fiscal year, modify such determination if the Secretary provides to the Congress prior notice of that modification (including a statement of the reasons for the modification).".

(2) TIMING OF SHIPMENT OF COMMODITIES.—Section 401 (b) is amended by adding at the end the following: "In evaluating the timing of shipments of agricultural commodities to be provided under this Act, the President shall consider the time of harvest of any competing commodities in the recipient country.".

(3) STABLE LEVEL OF COMMODITIES.—Section 401 is amended by adding at the end the following:

"(c) STABLE LEVEL OF COMMODITIES.—In implementing this Act, the Secretary shall, to the extent practicable, seek to maintain a stable level of available agricultural commodities under this Act of the kind and type needed to provide assistance to developing countries and seek to make such commodities available to the degree necessary to fulfill multiyear agreements under this Act.".

(b) AMENDMENTS TO SECTION 402.—Section 402 (7 U.S.C. 1732) is amended—

(1) by inserting "(a) AGRICULTURAL COMMODITIES.—" before "The term" in the first sentence;

(2) by inserting "and title III" after "title II" in the proviso;

(3) by inserting before the last sentence the following: "For purposes of title II, a product of agricultural commodities shall not be considered to be produced in the United States if it contains any ingredient that is not produced in the United States if that ingredient is produced and is commercially available in the United States."; and

(4) by striking the last sentence; and

(5) by adding at the end the following:

"(b) ADMINISTRATOR.—The term 'Administrator' as used in this Act means the Administrator of the Agency for International Development, unless otherwise specified in this Act.

"(c) COOPERATIVE.—The term 'cooperative' as used in this Act means a private sector organization whose members own and control the organization and share in its services and its profits and that provides business services and outreach in cooperative development for its membership.

"(d) FOOD SECURITY.—The term 'food security' as used in this Act means access by all people at all times to sufficient food and nutrition for a healthy and productive life.

"(e) INDIGENOUS NONGOVERNMENTAL ORGANIZATION.—The term 'indigenous nongovernmental organization' as used in this Act means a foreign organization working at the local level to solve development problems in the foreign country in which it is located, except that the term does not include an organization that is primarily an agent or instrumentality of the foreign government.

"(f) PRIVATE VOLUNTARY ORGANIZATION.—The term "private voluntary organization" means a not-for-profit, nongovernmental organization (in the case of a United States organization, an organization that is exempt from Federal income taxes under section 501(c)(3) of the Internal Revenue Code of 1986) that receives funds from private sources, that receives voluntary contributions of money, staff time, or in-kind support from the public, and that is engaged in or is planning to engage in voluntary, charitable, or development assistance activities (other than religious activities).

"(g) SECRETARY.—The term 'Secretary' as used in this Act means the Secretary of Agriculture, unless otherwise specified in this Act.".

(c) AMENDMENTS TO SECTION 403.—Section 403 (7 U.S.C. 1733) is amended—

(1) in subsection (a) by striking ", to the extent the Commodity Credit Corporation is not reimbursed under section 104(j) and 105,";

(2) in subsection (c) by inserting "(other than subsection (d) of this section)" after "this Act"; and

(3) by adding at the end the following:

"(d) ALLOCATION OF FUNDS BETWEEN TITLE I PROGRAM AND TITLE III PROGRAM.—For any fiscal year—

"(1) the amount of funds made available to carry out title I may not be greater than twice the amount made available to carry out title III, and

"(2) the amount of funds made available to carry out title III may not be greater than twice the amount made available to carry out title I,

taking into account amounts transferred between titles of this Act.".

(d) COORDINATION WITH DEVELOPMENT ASSISTANCE STRATEGY.—Section 404 of that Act (7 U.S.C. 1734) is amended by adding at the end the following:

"(c) To the maximum extent possible, assistance for a foreign country under this Act shall be coordinated and integrated with United States development assistance objectives and programs for that country and with the overall development strategy of that country. Special emphasis should be placed on, and funds devoted to, activities that will increase the nutritional impact of programs of assistance under this Act, and child survival programs and projects, in least developed countries by improving the design and implementation of such programs and projects.".

(e) FARMER-TO-FARMER PROGRAM.—Section 406 (7 U.S.C. 1736) is amended to read as follows:

"SEC. 406. FARMER-TO-FARMER PROGRAM.

"(a) IN GENERAL.—To further assist developing countries, middle-income countries, and emerging democracies to increase farm production and farmer incomes, the President may, notwithstanding any other provision of law—

"(1) establish and administer a program of farmer-to-farmer assistance between the United States and such countries to assist in increasing food production and distribution and improving the effectiveness of the farming and marketing operations of farmers;

"(2) utilize United States farmers, agriculturalists, land grant universities, private agribusinesses, and nonprofit farm organizations to work in conjunction with farmers and farm organizations in such countries, on a voluntary basis, to facilitate the improvement of farm and agribusiness operations and agricultural systems in such countries, including animal care and health, field crop cultivation, fruit and vegetable growing, livestock operations, food processing and packaging, farm credit, marketing, inputs, agricultural extension, and the strengthening of cooperatives and other farmer groups;

"(3) transfer the knowledge and expertise of United States agricultural producers and businesses, on a people-to-people basis, to such countries while enhancing the democratic process by supporting private and public, agriculturally related organizations that request and support technical assistance activities through cash and in-kind services;

"(4) to the extent practicable, enter into contracts or other cooperative agreements with or make grants to private voluntary organizations, cooperatives, land grant universities, private agribusiness, or nonprofit farm organizations to carry out this section (except that any such contract or other agreement may obligate the United States to make outlays only to the extent that the budget authority for such outlays is available pursuant to subsection (c) or has otherwise been provided in advance in appropriation Acts);

"(5) coordinate programs established under this section with other foreign assistance activities carried out by the United States; and

"(6) to the extent practicable, augment the funds available for programs established under this section through the use of foreign currencies that accrue from the sale of agricultural commodities under this Act, and local currencies generated from other types of foreign assistance activities.

"(b) DEFINITIONS.—The following definitions apply for purposes of this section:

"(1) DEVELOPING COUNTRY.—The term 'developing country' means a country that has a shortage of foreign exchange earnings and has difficulty meeting all of its food needs through commercial channels.

"(2) EMERGING DEMOCRACY.—The term 'emerging democracy' means a country that is taking steps toward—

"(A) political pluralism, based on progress toward free and fair elections and a multiparty political system;

"(B) economic reform, based on progress toward a market-oriented economy;

"(C) respect for internationally recognized human rights; and

"(D) a willingness to build a friendly relationship with the United States.

"(3) MIDDLE INCOME COUNTRY.—The term 'middle income country' means a country that has developed economically to the point where it does not qualify for bilateral development assistance from the United States because its per capita income level exceeds the eligibility requirements of such assistance programs.

"(c) MINIMUM FUNDING.—Notwithstanding any other provision of law, not less than 0.2 percent of the amounts made available for each of the fiscal years 1991 through 1995 to carry out this Act, in addition to any funds that may be specifically appropriated to carry out this section, shall be used to carry out programs under this section, with not less than 0.1 percent to be used for programs in developing countries.".

(f) REPEAL OF SECTION 407; ADMINISTRATIVE PROVISIONS.—Section 407 (7 U.S.C. 1736a) is amended to read as follows:

"SEC. 407. ADMINISTRATIVE PROVISIONS.

"(a) AVOIDANCE OF CONFLICT OF INTEREST.—A person may not be an agent, broker, consultant, or other representative of the United States Government, an importer, or an importing country in connection with agricultural commodities provided under this Act during a fiscal year in which such person acts as an agent, broker, consultant, or other representative of a person engaged in providing ocean transportation or transportation-related services for such commodities. For the purposes of this subsection, the term 'transportation-related services' means lightening, stevedoring, bagging, or inland transportation to the destination point.

"(b) FULL AND OPEN COMPETITION.—No purchase of agricultural commodities from private stocks or purchase of ocean transportation services shall be financed under this Act unless such purchases are made on the basis of full and open competition utilizing such procedures as are determined necessary and appropriate by the President.

"(c) LIMITATION ON COMMISSIONS.—No commission, fees, or other payments to an agent, broker, consultant, or other representative of the importer or importing country for ocean transportation brokerage services in connection with the carriage of commodities provided under this Act may be paid in excess of an amount determined appropriate by the President.".

(g) AMENDMENTS TO SECTION 408.—

(1) ANNUAL REPORT.—Section 408 (7 U.S.C. 1736b) is amended by amending subsection (a) to read as follows:

"(a) ANNUAL REPORTS.—

"(1) IN GENERAL.—The President shall prepare an annual report concerning the programs and activities implemented under this Act for the preceding fiscal year.

"(2) CONTENTS.—Each report shall include—

"(A) the levels and recipients of food and other assistance provided under this Act;

"(B) the countries in which projects or activities are implemented under this Act;

"(C) a general description of the projects or activities implemented under this Act; and

"(D) a statement of the amount of each agricultural commodity made available pursuant to section 416(b) of the Agricultural Act of 1949 and the Food for Progress Act of 1985.

"(3) SUBMISSION.—The President shall submit such report no later than January 15 of each year to the Committee on Agriculture and the Committee on Foreign Affairs of the House of Representatives and the Committee on Agriculture, Nutrition and Forestry of the Senate.".

(2) OTHER REPORTS.—Section 408 is further amended by redesignating subsections (d) and (e) as subsections (h) and (i), respectively, and by inserting the following new subsections after subsection (c):

"(d) QUARTERLY REPORTS ON ANTICIPATED AGREEMENTS.—Prior to each quarter of a fiscal year, the President shall submit to the Committee on Agriculture and the Committee on Foreign Affairs of the House of Representatives and the Committee on Agriculture, Nutrition, and Forestry of the Senate a list of the agreements that the President anticipates will be entered into under this Act with respect to each foreign country during the remainder of that fiscal year.

"(e) CURRENT YEAR REPORTS.—The President shall submit a statement to Congress not later than June 1 of each fiscal year specifying the agreements signed under this Act for that fiscal year. Such statement shall also specify for each country with which there is an agreement under this Act for that fiscal year, the amount that country requested and is receiving under the Food for Progress Act of 1985, section 416(b) of the Agricultural Act of 1949, title I of this Act, title II of this Act, and title III of this Act. With respect to title II, the statement shall indicate for each country—

"(1) the quantity provided through the World Food Program, private voluntary organizations, or cooperatives (identified by name), or government-to-government agreements;

"(2) the type and quantity of each commodity provided; and

"(3) the quantity provided for each program category.

"(f) TITLE II FOREIGN CURRENCY PROCEED REPORTS.—The President shall, no later than the end of the fiscal year, submit a statement to Congress on the number of requests submitted and the number of requests approved under section 207 for that fiscal year for the generation of foreign currency proceeds, the amount of foreign currency proceeds generated, and a summary of the uses of such proceeds.

"(g) WORLD FOOD DAY REPORT.—On World Food Day, October 16 of each year, the President shall submit to the Congress a report, prepared with the assistance of the Secretary and the Administrator, assessing progress towards food security in each country receiving United States Government food assistance. Special emphasis should be given in such report to the nutritional status of the poorest populations in such countries.".

(h) AMENDMENT TO SECTION 409.—Section 409 (7 U.S.C. 1736c) is amended by striking "to finance sales under title I and no program of assistance under title II" and inserting "under this Act".

(i) REPEAL OF SECTION 411.—Section 411 (7 U.S.C. 1736e) is repealed.

(j) MULTIYEAR AVAILABILITY.—Section 413 (7 U.S.C. 1736g) is amended to read as follows:

"SEC. 413. MULTIYEAR AGREEMENTS.

"Agricultural commodities provided under this Act shall be made available on a multiyear basis, subject to the requirements of section 401 and the availability of appropriations, unless—

"(1) the past performance of the country in meeting program objectives does not warrant a multiyear agreement;

"(2) it is anticipated that the need of the country for assistance does not extend beyond one year; or

"(3) other circumstances, as determined by the President, indicate there is only a need for a one-year agreement.".

(k) DISTRIBUTION OF ASSISTANCE.—Title IV is further amended by adding at the end the following:

"SEC. 414. DISTRIBUTION OF ASSISTANCE.

"(a) NONDISCRIMINATORY DISTRIBUTION.—The President shall attempt to ensure that agricultural commodities made available under title II and title III are distributed within the recipient country in a manner that does not discriminate on the basis of political affiliation, geographic location, ethnic, tribal, or religious identity, or other extraneous factors.

"(b) MILITARY DISTRIBUTION.—

"(1) PROHIBITION.—Except as provided in paragraph (2), the President shall not enter into any agreement to provide agricultural commodities under title II or title III that provides for the distribution, handling, or allocation of such commodities by the military forces of any government or insurgent group.

"(2) EXCEPTION.—Notwithstanding paragraph (1), the President may authorize the handling or distribution of agricultural commodities by a country's military forces in exceptional circumstances in which—

"(A) nonmilitary channels are not available,

"(B) such action is consistent with subsection (a), and

"(C) the President determines that such action is necessary to meet the emergency health, safety, or nutritional requirements of the recipient population.

"(3) REPORTS TO CONGRESS.—The President shall report any authorization under paragraph (2) to the Congress within 30 days. Any such report shall specify the reason for the authorization, including an explanation

of why no alternatives were available to the handling or distribution by the country's military forces.

"(c) SAFE PASSAGE.—When entering into agreements under title II and title III which involve areas experiencing protracted warfare or civil strife, the President shall, to the extent practicable, encourage—

"(1) all parties to the conflict to permit safe passage for the commodities and other relief supplies; and

"(2) the creation of safe zones for medical and humanitarian treatment and evacuation.".

(l) LIMITATION ON USE OF LOCAL CURRENCY FOR AGRICULTURAL PRODUCTION.—Title IV is further amended by adding at the end the following:

"SEC. 415. LIMITATION ON USE OF LOCAL CURRENCY FOR AGRICULTURAL PRODUCTION.

"Local currencies that are made available for use under this Act may not be used to finance the production for export of agricultural commodities (or products thereof) that would compete, as determined by the President, in world markets with similar agricultural commodities (or products thereof) produced in the United States if such competition would cause substantial injury to United States producers, except that this section does not prohibit the use of such currencies for crop substitution or other alternative development activities undertaken in furtherance of narcotics control objectives.".

(m) LIMITATION ON USE OF LOCAL CURRENCY FOR ABORTIONS.—Title IV is further amended by adding at the end the following:

"SEC. 416. LIMITATION ON USE OF LOCAL CURRENCY FOR ABORTIONS.

"Local currencies that are made available for use under this Act may not be used to pay for the performance of abortions as a method of family planning or to motivate or coerce any person to practice abortions.".

(n) RESPONSIBILITIES FOR ADMINISTERING ACT.—

(1) ALLOCATION OF RESPONSIBILITIES.—Title IV is further amended by adding at the end the following:

"SEC. 417. RESPONSIBILITIES FOR ADMINISTERING ACT.

"(a) DESIGNATION OF AGENCY PRIMARILY RESPONSIBLE FOR IMPLEMENTATION OF PRESIDENTIAL AUTHORITY.—

"(1) TITLE I PROGRAM.—The President shall designate the Secretary as the official with primary responsibility for administering the authority granted to the President by title I, except that the requirement of this paragraph does not apply with respect to sections 105 and 105A or (to the extent they apply to title III) sections 109 and 112.

"(2) TITLE II AND TITLE III PROGRAMS.—(A) The President shall designate the Administrator as the official with primary responsibility for administering the authority granted to the President by title II and title III and (to the extent they apply to title III) sections 109 and 112.

"(b) COOPERATION BETWEEN AGENCIES.—

"(1) USDA.—The Secretary shall be responsible for ensuring that the Department of Agriculture, in carrying out its responsibilities under title I, cooperates fully with the Agency for International Development with respect to the latter's areas of expertise.

"(2) AID.—The Administrator shall be responsible for ensuring that the Agency for International Development, in carrying out its responsibilities under title II and title III, cooperates fully with the Department of Agriculture with respect to the latter's areas of expertise.

"(c) REVIEW OF PROPOSED AGREEMENTS.—

"(1) TITLE I PROGRAMS.—Before negotiating an agreement (or an amendment to an agreement) under title I, the Secretary shall consult with the Administrator to ensure that the proposed agreement will not be inconsistent with United States development assistance objectives and programs for the recipient country and with the overall development strategy of that country.

"(2) TITLE II AND TITLE III PROGRAMS.—Before negotiating an agreement (or an amendment to an agreement) under title II or title III, the Administrator shall submit to the Secretary the proposal which is the basis for those negotiations. The Secretary shall have up to 30 days in which to review the proposed agreement (or amendment) with regard to matters in the areas of the Secretary's expertise and to provide the Secretary's views on the proposed agreement (or amendment) to the Administrator. The Administrator may waive the requirement of this paragraph with respect to an agreement (or amendment to an agreement) under title II if the Administrator determines, after consultation with the Secretary, that an emergency exists that requires such waiver.

"(d) CONSULTATION WITH SECRETARY OF STATE.—

"(1) TITLE I PROGRAMS.—The Secretary shall consult with the Secretary of State to ensure that agreements under title I are not inconsistent with United States foreign policy.

"(2) TITLE II AND TITLE III PROGRAMS.—The Administrator shall consult with the Secretary of State to ensure that agreements under title II and title III are not inconsistent with United States foreign policy.

"(e) SAFEGUARDING USUAL MARKETINGS.—Prior to the beginning of each fiscal year, the Secretary shall determine, for each foreign country that is an anticipated recipient of agricultural commodities under this Act during that fiscal year, the maximum quantities of agricultural commodities that can be made available during that fiscal year under this Act consistent with the requirements of section 103(1), section 210, and section 301(g)(1). During the fiscal year, the Secretary may increase such maximum quantity with respect to a country because of changed circumstances and may determine such maximum quantities with respect to additional countries.

"(e) ACQUISITION OF COMMODITIES FOR TITLE II AND TITLE III PROGRAMS.—

"(1) USE OF COMMODITY CREDIT CORPORATION.—Subject to the approval of the Secretary, the Commodity Credit Corporation shall acquire and make available to the Administrator such agricultural commodities (that have been determined to be available under section 401(a)) as the Administrator may request to carry out agreements under title II and title III.

"(2) DIRECT ACQUISITION.—If the Administrator is unable to obtain agricultural commodities through the Commodity Credit Corporation pursuant to paragraph (1), the Administrator may use funds made available to carry out title II or title III (as the case may be) for the acquisition of agricultural commodities (that have been determined to be available under section 401(a)) for use in carrying out agreements under that title.".

(2) CONFORMING AMENDMENT.—Section 201(a) (7 U.S.C. 1721(a)) is amended by striking the last sentence.

SEC. 1210. FOOD FOR PEACE OFFICERS.

The Administrator of the Agency for International Development shall increase the number and the expertise of the personnel of the Agency for International Development at the agency's headquarters and its missions abroad who carry out the programs authorized by title II and title III of the Agricultural Trade Development and Assistance Act of 1954.

SEC. 1211. REVISION OF REGULATIONS.

(a) IN GENERAL.—The President shall provide for the issuance of regulations to revise the existing regulations to implement the Agricultural Trade Development and Assistance Act of 1954, including all provisions necessary or appropriate to implement the amendments made by this subtitle.

(b) DEADLINES.—The regulations specified in subsection (a) shall be issued in proposed form no later than 6 months after the date of enactment of this Act and in final form no later than one year after the date of enactment of this Act.

SEC. 1212. INDEPENDENT EVALUATION OF PUBLIC LAW 480 PROGRAMS.

(a) REQUIREMENT FOR PERIODIC GAO EVALUATIONS.—Not later than 2 years after the date of enactment of this Act and 2 years thereafter, the Comptroller General of the United States shall evaluate the assistance provided under the Agricultural Trade Development and Assistance Act of 1954 as follows:

(1) SELECTION OF COUNTRIES.—The Comptroller General shall select—

(A) 5 countries that receive assistance under title I,

(B) 5 countries that receive assistance under title II, and

(C) 5 countries that receive assistance under title III.

The countries selected shall be countries that are representative of the countries that receive such assistance in each of the three following regions: Africa, Asia/Near East, and Latin America.

(2) TITLE I PROGRAM EVALUATIONS.—For each country selected under paragraph (1)(A), the Comptroller General shall evaluate the uses of the local currencies deposited in a special account pursuant to section 104 with respect to—

(A) their impact on agricultural trade development, and

(B) the financial management of those currencies, including the personnel requirements for managing those currencies.

(3) TITLE II PROGRAM EVALUATIONS.—For each country selected under paragraph (1)(B), the Comptroller General shall evaluate the uses of the assistance provided under that title, including an evaluation of—

(A) the impact of such assistance on enhancing food security (including nutrition),

(B) the uses for economic development of any local currencies proceeds generated by such assistance, and

(C) the financial management of those local currencies, including the personnel requirements for managing those currencies.

(4) TITLE III PROGRAM EVALUATIONS.—For each country selected under paragraph (1)(C), the Comptroller General shall evaluate—

(A) the uses of the agricultural commodities provided under section 301(d)(1) with respect to their impact on enhancing food security (including nutrition); and

(B) the uses of local currencies pursuant to section 301(f) with respect to—

(i) their impact on enhancing food security (including nutrition), and

(ii) the financial management of those currencies, including the personnel requirements for managing those currencies.

(b) REPORTS TO CONGRESS.—The Comptroller General shall submit a report on each evaluation conducted pursuant to subsection (a) to the Committee on Foreign Affairs and the Committee on Agriculture of the House of Representatives and the Committee on Agriculture, Nutrition, and Forestry of the Senate.

SEC. 1213. AMENDMENT TO SECTION 416(b) OF 1949 ACT.

Section 416(b) of the Agricultural Act of 1949 (7 U.S.C. 1431(b)) is amended by adding at the end the following:

"(13) A person may not be an agent, broker, consultant, or other representative of the United States Government, an importer, or an importing country in connection with agricultural commodities provided under this subsection during a fiscal year in which such person acts as an agent, broker, consultant, or other representative of a person engaged in providing ocean transportation or transportation-related services for such commodities. For the purposes of this paragraph, the term 'transportation-related services' means lightening, stevedoring, bagging, or inland transportation to the destination point.

"(14) No purchase of agricultural commodities from private stocks or purchase of ocean transportation services shall be financed under this subsection unless such purchases are made on the basis of full and open competition utilizing such procedures as are determined necessary and appropriate by the President.

"(15) No commission, fees, or other payments to an agent, broker, consultant, or other representative of the importer or importing country for ocean transportation brokerage services in connection with the carriage of commodities provided under this subsection may be paid in excess of an amount determined appropriate by the President.

"(16) The President shall attempt to ensure that agricultural commodities made available under this subsection are distributed within the recipient country in a manner that does not discriminate on the basis of political affiliation, geographic location, ethnic, tribal, or religious identity, or other extraneous factors.

"(17)(A) Except as provided in subparagraph (B), the President shall not enter into any agreement to provide agricultural commodities under this subsection that provides for the distribution, handling, or allocation of such commodities by the military forces of any government or insurgent group.

"(B) Notwithstanding subparagraph (A), the President may authorize the handling or distribution of agricultural commodities by a country's military forces in exceptional circumstances in which—

"(i) nonmilitary channels are not available,

"(ii) such action is consistent with paragraph (16), and

"(iii) the President determines that such action is necessary to meet the emergency health, safety, or nutritional requirements of the recipient population.

"(C) The President shall report any authorization under subparagraph (B) to the Congress within 30 days. Any such report shall specify the reason for the authorization, including an explanation of why no alternatives were available to the handling or distribution by the country's military forces.

"(18) When entering into agreements under this subsection which involve areas experiencing protracted warfare or civil strife, the President shall, to the extent practicable, encourage—

"(A) all parties to the conflict to permit safe passage for the commodities and other relief supplies; and

"(B) the creation of safe zones for medical and humanitarian treatment and evacuation.".

SEC. 1214. FOOD FOR PROGRESS.

The Food for Progress Act of 1985 (7 U.S.C. 1736o) is amended—

(1) in subsection (b)—

(A) by striking "countries that" and inserting "developing countries, and countries that are emerging democracies, that", and

(B) by striking "developing countries" and inserting "the governments of such countries, or with private voluntary organizations, nonprofit agricultural organizations, or cooperatives,";

(2) in subsection (d) by striking "with countries";

(3) in subsection (e)(3)—

(A) by striking "to a developing country", and

(B) by striking "by a developing country";

(4) in subsection (e)(4) by striking "to a developing country" both places it appears;

(5) in subsection (f)(1) by striking "to developing countries";

(6) in subsection (g) by striking "1990" and inserting "1995";

(7) in subsection (j) by striking "entered into with a country", and by inserting "with respect to a country" after "effect";

(8) in subsection (k) by striking "recipient countries" and inserting "the recipient";

(9) in subsection (l) by striking "1990" and inserting "1995"; and

(10) by adding at the end the following:

"(m) A person may not be an agent, broker, consultant, or other representative of the United States Government, an importer, or an importing country in connection with agricultural commodities provided under this section during a fiscal year in which such person acts as an agent, broker, consultant, or other representative of a person engaged in providing ocean transportation or transportation-related services for such commodities. For the purposes of this subsection, the term 'transportation-related services' means lightening, stevedoring, bagging, or inland transportation to the destination point.

"(n) No purchase of agricultural commodities from private stocks or purchase of ocean transportation services shall be financed under this section unless such purchases are made on the basis of full and open competition utilizing such procedures as are determined necessary and appropriate by the President.

"(o) No commission, fees, or other payments to an agent, broker, consultant, or other representative of the importer or importing country for ocean transportation brokerage services in connection with the carriage of commodities provided under this section may be paid in excess of an amount determined appropriate by the President.

"(p) The President shall attempt to ensure that agricultural commodities made available on a grant basis under this section are distributed within the recipient country in a manner that does not discriminate on the basis of political affiliation, geographic location, ethnic, tribal, or religious identity, or other extraneous factors.

"(r)(1) Except as provided in paragraph (2), the President shall not enter into any agreement to provide agricultural commodities on a grant basis under this subsection that provides for the distribution, handling, or allocation of such commodities by the military forces of any government or insurgent group.

"(2) Notwithstanding paragraph (1), the President may authorize the handling or distribution of agricultural commodities by a country's military forces in exceptional circumstances in which—

"(A) nonmilitary channels are not available,

"(B) such action is consistent with subsection (p), and

"(C) the President determines that such action is necessary to meet the emergency health, safety, or nutritional requirements of the recipient population.

"(3) The President shall report any authorization under paragraph (2) to the Congress within 30 days. Any such report shall specify the reason for the authorization, including an explanation of why no alternatives were available to the handling or distribution by the country's military forces.

"(s) When entering into grant agreements under this section which involve areas experiencing protracted warfare or civil strife, the President shall, to the extent practicable, encourage—

"(1) all parties to the conflict to permit safe passage for the commodities and other relief supplies; and

"(2) the creation of safe zones for medical and humanitarian treatment and evacuation.

"(u) As used in this section—

"(1) the term 'cooperative' means a private sector organization whose members own and control the organization and share in its services and its profits and that provides business services and outreach in cooperative development for its membership;

"(2) the term 'emerging democracy' means a country that is taking steps toward—

"(A) political pluralism, based on progress toward free and fair elections and a multiparty political system;

"(B) economic reform, based on progress toward a market-oriented economy;

"(C) respect for internationally recognized human rights; and

"(D) a willingness to build a friendly relationship with the United States.

"(3) the term 'nonprofit agricultural organization' means a not-for-profit organization of agribusinesses, a not-for-profit farm association, a not-for-profit cooperator organization, or a similar not-for-profit organization; and

"(4) the term 'private voluntary organization' means a not-for-profit, nongovernmental organization (in the case of a United States organization, an organization that is exempt from Federal income taxes under section 501(c)(3) of the Internal Revenue Code of 1986) that receives funds from private sources, that receives voluntary contributions of money, staff time, or in-kind support from the public, and that is engaged in or is planning to engage in voluntary, charitable, or development assistance activities (other than religious activities).".

SEC. 1215. EXTENSION OF FOOD SECURITY WHEAT RESERVE.

Section 302(i) of the Food Security Wheat Reserve Act of 1980 (7 U.S.C. 1736f-1(i)) is amended by striking "1990" both places it appears and inserting "1995".

Subtitle B—Export Promotion

SEC. 1221. AMENDMENT TO THE AGRICULTURAL TRADE ACT OF 1978.

(a) GENERAL PROVISIONS.—Titles I through IV of the Agricultural Trade Act of 1978 (7 U.S.C. 1761 et seq.) are amended to read as follows:

"TITLE I—GENERAL PROVISIONS

"SEC. 101. DEFINITIONS.

"As used in this Act—

"(1) AGRICULTURAL COMMODITY.—The term 'agricultural commodity' means any agricultural commodity, food, feed, or fiber, and any product thereof.

"(2) DEVELOPING COUNTRY.—The term 'developing country' means a country that—

"(A) has a shortage of foreign exchange earnings and has difficulty accessing sufficient commercial credit to meet all of its food needs, as determined by the Secretary; and

"(B) has the potential to become a commercial market for agricultural commodities.

"(3) SECRETARY.—The term 'Secretary' means the Secretary of Agriculture.

"(4) UNFAIR TRADE PRACTICE.—(A) Subject to subparagraph (B), the term 'unfair trade practice' means any act, policy, or practice of a foreign country that—

"(i) violates, or is inconsistent with, the provisions of, or otherwise denies benefits to the United States under, any trade agreement to which the United States is a party; or

"(ii) is unjustifiable, unreasonable, or discriminatory and burdens or restricts United States commerce.

"(B) Nothing in this Act may be construed to authorize the Secretary to make any determination regarding an unfair trade practice that is inconsistent with section 301 of the Trade Act of 1974.

"(5) UNITED STATES.—The term 'United States' includes each of the States, the District of Columbia, Puerto Rico, and the territories and possessions of the United States.

"(6) UNITED STATES AGRICULTURAL COMMODITY.—The term 'United States agricultural commodity' means—

"(A) with respect to any agricultural commodity other than a product of an agricultural commodity, an agricultural commodity entirely produced in the United States; and

"(B) with respect to a product of an agricultural commodity—

"(i) a product all of the agricultural components of which are entirely produced in the United States; or

"(ii) any other product the Secretary may designate that contains any agricultural component that is not entirely produced in the United States if—

"(I) such component is an added, de minimis component,

"(II) such component is not commercially produced in the United States, and

"(III) there is no acceptable substitute for such component that is entirely produced in the United States.

For purposes of this paragraph, fish entirely produced in the United States include fish harvested by a documented fishing vessel as defined in title 46, United States Code, in waters that are not waters (including the territorial sea) of a foreign country.

"SEC. 102. CERTIFICATION OF COMPLIANCE.

"The Secretary shall obtain certification with respect to commodities provided, or for which financing or credit guarantees are provided, under any commercial export promotion program of the Department of Agriculture or Commodity Credit Corporation—

"(1) from countries, or importers in countries, that were the intended destination of agricultural commodities under such program, that such commodities were received in that country; and

"(2) from the seller or exporter of record of such commodities, that there were no corrupt bonuses, extra sales services, or other items than those so provided, financed, or guaranteed in connection with the transaction, and that the transaction complied with applicable United States law.

"SEC. 103. DEPARTMENTAL ADMINISTRATION SYSTEM.

"(a) IN GENERAL.—With respect to each commercial export promotion program of the Department of Agriculture or the Commodity Credit Corporation, the Secretary shall—

"(1) specify by regulation the criteria used to evaluate and approve proposals for that program;

"(2) monitor the progress of each proposal, specifying in a central system—

"(A) the origin of the proposal;

"(B) arguments supporting the proposal;

"(C) arguments against the proposal;

"(D) recommended action at the various stages of consideration; and

"(E) the disposition of the proposal;

"(3) provide for regular audits of program transactions to determine compliance with program objectives and requirements;

"(4) establish criteria to evaluate loans eligible for guarantees by the Commodity Credit Corporation, so as to ensure that the Corporation does not assume undue risk in providing such guarantees; and

"(5) in the event any audit discloses noncompliance with program objectives or requirements, determine promptly whether in light of such noncompliance to suspend or debar the noncomplying party from further participation in 1 or more of the programs under this title, affording the alleged noncomplying party opportunity for an agency hearing.

"(b) ACCESSIBILITY OF INFORMATION.—Information pertaining to a particular proposal shall be retrievable within the central system by country, commodity, proposal, and other appropriate categories, including participating financing institutions.

"(c) INDEPENDENT STUDY OF WAYS TO IMPROVE IMPLEMENTATION OF SYSTEM AND IMPROVE MANAGEMENT.—The Secretary shall contract with an appropriate management consulting firm to obtain from that firm detailed recommendations on how to improve the implementation of this section and, generally, the management information systems of the Department of Agriculture and the Commodity Credit Corporation with respect to the commercial export promotion programs of such department and agency.

"SEC. 104. POLICY.

"The Congress finds that the agricultural export policy of the United States should provide for increased emphasis on sales abroad of United States processed, value-added agricultural products due to the multiple benefits from such sales to United States producers, processors, and exporters, and the national workforce.

"SEC. 105. DEVELOPMENT OF AGRICULTURAL TRADE STRATEGY.

"(a) IN GENERAL.—

"(1) DEVELOPMENT OF MULTIYEAR STRATEGY.—The Secretary shall develop, for the 3-fiscal year period beginning with fiscal year 1992, and for each 3-fiscal year period occurring thereafter, a long-term agricultural trade strategy for the United States to guide the Secretary in the implementation of United States Government programs designed to promote the export of United States agricultural commodities. In preparing such a strategy, the Secretary shall consult with the United States Trade Representative to ensure that the strategy is coordinated with the annual national trade policy agenda under section 163 of the Trade Act of 1974.

"(2) GOALS.—The long-term agricultural trade strategy established under paragraph (1) shall be designed to ensure—

"(A) the efficient, coordinated use of United States Government programs designed to promote the export of United States agricultural commodities;

"(B) the improvement in the commercial potential of markets in developing countries for United States agricultural commodities;

"(C) the growth of exports of United States agricultural commodities; and

"(D) the maintenance of traditional markets for United States agricultural commodities.

"(b) CONTENTS.—In the long-term agricultural trade strategy developed under subsection (a), the Secretary shall include—

"(1) findings with respect to trends in the comparative position of the United States and other countries in the export of agricultural commodities, organized by major commodity group and including a comparative analysis of the cost of production of such commodities;

"(2) the agricultural trade goals for all agricultural commodities, expressed in both physical volume and monetary value, over not less than the 3-year period for which the strategy is developed;

"(3) the agricultural trade goals for each agricultural commodity, expressed in both physical volume and monetary value, over not less than such 3-year period;

"(4) the agricultural trade goals for high-value, processed agricultural commodities, expressed in both physical volume and monetary value, over not less than such 3-year period;

"(5) multiyear plans for the implementation and coordination of United States export assistance programs and foreign food assistance programs to meet all such agricultural trade goals;

"(6) findings and recommendations with respect to the movement of United States agricultural commodities in nonmarket economies;

"(7) recommended long-term strategies for growth in agricultural trade and exports, taking into account United States competitiveness and trade negotiations, and considering the effects of exchange rate fluctuations and unfair trading practices on the competitiveness and availability of exports of United States agricultural commodities;

"(8) strategies designed to make the United States a primary and dependable supplier of agricultural commodities on the world market;

"(9) an analysis of the differences in the markets of developed and developing countries (including the debt load of particular countries), and a strategy to increase exports of United States agricultural commodities to such markets; and

"(10) an estimate of the expected impact of United States Government programs designed to promote the export of United States agricultural commodities on earnings or market share, in the priority markets identified under subsection (d), of exports of United States agricultural commodities.

"(c) DESIGNATION OF GROWTH MARKETS.—The Secretary shall establish, for inclusion in the long-term agricultural trade strategy developed under subsection (a), a list of not less than 15 countries (or groups of countries) that are most likely to emerge as growth markets for United States agricultural commodities during the 3- and 6-fiscal

year periods beginning with the first fiscal year for which the strategy is developed.

"(d) DESIGNATION OF PRIORITY MARKETS.—The Secretary shall designate countries identified on the list developed under subsection (c) as priority markets for United States Government programs designed to promote the export of United States agricultural commodities (other than those programs designed to provide food assistance and those programs under the Export Enhancement Program under section 201).

"(e) ESTABLISHMENT OF MARKET PLANS.—The Secretary shall develop individual market plans for each country (or group of countries) designated as a priority market under subsection (d). Each such market plan shall set forth—

"(1) specific plans to assist exports of United States agricultural commodities to and market development in the specific country or group of countries through United States Government programs designed to promote the export of United States agricultural commodities; and

"(2) the agricultural trade goals for the United States for that specific country or group of countries over at least the 3-year period for which the agricultural trade strategy under this section is developed.

"(f) CONFIDENTIALITY.—The Secretary may designate any portion of the agricultural trade strategy prepared under this section as confidential and not to be released to the general public if—

"(i) the Secretary determines that the release of the information involved would disadvantage the United States with respect to its competitors in specific foreign markets; or

"(ii) any of such information is determined to be confidential business information.

Nothing in this section shall be construed to authorize the withholding of information from the Congress.

"SEC. 106. RELIEF FROM UNFAIR TRADE PRACTICES.

"(a) USE OF PROGRAMS.—

"(1) IN GENERAL.—The Secretary may, for each article described in paragraph (2), make available some or all of the commercial export promotion programs of the Department of Agriculture and the Commodity Credit Corporation to help mitigate or offset the unfair trade practice serving as the basis for the proceeding described in paragraph (2).

"(2) COMMODITIES SPECIFIED.—Paragraph (1) shall apply in the case of articles for which the United States has instituted, under any international trade agreement, any dispute settlement proceeding based on an unfair trade practice if such proceeding has been prevented from progressing to a decision by the refusal of the party maintaining the unfair trade practice to permit the proceeding to progress.

"(b) CONSULTATIONS REQUIRED.—For any article described in subsection (a)(2), the Secretary shall—

"(1) promptly consult with representatives of the industry producing such articles and other allied groups or individuals regarding specific actions or the development of an integrated marketing strategy utilizing some or all of the commercial export programs of the Department of Agriculture and the Commodity Credit Corporation to help mitigate or offset the unfair trade practice identified in subsection (a)(2); and

"(2) ascertain and take into account the industry preference for the practical use of available commercial export promotion programs in implementing subsection (a)(1).

"SEC. 107. PRESERVATION OF TRADITIONAL MARKETS.

"The Secretary shall, in implementing programs of the Department of Agriculture intended to encourage or assist exports of agricultural commodities, seek to preserve traditional markets for United States agricultural commodities.

"SEC. 108. INDEPENDENCE OF AUTHORITIES.

"Each authority granted under this Act shall be in addition to, and not in lieu of, any authority granted to the Secretary or the Commodity Credit Corporation under any other provision of law.

"SEC. 109. PROGRAM EXPENDITURES.

"Expenditures for programs under this Act shall be considered to be expenditures for export promotion and not expenditures for any price support program.

"TITLE II—SPECIFIC EXPORT PROMOTION PROGRAMS

"SEC. 201. EXPORT ENHANCEMENT PROGRAM.

"(a) IN GENERAL.—The Commodity Credit Corporation shall carry out in accordance with this section a program to discourage unfair trade practices by making United States agricultural commodities competitive.

"(b) EXPORT BONUS.—

"(1) IN GENERAL.—In carrying out the program established under this section, the Commodity Credit Corporation may—

"(A) make agricultural commodities, acquired by the Commodity Credit Corporation, available to exporters, users, processors, or foreign purchasers at no cost either directly or through the issuance of commodity certificates; and

"(B) make cash payments to exporters, users, and processors.

"(2) CALCULATION OF BONUS LEVELS.—The Commodity Credit Corporation shall—

"(A) maintain an established procedure for evaluating program bonus requests, with guidelines for determining prevailing market prices for targeted commodities and destinations to be used in the calculation of acceptable bonus levels;

"(B) use a clear set of established procedures for measuring transportation and incidental costs to be used in the calculation of acceptable bonus levels and for determining the amount of such costs actually incurred;

"(C) in the case of livestock and livestock products, develop a methodology to determine the world price and gather and analyze appropriate price and cost of production information in foreign countries for the purpose of price discovery and to aid sales in foreign markets, and publish such information periodically; and

"(D) maintain consistent and effective controls and procedures for auditing and reviewing payment of bonuses and for securing refunds where appropriate.

"(3) DISCLOSURE OF INFORMATION.—The Secretary may, notwithstanding the provisions of section 552 of title 5, United States Code, provide for withholding from the public the procedures and guidelines established under paragraphs (2)(A) and (B) if the Secretary determines that release of such information would adversely affect the operation of the program. Nothing in this paragraph shall be construed to authorize the withholding of information, including such procedures and guidelines, from the Congress.

"(4) DIVERSION OF CARGO.—

"(A) IN GENERAL.—The Secretary shall ensure that commodities exported under the program established under this section arrive at the specified destination country. The Secretary may provide for an exception if such arrival does not occur due to force majeure.

"(B) ENFORCEMENT.—The Secretary shall provide that if commodities exported under the program established under this section fail to arrive at the specified destination country, except as provided under subparagraph (A)—

"(i) any person receiving, or who otherwise would receive, a bonus under this section in connection with such commodities shall be liable for the amount of such bonus and shall be ineligible for participation in the program established under this section for a period of up to 5 years, unless such failure was beyond the control of such person and without negligence or acquiescence on the part of such person; and

"(ii) if such failure is attributable in whole or in part to the specified destination country, no bonus is made available for exports to such country for a period of at least 1 year.

"(C) SCHEME OR DEVICE.—Any person who engages in any scheme or device to circumvent the provisions of this paragraph shall be ineligible to participate in the program established under this section for a period of up to 5 years. The Secretary shall provide that no bonus is made available, for a period of at least 1 year, under the program established under this section for exports to any country that engages in any scheme or device to circumvent the provisions of this paragraph.

"(D) OTHER REMEDIES UNAFFECTED.—The remedies provided under this paragraph are in addition to any remedy available under any other provision of law.

"(5) COMPETITIVE DISADVANTAGE.—The Secretary shall take such action as is necessary to ensure that equal treatment is provided to domestic and foreign purchasers and users of agricultural commodities in any case in which the importation of a manufactured product made, in whole or in part, from a commodity made available for export under this section would place domestic users of the commodity at a competitive disadvantage.

"(6) DIFFERENT COMMODITIES.—The Commodity Credit Corporation may provide to a United States exporter, user, or processor, or foreign purchaser, under the program established under this section, agricultural commodities of a kind different than the agricultural commodity involved in the transaction for which assistance under this section is being provided.

"(7) OTHER EXPORT PROGRAMS.—The Commodity Credit Corporation may provide bonuses under this section in conjunction with other export promotion programs conducted by the Secretary or the Commodity Credit Corporation.

"(c) PRIORITY IN THE CASE OF LIVESTOCK.—In the case of proposals for bonuses for dairy cattle or other appropriate livestock, the Commodity Credit Corporation shall give priority to proposals that include, in connection with the purchase of the livestock, appropriate herd management training, veterinary services, nutritional training, and other technical assistance necessary for the adaptation of the livestock to foreign environments.

"(d) INAPPLICABILITY OF PRICE RESTRICTIONS.—Any price restrictions that otherwise may be applicable to dispositions of agricultural commodities owned by the Commodity Credit Corporation shall not apply to agricultural commodities provided under this section.

"(e) RECORDS.—

"(1) IN GENERAL.—In the administration of the program established under this section, the Secretary shall require, by rule, each exporter, user, or processor who receives a bonus under the program to maintain all records concerning a program transaction for a period of 5 years after completion of the program transaction, and to permit the Secretary to have full and complete access, for such 5-year period, to such records.

"(2) NONPROGRAM TRANSACTIONS.—The Secretary may require, by rule, exporters, users, or processors participating in the program to make available, for a period of 5 years after completion of a program transaction, books and other records concerning transactions other than program transactions for purposes of program oversight and administration.

"(3) CONFIDENTIALITY.—The individually identifiable information contained in books and records subject to this subsection shall be considered confidential by the Secretary and by the Department of Agriculture and is not subject to disclosure under section 552 of title 5, United States Code. Any officer or employee of the Department of Agriculture who knowingly discloses information made confidential by this paragraph shall be fined under title 18, United States Code, or imprisoned for not more than 1 year, or both. Nothing in this subsection shall be construed to authorize the withholding of information from the Congress.

"(4) CONDUCT OF RULEMAKING.—Final rules under paragraphs (1) and (2) shall be issued not later than 90 days after the date of enactment of the Food and Agricultural Resources Act of 1990.

"(f) FUNDING LEVELS.—

"(1) IN GENERAL.—The Commodity Credit Corporation shall make available for each of the fiscal years 1991 through 1995 not less than $500,000,000 of the funds or commodities of the Commodity Credit Corporation to carry out the program established under this section.

"(2) LIMITATION.—Not more than 10 percent of the funds and commodities made available for a fiscal year to carry out the program established under this section may be made available to promote the export of agricultural commodities described in section 101(6)(B)(ii).

"(g) IN GENERAL.—It is not the purpose of the program established under this section to affect adversely the exports of agricultural commodities of countries, as determined by the Secretary, that are not engaged in unfairly subsidizing their exports of agricultural commodities. The program shall be implemented in a manner necessary to minimize external and unintended effects damaging to the earnings of such countries from exports of agricultural commodities.

"SEC. 202. MARKET PROMOTION PROGRAM.

"(a) IN GENERAL.—The Commodity Credit Corporation shall establish and carry out a program to encourage the development, maintenance, and expansion of commercial export markets for agricultural commodities through cost-share assistance to eligible trade organizations that implement a foreign market development program.

"(b) TYPE OF ASSISTANCE.—Assistance under this section shall be provided in the form of funds of, or commodities owned by, the Commodity Credit Corporation, as determined appropriate by the Secretary.

"(c) REQUIREMENTS FOR PARTICIPATION.—

"(1) IN GENERAL.—To be eligible for assistance under this section, an organization shall—

"(A) be an eligible trade organization;

"(B) prepare and submit a marketing plan to the Secretary that meets the guidelines governing such plans established by the Secretary; and

"(C) meet any other requirements established by the Secretary.

"(2) PRIORITY BASIS FOR EXPORT ASSISTANCE.—The Secretary shall provide assistance under this section on a priority basis in the case of an unfair trade practice.

"(d) ELIGIBLE TRADE ORGANIZATIONS.—An eligible trade organization shall be—

"(1) an organization that promotes the export and sale of agricultural commodities and that does not stand to profit directly from specific sales of agricultural commodities;

"(2) a cooperative organization or State agency that promotes the sale of agricultural commodities; or

"(3) a private organization that promotes the export and sale of agricultural commodities if the Secretary determines that such organization would significantly contribute to United States export market development.

"(e) APPROVED MARKETING PLAN.—

"(1) IN GENERAL.—A marketing plan submitted by an eligible trade organization under this section shall describe the advertising and other export promotion activities to be carried out by the eligible trade organization with respect to which assistance under this section is being requested.

"(2) REQUIREMENTS.—To be approved by the Secretary, a marketing plan submitted under this subsection shall—

"(A) specifically describe the manner in which assistance received by the eligible trade organization in conjunction with funds and services provided by the eligible trade organization will be expended in implementing the marketing plan;

"(B) establish specific market goals to be achieved as a result of the marketing promotion program; and

"(C) contain whatever additional requirements are determined by the Secretary to be necessary.

"(3) AMENDMENTS.—A marketing plan may be amended by the eligible trade organization at any time, with the approval of the Secretary.

"(4) BRANDED PROMOTION.—An agreement entered into under this section may provide for the use of branded advertising to promote the sale of agricultural commodities in a foreign country under such terms and conditions as may be established by the Secretary.

"(f) OTHER TERMS AND CONDITIONS.—

"(1) MULTIYEAR BASIS.—The Secretary may provide assistance under this section on a multiyear basis, subject to annual review by the Secretary for compliance with the approved marketing plan.

"(2) TERMINATION OF ASSISTANCE.—The Secretary may terminate any assistance made, or to be made, available under this section if the Secretary determines that—

"(A) the eligible trade organization is not adhering to the terms and conditions of the program established under this section;

"(B) the eligible trade organization is not implementing the approved marketing plan or is not adequately meeting the established goals of the marketing promotion program;

"(C) the eligible trade organization is not adequately contributing its own resources to the marketing promotion program;

"(D) the unfair trade practice that was the basis of the provision of assistance has been stopped and marketing assistance is no longer required to offset its effect; or

"(E) the Secretary determines that termination of assistance in a particular instance is in the best interest of the program.

"(3) EVALUATIONS.—The Secretary shall monitor the expenditure of funds received under this section by recipients of such funds. The Secretary shall make evaluations of such expenditure, including—

"(A) an evaluation of the effectiveness of the program in developing or maintaining markets for United States agricultural commodities;

"(B) an evaluation of whether assistance provided under this section is necessary to maintain such markets; and

"(C) a thorough accounting of the expenditure of such funds by the recipient.

The Secretary shall make an initial evaluation of expenditures of a recipient not later than 15 months after the initial provision of funds to the recipient.

"(4) AVAILABILITY OF RECORDS.—

"(A) IN GENERAL.—In the administration of the program established by this section, the Secretary shall require, by rule, each eligible trade organization that receives assistance under the program to maintain all records concerning a program transaction for a period of 5 years after completion of the program transaction, and to permit the Secretary to have full and complete access, for such 5-year period, to such records.

"(B) NONPROGRAM TRANSACTIONS.—The Secretary may require, by rule, eligible trade organizations participating in the program to make available, for a period of 5 years after completion of a program transaction, books and other records concerning transactions other than program transactions for purposes of program oversight and administration.

"(C) CONFIDENTIALITY.—The individually identifiable information contained in books and records subject to this paragraph shall be considered confidential by the Secretary and by the Department of Agriculture and is not subject to disclosure under section 552 of title 5, United States Code. Any officer or employee of the Department of Agriculture who knowingly discloses information made confidential by this subparagraph shall be fined under title 18, United States Code, or imprisoned for not more than 1 year, or both. Nothing in this paragraph shall be construed to authorize the withholding of information from the Congress.

"(D) CONDUCT OF RULEMAKING.—Final rules under subparagraphs (A) and (B) shall be issued not later than 90 days after the date of enactment of the Food and Agricultural Resources Act of 1990.

"(5) LEVEL OF MARKETING ASSISTANCE.—

"(A) IN GENERAL.—The Secretary shall justify in writing the level of assistance provided to an eligible trade organization under the program and the level of cost-sharing required of such organization.

"(B) LIMITATION.—Assistance provided under this section to private organizations for activities described in subsection (e)(4) shall not exceed 50 percent of the cost of implementing the marketing plan. Criteria for determining that cost shall be consistent and such cost shall be documented.

"(g) PROGRAM LEVEL.—The Commodity Credit Corporation shall make available assistance under this section at a level not less than $325,000,000 for each of the fiscal years 1991 through 1995.

"(h) REGIONAL TRADE CENTER SET-ASIDE.—

"(1) IN GENERAL.—The Secretary shall establish as an objective the reservation of an amount of assistance provided under this

section for the benefit of applicants whose applications have been forwarded to the Secretary by the 4 regional nonprofit export trade associations that have been established by a number of States in cooperation with the Foreign Agricultural Service of the Department of Agriculture, and for the benefit of the National Association of State Departments of Agriculture, for purposes such as the conduct of export promotion trade fairs and other export promotional activities.

"(2) DESIRED LEVEL OF SET-ASIDE.—The desired amounts of such assistance should be provided at levels no less than—

"(A) 10 percent in fiscal year 1991,

"(B) 11 percent in fiscal year 1992,

"(C) 12 percent in fiscal year 1993,

"(D) 13 percent in fiscal year 1994, and

"(E) 14 percent in fiscal year 1995,

as the Secretary may determine will best effectuate the goals of this section.

"SEC. 203. EQUITABLE TREATMENT OF HIGH-VALUE AND VALUE-ADDED UNITED STATES AGRICULTURAL COMMODITIES.

"In the case of any program, such as that established under section 201, operated by the Secretary or the Commodity Credit Corporation during the fiscal years 1991 through 1995, for the purpose of discouraging unfair trade practices, the Secretary shall establish as an objective to expend annually at least 25 percent of the total funds available (or 25 percent of the value of any commodities employed) for program activities involving the export sales of high-value agricultural commodities and value-added products of United States agricultural commodities.

"TITLE III—TRADE REPORTING

"SEC. 301. EXPORT REPORTING AND CONTRACT SANCTITY.

"(a) EXPORT SALES REPORTS.—

"(1) IN GENERAL.—All exporters of wheat and wheat flour, feed grains, oil seeds, cotton and products thereof, and other commodities that the Secretary may designate as produced in the United States shall report to the Secretary of Agriculture, on a weekly basis, the following information regarding any contract for export sales entered into or subsequently modified in any manner during the reporting period:

"(A) type, class, and quantity of the commodity sought to be exported;

"(B) the marketing year of shipment; and

"(C) destination, if known.

"(2) CONFIDENTIALITY AND COMPILATION OF REPORTS.—Individual reports shall remain confidential in accordance with subsection (c) but shall be compiled by the Secretary and published in compilation form each week following the week of reporting.

"(3) IMMEDIATE REPORTING.—All exporters of agricultural commodities produced in the United States shall, upon request of the Secretary, immediately report to the Secretary any information with respect to export sales of agricultural commodities and at such times as the Secretary may request. When the Secretary requires that such information be reported by exporters on a daily basis, the information compiled from individual reports shall be made available to the public daily.

"(4) MONTHLY REPORTING PERMITTED.—The Secretary may, with respect to any commodity or type or class thereof during any period in which the Secretary determines that—

"(A) there is a domestic supply of such commodity substantially in excess of the quantity needed to meet domestic requirements,

"(B) total supplies of such commodity in the exporting countries are estimated to be in surplus,

"(C) anticipated exports will not result in excessive drain on domestic supplies, and

"(D) to require the reports to be made will unduly hamper export sales,

provide for such reports by exporters and publishing of such data to be on a monthly basis rather than on a weekly basis.

"(b) REPORT ON ORIGIN OF COMMODITIES.—

"(1) IN GENERAL.—Subject to paragraphs (2) and (3), the Secretary shall require each person making a commercial export of any agricultural commodity or product thereof (hereinafter in this section referred to as a 'good') that is determined by the Secretary to be of commercial significance, before or upon that exportation, to report the quantity of such good so exported, and the percentage of the agricultural components produced in the United States and percentage produced in a foreign country by value and weight, and shall also report such percentages by crop year and type, if necessary or appropriate to determine the identity of the United States and foreign agricultural components of the good exported.

"(2) EXEMPTION.—A person shall not be required to report any information under paragraph (1) that cannot be obtained from records maintained in the ordinary course of business.

"(3) REPORTS FOR HIGH-VALUE PROCESSED PRODUCTS.—With respect to exports of any good that is a high value, complex, processed product (as determined by the Secretary), a report under paragraph (1) need only be made for exports of that good over a period of not more than 1 year, and the information required under paragraph (1) may be aggregated for the period covered by the report.

"(4) CODES.—The Secretary may establish codes to identify the type and characteristics of each commodity for the purposes of reports under paragraph (1).

"(5) COMPILATION OF REPORTS.—Individual reports under this subsection shall remain confidential in accordance with subsection (c) but may be compiled by the Secretary and published in compilation form on a quarterly basis.

"(c) CONFIDENTIALITY.—The individually identifiable information contained in reports under this section shall be considered confidential by the Secretary and by the Department of Agriculture and is not subject to disclosure under section 552 of title 5, United States Code. Any officer or employee of the Department of Agriculture who knowingly discloses information made confidential by this subsection shall be fined under title 18, United States Code, or imprisoned for not more than 1 year, or both. Nothing in this section shall be construed to authorize the withholding of information from the Congress.

"(d) FAILURE TO REPORT.—Any person who knowingly fails to make any report required under this section shall be fined not more than $25,000 or imprisoned for not more than 1 year, or both.

"(e) CONTRACT SANCTITY.—Notwithstanding any other provision of law, the President shall not prohibit or curtail the export of any agricultural commodity under an export sales contract—

"(1) that is entered into before the President announces an action that would otherwise prohibit or curtail the export of the commodity, and

"(2) the terms of which require delivery of the commodity within 270 days after the date of the suspension of trade is imposed,

except that the President may prohibit or curtail the export of any agricultural commodity during a period for which the President has declared a national emergency or for which the Congress has declared war.

"TITLE IV—REPORTS

"SEC. 401. NONGOVERNMENTAL SUBSIDIES.

"(a) IN GENERAL.—The Secretary shall submit a report to the Committee on Agriculture and the Committee on Foreign Affairs of the House of Representatives and the Committee on Agriculture, Nutrition, and Forestry of the Senate specifying any nongovernmental agricultural subsidies provided in any foreign country. In compiling such report, the Secretary shall give priority to specifying those nongovernmental subsidies provided to livestock and commodities for which there is a price support program or marketing agreement or order in effect in the United States.

"(b) DEADLINES.—The Secretary shall submit the report specified in subsection (a) no later than 180 days after the date of enactment of the Food and Agricultural Resources Act of 1990, and shall submit additional reports at 1 year intervals for each of the next 5 years after the submission of the first report.

"SEC. 402. LONG-TERM AGRICULTURAL TRADE STRATEGY REPORT.

"(a) IN GENERAL.—The Secretary of Agriculture shall every 3 years prepare a long-term agricultural trade strategy report on the long-term agricultural trade strategy developed by the Secretary under section 105. The first such report shall be submitted under subsection (e) before the beginning of fiscal year 1992. Each subsequent report shall be submitted under subsection (e) before the beginning of each third fiscal year occurring after fiscal year 1992.

"(b) CONTENTS.—

"(1) IN GENERAL.—Each report prepared under subsection (a) shall describe in detail each aspect of the long-term agricultural trade strategy prepared under section 105.

"(2) REVIEW OF IMPLEMENTATION.—In each report submitted after the first report, the Secretary shall—

"(A) review the agricultural trade performance of the United States during the fiscal years ending since submission of the preceding report, in light of the long-term agricultural trade strategy and trade goals developed by the Secretary for such fiscal-year period under this Act;

"(B) determine whether and to what extent individual market plans developed under section 105(e) were successfully implemented during such fiscal-year period;

"(C) determine whether the use of any United States Government programs designed to promote exports of United States agricultural commodities resulted in such agricultural exports or increased agricultural exports or market share in the priority markets during such fiscal-year period; and

"(D) conduct a country-by-country analysis of expenditures made under United States Government programs designed to promote exports of United States agricultural commodities and the export performance of the United States in such market during such fiscal-year period.

"(c) CONSULTATION.—In preparing each report under subsection (a), the Secretary shall consult with the United States Trade Representative to ensure that the report is coordinated with the annual national trade policy agenda included in the annual report for the relevant fiscal year prepared under section 163 of the Trade Act of 1974.

"(d) UPDATE.—The Secretary shall prepare an annual update to the report required under subsection (a) that shall contain a description of any revisions to the long-term agricultural trade strategy made by the Secretary, any changes in law that are required to meet the goals of the long-term agricultural trade strategy, and such other information as may be specified in this section or determined appropriate by the Secretary.

"(e) TREATMENT AS ANNUAL BUDGET SUBMISSION.—The long-term agricultural trade strategy report under subsection (a) shall be submitted with the annual budget submission of the President to the Congress for fiscal year 1992 and for each third fiscal year thereafter. The annual updates under subsection (d) of each such report shall be submitted, respectively, with the annual budget submission of the President to the Congress for the 2 fiscal years after submission of such report. Any provision of the long-term agricultural trade strategy report or annual update that relates to recommended levels of spending on international activities of the Department of Agriculture shall be treated as the annual budget submission of the President to the Congress for such activities for the fiscal year beginning in the year in which the report is submitted, and shall be submitted together with the budget request for other programs of the Department of Agriculture for such fiscal year.

"(f) AVAILABILITY OF REPORT.—

"(1) SUBMISSION TO CONGRESS.—The Secretary shall submit each report required under subsection (a) (and the updates to such report under subsection (d)) to the Committee on Agriculture, the Committee on Foreign Affairs, and the Committee on Ways and Means of the House of Representatives and to the Committee on Agriculture, Nutrition, and Forestry and the Committee on Finance of the Senate.

"(2) AVAILABILITY TO PUBLIC.—Except as provided in paragraph (3), the Secretary may make the report required under subsection (a) available to the general public, including the department of agriculture of any State.

"(3) CONFIDENTIALITY.—The Secretary may designate portions of the report required under subsection (a) or any update prepared under subsection (d) as confidential and not to be released to the general public if—

"(A) the Secretary determines that the release of such information would disadvantage the United States with respect to its competitors in specific foreign markets; or

"(B) any of such information is determined to be confidential business information.".

(b) CONFORMING AMENDMENTS.—(1) Section 1113(c)(9) of the Food Security Act of 1985 (7 U.S.C. 1736-1(c)(9)) is amended—

(A) in subparagraph (A) by adding "and" after the semicolon;

(B) by striking subparagraph (B); and

(C) by redesignating subparagraph (C) as subparagraph (B).

(2) Section 4201 of the Agricultural Competitiveness and Trade Act of 1988, and the item relating to section 4201 in the table of contents for the Omnibus Trade and Competitiveness Act of 1988, are repealed.

SEC. 1222. AMENDMENTS RELATING TO EXPORT CREDIT PROGRAMS.

(a) GUARANTEES FOR WOOD AND FISH.—Section 4(b)(1) of the Food for Peace Act of 1966 (7 U.S.C. 1707a(b)(1)) is amended by adding at the end the following new sentence: "In making available any assistance under this paragraph with respect to wood and processed wood products or fish and processed fish products, the Secretary of Agriculture shall make such guarantees available under terms and conditions comparable to terms and conditions that apply to other agricultural products.".

(b) CRITERIA FOR USE OF AUTHORITY.—Section 4(b)(2) of the Food for Peace Act of 1966 (7 U.S.C. 1707a(b)(2)) is amended by inserting "directly benefit United States agricultural producers and will" after "that the sale will".

(c) PROGRAM LEVEL.—Section 4(b)(10) of the Food for Peace Act of 1966 (7 U.S.C. 1707a(b)(10)) is amended by striking "available—" and all that follows through the end of the paragraph and inserting "available not less than $500,000,000 for each of fiscal years 1991 through 1995.".

(d) CREDIT GUARANTEES.—Section 4 of the Food for Peace Act of 1966 (7 U.S.C. 1707a) is amended by adding at the end the following:

"(e) RESTRICTION.—The Corporation shall not make credit guarantees available to any country which the Secretary determines cannot adequately service the debt associated with the guarantee.

"(f) FRAUD.—If the Corporation finds that any exporter or assignee has engaged in fraud or in any scheme, trick, or device to misuse or misappropriate any credit guarantee made available under this section, the relevant export credit guarantee issued under this section is no longer valid.

"(g) DIVERSION OF CARGO.—

"(1) IN GENERAL.—The Secretary shall ensure that commodities exported under any program under this section arrive at the specified destination country. The Secretary may provide for an exception if such arrival does not occur due to force majeure.

"(2) ENFORCEMENT.—The Secretary shall provide that in the case commodities exported under any program under this section fail to arrive at the specified destination country, except as provided under paragraph (1)—

"(A) any person receiving a credit guarantee under this section in connection with such commodities shall be liable for the amount of any amounts paid under such guarantee and shall be ineligible for participation in any program under this section for a period of up to 5 years, unless such failure was beyond the control of such person and without negligence or acquiescence on the part of such person; and

"(B) if such failure is attributable in whole or in part to the specified destination country, no credit or guarantee is made available under any program under this section for exports to such country for a period of at least 1 year.

"(3) SCHEME OR DEVICE.—Any person who engages in any scheme or device to circumvent the provisions of this subsection shall be ineligible to participate in any program under this section for a period of up to 5 years. The Secretary shall provide that, for a period of at least 1 year, no credit or guarantee is made available under any program under this section for exports to any country that engages in any scheme or device to circumvent the provisions of this subsection.

"(4) OTHER REMEDIES UNAFFECTED.—The remedies provided under this subsection are in addition to any remedy available under any other provision of law.

"(h) FOREIGN AGRICULTURAL COMPONENTS.—The Commodity Credit Corporation shall finance or guarantee under this section only United States agricultural commodities, as defined in section 101(6) of the Agricultural Trade Act of 1978. The Commodity Credit Corporation shall not finance or guarantee under this section the value of any foreign agricultural component.

"(i) RECORDS.—

"(1) IN GENERAL.—In the administration of the program established under this section, the Secretary shall require, by rule, each exporter under the program to maintain all records concerning a program transaction for a period of 5 years after completion of the program transaction, and to permit the Secretary to have full and complete access, for such 5-year period, to such records.

"(2) NONPROGRAM TRANSACTIONS.—The Secretary may require, by rule, exporters participating in the program to make available, for a period of 5 years after completion of a program transaction, books and other records concerning transactions other than program transactions for purposes of program oversight and administration.

"(3) CONFIDENTIALITY.—The individually identifiable information contained in books and records subject to this subsection shall be considered confidential by the Secretary and by the Department of Agriculture and is not subject to disclosure under section 552 of title 5, United States Code. Any officer or employee of the Department of Agriculture who knowingly discloses information made confidential by this paragraph shall be fined under title 18, United States Code, or imprisoned for not more than 1 year, or both. Nothing in this subsection shall be construed to authorize the withholding of information from the Congress.

"(4) CONDUCT OF RULEMAKING.—Final rules under paragraphs (1) and (2) shall be issued not later than 90 days after the date of enactment of the Food and Agricultural Resources Act of 1990.".

(e) USE OF PROGRAM.—Section 4(b)(5) of the Food for Peace Act of 1966 (7 U.S.C. 1707a(b)(5)) is amended by inserting ", foreign policy," after "foreign aid".

(f) SHORT-TERM EXPORT CREDIT GUARANTEES.—Section 1125 of the Food Security Act of 1985 (7 U.S.C. 1736t) is amended—

(1) in subsection (b) by striking "1990" and inserting "1995";

(2) in subsection (d)—

(A) by inserting "(1)" after "(d)"; and

(B) by adding at the end the following:

"(2) In making available any guarantees under subsection (b) with respect to wood and processed wood products or fish and processed fish products, the Corporation shall make such guarantees available under terms and conditions comparable to terms and conditions that apply to other agricultural products."; and

(3) by adding at the end the following new subsections:

"(e) FOREIGN AGRICULTURAL COMPONENTS.—The Commodity Credit Corporation shall guarantee under any program conducted under this section only United States agricultural commodities, as defined in section 101(6) of the Agricultural Trade Act of 1978. The Commodity Credit Corporation shall not guarantee under this section the value of any foreign agricultural component.

"(f) RECORDS.—

"(1) IN GENERAL.—In the administration of the program described in this section, the Secretary shall require, by rule, each exporter under the program to maintain all records concerning a program transaction for a period of 5 years after completion of the program transaction, and to permit the Secretary to have full and complete access, for such 5-year period, to such records.

"(2) NONPROGRAM TRANSACTIONS.—The Secretary may require, by rule, exporters par-

ticipating in the program to make available, for a period of 5 years after completion of a program transaction, books and other records concerning transactions other than program transactions for purposes of program oversight and administration.

"(3) CONFIDENTIALITY.—The individually identifiable information contained in books and records subject to this subsection shall be considered confidential by the Secretary and by the Department of Agriculture and is not subject to disclosure under section 552 of title 5, United States Code. Any officer or employee of the Department of Agriculture who knowingly discloses information made confidential by this paragraph shall be fined under title 18, United States Code, or imprisoned for not more than 1 year, or both. Nothing in this subsection shall be construed to authorize the withholding of information from the Congress.

"(4) CONDUCT OF RULEMAKING.—Final rules under paragraphs (1) and (2) shall be issued not later than 90 days after the date of enactment of the Food and Agricultural Resources Act of 1990.".

SEC. 1223. MARKET DEVELOPMENT TASK FORCE.

(a) ESTABLISHMENT.—The Secretary of Agriculture (hereinafter in this section referred to as the "Secretary") shall establish a task force, to be known as the "Market Development Task Force" (hereinafter in this section referred to as the "Task Force"), to help develop the long-term agricultural trade strategy required by section 105 of the Agricultural Trade Act of 1978, and to coordinate and disseminate information, and provide advice and education to entities, concerning agricultural export markets and domestic agricultural trade programs.

(b) COMPOSITION.—The Task Force shall be composed of 12 members, of which—

(1) 1 member shall be the Administrator of the Foreign Agricultural Service, or such Administrator's designee;

(2) 1 member shall be the Secretary of Commerce, or such Secretary's designee;

(3) 1 member shall be the United States Trade Representative, or such Representative's designee;

(4) 1 member shall be the Administrator of the Small Business Administration, or such Administrator's designee;

(5) 1 member shall be the Administrator of the Extension Service, or such Administrator's designee;

(6) 1 member shall be the Administrator of the Agricultural Stabilization and Conservation Service, or such Administrator's designee;

(7) 1 member shall be a representative of the National Association of State Departments of Agriculture (NASDA);

(8) 1 member shall be the special assistant to the President appointed under section 1113 of the Food Security Act of 1985 (7 U.S.C. 1736-1), or such assistant's designee; and

(9) 4 members shall be from the private sector who represent different interests in the agriculture sector of the United States economy.

(c) CHAIRPERSON.—The Administrator of the Foreign Agricultural Service shall serve as the Chairperson of the Task Force.

(d) VACANCIES.—A vacancy occurring on the Task Force among the members described in subsections (b)(7) and (b)(9) shall be filled in the same manner in which the original appointment was made.

(e) EQUIPMENT AND STAFF.—

(1) PERSONNEL.—The Secretary shall make available to the Task Force office facilities and equipment necessary to enable the Task Force to effectively carry out its functions.

(2) STAFF.—The members of the Task Force identified in paragraphs (1) through (6) of subsection (b) shall make available to the Task Force such personnel, and the Secretary shall employ such additional staff, as are necessary to enable the Task Force to effectively carry out its functions.

(f) FUNCTIONS.—The Task Force shall—

(1) participate in—

(A) the development of the long-term agricultural trade strategy required by section 105 of the Agricultural Trade Act of 1978, placing particular emphasis on developing a strategy through which the Federal Government can support the export of value-added or high-value United States agricultural commodities (as defined in section 101(6) of the Agricultural Trade Act of 1978); and

(B) the preparation of the report to the Congress on the long-term agricultural trade strategy and the annual revisions to that strategy required by section 402 of the Agricultural Trade Act of 1978;

(2) coordinate the information available concerning—

(A) the locations of existing and potential export markets for United States agricultural commodities (as defined in section 101(6) of the Agricultural Trade Act of 1978);

(B) the types of commodities and products desirable in such markets;

(C) the existence of trade barriers applicable to such markets;

(D) the existence of Federal trade program opportunities that are available to domestic exporters; and

(E) any other information related to such markets;

(3) disseminate information relating to the long term agricultural trade strategy required by section 105 of the Agricultural Trade Act of 1978;

(4) annually produce, publish, and disseminate throughout the United States through the Extension Service and through regional trade organizations, a catalog containing information available through the Federal Government concerning such markets;

(5) act as an advisor to and consult with State governments to promote the establishment and use of such markets; and

(6) perform any other functions determined appropriate by the Task Force.

(g) CONSULTATION WITH PARTICIPANTS IN PROGRAMS.—The Task Force shall consult with participants in agricultural trade programs, including regional trade organizations, in carrying out the functions of the Task Force.

(h) REGULATIONS.—Not later than 180 days after the date of enactment of this Act, the Secretary shall prepare and submit, to the Committee on Agriculture and the Committee on Foreign Affairs of the House of Representatives and the Committee on Agriculture, Nutrition, and Forestry of the Senate, proposed regulations necessary to establish and administer the Task Force.

(i) RELATIONSHIP TO USTR FUNCTIONS.—The functions and responsibilities of the Task Force may not conflict with, or supercede, any authority of the United States Trade Representative to determine the existence of trade barriers or unfair trade practices under the Trade Act of 1974, or to develop or coordinate the trade policy of the United States.

(j) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated such sums as may be necessary to carry out this section.

(k) TERMINATION.—The Task Force shall cease to exist 5 years after the date of enactment of this Act.

SEC. 1224. PROHIBITION ON EXPORT PROMOTION.

(a) PROHIBITION.—Except as provided in subsection (b), neither the Secretary of Agriculture nor the Commodity Credit Corporation may make available any credit guarantee pursuant to section 1125 of the Food Security Act of 1985 (7 U.S.C. 1736t) or section 4 of the Food for Peace Act of 1966 (7 U.S.C. 1707a), or any other commercial export promotion program, for exports to any country for which exports under such program, as a result of review by the Commodity Credit Corporation, have been suspended if such country—

(1) has demonstrated, through a pattern of conduct, a lack of respect for internationally recognized human rights,

(2) is acquiring chemical, biological, and nuclear weapons and delivery systems and components for such weapons, and has not forsworn the first use of such weapons,

(3) has demonstrated a lack of commitment to abide by the 1925 Geneva Protocol for the Prohibition of the Use in War of Asphyxiating, Poisoning or Other Gases, and of Bacteriological Methods of Warfare, or

(4) provides support for international terrorism.

(b) EXCEPTION.—Subsection (a) shall not apply if the President certifies to the Congress—

(1) that the government of such country—

(A) has demonstrated, through a pattern of conduct, substantial improvement in its respect for internationally recognized human rights,

(B) is no longer acquiring chemical, biological, and nuclear weapons and delivery systems and components for such weapons, and has not forsworn the first use of such weapons,

(C) has recommitted itself to abide by the 1925 Geneva Protocol for the Prohibition of the Use in War of Asphyxiating, Poisoning or Other Gases, and of Bacteriological Methods of Warfare, and

(D) does not provide support for international terrorism; and

(2) that the President has determined that it is essential to the national interests of the United States to waive the requirements of subsection (a);

except that any such waiver shall not take effect until at least 60 days after the President's certification is submitted to the Congress. Any such certification shall include the justification for the President's determination under each subparagraph of paragraph (1) and under paragraph (2).

(c) EFFECTIVE DATES.—This section shall cease to be effective 4 years after the date of enactment of this Act. The provisions of this section shall not apply to contracts or agreements entered into before July 27, 1990.

(d) REALLOCATION.—Any program amounts denied to a country pursuant to subsection (a) shall be reallocated to other countries, including emerging democracies (as defined in section 406 of the Agricultural Trade Development and Assistance Act of 1954).

SEC. 1225. PROTECTING UNITED STATES AGRICULTURAL EXPORTS.

If the Secretary of Agriculture finds that the credit restrictions imposed by section 1224 would result in decreasing the export of agricultural products from the United States that are readily available to a country to which section 1224 applies from non-United States sources, so that the impact of the restrictions of credit imposed under that section would harm American farmers more than it would that country, the Secretary may waive such restrictions with respect to

that country. Restrictions on credit under section 1224 shall not become effective until after the Secretary of Agriculture has studied the impact of such credit restrictions and determined whether such restrictions would have a negative impact greater upon American farmers than upon a country to which section 1224 applies.".

Subtitle C—Agricultural Trade With and Fellowships for Emerging Democracies and Middle-Income Countries

SEC. 1231. PROMOTION OF AGRICULTURAL EXPORTS TO EMERGING DEMOCRACIES.

(a) GUARANTEES TO BE MADE AVAILABLE.—(1) The Commodity Credit Corporation, for each of fiscal years 1991 through 1995—

(A) shall make available not less than $225,000,000 of export credit guarantees for exports to emerging democracies under the program described in section 1125(b) of the Food Security Act of 1985 (7 U.S.C. 1736t(b)), in addition to the amounts required under that section;

(B) shall make available $50,000,000 to guarantee financing, on terms of not less than 3 years nor more than 10 years, for the establishment or improvement by United States persons of facilities in emerging democracies to improve handling, marketing, processing, storage, or distribution of imported agricultural commodities and products thereof if the Secretary of Agriculture determines that such guarantees will primarily promote the export of United States agricultural commodities (as defined in section 101(6) of the Agricultural Trade Act of 1978); and

(C) is encouraged to make available guarantees under section 4(b) of the Food for Peace Act of 1966 (7 U.S.C. 1707a(b)), in addition to the amounts otherwise available under that section, for exports to emerging democracies.

The Commodity Credit Corporation shall give priority under subparagraph (B) to opportunities or projects identified under subsection (b).
